Advertisements will also be inserted in any newspaper published in the Colonies.

HOMEWARD BOUND PASSENGERS FROM THE COLONIES AND FOREIGN COUNTRIES.

Special arrangements in connection with Passengers disembarking at the Ports of Liverpool, Southampton, Dover, and London, or Gravesend.

Mr. Bate, being previously advised by Telegram or Post, provides Hotel, or other accommodation against passengers' arrival.

Passengers met by Mr. B., or his Agent, upon arrival; luggage taken charge of, or cleared at Custom House.

Baggage, &c., warehoused or forwarded to any destination.

It is only necessary for Mr. B. to be previously advised to London, to insure every attention on his part for those who desire, from ill health or otherwise, to be spared the loss of time and anxiety in looking after their baggage, &c.

Where passengers do not accompany their luggage through to its destination, the keys should be forwarded to Mr Bate by Post, with the particulars of the packages, and their general contents and value.

Luggage and parcels shipped from London or other ports to the Continent, or any part of the World, by the most expeditious and cheapest routes, and insurances effected thereon.

Inquiries made after Missing Relatives and Friends in England and the Colonies.

"THE AUSTRALASIAN"

Is published once a week, and contains Thirty-two pages of Valuable Information and News.

To Residents in the Country this paper is especially valuable, as a large portion of space is devoted to matters affecting agriculture, Sheep-farming, Horse Breeding, Cultivation of Orchards and Gardens, &c.

Sportsmen, Cricketers, &c., will find the sports of the Field noticed at length, including Racing, Boating, Fishing, &c., while ample space will be set apart for a complete report of the principal Matches at the truly national game of Cricket.

Literature and Science will receive a considerable share of attention, while pains will be taken to place the reader in possession of some knowledge of the best Works of the day. Nor will Music and the Drama be denied their fair measure of space.

As a General and Family Newspaper the *Australasian*, by combining every source of interest and utility, as well as by the completeness of its arrangements, is without doubt the best Family newspaper published in the Australian colonies.

PREFACE.

In submitting to the Public 'Walch's Tasmanian Almanac and Guide to Tasmania for 1868,' the Editor avails himself of the opportunity of thanking those persons who have assisted him in its compilation.

The real value of a manual of reference must consist in its accuracy. Every care has been taken to satisfy this indispensable condition in the present volume, and the Editor has been much gratified by the many expressions of satisfaction which he has received from persons who have had almost daily occasion to test the correctness of former issues of this Almanac.

Recent Parliamentary legislation having abolished the Court of Requests and Insolvent Court at Hobart Town, and the work of these Courts having been transferred to the Supreme Court, it has been found necessary entirely to remodel the pages usually devoted to information under the head of Law. This work was kindly undertaken by Mr. F. Stops, of the Attorney-General's office.

As the last sands of the Old Year are running out, the labours of the Editor are drawing to a close—a fitting opportunity for him to wish all his fellow colonists

A Prosperous and Happy New Year.

A SUMMARY OF THE PRINCIPAL ASTRONOMICAL AND METEOROLOGICAL OCCURRENCES.

By F. ABBOTT, F.R.A.S., &c.

The astronomical department of the *Tasmanian Almanac* is, necessarily, limited to a small space. Tables of occultations, eclipses, and other phenomena are omitted to make room for a compendium of more useful information.

ECLIPSES.

In the year 1868 there will be two eclipses, the first an annular eclipse of the Sun, on the 23rd of February, not visible in Tasmania. The central line of this eclipse will cross the Atlantic from the west coast of South America to Central Africa.

The second will be a total eclipse of the Sun, on the 18th August. The southern line of simple contact will be just visible in Tasmania, the greatest obscuration will take place approximately at 4h. 25m. p.m., when but a small portion of the Sun's disc will be obscured. The eclipse will be central from the west coast of Africa, through Hindostan and Borneo to the north coast of Australia.

PROGRESS OF ASTRONOMY.

New Planet, No. 90, Antiope, discovered by Dr. Luther, October 1st, 1866, at 10½ in the evening, by the aid of a chart constructed by himself. It was seen as of the 11th magnitude. The elements have been calculated by Dr. Tietjen, from the observations at Berlin, October 2nd, 10th, and 28th.

New Planet, No. 91, was discovered by Mr. Stephen, at Marseilles, on the 4th of November, 1866.

Mr. Stephen also discovered a telescopic Comet at Marseilles on the night of the 27th of January, 1867, in R.A. 2h. 34m. and N.P.D. 74° 20′, the elements of which have been calculated by Dr. Oppolzer.

Comet 2, 1867.—A faint Comet was discovered by Mr. Tempel, at Marseilles, on the 3rd of April.

Professor C. H. F. Peters, of Hamilton College Observatory, detected another small Planet, No. 92, just before daybreak on the 8th of July, 1867. It was equal to a star of the eleventh magnitude: it has been named Udina. This discovery is noteworthy, as completing the number of one hundred known primary Planets in our Solar System. In the time of our poet Milton there were but six, all of which were known to the ancients. Planetary discovery began in 1781 with Uranus, and the second large member was added to the list in 1846; but prior to the latter date the detection of the minor planets had commenced on January 1st, 1801, by Piazzi, and, as before stated, the last on the 8th of July, 1867, by Peters. In this numeration I have not added Vulcan, the supposed discovery by Lescarbault: it has not been seen since, and the doubt of its reality is increased by M. Liais's scrutiny of the Sun's disc at the time.

METEORIC ASTRONOMY.

Professor Adams has shown that the periodic time of the November meteors must be one of five accurately determined periods. These five periods were 180·0 days, 185·4 days, 354·6 days, 376·6 days, and 33·25 years. The longitude of the node was shown to increase with respect to the ecliptic 1′·711 in a year, which is equivalent to a procession in respect to the fixed stars of 29′ in a cycle of 33·25 years. By computing the secular motion of the node for each of the five orbits, and comparing it with the observed motion, there appears a simple means of deciding which of the five orbits is the true one.

After the November meteors of last year, it was ascertained that four of the smaller orbits out of the five possible ones are incompatible with the observed motion of the node.

Computing, then, the effect of the perturbing action of the planets upon the group, supposing it to have a period of 33·25 years, Professor Adams found that Jupiter increased the longitude of the node 20′ in one revolution, that Saturn increased it 7′, and Uranus increased it 1. The other planets produce hardly any sensible effect, so that the entire calculation increases the longitude of the node, in the period of 33·25 years, about 28′. The observed increase during the same time is 29′. This close result between calculation and observation leaves no doubt of the correctness of the period of 33·25 years for a maximum display of the November meteors.

For two reasons the Meteoroids have been classed with Comets as original strangers to our system, rather than with the Planets, as their orbits seem to be inclined at all angles to the ecliptic, and their velocity requires a long if not a parabolic orbit. To test this question, Mr. Schiaparelli computed the following elements, with which are placed those of the Comet 1862 III, according to the latest determination of Dr. Oppolzer:—

	Elements of August Meteors.	*Elements of Comet* 1862 *III.*
Lon. of perihelion	343° 38′	344° 41′
Lon. of Node	138° 16′	137° 27′
Inclination	64° 3′	66° 25′
Perihelion distance	0° ·9643′	0° ·9626
Motion	Retrograde	Retrograde
Perihelion passage	July 23·62	August 22·9, 1860
Period	—	123·4 years

The following comparative elements are given by Mr. Schiaparelli, on the November Meteors and the Comet, 1866, I.:—

	November Meteors.	*Comet of* 1866.
Perihelion Passage	Nov. 10·092	Jan. 11·160
Lon. of Perihelion	56° 25′·9	60° 28′·0
Lon. of Asc. Node	231° 28′·2	231° 26′·1
Inclination	17° 44′·5	17° 18′·1
Perihelion distance	0·9873	0·9765
Eccentricity	0·9046	0·9054
Semi-Major Axis	10·340	10·324
Periodic Time	33·250	33·176
Motion	Retrograde	Retrograde

The resemblance of these elements are strikingly manifest of some close connection of meteoric with cometary matter.

Unfortunately the evenings and nights in Tasmania on the 13th and 14th of November have usually been very cloudy, but if they had been clear it is scarcely likely, under the present adopted system, that any great display of meteors like those seen on the western side of the globe would have occurred here, as this part of the earth must have passed that portion of space occupied by the node of these bodies before their arrival there. It is evident from numerous observations that 70 miles is about the extreme height at which meteors are known to appear, and when seen low down towards the horizon it may be safely assumed that the point of which a meteor is vertical lies within about 750 miles of the place of observation.

Countries in northern latitudes are more favourably situated for seeing the November star-showers than countries in southern latitudes, the radiant point being raised some 10° N. of the ecliptic. For the same reason, meteors appear more frequent in northern latitudes from July to December, and in southern latitudes from January to June.

It is clear from the foregoing table that Hobart Town has the most equable climate in the list. This arises from its insular position. Heat absorbed by a fluid increases the rate of its evaporation, and the evaporating process reduces the sensible amount of latent heat which the body has acquired. Every accession of temperature brings with it its own remedy ; for at night the process is reversed, radiation takes place more slowly, from which, together with minor causes, in connection with that of sea breezes, the temperature at the surface remains comparatively unaltered, and renders our beautiful island the Queen of the South.

GARDENERS' KALENDAR.—*Fruit Garden*—Where budding is required it may still be performed, choosing, if possible, showery weather. Cut off all unnecessary shoots from young trees, if they are not required for scions in the Spring. Continue to pinch off all lateral shoots from the vines. *Flower Garden.*—Choice carnations may be increased by cuttings and layers with shade and moisture. Choice flowers should be marked for seed. Annuals that have done flowering should be removed, or some will become troublesome weeds. *Kitchen Garden.*—Plant celery in trenches; plant a succession of French beans; sow turnips when the weather is moist; take up early potatoes that are ripe; gather all kinds of seed as they ripen: cut off all runners from strawberries that are not wanted for plants, to give strength to the roots. *Greenhouse.*—Calceolarias, Cinerarias, &c., may still be sown. Geraniums that have done flowering should be cut down, and re-potted as soon as they begin to make fresh shoots. Cuttings struck now will make good plants next year with care. Continue to shade and water as directed last month.

GARDENERS' KALENDAR.—*Fruit Garden.*—But little is required in the fruit garden this month, besides attending to the buds. Strawberry runners should be kept moist to form robust plants in time for transplanting in the first Autumn rains. —*Flower Garden.*—Cut off all flower stalks as soon as done flowering, except those required for seed. When seed is not required, the flowering season is prolonged by cutting seed off as soon as formed. Verbenas, pentstemons, petunias, and other herbaceous perennial plants may now be propagated by cuttings. Encourage the asters chrysanthemums, dahlias, &c., by frequent watering. You may use the rake now to preserve a neat appearance. *Kitchen Garden.*—In showery weather some vegetables may be sown to come in during the winter. Mark out plants of the cabbage tribe to be permitted to run to seed. Earth up peas and potatoes; hoe and stir the surface wherever necessary, among all descriptions of crops. *Greenhouse.*—As the principal displays of this season are over, we must turn our attention to preparation for the succeeding, by propagating, by seed and cuttings, and preserving such old plants as are desirable for another year. Now is the time for forming plants of the early flowers too frequently neglected by amateurs, until the flowering season. Sow mignonette for winter flowering.

GARDENERS' KALENDAR.—Prepare borders for forming new beds of strawberries on the first approach of rain; and the ground intended to be planted with fruit trees should now be well worked. Collect the leaves as they fall and convert them into manure. *Flower Garden.*—Continue the general directions given for last month, and sow seed of perennial and annual flowers for Spring flowering as they ripen. *Kitchen Garden.*—Sow cabbage, cauliflowers, lettuce, spinach, and onions for early use. Sow turnips, thin out those sown last month. Earth up celery, take up potatoes, and house onions when well dried. *Greenhouse.*—Continue the general directions, given for last month.

St. Patrick's Day.—The shamrock is said to be worn by the Irish, upon the anniversary of this their tutelar saint, for the following reason. When he preached the gospel to the Pagan Irish, he illustrated the doctrine of the Trinity by showing them a trefoil, or three-leaved grass, with one stalk; which, operating to their conviction, the shamrock, which is a bundle of this grass, was ever afterwards worn upon this saint's anniversary to commemorate the event.

GARDENERS' KALENDAR.—*Fruit Garden.*—Planting vines and fruit trees may be commenced towards the latter end of the month; in the meantime keep the ground well worked in dry weather, and dig between the old trees as soon as the leaves have fallen. Keep the surface of the ground loose between the rows of newly planted strawberries, and dig between the rows of the old ones. *Flower Garden.*—Plant bulbs of nearly all the hardy species in dry weather, and dig and manure borders between shrubs and herbaceous plants, and form new ones where required, leaving the ground rough. Carnations, &c., that have been propagated during the Summer may now be formed into beds, and general planting of shrubs, roses, &c., towards the end of the month; examine the haunts of slugs, as every one destroyed now will save considerable trouble and annoyance in the Spring. *Kitchen Garden.*—Continue to sow and plant a succession of vegetables, salading, &c., dig and manure all spare ground in dry weather. Dress asparagus beds for the winter. *Green house.*—Cuttings of geraniums that have struck root should be potted into small pots, to be shifted into larger as they advance in growth, the same rule applies to cinerarias, calceolarias, &c., give air freely during fine weather, and water moderately during damp or wet weather. Gloxinias, achimenes, and other bulbous plants that have done flowering, should be allowed to dry off, primulas and cyclamens that are coming into bloom should be kept near the glass and watered freely.

GARDENERS' KALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be proceeded with in dry weather, taking care to leave the surface of the ground loose after the operation. The general pruning of fruit trees, vines, &c., may be commenced towards the latter end of the month, especially such as are in a weak state of growth. Root-prune where necessary. All the ground should now be dug up roughly, burying the leaves and what manure can be afforded. *Flower Garden.*—Now is the time for putting in order all flower borders, shrubberies, &c., by pruning the shrubs and roses, trimming the edges, dividing and regulating the herbaceous plants, digging the borders and thereby creating a neat appearance during the winter months, and obviating the necessity of digging amongst the roots of plants in the Spring; it likewise breaks into the favorite haunts of the slugs, whereby they are more easily found and destroyed; where new borders are to be formed, and planted it should now be done. *Kitchen Garden.*—Plant out cabbage, cauliflowers, and lettuce. Sow peas, broad beans, and carrots, for early use. Sow spinach and onions. Make plantations of rhubarb and asparagus. *Greenhouse.*—But little can be done in the greenhouse now beyond giving plenty of air on all favorable occasions, guarding against night frost, watering when the earth becomes dry, and keeping the plants free from vermin and dead leaves. Keep all growing plants as near the glass as possible.

