N.B.—The publishers will be glad to receive information adapted for future issues of this Almanac. Suggestions that may tend to make the book more generally useful shall also receive attention.

JOHN DAVIES, PRINTER, HOBART TOWN, TASMANIA.

PREFACE.

THE publication for the fifth time, under its present Editorship, of the 'Tasmanian Almanac and Guide to Tasmania,' serves as a fitting occasion for the compiler to express his thanks to the numerous friends who have assisted him in his task. It can only be by the help of persons who possess, and are ready to supply, local information, that a complete and trustworthy official guide can be produced, and it is with much gratification that the Editor acknowledges the readiness with which his requests have been complied with by the Council Clerks and Police Clerks of the several Municipalities and Police Districts; to Mr. A. T. Mayson, Stipendiary Magistrate at Circular Head, the Editor's special thanks are due for the carefully prepared description of the extensive Police District of Horton.

The information given in former issues of this Almanac has been carefully verified and corrected, while several new tables have been added; the list of townships, &c., on pages 161 to 165 has been revised at the Survey Office, and it is believed will be found of service as a key to Sprent's Map of Tasmania.

It is not possible that *absolute correctness* can be arrived at, especially at a time of almost daily political changes and modifications of existing public institutions, but, so far as it has been in the compiler's power to present a reliable hand-book of reference, he has faithfully performed his work, and he would esteem it a favor, if, when an error is discovered, the reader would "make a note of it," and would kindly forward the correction to the care of the publishers, either in Hobart Town or Launceston.

ADDITIONS AND CORRECTIONS DURING PRINTING.

Page 34.—*House of Assembly*—John Crookes and W. L. Crowther have resigned their seats. The Hon. Thomas Daniel Chapman has been elected (31st December, 1866) to represent Launceston in the place of J. Crookes; and Josiah Courtney Pratt has been returned (2nd January, 1867) for Hobart Town in the place of Dr. Crowther.

Page 36.—After *Mr. Smith's Ministry* from 12th May, 1857, to Nov. 1st, 1860, insert :—

A SUMMARY OF THE PRINCIPAL ASTRONOMICAL AND METEOROLOGICAL OCCURRENCES.

By F. ABBOTT, F.R.A.S., &c.

The astronomical department of the *Tasmanian Almanac* is, necessarily, limited to a small space. Tables of occultations, eclipses, and other phenomena are omitted to make room for a compendium of more useful information.

ECLIPSES.

In the year 1867 there will be four Eclipses,—two of the Sun, and two of the Moon.

First.—March 6th, an annular Eclipse of the Sun, visible in England, Ireland, and Scotland, but not visible in Tasmania.

Second.—March 20th, a Partial Eclipse of the Moon, visible in Tasmania. Its progress at Hobart Town will be as under:—

	D.	H.	M.
First contact with the Penumbra	20	5	54·8
First contact with the Shadow	20	6	05·5
Middle of Eclipse	20	6	38·3
Last contact with the Shadow	20	8	11·1
Last contact with the Penumbra	20	9	21·8

Magnitnde of Eclipse (moon's diameter = 1) 0·803.

The Sun sets at Hobart Town March 20th at 6 p.m.

Third.—August 29, a Total Eclipse of the Sun, not visible in Tasmania. At the Cape of Good Hope, and in South America, a partial Eclipse will be visible.

Fourth.—September 14th, a partial Eclipse of the Moon, not visible in Tasmania.

PROGRESS OF ASTRONOMY.

New Planet.—No. 85 of the series was discovered by Dr. C.H. Peters, at Hamilton College, Ohio, U.S., on September 19th, 10 mag. At the end of September its position was R.A. 12° 43′ 5·3″. Dec +11° 22′ 5·9″.

Biela's Comet.—*Comptes Rendus* contained a telegram from Secchi, to Le Verrier, "Rome, 10th December, 1865, yesterday morning at 9h. 6m. Biela's Comet very faint, R.A. 22h. 46m. 37s. Polar distance, 94° 8′."

New Planet.—No. 86, Dr. Tietjen, of Berlin, discovered a new planet on the 4th of January, 1866. Its magnitude is 11·9; R.A. 1h. 11m. 8s.; N.D., 3° 23′ 47″, name Semele.

Spectra of Comet.—So named, was discovered by Temple, at Marseilles, on the 19th of December, 1865, near β Ursa-Minor. It was seen as a faint Nebulous mass by Professor Bruhns, of Leipzig, on the 23rd December, and also by Dr. Oppolzer, at Vienna.

Comet 1 of 1866.—The elements of this Comet are given for January 9·24 Washington Mean time by Professor J. R. Eastman, U.S.

New Planet.—On May 7th, 1866, Mr. Pogson, at Madras, discovered a new minor planet, No. 87, named Sylvia. Magnitude, 11½.

New Planet.—No. 88, by C. H. Peters, at Clinton, U.S., June 15th, 1866, name Thisbe, approximate elements of this planet have been computed by Tietjen for July 22nd, Berlin, M.T.

New Planet.—No. 89, of the 9th magnitude, was discovered by M. Stephen at the newly founded Observatory at Marseilles, on the 6th of August, 1866, in the Constellation Capricorn.

The extraordinary variable star that suddenly appeared in May last, in Coronæ, known as (T.) in the Bonn catalogue, according to the published accounts, is said to have risen from below the 5th to the second magnitude in less thanfour hours; it appears to be identical with No. 2,765 of Argelander's zone + 26°, and marked by him as 9·5 magnitude; if reduced to the year 1866 there is a variable accords with it in Wollaston's catalogue (1790). Sir John Herschul

on the 9th of June, 1842, marked a star near the same place, visible to the naked eye.

There is perhaps no object in the Heavens that has created more interest amongst astronomers during the year 1866 than the Planet Saturn. This has in some respects been brought about by a remarkable work, bearing the title of *Saturn and its System*, by R. A. Proctor, B. A., F.R.A.S. The book is constructed on a most comprehensive plan, both mathematical and physical. It has been a source of regret to European Astronomers, that the gradual opening of the ring-system of Saturn, is associated with his progress into the southern constellations. They will, however, have still more cause of dissatisfaction, for nearly 20 years must elapse before Saturn will be as favourably situated with his ring-system fully opened for northern observation, as it was in 1856. Further scrutiny on this mysterious object is evident, and observers are not disposed to wait the long delay that must elapse before that slowly revolving planet brings round his opened rings at a suitable altitude above the Northern horizon.

SATURN'S RINGS.

ADDITIONAL ELEMENTS WITH NEW AND OLD MEASURES.

Longitude of ascending node of ring on ecliptic ..	167° 43′ 28·93″
Inclination of rings,plane to the ecliptic	28° 10′ 21·95″
Annual precession of the vernal equinox of Saturns northern hemisphere	3·145″
Complete revolution of either equinox in	412,080 years.

	Miles. Old Value.	New Value.
Exterior diameter of outer ring	173,500	166,920
Interior	153,500	147,670
Exterior diameter of inner ring	150,000	144,310
Interior	113,400	109,100
Interior diameter of the dark ring	95,400	91,780
Breadth of outer bright ring	10,000	9,625
Breadth of the division between the rings	1,750	1,680
Breadth of inner bright ring	18,300	17,605
Breadth of the dark ring	9,000	8,660
Breadth of the system of bright rings	30,050	28,910
Breadth of the entire system of rings..	39,050	37,570
Space between the planet and dark ring	10,150	9,760

This ring system of Saturn's, as far as we know, is *unique* in planetary arrangement, and when considered to revolve in connection with eight satellites, must give rise to frequent eclipses. The first four satellites are all nearer to Saturn than the Moon is to the Earth, Mimas is but 82,000 miles from Saturn's surface, and Dione about 206,000; Mimas' distance from the edge of the ring about 31,000. On the other hand Japetus is nearly ten times more distant from Saturn than we are from our satellite, so that the diameter of the Saturnian system measures nearly 4,500,000 miles.* Well may European Astronomers thirst for a favourable time again to re-examine this superb object, as they are aware (although the Planet is more favorably situated for inspection in the Australian colonies), there are neither instruments nor observers equal to the task.

It is clear from the foregoing table that Hobart Town has the most equable climate in the list. This arises from its insular position. Heat absorbed by a fluid increases the rate of its evaporation, and the evaporating process reduces the sensible amount of latent heat which the body has acquired. Every accession of temperature brings with it its own remedy, for at night the process is reversed, radiation takes place more slowly, from which, together with minor causes, in connection with that of sea breezes, the temperature at the surface remains comparatively unaltered, and renders our beautiful island the Queen of the South.

NOTES TO THE CALENDAR.

EPIPHANY.—From the Greek *Επιφάνεια* "manifestation," applied to the period when the Saviour was "made manifest" to the Gentiles.

PLOUGH MONDAY.—So called on account of the custom of resuming agricultural pursuits on this day, after the Christmas holidays.

SEPTUAGESIMA.—This and the following Sundays are regarded as preparatory to the Lenten fast, which, counting by Sundays, is supposed to begin about forty days before Easter, hence called Quadragesima. The three Sundays of the weeks preceding have names significant of their situation, reckoning by decades, thus:—Septuagesima (seventy days), Sexagesima (sixty days), and Quinquagesima (fifty days), before Easter.

SHROVETIDE.—So called on account of the ancient practice of confessing and receiving absolution—that is, being *shriven* or *shrived* —before the beginning of the Lenten fast.

ASH WEDNESDAY.—So called on account of penitents wearing sackcloth next their skin, and sprinkling ashes on their heads.

PALM SUNDAY.—So called on account of its being intended to commemorate the day on which our Saviour rode into Jerusalem, the multitudes cutting palm-branches,, to strew and to bear before him.

MAUNDY THURSDAY.—The word "maund" formerly signified a hand-basket, and on this day baskets of provisions were given to the poor. The practice is still observed at the Chapel Royal, gifts being distributed to indigent persons corresponding in number to the age of the sovereign. The etymology of the word is by some authorities traced to *Dies Mandati*, or Mandate Day, in allusion to our Saviour's command to his apostles, after he had washed their feet at the last supper.

GOOD FRIDAY.—The adjective here employed, beautifully expressive as it unquestionably is, is peculiar to the Church of England. Its ancient title was Holy Friday; and the week in which it falls was, and still is denominated Holy Week.

EASTER.—This term, which is traced by some to the goddess of the East—*Eastre*—is more probably derived from a word significant of rising, and used as expressive of our Lord's resurrection. The Greek and Latin Churches call it *Pascha*, from a Hebrew word signifying "a passage"—the name given to the Jewish *Passover*, and appropriately applied to the death and resurrection of Christ (1 Cor. v. 7).

LOW SUNDAY.—So called on account of the religious ceremonies being of a lower degree than those of the high festival of Easter.

ROGATION SUNDAY received its title from the Monday, Tuesday, and Wednesday immediately following, which are called "Rogation days," from the Latin *rogare*, "to beseech." On those days special prayers were appointed, as a preparation for the observance of our Saviour's ascension.

WHIT SUNDAY.—The derivation of the term "Whit" is very uncertain, but the most probable conjecture seems to be the practice of the clergy and candidates for baptism wearing white robes on that day.

DOG DAYS.—The ancients ascribed the heat of this season of the year to the rising of Sirius, the dog-star. Under its influence, according to their belief, the sea boiled, the wine turned sour, dogs went mad, and all other creatures became languid; causing to man, among other diseases, burning fevers, hysterics, and frenzies. It is scarcely necessary to add that there is no foundation for the superstition.

ST. SWITHIN.—The legend of this saint relates that, the bones of St. Swithin working wonderful miracles, the monks of Winchester proposed to remove them from the churchyard to the chancel of the cathedral. On the day appointed violent rains came on, and prevented the removal. The rain lasted forty days, and was considered to indicate that the saint objected to the change. It was supposed that if it rained on St. Swithin's Day, there would be a continuation of wet weather. The real fact is that this period of the year is often a rainy season.

LAMMAS DAY.—This is one of the most ancient quarter-days. Whitsuntide was the first, Lammas the second, Martinmas the third, and Candlemas the fourth. It has been conjectured that Lam, or Lambmass, originated from St. Peter being the supposed patron of lambs; the mass being therefore instituted in his honor, that lambs might escape the danger arising from cold, after being shorn at that season.

ADVENT.—Advent is dependent on the feast of St. Andrew, always being the Sunday nearest to that day, whether preceding, on the day itself, or on that following it.

CHRISTMAS is observed in memory of the birth of Christ—hence called the mass or service of Christ, or Christ's mass.

GARDENERS' KALENDAR.—*Fruit Garden*—Where budding is required it may still be performed, choosing, if possible showery weather. Cut off all unnecessary shoots from young trees, if they are not required for scions in the Spring. Continue to pinch off all lateral shoots from the vines. *Flower Garden.*—Choice carnations may be increased by cuttings and layers with shade and moisture. Choice flowers should be marked for seed. Annuals that have done flowering should be removed, or some will become troublesome weeds. *Kitchen Garden.*—Plant celery in trenches; plant succession of French beans; sow turnips when the weather is moist, take up early potatoes that are ripe; gather all kinds of seed as they ripen, cut off all runners from strawberries that are not wanted for plants, to give strength to the roots. *Greenhouse.*—Calceolarias, Cinnerarias, &c., may still be sown. Geraniums that have done flowering should be cut down, and re-potted as soon as they begin to make fresh shoots. Cuttings struck now will make good plants next year with care. Continue to shade and water as directed last month.

GARDENERS' KALENDAR.—*Fruit Garden.*—But little is required in the fruit garden this month, besides attending to the buds. Strawberry runners should be kept moist to form robust plants in time for transplanting in the first Autumn rains. —*Flower Garden.*—Cut off all flower stalks as soon as done flowering, except those required for seed. When seed is not required the flowering season is prolonged by cutting it off as soon as formed. Verbenas, pentstemons, petunias, and other herbaceous perennial plants may now be propagated by cuttings. Encourage the asters chrysanthemums, dahlias, &c., by frequent watering. You may use the rake now to preserve a neat appearance. *Kitchen Garden.*—In showery weather some vegetables may be sown to come in during the winter. Mark out plants of the cabbage tribe to be permitted to run to seed. Earth up peas and potatoes; hoe and stir the surface wherever necessary, among all descriptions of crops. *Greenhouse.*—As the principal displays of this season are over, we must turn our attention to preparation for the succeeding, by propagating, by seed and cuttings, and preserving such old plants as are desirable for another year. Now is the time for forming plants of the early flowers too frequently neglected by amateurs, until the flowering season. Sow mignonette for winter flowering.

Sow turnips, thin out those sown last month. Earth up celery, take up potatoes, and house onions when well dried. *Greenhouse.*—Continue the general directions, given for last month.

ST. PATRICK'S DAY.—The shamrock is said to be worn by the Irish, upon the anniversary of this their tutelar saint. for the following reason. When he preached the gospel to the Pagan Irish, he illustrated the doctrine of the Trinity by showing them a trefoil, or three-leaved grass, with one stalk; which operating to their conviction, the shamrock, which is a bundle of this grass, was ever afterwards worn upon this saint's anniversary, to commemorate the event.

GARDENERS' KALENDAR.—*Fruit Garden.*—Planting vines and fruit trees may be commenced towards the latter end of the month; in the meantime keep the ground well worked in dry weather, and dig between the old trees as soon as the leaves have fallen. Keep the surface of the ground loose between the rows of newly planted strawberries, and dig between the rows of the old ones. *Flower Garden.*—Plant bulbs of nearly all the hardy species in dry weather, and dig and manure borders between shrubs and herbaceous plants, and form new ones where required, leaving the ground rough. Carnations, &c., that have been propagated during the Summer may now be formed into beds, and general planting of shrubs, roses, &c., towards the end of the month, examine the haunts of slugs, as every one destroyed now will save considerable trouble and annoyance in the Spring. *Kitchen Garden.*—Continue to sow and plant a succession of vegetables, salading, &c., dig and manure all spare ground in dry weather. *Greenhouse.*—Cuttings of geraniums that have struck root should be potted into small pots, to be shifted into larger as they advance in growth, the same rule applies to cinnerarias, calceolarias, &c., give air freely during fine weather, and water moderately during damp or wet weather. Gloxinias, achimenes, and other bulbous plants that have done flowering, should be allowed to dry off, primulas and cyclamens that are coming into bloom should be kept near the glass, and watered freely.

GARDENERS' KALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be proceeded with in dry weather, taking care to leave the surface of the ground loose after the operation. The general pruning of fruit trees, vines, &c., may be commenced towards the latter end of the month, especially such as are in a weak state of growth. All the ground should now be dug up roughly, burying the leaves and what manure can be afforded. *Flower Garden.*—Now is the time for putting in order all flower borders, shrubberies, &c., by pruning the shrubs and roses, trimming the edges, dividing and regulating the herbaceous plants, digging the borders and thereby creating a neat appearance during the winter months, and obviating the necessity of digging amongst the roots of plants in the Spring; it likewise breaks into the favorite haunts of the slugs, whereby they are more easily found and destroyed; where new borders are to be formed, and planted it should now be done. *Kitchen Garden.*—Plant out cabbage, cauliflowers, and lettuce. Sow peas, broad beans, and carrots, for early use. Sow spinach and onions. *Greenhouse.*—But little can be done in the greenhouse now beyond giving plenty of air on all favorable occasions, watering when the earth becomes dry, and keeping the plants free from vermin and dead leaves. Keep all growing plants as near the glass as possible.

GARDENERS' KALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be completed this month; should it not be convenient to do so, the trees intended to be planted next month, or later, should now be lifted and laid in by the heels, which will keep them back, always choosing dry weather for the operation, stir the ground around those planted previous to heavy rains as soon as it is dry enough for the purpose. All pruning should be finished this month. *Flower Garden.*—Continue the general directions for last month, and complete the planting of deciduous trees and shrubs. Keep the ground between the bulbs free from weeds. *Kitchen Garden.*—Plant early potatoes, &c., in a warm dry border. Early peas and beans might be sown once a fortnight, or three weeks, from this time forward. Sow the main crops of onions and carrots, also some radishes, lettuces, spinach and early cabbage. Propagate plants which are increased by rooted off-sets. Transplant for seed, if not done in autumn, carrots, turnips, beet, celery, parsnips, &c. *Greenhouse.*—Continue the general directions for last month. Fuchsias that have shed their leaves should now be prepared for the following season by cutting back and re-potting them. Geraniums that are growing tall and thin should have the ends of the shoots pinched off, which will make them more bushy and compact. Repot cinnerarias and calceolarias as soon as the present pots are filled with roots. This rule will apply to growing plants generally.

