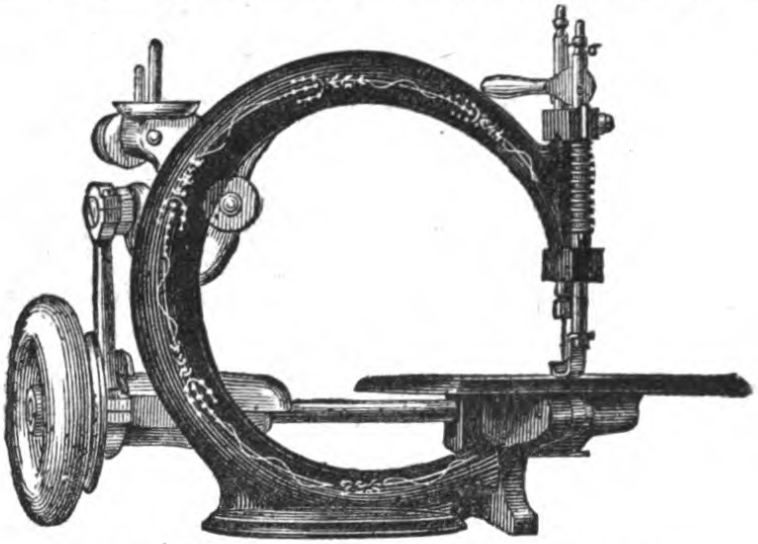
WILLCOX & GIBBS

SILENT FAMILY SEWING MACHINE.

Every kind of Family Sewing is done more easily, more quietly, more beautifully, more perfectly, and every way more satisfactorily, by the WILLCOX and GIBBS SILENT SEWING MACHINE than by any other Sewing Mechanism yet devised.



MACHINE DETACHED FROM STAND.

This machine is exceedingly simple; and the workmanship, finish, and adjustment of it perfect. It is scarcely ever out of order, and is always ready for use. The parts of which it is composed are so few, and its movements are so easily understood, that everybody can use it even without instructions—though printed "directions" are always sent with it. Not merely the female head of the household, but the little girl of six years, and the grandmother of 70, the unskilful, the feeble, even the blind—every member of the family who is able to do anything—can operate and manage this machine successfully,

Its needle is straight, and the shortest in use. It is also self-adjusting, and cannot be set wrong; and it is scarcely ever broken, even in careless hands.

Its work is unequalled in beauty, strength, and durability by that of any other machine; or even by the most perfect hand sewing. There being but one thread, there is no rewinding, and adjusting of shuttles and under-tensions. The stitch is more secure and elastic than any other stitch now made.

Though the Willcox and Gibbs is comparatively a new machine, having been only about ten years in the market, there have been upwards of 200,000 of the machines sold—nearly all of them for use in families; and so far as we know every one has given complete satisfaction.

"The best and cheapest family machine in the world."

Price List and other information forwarded on application.

Those marked thus * are kept strictly, and no business transacted.
All Jewish Festivals, Sabbaths, and the Fasts of Atonement and Ab, commence on the evening previous.

A SUMMARY OF THE PRINCIPAL ASTRONOMICAL AND METEOROLOGICAL OCCURRENCES FOR THE YEAR 1875.

By F. Abbott, F.R.A.S., etc.

Explanation.—*Sun's Rising and Setting.*—These numbers show the mean time when the Sun's centre, elevated by refraction, appears on the horizon, the eye being on a level with it.

Phases of the Moon.—The times are here given to the nearest second when the Moon is respectively 0deg., 90deg., 180deg., and 270deg. of longitude from the sun.

Geographical Positions.—The position arrived at for the Magnetic Observatory in 1852 by Commander Kay gave to Fort Mulgrave, east longitude 9h. 49m. 29·6s. Captain Denham, of H.M.S. *Herald*, with 32 chronometers, 1856 to 1858, gave 9h. 49m. 28·8s., giving a mean longitude 9h. 49m. 29·2s. The private Observatory lies on a direct line North and South with Fort Mulgrave, and taken in connection with observations made on the transit of Mercury over the Sun's disc Nov. 5th, 1868, gives a very close result to 9h. 49m. 29·2s., which has been here adopted.

ECLIPSES.

In the year 1875 there will be two eclipses, both of the Sun, neither of which will be visible in Tasmania.

First.—A total eclipse of the Sun, April the 6th, which will be visible in South Africa, India, China, the East India Islands, and North Australia. The line of totality will extend from a point near the Cape of Good Hope, through the Indian Ocean, Siam, and Cochin China.

Second.—An annular eclipse of the Sun on September 29th, invisible in Tasmania. This eclipse will be seen in Africa, Western Europe, the east of North America, and the Atlantic Ocean. The central line will extend from near Boston, across the North Atlantic, to Upper and Lower Guinea and Madagascar.

PROGRESS OF ASTRONOMY.

Transit of Venus at Hobart Town and Campbell Town, December 9th, 1874. In the forenoon the weather was showery, with dark floatihg clouds until 2 p.m. At Campbell Town, Captain Raymond, of the American scientific party, obtained one contact, 132 photographs, and many measurements. Professor Harkness, at Hobart Town, got 39 photos. of Venus on the sun, and 74 Jansenn's photographs of egress; contacts all lost. At the private observatory the third contact was well seen. Considering the state of the weather, these results are very satisfactory.

In one second of time Venus moves over about 0″ 02; and if the time of contact, with an error of only a second, the sun's parallax will have an error of only ·02 of a second for the sun's distance, the former results of which are as follow:—

Transit of Venus	8″ 91=	91,580,000	miles
Opposition of Mars	8″ 943=	91,240,000	miles
Lunar theory	8″ 916=	91,520,000	miles
Planetary ditto	8″ 859=	92,110,000	miles
Jupetero satellites	8″ 86=	92,100,000	miles
Velocity of light and constant of aberration	8″ 86=	92,100,000	miles

The late transit has been observed from 75 stations. The reductions from the whole of the observations will take so long that the complete result is not hoped for before the year 1876.

Comets.—Comet 1 of 1874 was discovered by Dr. Winneche, of Strasburg, in the nights of February 20, 21. Its observed approximate place determined for comparison with a star of the 9th magnitude. Comet 2, 1874, was discovered by Dr. Winneche, at Strasburg, on April 11th. Comet 3 of 1874 was discovered by M. Coggia, at Marseilles, on April 17th. The elements of this comet show a similarity with those of comet 2 of 1737. Tempel's short period comet on July 3rd was in the constellation Cetus. Mr. Hind's orbit makes its periodic time a little more than 6 years: Pro. Bruhen's about 5½. It approaches very near to the orbits of both Mars and Jupiter. Comet 5, 1873, was observed at Marseilles by M. Stephan on September 20th. Comet 6, 1873, Fay's periodical comet, was detected at Marseilles by M. Stephan on September 3rd. Comet 7, 1873, was discovered by M. Coggia at Marseilles on November 10th, and also independently by Dr. Winneche at Strasburg November 11th. M. Hind and Dr. Weiss have both remarked that the elements of this comet bear a great resemblance to those of Pon's first comet of 1818.

New Planets.—The recently discovered planets have been named as follow:—129, Antigone, discovered by Dr. Peters, February

5th, 1873. 130, Electra, discovered by Dr. Peters, February 17th, 1873. 131, Vala, discovered by Dr. Peters, May 24th, 1873. 132, Aethra, discovered by Mr. Watson, July 13th, 1873. 133, Cyrene, discovered by Mr. Watson, August 16th, 1873. 134, Saphrosyne, discovered by Luther, September 27th, 1873. 135, this planet, discovered in 1874, has not been named. 136, this planet was discovered by M. Palisa at Pola on March 18th, 1874. 137, this planet of the 12th magnitude was discovered by M. Palisa, at Pola, April 23rd. 138, discovered by M. Perrotin, May 19th.

This table exhibits half the time that a celestial object continues above the horizon when the declination and latitude are of the same name, or below when they are of contrary names; whence, by adding or subtracting from its meridian passage, the apparent time of its rising and setting for this latitude may be computed.

None of the Planets are visible till the Sun is a certain number of degrees below the horizon, viz. :—

Mercury	10°
Venus	5°
Mars	11° 30′
Jupiter	8° 00′
Saturn	10° 00′

It is clear from the foregoing table that Hobart Town has the most equable climate in the list. This arises from its insular position. Heat absorbed by a fluid increases the rate of its evaporation, and the evaporating process reduces the sensible amount of latent heat which the body has acquired. Every accession of temperature brings with it its own remedy—for at night the process is reversed, radiation takes place more slowly; from which, together with minor causes in connection with that of sea breezes, the temperature at the surface remains comparatively unaltered, and renders our beautiful island the Queen of the South.

NOTES ON METEOROLOGICAL TABLE.

As the following statement will show, the results of the thirty years' observations agree very closely with those of the twenty-five years previously published; the difference in many cases amounting to only a second or third place of decimals. This will tend to prove that the observations have been correctly made and carefully recorded:—

Barometer, mean for 30 years, 29·850, being + ·043 in excess of 25 years' mean.
Temperature, ditto, 54·72, being + ·27 ditto.
Diurnal range of temperature, ditto, 17·91, being + ·05 ditto.
Solar intensity, mean for 15 years, 93·39, being + ·40 in excess of 10 years' mean.
Terrestrial radiation, ditto, 43·01, being + ·15 ditto.
Dew point, mean position for 30 years, 45·49, being + ·04 in excess of 25 years' mean.
Humidity of air, mean for 30 years, 75 per cent., being the same as for 25 years.
Elastic force of vapour, ditto, ·316, being + ·001 in excess of 25 years' mean.
Rainfall, ditto, 22·71 in., being + ·06 ditto.
Number of days on which rain fell, mean for 16 years, 139·88, being — 5·39 below 11 years' mean.
Ozone, mean for 14 years, 7·24, being + ·06 above 9 years' mean.
Prevailing direction of wind, N.W. & S.E., is the same as in the 25 years' tables.
Wind force, mean for 14 years, 58·37 lbs., is — 4·63 lbs. below the 9 years' mean in the 25 years' tables.
During the five years 1866, '67, '68, '69, and 1870, the Meteorological Observations were, as previously, under my own charge; the general management of all the operations connected with the department being carried on by me at the private observatory.