GARDENERS' KALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be completed this month; should it not be convenient to do so, the trees intended to be planted next month, or later, should now be lifted and laid in by the heels, which will keep them back, always choosing dry weather for the operation; stir the ground around those planted previous to heavy rains as soon as it is dry enough for the purpose. All pruning should be finished this month. *Flower Garden.*—Continue the general directions for last month, and complete the planting of deciduous trees and shrubs. Keep the ground between the bulbs free from weeds. *Kitchen Garden.*—Plant early potatoes, &c., in a warm dry border. Early peas and beans might be sown once a fortnight, or three weeks, from this time forward. Sow the main crops of onions and carrots, also some radishes, lettuces, spinach and early cabbage. Propagate plants which are increased by rooted off-sets. Transplant for seed, if not done in autumn, carrots, turnips, beet, celery, parsnips, &c. *Greenhouse.*—Continue the general directions for last month. Fuchsias that have shed their leaves should now be prepared for the following season by cutting back and re-potting them. Geraniums that are growing tall and thin should have the ends of the shoots pinched off, which will make them more bushy and compact. Repot cinerarias and calceolarias as soon as the present pots are filled with roots. This rule will apply to growing plants generally.

GARDENERS' KALENDAR.—*Fruit Garden.*—Planting and pruning vines and fruit trees, if not finished, should be done immediately. Vine cuttings may be planted. Prepare for grafting, the proper time is as soon as the stocks are well started. Raspberry and strawberry borders may still be prepared, and new ones formed, if not already done. Look carefully over the apple trees, and dress the parts affected by the *Aphis*, or American blight. Manure freely the vines and fruit trees that are weakly. *Flower Garden.*—Flower beds should now be manured and dug; edgings formed, trimmed, and repaired; herbaceous plants divided; biennials planted. Roses may now be pruned, and most sorts increased by cuttings. Seeds of hardy annuals may be sown in the borders; tender ones may be sown on a moderate heat for transplanting. Choice dahlias should be placed in a gentle heat, for the purpose of propagating by cuttings. Verbenas, shrubby calceolarias, pentstemons, &c., may be increased by the same means. *Kitchen Garden.* — Asparagus: earth up, plant, sow. Beans, broad: plant. Beet, red: plant out for seed. Cabbage: transplant, hoe, and sow. Carrots: sow. Cauliflower: too early to sow. Celery: too early to sow. French beans; sow end of month in warm border. Garlic; plant. Jerusalem artichoke: plant. Leeks: sow. Lettuces: plant out and sow for succession. Onions, must be finished sowing this month. Potatoes, plant the early kind. Peas sow and earth up. Turnips, sow. Radish. sow. Spinach, sow. Vegetable marrow, sow end of month in sheltered places. *Greenhouse.*—Admit air freely in fine weather; re-pot geraniums, cinerarias, calceolarias, &c, as the roots advance to the sides of the pot. Fuchsias that have been dormant should have their roots reduced and be re-potted in fresh soil. Cacti and other plants may be watered more freely than in the depth of winter. Sow seeds of balsams, cockscombs, egg plants, &c., &c., on a gentle heat; keep all plants clear of *aphis*, scale, &c., by washing and fumigation.

GARDENERS' KALENDAR.—*Fruit Garden.*—The principal work this month is the grafting, which is performed in various ways, the principal aim of which is to bring the bark of the stock and the scion to fit closely, loosen the ground with a hoe after the operation; the same between vines and fruit trees in general, in dry weather mulch raspberries. *Flower Garden.*—Seeds of annuals, biennials, perennials, and shrubs should now be sown; tender ones raised in heat may be transplanted towards the end of the month. Dahlia roots may be planted, propagate choice varieties as recommended last month; take the cuttings out of heat as soon as they have struck root, and protect them from the frost till it is safe to plant them; lay shrubs that are difficult of propagation by other means; keep the hoe at work in dry weather, but do not use the rake, except for covering small seeds. *Kitchen Garden.*—Asparagus beds, keep free from weeds Sow red beet and French beans. Transplant cabbage, transplant lettuce. Sow carrots, celery, turnips, spinach, radishes, vegetable marrow, scarlet runners. Plant potatoes, sow peas, and earth up those that are ready. Cucumbers may be sown in ridges. Transplant onions, keep the hoe among the crops (as the weeds will grow fast), it will assist the crops in their growth. *Greenhouse.*—Follow the directions for last month. The plants in flower will require watering copiously and shading from the mid-day sun.

GARDENERS' KALENDAR.—*Fruit Garden.*—Look over the vines and rub off all superfluous buds. Disbud wall trees. Destroy caterpillars on fruit trees. Keep the surface of the ground loose with the hoe at all convenient seasons, whether there be weeds or not. Place a layer of fresh stable manure between the rows of strawberries; it will increase the size of the fruit and render it free from grit or sand. *Flower Garden*—Seeds of Annuals may still be sown. Tender species raised under shelter may be transplanted into the borders, choosing showery weather for the operation. Dahlias from seed and cuttings, and other tender plants, may be planted about the middle of the month. Mark the flowers of choice bulbs, etc., with the view of collecting their seed. Stake and tie the shoots of herbaceous and other plants as they advance. Where quality, rather than quantity of flowers is the object, the number of flowering shoots should be reduced. Destroy slugs, *aphis*, scale, bugs, etc., or they will destroy your choice plants. *Kitchen Garden.*—Continue to sow and plant successional crops. Earth up potatoes and peas, sow all kinds of broccolis, Scotch kale, savoys and cauliflowers. Sow tomatos and capsicums. Thin early sown carrots, turnips, and spinach, and keep them free from weeds. *Greenhouse.*—Azaleas, camellias, ericas, etc., that have done flowering, should be taken out of the house and placed in a shady situation, towards the end of the month. Water sparingly the bulbs of achimenes, gloxinia, gesnera, etc., until they appear above the ground. Re-pot all fast-growing plants as often as the pots fill with roots. Use the syringe in the evening during sunny weather; guano or manure water occasionally will assist flowering plants whose pots are full of roots. Wage continual war against the insects.

GARDENERS' KALENDAR.—*Fruit Garden.*—Stop all shoots of vines, except the leaders at one joint beyond the fruit, and lay them to their trellis or supports; pinch off all unnecessary shoots in young fruit trees. Vines, newly planted fruit trees, &c., will be much benefited by a mulching of half decomposed stable manure. Rub off the shoots from stocks that have been grafted, and remove the clay and binding as soon as they have joined, which may be known by their shooting vigorously; lay as many strawberry runners as may be required for new plantations, and remove all others. *Flower Garden.*—The planting of dahlias and tender annuals if not done, should be immediately; support all tall growing flowers as they advance; keep the surface of the ground loose with the hoe; clip and trim all edgings except roses; mark choice flowers for seed. *Kitchen Garden.*—Thin and hoe red beet, carrots, and all other spring crops. Plant out capsicums and tomatos. Prick out celery in small beds from the seed beds. Earth up peas, French beans, and potatoes. A succession of peas and French beans may be sown. *Greenhouse.*—sow seeds of primula, cineraria, calceolaria camellia, geranium, &c., give plenty of air and water and shade during sunny weather.

GARDENERS' KALENDAR.—*Fruit Garden.*—Where the vines have not been attended to, as directed last month, they should be done immediately, and as the lateral shoots appear they should be taken off, to within one joint of the main shoots. Where young apple or plum trees are infested with the red spider they should be frequently syringed with tobacco water, or soft soap well diluted. Brush off the American blight as it appears on the young shoots of the apple trees. Peaches, &c., on walls will now require frequent attention. Budding may be performed towards the latter end of the month. *Flower Garden.*—Dahlias, hollyhocks, &c., will now require frequent attention. Where fine show flowers of dahlias are required, one stem alone should be allowed to grow, and the lower lateral shoots removed from that, and the number of flower buds reduced, a liberal mulching will greatly promote their growth during the approaching hot weather. Bulbs of choice hyacinths, tulips, ranunculuses, anemones, &c., should be taken up and stored as they become dormant. Neatness is now the general order. *Kitchen Garden* —Earth up French beans and peas, and scarlet runners, a succession may be planted, prepare trenches and plant celery; transplant all kind of brocolis and cauliflowers, savoys, and cabbage for winter use; tomatos and capsicums, if not put out, should now be done; vegetable marrows may yet be sown; sow turnips this month, and earth up late potatoes. *Greenhouse.*—Cinerarias, calceolarias, etc, that are intended to be kept for another season should be removed into a shady situation as soon as they have done flowering. Fuchsias, geraniums, &c., that are flowering may be watered occasionally with liquid manure; shade and water freely during hot weather.

GREAT BRITAIN AND IRELAND.

REIGNING SOVEREIGN AND FAMILY.

VICTORIA I., Queen of Great Britain and Ireland, born at Kensington Palace, London, May 24, 1819; the daughter of Edward, Duke of Kent, fourth son of King George III., and of Princess Victoria of Saxe-Saalfeld-Coburg, widow of Prince Emich of Leiningen. Ascended the throne at the death of her uncle, King William IV., June 20, 1837; crowned at Westminster Abbey, June 28, 1838; Married, February, 10, 1840, to Prince Albert of Saxe-Coburg-Gotha; widow, December 14, 1861.

Issue:—1. Princess *Victoria Adelaide Mary Louisa*, born Novomber 21, 1840; married, January 25, 1858, to Prince Frederick William, eldest son of King William I. of Prussia. Issue:—Three sons and two daughters, namely, Frederick William, born January 27, 1859; Charlotte, born July 24, 1860; Henry, born August 14, 1862; Francis, born September 15, 1864; died March 9th, 1866; a daughter born 12th April, 1866.

2. Prince *Albert Edward*, Prince of Wales and Earl of Dublin, heir-apparent, born November 9, 1841; married March 10, 1863, to Princess Alexandra (born December 1st, 1844,) eldest daughter of Prince Christian of Schleswig-Holstein-Sonderburgh-Glücksburg, present King of Denmark. Issue, two sons and one daughter. Albert Victor Christian Edward, born January 8, 1864; George Frederick Ernest Albert, born June 3, 1865; Louisa Victoria Alexandra Dagmar, born February 20, 1867.

3. Princess *Alice Maud Mary*, born April 25, 1843; married July 1, 1862, to Prince Louis, of Hesse-Darmstadt. Issue three daughters, Victoria, born April 5, 1863; Alice, born Nov. 1, 1864:—born July 11, 1866.

4. Prince *Alfred Ernest Albert*, born August 6, 1844; entered the Royal Navy, August 31, 1858; created Duke of Edinburgh, 1866.

5. Princess *Helena Augusta Victoria*, born May 25, 1846; married to Prince Christian of Augustenburg, July 5, 1866.

6. Princess *Louise Caroline Alberta*, born March 18, 1848.

7. Prince *Arthur William Patrick Albert*, born May 1, 1850.

8. Prince *Leopold George Duncan Albert*, born April 7, 1853.

9. Princess *Beatrice Mary Victoria Feodore*, born April 14, 1857.

Aunt of the Queen.—Princess *Augusta*, born at Cassel, July 25, 1797, the daughter of Landgrave Frederick of Hesse-Cassel; married, May 7, 1818, to Duke Adolphus of Cambridge, youngest son of King George III.; widow, July 8, 1850.

Cousins of the Queen.—1. *George V.*, late King of Hanover, born at London, May 27, 1819, the son of Duke Ernest Augustus of Cumberland, fifth son of King George III. 2. Prince *George*, Duke of Cambridge, born at Hanover, March 26, 1819, the son of Duke Adolphus of Cambridge, sixth son of King George III. 3. Princess *Augusta*, sister of the preceding, born at Hanover, July 19, 1822; married, June 28, 1843, to Grand-duke Frederick William of Mecklenburg-Strelitz. 4. Princess *Mary*, sister of the preceding, born at Hanover, November 27, 1833; married Prince Teck, of Wurtemburg, June 12, 1866.

The Queen reigns in her own right, holding the crown both by inheritance and election. Her legal title rests on the statute of 12 and 13 Will. III. c. 3, by which the succession of the crown of Great Britain and Ireland was settled, on the death of King William and Queen Anne, without issue, on the Princess Sophia of Hanover, and the "heirs of her body, being Protestants." The inheritance thus limited descended to George I., son and heir of Princess Sophia, she having died before Queen Anne; and it has ever since continued in a regular course of descent.

Coroners hold their commissions from the Governor, and their jurisdiction extends throughout the colony. Coroners are Magistrates, and they can exercise all the Common Law powers of Justices of the Peace. They are entitled to a fee of twenty shillings for each inquest, and to an allowance of sixpence per mile for every mile travelled away from home to an inquest. They are exempt from service on juries or militia.

MAGISTRACY.

A LIST OF JUSTICES OF THE PEACE FOR THE ISLAND OF TASMANIA AND ITS DEPENDENCIES.

Shewing their official appointments, residences, nearest Post-stations thereto, and date of commission.

Messrs. T. Westbrook and Paterson are thus acting at Kangaroo Point; Messrs. Smith and Spurr at North West Bay and Oyster Cove; Messrs. Attwood and Daldy at Three Hut Point; Mr. Page at Oatlands; Mr. C. O. Abbott at Sandy Bay. The Hon. R. Q. Kermode and Mr. H. Dobson also belong to the Association.

The Church of England has 95 places of worship, estimated to seat 15,304 adults. Official returns for 1865 shew that the number of communicants was 2,232, the offertory and other Church collections amounted to £4,152 10s. 7d.; the baptisms were 1,467; the marriages 220, and the burials 698. The parochial church lands are returned at 2,012 acres. The episcopal endowment estate 1,200 acres; the archdeaconry endowment 30 acres and 7 houses; the college estate 3,200 acres.

Church Synod.—The governing body of the Church of England is the Synod, established in 1858, under the Act 22 Vic., No. 20, and consisting of the bishop, all licensed clergymen, and lay communicant representatives elected by the congregations; no act being valid unless it carries the consent of all three orders. The Synod must meet once at least in every year, and a dissolution and fresh election of lay members must take place every three years. The appointment of clergymen to vacant cures is made under regulations laid down by the Synod, by which, at present, the appointment belongs to the bishop in twenty-four cases, and to Boards of Patronage (each consisting of at least seven members of Synod) in sixteen cases. To the Synod also, since 1st January, 1863, belongs the duty of administering the annual sum (£8,770) assigned to the Church of England under the "State Aid Distribution Act." The present officers of the Synod are:—Trustees of Church property, Ven. Archdeacon Reiby, the Hon. R. Q. Kermode, M.L.C., and W. S. Sharland, M.H.A.; Church Advocate, Hon. W. L. Wesleyan Colonial Mission Fund.—Treasurers, Rev. W A. Quick, and J. Crookes; Secretary, Rev. J. Hutchison.