GARDENERS' KALENDAR.—*Fruit Garden.*—Planting and pruning vines and fruit trees, if not finished, should be done immediately. Vine cuttings may be planted. Prepare for grafting, the proper time is as soon as the stocks are well started. Raspberry and strawberry borders may still be prepared, and new ones formed, if not already done. Look carefully over the apple trees, and dress the parts affected by the *Aphis*, or American blight. Manure freely the vines and fruit trees that are weakly. *Flower Garden.*—Flower beds should now be manured and dug; edgings formed, trimmed, and repaired; herbaceous plants divided; biennials planted. Roses may now be pruned, and most sorts increased by cuttings. Seeds of hardy annuals may be sown in the borders; tender ones may be sown on a moderate heat for transplanting. Choice dahlias should be placed in a gentle heat, for the purpose of propagating by cuttings. Verbenas, shrubby calcelarias, pentstemons, &c., may be increased by the same means. *Kitchen Garden.* — Asparagus: earth up, plant, sow. Beans, broad: plant. Beet, red: plant out for seed. Cabbage: transplant, hoe, and sow. Carrots: sow. Cauliflower: too early to sow. Celery: too early to sow. French beans; sow end of month in warm border. Garlic; plant. Jerusalem artichoke: plant. Leeks: sow. Lettuces: plant out and sow for succession. Onions, must be finished sowing this month. Potatoes, plant the early kind. Peas sow and earth up. Turnips, sow. Radish: sow. Spinach, sow. Vegetable marrow, sow end of month in sheltered places. *Greenhouse.*—Admit air freely in fine weather; re-pot geraniums, cinnerarias, calceolarias, &c, as the roots advance to the sides of the pot. Fuschias that have been dormant should have their roots reduced and be repotted in fresh soil. Cacti and other plants may be watered more freely than in the depth of winter. Sow seeds of balsams, cockscombs, egg plants, &c., &c., on a gentle heat; keep all plants clear of *aphis*, scale, &c., by washing and fumigation.

GARDENERS' KALENDAR.—*Fruit Garden.*—The principal work this month is the grafting, which is performed in various ways, the principal aim of which is to bring the bark of the stock and the scion to fit closely, loosen the ground with a hoe after the operation: the same between vines and fruit trees in general, in dry weather. *Flower Garden.*—Seeds of annuals, biennials, perennials, and shrubs should now be sown; tender ones raised in heat may be transplanted towards the end of the month. Dahlia roots may be planted, propagate choice varieties as recommended last month; take the cuttings out of heat as soon as they have struck root, and protect them from the frost till it is safe to plant them; lay shrubs that are difficult of propagation by other means; keep the hoe at work in dry weather, but do not use the rake, except for covering small seeds. *Kitchen Garden.*—Asparagus beds, keep free from weeds Sow red beet and French beans. Transplant cabbage, transplant lettuce. Sow carrots celery, turnips, spinach, radishes, vegetable marrow, scarlet runners. Plant potatoes, sow peas, and earth up those that are ready. Cucumbers may be sown in ridges. Transplant onions, keep the hoe among the crops (as the weeds will grow fast), it will assist the crops in their growth. *Greenhouse.*—Follow the directions for last month. The plants in flower will require watering copiously and shading from the mid-day sun.

GARDENERS' KALENDAR.—*Fruit Garden*—Look over the vines and rub off all superfluous buds. Destroy caterpillars on fruit trees. Keep the surface of the ground loose with the hoe at all convenient seasons, whether there be weeds or not. Place a layer of fresh stable manure between the rows of strawberries; it will increase the size of the fruit and render it free from grit or sand. *Flower Garden*—Seeds of Annuals may still be sown. Tender species raised under shelter may be transplanted into the borders, choosing showery weather for the operation. Dahlias from seed and cuttings, and other tender plants, may be planted about the middle of the month. Mark the flowers of choice bulbs, etc., with the view of collecting their seed. Stake and tie the shoots of herbaceous and other plants as they advance. Where quality, rather than quantity of flowers is the object, the number of flowering shoots should be reduced. Destroy slugs, *aphis*, scale, bugs, etc., or they will destroy your choice plants. *Kitchen Garden.*—Continue to sow and plant as last month. Earth up potatoes and peas, sow all kinds of brocolis, Scotch kale, savoys and cauliflowers. Sow tomatos and capsicums. Thin early sown carrots, turnips, and spinach, and keep them free from weeds. *Greenhouse.*—Azaleas, camellias, ericas, etc., that have done flowering, should be taken out of the house and placed in a shady situation, towards the end of the month. Water sparingly the bulbs of achimenes, gloxinia, gesnera, etc., until they appear above the ground. Re-pot all fast-growing plants as often as the pots fill with roots. Use the syringe in the evening during sunny weather; guano or manure water occasionally will assist flowering plants whose pots are full of roots. Wage continual war against the insects.

GARDENERS' KALENDAR.—*Fruit Garden.*—Stop all shoots of vines, except the leaders at one joint beyond the fruit, and lay them to their trellis or supports; pinch off all unnecessary shoots in young fruit trees. Vines, newly planted fruit trees, &c., will be much benefited by a mulching of half decomposed stable manure. Rub off the shoots from stocks that have been grafted, and remove the clay and binding as soon as they have joined, which may be known by their shooting vigorously; lay as many strawberry runners as may be required for new plantations, and remove all others. *Flower Garden.*—The planting of dahlias and tender annuals if not done, should be immediately; support all tall growing flowers as they advance, keep the surface of the ground loose with the hoe; clip and trim all edgings except roses; mark choice flowers for seed. *Kitchen Garden.*—Thin and hoe red beet, carrots, and all other spring crops. Plant out capsicums and tomatos. Prick out celery n small beds from the seed beds. Earth up peas, French beans, and potatoes. A succession of peas and French beans may be sown. *Greenhouse.*—sow seeds of primula, cinneraria, calceolaria, camellia, geranium, &c., give plenty of air and water and shade during sunny weather.

GARDENERS' KALENDAR.—*Fruit Garden.*—Where the vines have not been attended to, as directed last month, they should be done immediately, and as the lateral shoots appear they should be taken off, to within one joint of the main shoots. Where young apple or plum trees are infested with the red spider they should be frequently syringed with tobacco water, or soft soap well diluted. Brush off the American blight as it appears on the young shoots of the apple trees. Peaches, &c., on walls will now require frequent attention. Budding may be performed towards the latter end of the month. *Flower Garden.*—Dahlias, hollyhocks, &c., will now require frequent attention. Where fine show flowers of dahlias are required, one stem alone should be allowed to grow, and the lower lateral shoots removed from that, and the number of flower buds reduced, a liberal mulching will greatly promote their growth during the approaching hot weather. Bulbs of choice hyacinths, tulips, ranunculuses, anemones, &c., should be taken up and stored as they become dormant. Neatness is now the general order. *Kitchen Garden* —Earth up French beans and peas, and scarlet runners, a succession may be planted, prepare trenches and plant celery; transplant all kind of brocolis and cauliflowers, savoys, and cabbage for winter use; tomatos and capsicums, if not put out, should now be done; vegetable marrows may yet be sown; sow turnips this month, and earth up late potatoes. *Greenhouse.*—Cinnerarias, calceolarias, etc, that are intended to be kept for another season should be removed into a shady situation as soon as they have done flowering. Fuschias, geraniums, &c., that are flowering may be watered occasionally with liquid manure; shade and water freely during hot weather.

selves as "lay associates," conducting divine service in places where there is no clergyman, and otherwise engaging in Christian work. Messrs. T. Westbrook and Paterson are thus acting at Kangaroo Point; Messrs. Smith and Spurr at North West Bay and Oyster Cove; Messrs. Attwood and Daldy at Three Hut Point; Mr. Page at Oatlands; Mr. C. O. Abbott at Sandy Bay. The Hon. R. Q. Kermode, Esq., and Mr. H. Dobson also belong to the Association.

The Church of England has 95 places of worship, estimated to seat 15,304 adults. Official returns for 1865 shew that the number of communicants was 2,232, the offertory, and other Church collections amounted to £4,152 10s. 7d.; the baptisms were 1467; the marriages 220, and the burials, 698. The parochial church lands are returned at 2012 acres. The episcopal endowment estate, 1,200 acres; the archdeaconry endowment, 30 acres and 7 houses; the college estate 3,200 acres.

Church Synod.—The governing body of the Church of England is the Synod, established in 1858, under the Act 22 Vic., No. 20, and consisting of the bishop, all licensed clergymen, and lay communicant representatives, elected by the congregations; no Act being valid unless it carries the consent of all three orders. The Synod must meet once at least in every year, and a dissolution and fresh election of lay members must take place every three years. The appointment of clergymen to vacant cures is made under regulations laid down by the Synod, by which, at present, the appointment belongs to the bishop in twenty-four cases, and to Boards of Patronage (each consisting of at least seven members of Synod) in sixteen cases. To the Synod also, since 1st January, 1863, belongs the duty of administering the annual sum (£8,770) assigned to the Church of England under the "State Aid Distribution Act." The present officers of the Synod are:—Trustees, Ven. Archdeacon Reibey, the Hon. R. Q. Kermode, M.L.C., and W. S. Sharland, M.H.A.; Church Advocate, Hon. W. L. Dobson, Attorney-General, M.H.A.; Treasurer, Thomas Giblin; Secretary, the Rev. F. H. Cox, B.A.; Finance Secretary, Rev. A. Davenport, B.A. The Southern and Northern Finance Committees consist respectively of the archdeacon and nine members elected by a general ballot of the Synod.

A mission to the half-castes, and other inhabitants of the islands in Bass's Straits, has been undertaken by Archdeacon Reibey, who visits them periodically in the mission schooner "The Gift," recently built in Hobart Town, and presented to him for this purpose. "The Gift" was launched on the 18th Oct., 1865. The Parliament votes an annual sum of £150 for a catechist who resides on one of the islands in the Straits.

Wesleyan Foreign Missions.—Tasmanian Auxiliary.—Treasurer, the Hon. I. Sherwin, M.L.C. ; Secretary, Rev. Spencer Williams.

Horton College, Ross.—This College is the result of contributions by friends of education in Tasmania ; Captain Horton, of Somercotes, Ross, having commenced the enterprise by a gift of twenty acres of land as a site for the College, and the contribution of £1000.

The object contemplated is to afford to the sons of Protestants the advantage of a sound general education in connection with a Christian home, and careful moral, and religious training.

The foundation stone of the College was laid in January, 1852. In October, 1855, under the presidency of the late Rev. John A. Manton, the first pupils were received. Since that period the average number of students has been about fifty ; up to the present time about 250 have been entered on the College books. The entire cost of the building and furnishing was about £4,500. To this sum an expenditure of £2,200 has been lately added in additions and alterations, which comprise a dining-hall, school-rooms, class-rooms, library, lavatory, and dormitories, with a residence for the Head Master.

The examinations which have been conducted under the "Tasmanian Council of Education and Scholarships Act" have given to Horton College ten Associate of Arts Degrees, three Certificates of Merit, three Gold Medals, and twelve Prizes of Books.

President of the College, Rev. W. A. Quick ; Head Master, W. W. Fox, B.A.

INDEPENDENTS OR CONGREGATIONALISTS.—*Hobart Town, Brisbane-street*, Rev. W. C. Robinson ; *Davey-street*, Rev. George Clarke ; *Bathurst-street*, Rev. J. W. Simmons. Lay Agent of Colonial Missionary Society, Mr. R. E. Dear. *Launceston, Tamar-street*, Rev. Charles Price ; *Prince's Square*, Rev. Wm. Law ; *Green Ponds*, Rev. W. Waterfield, and Rev. H. Shipphird, assisted by Lay Agents of the Colonial Missionary Society ; *River Don, the Forth, and the Leven*, Rev. W. Mathieson. The following places are also occupied by the Agents of the Colonial Missionary Society:—Southern Branch: Bream Creek, Cambridge, Carlton, Clarence Plains, Constitution Hill, Franklin (Huon) Hestercombe, Geeves Town, Kangaroo Point, Muddy Plains, Richmond, Shipwright's Point, Tea Tree, and Victoria (Huon).—Northern branch : New Town (Launceston), Prospect Village, and Sandhill.

The several ministers and churches of the Independent body constitute the *Congregational Union and Mission of Tasmania*, which is established on the following principle :—"The Union of Congregational Churches and Ministers in Tasmania is founded on a full recognition of their distinctive principle, namely, the scriptural right of each church to maintain perfect independence in the government and administration of its own particular affairs." The following are the objects of the Mission :—1. "To promote the spread of the Gospel. 2. To cultivate brotherly love and co-operation among the associated churches. 3. To diffuse information on the principles of the Congregational body. 4. To obtain statistics relative to the condition and

work of the churches. 5. To establish fraternal correspondence with other Churches and Unions. 6. To address, when expedient, a circular letter to the Churches of the Union. 7. To bring into the colony accredited Congregational Ministers, to educate young men for the ministry, and to employ lay Preachers. 8. To maintain our civil rights."

The Congregationalists have, under the management of Trustees, a Ministers' Provident Fund in aid of any ministers who, through sickness or age, may be incapacitated for public labour,—also a Ministers' Widow and Orphan Fund,—the former of these funds amounts to upwards of £700, and the latter to £400, invested in government debentures.

Visiting Magistrates appointed in April and October.

NOTICE OF APPEAL against convictions to be served on convicting justices within eight days after conviction and eight clear days before the sessions begin.

LICENSING MEETINGS.—Meeting of justices of the peace for granting licenses and transfers of same will be held in all police districts and municipalities on the following Mondays:—Feb. 4; May 6; Aug. 5; Nov. 4. Applications for each respectively must be sent to the magistrate or warden of the respective districts fourteen clear days previously. The annual meeting will be held on the 2nd December. Applications to be sent in before the 16th November.

Any person desiring to appeal against an adverse decision at any Licensing Meeting must make such appeal to the Court of General Sessions of the District at which such Licensing Meeting took place, and must also give to the Clerk of the Peace for said district, notice in writing of his intention so to appeal and of the grounds of such appeal, *seven clear days* at least before the time of holding such Court of General Sessions.

JURY LISTS to be affixed to court house or police office in each district the first week in September, and the justices of the respective districts meet on the first Tuesday in October, to correct and allow the same.

LANDS TITLES' AND REGISTRAR OF DEEDS OFFICE.

The Lands Title Office for the transaction of business under the Real Property Act (Torrens), is situated over the new Post Office, Hobart Town, the entrance to it being by the door in Macquarie-street, next to the Post Office arcade. The office is open from 10 to 4 daily. The Officers of the Department are :—Recorder of Titles and Registrar of Deeds, William Tarleton; Solicitor, George Patten Adams; Chief Clerk and Draftsman, James Mallard Clarke; Clerk and Draftsman, Leventhorpe Hall; Clerk, George Mewburn; Messenger, William Roberts; Deputy Recorder of Titles, Launceston, Ronald Campbell Gunn; Clerk, John Jamieson Gunn. The Lands Titles' Commissioners are the Recorder of Titles, T. Macdowell, and H. J. Buckland. The Commissioners sit weekly for the investigation of applications.

The fees payable for bringing land under the operation of the Real Property Act are :—

When the Applicant is the original Grantee and none of the land has been dealt with.

	£	s.	d.
Assurance Fund, ½d. in the £ upon the value of the land say on £100	0	4	2
Application	0	5	0
Certificate of Title	1	0	0
Commissioners' Fee	0	2	0
Cost of Printed Application Form	0	1	0
Total charge upon land of the value of £100	£1	12	2

When the Applicant is *not* the original Grantee :—

	£	s.	d.

Cost of Printed Application Form	0	1	0
	£2	15	2

The Fees for Application, Certificate of Title, and Advertising, are fixed irrespective of the value of the Property. The Commissioners' Fee varies according to the following scale :—

	£	s.	d.
Not exceeding £100 of declared value	0	5	0
,, £200 ,,	0	10	0
,, £300	0	15	0
Exceeding £300 ,, which is the highest fee	1	0	0

As applicants bringing their land under the Act, can direct the Certificate of Title to be made out in any name they desire; property may thus be conveyed to a purchaser in the cheapest and most expeditious manner.

When property is once under the Act, it can be transferred or conveyed, without reference to value, upon payment of 10s. registration fee, £1 for new Certificate of Title, and 2s. for printed forms. Total £1 12s.; and either mortgaged or leased for 12s., viz, 10s registration fee, and 2s. for printed forms. Grants for lands held under location orders, &c., may also now be obtained through the Lands Titles' Office, under the provisions of the Real Property Act, upon payment of the same fees as in other applications,

Printed instructions giving full particulars as to the manner of conducting all transactions under the Act, can be obtained free of charge at the Lands Titles' Office, and every assistance is rendered by the Recorder and his officers to persons requiring information.

The value of property brought under the operation of the Act up to 6th December, 1865, is £397,235.

IMMIGRATION DEPARTMENT.

Commissioners—The Colonial Secretary (President), the Colonial Treasurer, Henry Butler, Askin Morrison, Hon. James Milne Wilson; Secretary, ————. Immigration Agent, Hobart Town, ————; Immigration Agent, Launceston, William G. Sams.

Offices—Public Buildings, Hobart Town and Launceston.

The Commissioners of Immigration have issued the following Regulations for persons desirous of introducing servants or relatives from the United Kingdom, under the Bounty System adopted on the 21st December, 1858:—

Immigrants introduced to Tasmania at the public expense, and permanently resident therein, who may wish to bring to the colony any relative from the United Kingdom, being a British subject, and being either a mechanic, domestic servant, or laborer, should apply to the Immigration Agent at Hobart Town or Launceston, in writing; and Bounty Tickets will be issued (subject to the approval of the Commissioners) on the following rates of payment by the applicant:—

Family Ticket for man, wife, (or either of them) with the children under 12 years at time of embarkation	£15
Single Male Ticket	10
Single Female Ticket	5

The Tickets should be sent to the Agent appointed by the applicant in the United Kingdom, who will take the proper steps for procuring passages in vessels sailing direct to Hobart Town or Launceston, or to Melbourne, whence the emigrants will be forwarded to their destined port, and will in all cases be provided for at the expense of the ship owners until their friends may be enabled to receive them, provided that the period for such accommodation does not exceed fifteen working days from date of arrival.