GARDENERS' CALENDAR.—*Fruit Garden.*—Where budding is required it may still be performed, choosing, if possible, showery weather. Cut off all surplus shoots from young trees, if they are not required for scions in the Spring. Continue to pinch off all lateral shoots from vines. *Flower Garden.*—Choice carnations may be increased by cuttings and layers with shade and moisture. Choice flowers should be marked for seed. Annuals that have done flowering should be removed, or some will become troublesome weeds. *Kitchen Garden.*—Plant celery in trenches, and a succession of French beans; sow turnips when the weather is moist; take up early potatoes that are ripe; gather all kinds of seeds as they ripen; cut from strawberries all runners that are not wanted for plants, to give strength to the roots. *Greenhouse.*—Calceolarias, cinerarias, etc., may still be sown. Geraniums that have done flowering should be cut down; re-pot as soon as they begin to make fresh shoots. Cuttings struck now will make good plants next year, with care. Continue to shade and water as directed last month.

JANUARY 6.—Called *Twelfth Day*, as being that number after Christmas, and *Epiphany* from a Greek word signifying "appearance." It is a festival of the church in commemoration of the manifestation of Christ to the Gentiles,—more expressly to the three magi or wise men of the East who came, led by a star, to worship him immediately after his birth. The Queen, through the Lord Chamberlain, annually on this day presents gold, frankincense, and myrrh at the Chapel Royal.

GARDENERS' CALENDAR.—*Fruit Garden.*—Little is required this month besides attending to the buds. Strawberry runners should be kept moist to form robust plants in time for transplanting in the first Autumn rains. *Flower Garden.*—Cut off all flower stalks as soon as done flowering, except those required for seed. The flowering season is prolonged by cutting off surplus seed as soon as formed. Verbenas, pentstemons, petunias, and other herbaceous perennial plants may now be propagated by cuttings. Encourage asters, chrysanthemums, dahlias, etc., by frequent watering. Use the rake to preserve a neat appearance. *Kitchen Garden.*—In showery weather vegetables may be sown to come in during the Winter. Mark out plants of the cabbage tribe to run to seed. Earth up peas and potatoes; hoe and stir the surface among all descriptions of crops. *Greenhouse.*—As the principal displays of this season are over, turn your attention to preparation for the next by propagating by seed and cuttings, and preserving such old plants as are desirable for another year. This is the time for forming plants of the early flowers, too frequently neglected by amateurs until the flowering season. Sow mignonette for Winter flowering.

SEPTUAGESIMA and the next two Sundays are preparatory to the Lenten fast, which begins about forty days before Easter, and hence is called Quadragesima. Their names are significant of their situation, thus :—Septuagesima (seventy days), Sexagesima (sixty days), and Quinquagesima (fifty days) before Easter.

GARDENERS' CALENDAR.—*Fruit Garden.*—Prepare borders for forming new beds of strawberries on the first approach of rain. The ground intended to be planted with fruit trees should now be well worked. Collect the leaves as they fall and convert them into manure. *Flower Garden.*—Continue the general directions given for last month, and sow seed of perennial and annual flowers for Spring flowering as they ripen. *Kitchen Garden.*—Sow cabbage, cauliflowers, lettuce, spinach, and onions for early use. Sow turnips, thin out those sown last month. Earth up celery, take up potatoes, and house onions when well dried. *Greenhouse.*—Continue the general directions given for last month.

SHROVETIDE (Feb. 7) derives its title from the practice of being *shriven* or *shrove*—that is, confessing and receiving absolution—before the Lenten fast.

ASH WEDNESDAY (Feb. 10).—So called on account of penitents wearing sackcloth next their skin and sprinkling ashes on their heads.

ST. PATRICK.—The shamrock is said to be worn by the Irish upon the anniversary of this their tutelar saint for the following reason:—When he preached the gospel to the pagan Irish, he illustrated the doctrine of the Trinity by showing them a trefoil, or three-leaved grass, with one stalk; which operating to their conviction, the shamrock, which is a bundle of this grass, was ever afterwards worn upon this saint's anniversary, to commemorate the event.

PALM SUNDAY was so called to commemorate the triumphal entry of our Saviour into Jerusalem, when the multitude strewed palm-branches in the way.

GARDENERS' CALENDAR.—*Fruit Garden.*—Continue to prepare the ground intended for planting with strawberries and fruit trees; secure the leaves as directed last month. *Flower Garden.*—Plant jonquils, snowdrops, crocuses, ranunculuses, anemones, and other early flowering bulbs; sow seeds of stocks, wall-flowers, sweet-williams, and other biennials, for transplanting in the Spring, if you have not sufficient Spring-sown ones. Verbenas, petunias, pentstemons, etc., may still be propagated by cuttings. Dahlias should be taken up and stored in a dry airy place soon after the frost has killed the stems. Plant deciduous trees. *Kitchen Garden.*—Sow cauliflowers, cabbages, and lettuce; plant out those sown last month; sow spinach and turnips; sow onions for planting out; earth up celery. Carrots may be sown for early use. *Greenhouse.*—Remove all tender plants into the house; encourage the growth of geraniums, calceolarias, cinerarias, etc., by re-potting as soon as the present pots are filled with roots, and keep them free from *aphis* by washing, fumigation, &c. Fuchsias that have done flowering should be kept moderately dry during the dormant state; give plenty of air during fine weather.

GARDENERS' CALENDAR.—*Fruit Garden.*—Planting of vines and fruit trees may be commenced towards the end of the month; in the meantime keep the ground well worked in dry weather, and dig between the old trees as soon as the leaves have fallen. Keep the surface of the ground loose between the rows of newly planted strawberries, and dig between the rows of the old ones. *Flower Garden.*—Plant bulbs of nearly all the hardy species in dry weather; dig and manure borders between shrubs and herbaceous plants, and form new ones where required, leaving the ground rough. Carnations, etc., that have been propagated during the Summer may now be formed into beds, and shrubs, roses, etc., may be planted towards the end of the month. Examine the haunts of slugs, as every one destroyed now will save considerable trouble and annoyance in the Spring. *Kitchen Garden.*—Continue to sow and plant a succession of vegetables, salading, etc.; dig and manure all spare ground in dry weather. Dress asparagus beds for the Winter. *Greenhouse.*—Cuttings of geraniums that have struck root should be potted into small pots, to be shifted into larger as they advance in growth. The same rule applies to cinerarias, calceolarias, etc.; give air freely during fine weather, and water moderately during damp or wet weather. Gloxinias, achimenes, and other bulbous plants that have done flowering, should be allowed to dry off; primulas and cyclamens that are coming into bloom should be kept near the glass and watered freely.

ROGATION.—From the Latin *rogare*, to beseech. Special prayers are appointed as a preparation for the observance of the Ascension.

in the primitive church the newly baptised appeared at worship between Easter and Pentecost in white garments.

GARDENERS' CALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be proceeded with in dry weather, taking care to leave the surface of the ground loose after the operation. The general pruning of fruit trees, vines, etc., may be commenced towards the end of the month, especially of such as are in a weak state of growth. Root-prune where necessary. All the ground should now be dug up roughly, burying the leaves and what manure can be afforded. *Flower Garden.*—Now is the time for putting in order all flower borders, shrubberies, etc., by pruning the shrubs and roses, trimming the edges, dividing and regulating the herbaceous plants, digging the borders and thereby creating a neat appearance during the Winter months, and obviating the necessity of digging amongst the roots of plants in the Spring; it likewise breaks into the favourite haunts of the slugs, whereby they are more easily found and destroyed; where new borders are to be formed and planted, it should now be done. *Kitchen Garden.*—Plant out cabbage, cauliflower, and lettuce. Sow peas, broad beans, and carrots for early use. Sow spinach and onions. Make plantations of rhubarb and asparagus. *Greenhouse.*—Little can be done in the greenhouse beyond giving plenty of air on all favourable occasions, guarding against night frost, watering when the earth becomes dry, and keeping the plants free from vermin and dead leaves. Keep all growing plants as near the glass as possible.

GARDENERS' CALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be completed this month; should it not be convenient to do so, the trees intended to be planted next month, or later, should now be lifted and laid in by the heels, which will keep them back, always choosing dry weather for the operation; stir the ground around those planted previous to heavy rains as soon as it is dry enough for the purpose. All pruning should be finished this month. *Flower Garden.*—Continue the general directions for last month, and complete the planting of deciduous trees and shrubs. Keep the ground between bulbs free from weeds. *Kitchen Garden.*—Plant early potatoes, etc., in a warm dry border. Early peas and beans may be sown once a fortnight or three weeks from this time. Sow the main crops of onions and carrots, also some radishes, lettuces, spinach, and early cabbage. Propagate plants which are increased by rooted off-sets. Transplant for seed, if not done in Autumn, carrots, turnips, beet, celery, parsnips, &c. *Greenhouse.*—Continue the general directions for last month. Fuchsias that have shed their leaves should now be prepared for the following season by cutting back and re-potting them. Geraniums that are growing tall and thin should have the ends of the shoots pinched off, which will make them more bushy and compact. Re-pot cinerarias and calceolarias as soon as the present pots are filled with roots. This rule applies to growing plants generally.