Wesleyan Foreign Missions.—Tasmanian Auxiliary.—Treasurer, the Hon. I. Sherwin, M.L.C.; Secretary, Rev. Spencer Williams.

Horton College, Ross.—This College is the result of contributions by friends of education in Tasmania; the late Captain Horton, of Somercotes, Ross, having commenced the enterprise by a gift of twenty acres of land as a site for the College, and the contribution of £1000.

The object contemplated is to afford to the sons of Protestants the advantage of a sound general education in connection with a Christian home, and careful, moral, and religious training.

The foundation stone of the College was laid in January, 1852. In October, 1855, under the presidency of the late Rev. John A. Manton, the first pupils were received. Since that period the average number of students has been about fifty; up to the present time about 250 have been entered on the College books. The entire cost of the building and furnishing was about £4,500. To this sum an expenditure of £2,200 has been lately added in additions and alterations, which comprise a dining-hall, school-rooms, class-rooms, library, lavatory, and dormitories, with a residence for the Head Master.

The examinations which have been conducted under the "Tasmanian Council of Education and Scholarships Act" have given to Horton College ten Associate of Arts Degrees, three Certificates of Merit, three Gold Medals, and twelve Prizes of Books.

President of the College, Rev. W. A. Quick; Head Master, W. W. Fox, B.A.

Independents or Congregationalists.—*Hobart Town, Brisbane-street*, Rev. W. C. Robinson; *Davey-street*, Rev. George Clarke; Rev. J. Maxwell, (assistant minister); *Bathurst-street*, Rev. J. W. Simmons. Lay Agent of Colonial Missionary Society, Mr. R. E. Dear. *Launceston, Tamar-street*, Rev. Charles Price; *Prince's Square*, Rev. Wm. Law; *Green Ponds*, Rev. W. Waterfield, and Rev. H. Kennedy; *New Town*, Rev. John Nisbet; *Pontville, Bagdad, Bridgewater, Broadmarsh, and Hunting Ground*, Rev. J. W. Shipphird, assisted by Lay Agents of the

Colonial Missionary Society; *Kangaroo Point, Clarence Plains, and Muddy Plains*, Rev. James Maxwell; *River Don, the Forth, and the Leven*, Rev. W. Mathieson. The following places are also occupied by the Agents of the Colonial Missionary Society:—Southern Branch: Bream Creek, Cambridge, Carlton, Constitution Hill, Franklin (Huon), Hestercombe, Geeves Town, Richmond, Shipwright's Point, Tea Tree, and Victoria, (Huon). Northern branch: New Town (Launceston), Prospect Village, and Sandhill.

The several ministers and churches of the Independent body constitute the *Congregational Union and Mission of Tasmania*, which is established on the following principle:—"The Union of Congregational Churches and Ministers in Tasmania is founded on a full recognition of their distinctive principle, namely, the scriptural right of each church to maintain perfect independence in the government and administration of its own particular affairs." The following are the objects of the Mission:—1. "To promote the spread of the Gospel. 2. To cultivate brotherly love and co-operation among the associated churches. 3. To diffuse information on the principles of the Congregational body. 4. To obtain statistics relative to the condition and work of the churches. 5. To establish fraternal correspondence with other Churches and Unions. 6. To address, when expedient, a circular letter to the Churches of the Union. 7. To bring into the colony accredited Congregational Ministers, to educate young men for the ministry, and to employ Lay Preachers. 8. To maintain our civil rights."

The Congregationalists have, under the management of Trustees, a Ministers' Provident Fund in aid of any ministers who, through sickness or age, may be incapacitated for public labor,—also a Ministers' Widow and Orphan Fund,—the former of these funds amounts to upwards of £700, and the latter to £400, invested in government debentures.

Baptists.—*Hobart Town, Harrington-street* (vacant). Service conducted by Mr. J. W. Lindsay, and Lay Members of the Church. *St. James' Hall, Lower Harrington-street*, services on Sunday at the usual hours, Mr. James Allen officiating minister. Sunday-school attached. *Launceston, York-street*, Rev. F. Hibberd. *Deloraine*, Mr. Jesse Pullen. *Perth* (vacant). *Green Ponds*, supplied by Ministers and Lay Preachers of different Protestant denominations.

The Rev. H. Dowling, who had been a pastor of a Baptist Chapel at Colchester, Essex, for twenty-one years, arrived in Hobart Town in 1835, in the character of a Baptist missionary, but not sent by any church or society. He founded the churches at Hobart Town and Launceston, and has taken active part in the foundation of the other churches. For upwards of thirty years Mr. Dowling filled the office of pastor of the Baptist Church, York-street, Launceston. In 1867, at the age of eighty-seven years, he retired from the active duties of his sacred office.

Primitive Methodist Church.—*Hobart Town. Collins-street*, Rev. J. Smith; *Launceston, Frederick-street*, Rev. J. Long; *Longford*, Rev. W. H. Walton; also eleven other preaching stations occupied by Lay Preachers.

Copy of particulars	One shilling where the amount claimed does not exceed ten pounds Two shillings in all other cases.
Taking recognizances, bond, or security for costs	Threepence in the pound.
Enquiry into sufficiency of sureties	Threepence in the pound.
For every levy	One shilling where the amount claimed does not exceed ten pounds. Two shillings where such amount exceeds ten pounds and does not exceed twenty pounds. Three shillings where such amount exceeds twenty pounds.

Poundage, except where otherwise specified in this schedule, shall be estimated on the amount of the claim.

All fractions of a pound, for the purpose of calculating poundage, shall be treated as an entire pound.

Where the plaintiff recovers less than the amount of his claim so as to reduce the scale of costs, he shall pay the difference, unless the reduction is caused by a set-off.

In cases of execution of writs of *fieri facias*, the actual expenses necessarily incurred by the bailiff in respect of such execution shall be allowed by the Court as costs in the cause.

In cases of interpleader the summons to the bailiff shall be issued gratis in the first instance,—the poundage for hearing be estimated on the value of the goods claimed, which, in case of dispute, shall be assessed by the Court,—and the costs of the summons, estimated on the above-mentioned value, and actual expenses incurred by the bailiff in keeping possession of the goods, be included in the general costs which may be awarded by the Court at the hearing.

No increase of fees shall be made by reason of there being more than one plaintiff or defendant.

GENERAL REMARKS.

Ship and Foreign Letters and Packets received into the Colony are delivered free, providing they bear the necessary stamps from the place whence they are sent.

Newspapers must not bear any mark, or contain any writing beyond the address, or they will be detained, and the sender become liable to a penalty not exceeding £10.

Letters or Packets insufficiently stamped are detained, and the names exhibited daily at each Post Office, and if not claimed, will be forwarded to the Secretary of the Post Office, opened, and returned to the writers.

The name of the Post Office, or mail receiving house, to be invariably inserted in the address of letters.

In all cases the ordinary and extra postage to be prepaid in Tasmanian Postage Stamps.

The mails for Great Britain, &c., are forwarded monthly by the overland route, closing at Hobart Town at 4 p.m., and at Launceston at 6 p.m., on 25th of each month; when that day falls on Sunday, they are made up on 24th. Registered letters must be posted before 3 p.m.

The boxes for the reception of letters and newspapers for England, foreign countries, and the colonies, are closed at 4 p.m. precisely. Too-late letters and newspapers can only be received, on payment of the usual fees, up to 4'30 p.m. After that hour letters for England *viâ Marseilles only* can be posted up to 5·45 p.m., upon payment of 1s. fee on each letter *(this refers to Hobart Town only.)*

The French transit rate on letters and newspapers for England *viâ* Marseilles, and the British postage on letters and newspapers for British Colonies and foreign parts transmitted *viâ* the United Kingdom, must be prepaid by means of Tasmanian postage stamps.

Mails for Sydney, New Zealand, Queensland, Twofold Bay, Port Albert, and Adelaide, are made up and forwarded *viâ* Melbourne by every steam vessel departing from Hobart Town or Launceston. The Tasmanian Steam Navigation's Company's vessels leave Launceston for Melbourne on or about every fifth day. The same company's steamers leave Hobart Town for Melbourne on or about every tenth day. The T.S.N. Co.'s steamer "City of Hobart" leaves Hobart Town for Sydney every fortnight.

All ship mails to be forwarded *viâ* Launceston (except those on *English Mail Days* as above), close at Hobart Town at 5 p.m. Too-late letters received until 5·30 p.m. on payment of the usual fee of fourpence.

ENGLISH MAIL SERVICE *VIA* SUEZ.

From England.—A vessel is to leave Southampton on the 20th of every month, and to reach Alexandria on the 3rd or 4th of the month following. Mails *viâ* Marseilles to leave London on the 26th, and reach Alexandria on the 4th or 5th of the month following. To arrive in Melbourne on the 12th, and at Launceston on the 13th, of the second calendar month succeeding, with the exception of those leaving in August and January, to arrive in Melbourne on the 11th and at Launceston on the 12th. Time, *viâ* Southampton, to Melbourne, 54 days; *viâ* Marseilles, 48 days.

To England.—A vessel to leave Launceston on the 26th of each month, and Melbourne on the 28th of each month at two p.m. Mails to arrive in London, *viâ* Marseilles, on the 13th, and *viâ* Southampton on the 19th of the second calendar month succeeding.

Offices.—Public Buildings, Hobart Town and Launceston.

The Commissioners of Immigration have issued the following Regulations for persons desirous of introducing servants or relatives from the United Kingdom, under the Bounty system adopted on the 21st December, 1858:—

Immigrants introduced to Tasmania at the public expense, and permanently resident therein, who may wish to bring to the colony any relative from the United Kingdom, being a British subject, and being either a mechanic, domestic servant, or laborer, should apply to the Immigration Agent at Hobart Town or Launceston, in writing; and Bounty Tickets will be issued (subject to the approval of the Commissioners) on the following rates of payment by the applicant:—

Family Ticket for man, wife, (or either of them) with the children under 12 years at time of embarkation	£15
Single Male Ticket	10
Single Female Ticket	5

The Tickets should be sent to the Agent appointed by the applicant in the United Kingdom, who will take the proper steps for procuring passages in vessels sailing direct to Hobart Town or Launceston, or to Melbourne, whence the emigrants will be forwarded to their destined port, and will in all cases be provided for at the expense of the ship owners until their friends may be enabled to receive them, provided that the period for such accommodation does not exceed fifteen working days from date of arrival.

In the event of the parties sent for declining to emigrate, the tickets should be returned to the applicant, who can have the payment refunded to him on presenting them to the Immigration Office.

Bounty Tickets will be considered out of date, if not presented for payment of passage monies within 18 months from the date thereof.

Half passage money will be paid in the event of a death during voyage.

Full rates payable on Bounty Tickets by the Board of Immigration.

For each adult	£16
For each child between the age of 3 and 12	8
For each child under 3 years	4

LAUNCESTON MARINE BOARD.

(Established by Act of Parliament, 22nd December, 1857.)

Office, Lower George-street, Wharf; Board Room, Public Buildings. Wardens, R. Green (Master Warden), M. Gaunt, C. J. Weedon, the Mayor, and Collector of Customs *ex officio*. Secretary, G. M. Eddie. Harbor Master, W. N. Ling. Pilots, G. Foster, J. Waterland, D. Stewart, B. Scott, G. Smart. Extra Pilot, C. Begent. Boat's Crew, Low Heads, four men and one coxswain. Boat's Crew, Launceston, two men and one coxswain.

Steam Tug, Tamar,—Master, G. Smart.

Shipping Master, Emigration Agent, and Marine Surveyor, Captain E. P. Tregurtha. *(For scale of charges see page 95.)*

Lighthouse, Low Head, A. C. Rockwell, Superintendent.

No steamer, other than the Tamar tug, allowed to tow on the river except licensed (fee £25,) under penalty. Cases of emergency exceptional.

The rules and regulations pertaining to the port are published by the Board, and contain the pilotage rates, harbor dues, scale of towage, signals for steam tug, regulations respecting lights, wharfage rates, steam tug and boat licenses, boatmen's fares, quarantine act, sailing directions, &c. This book is supplied to all vessels visiting the port.

Quarantine Ground—Western Side, Middle Island, in the river Tamar; day signal, yellow flag, of six breadths of bunting, at main topmast head; at night a signal lantern shown from the same position.

Health Officer, George Town, Dr. Richardson.

PILOTAGE RATES, LAUNCESTON.

For every sailing vessel liable to pilotage, 1s. per ton inwards, and the same outwards.

For every steam vessel liable to pilotage, 8d. per ton inwards, and the same outwards.

For every day that a pilot is detained on board any vessel whilst under quarantine, or by an act of the master, 15s. per day.

No charge for a single act of pilotage to exceed thirty pounds, or be less than four pounds. Vessels not exceeding fifty tons to be exempt, unless the master requires the services of a pilot and employs one, in which case the pilotage shall be four pounds. Vessels that do not have the services of a pilot until they pass Whirlpool Reach either going up or down the river shall be charged only half pilotage.

Colonial traders that have been towed to the Heads, by the Tamar tug, and require the services of a pilot to take them to sea, to be charged ten shillings and sixpence if 100 tons and under, and twenty-one shillings if over 100 tons.

FREE PORT.

Vessels seeking freight, or putting in from stress of weather, and not breaking bulk, are exempt from pilotage, light dues, and all port charges whatever, unless they require the services of a pilot and employ one; in which case, if they anchor below George Town, one-third pilotage only will be charged.

HARBOR DUES.

One penny per ton inwards, and the same outwards, and for each removal whilst in port, one penny per ton.

LIGHT DUES.

For every steam vessel and every vessel employed in the coasting trade, on entering inwards at the Customs, four-pence per ton. For every other vessel entering inwards at the Customs, six-pence per ton.

TOWAGE RATES, TAMAR TUG.

All vessels under 150 tons, £15; from 150 to 250 tons, 2s. per ton. Every additional ton up to 500, 1s. per ton. Every ton beyond 500, 6d. per ton.

From Point Rapid, three fourths
,, Swan Point, one-half
,, Fresh Water Point, one-fourth } Of the charge from the Heads.

But as a general rule the Tamar will not get up steam under £15.

One-third the amount of pilotage will be taken off the towage if the vessel is liable to that charge.

When two vessels are towed together (over 112 tons register, each), a reduction of 25 per cent. off the usual charge to the smaller one will be made to each.

Signal for Steam-tug.—The Rendezvous or chequered flag, hoisted where best seen.

When this signal is made by a vessel entering the port, the tug, if in Launceston, will be telegraphed for, on that vessel's account.

SURVEYORS UNDER REAL PROPERTY ACT.

Wilkinson, Henry, Hobart Town; Butler, Francis, ditto; Blackwood, A., Long Bay; Jackson, Adam, Ross; Scott, James, Launceston.

