## PURIFY AND ENRICH THE BLOOD BY

# Barringer's Pills and Ointment,

## Which insure Health and Long Life, and Cure all Diseases.

It is a remarkable fact that those who resort to pure Vegetable Medicines generally live to a great age, while, on the other hand, sufferers who take Mineral Medicines are never well for long together, owing to the pernicious nature of the drugs used, which being, to a certain extent, poisonous, break up the health, so that very little good is done, even if the disease is cured, if there is nothing left but a shattered constitution.

BARRINGER'S PILLS AND OINTMENT are guaranteed to be purely herbal, being extracted from the balms, juices, essences, and balsams of Arabic plants, and being perfectly harmless, can be used by the tenderest infant or invalid with the most enfeebled constitution, *and yet possess such curative properties that they have never been known to fail.* Patients have left the Hospitals uncured, and taken these Medicines, and become well and robust, many of them having been on the brink of the grave, and whose cases have been given up as hopeless. Sufferers from diseased limbs who have been told that to save their life they must *lose* the limb, have been restored to Health, and their limbs saved simply by the use of BARRINGER'S PILLS AND OINTMENT. The patients themselves have sworn to these facts before the Lord Mayor and other Magistrates, and then, out of gratitude, handed their *declarations* and *affidavits* to Professor Barringer, who will show them to anyone desirous of enquiring into the truth of these statements, and a trial of even a single Pot or Box of these remedies will be sufficient to convince the most sceptical that ALL who give them a fair trial can in like manner be RESTORED TO HEALTH, HAPPINESS, AND LONG LIFE. The mighty HEALING powers of these Medicines being such that the most afflicted will soon be able to enjoy all the blessings and comfort of HEALTH by means within the reach of all, as a box containing FIFTY of these Pills can be purchased for 1s. 1½d., while that at 2s. 9d. contains ONE HUNDRED AND FIFTY, and the 4s. 6d. size box THREE HUNDRED, so that this Medicine in addition to being the BEST is also the CHEAPEST, and ALL WHO WISH TO BE WELL, AND KEEP WELL, can do so by taking one or two of these Pills occasionally, and the expense will not be more than a few pence a month, which everyone is able to afford, for no one yet ever tried these Medicines without deriving great benefit, as they expel all diseases, however obstinate, and thoroughly purify and enrich the blood, while the Ointment will cure every eruption, from the pimple to the deep-seated ulcer, and acts like dew on the parched and diseased skin.

The extraordinary cures accomplished by these Medicines have astonished the Medical Profession, who gave it as their opinion that Barringer's Pills and Ointment will eventually supersede every other medicine.

These Pills and Ointment are sold at PROFESSOR BARRINGER'S Establishment, price 1s. 1½d., 2s. 9d., and 4s. 6d. per pot or box. There is a considerable saving in buying the larger sizes, and the Medicines can be forwarded without extra charge to any part, accompanied with plain printed Directions for the cure of all disorders.

---

## 2, King's Road, Bedford Row, Holborn, London, W.C.

---

*Just Published, Price 4d., Post-free, Five Stamps.*

THE BARRINGERIAN SYSTEM OF VEGETABLE MEDICINE EXPLAINED. Showing the advantages and safety of herbal remedies, and containing directions for attaining health and prolonging life, with many interesting facts never before published.

THE

# COMMERCIAL DIRECTORY

AND

# SHIPPERS' GUIDE.

1872.

FOURTH EDITION.

LIVERPOOL:
PUBLISHED BY R. E. FULTON, LEICESTER BUILDINGS, KING STREET.

COPYRIGHT.

LIVERPOOL:
MATTHEWS BROTHERS, STEAM PRINTING WORKS,
THOMAS STREET, PARADISE STREET.

# PREFACE.

In presenting the Fourth Annual Edition of this Work to the Public, and thanking them for the steadily increasing patronage hitherto bestowed on each Issue, the Publisher begs to call their attention to the rapid development of the Abridged Directories of Manufacturing Towns (commencing on page 1a at centre of book), to compile which each Town has been Canvassed by Agents thoroughly acquainted with the work, and neither care nor expense has been spared to make this a thoroughly simple and reliable Book of Reference to the Merchants, Exporters, and Manufacturers in every Branch of Business.