In the event of the parties sent for declining to emigrate, the tickets should be returned to the applicant, who can have the payment refunded to him on presenting them to the Immigration Office.

Bounty Tickets will be considered out of date, if not presented for payment of passage monies within 18 months from the date thereof.

Half passage money will be paid in the event of a death during voyage.

Full rates payable on Bounty Tickets by the Board of Immigration.

For each adult...	£16
For each child between the age of 3 and 12	8
For each child under 3 years	4

During the year ended 31st December, 1865, 92 immigrants arrived in Tasmania (35 at Hobart Town, and 57 at Launceston) under the Bounty Regulations of 21st December, 1858—of this number 17 were from England, 11 from Scotland, 62 from Ireland, and 2 from other countries. *Religion*, Protestants, 33; Roman Catholics, 59.

HARBOR DUES.—The following services performed to any vessel, by or under the direction of the Harbor Master, to be severally paid for at the rate of one penny per ton:—For mooring or anchoring on arrival. For unmooring and moving to the wharf. For hauling off the wharf and re-mooring. For unmooring and moving to a fair way for sea. For any removal from one place of anchorage to another.

N.B.—No vessel is charged for more than three removes during her stay in port.

PORT CHARGES.—*Lighthouse Rates.*—For every steam vessel, and for every vessel employed in the coasting trade on entering inwards at the Customs of this colony, fourpence per ton. For every other vessel entering inwards at the Customs of this colony, ninepence per ton.

Pilotage (Hobart Town).—On sailing vessels, ninepence per registered ton; and on steam vessels, sixpence per registered ton: provided always that no charge for pilotage shall exceed thirty pounds nor be less than four pounds; and that no vessel under fifty tons shall be subject to pilotage, unless the master of such vessel shall request the service of a Pilot, and employ one.

The remuneration to Pilots detained on board vessels in Quarantine or

otherwise delayed, shall be fifteen shillings per diem in addition to the usual pilotage.

The rate now payable for pilotage shall be reduced one-half whenever it shall be proved to the Marine Board that no Pilot offered himself to the vessel entering the port until such vessel had reached a line drawn from the southern point of Half-moon Bay to Pearson's Point.

The Exemption Flags denoting the vessel to be exempt from the necessity of taking a Pilot, shall be a full-sized Red Pennant over the allotted distinguishing flag of such vessel.

Exemptions from Port Charges.—In order to encourage the resort of vessels of all nations engaged in the Whale Fishery, and vessels arriving under the circumstances hereinafter mentioned, to the ports of this island, all vessels of all nations outfitting for or refitting from the whale fisheries, and all vessels arriving and sailing in ballast, or which do not break bulk, or only to such an extent as may be necessary to provide funds for the repairs, refittings, or refreshments by such vessels, and all vessels belonging to any Foreign Power with which a Treaty of Commerce declared by any Royal Order in Council to be subsisting has been made, which arrive at any port for the purpose of landing any oil or whalebone, the produce of fish caught or taken by the crews of such vessels, and land such oil and whalebone at any wharf appointed by the Board for that special purpose, shall be and the same are wholly exempted from the payment of all Port Charges, Lighthouse Dues, and all Port Dues whatsoever, except only those of pilotage in cases where the services of a Pilot have been actually required and received.

A Pamphlet containing the following information is supplied to all vessels arriving in the Port:—

"The Rules and Regulations of the Port of Hobart Town contained in the *Marine Board Act*, 21 *Vict.*, *No.* 16, and in Bye Laws passed by the Hobart Town Marine Board, also the *Quarantine Act*, 5 *Vict.*, *No.* 14, and the Admiralty Regulations respecting lights and fog signals to prevent collisions."

CHAMBER OF COMMERCE, LAUNCESTON.

Chairman, Richard Green; *Treasurer*, C. J. Weedon; *Secretary*, G. M. Eddie; *Executive Committee*, M. Gaunt, J. Robertson, J. H. Smith, F. Fysh, W. S. Button. Terms of membership :—Entrance fee, £1 1s.; annual subscription, £1 1s. The Chamber meets in the Public Buildings on the first Tuesday in each month.

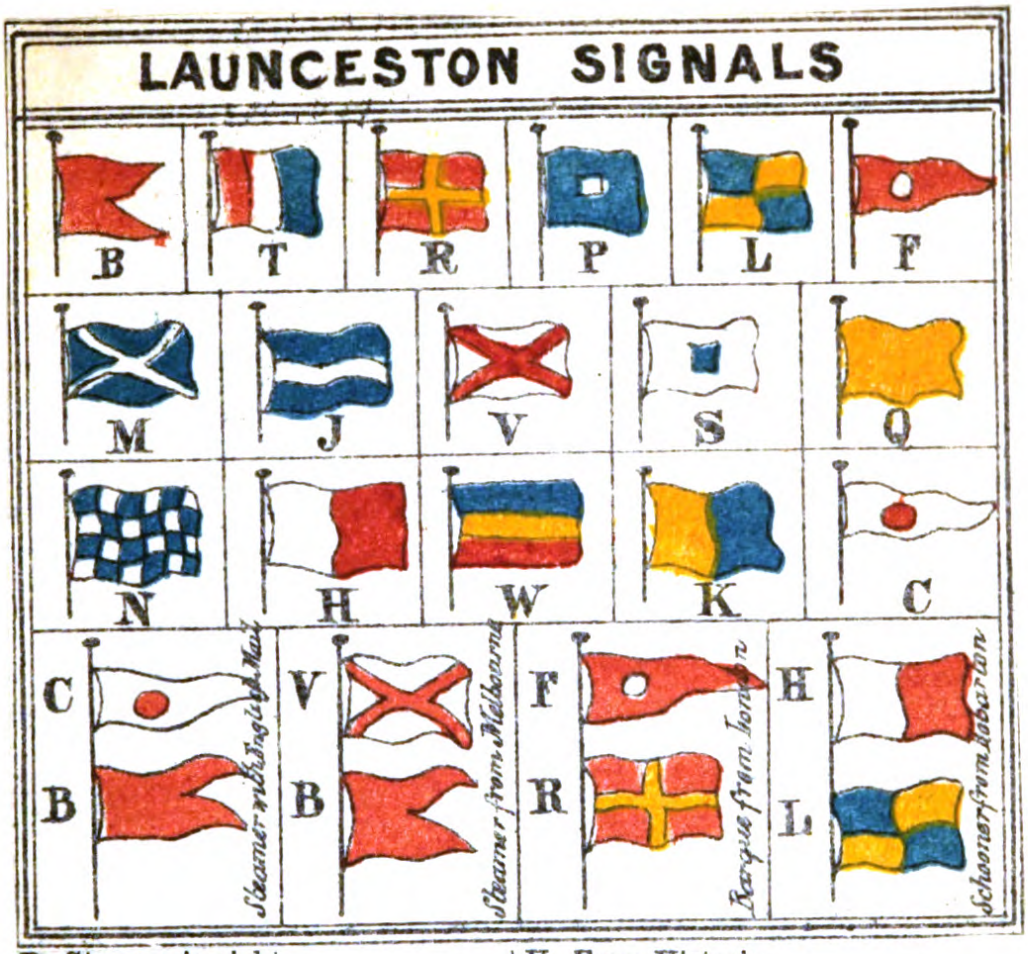

When a sail is in sight, and from the southward, a white flag with a red cross (the same as No. 11) is hoisted at the top-mast head at Prince Albert Battery; from the eastward, a blue and white flag (the same as No. 8); if in mid-channel, a yellow, blue, and yellow flag (the same as No. 5); when it is ascertained what the vessel is, the flag is hauled down from the top-mast, and a ball is affixed to one of the numbers on the yard arm.

No. 1 on the right, viewed from town, denotes a ship or barque
2 ,, ,, ,, ,, a brig
3 on the left ,, ,, a brigantine or schooner
4 ,, ,, ,, ,, a steamer

When it is discovered from whence the vessel sailed, one of the following flags will be hoisted in lieu of the ball :—

30 American Whaler
31 French Whaler
32 From California
33 With Emigrants
34 T.S.N. Co. s. from Sydney.

When two or more ships, brigs, schooners, or sloops are coming in from the same place, a white pennant, pierced with red, is hoisted under the flag. When the English Mail *vid Suez* is signalled from Low Head, a Red Flag is hoisted at the mast-head. The arrival at Sydney of the Mail *vid Panama* is signalled by a blue and white chequered flag (No. 14) at the mast-head. When a steamer from Melbourne is signalled at Low Head, a red pennant is hoisted at the end of left yard-arm, (viewed from town) for two hours. A Ball at the mast-head denotes that the Parade or Drill of Volunteer Artillery ordered for the day is countermanded.

LAUNCESTON MARINE BOARD.

(Established by Act of Parliament, 22nd December, 1857.)

Office, Lower George-street, Wharf; Board Room, Public Buildings. Wardens, R. Green (Master Warden), M. Gaunt, C. J. Weedon, the Mayor, and Collector of Customs *ex officio*. Secretary, G. M. Eddie. Harbor Master, W. N. Ling. Pilots, G. Forster, J. Waterland, D. Stewart, B. Scott, G. Smart. Extra Pilot, C. Begent. Boat's Crew, Low Heads, four men and one coxswain. Boat's Crew, Launceston, two men and one coxswain.

Steam Tug, Tamar,—Master, G. Smart.

Shipping Master, Emigration Agent, and Marine Surveyor, Captain E. P. Tregurtha. *(For scale of charges see page 90.)*

Lighthouse, Low Head, A. C. Rockwell, Superintendent.

No steamer, other than the Tamar tug, allowed to tow on the river except licensed (fee £25,) under penalty. Cases of emergency exceptional.

The rules and regulations pertaining to the port are published by the Board, and contain the pilotage rates, harbor dues, scale of towage, signals for steam tug, regulations respecting lights, wharfage rates, steam tug and boat licenses, boatmen's fares, quarantine act, sailing directions, &c. This book is supplied to all vessels visiting the port.

Quarantine Ground—Western Side, Middle Island, in the river Tamar; day signal, yellow flag, of six breadths of bunting, at main topmast head; at night a signal lantern shewn from the same position.

Health Officer, George Town, Dr. Richardson.

PILOTAGE RATES, LAUNCESTON.

For every sailing vessel liable to pilotage, 1s. per ton inwards, and the same outwards.

For every steam vessel liable to pilotage, 8d. per ton inwards, and the same outwards.

For every day that a pilot is detained on board any vessel whilst under quarantine, or by an act of the master, 15s. per day.

No charge for a single act of pilotage to exceed thirty pounds, or be less than four pounds. Vessels not exceeding fifty tons to be exempt, unless the master requires the services of a pilot and employs one, in which case the pilotage shall be four pounds. Vessels that do not have the services of a pilot until they pass Whirlpool Reach either going up or down the river shall be charged only half pilotage.

Colonial traders that have been towed to the Heads, by the Tamar tug, and require the services of a pilot to take them to sea, to be charged ten shillings and sixpence if 100 tons and under, and twenty-one shillings if over 100 tons.

FREE PORT.

Vessels seeking freight, or putting in from stress of weather, and not breaking bulk, are exempt from pilotage, light dues, and all port charges whatever, unless they require the services of a pilot and employ one; in which case, if they anchor below George Town, one-third pilotage only will be charged.

HARBOR DUES.

One penny per ton inwards, and the same outwards, and for each removal whilst in port, one penny per ton.

LIGHT DUES.

For every steam vessel and every vessel employed in the coasting trade, on entering inwards at the Customs, four-pence per ton. For every other vessel entering inwards, at the Customs, nine-pence per ton.

TOWAGE RATES, TAMAR TUG.

All vessels under 150 tons, £15; from 150 to 250 tons, 2s. per ton. Every additional ton up to 500, 1s. per ton. Every ton beyond 500, 6d. per ton.

From Point Rapid, three fourths
" Swan Point, one-half
" Fresh Water Point, one-fourth
} Of the charge from the Heads.

But as a general rule the Tamar will not get up steam under £15.

One-third the amount of pilotage will be taken off the towage if the vessel is liable to that charge.

When two vessels are towed together (over 112 tons register, each), a reduction of 25 per cent. off the usual charge to the smaller one will be made to each.

Signal for Steam-tug.—The Rendezvous or chequered flag, hoisted where best seen.

When this signal is made by a vessel entering the port, the tug, if in Launceston, will be telegraphed for, on that vessel's account.

Surveys required in the Unsettled Lands, or on any Islands, except those at present included in the Survey Districts, shall not be charged for according to the above Scale, but may be made the subject of private bargain between the applicant and any authorised Government Surveyor, subject to the approval (as respects the time of undertaking the work *only*) of the Commissioner of Crown Lands.

3. *Clause* 19.—Should two or more selections of the same piece of Crown Land be made at the same time, the Commissioner shall send it to Auction.

4. *Clause* 26.—Any lot having a frontage on a road, river, lake or the sea, shall have its width or depth so regulated as not to exceed the proportions of 1 to 2 (the first figure representing the *width*.)

5. *Clause* 36.—Any person (with consent of the Commissioner in writing,) may transfer his interest in any land purchased of the Crown, whereof the payment is not complete, on payment of a fee of 3d. in the pound on the cost price. This regulation to apply to Pre-emptive Right Lands and to Lands in the unsettled districts.

Transfers of leased lands will be charged for at the rate of twenty shillings for the first lot,and ten shillings for every other adjoining one.

6. *Clause* 44.—Improvements on leased lands to be paid for when required for sale shall be valued by the District Surveyor. But if his valuation be thought unfair by the Lessee, arbitrators shall be chosen, one by the Lessee and the other by the Commissioner; and if they cannot agree, the Governor-in-Council shall appoint an umpire whose decision shall be final. Cost of valuation to be defrayed by the Lessee.

Occupation Licenses.

7. *Clause* 50.—Land held under an occupation license may be resumed on a notice of not less than three months. No compensation will be allowed for improvements, which may be removed at any time before the expiration of the notice.

The rental of any land held under an occupation license will be £1 for every hundred acres, and £1 for any lesser area. Rental must be paid in advance.

Timber Licenses.

8. *Clause* 51.—Licenses to fell and remove timber from any Crown land available for any such purposes, are to be obtained at any Police Office, or from the official Inspector of Timber Licenses, on payment of 2s. 6d. a week for every person employed (carters excepted), subject to the conditions contained in the form of the license supplied.

Licenses to make bricks, quarry stone, burn charcoal &c., are to be obtained in a similar manner, and on the same terms as those relating to removing timber.

Unsettled Lands.

31. *Clause* 65.—Applicant for gratuitous leases shall make a money deposit at the Survey Office of £1 for every thousand acres leased to him, as a guarantee of good faith, to be returned to him after the first year of occupation, but to be forfeited in case of non-occupation.

32. *Clause* 67.—£1 shall be paid for every transfer.

LANDS SOLD ON CREDIT.

According to "The Waste Lands Act, 1863," credit can be claimed for any lot of not less value than £15.

The terms of credit are the same for town as for country lots: viz., one fifth to be paid at the time of sale, and the remainder in eight annual instalments.

Example of the mode of payment where credit is taken for a lot bought for £15:—

GOLD FIELDS.

Mode of Dealing with Applications under Gold Fields Regulations, dated 28th May, 1866.

MINING LEASES.

1. Application to be made on printed form accompanied by £10 and survey fee, application to be numbered, and entered in book, and applicant to receive certificate marked C.

2. Commissioner shall direct Surveyor to proceed to the land, on a day to be duly notified to applicant, to survey the land, and forward the report, plan, and tracing, to be forwarded by Commissioner to Colonial Secretary without delay.

3. Applicant to attend on ground, and Surveyor to fix posts firmly in the ground, and post up Schedule D.

4. Objections, if any, to be made within 14 days after notice so posted. Persons objecting to deposit £5.

5. After 14 days allowed for objections, Commissioner will forward the application with his report to the Colonial Secretary.

6. Clause 8 of the Gold Fields Regulations Act, 1859, provides that no lease shall be granted until one month's advertisement in *Gazette* by Commissioner of Crown Lands.

7. Lease to bear date the day of execution, and to be charged fee of one pound, *term* not to exceed ten years.

8. Land demised (except in leases of quartz areas), shall be in the form of a rectangular parallelogram, length not to exceed twice the breadth.

9. Areas of leases to be not more than 30 acres nor less than one acre of *alluvial land*, and not more than 440 yards in length by one hundred yards in width, nor less than one hundred yards in length by eighty yards in width of *quartz ground*.

10. Rents to be paid yearly in advance, 2s. 6d. per acre of alluvial land and 2s. 6d. for every acre of quartz ground.

11. Machinery in case of *alluvial land* to be in working order within six months, and in case of *quartz ground* within 12 months from date of lease.

12. When any person has applied for a lease of land for mining purposes, no one shall interfere with the land so applied for, pending the decision of the Governor as to whether the lease shall be issued.

QUARTZ REEFS.

13. Any persons prospecting for quartz reef entitled to area of ground not exceeding one hundred acres for protection, and on discovery of reef shall be allowed prospecting claim of 60 yards, besides 30 yards for each person more than one, but the discovery must be reported to the Commissioner at once, and must not be less than a quarter of a mile from any claim previously marked on the same reef, or on a distinct reef more than 50 yards distant. £10 to be deposited by applicant as rent, and to cover any expenses incurred by the Government.

14. Claims must be marked off and pointed out to the Commissioner on the ground. A space not less than six feet, which is not to be worked, to be left between claims. When a claim is allowed, it is to be marked off by stakes, and name of person entitled to be posted up.

15. Claims to be worked within fourteen days after it has been allowed, if left so unworked for seven days, it shall be deemed to be abandoned, except from reasonable cause, the Commissioner grants extension of time.

ALLUVIAL WORKINGS.

16. Extent of claim :—For one miner 60 × 60 feet; for a party of two miners, 120 × 60ft, ; for a party of three miners, 120 × 90 feet; for a party of four miners, 120 × 120 feet. No larger claim allowed.

PROSPECTING FOR NEW ALLUVIAL WORKINGS.