GARDENERS' CALENDAR.—*Fruit Garden.*—Vine cuttings may be planted. Prepare for grafting : the proper time is as soon as the stocks are well started. Raspberry and strawberry borders may still be prepared, and new ones formed. Look carefully over apple trees, and dress the parts affected by *aphis* or American blight. Manure freely vines and fruit trees that are weakly. *Flower Garden.*—Flower beds should be manured and dug ; edgings formed, trimmed, and repaired ; herbaceous plants divided ; biennials planted. Roses may be pruned, and most sorts increased by cuttings. Seeds of hardy annuals may be sown in the borders ; tender ones on a moderate heat for transplanting. Choice dahlias should be placed in a gentle heat, for the purpose of propagating by cuttings. Verbenas, shrubby calceolarias, pentstemons, etc., may be increased by the same means. *Kitchen Garden.* Earth up, plant, and sow asparagus ; transplant, hoe, and sow cabbage ; sow and plant as directed last month, and at end of month sow French beans in a warm border and vegetable marrows in sheltered places ; plant out and sow lettuces for succession ; sow and earth up peas. *Greenhouse.*—Admit air freely in fine weather ; re-pot geraniums, cinerarias, calceolarias, etc., as the roots advance to the sides of the pot. Fuchsias that have been dormant should have their roots reduced and be re-potted in fresh soil. Cacti and other plants may be watered more freely than in the depth of Winter. Sow seeds of balsams, cockscombs, egg plants, etc., on a gentle heat ; keep all plants clear of *aphis*, scale, etc.

GARDENERS' CALENDAR.—*Fruit Garden.*—The principal work this month is grafting, the chief aim being to bring the bark of the stock and the scion to fit closely; loosen the ground with a hoe after the operation; the same between vines and fruit trees in general; in dry weather mulch raspberries. *Flower Garden.*—Seeds of annuals, biennials, perennials, and shrubs should now be sown; tender ones raised in heat may be transplanted towards the end of the month. Dahlia roots may be planted: propagate choice varieties as recommended last month; take the cuttings out of heat as soon as they have struck root, and protect them from the frost till it is safe to plant them. Lay shrubs that are difficult of propagation by other means. Keep the hoe at work in dry weather, but do not use the rake, except for covering small seeds. *Kitchen Garden.*—Asparagus beds, keep free from weeds. Transplant cabbage, onions, and lettuce. Sow carrots, red beet, celery, turnips, French beans, spinach, radishes, vegetable marrow, scarlet runners. Plant potatoes, sow peas, and earth up those that are ready. Cucumbers may be sown in ridges. Keep the hoe among the crops, it will assist them in their growth. *Greenhouse.*—Follow the directions for last month. The plants in flower will require watering copiously and shading from the mid-day sun.

LAMMAS DAY, August 1.—This is one of the most ancient quarter-days. It has been conjectured that Lammass or Lambmass originated from St. Peter being the supposed patron of lambs: the mass being therefore instituted in his honour, that lambs might escape the danger arising from cold after being shorn at that season.

GARDENERS' CALENDAR.—*Fruit Garden.*—Look over the vines and rub off all superfluous buds. Disbud wall trees. Destroy caterpillars on fruit trees. Keep the surface of the ground loose with the hoe at all convenient seasons, whether there are weeds or not. Place a layer of fresh stable manure between the rows of strawberries : it will increase the size of the fruit and render it free from grit or sand. *Flower Garden.*—Seeds of annuals may still be sown. Tender species raised under shelter may be transplanted into the borders, choosing showery weather for the operation. Dahlias from seed and cuttings, and other tender plants, may be planted about the middle of the month. Mark the flowers of choice bulbs, etc., with the view of collecting their seed. Stake and tie the shoots of herbaceous and other plants as they advance. Where quality rather than quantity is the object, the number of flowering shoots should be reduced. Destroy slugs, *aphis*, scale, bugs, etc. *Kitchen Garden.*—Continue to sow and plant successional crops. Earth up potatoes and peas, sow all kinds of brocoli, Scotch kale, savoys, cauliflowers, tomatoes, and capsicums. Thin early sown carrots, turnips, and spinach, and keep them free from weeds. *Greenhouse.*—Azaleas, camellias, ericas, etc., that have done flowering should be taken out of the house and placed in a shady situation towards the end of the month. Water sparingly the bulbs of achimenes, gloxinia, gesnera, etc., until they appear above the ground. Re-pot all fast-growing plants as often as the pots fill with roots. Use the syringe in the evening during sunny weather ; guano or manure-water occasionally will assist flowering plants whose pots are full of roots. Wage continual war against insects.

GARDENERS' CALENDAR.—*Fruit Garden.*—Stop all shoots of vines, except the leaders at one joint beyond the fruit, and lay them to their trellis or supports; pinch off all unnecessary shoots in young fruit trees. Vines, newly planted fruit trees, etc., will be much benefited by a mulching of half decomposed stable manure. Rub off the shoots from stocks that have been grafted, and remove the clay and binding as soon as they have joined, which may be known by their shooting vigorously; lay as many strawberry runners as may be required for new plantations, and remove all others. *Flower Garden.*—The planting of dahlias and trimming of all annuals, if not done, should be immediately; support all tall growing flowers as they advance; keep the surface of the ground loose with the hoe; clip and trim all edgings except roses; mark choice flowers for seed. *Kitchen Garden.*—Thin and hoe red beet, carrots, and all other Spring crops. Plant out capsicums and tomatoes. Prick out celery in small beds from the seed beds. Earth up peas, French beans, and potatoes. A succession of peas and French beans may be sown. *Greenhouse.*—Sow seeds of primula, cineraria, calceolaria, camellia, geranium, etc. Give plenty of air and water and shade during sunny weather.

GARDENERS' CALENDAR.—*Fruit Garden.*—Vines not yet attended to should be done immediately, and as the lateral shoots appear they should be taken off to within one joint of the main shoots. Young apple or plum trees infested with red spider should be frequently syringed with tobacco water or soft soap well diluted. Brush off American blight as it appears on the young shoots of apple trees. Peaches, etc., on walls will now require frequent attention. Budding may be performed towards the end of the month. *Flower Garden.*—Dahlias, hollyhocks, etc., require frequent attention. Where fine show dahlias are required, one stem alone should be allowed to grow, and the lower lateral shoots removed from that, and the number of flower buds reduced; a liberal mulching will greatly promote their growth during the approaching hot weather. Bulbs of choice hyacinths, tulips, ranunculuses, anemones, etc., should be taken up and stored as they become dormant. Neatness is now the order. *Kitchen Garden.*—Earth up French beans, peas, and scarlet runners; a succession may be planted; prepare trenches and plant celery; transplant all kind of brocoli, cauliflowers, savoys, and cabbage for winter use; tomatoes and capsicums, if not put out, should now be done; vegetable marrows may yet be sown; sow turnips this month, and earth up late potatoes. *Greenhouse.*—Cinerarias, calceolarias, etc., that are intended to be kept for another season, should be removed into a shady situation as soon as they have done flowering. Fuchsias, geraniums, etc., that are flowering may be watered occasionally with liquid manure. Shade and water freely during hot weather.

COURTS OF REQUESTS

For the recovery of small debts and demands are held under 31 Vict. No. 15, at certain places before Commissioners; where there is no Commissioner the Courts of General Sessions of the Peace are appointed courts for the like purposes.

Jurisdiction.

1. All personal actions where the debt or damage claimed is not more than the amount to which the jurisdiction of the Court in which the action is brought is limited, excepting actions of ejectment or replevin, or in which the title to any corporeal or incorporeal hereditament, or to any toll, fair, market, or franchise is in question, or in which the validity of any devise or bequest or limitation under any will or settlement may be disputed, or for the infringement of letters patent or copyright, or for the recovery of any money or thing won or alleged to have been won at or by means of a race, match, wager, or any kind of play, or for any arrest or false imprisonment or malicious prosecution, or for any libel or slander, or for criminal conversation, or for seduction, or breach of promise of marriage, or upon any charge-party of affreightment or policy of assurance.

2. Plaints for the recovery of the possession of small tenements.

Actions to be brought in the Court having jurisdiction to the

amount claimed nearest to the place of abode or business of the defendant or to the place where the cause of action arose.

Where amount claimed exceeds £10 the action is to be tried by a jury of three, unless the Commissioner by consent of parties tries the action. Where there is no Commissioner the justices in General Sessions are judges of law and fact.

Court Fees.

Entering plaint (including the issuing and serving of summons.....	Sixpence in the pound
Hearing	Sixpence in the pound
Judgment by consent or in default	Threepence in the pound
Adjournment of a cause.....	Threepence in the pound
Issuing *fieri facias*.....	Sixpence in the pound
Subpœna.....	One shilling in all cases
Special defence.....	One shilling and sixpence in all cases
Copy of particulars.....	One shilling where the amount claimed does not exceed ten pounds Two shillings in all other cases
Taking recognizance, bond, or security for costs.....	Threepence in the pound
Enquiry into sufficiency of sureties	Threepence in the pound
For every levy.....	One shilling where the amount claimed does not exceed ten pounds Two shillings where such amount exceeds ten pounds and does not exceed twenty pounds Three shillings where such amount exceeds twenty pounds

Poundage, except where otherwise specified in this schedule, shall be estimated on the amount of the claim.

All fractions of a pound, for the purpose of calculating poundage, shall be treated as an entire pound.

Where the plaintiff recovers less than the amount of his claim so as to reduce the scale of costs, he shall pay the difference, unless the reduction is caused by a set-off.

In cases of execution of writs of *fieri facias*, the actual expenses necessarily incurred by the bailiff in respect of such execution shall be allowed by the Court as costs in the cause.

In cases of interpleader the summons to the bailiff shall be issued gratis in the first instance; the poundage for hearing be estimated on the value of the goods claimed, which in case of dispute shall be assessed by the Court; and the cost of the summons estimated on the above-mentioned value, and actual expenses incurred by the bailiff in keeping possession of the goods, be included in the general costs which may be awarded by the Court at the hearing.

No increase of fees shall be made by reason of there being more than one plaintiff or defendant.

JURORS AND JURIES.