The information contained in the Liverpool Section has been brought down to a very late period, and many alterations of importance occurring during the last few weeks, will be found duly recorded.

By Canvassing the Towns throughout the Kingdom, a very large Circulation has been obtained for the Work, and among many who otherwise would have no such Book of Reference, and the Publisher is confident, that no better medium now exists for Permanent Advertisements.

In conclusion, he has only to state that it will be his aim, in each succeeding year, to increase the usefulness of the Book, and thus merit a continuance of that patronage so liberally bestowed on him during the compilation of this edition.

R. E. FULTON.

*April* 1*st*, 1872.

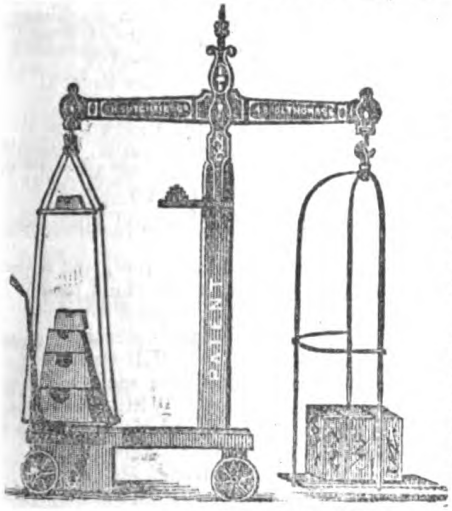
# H. SUTCLIFFE & CO.,

## GROCERS' CANISTER MANUFACTURERS;

Japanners, Copper, Iron, Zinc, and Tin-plate Workers; Scale and Weighing Machine Makers; Tea, Coffee, and Paint Mill Depot, and Grocers' General Furnishers.

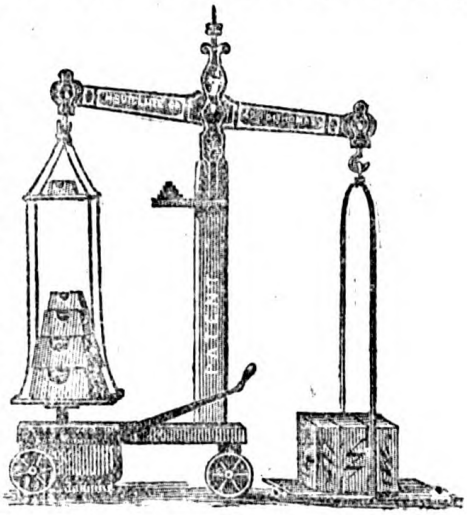
## PATENT MOVEABLE PILLAR SCALE, with Patent combined Action,

By Royal Letters Patent.



For lifting, and at the same time throwing off the weight from the Centres of the Beam, whilst loading and unloading the Scale, thereby causing the knife edges of the centres to retain their sharpness without any repairing considerably longer than any ordinary Scale.

These Scales are particularly adapted for the use of Butter Merchants, Corn Dealers or Millers, Leather Factors, Wholesale Grocers, Warehousemen, Silk Merchants, and others, where accuracy, combined with quick despatch of business, is required.



**The Advantages to be derived by the Use of these Scales:—**

1st.—The simplicity and ease in working, enabling a boy to work them.

2nd.—The prevention of error in weighing, as is the case in many instances with the ordinary machine.

3rd.—Doing away with the lifting of the Goods, on and off the Scale, as the Goods can be trucked on and off the Goods end as it rests on the floor.

4th.—The Beam being of the best make, and the Centres got up very fine, enables the user to weigh with the greatest accuracy. And many other advantages over the ordinary Scale or Machine.

PRICES AND PARTICULARS ON APPLICATION.

**Agents for Messrs. AVERY'S PATENT AGATE SCALES.**
**A large variety of every description kept in Stock.**

PAINT MILLS, to work by Hand or Power. Importers of RUSSIAN BOWLS.