17. Parties prospecting for new Alluvial Workings at a place distant not less than Two miles from any previously known Alluvial Gold Workings shall be entitled to, and receive, if practicable, an area of 440 × 440 yards for protection for a period not exceeding 12 months, and such protection shall hold good against all other persons until a discovery has been made and reported, and a prospecting claim laid off, or until the claim has been forfeited or abandoned.

18. As a reward for the discovery of Gold in any new locality, the Commissioner is empowered to allot to any Miner or party of Miners, a prospecting claim of 120 × 120 feet in addition to the claim he or they would be entitled to under clause 48 of these regulations, provided that the same is distant not less than two miles from any previously known Alluvial Gold Workings.

19. Parties discovering new Alluvial Workings shall, with as little delay as possible, report such discovery to the Commissioner, and in default shall forfeit all right to the extended area allowed by these regulations for a prospecting claim.

20. The parties making the discovery of new Alluvial Workings shall have the sole power of determining in what direction they will select the area allowed them by these regulations.

22. Within 7 days from the time of marking out a claim, all parties shall begin to work in a *bonâ fide* manner.

22. No claim shall be deemed to be *bonâ fide* worked unless worked by a number of Miners not less than the number of Miners entitled to the claim.

23. A claim not *bonâ fide* worked for a period of 3 consecutive days, except in case of sickness, or the inclemency of the weather, shall be deemed to be abandoned.

Formation.—This Society was founded at a meeting held at Government House on the 14th October, 1843, the Governor, the late Sir J. E. Eardley Wilmot, Bart., being in the chair. The meeting consisted of Members of the Tasmanian and Horticultural Societies, and of other gentlemen interested in the advancement of Science, and the progress of the Colony. Sir J. E. Eardley Wilmot subsequently assigned to the Society a large portion of the Government Garden, with an allowance of £400 per annum from the Public Treasury to pay the officers of the Society, and generally to promote its objects. On the 12th September, 1844, the Governor announced that Her Majesty the Queen had signified her consent to become Patron of the Society—that the constitution of the Society had been approved,—that the grant of £400 per annum had been confirmed—and that its designation should thenceforward be, "The Royal Society of Van Diemen's Land, for Horticulture, Botany, and the advancement of Science."

Principles and Constitution.—1. The leading objects of the Society are to develop the physical character of the island, and to illustrate its natural history and productions. 2. The Society consists of a President, twelve Members of Council, a Treasurer, a Secretary, and an indefinite number of Fellows. 3. The Lieut.-Governor of the Colony for the time being is President. 4. The President is annually to nominate and appoint from the list of persons elected Members of the Council, *four* to act as Vice-President in his absence. 5. The President and Council have the ordering and management of the property, officers, servants, and affairs of the Society. 6. The election of all persons into the Society is to be by ballot, according to the rules now or hereafter to be established.

Northern Branch.—Treasurer, R. C. Gunn.

The meetings are held in a room in the Public Buildings, Launceston, which has recently been granted for the purpose, and is fitted up as a Museum.

VAN DIEMEN'S LAND AGRICULTURAL COMPANY.

Established 1825 by Act of Parliament 6 Geo. IV., Cap. 39, and incorporated by Royal Charter. Capital, £300,000, in shares of £30 each. Court of Directors in London. Office, 6, Great Winchester-street, Governor, ———; Deputy-Governor, Charles J. Pearse. Directors—T. Alexander, Major Clifford, John Du Croz, V. Knight, L. Nathan, C. J. Pearse, J. Richardson, G. Rooper, J. S. Stanhope. Auditors—C. H. Moore, S. Hickson, J. Trenow. Secretary—H. Cattley. Chief Agent in Tasmania—C. Nichols. Head Office in Launceston on the premises of Messrs. Du Croz, Nichols, & Co.

The territories of the company are situated at the following places in the north-west quarter of Tasmania:—100,000 acres at Woolnorth, 20,000 acres at Circular Head and the coast adjoining, 60,000 acres at Emu Bay and the Hampshire Hills, 10,000 acres at Middlesex Plains, 150,000 acres at the Surrey Hills, and 10,000 acres estimated good land in Trefoil, Walker's, and Robbin's Islands, containing about 26,970 acres, but which were estimated at 10,000 acres in the grants to the Company, that being the supposed quantity of available land therein. The sub-port of Stanley, at Circular Head, is within the limits of the port of Launceston. Vessels can enter and clear there from and to foreign places with great facility, as it is easy of access, and has good wharfage accommodation.

LAUNCESTON AND WESTERN RAILWAY.

During the Parliamentary session of 1865, the promoters of this work obtained a bill (29th Vict., No. 24), to enable a Company (under the Limited Liability Act) to make and maintain this Railway; which is intended to connect Deloraine, Westbury, Longford, Perth, and Evandale, with the port of Launceston.

The Act provided that in the event of the freeholders of the railway district consenting, by a majority of two-thirds of their number, ascertained at a poll which was held before the Returning Officer appointed by the Governor-in-Council, and which poll was taken on the 18th Dec., 1865, with the result of 2259 votes in favor, and 545 votes against (see table, page 108, in almanack for 1866,) the Company is empowered (Sec. 6) "To make and maintain the said Railway, and to do all works and take all land necessary, subject to provisions of the Lands Clauses Act, 21st Vict., No. 11, and to carry passengers and merchandise, and make charges by bye-law for the same," (sec. 40, 41.)

The capital of the Company may be £400,000, and the assistance offered by Parliament for the encouragement of the work is the provision that the Company may borrow, if they see fit, three-fourths of the capital, not exceeding £300,000, on bonds, the Government endorsing these bonds for the due payment of interest thereon at not more than 6 per cent.; and the promoters claim to be entitled under the Waste Lands Act, 28 Vict., No. 3, sec. 3, to a grant of land in consideration of the actual capital expended by the shareholders. The extent of the grant, however, will depend upon the vote of the Parliament, which, on the similar undertaking known as the Deloraine and Mersey tramway, was very liberal, amounting to 15,360 acres of land, to be selected in blocks of not less than 5000 acres each, so soon as twelve miles of the line were completed, and open to the public.

The Company has for Chairman the Hon. Sir Richard Dry, Knight, Colonial Secretary, Quamby, and for Vice-Chairman W. S. Button, Esq., Chairman of the Cornwall Insurance Company at Launceston. The Board of Provisional Directors comprises the following very important names :—

W. Archer, Esq., J.P., Brickendon

W. W. White, Esq., Launceston

(With power to add to their number.)

The Engineer-in-Chief is W. T. Doyne, Esq., who is a member of the Institution of Civil Engineers, London, from the year 1849; the Solicitor is George Collins, Esq., of Launceston, and the Hon. W. L. Dobson, Esq., Attorney-General, Standing Counsel; and until the appointment of bankers, James Robertson, Esq., has consented to act as Honorary Treasurer.

The following form the leading features of the prospectus :—

Shares, £20.—The deposit and calls will be as follows :—10s. per share on allotment; 21s. at three months; 45s. at six months; and 54s. at 9, 12, 15, 18, 21, and 24 months, in promissory notes, payable at a Bank.

This railway will connect the important districts of Evandale, Perth, Longford, Westbury, and Deloraine with the Port of Launceston; running nearly the whole distance of 42 miles through a fine agricultural country, well populated, and having old-established sources of traffic throughout the whole length; for several miles around the termini; and for a considerable distance to the southward of the line.

The line will pass through or near to the following important townships and districts :—St. Leonard's, Evandale, Perth, Longford, Bishopsbourne, Hagley, Carrick, The Oaks, Westbury, Exton, and Deloraine.

The present traffic has been ascertained by most careful enquiries, to be amply sufficient to give profitable employment to a first-class single

line railway; and the peculiarly advantageous position of the proposed line in the districts it is intended to intersect and traverse, affords an ample guarantee that the operations of this Company will be profitable.

The Company have applied to Parliament for amendments to their bill, to enable them to borrow money on more equitable terms.

NORTHERN RAILWAY LEAGUE.

The Committee, numbering 50 members, have held weekly meetings without intermission (besides several special meetings), since the inauguration of the League, on the 18th September, 1863.

The Officers are, *President*, *Vice-presidents*, W. S. Button and Adye Douglas; *Treasurer*, A. Webster; *Secretary*, W. A. Collins; *Bankers*, the Bank of Tasmania.

A Bazaar, held on the 11th, 12th, and 13th August, 1864, realised the net sum of £557 5s. The total expenditure since the formation of the League has been over £2,000.

Several public meetings have been held in Launceston, and throughout the railway district; the League having seven branch Committees, viz., at Deloraine, Westbury, Carrick, Longford, Cressy, Perth, and Evandale.

The most successful gatherings were those held on Tuesday, the 16th, and Monday, the 20th February, at *Fêtes* in the public gardens, and on Thursday, the 12th October, 1865, when a second anniversary was celebrated by a procession, public breakfast, and a *Fête* in the public gardens during the afternoon and evening, when above four thousand persons were present.

The Committee have published a weekly registered paper, entitled *The Railway Banner*, twelve weekly numbers being issued, 2,000 of each being printed, and forwarded to all persons entitled to vote under the *Launceston and Western Railway Act*.

As a test of the unanimity of the North with respect to the Launceston and Western Railway at the last general election, all the members returned were in favor of the Railway.

The Committee meet every Friday evening at the Mechanics' Institute, Launceston, at half-past seven o'clock.

MAIN LINE OF RAILWAY.

The subject of a "Grand Trunk" or Main Line of Railway, which has been discussed in Parliament for several sessions, having lately assumed some prominence upon the election of several members for Hobart Town, the following summary of a report furnished to the government by the late Mr. James Sprent upon the 18th February, 1856, and printed in the Hobart Town Government *Gazette* for 4th March, 1856, page 196, is here inserted.

Mr. Sprent's instructions to proceed with a "preliminary railway survey," were dated Colonial Secretary's office, 14th December, 1855.

He proposed to start from Judge's [Montagu's] Point, (the northern head of Kangaroo Point), about 50 feet above the level of the sea.

He found 3½ miles distant, the elevation above the starting point to be 430 feet, and the formation, sand or claystone. A tunnel a quarter (¼) of a mile long, and 200 feet below the top of the ridge would reduce the ascent to a gradient of 1 in 80 feet.

Continuing the line in the direction of Richmond to a point 3½ miles further, and cutting another tunnel, [distance not given], 200 feet below the apex, the next gradient would be 1 in 108 feet.

From Richmond the course would be in a great measure over a flat country and 9 miles distant (from Richmond) the ascent would be increased 375 ft., the gradient being 1 in 126 ft. with some inequalities slightly more.

Proceeding towards Jerusalem a further increase of 350 feet would be attained, which with much sidelong cutting and embankments would give a gradient of 1 in 88 feet.

From Jerusalem to the present main road at "Wallaby Rivulet," there is a rise of 150 feet in 2 miles giving a gradient of 1 in 70 feet, which might be improved.

At a point, "Robertson's Farm," there is a rise of 645 feet in 1½ miles, or a gradient of 1 in 12 feet, after which, following the line of road to "Lemon Springs," there is no higher gradient than 1 in 80 feet, and the line would proceed on the east side of Dulverton Lake, at Oatlands, without difficulty to St. Peter's Pass, over an incline of 1 in 80 feet.

Thence to Antill Ponds there is a descent of 70 feet in 8½ miles,or a gradient of 1 in 63 feet.

From Antill Ponds to Perth the country undulates and presents a choice of two routes, without any difficulty.

From Perth to Launceston (entering near the race course) *vid* Evandale and the North Esk, there is no steeper gradient than 1 in 80 feet.

Mr. James Sprent was also employed to make a survey of the Deloraine line of Railway to connect at Perth with the "Grand Trunk" line, and his report upon that survey was published in the Hobart Town *Gazette* of 12th August, 1856, page 1,120.

MERSEY & DELORAINE TRAMWAY CO. LIMITED.

Office, 113, Macquarie-street, Hobart Town. Capital, £50,000 in shares of £5 each. *Managing Director*, G. Whitcomb; *Bankers*, Bank of Van Diemen's Land; *Solicitors*, Allport, Roberts, and Allport, Hobart Town; B. W. Campion, Launceston; *Counsel*, Hon. W. L. Dobson, M.H.A., Attorney-General. *Engineer*, Stephen Gray.

This Company is formed for the purpose of constructing an iron tramway or railroad, to be worked by horse or steam power, between Deloraine and the Mersey, with (if hereafter desired) branches to Cheshunt, Chudleigh, and Kentish Plains. The Mersey being the nearest port and natural outlet to these places, and to the agricultural lands in their vicinity, and in other parts of Devon.

An Act of Parliament has been passed giving to this Company the fullest power to carry out their designs. The Legislature has also granted to them 1,280 acres of Crown land in respect of each mile in length of their tramway, making for 30 miles of tramway 38,400 acres; this land will be greatly enhanced in value by its proximity to the tramway.

The land required for the tramway has been obtained free of cost for two-thirds of its length; a contract has been entered into for the construction of 12 miles and a considerable portion of the work has been done.

THE CENSUS OF TASMANIA, 1861.

(Taken on the Night of 7th April.)

Totals of the population:—Males, 49,593; Females, 40,384; grand total, 89,977. In 1857 the totals were:—Males, 45,916; Females, 34,886; grand total, 80,802. Increase of Males, 3,677; Females, 5,498; total, 9,175.

To the total of 1857 is to be added 690 for the military which makes the increase of population 8,485, instead of 9,175.

The population was classified as to age, as follows:—

Half-a-year ...	728	701	1,429

The males predominate from thirty years of age and upwards, between ten and fifteen years of age, between two years and five years old, and at one year and a half-year old.

The females predominate between twenty and thirty years of age (1,192), between fifteen and twenty years of age (534), between five and ten years of age (18), between one and two years of age (14).

The males predominate in every Electoral District except Hobart Town and Queenborough.

Of the married population we have:—

	Married.	*Single.*	*Total.*
Males	15,893	33,700	49,593
Females	15,616	24,768	40,384

The number of males under twenty years of age is 20,750, and of females 20,899.

ABORIGINES.

On 31st December, 1861, there were 8 Aborigines residing at Oyster Cove, 2 male and 6 female. These were maintained at the cost of the Government, under two officials, the expenditure being £675 for that year. On 31st December, 1866, only 5 Aborigines were living; the cost of their maintenance for 1865 being £464. [There were 4 females residing at Oyster Cove; and 1 male (the last of his race), who has lately left the colony for England.]

GENERAL STATEMENT OF THE WEALTH AND RESOURCES OF TASMANIA ON THE 1ST OF JANUARY, 1866.

(Compiled from authentic official documents by Hugh Munro Hull, Secretary to the Royal Commission for the Paris and Australian Exhibitions.)

1. Tasmania contains 16,703,300 acres of land, of which 3,647,305 acres have been alienated from the Crown, and are now the property of colonists.

2. Of the Crown Lands 2,340,000 acres have been valued by the Survey Department at £1,047,700; and if a nominal value of 2s. per acre be

placed on the remaining Crown Lands the amount would be £1,108,718, or a total value of lands now belonging to the Crown of £2,156,418.

3. The population was 95,201.

SUCCESSION DUTIES DEPARTMENT.

Office : Government Buildings, entrance from the principal front in Murray-street.

Office hours : Open to the public for the transaction of business from 10 a.m. to 3 p.m. daily, except *Saturday*, when it is closed at 1 p.m.

COMMISSIONER : Joseph Penny.

Agent for Launceston and Northern portion of the Island, Ronald Campbell Gunn.

The amount of property that has passed under wills and successions during the half year ending 30th June, 1866, is estimated at £250,000.

The amount of Duty that has accrued during the same six months is about £1500.

During the six months there have arisen 130 cases in which it has been necessary to institute enquiries as to the disposition of property ; of these, 40 estates,involving property to the amount first mentioned, have been brought under the operation of the Act, and others are still in abeyance.

The whole of the duty has been carried on by the Commissioner of Succession Duties,—no clerk having yet been employed, or clerical assistance, with the exception of the copying of wills in the office of the Registrar of the Supreme Court.

Rates of Duty payable on Legacies, Annuities, Residues, &c., of the Amount or Value of £20 and upwards, by Act 29 Vict. No. 34.

Description of the Annuitant.	Out of Real or Personal Estate, if the deceased died on or after the 1st January, 1866.
To Children of the Deceased and their Descendants, or to the Father or Mother, or any Lineal Ancestor of the Deceased ..	£1 per cent.
To Brothers and Sisters of the Deceased, and their Descendants	£3 per cent.
To any Person in any other Degree of collateral Consanguinity, or to Strangers in Blood to the Deceased	£5 per cent.

Where any Legatee shall take two or more distinct Legacies or benefits under any will or testamentary instrument, which shall together be of the amount or value of £20, each shall be charged with duty, although each or either may be separately under that amount or value.

The husband or wife of the deceased is not chargeable with duty, and the husband or wife of a legatee is chargeable with the rate of consanguinity.

PENALTIES.

Persons paying or receiving any legacy, residue, or share of residue, liable to duty, without taking or signing the proper receipt for the same, will be subject to a penalty of £10 per cent. on the amount or value of such legacy, residue, or share of residue.

Every annuity receipt must be dated on the day of signing, and the duty thereon paid within 21 days from the date thereof, under a penalty of £10 per cent. on the amount of the duty; and a like penalty for every month after the first month during which such neglect shall continue.

The Commissioner cannot, under any circumstances, receive the duty payable in respect of a Succession on which the duty shall not be paid within 60 days from the date of the proper receipt for the same, unless the penalty incurred be also paid.

NOTE.—Rents, interests, or dividends of Legacies, down to the date of the receipt, must be added to the legacy, and duty paid thereon.

SAVINGS' BANKS.

There are two of these institutions in Tasmania,—one at Hobart Town (established 1845), and the other at Launceston (established 1835)—which are carried on under the provisions of the Act of Council, 12th Vic., No. 1, commonly known as the "Savings' Bank Act," under the direct control of Managers approved by Courts of General Quarter Sessions.

At Hobart Town, Mr. W.V. Morriss is Actuary; Mr. F. B. Campbell, Cashier; Mr. J. B. Walker, Accountant. At Launceston, Mr. Henry Dowling is Actuary; Mr. G. Pullen, Cashier.