The following persons are exempt from serving upon juries:—Judges of supreme court, chairman of general sessions, commissioners and ministerial officers of courts of requests, members and ministerial officers of the executive and legislative councils, persons holding offices in the departments of the colonial secretary, surveyor-general, treasury, audit-office, post-office, customs, and public works, clergymen of all denominations, practising barristers, attorneys, solicitors, and proctors, coroners, gaolers, practising physicians, surgeons, apothecaries and druggists, military and naval officers on full pay, bank managers, pilots and masters of vessels, sheriff's officers, stipendiary magistrates, constables and peace officers, schoolmasters,

parish clerks, mayors, aldermen, auditors, and corporate officers of Hobart Town and Launceston, and such public officers as the Governor may think fit to exempt.

CORONER'S JURY to be summoned upon Coroner's precept, and to consist of 7 persons under 37 Vict. No. 13.

JURY LISTS to be affixed to Court House and Police Office in each district within 25 miles of Hobart Town and Launceston, the first week in September; and the justices meet in such districts on the first Tuesday in October to correct and allow the same.

COMMON AND SPECIAL JURORS AND JURIES.—*Regulated by Acts 18 Vict. No. 11, 20 Vict. No. 28, 21 Vict. No. 45, 28 Vict. No. 11, and 31 Vict. No. 13.*—Every man between 21 and 60 (unless exempt) is liable to serve as a common juror in criminal cases and as a special juror in civil cases, under the following qualifications:—Having an annual income from real or personal (or real and personal) estate, £50; or clear real or personal estate, £500; or clear real and personal estate, £500; or house in Hobart Town or Launceston, £50, in any other part of the colony, £30; or municipal rate, £50; or road assessment, £30; or occupier of land, £80; or salary, £150. Penalty for non-attendance, a fine not exceeding £20.

COURTS OF REQUESTS.—At Hobart Town and Launceston jurors to be those in special jury lists and resident within 3 miles. In Courts held before Commissioners, except as aforesaid, jurors resident within 15 miles of Court to be selected by Commissioner from valuation and assessment rolls. Jury to consist of three persons. No jury required unless demand exceeds £10.

COMPENSATION to special jurors, if residing within three miles of the Court, per diem, 5s.; if residing more than three miles, per diem, 10s.; and for every mile of distance between residence and Court, if exceeding three miles, 1s., *i.e.*, 6d. each way.

COMPENSATION to common jurors in criminal cases, if residing above five miles from the place of trial, for each day's attendance on the Court, 5s.; if above 10 miles, 6d. per mile each way in addition.

WITNESSES.

The Judges of the Supreme Court have approved of the following scale of expenses and compensation to be allowed to witnesses in criminal cases:—

Legal and medical practitioners and land surveyors, for loss of time, per diem	1	1	0
Not to apply to any person in the receipt of a salary from public moneys and who is not allowed to practise for his own benefit.			
Magistrates, professional men, and other persons not hereinafter specially mentioned, travelling, for personal expenses, per diem, not exceeding	0	18	0
In determining the allowance to be made to the witness regard will be had to his station in life.			
Superintendents of Police and Chief District Constables, travelling, for personal expenses, per diem, not exceeding ...	0	12	0
Sub-Inspectors, District Constables, and Sergeants of Police, ditto	0	8	0
Constables, ditto	0	6	0
Skilled mechanics, loss of time, per diem, not exceeding ...	0	7	0
Ditto, travelling, for personal expenses, per diem, not exceeding	0	6	0

Labourers, shepherds, &c., loss of time, per diem, not exceeding	0	4	0
Ditto, travelling, for personal expenses, per diem, not exceeding	0	5	0

No allowance will be made to any person for loss of time except to professional men, and labourers, &c., in the receipt of daily wages whose attendance at Court will cause the loss of wages.

Coach hire in addition to the above in each case when incurred.

Outside or inside fare will be allowed according to the station in life of the witness.

Horse hire, per diem, not exceeding	0	10	0
Forage, per diem, not exceeding	0	6	0

Horse hire is only to be allowed when a public conveyance is not available.

When any witness is in the receipt of forage allowance, or allowance in lieu of forage from public moneys, a proportionate deduction is to be made from each day's allowance for forage as above.

The above rates are not to be considered as fixed allowances, but as merely indicating the maximum charges to be admitted; and no more will in any case be allowed than has been actually and necessarily expended.

No expenses will be allowed unless applied for to the Judge immediately after the trial, or before the rising of the Court on the day of trial.

No expenses will be allowed for attending before the examining Magistrate unless the magistrate's certificate allowing such expenses is produced to the court at the time the witness applies for his expenses.

No expenses will be allowed unless the witness appears in court immediately upon his name being called.

No expenses will be allowed if any excessive or improper charge is attempted to be made.

As applicants bringing their land under this Act can direct the certificate of title to be made out in any name they desire, property may thus be conveyed to a purchaser in the cheapest and most expeditious manner.

Grants for lands held under location orders, etc., may be obtained

through the Lands Titles Office, under the provisions of *The Real Property Act*, upon payment of the same fees as in other applications.

Printed instructions giving full particulars as to the manner of conducting all transactions under this Act can be obtained free of charge at the Lands Titles Office, and every assistance is rendered by the Recorder and his officers to persons requiring information.

* There are three town deliveries daily at Hobart Town, namely, at 9 a.m., 1 p.m., and 4 p.m. At Launceston there are four, 9 a.m., 10 a.m., 1 p.m., and 4 p.m.; and the Westward mails by the evening train are delivered at the window from 7 till 7.15.

Soldiers' and Sailors' Letters. —Letters not exceeding half an ounce to and from non-commissioned officers, private soldiers, seamen, or marines in Her Majesty's service, one penny.

Registered Letters must bear stamps to the value of sixpence as the registration fee, in addition to the ordinary postage. Unregistered letters containing coin are registered by the postmaster before transmission, the fee being charged upon delivery. The registering office is open from 10 a.m. till 4 p.m., except on English mail days at Hobart Town, when it is closed at 3 p.m.

Late Letters for inland mails are charged a uniform fee of 2d. each. Late ship letters pay 2d. extra at country post offices, and 3d. extra at the Hobart and Launceston offices. This regulation applies also to loose letters sent to and from Victoria or New South Wales in the ship's box or bag, the deficiency in default being charged at the destination of such letters. *Late Newspapers*, 1d. each. On English mail days at Hobart Town (when the ship reception boxes are closed at 4 p.m. sharp), ship letters and newspapers may be posted at the ordinary late fees until 4·30 p.m. ; and after that time letters for the United Kingdom and Victoria only until 6 p.m., at a fee of 1s. each.

Ship and Inland Packets must be in covers open at the ends or sides, and parcels of seed or samples of merchandise in bags or papers tied so as to be easily loosened and refastened. They must bear on the outside a statement of their contents and the name and address of the sender ; and must not contain any letter or epistolary communication. Packets exceeding 16 ounces in weight or of inconvenient form or size may be refused ; and the transmission of any exceeding eight ounces may be delayed for any time not longer than a week, unless for England. Packets are allowed to contain any of the following articles :—Affidavits, almanacs, books printed or plain, catalogues, conveyances, deeds, engravings, judgments *bonâ fide* intended for registration according to law, letters of attorney, magazines, maps, music, music paper, notes, cheques, orders, or pass books sent by or to any bank or banker, paintings, pamphlets, patterns, or samples of merchandise, periodical publications, photographs, placards, plans, policies of assurance, prices current, printed circulars, printed papers of every description, proceedings of any court of justice, reviews, seeds, share scrip, specifications, wills, writing paper, writs.

Savings Bank Packets.— Money or deposit books or documents referring thereto may be forwarded to or from Savings Banks in parcels not exceeding four ounces in weight at a charge of one penny only for each packet, if bearing the endorsement "Savings Bank Packet only" and the signature of the sender. Postmasters are bound to register these packets without fee.

All Postages must be prepaid in Tasmanian postage stamps. Inland unstamped letters are sent on, and charged on delivery with double the amount due. Unstamped letters and packages for the United Kingdom, the Australian Colonies, and New Zealand are detained and returned to the senders within seven days, if the postage still remains unpaid. When letters and packets for these countries are posted insufficiently stamped but bearing a single rate of postage, they are forwarded, but are charged on delivery with the deficiency, together with a fine of a single rate. Stamps must be affixed above the address, or the letter may be treated as unstamped.

Exemptions from Postage.—Letters and packets to or from members of Parliament during the session. Petitions and addresses to the Governor; demands, remittances (which are also registered free of charge), and receipts on account of rural police rates and road rates ; statistical information to the Government Statistician ; maps or plans to or from the Surveyor-

General; official letters to or from Inspectors under Scab Act; official returns of births, marriages, and deaths; depositions to or from the Crown Prosecutor; printed forms to or from the Government Printer: in each case the cover being duly endorsed and signed by the sender. Letters on public service only franked by the Governor or by a member of Parliament or Mayor or Warden of a rural municipality or by any officer of the Government authorised to frank official letters. Prepaid telegrams franked by an officer of the Telegraph Department.

Newspapers must not bear any mark or contain any writing beyond the address, under a penalty not exceeding £10.

Mails for Europe.—Mails are forwarded every four weeks by the Suez overland route. (See below.) Mails are also made up and sent to Sydney every four weeks in time to catch the Californian R.M. steamer.

Intercolonial Mails.—Mails for the neighbouring colonies are made up and forwarded by every steam vessel leaving for Melbourne and Sydney. Ship mails *viâ* Launceston and Melbourne (except on English mail days as above) close at Hobart Town at 5 p.m., and for Victoria only at 6 p.m.

Private Boxes may be secured at an annual charge of 21s.; ship mail notices supplied for a yearly sum of 20s.

* If lightly timbered, £7. † Ordinary Crown Land. ‡ Densely wooded or scrub land.