## COFFEE ROASTERS AND COPPER LAMPS MADE TO ORDER.

# BRITISH AND FOREIGN
# Patent and Proprietary Medicines,
# PERFUMERY AND DRUGGISTS' SUNDRIES.

## F. NEWBERY & SONS,

*(125 years in St. Paul's Churchyard,)*

**37, NEWGATE STREET, ST. PAUL'S, LONDON, E.C.**

**Bureau in Paris—100, Rue de Maubenge. Corresponding House in New York, 8, College Place.**

NEWBERY & SONS having the Special Agency for many of the principal American and Continental Proprietaries, beg to intimate that their connections with the trade and influential position, give them facilities for executing all Orders for English and Foreign Specialities. They also cordially invite an inspection of their new and commodious premises which will be found replete with the newest appliances for the prompt despatch of business. Their tock having been considerably augmented, they are enabled to guarantee the speedy execution of all Orders and Indents with which they may be favoured.

NEWBERY & SONS undertake Agencies for, and receive Consignments of, New Goods, (British and Foreign) *only on Commission*, i.e., all Goods are to be invoiced on "Sale or Return," and Half-yearly Account Sales rendered by them to the end of June and December, and a settlement made for the amount sold, less charges, &c. They will be happy to forward the conditions under which they undertake Commissions and Agencies, with various information relating to the introduction of Proprietary Goods, *on receipt of Trade Card or Circular.*

**Special Agents for Brown's (Philadelphia) Essence of Jamaica Ginger, Murray and Lanman's, (New York,) Florida Water, Grimault & Co.'s (Paris) Matico Capsules and Injection, and other preparations of all kinds, Laville's (of Paris) Anti-Gout and Rheumatic Liquor and Pills, Mollard's (Paris) Sulphur Soaps, Creams, &c., Tarrant's Seltzer Aperient, Warburg's (of Vienna) Tincture, &c., &c., &c.**

MESSRS. NEWBERY *are prepared to give references in London, Paris, Berlin, Brussels, Florence, Geneva, Madrid, Stockholm, New York, Philadelphia, &c., &c.*

**For Fevers and all Inflammatory Diseases.**

HALL'S
VEGETABLE SICILIAN
HAIR
*RENEWER.*

**For Diarrhœa and Bowel Complaint.**

**Brockedon's Patent Compressed pure Bi-Carbonates of Soda and Potass.**—Well-known as the most wholesome and efficient remedies for acidity in the stomach, ever yet discovered, are now offered in a new and more convenient form than any in which these Alkalies have hitherto been exhibited. This patent shape is given by compression, without any admixture of mucilage or other substance to effect cohesion, for such addition always checks the free action of the Alkali on the Acid. Prepared by the Proprietors, F. NEWBERY & SONS, and sold by them at 37, Newgate Street, London, and by their Agents throughout the United Kingdom and States of America, in boxes 1s. and 2s. 6d.

F. NEWBERY & SONS' New Catalogue, with latest additions and corrections, will be forwarded to Merchants, Shippers, &c., on receipt of Trade Card or Circular.

PARIS EXHIBTION, 1867.

# PLATINUM, PRECIOUS METALS,
AND
# CHEMICAL PREPARATIONS,
EXHIBITED BY MESSRS.
# JOHNSON, MATTHEY & Co.
## HATTON GARDEN, LONDON.

## AWARDS OF THE JURORS.

CLASS 40. GOLD MEDAL. "For Progress in Metallurgy and Refining the Precious Metals."

CLASS 44. SILVER MEDAL (Highest Award in this Class.) "For Nitrate of Silver, Chloride of Gold, and Chemical and Metallurgical Preparations.

CLASS 51. GOLD MEDAL. "For Improvements in the Construction and Manufacture of Platinum Sulphuric Acid Stills and Apparatus, and for Perfection in Working the Precious Metals."

**Also nominated for the "Legion of Honour," "for general excellence."**

### *CLASS* 51. *GROUP V.*

**PLATINUM STILLS and SYPHONS.**—One Still to concentrate 8 Tons (8,000 kilos.) of Sulphuric Acid per day. Value £2,500 (62,500 Fs.)