The deposits at Hobart Town at the last half-yearly meeting in September, 1866, amounted to £133,507 11s. 3d., the number of accounts open being 4134, and the Bank has a reserve fund of £15,345 8s. 5d.

The deposits at Launceston at the same date amounted to £61,071 17s. 2d., the number of accounts open being 2,861, the reserve fund being £6762 4s. 5d.

Since the commencement of the Bank at Hobart Town 23,755 accounts have been opened, and £1,372,162 3s. 6d. has been received. At Launceston 17,111 accounts have been opened, and £935,884 12s. 4d. deposited.

On the 1st November, 1862, an Act came into operation (26th Vic. No. 15), which enables any person to remit through the post any sum as a deposit to any Savings' Bank at the postage of *one penny* for every packet not exceeding four ounces, for which small charge the packet is to be *registered* by the Postmaster; thus securing to the depositor an official receipt for the safe delivery of the packet to the Savings' Bank.

COUNTRY DISTRICTS.

The colony of Tasmania is divided into nineteen Rural Municipalities, and seven Police Districts. Seven Councillors are, in the first instance, elected by the ratepayers of the respective municipalities. Two Councillors retire for two successive years, and every third year three Councillors retire, but are eligible for re-election. The Councillors elect one of their number as Warden, whose term of office extends over one year. All powers by law vested in Police Magistrates are also, by Act of Parliament, vested in the Warden while holding office. The Governor has the power of appointing the Warden and Councillors to be Justices of the Peace within their respective municipalities during their term of office; provision is thus made for the discharge of all legal business which formerly devolved on paid officers of the central government. Council Clerks act as Clerks of Petty Sessions. In the Police Districts, Stipendiary Magistrates are appointed to office by the Government.

Much attention has been paid to irrigation in this district, as the following summary of irrigated lands will shew :—Sherwood and Buerton, (Hon. I. Sherwin, M.L.C.,) 240 acres; Meadsfield, (E. Nicholas,) 120 acres; Ratho, (A. Reid), 120 acres; Nant, (G. Nicholas), 180 acres; Thorpe, (T. Axford), 70 acres; J. D. Wood, 1,100 acres.

There are two flour mills near the township of Bothwell, owned respectively by Messrs. George Nicholas and T. Axford, both situated on the banks of the Clyde, and worked by means of that stream. The inhabitants are abundantly supplied with pure water from the Clyde river, running through the centre of the township, about a mile beyond which it plunges about forty feet into the basin below, forming the Falls of the Clyde, which are well worth seeing. The large rivers Shannon and Ouse also flow through this district. On the north-east boundary are situated Wood's Lake, and Lakes Sorell and Crescent, from the latter of which the Clyde takes its source. On the north-west boundary is the Great Lake whence the Shannon derives its origin. A trip to the Lakes (the nearest being 23 miles, and the furthest 35 miles from the township), well repays a stranger's trouble, and rewards his curiosity. This district possesses as fine stone for building purposes as any part of the colony. There is an excellent freestone quarry within one mile of the township. Good timber for building purposes, fencing, &c., is also plentiful. In order to secure a sufficient flow of water in the Clyde, during the summer, the waters of Lakes Crescent and Sorell are preserved by dam at or near the junction of the river with the said lakes, which dam is vested in "the Trustees of the River Clyde" by virtue of the 21st Vict., intituled an Act to protect the sources of the River Clyde.

Campbell Town is an agricultural and pastoral district, containing many magnificent estates of great wealth. The Elizabeth and Macquarie rivers flow through it, and the South Esk divides it from the municipality of Fingal. The Hospital is in a flourishing condition, and has been of great benefit to the surrounding districts, as well as to Campbell Town. Turkish baths are attached to the Hospital. There are three first-class hotels in the township, thus rendering it a most eligible summer residence for invalids affected by the heat of the neighboring colonies.

This district since its formation into a municipality has been gradually emerging from comparative obscurity into a favored and coveted resort during the summer months for the wealthy and fashionable residents of Hobart Town—indeed it has become quite a "Watering Place," its magnificent beaches and other promenades affording a healthy and delightful retreat to hundreds during the summer. A residence at Kangaroo Point of a few months has been known to effect a cure in individuals whose complaints baffled the skill of their medical attendants for years.

At Rosny much has been done by its spirited proprietor to make it attractive to the holiday seeker. The garden and grounds are tastefully laid out in true English style, all kinds of sports are indulged in on *fête* days; and when we say that upwards of 2,000 persons have been known to visit it in one day, it establishes itself at once as a favorite resort.

Public works of considerable importance are being carried on with vigor, viz., the building of the "Sorell Causeway," and the formation of a new road leading from the Causeway at the Bluff to the junction of the Richmond and Cambridge roads. It is impossible to over-estimate the advantages that must accrue to this district by the enormous increase of traffic which the completion of these works must necessarily cause. Sorell, Spring Bay, Swanport, and the entire range of the East Coast, will by this means be brought within easy travelling distance of the Capital.

DISTRICT SURVEYOR.—G. Innes, Franklin.

REGATTA—An annual regatta held on the Huon River.

PRODUCTS.—Gold and copper have been found in small quantities, iron and coal in abundance, the latter of an anthracite character. Felspar is also found, and white sandstone of a superior quality is a considerable article of export to Melbourne for building purposes. Timber, potatoes, and apples are also largely exported from Franklin. Fruit trees of all descriptions have been planted extensively in this district, and the small fruit being very abundant, two branch establishments of Hobart Town houses for the manufacture of jam, have been lately commenced, one each at Franklin and Port Cygnet. There are nine saw mills and three flour mills in this district. A magnificent bed of the finest timber and good land has been discovered at the back of the township of Franklin, for this the inhabitants are indebted to the enterprise of our district Surveyor, Mr. Innes, who has surveyed a line for tramway, at easy gradients, to this land of promise. The money having been voted for this useful work, it is to be hoped the Government of the day will not disappoint the long cherished desire of the inhabitants to have the vast extent of country at the back of the township made accessible. Its ultimate development is only a question of time after Mr. Innes's clear and able demonstration as to its practicability, but it would be cruel to again compel the interests of the district to remain in abeyance after having guaranteed the cost of its construction. The exportation of apples is now very large from this district, the humidity of the climate, and cooler temperature compared to most of the other districts, marks out the Huon as the favored one for all descriptions of hard or keeping apples. If the Huon is not strictly speaking a terrestrial paradise, still we know the apple has played a prominent part in this world's history; perhaps the Huon may take a similar position in Tasmania's. At present she is the hard-working Cinderella, and it is the fashion to throw stones at her on every suitable occasion, but *nil desperandum*. There are already indications of a turn in the tide; if the Huon cannot boast of kings reigning over flocks and their thousands of woolly subjects, still the people do not depend on one staple product for existence. Apples (nearly 3,000 bushels from one orchard), timber, potatoes, shingles, palings, jam, butter, eggs, and cheese, all testify to the multifarious interests of her industrious population.

The cutters "Ann" and "Edwin" sail for Launceston from George Town every Monday.

CONVEYANCE.—Visitors may go to and from George Town and Launceston by the Melbourne steamers ; the steam tug leaves Launceston for George Town, during summer, every other Saturday, returning the following Monday.

CLIMATE.—The climate of the whole district is most salubrious. Even in winter there is a mildness throughout the atmosphere, and in summer the occurrence of a hot wind is not on record. George Town is much frequented during the summer and autumn months, by numerous visitors, not only from the interior, but also from the neighboring colony of Victoria, for sea-bathing. Flinders' Group of Islands, separated from the main land by Banks' Strait, is included in this district, and contains a population of about 150 souls, chiefly half-caste of aboriginal extraction. The staple commodity of these islands may be said to be the "Petrel," commonly known as the "Mutton Bird," which are killed and salted every year ; the oil collected from the dying birds is considerable in quality, at an average value of 4s. per gallon. Many hundreds of dozens of their eggs are also brought to Launceston, and generally find a ready sale. The gum produced by the Grass Tree is likely to be a source of revenue to the islanders, as it furnishes a polish superior to French polish, and can be had in a considerable quantity on the islands. At Ilfracombe there are extensive steam and water power saw-mills ; ironstone of first-class quality may be obtained in any quantity. There is also a slate quarry.

BOATMEN'S FARES, GEORGE TOWN.

TRADING VESSELS.—The schooner "Kingston," Hopwood, master, trades regularly between Hobart Town and Great Swanport (Waterloo Point), calling at the Sandspit, Prossers's Bay. Spring Bay, and Little Swanport; agent in Hobart Town, A. G. Webster, Old Wharf. The schooner "Twins" also trades between Swansea and Hobart Town, calling at intermediate places; and the schooner "Robert Burns," Hall, master, regularly trades between Bicheno and Hobart Town, occasionally calling at the various intervening ports, and frequently continuing as far as Falmouth and George's Bay. A vessel is usually laid on between Swansea and Melbourne during the fruit season. Two colliers constantly ply between Seymour and Hobart Town. and sailing vessels occasionally cal at Bicheno.

FLOUR MILLS.—Four, viz., Water Mills, at Riversdale on the Wye River; Gala Mill, on Swan River; and Mayfield, on Buxton's Rivulet; Wind Mill at the Grange.

INNS.—Swansea, two, viz., Pier Hotel, by Mrs. T. Stephenson; and Swan Inn, by R. Makepeace. Bicheno, Native Youth Inn, by J. Tilley.

The principal products of Glamorgan consist of grain and apples, a large quantity of the latter being annually shipped direct to Melbourne. An abundant supply of fine timber, affording the means of constant employment for splitters and sawyers, exists in close proximity to the sea

side. The Seymour coal mines are being energetically worked, and contain an inexhaustible supply of good coal and very superior fire clay. Coal is also found in many other parts of the district. Granite rocks of immense extent exist on Freycinet's Peninsula, and in the neighborhood of Bicheno. Every variety of salt and fresh water fish abound in the Rivers and bays; also extensive oyster-beds in the Swan and Little Swanport Rivers. Glamorgan labors under the disadvantage of being shut out to a great extent by ranges of rugged hills from the rest of the colony; the roads to Falmouth, Avoca, Campbell Town, Eastern Marshes, and Spring Bay, all being extremely rough.

The climate here is unsurpassed, and very little sickness is found to exist. The scenery is romantic and beautiful. On the sea side, Rocky Hills and Swansea may be particularly noticed. At the former place the road winds round the summit of a lofty hill some hundreds of feet above the sea for about a mile, affording a view which has been universally acknowledged to be one of the grandest in Tasmania. The Swansea Bay, too, is very pretty, and bears a strong resemblance to the Bay of Naples. Freycinets's Peninsula and Schouten Island encircle it at a radius of about 20 miles, and almost entirely shut out the open sea from view. Nothing can exceed the picturesque beauty of their huge granite cliffs at sunset on a calm fine evening. Vessels can remain at anchor at Swansea in almost any wind, and can ensure safety in the roughest weather by running over to a bay at Freycinet's Peninsula. The principal rivers are the Swan, which flows through the centre of the district, and the Little Swanport River, which divides Glamorgan from the adjoining municipality of Spring Bay. The former is a large river, with numerous tributaries, including the Wye, Cygnet, and Apsley, but its navigation is unfortunately prevented by a shifting sand bar, and several mud flats. For many miles between the mud flats this river is of sufficient depth to float the largest vessels. It abounds with swans, pelicans, wild ducks, &c. There are many smaller streams which afford an abundant supply of fresh water all the year round, amongst which are the Douglas, Meredith, Stony, Buxton, and Lisdillon Rivulets. Swansea is the largest township on the East Coast of Tasmania, and has doubled its population and buildings within the last few years.

The District of Glenorchy is principally of an agricultural and horticultural character, much attention being paid to the farms and gardens throughout the municipality. There are two flour mills, and one bone mill in this district, and an extensive manufactory of soap, candles, and vinegar, owned by Mr. William Murray, of "Murray Field," O'Brien's Bridge. There are two tanneries and fellmongery establishments.

There are several quarries of excellent freestone, and unlimited beds of limestone, which have been extensively worked by Mr. Lowes and Mr. Shoobridge. Good timber for shipbuilding and other purposes abounds in the gullies of Mount Wellington. Large beds of oysters exist in the Derwent at Glenorchy, from which the market has been extensively supplied.

This district is about equally divided between the agricultural and pastoral interests; the agricultural being represented mostly by small farmers; with a few large landholders. The vegetation of the district is generally about a month behind that of Hobart Town.

The Township of Kempton extends two miles along the western side of the main road from Hobart Town to Launceston, with houses and shops interspersed at intervals. It contains seven stores, six public houses and hotels, and other trades in proportion. Kempton itself is surrounded by ranges of hills, with the exception of one portion, which is open to the north.

During the past year this municipality has been increased by the annexation of portions of the adjoining municipalities of Oatlands, Bothwell, and Hamilton, (vide *Gazette*, 1866, p. 1019). It formerly

consisted of about 40,300 acres, which, by the addition, now amounts to about 91,000 acres. From returns taken in January, 1866, the stock and crop were—Stock, horses, 314; cattle, 861; sheep, 16,064; goats, 32; pigs, 411; cropped land—Wheat, 1866 acres; barley, 63 acres; oats, 319 acres; peas, 16 acres; English grass, 28 acres; hay, 765 acres; potatoes, 87 acres; turnips, 112 acres; mangold wurtzel. 8 acres; tobacco, 5 acres; garden and fallow land, 834 acres. Total, 4,103 acres. The remainder, consisting of about 36,000 acres, was in use for depasturing sheep and cattle.

At Sandy Bay the beach is adapted for sea bathing, and accommodation for this purpose is afforded by subscription baths. Extensive flower, fruit, and market gardens are here cultivated. The road to Brown's River is much frequented, as a pleasure drive, by the citizens of Hobart Town; the scenery on this road is noted for its romantic beauty. Visitors to Hobart Town will find an excursion to the pleasant township of Kingston an exceedingly agreeable mode of passing a few hours.

The suburban township of New Town is beautifully situated on the main road from Launceston to Hobart Town, Mount Wellington and the range of hills adjacent, forming a noble background to the lovely scenery here displayed.

The New Huon Road is completed for about eight miles, and forms one of the most picturesque pleasure drives in the vicinity of the capital. Excursionists to the summit of Mount Wellington, and the source of the water supply for the city, will find both easily accessible from this road.

Dairy produce, potatoes, and timber are the chief products of the district; freestone is plentiful, and there is coal on the land of J. Abbott, Esq., at Gordon. Much of the land is of inferior quality, but the patches of good are very superior. The district is generally well watered by rivulets, &c.—the Brown's River, North West Bay, and Oyster Cove Rivers being the chief streams.

The township of Kingston is chiefly noted for its delightful beach; it has also attractions in the shape of rural scenery and bream fishing. The drive from Hobart Town to Kingston is recommended to visitors in search of the picturesque.

The little village of Margate, situated on North West Bay, with its salmon ponds, and fresh water mullet fishing, is also well worthy of the visitor's attention.

POLICE DISTRICT OF HORTON.

The district of Horton is the largest Police District in Tasmania, and embraces immense tracts of country entirely unknown. It includes the settlements of Woolnorth, Circular Head, Table Cape, Emu Bay, &c., in the County of Wellington; the coast line extending from the River Blythe round the N.W. angle of the island nearly to Macquarie Harbor. The boundaries enclose the Counties of Wellington and Russell, and parts of Montagu, Lincoln, and Devon. Although the Police District remains unaltered, the connection existing between its component parts has been partially severed during the past year by the appointment of a Resident Stipendiary Magistrate at Table Cape, and officers of Customs at Burnie and Wynyard, and also by the recent proclamation of the latter township as a place for holding meetings of justices under "The Licensing Act." It will be more convenient, under these circumstances, to treat of the three principal subdivisions of the District separately. They are as follows:—1, Circular Head; 2. Table Cape; 3, Emu Bay; and contain a total population of about 2,100. Horton forms only a part of the very large electoral district of Devon. The Roll for 1867-68, now in course of preparation, comprises the names of 898 electors, of whom 622 have hitherto been omitted. About 290 belong to the Horton Districts.

CIRCULAR HEAD DIVISION OF POLICE DISTRICT OF HORTON.

BOUNDARIES.—The boundaries of the Circular Head Division enclose parts of the Counties of Wellington, Russell and Montagu; the coast line extending from the Detention River, in the vicinity of Rocky Cape, round the N.W. angle of Tasmania almost to Macquarie Harbor.

TOWNSHIPS.—*Stanley*, about 157 miles from Launceston, with a population of about 500, is the largest township on the North Coast. It is a port of clearance, is built under the singular promontory of Circular Head, and has Courts of Requests and Quarter Sessions, a Masonic Lodge, Cricket Club, well supplied Reading Room, Schools, &c. Among its principal buildings may be included the Episcopal, Presbyterian, and Roman Catholic Churches, Mr. Ford's large offices and stores, four good hotels, the Police Office, Gaol buildings, and several picturesque private residences. The sea washes three sides of the town, affording very fine beaches as roads and promenades to the inhabitants. The site is rather exposed, but the climate beautiful and most conducive to health. The mean annual temperature is 59·7. There are excellent chalybeate

springs about eight miles from the town. A brass band is maintained here, composed of amateurs, under the direction of Mr. Adam Clerke. The progress this band has made during the 18 months that have elapsed since its formation is a source of great satisfaction to the inhabitants, who largely patronize Concerts given at intervals of a few weeks. A large public school of stone is nearly completed, which will be one of the finest buildings at Stanley. *Smithton*, on the Duck River, 13 miles to the west of *Stanley*, is thinly inhabited, but it is a place from which considerable shipments are made.

MEMBERS OF PARLIAMENT.—*Legislative Council*, Hon. W. E. Nairn, elected June 9th, 1865. Circular Head is included in the electoral district of Meander (*Returning Officer*, F. Belstead), the principal part of which is about Deloraine, a locality between which and the Horton districts there is an almost impassable country, and with which it has not any other connecting link. *House of Assembly*, John Davies, elected 26th October, 1866. This district forms part of the electoral district of Devon, and numbers upwards of 160 electors, half of whom have, until the present time, been disqualified through their names having been omitted from the Electoral Roll for 1866. *Returning Officer* (newly appointed), Bernard Shaw, of Torquay.