REGULATIONS under the Waste Lands Acts of Tasmania.

1. All applications to purchase land privately under the 19th, 20th, and 23rd Sections of the Act shall be made on a printed form, to be obtained either at the Survey Office, Hobart Town; the Branch Survey Office, Launceston; at any country Police Office, or of any District Surveyor, without fee.

2. Section 15.—In relation to that portion of Section 15, having reference "to cost of Survey and of the Grant Deed," the fee of Twelve Shillings and Sixpence shall be charged for the preparation of every Grant Deed; and the following shall be the Scale of prices to be charged for Surveys:—

CHARGES FOR GOVERNMENT SURVEYS.

Surveys required in the Unsettled Lands, or on any Islands, except those at present included in the Survey Districts, shall not be charged for according to the above Scale, but the Commissioner of Crown Lands may either require selectors to deposit double the amount of the foregoing survey fees according to the area selected, or may authorise them to engage any Government Surveyor, in which case the applicant will make a private bargain with such Surveyor.

3. *Section* 19.—Should two or more selections of the same piece of Crown Land be made at the same time, the Commissioner shall send it to Auction.

4. *Section* 26.—Any lot having a frontage on a road, river, lake or the sea, shall have its width or depth so regulated as not to exceed the proportions of 1 to 2 (the first figure representing the *width*.)

5. *Section* 36.—Any person (with consent of the Commissioner in writing,) may transfer his interest in any land purchased of the Crown, whereof the payment is not complete, on payment of a fee of 3d. in the pound on the cost price. This regulation to apply to Pre-emptive Right Lands and to Lands in the unsettled districts.

Transfers of leased lands will be charged for at the rate of twenty shillings for the first lot, and ten shillings for every other adjoining one.

6. *Section* 44.—Improvements on leased lands to be paid for when required for sale shall be valued by the District Surveyor. But if his valuation be thought unfair by the Lessee, arbitrators shall be chosen, one by the lessee and the other by the Commissioner; and if they cannot agree, the Governor-in-Council shall appoint an umpire whose decision shall be final. Cost of valuation to be defrayed by the Lessee.

Occupation Licences.

7. *Section* 50.—Land held under an occupation licence may be resumed on a notice of not less than three months. No compensation will be allowed for improvements, which may be removed at any time before the expiration of the notice.

The rental of any land held under an occupation licence will be £1 for every hundred acres, and £1 for any lesser area. Rental must be paid in advance.

Timber Licences.

8. *Section* 51.—Licences to fell and remove timber from any Crown land available for any such purposes, are to be obtained at any Police Office, or from the official Inspector of Timber Licences, on payment of 1s. a week for every person employed (carters excepted), subject to the conditions contained in the form of the license supplied.

Licenses to make bricks, quarry stone, burn charcoal, &c., are to be obtained in a similar manner, and on the same terms as those relating to removing timber.

Lands taken on Credit.

9. Every person who wishes to take the three years' extension of credit, as provided for in section 27 of "The Waste Lands Act, No. 4," shall make a Declaration before a Justice of the Peace that he actually resides upon the land purchased by him. Forms of Declaration can be obtained from the Survey Department on application.

Unsettled Lands.

10. Seetion 65.—Applicants for gratuitous leases shall make a money deposit at the Survey Office of £1 for every thousand acres leased to him, as a guarantee of good faith, to be returned to him after the first year of occupation, but to be forfeited in case of non-occupation.

11. Section 67.—£1 shall be paid for every transfer.

12. Every purchaser in the Unsettled Lands District shall, upon making his application, deposit at the Survey Office the sum of Ten Pounds (£10) as a guarantee of good faith, to be returned to him when he pays the first deposit on the purchase of the land.

LANDS SOLD ON CREDIT.

According to "The Waste Lands Act, 1863," credit can be claimed for any lot of not less value than £15.

The terms of credit are the same for town as for country lots: viz., one fifth to be paid at the time of sale, and the remainder in eight annual instalments.

Example of mode of payment where credit is taken for a lot bought for £15.

GOLD FIELDS.

Mode of Dealing with Applications under Gold Fields Regulations, dated 28th May, 1866.

MINING LEASES.

1. Application to be made on printed form accompanied by £10 and survey fee, application to be numbered, and entered in book, and applicant to receive certificate marked C.

2. Commissioner shall direct Surveyor to proceed to the land, on a day to be duly notified to applicant, to survey the land, and forward the report, plan, and tracing, to be forwarded by Commissioner to Colonial Secretary without delay.

3. Applicant to attend on ground, and Surveyor to fix posts firmly in the ground, and post up Schedule D.

4. Objections if any, to be made within 14 days after notice so posted. Persons objecting to deposit £5.

5. After 14 days allowed for objections, Commissioner will forward the application with his report to the Colonial Secretary.

6. Clause 8 of the Gold Fields Regulations Act, 1859, provides that no lease shall be granted until one month's advertisement in *Gazette* by Commissioner of Crown Lands.

7. Lease to bear date the day of execution, and to be charged fee of one pound, *term* not to exceed ten years.

8. Land demised (except in leases of quartz areas), to be in the form of a rectangular parallelogram, length not to exceed twice the breadth.

9. Areas of leases to be not more than 30 acres nor less than one acre of *alluvial land*, and not more than 440 yards in length by one hundred yards in width, nor less than one hundred yards in length by eighty yards in width of *quartz ground.*

10. Rents to be paid yearly in advance, 2s. 6d. per acre of alluvial land and 2s. 6d. for every acre of quartz ground.

11. Machinery in case of *alluvial land* to be in working order within 6 months, and in case of *quartz ground* within 12 months from date of lease.

12. When any person has applied for a lease of land for mining purposes, no one shall interfere with the land so applied for, pending the decision of the Governor as to whether the lease shall be issued.

QUARTZ REEFS.

13. Any persons prospecting for quartz reef entitled to area of ground not exceeding one hundred acres for protection, and on discovery of reef shall be allowed prospecting claim of 60 yards, besides 30 yards for each person more than one, but the discovery must be reported to the Commissioner at once, and must not be less than a quarter of a mile from any claim previously marked on the same reef, or on a dis-

tinct reef more than 50 yards distant. £10 to be deposited by applicant as rent, and to cover any expenses incurred by the Government.

14. Claims must be marked off and pointed out to the Commissioner on the ground. A space not less than six feet, which is not to be worked, to be left between claims. When a claim is allowed, it is to be marked off by stakes, and name of person entitled to be posted up.

15. Claim to be worked within fourteen days after it has been allowed, if left so unworked for seven days, it shall be deemed to be abandoned, except from reasonable cause the Commissioner grants extension of time.

ALLUVIAL WORKINGS.

16. Extent of claim:—For one miner 60 x 60 feet; for a party of two miners, 120 x 60ft.; for a party of three miners, 120 x 90 feet; for a party of four miners, 120 x 120 feet. No larger claim allowed.

PROSPECTING FOR NEW ALLUVIAL WORKINGS.

17. Parties prospecting for new Alluvial Workings at a place distant not less than Two miles from any previously known Alluvial Gold Workings shall be entitled to, and receive, if practicable, an area of 440x440 yards for protection for a period not exceeding 12 months, and such protection shall hold good against all other persons until a discovery has been made and reported, and a prospecting claim laid off, or until the claim has been forfeited or abandoned.

18. As a reward for the discovery of Gold in any new locality, the Commissioner is empowered to allot to any Miner or party of Miners, a prospecting claim of 120x120 feet in addition to the claim he or they would be entitled to under clause 48 of these regulations, provided that the same is distant not less than two miles from any previously known Alluvial Gold workings.

19. Parties discovering new Alluvial Workings shall, with as little delay as possible, report such discovery to the Commissioner, and in default shall forfeit all right to the extended area allowed by these regulations for a prospecting claim.

20. The parties making the discovery of new Alluvial Workings shall have the sole power of determining in what direction they will select the area allowed them by these regulations.

21. Within 7 days from the time of marking out a claim, all parties shall begin to work in a *bonâ fide* manner.

22. No claim shall be deemed to be *bonâ fide* worked unless worked by a number of Miners not less than the number of Miners entitled to the claim.

23. A claim not *bonâ fide* worked for a period of 3 consecutive days, except in case of sickness, or the inclemency of the weather, shall be deemed to be abandoned.

MINERAL LANDS.

ABSTRACT OF REGULATIONS BY GOVERNOR-IN-COUNCIL, 11TH FEBRUARY, 1867.

Application to rent any mineral lands to be made in writing to the Commissioner of Crown Lands, stating the area required and the description of mineral to be worked; to be accompanied by a description of the land applied for. £5 to be paid at time of application as a guarantee of sincerity, to be remitted from rent.

The Commissioner, within 90 days, or such longer time as may be indispensably necessary for any reference required in the case, to issue an authority to select same, to continue open for one year.

Claim to lease to be forfeited if applicant remove any mineral except for samples (not to exceed a ton in all) before taking up lease.

Priority of right to be given to first applicant, unless where original discoverer is concerned, who comes in as first applicant, provided he claims to do so within 90 days of the receipt of first application.

If two or more applications for the same lot be received simultaneously, priority of choice shall be settled by lot. If more than one lot be thus applied for by the same person, the choice of lots to be given in turns after first drawing.

All lots shall be published at least once in the Government *Gazette*.

Applications to lease Coal lands shall not exceed 320 acres nor be less than 40 acres, except in special cases.

Any other mineral or metal, not more than 80 acres nor less than 20 acres.

The rent for any lot containing metal to be 5s. the acre per year, and 2s. 6d. the acre per year if coal-bearing only, or such higher rental as the Governor-in-Council may affix, except in the case of the original discoverer, when the rent shall not exceed £1 per acre per year.

Any applicant for any mineral lot of which he is first discoverer shall have, beside priority of right, the first year's rent remitted.

Governor-in-Council may disallow private selections of mineral lands, and direct that the leases of the same be sold by auction.

Upset price to be affixed by Commissioner to mineral lots thus leased.

In case of the leasing of any mineral lot that may have been forfeited or thrown up, a fair valuation to be made of all useful surface improvements and of the machinery on the ground, which shall be added to the upset, and paid to the former lessee, if the lease be sold.

But if such lot be not sold, the value of the machinery shall be abated by one-fourth every quarter; and if it remain unsold at the end of one year, the owner of it shall not be entitled to any compensation on account of it. But he may remove it, provided he do so within three months after the end of the one year named, or a longer time may be given him if there be no incoming tenant.

If lot be relet to former lessee no payment will be allowed for machinery or improvements, &c.

The value of machinery, improvements, &c., to be fixed by two valuators, one chosen by Commissioner and the other by outgoing lessee; and in case of dispute valuators may appoint an umpire; or if valuators do not appoint an umpire in three months, the Commissioner may do it. The umpire's decision to be final.

On termination of lease the Government may purchase useful improvements and machinery, pumps, and mining materials; that is, if the latter are not removed, or if lessee does not renew lease at valuators' prices, to be ascertained as prescribed above.

Mineral lots put up and passed may be put up again, on request of any one guaranteeing upset price.

Lots to be surveyed in rectangular figures where practicable; length not to exceed depth greater proportion than 4 to 1.

Leases to be forfeited if rent be not regularly paid, or if Two Pounds an acre be not expended yearly thereon in working the same, or if three men have not been regularly employed at least nine months in each year in *bonâ fide* mining work, or if evidence be refused to the Inspector of Mines or authorised substitute working the same.

Lessee, after three years' occupation of any lot, may buy it outright at a valuation.

H.M.S. GALATEA.

[The arrival in Australian waters of H.M.S. "Galatea," commanded by Her Most Gracious Majesty's second son Prince Alfred Ernest Albert, Duke of Edinburgh, is an event of unusual interest. The following particulars of the ship and her officers are given in the Tasmanian Almanac for the purpose of recording an important occurrence in colonial history.

Put in Commission, 22nd January, 1867; left Gibraltar, 11th June; arrived at Rio Janeiro, 15th July; Cape of Good Hope, 14th August; Adelaide, 29th October; Melbourne, 23rd November; Hobart Town,————

Her Royal Commander was received with unbounded enthusiasm throughout the Australian colonies.]

Galatea, H. M. S. S. frigate, 3,227 tons, 800-horse power, 26 guns, Captain H.R.H. the Duke of Edinburgh, K. G. Commander—Hugh Campbell; Lieutenants—Charles G. Fane, George R. Heneage, Wallace B. M'Hardy, Francis Romilly, Adolphus A. F. FitzGeorge, John Ramsay; Master—William H. Bradley; Captain of Marines—Robert F. Taylor; First Lieutenant Marine Artillery—Francis H. Poore; Chaplain and Naval Instructor—Rev. John Milner, B. A.; Surgeon—James Young, M. D.; Paymaster—Thomas Bradbridge; Chief Engineer—John Sear; Sub-Lieutenants—Anthony Kingscote, John S. Halifax, George R. C. Eyres, Guy Mainwaring, Lord W. B. Phipps (acting); Second Master—Sidney Smith; Assistant Surgeons—W. L. Powell, William H. Symes (acting); Assistant Paymasters—Charles E. James, Edmund H. Key, and W. O. Greenslade (acting); Passengers—Lord Viscount Newry, Hon. Eliot Yorke, and Mr. Brierly.

The hull has the appearance of immense size and undoubted strength, combined with exceeding gracefulness of outline and symmetry. She is a noble specimen of British naval architecture. Compared with the magnitude of her hull, the masts, spars, and rigging, have a taunt and light appearance, but a close inspection will show that they are in nowise disproportionate. Her exact dimensions are:—Length overall, 317 feet; beam, 50 feet. Her gross tonnage is stated to be 3,227 tons, and her steam power is equal to 800-horse power. The rate of speed she attained when new, at the measured mile, was thirteen knots. Her engines are of the description known as Penn's trunk engines, from having one cylinder within the other, the lesser being thirty-six inches and the greater eighty-nine and a half inches in diameter. Three feet eight inches is the stroke of the piston, and while the engines nominally are 800-horse power they can work up to 3,400 horses, consequently it is not astonishing that she speeds away at the rate of thirteen knots per hour in favourable weather. She is furnished with Griffith's patent feathering screw, which enables the pitch to be altered from twenty-five to twenty-nine, besides affording means of lifting it when under sail. The total weight of the machinery is 575 tons. There are 2,756 tubes in the six boilers, which are supplied with fuel from bunkers capable of carrying 600 tons. Her draught of water (with three months' provisions on board) is—aft 22ft. 7in., and forward 21ft. 8in. The height of her foremost ports above the water-line is 12ft. 9in., of the midship ports 10ft. 6½in., and the after ports 12ft. 5in. The armament of the Galatea is unusually formidable. It consists of thirteen

guns on each side. or twenty-six in all. There are four 7-inch bore muzzle-loaders, weighing 6½ tons each, beautiful pieces, with carriage-gear, breeching, and tackling in such order as would do credit to any factory. Then there are four 64-pounders, shunt muzzle loaders, and eighteen 10-inch guns, each 87cwt., and two 12 pounder Armstrong breech-loaders for boating purposes, and one field-piece of similar character and calibre. In the arm racks are 172 Enfield rifles, 52 Colt's revolvers, and 172 cutlases. As the Galatea has been only about a year in commission, her equipment is nearly altogether new.—From *The Melbourne Argus, Nov.* 25, 1867.