One Still to concentrate 5 Tons (5,000 kilos.) of Sulphuric Acid per day. Value £1,640 (41,000 Fs.)

These Stills comprise several new improvements, the most remarkable of which is that they are made without gold soldered joints, so that the whole boiler is formed, so to say, of but one solid piece of metal. This is effected by autogenous soldering, which important improvement not only renders these vessels stronger, more durable, less liable to leakage and want of repair, and less costly than those made upon the old plan, but also enables the gauge of the metal to be regulated in accordance with the wear and tear to which the different portions of the Still are exposed, saving unneccessary weight of metal where thickness is not required. These magnificent specimens of autogenous soldering deserves a minute and careful examination. The metal of which these Boilers are manufactured is of absolute chemical purity.

PLATINUM SYPHONS.—The improvements here shown are of some considerable importance. By means of the ball and socket joint the tubes can be adjusted to any required angle, and can be removed with facility. The platinized bronze clamps formerly used, which constantly required renewal, are entirely dispensed with. To facilitate packing and cleaning, the branch Tubes are also made with double joints in the middle.

**IMPROVED PLATINUM SYPHON**, for use in Gold and Silver Refineries.

**PLATINUM ALEMBIC**, for use in Mints, Refineries, and Chemical Manufactories; generally employed for the separation of gold and silver, but so constructed as to be capable of adaptation to all ordinary purposes. Value £300 (7,500 Fs.) By the use of such an apparatus not only are great economy and rapidity effected in refining, but the operation is conducted with much greater certainty and safety.

**PLATINUM STILL HEAD and ARM**, of new shape, for Sulphuric Acid Boilers. By this simple alteration an immense saving is obtained, the production of concentrated acid is increased, and the weak acid which is condensed in the leaden worm, is reduced in strength 30 per cent.

**PLATINUM DISTILLING APPARATUS and TUBE.**

**PLATINUM INGOT.**—Prepared of chemically pure metal and forged in one mass. Value £1,100 (27,500 Fs.) With such an ingot the whole body of a 5 ton boiler such as is shown, can be manufactured.

**PURE PLATINUM MELTED**, by the intense heat of combined gases. Three ingots, value £510 (13,000 Fs.)

**PLATINUM TUBES.**—These Tubes are made of every length and size, and autogenously soldered. In strength and durability they are superior to those made with gold solder, and also to those made by pressure, as they escape the severe strain which the thick metal of which pressed tubes are necessary made, must undergo.

**PLATINUM WIRE.**—Sheet, Foil, Gauze, Crucibles, Capsules, Dishes, Pans, Lightning Conductors, &c., &c.

**PLATINUM PLATE.**—Soft, half-hard, and hard.

**PLATINUM ASSAY APPARATUS**, by the use of which gold assays can be made with the greatest accuracy and rapidity.

### *CLASS* 40. *GROUP V.*

**IRIDIO-PLATINUM** (Matthey's Alloy) expressly prepared for vents or bushes for heavy ordnance. One vent (kindly lent by Mr. Whitworth) is exhibited in section. It has fired 3,000 rounds from a Whitworth Cannon, and scarcely shows wear.

**PLATINUM in VARIOUS FORMS.**—Native, sponge, alloy, salts, plated on copper or on silver, for scale pans and Philosophical instruments. Platinum granulated and alloyed with Iridium, 10, 15, and 20 per cent.

**PRECIOUS and RARE METALS.**—In the native state and in prepared forms.

**SERIES.**—1 kilo each (about 2 lbs.) of the following noble, rare, and common metals of chemical purity and melted in the rough in a symmetrical form to demonstrate practically their respective specific gravity and their characteristic qualities when melted. Iridium, Platinum, Gold, Mercury, Palladium, Thallium, Lead, Rhodium, Silver, Bismuth, Osmium, Ruthenium, Copper, Cadmium, Cobalt, Nickel, Tin, Iron, Zinc, Antimony, Aluminium, Magnesium, Sodium, Potassium.

A series of native gold specimens, nuggets, and dust, from various parts of the world, illustrating their various characteristics and natural forms.