POLICE.—*Stipendiary Magistrate and Coroner*, A. Threlkeld Mayson. *Police Clerk*, W. H Walsh. *Chief District Constable*, Frederick Chalu. *District Constable*, Thomas Simpson, and two petty constables (one of whom is gaoler) are stationed at Stanley.

CORONERS.—A. T. Mayson and H. J. Emmett.

JUSTICES OF THE PEACE FOR THE TERRITORY.—George Anderson, Frederick Wilbraham Ford, and Alfred Threlkeld Mayson.

COURT OF GENERAL SESSIONS.—*At Stanley*, on 3rd Monday in January, April, July, and October. *Chairman* (vacant). *Clerk*, W. H. Walsh.

COURT OF REQUESTS.—*At Stanley*, on third Wednesday of every month. *Commissioner*, A. T. Mayson. *Registrar*, W. H. Walsh. *Summoning Officer*, Frederick Chalu. This is a Court of maximum jurisdiction.

DEPUTY REGISTRAR OF BIRTHS, &c.—H. J. Emmett.

CUSTOMS.—*Landing Waiter in Charge*, A.T. Mayson. *Tide Waiter and Assistant Harbor Master*, F. Chalu.

BOARD OF WORKS FOR 1866.—*West Horton*, G. Anderson, and W. Borradale.

ROAD TRUST.—*Horton*, between Detention and Montague Rivers. *Trustees.* John Alford, Patrick Breheny, William Deavin, Anthony Tatlow, William Coventry, and William Harman; *Chairman*, John Alford; *Clerk and Collector*, Joseph B. Alford. Rate for 1866, sixpence in the £.

GOVERNMENT SURVEYORS.—Nicholas Simmons, District Surveyor, at *Wynyard*, and A. T. Mayson, at *Stanley*.

PUBLIC POUND.—At *Stanley*, Anthony Tatlow, *Poundkeeper*.

POST OFFICE.—*Stanley* (Money Order Office), John Edwards. Mails arrive every Saturday evening, and leave early on Monday morning.

SCHOOLS.—*Under the Board of Education.—Stanley*, Mr. and Mrs. Duniam. *South Road, Circular Head*, Mr. and Mrs. Cowbro. *Private School*, at Stanley, Mrs. Berjew.

PLACES OF WORSHIP AND MINISTERS OF RELIGION.—*Church of England*, St. Paul's Church, *Stanley*, Rev. H. E. Drew; a Parochial Library and Sunday-school are attached. *Church of Scotland*, St. James's Church, *Stanley*; the services are conducted by Lay Readers; a Church Library and Sunday-school are attached. *Church of Rome*, St. Mary's Church, *Stanley*, Rev. M. Burke.

MEDICAL PRACTITIONER.—James Smith, *Stanley*.

HOTELS.—*Stanley*, four, viz., "Commercial Hotel," by Robert Dallas; "Plough Inn," by Thomas Barrett; "Freemasons' Hotel," by Thomas Breheny; and "Ship Inn," by Charles Wilson. At *South Road*, 5 miles from *Stanley*, "Forest Inn," by James Kay.

MILLS.—One steam saw mill at *South Road*.

STANLEY READING ROOM.—This institution, supported by subscribers, is well supplied with British and Colonial papers, magazines, &c.; a circulating library is attached.

CRICKET CLUBS.—*Stanley.—Captain*, Edward Stutterd; *Secretary and Treasurer*, J. Berjew. Entrance fee, 5s., and a monthly subscription of 2s. during the season; 52 members. Cricket Club also at South Road in The Forest, Circular Head.

MUSIC.—*Stanley.*—Brass Band; conductor, A. Clerke; 18 members. Juvenile Drum and Fife Band; conductor, A. Clerke; 13 members. *South Road.*—Brass Band, conducted by Conrad Wakeldine; 15 members.

MASONIC.—Lodge of Peace, No. 719 (England). The working of this Lodge is temporarily suspended.

TIDES.—The tide has a rise and fall of eight feet. The beaches in some places are from a quarter to half a mile in width at low water, while a portion of the Stanley Wharf with the vessels alongside rests upon the dry sand.

STATISTICS.—January, 1866—Population, about 1200. Amount of valuation roll, £9,252. Number of ratepayers on ditto, 200. Acres in cultivation (exclusive of about 3000 acres of improved grass meadows), 3077, viz.: wheat, 562 acres, yielding 16,860 bushels; barley, 72 ditto, 2,304 bushels; oats, 825 ditto, 28,875 bushels; peas, 81 ditto, 2,025 bushels; beans, 18 ditto, 378 bushels; potatoes, 1,519 ditto, 6,076 tons. 446 horses, 1838 horned cattle, 10,080 sheep, 1050 pigs, 17 goats.

SHIPPING.—The following is a table of the shipping at Stanley during the year ending 30th November, 1866:—*Arrivals from the other Colonies*—80 vessels, 6165 tons; coasters, 56, 1493 tons; total arrivals, 136 vessels, 7658 tons. *Departures to the other Colonies*—63 vessels, 5588 tons; coasters, 73 vessels, 2070 tons; total departures, 136 vessels, 7658 tons.

This does not include ships calling through stress of weather, or for the purpose of taking in provisions, &c.

In the busy season, *i.e.* between the months of March and October, it is no unusual thing to find from a dozen to twenty vessels lying at Circular Head at one time; and a string of upwards of 30 bullock teams laden with produce may frequently be seen on the beach leading from the out-lying farms to the wharf. The shipping business at this place is larger than at any other sub-port on the north coast. Considerable quantities of timber, &c., are shipped from Brickmaker's Bay and Duck River.

The exports of timber, grain, potatoes, &c., from Stanley to the neighboring colonies during the 12 months above alluded to had a value of £28,230. In addition to these foreign exports, large quantities of produce are shipped coastwise to Launceston, including nearly all the wool, which is transhipped to London. The value of imports at Stanley in the same period was £6,713, the duties and dues collected thereon amounting to £761. These imports are exclusive of goods shipped from Launceston by coasting vessels. The goods imported direct to Stanley form but a small proportion of those actually consumed, as in the absence of a Bonded Store, nearly all the spirits, tobacco, and most expensive articles of consumption are obtained from Launceston. The Customs collections at Stanley for the year 1865 were £739 11s. 6d., and the value of exports was £25,870 4s. 8d.

INLETS.

The east and west inlets each extend more than two miles inland. They are situated respectively to the east and west of the Isthmus, connecting the Circular Head peninsula with the main land, and possess the same peculiar features. At high water they present the appearance of lakes, but as the tide ebbs are converted into extensive swamps of sand and mud, forming in many parts very dangerous bogs. For about half a mile from the junction with the open sea the channels are deep and narrow.

RIVERS.

Detention, Black, Duck, Montagu, Harcus, Welcome, Hellyer, Arthur, McIntosh or Pieman, with many smaller streams.

MOUNTAINS.

Eldon Range —The original range of this name (not the same as that in Sprent's map), first visited by the late energetic explorer, Henry Hellyer, is described by him as composed of conglomerate—a formation which underlies a vast area in the district, and is frequently seen on the surface. This range lies on the south side of the M'Intosh River, between the tributary waters of the Brougham and Canning, and is one of the most extensive in Horton.

Blue Peak Range.—A considerable range, but little known, lying between the Rivers Hellyer and Arthur. Precipices of slate of great height are frequent therein.

Campbell Range.—A wooded basaltic and slate range of a broken character north of the River Hellyer. Mount Cleveland, Mount Block, and many others of a considerable height.

HARBORS.

The mouths of the several rivers before enumerated are generally easy of access at high tide. In addition to these may be named the Woolnorth and Hunter Island anchorages, Robbins Passage, Duck Bay, and Circular Head Bay, all of which are well sheltered, and are occasionally visited by storm bound vessels.

REMARKS.

The Circular Head District contains much of the finest agricultural land in the Island, but it has also immense barren wastes, where the conglomerate, schist, quartz, and metamorphic rocks prevail. Recent partial explorations by Mr. S. B. Emmett of the neighbourhood of the Arthur and Hellyer Rivers, would lead to the belief that extensive and hitherto unknown plains of good grazing land are situated in the western portion of the district. The agricultural lands of the district lie chiefly, if not entirely, on basalt and clay. The settled portions are progressing at a rate which doubles the population in about six years, but that progress is very much retarded by the circumstances under which the settlement of its lands has to be effected. Every acre of the richest land is covered with a jungle of the densest character. Gigantic trees tower aloft to a height varying from 200 to 300 feet; these are *thickly* spread, and between them grow underwoods of various species with branches interlacing at every foot; between these last grow ferns and other small plants, so that the mere aspect of the spot to be cultivated often deters the awe struck immigrant from cutting out a home in such a formidable looking place. The cost of rendering such land fit for the plough may be averaged at from £10 to £15 per acre, yet so fertile is the soil that an ample remuneration awaits the enterprising man who dares to persevere in the arduous

task necessary to reclaim it. Another circumstance which retards the progress of this part of the colony is the want of roads and bridges, and to this want is necessarily attached that of defective postal arrangements. It is exceedingly difficult to get from one end of the settled portions to the other, and consequently the commercial communication is chiefly by water, in small vessels of inferior class. Indeed, the difficulty in reaching the older and more settled districts of the island is so great, and the facilities of communication with Victoria so many (the distance from Stanley to Melbourne Heads being only about 160 miles), that the district is almost as much connected with the latter colony in all commercial matters as it is with the other parts of Tasmania. The danger attendant upon the attempt to make an overland journey to Circular Head from any other part of Tasmania is so great, that it would be highly imprudent for a stranger to venture without a guide, unless previously furnished with precise information as to the position of rivers, &c. In fact, the bridle track from Table Cape to Circular Head presents a succession of traps into some of which a traveller is almost certain to fall if he does not possess such information and take care to study the state of the tides before commencing the journey. Many lives have been lost through unwary travellers not receiving timely warning of the nature of the difficulties to be encountered; and it may not be out of place in a "Guide to Tasmania" to attempt a short description of the route in question. From Table Cape to Rocky Cape (a distance of over 20 miles), the mail is conveyed over one of the worst bush tracks in the colony, many of the hills being so steep as to render it necessary to use hands as well as feet in clambering up their sides. These hills being very rough and slippery, and the narrow path sometimes winding along the edge of precipitous slopes, one is exposed to some risk in leading even the most sure-footed horse. The Sisters Creek, about 3 miles from Rocky Cape, is the only stream on this portion of the road, and cannot safely be crossed at high tide. A stranger having passed the Rocky Cape, sees an apparently uninterrupted line of sand beach, extending about 20 miles to Circular Head, (of which place a splendid view presents itself) and, if alone, he naturally imagines that all his difficulties are surmounted; but he is speedily undeceived, for a pleasant canter of about two miles along the beach brings him to the Detention River, which can only be crossed at the bar at low water (it is necessary to be cautious always to cross the rivers in this neighborhood at the bar below low water mark, as dangerous quicksands exist higher up). The next obstruction is the Crayfish Rivulet, which although it is a much smaller stream than the Detention River is unsafe to ford at high tide. The Black River is some nine miles from the Detention, and of about the same size, and like it impassable at its mouth, except at low water, but it is bridged about a mile and a half from the sea. The distance from the Black River to Stanley is nine miles; instead of following the beach the whole of this distance it is necessary to turn off at a right angle to the beach, two and a half miles from the Black River, and proceed about half a mile over an open sandy country to cross an arm of the sea, known as the East Inlet. This can only be forded with safety, when the tide has partly ebbed, at one spot near its head, where it is half a mile in breadth, and which is sufficiently distinctly indicated by marks of cart wheels, &c. The remainder of the Inlet, though for the most part dry at ebb tide, consists of quicksands and soft mud, so that no deviation from the road generally used can be made without the greatest risk. The Inlet being safely passed, five or six miles of sand-beach extends to the township of Stanley. Unless a traveller turns off the beach as above described, he will upon reaching the deep channel at the mouth of the Inlet have to turn his back upon Stanley and ride along the water's edge for nearly three miles

before he reaches the ford. A more level line of road between Table and Rocky Capes has been discovered at a distance of a few miles from the sea coast, and it is to be hoped that no time will be lost by the local Road Trusts and Boards of Works in opening out such road and erecting bridges over the dangerous rivers alluded to. There is no doubt that a good road in this part of the Horton district, will materially assist the progress of its settlement, and if to this were added a liberal policy on the part of the Van Diemen's Land Company, who hold immense estates in the district, that progress would be rapid. The water communication with Launceston is attended with some little danger, owing to the smallness of the crafts engaged in the trade. Three cutters have foundered on the North Coast during the last equinoxial gales, with the total loss of crews and passengers. Arrangements have, however, been made by which it is expected that in the course of a few weeks a steamer will be placed in the trade between Melbourne, Launceston, and the ports on the North Coast. This will prove a great boon to the inhabitants, and will probably lead to an influx of summer visitors at Stanley, than which no place could be more eminently suited for the comfort of those who might wish to exchange the heat of Victoria for the pure cool air of Tasmania, A healthier and pleasanter seaside summer retreat could not exist ; a hot wind is a thing never alluded to as being among the reminiscences of the "oldest inhabitant." The peninsula on which the township is built, is approached on both sides by sandy beaches of many miles in length, on which conchologists may collect the rarest and most beautiful species of shells, including large specimens of the cowry, volute, &c. Lovers of scenery may obtain a magnificent view of the surrounding romantic country and coast line by ascending the steep sides of the promontory which looms over the town, or, by making an excursion of about two miles to the Western Plains on the north end of the Peninsula, may spend a few hours very pleasantly in roaming through several hundred acres of rectangular paddocks of the richest soil and luxuriantly coated with English grasses, clover, &c. These fields are enclosed for the most part by straight hawthorn hedges, and intersected by numerous lanes, and are universally admitted to present one of the most thoroughly English pieces of rural scenery that is to be met with in the colony. A ride to the Forest, six miles from Stanley, will amply repay the visitor. The country in this district is characterised by immense beds of timber, and that almost tropical vegetation peculiar to the North Coast. Some of the cultivated farms here are very picturesque. These farms are well watered all the year round by running streams, on the banks of which are to be seen beautiful specimens of the Tasmanian fern tree. There are but few large landed proprietors, besides the Van Diemen's Land Company. The majority of the farmers are a highly respectable body of men, and in more comfortable circumstances than persons in the same position in other districts. A stranger cannot fail to be favorably impressed by the unanimity and good feeling displayed by the population, among whom the petty local strife that is but too often a characteristic of small communities, appears to be utterly unknown.

TABLE CAPE DIVISION OF THE POLICE DISTRICT OF HORTON.

BOUNDARIES.—The boundaries of the Table Cape Division enclose parts of the counties of Wellington and Russel, and the coast line extends from the Cam to the Detention River.

TOWNSHIPS.—*Wynyard*, near Table Cape, about 43 miles from Stanley, and 114 miles from Launceston, has a population of 200. It is pleasantly situated at the mouths of the River Inglis and Camp Creek, and extend

about a mile and a quarter up the South bank of the Inglis. This place was formerly a sub-port of clearance subordinate to Circular Head, but was proclaimed a port of entry on the 1st May last. The principal buildings are the Police Office and Customs Officer's Residence (both of which have been recently erected by the Government), Mr. Stutterd's General Store, and one of the finest stone Hotels on the Coast. *Port Maldon* and *Somerset*, on the River Cam, are at present thinly populated.

MEMBERS OF PARLIAMENT.—(See Circular Head.) Table Cape contains about 82 electors for the *House of Assembly*, only a small portion of whose name have until now been inserted on the Electoral Roll.

POLICE —*Stipendiary Magistrate*, Arthur B. Willis. *District Constable* Michael Lawler and one petty constable are stationed at Wynyard. The police force are under the control of Mr. *Chief District Constable* Chalu, of Circular Head.

CORONER.—William Moore.

JUSTICES OF THE PEACE.—W. Moore, C. J. McKenzie, G. Shekleton, A. B. Willis.

CUSTOMS—*Landing Waiter in Charge*, A. B. Willis. *Tide Waiter*, M. Lawler.

BOARD OF WORKS FOR 1866.—*East Horton*, between Rivers Detention and Blythe—W. Moore, C. J. McKenzie, and J. Dowling.

ROAD TRUST.—*Table Cape*, between the rivers Detention and Cam ; *Chairman*, C. J. McKenzie. Rate for 1866, ninepence in the £.

DISTRICT SURVEYOR.—Nicholas Simmons, at *Table Cape.*

PUBLIC POUND.—At *Somerset*, on River Cam ; *Poundkeeper*, T. D. Wragg.

POST OFFICE.—*Wynyard*, J. A. White, mails arrive from Launceston and the other parts of the colony on Wednesdays and Fridays, and leave every Tuesday and Thursday.

SCHOOLS.—*Under the Board of Education.—Wynyard*, Mr. and Mrs. Hainsworth ; *Somerset*, Mrs. T. D. Wragg. Private school at *Wynyard*, Mr. Marshall.

PLACES OF WORSHIP AND MINISTERS OF RELIGION—*Church of England*, Chapels at Wynyard and Somerset, Rev. Richard Smith. *Church of Rome*, chapel at Wynyard, visited by Rev. M. Burke, of Circular Head. Grove Chapel, near Table Cape, is a building unattached to any religious communion, erected by George Shekleton, Esq., who conducts the services.

MEDICAL PRACTITIONERS.—Thos. Wilson and J. W. Pring, between Emu Bay and Table Cape.

HOTELS.—At *Wynyard*, two, viz., "Court House Hotel," by Joseph Alexander, and "Table Cape Hotel," by Joseph Alexander, jun.

CRICKET CLUB.—At *Wynyard, Captain*, J. H. Stutterd ; about twenty members.

STATISTICS.—January, 1866—Population, 600 ; amount of Valuation Roll, £3,196 ; number of ratepayers on ditto, 130 ; acres in cultivation, 1049, viz., wheat, 349 acres, yielding 10,470 bushels ; barley, 14 acres, yielding 448 bushels ; oats, 210 acres, yielding 7,350 bushels ; peas, 42 acres, yielding 1050 bushels ; beans, 12 acres, yielding 252 bushels ; potatoes, 422 acres, yielding 1688 bushels ; 135 horses, 519 horned cattle, 506 sheep, 175 pigs, 57 goats.