Formation.—This Society was founded at a meeting held at Government House on the 14th October, 1843, the Governor, the late Sir J. E. Eardley Wilmot, Bart., being in the chair. The meeting consisted of Members of the Tasmanian and Horticultural Societies, and of other gentlemen interested in the advancement of Science, and the progress of the Colony. Sir J. E. Eardley-Wilmot subsequently assigned to the Society a large portion of the Government Garden, with an allowance of £400 per annum from the Public Treasury to pay the officers of the Society, and generally to promote its objects. On the 12th September, 1844, the Governor announced that Her Majesty the Queen had signified her consent to become Patron of the Society—that the constitution of the Society had been approved,—that the grant of £400 per annum had been confirmed—and that its designation should thenceforward be, "The Royal Society of Van Diemen's Land, for Horticulture, Botany, and the advancement of Science."

Principles and Constitution.—1. The leading objects of the Society are to develop the physical character of the island and to illustrate its natural history and productions. 2. The Society consists of a President, twelve Members of Council, a Treasurer, a Secretary, and an indefinite number of Fellows. 3. The Lieut.-Governor of the Colony for the time being is President. 4. The President is annually to nominate and appoint from the list of persons elected Members of the Council, *four* to act as Vice-President in his absence. 5. The President and Council have the ordering and management of the property, officers, servants, and affairs of the Society. 6. The election of all persons into the Society is to be by ballot according to the rules now or hereafter to be established.

Northern Branch.—Treasurer, R. C. Gunn.

The meetings are held in a room in the Public Buildings, Launceston, which is fitted up as a Museum.

VAN DIEMEN'S LAND AGRICULTURAL COMPANY.

Established 1825 by Act of Parliament 6 Geo. IV., Cap. 39, and incorporated by Royal Charter. Capital, £300,000, in shares of £30 each. Court of Directors in London. Office, 6, Great Winchester-street, Governor, V. Knight: Deputy-Governor, Charles J. Pearse. Directors—T. Alexander, Major Clifford, John Du Croz, L. Nathan, C. J. Pearse, J. Richardson, G. Rooper, J. S. Stanhope. Auditors—C. H. Moore, S. Hickson, J. Trenow. Secretary—H. Cattley. Chief Agent in Tasmania—C. Nichols. Head Office in Launceston on the premises of Messrs. Du Croz, Nichols, and Co.

The territories of the company are situated at the following places in the north-west quarter of Tasmania :—100,000 acres at Woolnorth, 20,000 acres at Circular Head and the coast adjoining, 60,000 acres at Emu Bay and the Hampshire Hills, 10,000 acres at Middlesex Plains, 150,000 acres at the Surrey Hills, and 10,000 acres estimated good land in Trefoil, Walker's, and Robbin's Islands, containing about 26,970 acres, but which were estimated at 10,000 acres in the grants to the Company, that being the supposed quantity of available land therein. The sub-port of Stanley, at Circular Head, is within the limits of the port of Launceston. Vessels can enter and clear there from and to foreign places with great facility, as it is easy of access, and has good wharfage accommodation.

LAUNCESTON AND WESTERN RAILWAY.

During the Parliamentary session of 1865, the promoters of this work obtained a bill (29th Vict., No. 24,) to enable a Company (under the Limited Liability Act) to make and maintain this Railway; which is intended to connect Deloraine, Westbury, Longford, Perth, and Evandale, with the port of Launceston.

The Act provided that in the event of the freeholders of the railway district consenting, by a majority of two-thirds of their number, ascertained at a poll which was held before the Returning Officer appointed by the Governor-in-Council, and which poll was taken on the 18th December, 1865, with the result of 2259 votes in favor, and 545 votes against (see table, page 108, in almanack for 1866,) the Company is empowered (Sec. 6) "To make and maintain the said Railway, and to do all works and take all land necessary, subject to provisions of the Lands Clauses Act, 21st Vict., No. 11, and to carry passengers and merchandise, and make charges by bye-law for the same," (sec.40, 41.)

The capital of the Company is £400,000, and the assistance offered by Parliament for the encouragement of the work is the provision that when £50,000 has been paid up, the Company may borrow, £300,000, on bonds, theGovernment endorsing these bonds for the due payment of interest thereon at not more than 6 per cent.; and the promoters claim to be entitled under the Waste Lands Act, 28 Vict.,No. 3, sec. 3, to a grant of land in consideration of the actual capital expended by the shareholders. The extent of the grant, however, will depend upon the vote of the Parliament, which, on the similar undertaking known as the Deloraine and Mersey tramway, was very liberal, amounting to 15,360 acres of land, to be selected in blocks of not less than 5000 acres each, so soon as twelve miles of the line were completed, and open to the public.

By the 31st of Victoria, No. 43, this Act has been amended, so that the Government may receive the bonds of the Company for the loan of £300,000 and issue debentures, secured on the public revenues of the colony, to the like amount, in exchange.

Under these Acts the Governor-in-Council is empowered to nominate three Commissioners, to act with the Directors, so long as any responsibility exists on the part of the Government. The gentlemen recently appointed are, S. V. Kemp, Esq., C.E., the hon. F. M. Innes, Esq., M. L. C., and T. B. Bartley, Esq.

The Company has for Chairman, W. S. Button, Esq., Chairman of the Cornwall Insurance Company at Launceston, and the other Directors (elected in 1867) are as follows :—W. Archer, Esq., J.P.,

Brickendon; Hon. W. Archer, Esq., J.P., M.H.A., M.E.C., Cheshunt; Hon. J. Archer, Esq., M.L.C., Panshanger; John Crookes, Esq., J.P., Director Union Bank; W. Dodery, Esq., M.H.A., Longford; H. Dowling, Esq., J.P., Launceston; Wm. Gibson, Esq., J.P., Perth; Richard Green, Esq., Master Warden, Launceston; James Robertson, Esq., J.P., Director Union Bank; Hon. I. Sherwin, Esq., J.P., M.L.C., Launceston; John Scott, Esq., J.P., M.H.A., Launceston; William Tyson, Esq., Launceston; Alexander Webster, Esq., Alderman, Launceston; Alfred Harrap, Esq., Alderman, Launceston.

Engineer-in-Chief, W. T. Doyne, Esq., who is a member of the Institution of Civil Engineers, London, from the year 1849. Solicitor, George Collins, Esq., of Launceston. Standing Counsel, the Hon. W. L. Dobson, Esq., Attorney-General. Until the appointment of bankers, James Robertson, Esq., has consented to act as Honorary Treasurer. Henry Dowling, Esq., acts as Honorary Secretary; and W. J. Norwood, Esq., is Assistant Secretary. Bankers, the Union Bank of Australia.

The following form the leading features of the prospectus:—

SHARES, £20.—The deposit and calls will be as follows:—10s. per share on allotment; 40s. at three months; and 50s. at 6, 9, 12, 15, 18, 21, and 24 months, in promissory notes, payable ata Bank.

This railway will connect the important districts of Evandale, Perth, Longford, Westbury, and Deloraine with the Port of Launceston; running nearly the whole distance of 42 miles through a fine agricultural country, well populated, and having old-established sources of traffic throughout the whole length; for several miles around the termini; and for a considerable distance to the southward of the line.

The line will pass through or near to the following important townships and districts:—St. Leonard's, Evandale, Perth, Longford, Bishopsbourne, Hagley, Carrick, The Oaks, Westbury, Exton, and Deloraine.

MERSEY & DELORAINE TRAMWAY CO. LIMITED.

Office, 113, Macquarie-street, Hobart Town. Capital, £50,000, in shares of £5 each. *Managing Director*, G. Whitcomb; *Bankers*, Bank of Van Diemen's Land; *Solicitors*, Allport, Roberts, and Allport, Hobart Town; B. W. Campion, Launceston; *Counsel*, Hon. W. L. Dobson, M.H.A., Attorney-General; *Engineer* Stephen Grey.

This Company is formed for the purpose of constructing an iron tramway or railroad, to be worked by horse or steam power, between Deloraine and the Mersey, with (if hereafter desired) branches to Cheshunt, Chudleigh, and Kentish Plains. The Mersey being the nearest port and natural outlet to these places, and to the agricultural lands in their vicinity, and in other parts of Devon.

An Act of Parliament has been passed giving to this Co. the fullest power to carry out their designs. The Legislature has also granted to them 1,280 acres of Crown land in respect of each mile in length of their tramway, making for 30 miles of tramway 38,400 acres; this land will be greatly enhanced in value by its proximity to the tramway.

The land required for the tramway has been obtained free of cost for two-thirds of its length; a contract has been entered into for the construction of 12 miles and a considerable portion of the work has been done.

SAVINGS BANKS.

There are two of these institutions in Tasmania,—one at Hobart Town (established 1845), and the other at Launceston (established 1835)—which are carried on under the provisions of the Act of Council, 12th Vic., No. 1, commonly known as the "Savings Bank Act," under the direct control of Managers approved by Courts of General Quarter Sessions.

At Hobart Town, Mr. W. V. Morriss is Actuary; Mr. F. B. Campbell, Cashier; Mr. J. B. Walker, Accountant. At Launceston, Mr. Henry Dowling is Actuary; Mr. G. Pullen, Cashier.

The deposits at Hobart Town at the last half-yearly meeting in September, 1867, amounted to £136,646 1s. 1d., the number of accounts open being 4227, and the Bank has a reserve fund of £16,218 17s. 6d.

The deposits at Launceston at the same date amounted to £56,655 2s. 10d., the number of accounts open being 2,887, the reserve fund being £6795 13s. 6d.

Since the commencement of the Bank at Hobart Town 24,607 accounts have been opened, and £1,449,786 13s. 11d. has been received. At Launceston 17,520 accounts have been opened, and £959,906 5s. 8d. deposited.

On the 1st November, 1862, an Act came into operation (26th Vic. No. 15), which enables any person to remit through the post any sum as a deposit to any Savings' Bank at the postage of *one penny* for every packet not exceeding four ounces, for which small charge the packet is to be *registered* by the Postmaster; thus securing to the depositor an official receipt for the safe delivery of the packet to the Savings' Bank.

COUNTRY DISTRICTS.

The colony of Tasmania is divided into nineteen Rural Municipalities, and seven Police Districts. Seven Councillors are, in the first instance, elected by the ratepayers of the respective municipalities. Two Councillors retire for two successive years, and every third year three Councillors retire, but are eligible for re-election. The Councillors elect one of their number as Warden, whose term of office extends over one year. All powers by law vested in Police Magistrates are also, by Act of Parliament, vested in the Warden while holding office. The Governor has the power of appointing the Warden and Councillors to be Justices of the Peace within their respective municipalities during their term of office; provision is thus made for the discharge of all legal business which formerly devolved on paid officers of the central government.

Much attention has been paid to irrigation in this district, as the following summary of irrigated lands will show:—Sherwood and Buerton, (Hon. I. Sherwin, M.L.C.,) 240 acres; Meadsfield, (E. Nicholas,) 120 acres; Ratho, (A. Reid), 120 acres; Nant, (Mrs. G. Nicholas,) 180 acres; Thorpe, (T. Axford), 70 acres; J. D. Wood, 1,100 acres.

There are two flour mills near the township of Bothwell, both situated on the banks of the Clyde, and worked by means of that stream. The inhabitants are abundantly supplied with pure water from the Clyde river, running through the centre of the township about a mile beyond which it plunges about forty feet into the basin below, forming the Falls of the Clyde, which are well worth seeing. The large rivers Shannon and Ouse also flow through this district. On the north-east boundary are situated Wood's Lake, and Lakes Sorell and Crescent from the latter of which the Clyde takes its source. On the north-west boundary is the Great Lake, whence the Shannon derives its origin. A trip to the Lakes (the nearest being 23 miles, and the furthest 35 miles from the township) well repays a stranger's trouble, and rewards his curiosity. This district possesses as fine stone for building purposes as any part of the colony; splendid white slabs of several feet in length and breadth have been taken therefrom, requiring no dressing beyond squaring them off to the size required. There is an excellent freestone quarry within one mile of the township. Good timber for building purposes, fencing, &c., is also plentiful. In order to secure a sufficient flow of water in the Clyde, during the summer, the waters of Lakes Crescent and Sorell are preserved by dam at or near the junction of the river with the said lakes, which dam is vested in "the Trustees of the River Clyde" by virtue of the 21st Vict., intituled an Act to protect the sources of the River Clyde.

Campbell Town is an agricultural and pastoral district, containing many magnificent estates of great wealth. The Elizabeth and Macquarie rivers flow through it, and the South Esk divides it from the municipality of Fingal. The Hospital is in a flourishing condition, and has been of great benefit to the surrounding districts, as well as to Campbell Town. Turkish baths are attached to the Hospital. There are three first-class hotels in the township, thus rendering it a most eligible summer residence for invalids affected by the heat of the neighboring colonies.

Rechabites.—*Star of the West Tent*, P.C.R., J. Phillips; C.R., A. Oliver; D.R., W. Abey; Secretary, R. Dean.

Remarks.—The land in this municipality is, for the most part, very fertile, yielding abundant crops of grain; and there is a large area of fine grazing land. Excellent timber is easily procured. The country is well watered; and nothing is wanted but a larger population and greater facilities for carrying produce to market, and for communication with other districts, to render it capable of contributing immensely to the wealth of the colony.

POLICE DISTRICT OF EMU BAY.

This District comprises the settlements of Table Cape and Emu Bay, the coast line extending from the River Blythe to a point about ten miles to the west of the River Inglis. It has recently been severed from the Police District of Horton.

TABLE CAPE DIVISION OF THE POLICE DISTRICT OF EMU BAY.

Boundaries.—The boundaries of the Table Cape Division enclose parts of the counties of Wellington and Russell, and the coast line extends from the Cam to the west boundary of the Police District.

Townships.—*Wynyard*, near Table Cape, about 43 miles from Stanley, and 114 miles from Launceston, has a population of 200. It is pleasantly situated at the mouths of the River Inglis and Camp Creek, and extends about a mile and a quarter up the South bank of the Inglis. This place was formerly a sub-port of clearance subordinate to Circular Head, but was proclaimed a port of entry on the 1st May, 1866. The principal buildings are the Police Office and Customs Officer's Residence (both of which have been recently erected by the Government), Mr. Stutterd's General Store, and one of the finest stone Hotels on the Coast. Licensing meetings for the Police District of Emu Bay are held at Wynyard. *Port Maldon* and *Somerset*, on the River Cam, are at present thinly populated.