A series illustrating the two processes of refining the precious metals, and preparing them for coinage and for manufacturing purposes, showing the various crude forms in which they reach England; the metals and their solutions; the various stages of the refining and melting processes. Also the secondary products—the pure salts and metals, and the condition in which they are delivered over for coinage and other purposes.

Samples and preparations of Rare Metals, and of the non-metallic elements, Boron Sillicon.

**SODIUM AMALGAMS.**—As used (under the patents of W. Crookes, Esq., F.R.S.) for the extraction of gold and silver from their ores.

**MAGNESIUM, INGOTS, PLATES, BANDS, ROD WIRE, RIBBON, LAMPS, &c.**

**MODEL of an INGOT of Pure Platinum melted by Messrs. Johnson, Matthey, & Co.**, by the heat of combined gases. Value £3,400 (85,000 Fs.) This enormous ingot was melted for the Exhibition of 1862, where it was exhibited for six months.

Also of a **PLATINUM STEAM COIL**, made of pure platinum tubing, autogenously soldered. Value £800 (20,000 Fs.) Manufactured for Messrs. Crosse & Blackwell, and used by them for boiling their pickling vinegar. The length of the tube was 32 feet [9,660 metres] diameter 1¼ inches [4 centimetres.] It boils 325 gallons [1,475 litres] in 45 minutes. Aluminium Steam Pan for boiling preserves.

### *CLASS* 44. *GROUP V.*

**CHEMICAL and METALLURGICAL PRODUCTS.**—Nitrate Silver, in all commercial forms, Chloride of Gold, Salts of Platinum Iridium, Rhodium, Palladium, Gold, Silver, Copper, Cobalt, Cadmium, Lead, Antimony, Arsenic, Mercury, Nickel, Tin, Zinc, &c.

A SERIES of the SALTS of URANIAM.—New Colours for Enamel Painting, Chromo-Lithography, and decoration. Manufactured by an entirely new process, by means of which great brilliancy, durability, and harmlessness are ensured, at a less cost than that of ordinary colors.

**Value of the above estimated at £20,000 (500,000 Fs.)**

**Manufacturers of Nitrate of Silver and Chloride of Gold, (Wholesale only.)**

REFINERS AND SMELTERS OF

PRIZE MEDAL

*Awarded for excellence in the Manufacture of*

NEEDLES AND FISH-HOOKS.

### REDDITCH.—NEEDLES AND FISH-HOOKS.

Under this heading the *Art Journal* for September 1862, p. 192, gives the following description of the Case of Needles exhibited by Messrs. THOMAS and SONS, of the British Needle Mills, Redditch, which, it may be observed, were specimens of their ordinary manufactures, and were not specially produced for the purpose of exhibition:—

"The series of cases which almost exclusively contain Needles and Fish-hooks demand their own share of attention amongst the *notabilia* of the Exhibition. Redditch, which produces these two distinct yet closely allied manufactures, is most honourably represented at South Kensington. The case that is by far the most remarkable of the group, and which may fairly be selected for especial notice, is that of S. THOMAS and SONS, *British Needle Mills*. It is a truly remarkable production, as well for its contents as for the manner in which they have been made to produce an elaborate and beautiful decoration. The actual manufacture of Needles is illustrated by means of distinct collections of examples of the progressive operations of the manufacturer, and finally they appear 'finished' as perfect Needles. Thus this collection carries the observer on from step to step, and practically familiarises him with the manufacture that takes so important a part in universal industry. The Fish-hooks are exhibited in heaps, tempting indeed to every piscatorial eye, and they exemplify every possible variety of the delicate yet formidable implement that seals the doom of the finny races. The fine temper of the steel must be assumed, but the exquisite workmanship that has wrought these slender yet strong and sharp instruments is palpable enough and commands the warmest commendation."