Any larger lot than the last-named to be charged for at the rate of £7 10s. extra for every 1000 acres above 3200 if the land be either clear or open forest ground, and £10 per 1000 acres if densely wooded or scrub land. Where a surveyor marks off at one time two or more adjoining lots, he will be paid one-fourth less than the above scale for each lot after the first one. For surveys under applications for less than ten acres, the Surveyor-General will determine what lesser amount than is provided above should be paid. For special services a surveyor will be remunerated at the rate of £2 2s. per day. Surveys required in very remote situations must be made the subject of private bargain between the applicant and the surveyor.

Timber Licences, etc.—Licences to fell and split ordinary timber from Crown land available for the purpose can be obtained through the Police, or from the Crown Bailiffs, on the monthly payment of 5s. for each person employed; to fell and split Blackwood, 2s. 6d. per week for each person employed; to fell and remove ordinary timber in the log, 10s. per month for each person employed whether in connection with saw-mills or otherwise; to fell and remove Blackwood or Pine in the log, 5s. per week for each person employed; to make bricks, burn charcoal, strip bark, etc., 5s. per month for each person employed.

Residence on Gold-fields.—Licences to reside on gold-fields may be obtained at £2 per annum; the following fees being payable by the licensee to the district surveyor who surveys the land:—

	£	s.	d.
Marking out block, and furnishing description, plan, and report relative thereto	2	5	0
Allowance for every mile beyond four that the block is distant from the surveyor's office or camp	0	2	0
If the block be one of two or more blocks surveyed in the same locality on the same journey, per mile	0	1	0

When the land applied for is a previously surveyed allotment, the fee shall be 10s. 6d., with allowance of mileage as above.

Mineral Lands.—Licences to search for minerals and metals (except gold) upon waste lands are issued by the Commissioner of Crown Lands on payment of a fee of £1, each licence to be in force for twelve months. Holders of licences have a preferential right to a lease. Rent under a lease, 5s. per acre per year, or 2s. 6d. if coal-bearing or slate rock. A fee of £1 is charged for preparing the lease.

IMMIGRATION DEPARTMENT.

Commissioners.—The Colonial Secretary (president), the Colonial Treasurer, the Hon. Henry Butler, M.H.A., the Hon. Sir J. M. Wilson, M.L.C., and Askin Morrison. Secretary and Immigration Agent, Hobart Town, B. Travers Solly. Immigration Agent, Launceston, George Smith.

Offices.—Public Buildings, Hobart Town and Launceston.

The following are the regulations for the guidance of persons desirous of introducing immigrants from the United Kingdom under the bounty system:

Application, stating sex and class of immigrants, must be made on printed forms, which will be supplied by the Immigration Agents, the Wardens of Municipalities, or the Police Magistrates.

For a ticket for a single person above 60 years of age £16 must be paid, and in the case of families, if either of the parents is over 60 years of age, the applicant must deposit £20. Documentary evidence of the age of any immigrant must be produced upon his or her arrival, if required by the Immigration Agent.

If any immigrant be found on arrival not to answer the description stated in the application, the applicant will be liable to be called upon for payment of any money which may have been paid from the public funds on account of such immigrant.

The emigrant must sign an engagement (for self and family) agreeing not to leave the colony within four years after arrival without paying one of the Immigration Agents one-fourth of the passage money for every year short of the four years, and a proportionate sum for every part of the year.

Persons introducing immigrants under these regulations must provide for their reception on arrival; or if received into a Government establishment a charge of two shillings a day or part of a day will be made against the introducer.

In the event of death on the voyage half passage money only will be paid.

Payments required from Applicants.—Family ticket including man, wife, and the children under 12 years of age, £15; single man, £10; single woman, £5. Children of 12 years and upwards considered as adults.

Bounty Rates of Passage Money.—Each adult, £16; each child between 3 and 12 years of age, £8; ditto under 3 years, £4.

Land Orders.—Under the Immigration Acts, 1867 and 1874, immigration agents may be appointed abroad, who shall issue to approved emigrants proceeding direct from Europe to Tasmania at their own expense land order warrants entitling the holders, on arrival in the colony, to a land order in respect of each person named therein. Such land orders to be of the nominal value of £18 for each immigrant of and over fifteen years of age, and of £9 for each child between twelve months and fifteen years of age, and to be available to their full value in payment for land purchased under the Waste Lands Act.

Any cabin or intermediate passenger (excepting persons who have been resident for one year or upwards in any Australian colony or New Zealand) arriving with the intention of settling in the colony, and who has not received a land order under the previous section, may at any time within twelve months after his arrival obtain from the Board of Immigration a certificate entitling him to select thirty acres of land: if married he shall be entitled, within twelve months after the arrival of his family, to further certificates authorising the selection of twenty acres in respect of his wife, and ten acres in respect of each child. Selection to be made within a year after the date of the certificates. These certificates to be received by the Commissioner of Crown Lands in payment for lands selected for purchase under the Waste Lands Act.

Persons purchasing or selecting land by virtue of these land orders or certificates must reside for five years in Tasmania before becoming entitled to grants from the Crown of such land; but in the event of death before the expiration of that term, their heirs-at-law or devisees shall, after five years from the date of the land orders or certificates, be entitled to grants, if, in the opinion of the Commissioner of Crown Lands, permanent improvements to the value of £1 per acre have been made on the land.

TASMANIAN COUNCIL OF EDUCATION.

Board Room, Public Buildings, Macquarie-street, Hobart Town. Meets on the second Thursday in every month, at 3 p.m.

Members.—Rev. Canon Davenport, B.A. (president), Right Rev. the Bishop of Tasmania, J. W. Agnew, M.D., Morton Allport, Hon. H. Butler, M.H.A., Hon. T. D. Chapman, M.H.A., His Honour Mr. Justice Dobson, Very Rev. W. J. Dunne, V.G., Rev. R. D. Poulett-Harris, M.A., Rev. Canon Hudspeth, M.A., Hon. F. M. Innes, Right Rev. Bishop Murphy, Hon. Sir R. Officer, M.H.A., William Tarleton, and Hon. James Whyte, M.L.C.

Secretary.—George Richardson.

The Council of Education is authorised by 22 Vict. No. 21 and 35 Vict. No. 16 to hold examinations in intimation of the Oxford and Cambridge annual local examinations, and to confer annually two Tasmanian scholarships, the degree of Associate of Arts, and two exhibitions to superior schools.

Tasmanian Scholarships.—Eight scholarships, each of the value of

£200 per annum and tenable for four years at a British University, are founded ; of which two are annually competed for by Associates of Arts of above sixteen and under twenty years of age who have resided in the colony for at least the preceding five years.

A. A. Degree.—This Degree is open to persons of any age and of either sex. *Candidates* above nineteen years of age who take honours are placed in separate class lists and are not eligible for prizes. Tasmanian law students who have taken the degree of A.A. are exempted from a literary examination prior to admission to the bar ; and in England the General Council of Education and the Royal College of Surgeons accept the degree in lieu of the literary examination required from medical students, provided the A.A. has passed in both Latin and Mathematics.

Exhibitions.—Two exhibitions of £20 each tenable for four years at such schools as shall be named by the parents or guardians and approved by the Council are annually bestowed on boys under fourteen years of age who have not during the previous six months been pupils of a Government school, and who have been resident in the colony for two years immediately preceding.

Gilchrist Scholarship.--A scholarship of £100 per annum tenable for three years either at the University of Edinburgh or at University College, London, is biennially awarded to the candidate who passes highest at the matriculation examination of the University of London carried on at Hobart Town. Candidates must have been resident in Tasmania for five years or over, and be above 16 and below 22 years of age. The next examination will take place in or about August, 1875, under the supervision of the Council of Education ; the papers being sent home for decision.

Matriculation at the Melbourne University.—Local examinations for matriculation at the Melbourne University are also held under the superintendence of the Council, the papers being sent to Melbourne for decision.

BOARD OF EDUCATION.

Board Room, Public Buildings, Hobart Town. Meets at 11·30 a.m. on the 2nd and 4th Thursday in each month.

Members—Hon. Henry Butler, M.H.A. (chairman), S. Sheehy, John Swan, M.H.A., W. Tarleton, T. Westbrook, and S. P. H. Wright.

Inspector, Thomas Stephens, M.A. Oxon.

Secretary, George Richardson. Clerks, Edward Rowland Roe and Charles Ernest Downing. Architect, Henry Hunter.

The Board of Education is empowered to frame regulations for the distribution of all moneys granted by the Legislature for the purposes of education; to determine the *locale* of public schools; to regulate the course of instruction in the schools, the examination and classification of teachers, the issue of certificates of competency to teachers, the inspection of schools, and the functions and duties of Local School Boards; and to fix the maximum fees to be charged by teachers. All regulations must be approved of by the Governor-in-Council and be published in the *Gazette* before they are of any force.

The Public Schools Acts, 32 Vict. No. 14 and 37 Vict. No. 11, provide for the appointment yearly of Local School Boards of not more than nine members, and direct that every child between seven and fourteen years of age, resident within two miles from any public school must be sent to school, unless the parent or guardian holds a certificate of exemption from the Local School Board. In the absence of such certificate, any parent or guardian refusing or neglecting to send such child to school may be summoned before two justices, who may order the child to be sent, and may determine what charge, if any, shall be made for it. Any person refusing to obey such order, or ceasing after a time to obey it, is liable to a fine of £2.

Number of schools in operation during 1873, 141 ; number of distinct children on the rolls during the year, 10,803 ; average number on rolls, 7047 ; average daily attendance, 5268, or a per centage of 74·76. Total expenditure, £12,572 0s. 11d. ; average cost per head of scholars in daily attendance, £2 11s. 3¼d. ; average receipts from school fees per head ditto, 16s. 4d. The average number of free scholars under instruction was 1533·50 ; amount paid by the Board for their instruction, £629 9s. 5d.