SHIPPING.—The following vessels are owned by residents of Wynyard, and most of them trade regularly between that sub-port and the adjacent colonies :—"Scotia," 135 tons, Messrs. Moore and Quiggin ; "Annie Beaton," 85 tons, Messrs. Moore and Quiggin ; "Dart," 80 tons, Messrs. Moore and Quiggin ; "Margaret Chessell," 65 tons, W. and J. Jones ; "Dove," 52 tons, W. and J. Jones ; "Satellite," 19 tons, Messrs Moore and Quiggin.

The exports for the eight months of 1866 that have elapsed since the proclamation of Wynyard as a port of entry amounted in value to £7218, and were shipped in vessels with a total tonnage of 1991 tons. The imports during the same period, in ships with a tonnage of 2652 tons, had a value of £2310 ; being nearly half that of the imports at Stanley in the corresponding portion of the year. The Customs collections for the Table Cape District during the year 1865 amounted to £316 11s. 6d., and the value of the exports was £7,955 8s.

RIVERS AND HARBOURS.—Cam, Inglis, and Detention Rivers, with many smaller streams. The three former are easy of access at high tide ; the Inglis is capable of admitting vessels drawing from 8ft. 6in. to 8ft. 10in. of water. Substantial bridges have been erected over the Cam and Inglis. The bight under the Promontory of Table Cape forms a safe anchorage for vessels of any tonnage.

REMARKS.—The description of the general character of the soil, &c., at Circular Head is equally applicable to Table Cape. Messrs. Moore and Quiggin are the enterprising proprietors of a large saw mill erected about a mile and a half to the south of Wynyard, which supplies the colonial markets with a great quantity of first-class timber. The River Inglis and the various fresh water streams in this district abound with fish, including Herring, Eels, Blackfish, Lobsters, and Trout. Among the salt water fish may be enumerated Trumpeter, Rock-cod, Flathead, Mullet, Garnet, Saltwater Blackfish, and many other varieties.

EMU BAY DIVISION OF THE POLICE DISTRICT OF HORTON.

BOUNDARIES.—The boundaries of this division embrace portions of the counties of Wellington, and Devon, and Lincoln, the line of coast extending from the Blythe to the Cam River.

TOWNSHIPS.—*Burnie*, at Emu Bay, about 55 miles from Stanley, 12 miles from Wynyard, and 102 miles from Launceston ; population about 150, is a port of entry and clearance, having been detached from Circular Head at the end of May, 1866. There are several town reserves at present uninhabited.

MEMBERS OF PARLIAMENT.—(See Circular Head.) About 46 electors belong to the Emu Bay district, above half of whom have hitherto been disfranchised by the omission of their names from the Electoral Roll for 1866 and former years.

POLICE.—*Visiting Magistrate*, H. T. A. Murray, of Torquay. D. C., J. Kavenaugh, and one petty constable at Burnie. *Chief District Constable*, F. Chalu, of Circular Head.

CORONER.—J. W. Kirwan.

JUSTICE OF THE PEACE.—George Rouse.

COURT OF REQUESTS.—*Burnie*, on first Wednesday of January, March, and every succeeding month. *Commissioner*, H. T. A. Murray, of Torquay ; *Registrar*, J. H. Munce. This is a court of maximum jurisdiction.

H.M. CUSTOMS.—*Landing Waiter in charge.* J. W. Kirwan ; *Tide Waiter*, J. Kavenaugh.

BOARD OF WORKS (FOR 1866).—The same as at Table Cape.

ROAD TRUST.—*Emu Bay*, between the Rivers Cam and Leven. *Chairman*, J. H. Munce. Rate 6d. in £ for 1866.

DISTRICT SURVEYOR.—Nicholas Simmons, of Table Cape.

POST OFFICE.—*Burnie* (Money Order Office), J. H. Munce ; mails arrive and depart on the same days as at Wynyard (Table Cape).

PUBLIC SCHOOLS.—*Under the Board of Education*—Burnie, Mrs. Morris.

PLACES OF WORSHIP AND MINISTERS OF RELIGION.—*Church of England*, St. George's Church, Burnie, Rev. Richard Smith. *Church of Rome*, St. Mary's Church, visited by Rev. M. Burke, of Circular Head.

MEDICAL PRACTITIONERS.—Thomas Wilson, and J. W. Pring, between Emu Bay and Table Cape.

HOTELS.—*Burnie*, three, viz., "Welcome Hotel," by representative of the late Mrs. Castles; "Burnie Inn," by Thomas Wiseman; and "Ship Inn," by Richard Lennard. *River Cam*, "Ferry House Inn," by Thomas Lewis.

CRICKET CLUBS.—One at Burnie.

STATISTICS.—January, 1866, population, 300: amount of Valuation Roll, £3972; number of ratepayers on ditto, 64; acres in cultivation, 903, viz.:—Wheat, 205 acres, yielding 6,115 bushels; barley, 18 acres, yielding 576 bushels; oats, 311 acres, yielding 10,875 bushels; peas, 93 acres, yielding 2,325 bushels; potatoes, 276 acres, yielding 1,104 bushels; 69 horses, 2416 horned cattle, 916 sheep, 227 pigs, 60 goats.

RIVERS AND HARBORS.—Blythe, Emu, and Cam Rivers (all navigable at high tide, and all substantially bridged), with other smaller streams. The Emu Bay anchorage is partially protected from the weather.

MOUNTAINS.

Surrey and Hamphshire Hills.—These form one large tract of elevated country, covered with open grassy forests and plains, producing indifferent pasture. The formation on the surface is chiefly conglomerate, basalt and granite. The red granites at the Hampshire Hills are very beautiful. St. Valentine's Peak is one of the most beautiful mountains in the colony, and rises from the midst of these hills to a height of 3,137 feet.

REMARKS.

For description of character of soil, see Circular Head and Table Cape. The exports from Burnie for the year 1865 amounted to £5,132 1s., and the customs collections to £113 15s. 1d.

POLICE DISTRICT OF LAUNCESTON (SELBY),

IN THE COUNTIES OF CORNWALL, DEVON, AND DORSET.

TOWNSHIPS.—LAUNCESTON (see page 150), *St. Leonard's*, 5 miles from Launceston. *Hadspen*, 7 miles from Launceston. *Carrick*, 10 miles from Launceston. *Windermere*, 12 miles from Launceston.

ELECTORAL DISTRICTS.—For Legislative Council, *Tamar*, Returning Officer, Mayor of Launceston. For House of Assembly, *Selby*, Returning Officer, J. Whitefoord.

MEMBERS OF PARLIAMENT.—*Legislative Council*, Hon. Sir. R. Dry, November 30, 1866; Isaac Sherwin, November 30, 1866. *House of Assembly*, James Reid Scott, October 26, 1866.

POLICE.—*Police Magistrate*, Wm. Gunn. *Police Clerk*, C. Spotswood. *Bench Clerk*, R. Gibton. *Chief District Constable*, James Propsting. 12 constables—viz., 2 each at Carrick, St. Leonard's, and Muddy Creek (West Tamar—1 each at Young Town, King's Meadows, Hadspen, Thorpe, (East Tamar)—Invermay, and Westwood.

CORONERS.—F. Evans, W. Gunn, R. C. Gunn, J. Whitefoord.

JUSTICES OF THE PEACE FOR THE TERRITORY.—J. Atkinson, J. Aikenhead, A. F. J. Bowen, W. Barnes, W. Birch, A. Barrett, W. S. Button, C. Buesnel, T. B. Bartley, J. Crookes, T. Corbett, R. DeLittle, H. Dowling, G. Dean, F. Evans, J. Fawns, W. Gunn, R. C. Gunn, G. Gilmore, J. J. Hudson,

A. Harrap, W. K. Hawkes, W. Johnstone, C. McArthur, G. Maddox, A. M. Milligan, J. L. Miller, C. Nichols, H. F. Neilley, W. K. O'Keeffe, J. Robertson, A. Rose, J. Reid, W. G. Sams, J. Scott, J. R. Scott, J. T. Sale, I. Sherwin, J. Thomson, W. Turnbull, J. Whitefoord, C. J. Weedon, J. H. Westbrook, R. H. Willis, E. Whiting.

COURT OF GENERAL SESSIONS.—(See page 151.)

MINISTERS OF RELIGION.—*Church of England*, Hadspen, Ven. T. Reibey, M.A., Archdeacon; Carrick, Rev. A.N. Mason; St. Leonard's, Rev. F. Brownrigg, B.A.; Windermere and West Tamar, Rev. J. Corra Linn, situate a short distance from St. Leonard's, is much frequented by visitors, and by pic-nic parties from town, on account of its picturesque scenery. *The Devil's Punch Bowl.* on the Penquite Estate (Launceston), is a deep and precipitous gorge, as if cut out of the solid rock. *The Cataract*, Launceston, with its basins above, is much admired, the difficulty of access perhaps adding to the zest with which tourists visit this place. In summer many pic-nic parties resort thither. A new iron single-arch bridge (span of 190 feet) has been erected over the mouth of the Cataract River, and was opened in February, 1864.

The land in this municipality is adapted for cattle, sheep, dairy, and agricultural purposes. Several good stone quarries are to be found, which produce strong and suitable building stone. It also abounds in capital timber. In the south-eastern part called the Blue Hills and the Bluff, the potato is largely cultivated, and the crops are generally fine and abundant. Game is plentiful in the season, and kangaroo and rabbits abound in some parts of the municipality. The Great Lake Road District includes a considerable portion of this municipality on the western side. The gaol and court house are substantial buildings. These buildings having been erected by the Government before the abolition of transportation are happily not so extensively required as formerly, an evidence, we hope, of the gradual disappearance of crime from among us. The Dulverton Lagoon or Lake Frederick, is a fine sheet of water when full, and abounds with wild ducks at times.

The River Mersey empties itself into Port Frederick, which is a safe and commodious port, easy of access to vessels up to 500 tons; rise and fall of tide, 13 feet; ordinary water on the bar at high water, 19 feet; low water 7 feet; spring tides as much as 18 to 20 feet. The entrance is well buoyed and beaconed, and an accident of any kind very rarely occurs. There is a licensed pilot, who also acts as harbor-master. An excellent jetty or wharf has been built at the township of Torquay, and is provided with a tramroad and truck for the accommodation of the shipping. The exports consist of coal, timber, farm produce, fruit, bacon, butter, and cheese.

Port Sorell, *i.e*, port of Burgess, River Rubicon, 12 miles east of the Mersey; about 17 feet on the bar at high water. Exports—Palings and agricultural produce.

Port Formby, River Don, 3 miles west of the Mersey; 10 feet on the bar at high water. Exports—Timber and agricultural produce, coals, &c.

Port of Leith, River Forth, 5 miles west of Port Formby; about 14 feet on the bar at high water. A port of entry. Exports—Timber and agricultural produce.

Port of Ulverstone, River Leven, 5 miles west of port of Leith; about 10 feet on the bar at high water. Exports—Timber and agricultural produce. Parliament has voted £10,442 for the construction of a tramway at this port.

Penguin Creek, 5 miles west of the port of Ulverstone. Exports—Timber and agricultural produce.

River Blythe, 5 miles west of the Penguin Creek; about 10 feet water on the bar at high water. Palings and agricultural produce shipped coastwise.

Good agricultural land in the vicinity of all these rivers can be obtained from the Government at one pound sterling per acre.

A general improvement is discernible throughout the district. Large tracts of land have been scrubbed and brought into cultivation in various localities during the last year. The Mersey and Deloraine Tramway Company are rapidly progressing with the railroad, thereby opening up a large amount of level country and valuable land. The Mersey bids fair to become a thriving and favorite watering place. A brisk trade is carried on from the different rivers to Melbourne, Sydney, New Zealand, Wallaroo, Adelaide, Brisbane, Queensland, Portland Bay, Port Fairy, and Victor Harbor. Three new vessels have been launched in 1866, and several others have been repaired at the three rivers, namely, Mersey, Don, and Rubicon (Port Sorell). Vessels requiring repairs can be accommodated with promptitude, and with reasonable charges, at Torquay and Don. At the latter place a gridiron is constructed, capable of taking up a vessel of 250 tons.

Steam communication will be established between the North Coast and Melbourne, early in the year, and there is also a steamer to trade between the Coast and Launceston.

Messrs. Cumming Raymond, & Co., are the proprietors of a steam saw-mill, extensive coal mines, &c., at the Don, about four miles from Torquay, where they give constant employment to about sixty men. Copper has been found at the Penguin, as well as lead and plumbago. The timber is of the finest quality, and admirably suited for the Indian market and for ship-building.

Inducements for settlement in this district are so numerous that the Editor cannot do better than use the words of a Correspondent, who says:—

"No aboriginal natives (or blacks), no wild beasts, no earthquakes: and the climate might be fairly considered the best in the world—the vicinity of the coast being cooler than in England in summer, and warmer in winter, and there are no continuous high winds."

The schooners "Robert Burns," Hall, master, "Twins," Luttrell, master, and "Kingston," Hopwood, master, trade between Hobart Town and the ports on the East Coast.

The Harbor of Spring Bay admits vessels of large tonnage, to which it affords a safe shelter in all weathers; for this purpose it is second to none in the Australian colonies—it possesses excellent oyster beds from which the Hobart Town market is supplied. Fish are also abundant. Superior freestone abounds close to the shore at Spring Bay, and good limestone is found on Maria Island. The district also possesses excellent timber for building purposes. Prosser's Plains, in this municipality, is noted for the excellence of its dairy produce. A considerable portion of the stone used in the construction of the new Post Office, Melbourne, has been obtained from Spring Bay. Supplies of this stone are being sent to Auckland, N.Z., for the Bank of New Zealand now in course of erection. There is a mineral spring on the Oakhampton Estate in this municipality, the water of which has been analyzed in Hobart Town and found to possess very nearly the same properties as the waters of Cheltenham. Several persons who have taken this water state that they have derived considerable benefit from it. The bridge across the Prosser's River is now complete, and was publicly opened on the 14th December, 1866, and was named "The Meredith Bridge."

LAUNCESTON.

ROYAL INSURANCE COMPANY, FIRE AND LIFE.

Capital—Two Millions Sterling.

Annual Revenue considerably exceeds £400,000.

The estimation in which this Company is held in England, and the perfect confidence reposed by the wealthy classes in its resources, is evidenced by the fact that the Corporation of the City of London, on the occasion of the visit of H.H.R.H. the Prince and Princess of Wales to the City, effected an Insurance for £50,000 on the additions and decorations to the Guildhall, and selected this office, as can be seen in the Money Article of *The Times* of 1st June, 1863, out of fifty-one Companies for this purpose.

LIFE BONUSES DECLARED 1860 and 1865.

Two per cent. per annum on the Sum Insured, said to be the largest ever continuously declared by any Company.

PROFITS DIVIDED EVERY FIVE YEARS.

The enormous capital and Reserve fund of this Company is offered to Insurers in this Colony.

To Insurance of Lives, there is no question so important as that of security, and the estimate in which this Company is held in England is evidenced by the unexampled increase of its business.

J. F. HOBKIRK, Agent,

N. WEETMAN, Sub-Agent,

St. John-street, Launceston.

DERWENT & TAMAR FIRE, LIFE AND MARINE ASSURANCE COMPANY, HOBART TOWN.

ESTABLISHED, 1838. CAPITAL, £100,000 in 2,000 Shares.

Directors :

JOHN BRENT, Esq. | GEORGE SALIER, Esq.
ISAAC WRIGHT, Esq. | H. B. TONKIN, Esq.
CHAS. BAYLEY, Esq.

Trustees :

WM. FISHER, Esq. | J. R. BATEMAN, Esq.

Manager—C. M. MAXWELL, Esq. *Accountant*—ROBERT A. DIXON, Esq. *Solicitors*—Messrs. GIBLIN & DOBSON.

Surveyor—JOHN WATSON, Esq.

Melbourne and Geelong—Messrs. HENTY & Co.

Adelaide—W. SAMSON, Esq.

Agents for the payment of Claims in London—Messrs. RICHARDSON BROTHERS & Co., St. Helen's Place.

FIRE and MARINE RISKS are taken by this Company, and claims for loss or damage upon the latter are made payable in London if required, Policies for the same being granted in triplicate. Parties insured by this office against risk of fire are requested to take notice that annual policies which expire on the 1st February, 1st of May, 1st of August, and 1st of November must be renewed within fifteen days thereafter, otherwise they become void; receipts for the premiums upon such renewal are always ready on those dates at the office of the Company, Stone Buildings, Hobart Town.

Fire Engine in Hobart Town, under the care of Mr. Brown, Bathurst-street; and at Launceston, Mr. Weedon's.

NORTHERN FIRE AND LIFE ASSURANCE COMPANY.

Established in 1836.

Incorporated by Special Act of Parliament.

Capital	£2,000,000
Invested Funds	800,000

Head Offices—London, Aberdeen, Melbourne, and Sydney,

FIRE DEPARTMENT.

This Company grants insurances against Fire on every description of property at the current rates of premium.

LIFE DEPARTMENT

The rates are lower, while the bonus additions already declared and paid to the policy holders are considerably higher than those of most Companies transacting Life Business in Australasia, and will be found peculiarly favorable to young assurers.

The whole of the profits are divided amongst the participating assurers, less a charge of 10 per cent. on premiums for expenses of management. All the advantages of a Mutual Association are thus combined with the security of a Proprietary Company. One-third of the annual premiums under Table I, may remain on credit to be deducted from the sum assured when the policy becomes a claim, or be previously paid off at convenience, interest being charged thereon at the rate of six per cent. per annum,

Or one-half of the first five annual premiums may remain on credit in like manner till the policy becomes a claim.

ENDOWMENT FOR CHILDREN.

In addition to the ordinary Life Business, the Northern Assurance Company extend to their clients the advantage of effecting endowments on the lives of their children; thus securing a certain sum to be appropriated either in completing the education of a child, in paying the preliminary expenses of a professional occupation, embarking in mercantile pursuits, or, in the case of a daughter, as a marriage portion.

Prospectuses, Proposal Forms, Tables of Rates for Fire and Life Assurance and Endowments on Children, with every other information can be obtained upon application at the office of the undersigned.