### INJUNCTIONS IN CHANCERY.

The acknowledged superiority of the Needles manufactured by S. Thomas & Sons has had the result of inducing unprincipled persons to adopt a fraudulent imitation of the name of their firm, and labels which they use. In May, 1863, Mr. Thomas filed a bill in the Court of Chancery against Edward Cook and William Adams, and moved for an injunction 'to restrain the fraudulent use by the defendants of his trading style, and labels, or any colourable imitation or counterfeit thereof.' The case came on for hearing on the 28th of May, before Vice Chancellor Sir W. Page Wood, and it was then shown in evidence that Cook, who had been in the employment of plaintiff as clerk and bookkeeper, was discharged in October, 1862. He then determined to turn, by a fraud on the public, the knowledge he had gained of plaintiff's business to his own purposes, and having discovered at Worcester a poor old man named Samuel Thomas, he, in conjunction with Adams, entered into partnership with him, and the firm assumed the name of "S. Thomas and Co." It was provided in the partnership deed that Thomas should have for the use of his name for the first six months one-seventh of the profits of the business. After the expiration of six months he might be dismissed from the partnership with an annuity of five shillings per week as long as he lived. The pretended firm on commencing operations gave notice to the Post Office at Redditch to forward all letters addressed S. Thomas and Co., to the dwelling-house of Adams. The result was that they received many letters intended for plaintiff. They got labels closely resembling those of plaintiff in type, size, and colour, and having placed them on needles of an inferior quality, canvassed largely for orders in Canada and elsewhere, stating in a letter to a firm in Montreal, whom they wished to become *their* agents in Canada, 'we believe that Thomas's needles are in demand in the Canadian markets.'

After hearing the application, and the three learned counsel who appeared for defendants, the Vice-Chancellor, without calling for a reply, said comment was almost thrown away in such a case. the gross fraud which the defendant Cook had committed being so palpable that it did not require a moment's discussion. Not being of the name of Thomas, and wishing to defraud his former employer, he bought up a poor old man of the name of Thomas in order to concoct the fraud. He (Sir Page Wood) was afraid that Cook completed by perjury his attempt to conceal his fraud, and he disbelieved everything which a man like Cook ventured to say, or swear, which was not corroborated by the strictest possible evidence. He thought this was one of the most gross cases that had ever come before the Court, and it was not necessary for him to say any more about it.

The injunction was made perpetual, with costs.

Again in 1866 certain orders intended for Messrs. S. Thomas and Sons were addressed "Britannia Works" instead of "British Needle Mills," and falling into the hands of a person named Samuel James Thomas, he obtained needles of a very inferior quality, had them labelled in exact imitation of S. Thomas and Sons' genuine goods, and fraudulently executed the orders.

S. Thomas and Sons thereupon filed a bill against the said Samuel James Thomas, and obtained an injunction to restrain his using or imitating their trading style and trade marks; and also to prevent his taking proceedings to recover payment from Messrs. S. Thomas and Sons' customers for the goods he had supplied under the circumstances.

Similar frauds are still practised by other unprincipled persons, and inferior articles are thus palmed upon the public as their manufacture. It is therefore particularly requested that all communications may be addressed in full:—

## Messrs. S. THOMAS and SONS,

### BRITISH NEEDLE MILLS, REDDITCH.

NEEDLE MANUFACTURERS—*contd.*

**BANKS T. & CO., manufacturers** of needles and fish-hooks, for home and foreign markets, and all descriptions of sewing-machine needles; also packing, sail, mattrass, and other needles, bodkins, knitting pins, &c.

**BARTLEET W. and SONS, Abbey mills**

Baylis A. G. and Sons, Royal needle manufactory

Baylis T. and Co., Bredon needle works

Beckett Henry and Sons, Studley

**BOOKER ALFRED and CO., Midland** needle & fish hook works; manufacturers of every description of machine and sewing needles; also all kinds of fish-hooks and fishing tackle, pack and sail needles, knitting pins, bodkins, &c., for home and export. Sole proprietors and manufacturers of Benjamin Davies and Sons' celebrated needles and fish-hooks, Studley; established 1800. ## STEAM HAMMER MAKERS.