Members of Parliament.—(See Horton.) Table Cape contains about 82 electors for the *House of Assembly*.

Police.—*Stipendiary Magistrate*, Arthur B. Willis. *District Constable* Michael Lawler and one petty constable are stationed at Wynyard. The

police force are under the control of *Chief District Constable* Chalu, of Circular Head.

CORONER.—William Moore.

JUSTICES OF THE PEACE.—W. Moore, C. J. McKenzie, G. Shekleton, A. B. Willis.

CUSTOMS.—*Landing Waiter in Charge*, A. B. Willis. *Tide Waiter*, M. Lawler.

PENNY READINGS.—Weekly Penny Readings were instituted at Wynyard during the last winter, which have been well attended.

BOARD OF WORKS.—(Names unknown.)

MARINE BOARD.—(Names unknown.)

ROAD TRUST.—*Table Cape*, between the rivers Detention and Cam; *Chairman*, C. J. McKenzie.

DISTRICT SURVEYOR.—Nicholas Simmons, at *Table Cape.*

PUBLIC POUND.—At *Somerset*, on River Cam; *Poundkeeper*, T. D. Wragg.

POST OFFICE.—*Wynyard*, J. A. White, mails arrive from Launceston and the other parts of the colony on Wednesdays and Fridays, and leave every Tuesday and Thursday.

SCHOOLS.—*Under Board of Education.—Wynyard*, Mr. and Mrs. Hainsworth; *Somerset*, Mrs. T. D. Wragg. Private school at *Wynyard*, Mr. Marshall.

PLACES OF WORSHIP AND MINISTERS OF RELIGION.—*Church of England*, Chapels at Wynward and Somerset, Rev. Richard Smith. *Church of Rome*, Chapel at Wynyard, visited by Rev. M. Burke, of Circular Head. Grove Chapel, near Table Cape, is a building unattached to any religious communion, erected by George Shekleton, Esq., who conducts the services.

MEDICAL PRACTITIONERS.—Thomas Wilson and J. W. Pring, between Emu Bay and Table Cape.

HOTELS.—At *Wynyard*, two, viz., "Court House Hotel," by Joseph Alexander, and "Table Cape Hotel," by Joseph Alexander, jun.

CRICKET CLUB.—At *Wynyard, Captain*, J. H. Stutterd; about twenty members.

STATISTICS.—1867—Population, about 600; amount of Valuation Roll, £3,341; number of ratepayers on ditto, 120; acres in cultivation, 1,387, viz., wheat, 688 acres, yielding 17,544 bushels; barley, 8 acres, 264 ditto; oats, 320 acres, 9,680 ditto; peas, 65 acres, 1,430 ditto; beans, half acre, 15 ditto; potatoes, 122 acres, 244 tons; grass seeds, 52 acres, 923 bushels; tares, 9 acres, 216 ditto; hay, 122 acres, 244 tons; 198 bushels apples, 32 ditto pears, 200 horses, 580 horned cattle, 247 sheep, 230 pigs, 20 goats.

SHIPPING.—The following vessels are owned by residents of Wynyard, and most of them trade regularly between that sub-port and the adjacent colonies:—"Scotia," 135 tons, Messrs. Moore and Quiggin; "Annie Beaton," 85 tons, Messrs. Moore and Quiggin; "Dart," 80 tons, Messrs. Moore and Quiggin; "Margaret Chessell," 65 tons, W. and J. Jones; "Dove," 52 tons, ditto; "Satellite," 19 tons, Messrs. Moore and Quiggin; "Yarra," 141 tons, ditto; "Swordfish," 111 tons, ditto.

The following is a table of the shipping at the Sub-Port of Wynyard (including Table Cape and Emu Bay) from 1st January to 14th December, 1867, viz.:—Arrivals from the other colonies, 61 vessels, 3636 tons; coasters, 43 vessels, 964 tons; total arrivals, 104 vessels, 4600 tons. Departures to the other colonies—62 vessels, 3811 tons; coasters, 41 vessels

791 tons; total departures, 103 vessels, 4602 tons. The value of exports for the above period was £5192; ditto imports, £2590 5s.; and customs collections, £340 13s. 6d., viz., duties, £186 10s. 10d.; wharfage, £22 3s. 5d.; light dues, £100 8s.; and harbour dues, £30 19s. 11d.

The extremely low price of farm produce during he last season has reduced the amount of Table Cape exports for the past twelve months to about one-third the amount it would have been had the prices been merely moderate. Some 300 or 400 tons of potatoes have been left to rot in heaps in this district alone, the sale of which would not as much as pay the cartage.

RIVERS AND HARBORS.—Cam, Inglis, and Detention Rivers, with many smaller streams. The three former are easy of access at high tide; the Inglis is capable of admitting vessels drawing from 8ft. 6in. to 8ft. 10in. of water. Substantial bridges have been erected over the Cam and Inglis. The bight under the Promontory at Table Cape forms a safe anchorage for vessels of any tonnage.

REMARKS.—The description of the general character of the soil, &c., at Circular Head is equally applicable to Table Cape. Messrs. Moore and Quiggin are the enterprising proprietors of a large saw mill erected about a mile and a half to the south of Wynyard, which supplies the colonial markets with a great quantity of first class timber. The River Inglis and the various fresh water streams in this district abound with fish, including Herring, Eels, Blackfish, Lobsters, and Trout. Among the salt water fish may be enumerated Trumpeter, Rock-cod, Flathead, Mullet, Garnet, Saltwater Blackfish, and many other varieties.

EMU BAY DIVISION OF THE POLICE DISTRICT OF EMU BAY.

BOUNDARIES.—The boundaries of this division embrace portions of the counties of Wellington, Devon, and Lincoln, the line of coast extending from the Blythe to the Cam River.

TOWNSHIPS.—*Burnie*, at Emu Bay, about 55 miles from Stanley, 12 miles miles from Wynyard, and 102 from Launceston; population about 150; is a port of clearance. There are several town reserves at present uninhabited.

MEMBERS OF PARLIAMENT.—(See Horton.) About 46 electors belong to Emu Bay.

POLICE.—*Visiting Magistrate*, A. B. Willis. D. C. J. Kavenaugh and one petty constable at Burnie. *Chief District Constable*, F. Chalu, of Circular Head.

JUSTICES OF THE PEACE.—George Rouse, A. B. Willis.

COURT OF GENERAL SESSIONS.—At Burnie, on second Tuesday of each month. (This Court has the maximum Court of Requests Jurisdiction.) *Chairman*, George Rouse. *Registrar*, J. H. Munce. *Bailiff*, J. Kavenaugh.

H.M. CUSTOMS.—*Clearing Officer*, A. B. Willis. *Tide Waiter*, J. Kavenaugh.

BOARD OF WORKS.—The same as at Table Cape (names unknown).

ROAD TRUST.—*Emu Bay*, between the Rivers Cam and Leven. *Chairman*, J. H. Munce.

DISTRICT SURVEYOR.—Nicholas Simmons, of Table Cape.

POST OFFICE.—*Burnie* (Money Order Office), Thomas Brown; mails arrive and depart on the same days as at Wynyard (Table Cape).

PLACES OF WORSHIP AND MINISTERS OF RELIGION.—*Church of Eng-*

land, St. George's Church, Burnie, Rev. Richard Smith. *Church of Rome*, St. Mary's Church, visited by Rev. M. Burke, of Circular Head.

MEDICAL PRACTITIONERS.—Thomas Wilson and J. W. Pring, between Emu Bay and Table Cape.

HOTELS.—*Burnie*, three, viz., "Smithfield Arms," by Joseph Law; "Burnie Inn," by Thomas Wiseman; and "Ship Inn," by Richard Lennard. *River Cam*, "Ferry House Inn," by Alfred Deaven.

CRICKET CLUBS.—One at Burnie.

STATISTICS.—1867—Population, about 300; amount of Valuation Roll, £3,725; number of ratepayers on ditto. 64; acres in cultivation, 1,165, viz.:—Wheat, 485 acres, yielding 12,417 bushels; barley, 25 acres, 625 ditto; oats, 283 acres, 8,207 ditto; peas, 38 acres, 798 ditto; potatoes, 275 acres, 638 tons; grass seeds, 34 acres, 646 bushels; tares, 5 acres, 97 ditto; hay, 18 acres, 36 tons; 795 bushels apples, 99 horses, 5,278 horned cattle, 830 sheep, 236 pigs, 107 goats.

RIVERS AND HARBORS —Blythe, Emu, and Cam Rivers (all navigable at high tide, and all substantially bridged), with other smaller streams. The Emu Bay anchorage is partially protected from the weather.

MOUNTAINS.

Surrey and Hampshire Hills.—These form one large tract of elevated country, covered with open grassy forests and plains,producing indifferent pasture. The formation on the surface is chiefly conglomerate, basalt, and granite. The red granites at the Hampshire Hills are very beautiful. St. Valentine's Peak is one of the most beautiful mountains in the colony, and rises from the midst of these hills to a height of 3,637 feet.

REMARKS.—Emu Bay is principally an agricultural district, and presents the same general features as the other settlements on the North Coast of Tasmania. The bulk of the landed property here, as at Circular Head, is owned by the Van Diemen's Land Company.

PRODUCTS.—Gold and copper have been found in small quantities, iron and coal in abundance, the latter of an anthracite character. Felspar is also found, and white sandstone of a superior quality is a considerable article of export to Melbourne for building purposes. Timber, potatoes, and apples are also largely exported from Franklin. Fruit trees of all descriptions have been planted extensively in this district. There are nine saw mills and three flour mills. A magnificent bed of the finest timber and good land exists at the back of the township of Franklin. The exportation of apples is now very large from this district, the humidity of the climate, and cooler temperature compared to most of the other districts, marks out the Huon as the favored one for all descriptions of hard or keeping apples.

The cutters "Ann" and "Edwin" sail for Launceston from George Town every Monday.

Conveyance.—Visitors may go to and from George Town and Launceston by the Melbourne steamers; the steam tug leaves Launceston for George Town, during summer, every other Saturday, returning the following Monday; and the steamer "Percy" for the Coast weekly.

Climate.—The climate of the whole district is most salubrious.

Even in winter there is a mildness throughout the atmosphere, and in summer the occurrence of a hot wind is not on record. George Town is much frequented during the summer and autumn months, by numerous visitors, not only from the interior, but also from the neighboring colony of Victoria, for sea-bathing. Flinders' Group of Islands, separated from the main land by Banks' Straits, is included in this district, and contains a population of about 150 souls, chiefly half-caste of aboriginal extraction. The staple commodity of these islands may be said to be the "Petrel," commonly known as the "Mutton Bird," which are killed and salted every year; the oil collected from the dying birds is considerable in quantity, at an average value of 4s. per gallon. Many hundreds of dozens of their eggs are also brought to Launceston, and generally find a ready sale. At Ilfracombe there are extensive steam and water power saw mills; ironstone of first-class quality may be obtained in any quantity. There is all a slate quarry.

Trading Vessels.—The schooner "Kingston," Hopwood, master, trades regularly between Hobart Town and Great Swanport (Waterloo Point), calling at the Sandspit, Prosser's Bay, Spring Bay, and Little Swanport; agent in Hobart Town, A. G. Webster, Old Wharf. The schooner "Twins," Gilligan, master, also trades between Swansea and Hobart Town, calling at intermediate places; and the schooner "Robert Burns," Hall, master, regularly trades between Bicheno and Hobart Town, occasionally calling at the various intervening ports, and frequently continuing as far as Falmouth and George's Bay. A vessel is usually laid on between Swansea and Melbourne during the fruit season. Two colliers constantly ply between Seymour and Hobart Town, and sailing vessels occasionally call at Bicheno.

Flour Mills.—Three, viz., Water Mills, at Riversdale on the Wye River; Gala Mill, on Swan River; and Mayfield, on Buxton's Rivulet.

Inns.—Swansea, two, viz., Pier Hotel, by Mrs. T. Stephenson; and Swan Inn, by R. Makepeace. Bicheno, Native Youth Hotel, by J. Tilley.

The principal products of Glamorgan consist of grain and apples, a large quantity of the latter being annually shipped direct to Melbourne. An abundant supply of fine timber exists throughout the whole length of the district, but consequent upon the difficulty of land carriage it cannot at present be worked to advantage, otherwise an extensive field would be open to the employment of splitters and sawyers.

The Seymour Coal Mines, lying near the boundaries of Fingal and Glamorgan, and within gunshot of the beach, have been energetically worked for several years, and not only is the coal of a superior quality, but the mines contain an inexhaustible supply; rapid strides towards erecting such conveniences as are necessary to an extensive colliery have been made, and with a limited number of hands a vessel of moderate tonnage would not be detained longer than three or four hours in loading. The attention of the company has also been directed to the manufacture of fire-bricks from clay in all respects very suitable, as proved from repeated tests upon the bricks.

The whole country southwards from the scene of the above operations, for a distance of from 12 to 20 miles, shows evident signs of

being coal-bearing. In scarcely a ravine or gully will seams of coal varying from an inch to four or five feet in thickness be looked for in vain.

On land adjoining these Mines, an enterprising Company, "The Australian Coal and Kerosene Co.," have established themselves for the purpose of manufacturing crude oil, which is to be forwarded to Melbourne, there to undergo the process of refinement; as yet not more than 14 or 15 persons are at work, time sufficient scarcely having elapsed to admit of a more extensive scale. It is, however, anticipated that when the undertaking is fairly launched the shale will not disappoint those interested.

Glamorgan is bounded on the east by the sea for a distance of sixty or seventy miles, commencing at Little Swanport River, and containing the Doctor's Creek, north of Seymour; its boundary is from thence defined by a line passing along the summit of generally rugged and barren tiers, in a south-westerly direction until nearly opposite the head of the Major's Plains on St. Paul's River; from the Doctor's Creek to this there is little land fit for arable purposes, and even such as might be so adapted loses its value in consequence of the limited extent and unapproachable situations. In continuing to follow the boundary you strike a southerly course, bordering upon the extremities of numerous surveyed blocks of land, and passing in the vicinity of Kearney's Bogs,—a large area of magnificent country, at present solely occupied for common grazing purposes, but only requiring an increase of drainage and a passable road to place it on an equality with many first-class dairy farms. Proceeding onwards towards Toom's Lake much high country is traversed, principally of inferior quality, though a few spots are to be found worthy of notice for pastoral purposes; the same may be said of that from the Lake to Little Swanport River, the direction being nearly east to the point of commencement. Glamorgan on the whole may be considered a mountainous district, ranges of hills lying north and south from end to end, and in many places approaching to within a few hundred yards of the sea shore, while extending for many miles into the interior. These ranges to a great extent destroy communication with the adjacent districts, the roads to Falmouth, Avoca, Campbell Town, Eastern Marshes, and Spring Bay all being extremely rough; and until the last two or three years such a task was it to accomplish a journey either over the road to Campbell Town or through the St. Paul's (the latter being the principal outlet) that few would venture who were not thoroughly conversant with every turn. Now, however, this difficulty is greatly lessened, and a vehicle may with safety and comparative ease travel from Avoca to Swansea, *viâ* St. Paul's, such determined improvements have, under the supervision of the Board of Works, been accomplished.