Exhibitions.—The Board awards annually six exhibitions to superior schools of the value of £16 13s. 4d. each, tenable for four years from 1st July. Candidates must be between ten and twelve years of age, and have attended one of the public schools for at least twelve months prior to 1st June.

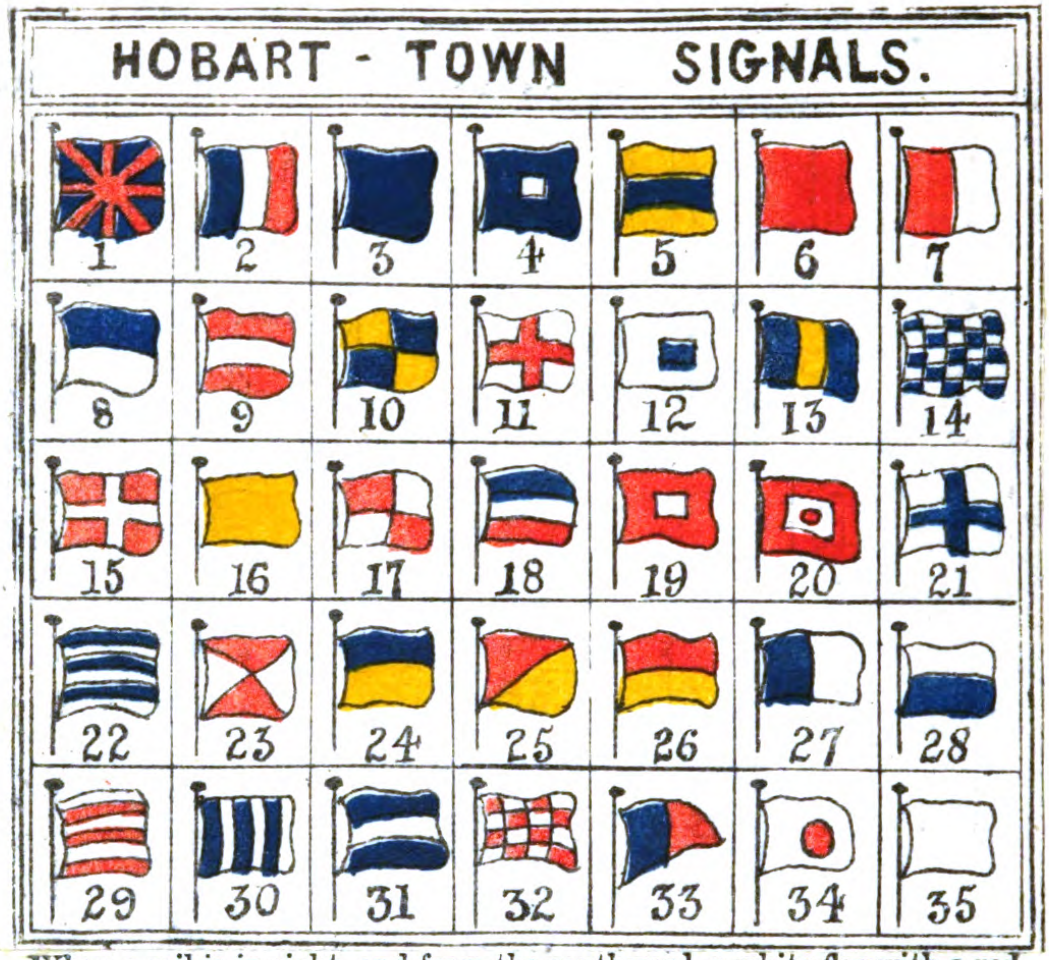
Fees.—(1.) Engagement and discharge of crews. In ships under 60 tons, 5s.; 60 to 100 tons, 10s.; 100 to 200 tons, 15s.; and so on for ships of larger tonnage, adding for every 100 tons, 5s. (2.) Engagement and discharge of seamen separately, 2s. 6d.

HOBART - TOWN SIGNALS.



When a sail is in sight, and from the southward, a white flag with a red cross (No. 11) is hoisted at the top-mast-head at Prince Albert Battery; from the eastward, a blue and white flag (No. 8); if in mid-channel, a yellow, blue, and yellow flag (No. 5); when it is ascertained what the vessel is, the flag is hauled down from the top-mast and a ball is affixed to one of the numbers on the yard arm.

No. 1 on the right, viewed from town, denotes a ship or barque
2 " " " " " a brig
3 on the left " " " a brigantine or schooner
4 " " " " a steamer

When it is discovered whence the vessel sailed, one of the following flags is hoisted in lieu of the ball :—

the whale fisheries, and all vessels arriving and sailing in ballast or which do not break bulk or only to such an extent as may be necessary to provide funds for the repairs, refittings, or refreshments of such vessels, and all vessels belonging to any foreign power with which a treaty of commerce declared by any royal order in council to be subsisting has been made, which arrive at any port for the purpose of landing oil or whalebone the produce of fish caught or taken by the crews of such vessels, and land such oil and whalebone at any wharf appointed by the Board for that special purpose, are exempted from the payment of all port charges, lighthouse dues, and port dues whatsoever, except only those of pilotage in cases where the services of a pilot have been actually required and received.

A pamphlet containing the "rules and regulations of the port of Hobart Town contained in the Marine Board Act, 21 Vict. No. 16, and in bye-laws passed by the Marine Board, also the Quarantine Act, 5 Vict. No. 14, and the Admiralty regulations respecting lights and fog-signals to prevent collisions," is supplied to all vessels on arrival.

LAUNCESTON MARINE BOARD.

Established by Act of Parliament, December 22, 1857.

Office, Lower George-street, Wharf.

Wardens—

Secretary, G. M. Eddie. Harbour Master, W. N. Ling. Pilots—G. Foster, D. Stewart, G. Smart, and C. Begent.

Paddle steam-tug *Tamar*. Master, G. Smart.

Shipping Master, Emigration Agent, and Marine Surveyor, Edward P. Tregurtha. (For scale of charges see p. 109.)

Lighthouse, Low Head, A. C. Rockwell, superintendent.

No steamer other than the *Tamar* tug allowed to tow on the river except licensed (fee £25), under penalty. Cases of emergency exceptional.

The rules and regulations of the port are published by the Board, and are supplied to all vessels visiting the port.

Quarantine Ground.—Western side, Middle Island, in the River Tamar. Day signal, yellow flag, of six breadths of bunting, at maintop-mast-head; at night, a signal lantern shown from the same position.

Health Officer, George Town, James Richardson.

PILOTAGE RATES.—Sailing vessel, 1s. per ton; steam vessel, 8d. per ton. Vessels that do not have a pilot until they pass Whirlpool Reach either way are charged only half pilotage. Other regulations as at Hobart Town.

HARBOUR AND LIGHT DUES, same as at Hobart Town. (See p. 112.)

TOWAGE RATES.—To or from the Heads, for the first 100 tons, 2s. per ton; for every additional ton up to 300, 1s. 6d.; for every additional ton up to 500, 1s.; for every ton above 500, 6d. Steam will not be got up to tow a vessel down alone for less than £10; nor two or more vessels together for less than £12 10s. The pilotage of vessels towed by the tug will be charged at two-thirds of the rate for sailing vessels. When two vessels are towed together a reduction of one-fifth of the usual charge to the smaller one will be made to each, subject to the above minimum.

Signal for steam-tug.—The rendezvous or chequered flag, hoisted where best seen. When this signal is made by a vessel entering the port, the tug, if in Launceston, will be telegraphed for on that vessel's account.

FREE PORT.—Vessels seeking freight or putting in from stress of weather, and not breaking bulk, are exempt from all port charges whatever, unless they employ a pilot; in which case, if they anchor below George Town, one-third pilotage only will be charged.

COLONIAL PENAL ESTABLISHMENT, PORT ARTHUR.

A settlement for male convicts under sentence of penal servitude with hard labour for various, but principally long, terms of imprisonment.

A lunatic asylum is attached to this branch, together with an invalid hospital, being the only portion remaining of a former pauper depôt.

Civil Commandant and Medical Officer, John Coverdale, M.D. who is also a coroner and magistrate for the territory; Church of

England Chaplain, Rev. Rowland Hayward; Roman Catholic Chaplain, Rev. W. R. Fitzgerald; Station Officer and Engineer, George Whittington; Dispenser, G. A. Robinson; Head Keeper of Insane, Alexander Muirhead; Storekeeper and Postmaster (money order office), W. Whittington; Clerk and Assistant Storekeeper, J. H. Roberts; Overseer and Deputy Registrar, J. C. Mawle; Master of Local School under Board of Education, W. Todd; Mistress, Miss Todd; Master Government schooner, Charles Anderson.

The staff further consists of 1 overseer for the separate prison, 3 assistant overseers for the Penitentiary, 2 under-keepers of insane, 10 attendants on insane, 1 senior and 20 petty constables, 4 seamen of schooner, 1 signalman Mount Augustus.

Telegraphic communication with Hobart Town is maintained by semaphores, situated at the Settlement, Mount Arthur, Mount Communication, and Mount Augustus, which last passes messages to Mount Nelson. The first two stations named are worked by trustworthy prisoners; the third by a pauper, who receives 1s. per diem and his rations.

From the 1st January, 1875, there will probably not be more than 100 convicts under detention at Port Arthur, whilst there will remain about 25 invalid paupers, and 90 lunatics; making a total of 215.

Intercourse with the metropolis is kept up by the Government schooner, a vessel of about 40 tons. The passage is generally made in a day, and seldom if ever exceeds two days; and as a rule the schooner makes a trip weekly. It is necessary that persons wishing to visit the Peninsula should obtain authority to do so from the Colonial Secretary. The traveller on horseback should cross from Hobart Town to Kangaroo Point by steamer; thence ride *viâ* Cambridge and the Causeway to Sorell; whence proceed onward through the Carlton district to East Bay Neck. Good accommodation will be found at East Bay Neck, at Scrimger's hotel. The road up to this point, and for some distance beyond it, is tolerably good. Eagle Hawk Neck is now 15 miles away, and some parts of the road are very rugged. An armed constable is stationed here; and a pass, signed by the Colonial Secretary, is necessary to enable a person to cross from Forestier's on to Tasman's Peninula. Port Arthur is 14 miles hence, and the road is tolerably good. The journey through occupies a day and a half.