FRANCIS HOPSON

Has long been celebrated for the Manufacture of

FARMING IMPLEMENTS,

And particularly IRON PLOUGHS, to which Implement he has given his especial attention. They are simple in construction, easy of repair, immensely strong, light in draught, and easy to hold; they are the best ever introduced into the colony, and all that a Farmer could desire as a Plough to till his land. They are also superbly adapted for breaking up New Land, being made in the solid, which excludes the use of bolting or splicing, by which means it cannot be rendered sufficiently substantial.

The following is a List of Cash Prices for F. H.'s Iron Ploughs—One-Horse Plough, £3 10s.; Two-Horse, £5; ditto for two, three, or more horses, £6.

All Implements made by F. H. will be warranted, and at the lowest possible prices.

Also, WAGGONS, DRAYS, and CARTS of all descriptions manufactured in a superior manner, and of best materials.

PLOUGH MOULD BOARDS and TURN FURROWS made from the best models and latest improvements of F.H.'s designs.

Digestive Elixir of Pepsine,

GRIMAULT & CO., CHEMISTS, PARIS.

PEPSINE, the latest scientific discovery of Dr. Condsart, Physician to H. M. the Emperor of the French, is the gastric juice itself, or rather the digestive principle purified, which digests food in the stomach. The ELIXIR OF PEPSINE, which is sanctioned by the approbation of the Paris Academy of Medicine, speedily cures all such diseases, and prevents vomiting during pregnancy.

DISEASES OF THE CHEST !—SYRUP OF HYPOPHOSPHITE OF LIME.—GRIMAULT & Co., Chemists, Paris—Each table spoonful of syrup contains four grains of perfectly pure Hypophosphite of Lime; and as compounded by M. M. Grimault & Co., of Paris, this syrup is the only preparation which guarantees to the medical profession all the properties required in this valuable medicine.

DR. LERAS'S PHOSPHATE OF IRON.—This new ferruginous medicine contains the elements of the bones and blood and iron in a liquid state. It is different from all hitherto offered to the public, is liquid, colourless, and tasteless; it speedily cures cholorosis, pains in the stomach, difficult digestion, dysmenorrhœa, anœmia, and advantageously supersedes carbonate of iron, iron reduced by hydrogen, lactate of iron, the pills of potassiotartrate of iron, and iodide of iron.

NO MORE COPAIBA AND CUBEBS.—GRIMAULT'S CAPSULES AND LIQUID EXTRACT OF MATICO VEGETALIS.—Where all other medicines have failed these preparations will always effect a cure. These ensure rapid and extraordinary cure of severe recent and chronic cases of gonorrhœa. The injection is used in recent and capsules in the more chronic cases.

NEW AND MOST VALUABLE MEDICINES of GRIMAULT AND CO., Chemists to H.I.H. Prince Napoleon in Paris for hitherto intractable and incurable diseases. No more Cod Liver Oil. GRIMAULT'S SYRUP OF IODIZED HORSE RADISH, prepared by GRIMAULT & Co., Chemists, of Paris, according to the certificates of the Physicians of the Paris Hospitals detailed in the printed directions, and with the approbation of several academies, this syrup is employed with the greatest success in place of cod liver oil, to which it is infinitely superior. It never fatigues the stomach and bowels like iodide of iron, and is administered with the greatest efficacy to young children snbject to humors or obstruction of the glands.

DR. BURIN DU BUISSON'S DIGESTIVE LOZENGES AND POWDERS OF THE ALKALINE LACTATES.—The Alkaline Lactates exercise the most beneficial influence over the derangements of digestion, either by their peculiar action on the mucous membrane of the Stomach, or by affording to the latter through their combination with the saliva to the gastric juice a supply of lactic acid, which all English, French, and other physiologists admit to be an essential principle of digestion. Headache, pain in the forehead, hemicrania, gastritis, gastralgia, heartburn, wind in the stomach and bowels, loss of appetite, emaciation, &c. All these soon disappear under the action of the Alkaline Lactates, which may be always had in lozenges or powder.

DR. J. COLLIS BROWNE'S CHLORODYNE

Is the Original and only Genuine.

CAUTION!—Vice-Chancellor Sir W. Page Wood stated that DR. J. COLLIS BROWNE was, undoubtedly, the Inventor of Chlorodyne; that the story of the defendant, Freeman, was deliberately untrue, which, he regretted to say, had been sworn to.—See *Times*, July 13, 1864.

ORIGIN AND HISTORY.—"Chlorodyne" was a name "coined" by Dr. J. Collis Browne, M.R.C.S.L., Army Medical Staff, exclusively to denote a new principle in Medicine discovered by him, which is nowhere described or mentioned in Pharmacopœia or Medical Works.

FIRST INTRODUCTION.—In 1856 Dr. Browne confided the Formula for obtaining and preparing this wonderful principle solely to J. T. DAVENPORT, Pharmaceutist, by whom it was and is solely manufactured, the Formula never having been published or otherwise made known.

This INVALUABLE REMEDY produces quiet, refreshing sleep—relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body—without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite.

"Earl Russell communicated to J. T. DAVENPORT and the College of Physicians that he had received a Despatch from Her Majesty's Consul at Manilla to the effect that CHLORODYNE was the only remedy of service in Cholera."—See the *Lancet*, December 31, 1864.

"CHLORODYNE IN CHOLERA.—The French correspondent of *The Times* called attention on November 14th, 1865, to the fact that during the last five or six weeks the wife of the Rev. Mr. Forbes, the chaplain of the English Church, Rue d'Aguesseau, has gratuitously administered Chlorodyne in between fifty and sixty cases of incipient Cholera, in some where the disease had made considerable progress, and succeeded in arresting it in every instance. On the fact becoming known, the Patentee of the Medicine gave a further liberal supply, which the French Customs passed gratuitously, while the South-Eastern Railway Company declined payment of the carriage. The following is an extract of a letter from Mrs. Forbes to J. T. DAVENPORT:—'Since cholera has declared itself in Paris, I have given away to our poor English upwards of £2 worth of this most valuable remedy, and I am sure you will be gratified to hear that I have not in any instance been disappointed with the result, even in aggravated cases of Indian cholera. I cannot speak too highly of your Chlorodyne (Dr. J. Collis Browne's); and as I daily spend my life in administering to the wants of sick and needy English, I am able to judge from experience.'"

Remedial Action and Uses, Cholera, Dysentery, Diarrhœa, Fever, Ague, Spasm, Colic, Neuralgia.

These exhaustive diseases common in tropical climates are rapidly arrested, and the cold stage in a few moments checked by a timely dose, when warmth and a general glow of the system is established and comfort secured. As a Sedative, Neurotic, and Antispasmodic it is unequalled by any other known Medicine, and not to be surpassed in its specific effects.

CAUTION.—None genuine without the words "Dr. J. Collis Browne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

Sole Manufacturer—J. T. DAVENPORT, 33, Great Russell-street, Bloomsbury, London.

The immense demand enables the Proprietors to reduce the price; it is now sold in bottles, 1s. 1½d., 2s. 9d., 4s. 6d., and 11s.

Coughs, Asthma, and Incipient

Consumption are Effectually Cured by

KEATING'S COUGH LOZENGES.

JUDGED BY THE IMMENSE DEMAND, this Universal Remedy now stands the first in public favor and confidence; this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony, and throughout India and China they have been highly esteemed wherever introduced. For COUGHS, ASTHMA, and all affections of the Throat and Chest, they are the most agreeable and efficacious remedy.

VALUABLE TESTIMONIAL.

Testimonial from COLONEL HEWETT, J.P. and D.L., 3rd Brigade, Cardiff Artillery Volunteers.

Ter. Mab. Ellis, Ponty-Pridd, Glamorgan, May, 1866.

Dear Sir,—I was attacked with a severe cough, which your Lozenges removed in a few days. My servants also by taking your Lozenges were soon cured.

I feel it a duty (to the public) to offer my testimony to their efficacy, which you are at liberty to publish. Yours truly,

To Mr. Thomas Keating. W. HEWETT.

Prepared and sold in Boxes and Tins of various sizes by THOMAS KEATING, Chemist, &c., 79, St. Paul's Churchyard, London. Retail by all Druggists and Patent Medicine Vendors in the World.

N.B.—To prevent spurious imitations, please to observe that the words "KEATING'S COUGH LOZENGES" are engraven on the Government Stamp of each Box, without which none are genuine.

CHILDREN'S WORM TABLETS, KEATING'S

The great Remedy for these disorders in Children can now be administered in the form of a purely Vegetable Sweetmeat, at once agreeable and effective.

From the Rev. J. S. Toft.

Frankton, October 19th, 1859.

My dear Sir,—I am happy to inform you that the WORM TABLETS you kindly sent me have, with the blessing of God, perfectly cured my boy. I esteem it, therefore, an act of pure justice and candour that I should acquaint you with the happy result. You are at liberty to make this statement public for the benefit of others who may be similarly afflicted. With feelings of gratitude, I remain, yours truly,

To Mr. Keating. JOHN S. TOFT.

Prepared and sold in Tins of various sizes by THOMAS KEATING,

Chemist, &c, 79, St. Paul's Churchyard, London, E.C., and retail by all Druggists and Patent Medicine Vendors in the World.

Observe the words "KEATINGS WORM TABLETS" are engraven on the Government Stamp of each Tin, without which none are genuine.

Keating's Persian Insect Destroying Powder.

This powder is quite harmless to Animal Life, but is unrivalled in destroying Fleas, Bugs, Emmets, Flies, Cockroaches, Beetles, Gnats, Mosquitoes, Moths in furs, and every other species of Insects in all stages of metamorphosis.

Sportsmen will find this an invaluable remedy for destroying Fleas in their Dogs, as also Ladies for their Pet Dogs, and sprinkled about the nests of Poultry it will be found extremely efficacious in exterminating those Insects with which they are usually infested. It is perfectly harmless in its nature, and may be applied without any apprehension, as it has no qualities deleterious to animal life. Imported and sold in Packets of various sizes, also in Bottles with Bellows.

THOMAS KEATING,

Chemist, 79, St. Paul's Churchyard, London, E.C.

IMPORTANT CAUTION!

GROSS FRAUDS are now being practised by obscure manufacturers, more particularly in France and Germany—who imitate the labels of A. ROWLAND & SONS' Perfumery. To prevent the substitution of counterfeits for the *genuine* articles, it is requested to purchase only of respectable dealers, and to observe the annexed small copies of A. R. and S.'s labels as they appear round the articles.

ROWLAND'S MACASSAR OIL, for promoting the growth, restoring, improving, and beautifying the human hair. Each bottle has a *Glass Stopper;* instead of the cork, as formerly—all with the *cork* are counterfeits.

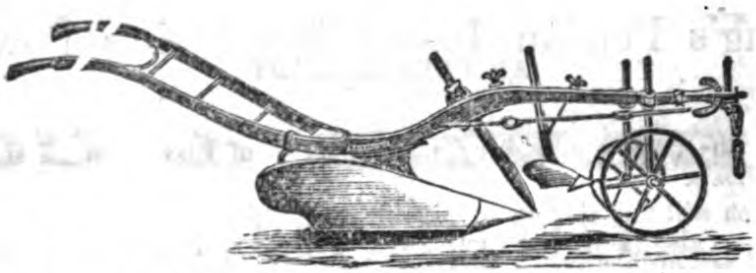

ROWLAND'S KALYDOR realises a healthy purity of complexion, and a softness and delicacy of skin, eradicates freckles, tan, pimples, spots, and discolorations. Each bottle has a *Glass Stopper.*

ROWLAND'S ODONTO, or PEARL DENTIFRICE, imparts a pearl-like whiteness to the teeth, eradicates tartar, strengthens the gums, and renders the breath pure and fragrant.

THE FAMILY APERIENT

ANTIBILIOUS PILLS,

AS PREPARED BY

WEAVER & CO.,

CHEMISTS.

These Pills being prepared from purely *Vegetable Extracts*, are free from the objections usually advanced against Proprietary Medicines (on account of their containing *mineral preparations*). These Pills act as a mild Laxative, regulate the Secretions, produce a healthy action of the Liver, promote Digestion, and do not produce Constipation after their immediate action has ceased.

Prepared and Sold Wholesale and Retail, in Boxes at 1s. 6d. each,

By WEAVER & CO., Chemists,

Wellington Bridge, Hobart Town.

TESTIMONIALS.

Hobart Town, 30th January, 1864.

Dear Sir,—I cannot leave the colony, without acquainting you that I have for many years derived great benefit from your Antibilious Pills, insomuch that, under Providence, I ascribe the vigorous health and green old age enjoyed by me, at over eighty years of age to a free use of that Invaluable Medicine. Indeed, the best proof of the estimation in which your Antibilious Pills are held by me, is that I have taken Forty Dozen of them to England; and I have no hesitation in pronouncing them one of the *best and safest medicines in the world.*

Jas. Duff Mackay.

45, Euston-square, London, September 26, 1865.

Dear Sir,—Many thanks for your prompt attention to my commission,—the Pills came to hand in fine condition. I now request that you will have the goodness *to send me another box containing twenty dozen of the same Antibilious Pills*, per first mail to my address as above.

Jas. Duff Mackay.

To Messrs. Weaver & Co., Hobart Town.

WEAVER'S
RE-CARBONATED
FLUID MAGNESIA.

THE high estimation in which FLUID MAGNESIA has been held for many years, has induced the Proprietors to manufacture the above preparation in a state of great purity, and of uniform strength—thus affording the *Medical Practitioner* an opportunity of administering *this safe and effectual Medicine* with confidence, and giving to the public generally, a remedy which can at all times be used with safety and success, either alone or in combinatio n with the ACIDULATED RASPBERRY SYRUP. As most of the FLUID MAGNESIA commonly sold is of uncertain strength, and seldom contains the quantity represented, MESSRS. WEAVER & CO. have imported apparatus at a great expense, for the purpose of manufacturing FLUID MAGNESIA on a large scale, and with which they can produce a solution of great purity and uniform strength.

DIRECTIONS FOR TAKING "WEAVER'S FLUID MAGNESIA":

For *Indigestion, Heartburn, or Pain after Eating*—Half a wine glassful, and repeat if necessary. For *Urinary Pains, Gout, or Gravel*—Half a wine glassful three times a day. For *Sickness, Irritation of the Stomach, or Headache*—Half a wine glassful mixed with an equal quantity of water, and a dessert spoonful of the ACIDULATED RASPBERRY SYRUP *every three or four hours*, and drank whilst effervescing. For *Costiveness*, either *habitual or occasional*, a wine glassful of WEAVER'S FLUID MAGNESIA taken early in the morning, and repeated if necessary, will prove a safe laxative, the strength being increased by an admixture of the proper proportion of ACIDULATED SYRUP. As a remedy for most of the ailments to which *Children* are liable, this preparation stands unrivalled, as it acts instantly as a corrective, neutralizing acidity, relieving flatulence, and allaying the pain consequent upon it, producing a gentle and healthy action of the bowels. During the oppressive heat of summer WEAVER'S RE-CARBONATED FLUID MAGNESIA mixed with the proper proportion of the ACIDULATED RASPBERRY SYRUP, instantly produces the most *Refreshing Beverage*, in which the flavor of the *Raspberry* is fully developed, and the degree of cold consequent on the formation of the CITRATE OF MAGNESIA, is nearly equal to an *Iced Beverage.*

CAUTION.—*The great strength of this FLUID MAGNESIA renders it necessary to cork the Bottles quickly and securely after opening, so as to prevent crystallization.*

PREPARED ONLY BY

WEAVER AND CO.,
Manufacturing Chemists,
Hobart Town, Tasmania,

And Sold by all Chemists throughout the Colonies, in Bottles at 1s. 6d., 2s. 6d., and 3s. 6d.

TESTIMONIALS

In favor of WEAVER'S RE-CARBONATED FLUID MAGNESIA and ACIDULATED RASPBERRY SYRUP.

Messrs. Weaver & Co. Hobart Town, October 11th, 1866.

GENTLEMEN,—Having examined the FLUID MAGNESIA and RASPBERRY SYRUP manufactured by you, I have much pleasure in reporting that the former contains a larger proportion of the Alkaline Earth than any imported to the Colony; and that the latter contains the real juice of the RASPBERRY. The effervescing draught made by the mixture of the two, forms a most delicious and refreshing beverage, and is possessed of valuable therapeutic qualities.

I have the honor to be, Gentlemen, your obedient servant,
GEORGE TURNLEY, Resident Medical Officer, General Hospital.

I have carefully examined the RE-CARBONATED FLUID MAGNESIA prepared by MESSRS. WEAVER & CO., and testify that it is *decidedly superior to most of the preparations* of this medicine with which I am acquainted. *The quantity of Magnesia it contains is so large* that I do not think for medicinal use it can be surpassed.

Hobart Town, October 16th, 1866. J. W. AGNEW, M.D.

Hobart Town, October 16th, 1866.

I have examined a sample of the RE-CARBONATED FLUID MAGNESIA manufactured by MESSRS. WEAVER & CO., Chemists. I find it to be a very pure and strong solution. and believing it to be prepared only with the greatest care, and of the best materials, *I intend to prescribe it in preference to that of any other maker.* With the ACIDULATED RASPBERRY SYRUP in effervescence it is not only a *very safe and palatable laxative*, but *really a delicious drink for a hot summer's day*, with the genuine *Raspberry flavor*, and superior to anything of the kind which I have ever tasted. I can with confidence strongly recommend both preparations. R. S. BRIGHT, M.R.C.S., Eng., L.S.A.

Elizabeth-street, Hobart Town.

I have much pleasure in testifying to the very superior quality of FLUID MAGNESIA manufactured by MESSRS. WEAVER & CO., Chemists, of this City. It contains as large an amount of CARBONATE OF MAGNESIA as can properly be held in solution without deposit. In combination with their RASPBERRY SYRUP, it forms a most *agreeable cooling drink*, possessing a flavor superior to anything yet produced. A further advantage to the purchaser is, that the bottles contain (in their relative sizes), considerably more in quantity than any other preparation of the kind hitherto sold. JOHN DOUGHTY, M.R.C.S.L.

Mr. Weaver, Macquarie-street, Hobart Town.

SIR,—The samples of GRANULATED IRON and QUININE, &c., and also the FLUID MAGNESIA, I have carefully examined, and with pleasure bear testimony to the *nicety of preparation and convenience of form* for administration. From their effervescing character, they will be much more agreeable than those in ordinary use.