Granite rocks of immense extent exist on Freycinet's Peninsula, and in the neighborhood of Bicheno. Every variety of salt and fresh water fish abound in the River and bays; also extensive oyster-beds in the Swan and Little Swanport Rivers.

The climate of Glamorgan is unsurpassed, and very little sickness is found to exist. The scenery is romantic and beautiful. On the sea side, Rocky Hills and Swansea may be particularly noticed. At the

former place the road winds round the summit of a lofty hill some hundreds of feet above the sea for about a mile, affording a view which has been universally acknowledged to be one of the grandest in Tasmania. The Swansea Bay, too, is very pretty, and bears a strong resemblance to the Bay of Naples. Freycinet's Peninsula and Schouten Island encircle it at a radius of about 20 miles, and almost entirely shut out the open sea from view. Nothing can exceed the picturesque beauty of their huge granite cliffs at sunset on a calm fine evening. Vessels can remain at anchor at Swansea in almost any wind, and can ensure safety in the roughest weather by running over to a bay at Freycinet's Peninsula. The principal rivers are the Swan, which flows through the centre of the district, and the Little Swanport River, which divides Glamorgan from the adjoining municipality of Spring Bay. The former is a large river, with numerous tributaries, including the Wye, Cygnet, and Apsley, but its navigation is unfortunately prevented by a shifting sand bar, and several mud flats. For many miles between the mud flats this river is of sufficient depth to float the largest vessels. It abounds with swans, pelicans, wild ducks, &c. There are many smaller streams which afford an abundant supply of fresh water all the year round, amongst which are the Douglas, Meredith, Stony, Buxton, and Lisdillon Rivulets. Swansea is the largest township on the East Coast of Tasmania.

The District of Glenorchy is principally of an agricultural and horticultural character, much attention being paid to the farms and gardens throughout the municipality. There are two flour mills, and one bone mill in this district, and an extensive manufactory of soap, candles, and vinegar, owned by Mr. William Murray, "Murray Field," O'Brien's Bridge. There are two tanneries and fellmongery establishments.

There are several quarries of excellent freestone, and unlimited beds of limestone, which have been extensively worked by Mr. Lowes and Mr. Shoobridge. Good timber for shipbuilding and other purposes abounds in the gullies of Mount Wellington. Large beds of oysters exist in the Derwent at Glenorchy, from which the market has been extensively supplied.

This district is about equally divided between the agricultural and pastoral interests; the agricultural being represented mostly by small farmers;

with a few large landholders. The vegetation of the district is generally about a month behind that of Hobart Town.

The Township of Kempton extends two miles along the western side of the main road from Hobart Town to Launceston, with houses and shops interspersed at intervals. It contains seven stores, six public houses and hotels, and other trades in proportion. Kempton itself is surrounded by ranges of hills, with the exception of one portion, which is open to the north.

The district of Hamilton is one of the finest agricultural and pastoral districts in the island; it is well watered by the Rivers Derwent, Ouse, and Clyde, and numerous small tributaries of those rivers. It is rich in mineral wealth, there being an abundance of excellent freestone, limestone, coal, &c. A coal mine exists on the land of R. Chilton, at High Plains, about two miles from Hamilton. Coal also crops out in the bed of the Ouse river.

At Sandy Bay the beach is adapted for sea bathing, and accommodation for this purpose is afforded by subscription baths. Extensive flower, fruit, and market gardens are here cultivated. The road to Brown's River is much frequented, as a pleasure drive, by the citizens of Hobart Town; the scenery on this road is noted for its romantic beauty. Visitors to Hobart Town will find an excursion to the pleasant township of Kingston an agreeable mode of passing a few hours.

The suburban township of New Town is beautifully situated on the main road from Launceston to Hobart Town, Mount Wellington and the range of hills adjacent forming a noble background to the lovely scenery here displayed.

The New Huon Road is completed for about eight miles, and forms one of the most picturesque pleasure drives in the vicinity of the capital. Excursionists to the summit of Mount Wellington, and the source of the water supply for the city, will find both easily accessible from this road.

POLICE DISTRICT OF HORTON,

(KNOWN AS CIRCULAR HEAD).

The district of Horton, although its boundaries have recently been curtailed by the formation of the Table Cape and Emu Bay settlements into a separate Police District, is the largest in Tasmania, and embraces immense tracts of country entirely unknown. Its coast line now extends from within a distance of ten miles of Table Cape, round the N.W. angle of the island nearly to Macquarie Harbour. The boundaries enclose parts of the counties of Wellington, Russell, and Montagu.

TOWNSHIPS.—*Stanley*, about 157 miles from Launceston, with a population of about 500, is the largest township on the North Coast. It is a port of entry and clearance, is built under the singular promontory of Circular Head, and has Courts of Requests and Quarter Sessions, a Masonic Lodge, Cricket Club, well supplied Reading Rooms, Schools, &c. Among its principal buildings may be included the Episcopal, Presbyterian, and Roman Catholic Churches, Mr. Ford's large offices and stores, a new Public School, four good hotels, the Police Office, Gaol buildings, and several picturesque private residences. The sea washes three sides of the town, affording very fine beaches as roads and promenades to the inhabitants. The site is rather exposed, but the climate beautiful and most conducive to health. The mean annual temperature is 59·7. There are excellent chalybeate springs about eight miles from the town. A brass band is maintained here, composed of amateurs, under the direction of Mr. Adam Clerke. The progress this band has made during the two years and a half that have elapsed since its formation is a source of great satisfaction to the inhabitants, who largely patronise Concerts given at short intervals. *Smithton*, on the Duck River, 13 miles to the west of *Stanley*, is thinly inhabited, but it is a place from which considerable shipments are made.

MEMBERS OF PARLIAMENT.—*Legislative Council*, Hon. W. E. Nairn, elected June 9th, 1865. Horton is included in the electoral district of Meander (*Returning Officer*, F. Belstead), the principal part of which is about Deloraine, a locality between which and the Horton district there is an almost impassable country, and with which it has not any other connecting link. *House of Assembly*, John Davies, elected 26th October,

RHODES HOUSE LIBRARY OXFORD

1866. This district forms part of the electoral district of Devon, and numbers upwards of 160 electors. *Returning Officer*, H. T. A. Murray, of Torquay.

POLICE.—*Stipendiary Magistrate and Coroner*, A. Threlkeld Mayson. *Chief District Constable*, Frederick Chalu. *District Constable* Thomas Simpson and two petty constables (one of whom is gaoler) are stationed at Stanley.

CORONERS.—A. T. Mayson and H. J. Emmett.

JUSTICES OF THE PEACE FOR THE TERRITORY.—George Anderson, Frederick Wilbraham Ford, and Alfred Threlkeld Mayson.

COURT OF GENERAL SESSIONS.—*At Stanley*, on 3rd Monday in January, April, July, and October. *Chairman*, A. T. Mayson.

COURT OF REQUESTS.—*At Stanley*, on third Wednesday of every month. *Commissioner*, A. T. Mayson. *Registrar*, Frederick Chalu. *Bailiff*, (unknown). This is a court of maximum jurisdiction.

DEPUTY REGISTRAR OF BIRTHS, &C.—H. J. Emmett.

CUSTOMS.—*Landing Waiter in Charge*, A. T. Mayson. *Tide Waiter and Assistant Harbor Master*, F. Chalu.

MARINE BOARD.—(Names unknown.)

BOARD OF WORKS.—(Names unknown.)

ROAD TRUST.—*Horton*, between Detention and Montague Rivers. *Chairman*, John Alford. *Clerk and Collector*, Joseph B. Alford.

GOVERNMENT SURVEYORS.—Nicholas Simmons, District Surveyor, at *Wynyard*, and A. T. Mayson at *Stanley*.

PUBLIC POUND.—At *Stanley*, Anthony Tatlow, Poundkeeper.

POST OFFICE.—*Stanley* (Money Order Office), John Edwards. Mails arrive and depart twice a week.

SCHOOLS.—*Under the Board of Education—Stanley*, Mr. and Mrs. Duniam. *South Road, Circular Head*, Mr. and Mrs. Cowbro. *Private School*, at Stanley, Mrs. Berjew.

PLACES OF WORSHIP AND MINISTERS OF RELIGION.—*Church of England*, St. Paul's Church, *Stanley*, Rev. H. E. Drew; a Parochial Library and Sunday-school are attached. *Church of Scotland*, St. James's Church, now leased to Wesleyan community; Local Preacher, Mr. Whitaker; a Church Library and Sunday-school are attached. *Church of Rome*, St. Mary's Church, *Stanley*, Rev. M. Burke.

MEDICAL PRACTITIONERS.—James Smith and J. W. Pring, *Stanley*.

CHEMIST AND DRUGGIST.—F. G. Spicer (represented by H. G. Spicer), of Launceston, at Stanley.

HOTELS.—*Stanley*, four, viz., "Commercial Inn," by Robert Dallas; "Plough Inn," by Thomas Barrett; "Union Hotel," by Patrick Breheny; and "Ship Inn," by Charles Wilson. At *South Road*, five miles from Stanley, "Travellers' Rest," by Thomas Gray.

MILLS.—One steam flour mill at Stanley, T. Henderson; and one steam saw mill at South Road, T. W. Stuchbery.

STANLEY READING ROOM AND PUBLIC LIBRARY.—*Chairman and hon. Secretary*, A. T. Mayson; *Treasurer*, John Edwards; *Executive Committee*, the foregoing, and H. J. Emmett, F. Chalu, and A. Tatlow. This institution, supported by subscribers, is well supplied with British and colonial newspapers, magazines, &c.; the introduction of weekly "Penny Readings" during the winter months has been attended with marked success, and has lately added much to the popularity deservedly maintained by the reading room.

CRICKET CLUBS.—*Stanley—President*, Edward Stutterd; *Secretary*, J. Berjew; *Treasurer*, H. W. Wells; *Match Committee*, H. G. Spicer, E. Stutterd, and H. W. Wells. Entrance fee, 5s., and a monthly subscription of 2s. 33 members. Cricket Club also at *South Road*, in The Forest, Circular Head.

MUSIC.—*Stanley*, Brass Band of Amateurs; conductor, Adam Clerke; *Secretary*, E. Stutterd; *Treasurer*, H. W. Wells; 17 members. *Stanley Glee Club*; conductor, A. Clerke; 20 members. Amateur Brass Bands also at South Road and Black River; conducted by Conrad Wackeldine.

MASONIC.—Lodge of Peace, No. 719 (England). The working of this Lodge is temporarily suspended.

TIDES.—The tide has a rise and fall of eight feet. The beaches in some places are from a quarter to half a mile in width at low water, while a portion of the Stanley Wharf, with the vessels alongside, rests upon the dry sand.

STATISTICS, 1867.—Population, about 1200. Amount of Valuation Roll, £9,400. Number of ratepayers on Valuation Roll, 210. Acres in cultivation (exclusive of about 3000 acres of improved grass meadows), 3217, viz, wheat, 732 acres, yielding 21,326 bushels; barley, 66 acres, 2480 bushels; oats, 791 acres, 22,236 bushels; peas, 76 acres, 1779 bushels; beans, 8 acres, 170 bushels; potatoes, 1399 acres, 4460 tons; hay, 240 acres, 414 tons; grass seeds, 1700 bushels; tares, 840 bushels; turnips, 41 tons; mangold wurtzels, 102 tons; apples, 1800 bushels; pears, 72 ditto; onions, 19 tons; tobacco, 45lbs. 43 horses, 2096 horned cattle, 10,615 sheep, 855 pigs, 22 goats.

SHIPPING.—The following is a table of the shipping at the sub-port of Circular Head from 1st January to 14th December, 1867:—Arrivals from the other colonies, 86 vessels, 8479 tons; coasters, 73 vessels, 3188 tons; total arrivals, 159 vessels, 11,667 tons. Departures to the other colonies, 82 vessels, 8262 tons; coasters, 75 vessels, 3291 tons; total departures, 157 vessels, 11,553 tons.

In the busy season, *i.e.* between the months of March and October, it is no unusual thing to find from a dozen to twenty vessels lying at Circular Head at one time; and a string of upwards of 30 bullock teams laden with produce may frequently be seen on the beach leading from the out-lying farms to the wharf. The shipping business at this place is larger than at any other sub-port on the north coast. Considerable quantities of timber, &c., are shipped from Brickmaker's Bay and Duck River.

The exports of timber, grain, potatoes, &c., from Circular Head to the neighboring colonies during the year 1866 had a value of £28,488 13s. 8d. In addition to these foreign exports, large quantities of produce are shipped coastwise to Launceston, including nearly all the wool, which is transhipped to London. The value of imports at Stanley in the same year was £6,584 13s. 8d., the duties and dues collected thereon amounting to £759 15s. 11d. These imports are exclusive of goods shipped from Launceston by coasting vessels. The goods imported direct to Stanley form but a small proportion of those actually consumed, as in the absence of a Bonded Store, nearly all the spirits, tobacco, and most expensive articles of consumption are obtained from Launceston. The unprecedented low prices of all kinds of farm produce during the year 1867 has had a most depressing and injurious effect upon the agricultural community. The following statistics for the portion of the year extending to 14th December, show a disastrous falling off in the value of exports as compared with those of former years, which it will be seen has very materially diminished the amount of imports and collections:—

Value of exports, £16,032 4s. 6d. ; ditto imports, £3,929 11s. 10d. ; Customs' collections, £474 0s. 1d. ; *i.e.*, duties, £248 8s. 1d. ; wharfage, £30 0s. 6d. ; light dues, £143 11s. 4d. ; harbour dues, £52 0s. 2d.

INLETS.

The east and west inlets each extend more than two miles inland. They are situated respectively to the east and west of the Isthmus, connecting the Circular Head peninsula with the main land, and possess the same peculiar features. At high water they present the appearance of lakes, but as the tide ebbs are converted into extensive swamps of sand and mud, forming in many parts very dangerous bogs. For about half a mile from the junction with the open sea the channels are deep and narrow.

RIVERS.

Detention, Black, Duck, Montagu, Harcus, Welcome, Hellyer, Arthur, M'Intosh or Pieman, with many smaller streams.