Destitute patients may be admitted on the recommendation of any member of the Board, of the Police Magistrate of the district, or of the executive body of the Benevolent Society, as also on the nomination of any resident clergyman or city missionary. Accidents and urgent cases to be received at all hours of the day or night. No child under seven years of age shall be admitted, except for an accident or a surgical operation. Ministers of religion have free access to sick persons of their respective denominations at such time as shall be appointed by the Board; and any minister may attend any patient when requested by such patient.

Gratuitous vaccination every Tuesday, at 10 a.m.

QUEEN'S ASYLUM FOR DESTITUTE CHILDREN.

At New Town, three miles from Hobart Town, on the main road.

This institution is conducted in a manner similar to the industrial schools of Germany and Holland. It is capable of containing nearly 500 children. The inmates receive secular instruction daily, conducted by teachers appointed by the Board of Education. The half of Wednesday and half an hour each morning are devoted to religious instruction, the rest of the time being set apart for teaching them to be useful; the boys as farm and house servants, and the girls as domestic servants and in needlework, making and mending clothes, and washing.

Daily average number during 1873, 324·7; net expenditure, £4,763 18s. 2d.; cost per head per annum, £14 13s. 4¾d. In connection with the establishment is a farm, from which not only the Asylum itself, but also the General Hospital and the Brickfields Invalid Depôt are supplied with milk. The balance in favour of the farm for the year was £557 0s. 3d., which, if credited to the establishment, would reduce the capitation cost to about £12 9s.

The staff consists of Sandford Scott, Superintendent; G. B. Penny, storekeeper and clerk; Mrs. Smith, matron; visiting medical officer, G. W. Turnley. Collecting Officer, H. G. Quodling, C.D.C.

When the children attain the age of twelve years they are apprenticed out for a term of six years by the Board of Guardians, which consists of the Rev. Canon Hudspeth, M.A., Henry Hunter, Patrick Irvine, J. Swan, M.H.A., Rev. P. R. Hennebry, who alone have the power of apprenticing the children or authorising their removal in any way from the Asylum.

TASMANIAN MAIN LINE RAILWAY.

The Government of Tasmania has contracted with the Tasmanian Main Line Railway Company to construct, maintain, and work a main line of railway from Hobart Town to Launceston, passing through New Town, Glenorchy, Bridgewater, Brighton, Lower Jerusalem, near Oatlands, through Tunbridge, Ross, Campbell Town, and Evandale, where it will meet the Western Railway, running over it into Launceston. Under 33 Vict. No. 1 and 34 Vict. No. 13 the Government guarantees to the Company interest at the rate of 5 per cent. per annum upon the money expended on the construction of the line up to £650,000 during four years of the period of construction, beginning from the date of the contract (March 15, 1872), and for thirty years from the opening of the entire line for traffic.

The works are now approaching completion.

LAUNCESTON TIDE TABLE.

The calculations on the next page give the average time when high water may be expected at Launceston, but the tides are so influenced by winds and other causes that the actual times of high-water will sometimes differ from the calculated ones by an hour or two.

It is high-water new and full moon at Launceston at 1h. 30m. p.m., and at George Town 11h. 45m. a.m. The tide in the Tamar flows nearly six hours and ebbs nearly seven hours, and rises from ten to twelve feet in settled weather.

High-water at the various sub-ports on the North Coast may be averaged as an hour and a half earlier than at Launceston.

COUNTRY DISTRICTS.*

The colony of Tasmania is divided into nineteen rural municipalities and eight police districts. Seven councillors are, in the first instance, elected by the ratepayers of the respective municipalities. Two councillors retire annually on the second Friday in December for two successive years, and every third year three retire; in each case they are eligible for re-election. The councillors elect one of their number as Warden, whose term of office extends over one year. All powers by law vested in Police Magistrates are by Act of Parliament vested in the Warden while holding office; and the Governor has the power of appointing the councillors to be justices of the peace within their respective municipalities during the term of office. Provision is thus made for the discharge of all legal business which formerly devolved on paid officers of the central Government.

* For purely descriptive matter, see *Walch's Tourists' Guide to Tasmania.*

Every male of the age of 21 years, assessed as owning property of the annual value of £5, or occupying property of the annual value of £10, is entitled to vote in the election of councillors.

HOBART TOWN SAVINGS BANK.

Office: Murray-street, opposite the General Post Office. Open from 10 a.m. till 3 p.m. daily, excepting on Saturdays, when the Bank is open from 10 till 12, and from 6 till 9 in the evening.

Interest at the rate of 4 per cent. per annum allowed on every Pound up to £150, calculated from the first day of each month and placed to account twice a year, on the last days of February and August respectively, whether called for or not.

Persons in the country may open accounts with the Savings Bank by letter, enclosing the signature in usual handwriting, with a remittance in Coin, Bank Notes, or Cheques. Should the depositor be unable to write, his or her mark, witnessed by some respectable householder, and accompanied by a personal description, will be required. Copies of the Rules and Regulations of the Bank, and any additional information that may be desired, will be forwarded on application to the Actuary.

The letter containing the money may not exceed 4ozs. in weight; it must be marked on the cover, "Savings Bank Packet only," with the signature of the sender, and a penny stamp affixed. The Savings Bank Packet Act provides that all such letters or packets shall be registered at the Post Office, and no extra charge be made for their registration.

N.B.—All remittances acknowledged by return of post.

ROYAL INSURANCE COMPANY, FIRE AND LIFE.

CAPITAL—TWO MILLIONS STERLING.

"Taking the general position that insurance moves with the age, and is rather in advance than lagging behind it, we cast about for an illustration of this, and naturally take that which is most striking or conclusive, as well as most readily to hand. This is afforded by the annual meeting of the 'Royal' on Friday, at which some exceedingly satisfactory reports were submitted. Both in the Fire and Life Departments this office seems to be progressing at a truly remarkable and satisfactory rate. In the Fire Department the results of the year 1873 have been the most satisfactory as regards the aggregate amount of profit realised, which the company has ever experienced. The Fire premiums for the period amount to £807,405 19s. 6d., and the losses to £436,190 10s. After the deduction of expenses, the profit on the transactions of the twelve months, including interest, amounts to £216,227 16s. 5d. The Life results are equally encouraging. The business has continued to increase; and the mortality through the year remained better than the expectation. As a consequence, the company has been able to add £158,547 to their funds, making the accumulations in the Life branch £1,761,523."—*Insurance Record* of 14th August, 1874.

LIFE BONUSES DECLARED EVERY FIVE YEARS.

The enormous capital and reserve fund of this company is offered to Insurers in this Colony.

To insurance of Lives there is no question so important as that of security, and the estimate in which this Company is held in England is evidenced by the unexampled increase of its business.

Patron—Most Rev. Daniel Murphy, D.D., Bishop of Hobart Town.

Principal	**Mr. C. G. Ramsay**
Second Master	**Mr. A. Cairnduff**
Third Master	**Mr. F. S. Aldred, A.A.**
Fourth Master	**Mr. J. Taylor**
French Master	**Mons. Bessac**

Efficient Visiting Masters for Italian, German, Drill, Singing, Dancing, &c.

Terms, payable in quarterly advance, and one quarter's notice prior to removal.

Board, Residence, Washing, and a sound English and Classical Education, from £6 5s. to £12 10s. per quarter.

Day Scholars, from 13s. to £3 3s. per quarter.

Night Scholars, from 13s. to £3 3s. per quarter.

Four Scholarships, two of the value of £8 8s. and two of the value of £6 6s. each, are competed for in June of each year; and two Scholarships, one of the value of £8 8s. and one of the value of £6 6s., are competed for at Christmas of each year by pupils attending the Night School.

The Course of Instruction is such as fully to prepare the Pupils for entering any of the Universities, or for Mercantile pursuits. Elocution especially attended to. Special Classes for Book-keeping, Drawing, Dancing, French, German, Italian, and A.A. Degree for Ladies and Gentlemen.

The situation is salubrious and beautiful, commanding a magnificent view of the river Derwent. The school-rooms are spacious and airy; the play-ground extensive. Mr. R. has also secured a large court for Drill and other recreations necessary for the physical development of the boys.

Mr. R. being impressed with the conviction that the formation of careful, prudent, and economical habits, is an essential part in the education of youth, has established a Savings Bank in connection with the Seminary.

The Principal receives a limited number of Boarders at his residence, where they receive every comfort, the domestic arrangements being under the personal superintendence of Mrs. Ramsay.

There is connected with the Seminary a series of entertainments conducted by the Boys themselves, from which are excluded all who misbehave themselves. These are found to have (besides teaching Elocution) a most beneficial effect in maintaining a proper and wholesome discipline without having recourse to corporal punishment.

A Silver Medal to commemorate the discovery of Tasmania, and Two Silver Medals for Good Conduct, are competed for in each year—the former in July, and the latter at Christmas.

All communications to be addressed to the Principal.

LAUNCESTON EQUITABLE BUILDING AND INVESTMENT SOCIETY, PERMANENT.

[ESTABLISHED JANUARY, 1870.]

Trustees: ALEX. WEBSTER, ESQ., ALFRED HARRAP, ESQ., WILLIAM TYSON, ESQ.

Treasurer: WILLIAM HART, ESQ.

Solicitor: B. W. CAMPION, ESQ.

Bankers: BANK OF TASMANIA.