Thwaite and Carbutt, Vulcan Iron mills. Prize Medal awarded at the Paris Exhibition

## VENTILATOR MANUFACTURER.

**WATSON EDWARD, self acting ventilator manufacturer, 86 Wesgate.** Nearly the whole of Windsor Castle is ventilated by ventilators on this principle; as were the Chapels Royal, St. James' and St. George's, for the marriage of the Princess Royal and the Prince of Wales. The Syphon Ventilator is the cheapest, the best, the most efficient and the most durable It does not admit wet, dust, or soot; and at all seasons it admits the external air without the strong and dangerous draughts so common with other ventilators. From whatever quarter the wind blows, or however violent, its operations are perfect and unceasing. Nothing can prevent its regular action; it never fails —Ventilation without violent draught

# CLECKHEATON SECTION.

## CARD MANUFACTURERS.

Broadbent I. J. and T
Fox Thomas, Upper Rawfold Mill
Goldthorp R. and C., Upper Rawfold wks.
**LAW SAMUEL and SONS, Moorland mills**
Roberts Damon, Walker's mill
Roberts Samuel, Perseverance mill
Tetlow L. M., Toft's mill
Yates James and Son

## ENGINEERS.

*Brief objects of the Association.*

1.—To protect the interests of its subscribers who are creditors in failures under the existing bankruptcy laws, and to investigate on their behalf the position of debtor's estates.

2.—To attend meetings of creditors on behalf of subscribers in town or country, and prepare their proofs free of charge beyond the annual subscription.

3.—To obviate the present excessive charges and losses to creditors, and to prevent improper receivers and trustees being appointed to manage and wind-up debtors estates.

4.—To collect over-due accounts by personal application or legal process at a fixed charge.

5.—To furnish members with confidential and registered information.

6.—To render legal advice to members by the solicitor to the association, in all failures in which they may be interested.

7.—To oppose fraudulent debtors and reckless traders who have obtained credit or goods from subscribers.

8.—Unpaid bankruptcy and liquidation dividends searched for and recovered.

N.B.—The co-operation of all wholesale traders is solicited.

Annual subscription Three guineas.

Upwards of 180,000 of these IMPROVED STEAM-PRESSURE and VACUUM GAUGES have already been manufactured and sold. Their superiority over all others hitherto known is sufficiently demonstrated by the increasing demand experienced for them.

---

# DR. J. COLLIS BROWNE'S CHLORODYNE.

**THE ORIGINAL AND ONLY GENUINE.**

ADVICE TO INVALIDS.—If you wish to obtain quiet refreshing sleep, free from headache, relief from pain and anguish, to calm, quiet, assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with that marvellous remedy discovered by Dr. J. COLLIS BROWNE, (late Army Medical Staff,) to which he gave the name of

## CHLORODYNE,

and which is admitted by the Profession to be the most wonderful and valuable remedy ever discovered.

**CHLORODYNE** is the best remedy known for Coughs, Consumption, Bronchitis, Asthma.
**CHLORODYNE** effectually checks and arrests those too often fatal diseases—Diptheria, Fever, Croup, Ague.
**CHLORODYNE** acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.
**CHLORODYNE** effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.
**CHLORODYNE** is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

*CAUTION.—BEWARE OF PIRACY AND IMITATIONS.*

CAUTION.—Vice-Chancellor Sir W. PAGE WOOD stated that Dr. J. COLLIS BROWNE was undoubtedly the Inventor of CHLORODYNE; that the story of the Defendant FREEMAN, was undoubtedly untrue, which he regretted to say, had been sworn to.—See *Times*, 13th July, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. COLLIS BROWNE'S CHLORODYNE" on the Government Stamp. Overwhelming Medical Testimony accompanies each bottle.

Sole Manufacturer—J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.

# HEAD, WRIGHTSON & CO.,
## TEESDALE IRON WORKS, STOCKTON-ON-TEES,
## Engineers, Iron Founders, Bridge & Roof Builders, Machine Makers.

SOLE MAKERS OF

## MOORE'S PATENT PULLEY BLOCK.

These Patent Blocks possess many advantages over all others which have been introduced to the public.

They will raise the maximum load with a minimum power exerted.

They are very simple and not liable to get out of order.

The lifted weight cannot run down of its own accord when suspended.