Shares, £50 each. Entrance Fee, 2s. 6d. per share. Monthly subscriptions, 5s. 6d., 9s., and 13s. 8d., on shares to realise in 10, 7, and 5 years respectively. Subscriptions payable second Wednesday in each month between hours of 7 and 9 p.m.

This Society was formed to combine the advantages of the Terminating and Permanent Societies.

Loans may be obtained for above-named periods with or without membership liability. Borrowers with liability participate in surplus profits.

Surplus Profits are the profits in excess of the amount necessary to realise £50 per share in the periods specified; they are applied in bonuses to members and formation of Reserve Fund. On 1st January last aggregate bonuses declared amounted to £1,022 6s. 8d., and amount carried to Reserve Fund, £500.

Loans advanced from 1 to 14 years. Monthly repayments per £100—if for 3 years, £3 3s. 2d; 5 years, £2 1s. 4d.; 7 years, £1 12s.; 10 years, £1 4s. 6d.; 12 years, £1 2s. 4d.; 14 years, £1 0s. 6d.

Paid-up Shares are issued for 10, 7, and 5 years' periods. These shares participate in surplus profits, and can be withdrawn in like manner as ordinary shares.

Deposits of not less than Five Pounds received, and interest paid thereon half-yearly. If repayable at three months' notice, five per cent. per annum; one month's notice, three per cent. per annum.

The amount now on loan is £26,843 5s.; the number of members, 286; number of shares held by them, 1,091; and the annual income, £6,600 6s.

Persons who borrow from this Society for 5, 7, or 10 years' periods will, by reason of the bonus additions, pay a lower rate of interest than the money could elsewhere be procured for, besides having the advantage of repaying loan by small monthly instalments.

"The simplest, safest, and most effective means for the 'preservation of animal substances.'"

MEDLOCK & BAILEY'S PATENT BISULPHITE OF LIME,

For the Preservation of Meat, Fish, Poultry, Game, and all other Animal Substanes, in Temperate or Tropical Climates, and on Board Ship.

By the use of this valuable Preparation, fresh meat can be had throughout a voyage, however long, thus avoiding the expenses and losses incidental to the conveyance of live stock on board. No steamer or passenger ship should be without it, as it will enable Captains to lay in provisions at foreign ports, wherever they are cheap and good, relieving them of the necessity of providing for the voyage home. It imparts no flavour to the meat, nor does it lessen its nutritive value, while it prevents scurvy and destroys contagion wherever it is used. For further particulars, see Descriptive Pamphlet, and also Opinions of the Press, both sent post free for seven stamps.

Extract from the "Times" Money Article of the 10th Dec., 1870.

"There was a trial of Preserved Meat from Rosario, in the Argentine Republic, in the City, on Wednesday, with, it is stated, most satisfactory results. The preparation was effected by immersion in a solution of Bisulphite of Lime, according to the process of Messrs. Medlock and Bailey, of the Horseley Fields Chemical Works, Wolverhampton, and the Meat was sealed up in a cask in the presence of Mr. Hutchinson, the British Consul at Rosario, on the 10th of August last, and brought by him to this country in a recent steamer. It had, therefore, been kept four months, and had made a passage across the Line, yet was found perfectly fresh, not only in quality but in appearance, and was deemed by the persons present at the trial equal to any good ordinary home beef. Among these persons were merchants largely interested in the commerce of the River Plate, by whom an unqualified conviction has since been expressed that the problem of bringing unlimited supplies of animal food from distant regions will now prove to have been solved, the method being alike simple and inexpensive, and capable of being adopted under any circumstances. At the trial on Wednesday, not the slightest flavour of any chemical or other artificial agent was detected."

The Meat was cooked at Simpson's, Bolt Court, Cornhill, and was partaken of by a number of influential gentlemen and merchants interested in the question, including M.B. Sampson, Esq., Consul-General of the Argentine Republic; Consul-General Neil, of Uruguay (copies of whose Official Certificates can be had on application), &c.

Extracts from a few of the Communications lately received by the Patentees.

Sir James Matheson, Bart., M.P., 20th July, 1868, *enclosing a further order:*—"Sir James Matheson is glad to tell Messrs. William Bailey and Son that their Bisulphite of Lime answered perfectly in carrying the carcases of a deer and calf from Stornoway to London, *quite fresh*, being on the journey and voyage four days, during the very hot days of June; besides enabling the venison and veal to be kept twelve days after arrival by using the Bisulphite according to directions."

Thomas J. Hutchinson, Esq., F.R.G.S., F.A.S.L., &c., &c., Her Britannic Majesty's Consul for Rosario, Rio de la Plata:—"When at

Medlock and Bailey's Bisulphite of Lime—Continued.

Monte Video, I had the pleasure of tasting at breakfast a small piece of beef prepared by the Bisulphite of Lime, sent out to the Plate. It was given to me by Mr. Prange. The preservation of that meat was perfect, and it was the first piece of real juicy beef that I have tasted for the last seven years."

Dr. Stone, Health Officer, Trinidad:—"I have found your Bisulphite of Lime of great value as a means of preserving meat."

The Governor of the City Poor House, Edinburgh, is "very highly pleased with the results obtained from the use of your Bisulphite."

Mr. J. W. Salisbury, Meat Salesman, of Newgate Market, London:—"It is *a most valuable thing* for butchers."

Mr. George Blackman, Butcher, of Newport Market, London:—"I find Medlock and Bailey's Patent Meat Preserving Liquid invaluable."

Mr. George Scarlett, Butcher, of Nottinghill, London:—"I believe there is nothing to be compared with your Bisulphite."

Mr. Alexander M'Allister, Fish and Game Salesman of Glasgow:—"By your patent Process I have succeeded quite beyond my most sanguine expectations."

Thomas Sutton, Esq., B.A., of Redon, France, 27th August, 1868:—"At last I have tried your Bisulphite of Lime, and I find it a grand success. We dined yesterday off a leg of mutton which I had preserved, and find it delicious—undistinguishable from fresh meat—no flavour of the preservative—rich red gravy- no loss of weight. Every word is true that you say in your pamphlet."

Messrs. Hoper and Scherwin, of Berlin, 17th September, 1868:—"We have much pleasure in informing you to-day that our success with meat, as well as beer, has been complete beyond expectation."

In addition to its remarkable powers in preserving animal substances from decay, Medlock and Bailey's Bisulphite of Lime is also an absolute specific against epidemic cattle disease, if used in accordance with the Patentees' instructions. It thus enables the shipper to carry either live or dead meat in perfection, without fear of loss in transit from the bad health of the one or the decomposition of the other.

The genuine Bisulphite of Lime of Medlock and Bailey only should be used.

WEAVER'S

RE-CARBONATED

FLUID MAGNESIA.

The high estimation in which FLUID MAGNESIA has been held for many years has induced the Proprietors to manufacture the above preparation in a state of great purity and of uniform strength—thus affording the *Medical Practitioner* an opportunity of administering *this safe and effectual Medicine* with confidence, and giving to the public generally a remedy which can at all times be used with safety and success, either alone or in combination with the ACIDULATED RASPBERRY SYRUP. As most of the FLUID MAGNESIA commonly sold is of uncertain strength, and seldom contains the quantity represented, MESSRS. WEAVER & CO. have imported apparatus at a great expense for the purpose of manufacturing FLUID MAGNESIA on a large scale, and with which they can produce a solution of great purity and uniform strength.

During the oppressive heat of summer

WEAVER'S RE-CARBONATED

FLUID MAGNESIA,

Mixed with the proper proportion of the

ACIDULATED RASPBERRY SYRUP,

Instantly produces the most *Refreshing Beverage*, in which the flavour of the *Raspberry* is fully developed, and the degree of cold consequent on the formation of the CITRATE OF MAGNESIA is nearly equal to an *Iced Beverage.*

CAUTION.—*The great strength of this FLUID MAGNESIA renders it necessary to cork the Bottles quickly and securely after opening, so as to prevent crystallization.*

TESTIMONIALS.

DEAR SIRS,—I cannot leave the colony without acquainting you that I have for many years derived great benefit from your Antibilious Pills, insomuch that, under Providence, I ascribe the vigorous health and green old age enjoyed by me, at over eighty years of age, to a free use of that INVALUABLE MEDICINE. Indeed the best proof of the estimation in which your ANTIBILIOUS PILLS are held by me is that I have taken FORTY DOZEN of them to England; and I have no hesitation in pronouncing them one of the *best and safest medicines in the world.*

JAS. DUFF MACKAY.

45 Euston-square, London, September 26, 1865.

DEAR SIRS,—Many thanks for your prompt attention to my commission,—the Pills came to hand in fine condition. I now request that you will have the goodness *to send me another box containing twenty dozen of the same Antibilious Pills,* per first mail, to my address as above.

DR. J. COLLIS BROWNE'S
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

Vice-Chancellor Sir W. P. Wood stated that Dr. Collis Browne was undoubtedly the Inventor of CHLORODYNE; that the story of the defendant, Freeman, being the inventor, was deliberately untrue, which, he regretted, had been sworn to. Eminent hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's. –See *Times*, July 12, 1864.

The public, thereiore, are cautioned against using any other than

Dr. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while Medical men extol its virtues most extensively, using it in great quantities in the following diseases:—

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, etc.

Extracts from Medical Opinions.

The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Davenport that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne.—See *Lancet*, December 31, 1864.

From A. Montgomery, Esq., late inspector of Hospitals, Bombay:—"Chlorodyne is a most valuable remedy in Neuralgia, Asthma, and Dysentery. To it I fairly owe my restoration to health, after 18 months' severe suffering, and when other remedies had failed."

Beware of spurious and dangerous compounds sold as Chlorodyne, from which frequent fatal results have followed.

None genuine without the words "Dr. J. Collis Browne" on the Government Stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufactures, J. T. Davenport, 33 Great Russell-street, Bloomsbury, London.

Sold in bottles at 1s. 1½d., 2s. 9d., and 11s.