Both chains take an equal share of the load lifted, thus distributing the weight, and causing the Block to hang perfectly plumb.

A hook can be attached to each end of the lifting chain, so that a fresh load can be raised without first lowering the chain.

These Blocks can be worked with greater ease than any other sort.

*The Hand Chain is included in Price of Block.*

| Lifting Power. | Price of Blocks. £ s. d. | Price of Chain per foot, including one Hook. s. d. |
|---|---|---|
| 10 cwt. | 1 15 0 | 1 0 |
| 20 ,, | 2 10 0 | 1 6 |
| 30 ,, | 3 0 0 | 1 8 |
| 40 ,, | 3 10 0 | 1 8 |
| 3 tons. | 5 0 0 | 2 3 |
| 4 ,, | 6 5 0 | 2 3 |
| 5 ,, | 7 10 0 | 2 6 |

## MOORE & HEAD'S PATENT HAND HOIST.

This Block or Hoist is specially constructed to enable one man to raise heavy weights with ease. It is so arranged that the man can check it without difficulty when the weight is falling.

It is simple in arrangement, strong in construction, and easy to move about.

It can be fixed to any beam or bar, and supplied with chain for any length of lift; it is therefore specially suitable for Mills, Warehouses, Builders' purposes, &c.

Two sizes are made: the smaller one to raise 5 cwt., and the larger one 10 cwt., when a force equal to 1 cwt. is exerted by the man.

PRICES.

| | | Hand Chain. | Lifting Chain. |
|---|---|---|---|
| No. 1. To raise 5 cwt. | £1 15 0 | 7d. per foot. | 0s. 7d. per foot. |
| No. 2. To raise 10 cwt. | 2 10 0 | 7d. ,, | 1s. 3d. ,, |
| If fitted with brake, 5 cwt. | 0 15 0 | Extra. | |
| ,, ,, 10 cwt. | 1 0 0 | ,, | |

Note.—Please state Height of Lift in ordering.

## GREEN'S IMPROVED

# PATENT FUEL ECONOMISER

## FOR STEAM BOILERS.

This Apparatus, after having been applied to all sorts of Boilers, and subjected to every variety of trial through a long period of years, still holds its position as the best and most efficient means of *Heating the Feed Water with the Waste or Residual Heat from Steam Boilers,* and thus effects a positive **saving of from 20 to 25 per cent.** of the Fuel, besides considerably reducing the "wear and tear" in the working of the Boilers, by furnishing, as it does, a constant supply of *Feed Water* at a high and uniform temperature.

The recent Improvements in the ECONOMISER, especially in the self-acting *scraping* or *cleaning* Apparatus, render it still more worthy of general adoption.

N.B.—The ECONOMISER is now in successful operation to more than 1,300,000 Horse Power, and giving universal satisfaction.

*All necessary Information may be obtained of the Patentees and Sole Makers,*

**EDWARD GREEN AND SON,**

**14, St. Ann's Square, Manchester; or Phœnix Works, Wakefield;**

**Also, LONDON, GLASGOW, &c.**

**PROPRIETORS: A. ROWLAND & SONS, LONDON.**

## JOHN JOHNSON & CO.'S

CELEBRATED REGISTERED

# NICKEL SILVER BLACK LEAD.

**A most important discovery. The smallest possible quantity gives a Grate a polish equal to Nickel Silver.**

This article is the result of careful analysis and chemical research, and is so prepared as to meet the necessity which has arisen for a Black Lead which can be *handled without soiling the fingers*, and which will black and polish the Grate, without also black-polishing the marble chimney-piece, the hearth-rug, carpets, and furniture. No dust and no dirt, because there is neither dust nor grit in its composition, *it being entirely free from both.*

Registered according to Act of Parliament, No. 218,983.

ANALYTICAL CERTIFICATE.—"To Messrs. John Johnson & Co.—I have much pleasure in certifying that the Black Lead prepared by you is of very superior quality, and is *Three per Cent. purer* than any other samples I have been able to obtain.—Yours, &c.,

"July 15, 1868. "JOHN CAMERON, F.C.S., Analytical Chemist."