MOUNTAINS.

Eldon Range.—The original range of this name (not the same as that in Sprent's map), first visited by the late energetic explorer, Henry Hellyer, is described by him as composed of conglomerate—a formation which underlies a vast area in the district, and is frequently seen on the surface. This range lies on the south side of the M'Intosh River, between the tributary waters of the Brougham and Canning, and is one of the most extensive in Horton.

Blue Peak Range.—A considerable range, but little known, lying between the Rivers Hellyer and Arthur. Precipices of slate of great height are frequent therein.

Campbell Range.—A wooded basaltic and slate range of a broken character north of the River Hellyer. Mount Cleveland, Mount Block, and many others of a considerable height.

HARBOURS.

The mouths of the several rivers before enumerated are generally easy of access at high tide. In addition to these may be named the Woolnorth and Hunter Island anchorages, Robbin's Passage, Duck Bay, and Circular Head Bay, all of which are well sheltered, and are occasionally visited by storm bound vessels.

REMARKS.

The Circular Head District contains much of the finest agricultural land in the Island, but it has also immense barren wastes, where the conglomerate, schist, quartz, and metamorphic rocks prevail. Recent partial explorations by Mr. S. B. Emmett of the neighborhood of the Arthur and Hellyer Rivers would lead to the belief that extensive and hitherto unknown plains of good grazing land are situated in the western portion of the district. The agricultural lands of the district lie chiefly, if not entirely, on basalt and clay. The settled portions are progressing at a rate which doubles the population in about six years, but that progress is very much retarded by the circumstances under which the settlement of its lands has to be effected. Every acre of the richest land is covered with a jungle of the densest character. Gigantic trees tower aloft to a height varying from 200 to 300 feet ; these are *thickly* spread, and between them grow underwoods of various species with branches interlacing at every foot ; between these last grow ferns and other small plants, so that the mere aspect of the spot to be cultivated often deters the awe-struck

immigrant from cutting out a home in such a formidable looking place. The cost of rendering such land fit for the plough may be averaged at from £10 to £15 per acre, yet so fertile is the soil that an ample remuneration awaits the enterprising man who dares to persevere in the arduous task necessary to reclaim it. Another circumstance which retards the progress of this part of the colony is the want of roads and bridges. It is exceedingly difficult to get from one end of the settled portions to the other, and consequently the commercial communication is chiefly by water, in small vessels of inferior class. Indeed, the difficulty in reaching the older and more settled districts of the island is so great, and the facilities of communication with Victoria so many (the distance from Stanley to Melbourne Heads being only about 160 miles), that the district is almost as much connected with the latter colony in all commercial matters as it is with the other parts of Tasmania. The danger attendant upon the attempt to make an overland journey to Circular Head from any other part of Tasmania is so great, that it would be highly imprudent for a stranger to venture without a guide, unless previously furnished with precise information as to the position of rivers, &c. In fact, the bridle track from Table Cape to Circular Head presents a succession of traps into some of which a traveller is almost certain to fall if he does not possess such information, and take care to study the state of the tides before commencing the journey. Many lives have been lost through unwary travellers not receiving timely warning of the nature of the difficulties to be encountered; and it may not be out of place in a "Guide to Tasmania" to attempt a short description of the route in question. From Table Cape to Rocky Cape (a distance of over 20 miles) the mail is conveyed over one of the worst bush tracks in the colony, many of the hills being so steep as to render it necessary to use hands as well as feet in clambering up their sides. These hills being very rough and slippery, and the narrow path sometimes winding along the edge of precipitous slopes, one is exposed to some risk in leading even the most surefooted horse. The Sisters Creek, about 3 miles from Rocky Cape, is the only stream on this portion of the road, and cannot safely be crossed at high tide. A stranger having passed the Rocky Cape, sees an apparently uninterrupted line of sand beach, extending about 20 miles to Circular Head, (of which place a splendid view presents itself), and, if alone, he naturally imagines that all his difficulties are surmounted; but he is speedily undeceived, for a pleasant canter of about two miles along the beach brings him to the Detention River, which can only be crossed at the bar at low water (it is necessary to be cautious always to cross the rivers in this neighborhood at the bar below low water mark, as dangerous quicksands exist higher up.) The next obstruction is the Crayfish Rivulet, which, although it is a much smaller stream than the Detention River, is unsafe to ford at high tide. The Black River is some nine miles from the Detention, and of about the same size, and like it impassable at its mouth, except at low water; but it is bridged about a mile and a half from the sea. The distance from the Black River to Stanley is nine miles. Instead of following the beach the whole of this distance it is necessary to turn off at a right angle to the beach, two and a half miles from the Black River, and proceed about half a mile over an open sandy country to cross an arm of the sea, known as the East Inlet. This can only be forded with safety, when the tide has partly ebbed, at one spot near its head, where it is half a mile in breadth, and which is sufficiently distinctly indicated by marks of cart wheels, &c. The remainder of the Inlet, though for the most part dry at ebb tide, consists of quicksands and soft mud, so that no deviation from the road generally used can be made without the greatest risk. The Inlet being safely passed, five or six miles of sand-beach extend to the township of Stanley. Unless a traveller

turns off the beach as above described, he will upon reaching the deep channel at the mouth of the Inlet have to turn his back upon Stanley and ride along the water's edge for nearly three miles before he reaches the ford. A more level line of road between Table and Rocky Capes has been discovered at a distance of a few miles from the sea coast, and it is to be hoped that no time will be lost by the local Road Trusts and Boards of Works in opening out such road and erecting bridges over the dangerous rivers alluded to. There is no doubt that a good road in this part of the Horton district will materially assist the progress of its settlement, and if to this were added a liberal policy on the part of the Van Diemen's Land Company, who hold immense estates in the district, that progress would be rapid. The water communication with Launceston is attended with some little danger, owing to the smallness of the crafts engaged in the trade. Many small coasting vessels have lately foundered on the North Coast, with the total loss of crews and passengers. Steam communication would prove a great boon to the inhabitants, and would probably lead to an influx of summer visitors at Stanley, than which no place is more eminently suited for the comfort of those who might wish to exchange the heat of Victoria for the pure cool air of Tasmania. A healthier and pleasanter seaside summer retreat could not exist; a hot wind is a thing never alluded to as being among the reminiscences of the "oldest inhabitant." The peninsula on which the township is built, is approached on both sides by sandy beaches of many miles in length, on which conchologists may collect the rarest and most beautiful species of shells, including large specimens of the cowry, volute, &c. Lovers of scenery may obtain a magnificent view of the surrounding romantic country and coast line by ascending the steep sides of the promontory which looms over the town, or, by making an excursion of about two miles to the Western Plains on the north end of the Peninsula, may spend a few hours very pleasantly in roaming through several hundred acres of rectangular paddocks of the richest soil and luxuriantly coated with English grasses, clover, &c. These fields are enclosed for the most part by straight hawthorn hedges, and intersected by numerous lanes, and are universally admitted to present one of the most thoroughly English pieces of rural scenery that are to be met with in the colony. A ride to the Forest, six miles from Stanley, will amply repay the visitor. The country in this district is characterised by immense beds of timber, and that almost tropical vegetation peculiar to the North Coast. Some of the cultivated farms here are very picturesque. These farms are well watered all the year round by running streams, on the banks of which are to be seen beautiful specimens of the Tasmanian fern tree. There are but few large landed proprietors, besides the Van Diemen's Land Company. The majority of the farmers are a highly respectable body of men, and in more comfortable circumstances than persons in the same position in other districts. A stranger cannot fail to be favorably impressed by the unanimity and good feeling displayed by the population, among whom the petty local strife that is but too often a characteristic of small communities appears to be utterly unknown.

Corra Linn, situate a short distance from St. Leonards, is much frequented by visitors, and by pic-nic parties from town, on account of its picturesque scenery. *The Devil's Punch Bowl*, on the Penquite Estate (Launceston), is a deep and precipitous gorge, as if cut out of the solid rock. *The Cataract*, Launceston, with its basin above, is much admired, the difficulty of access perhaps adding to the zest with which tourists visit this place. In summer many pic-nic parties resort thither. A new iron single-arch bridge (span of190 feet) has been erected over the mouth of the Cataract River, and was opened in February, 1864.

The land in this municipality is adapted for cattle, sheep, dairy, and agricultural purposes. Several good stone quarries are to be found, which produce strong and suitable building stone. It also abounds in capital timber. In the south-eastern part, called the Blue Hills and the Bluff, the potato is largely cultivated, and the crops are generally fine and abundant. Game is plentiful in the season, and kangaroo and rabbits abound in some parts of the municipality. The Great Lake Road District includes a considerable portion of this municipality on the western side. The Dulverton Lagoon, or Lake Frederick, is a fine sheet of water when full, and abounds with wild ducks at times. This district is capable of vast improvement. The enterprising proprietor of Mona Vale is setting his neighbours a bright example by having erected a stone mansion, and made many improvements on his estate in this district. The climate is bracing.

The River Mersey empties itself into Port Frederick, which is a safe and commodious port, easy of access to vessels up to 500 tons; rise and fall of tide, 13 feet; ordinary water on the bar at high water, 19 feet; low water, 7 feet; spring tides as much as 18 to 20 feet. The entrance is well buoyed and beaconed, and an accident of any kind very rarely occurs. There is a licensed pilot, who also acts as harbor-master. An excellent jetty or wharf has been built at the township of Torquay, and is provided with a tramroad and truck for the accommodation of the shipping. The exports consist of coal, timber, farm produce, fruit, bacon, butter, and cheese.

Port Sorell, *i.e.*, port of Burgess, River Rubicon, 12 miles east of the Mersey; about 17 feet on the bar at high water. Exports—Palings and agricultural produce.

Port Formby, River Don, 3 miles west of the Mersey; 10 feet on the bar at high water. Exports—Timber and agricultural produce, coals, &c.

Port of Leith, River Forth, 5 miles west of Port Formby; about 14 feet on the bar at high water. A port of entry. Exports—Timber and agricultural produce.

Port of Ulverstone, River Leven, 5 miles west of port of Leith; about 10 feet on the bar at high water. Exports—Timber and agricultural produce. Parliament has voted £10,442 for the construction of a tramway at this port.

Penguin Creek, 5 miles west of the port of Ulverstone. Exports—Timber and agricultural produce.

River Blythe, 5 miles west of the Penguin Creek; about 10 feet water on the bar at high water. Palings and agricultural produce shipped coastwise.

Good agricultural land in the vicinity of all these rivers can be obtained from the Government at one pound sterling per acre.

The Mersey and Deloraine Tramway Company are rapidly progressing with the railroad, thereby opening up a large amount of level country and valuable land. The Mersey bids fair to become a thriving and favorite watering place. A brisk trade is carried on from the different rivers to Melbourne, Sydney, New Zealand, Wallaroo, Adelaide, Brisbane, Queensland, Portland Bay, Port Fairy, and Victor Harbor. Vessels requiring repairs can be accommodated with promptitude, and with reasonable charges, at Torquay and Don. At the latter place a gridiron is constructed, capable of taking up a vessel of 250 tons.

Messrs. Cumming, Raymond & Co. are the proprietors of a steam sawmill, extensive coal mines, &c., at the Don, about four miles from Torquay, where they give constant employment to about sixty men. Copper has been found at the Penguin, as well as lead and plumbago. The timber is of the finest quality, and admirably suited for the Indian market and for ship-building.

FIRE and MARINE RISKS are taken by this Company, and claims for loss or damage upon the latter are made payable in London if required, Policies for the same being granted in triplicate. Parties insured by this office against risk of fire are requested to take notice that annual policies which expire on the 1st February, 1st of May, 1st of August, and 1st of November must be renewed within fifteen days thereafter, otherwise they become void; receipts for the premiums upon such renewal are always ready on those dates at the office of the Company, Stone Buildings, Hobart Town.

Fire Engine in Hobart Town, under the care of Mr. Brown, Bathurst-street; and at Launceston, Mr. Weedon's.

THE STANDARD LIFE ASSURANCE COMPANY,

ESTABLISHED 1825,

With which is now united

THE COLONIAL LIFE ASSURANCE COMPANY.

COLONIAL AND FOREIGN ASSURANCES.

An amalgamation having been formed between the Standard Life Assurance Company and the Colonial Life Assurance Company, the business of the United Companies will henceforth be conducted under the title of

THE STANDARD LIFE ASSURANCE COMPANY.

The Annual Revenue of the Standard Company is now upwards of £650,000, and the Accumulated Funds amount to upwards of £3,700,000 sterling. The New Business transacted during the past year amounted to the large sum of £1,440,000 sterling, the corresponding Premiums amounting to upwards of £45,500 per annum.

LOCAL BOARDS AND AGENCIES in all the British Colonies where every facility will be afforded in the transaction of business, and where Premiums may be received and Claims paid.

PROFITS divided every five years, and Foreign Prospectus may be had on application at the Offices of the Company. Moderate rates of Premium, and liberal conditions as to residence.

No charge made for voyages to Europe, or throughout the Australian Colonies and New Zealand.

ROYAL INSURANCE COMPANY, FIRE AND LIFE.

Capital—TWO MILLIONS STERLING.

Annual Revenue considerably exceeds £400,000.

THE estimation in which this Company is held in England, and the perfect confidence reposed by the wealthy classes in its resources, is evidenced by the fact that the Corporation of the City of London, on the occasion of the visit of H.H.R.H. the Prince and Princess of Wales to the City, effected an Insurance for £50,000 on the additions and decorations to the Guildhall, and selected this office, as can be seen in the Money Article of *The Times* of 1st June, 1863, out of fifty-one Companies for this purpose.

LIFE BONUSES DECLARED 1860 and 1865.

Two per cent. per annum on the Sum Insured, said to be the largest ever continuously declared by any Company.

PROFITS DIVIDED EVERY FIVE YEARS.

The enormous capital and Reserve fund of this Company is offered to Insurers in this Colony.

To Insurance of Lives, there is no question so important as that of security, and the estimate in which this Company is held in England is evidenced by the unexampled increase of its business.

J. F. HOBKIRK, Agent,

N. WEETMAN, Sub-Agent,

St. John-street, Launceston.

Country risks are now insured by this Office.

NORTHERN FIRE AND LIFE ASSURANCE COMPANY.

ESTABLISHED in 1836.

Incorporated by Special Act of Parliament.

Capital	£2,000,000
Invested Funds	800,000

Head Offices—London, Aberdeen, Melbourne, and Sydney.

FIRE DEPARTMENT.

This Company grants insurances against Fire on every description of property at the current rates of premium.

LIFE DEPARTMENT.

The rates are lower, while the bonus additions already declared and paid to the policy holders are considerably higher than those of most Companies transacting Life Business in Australasia, and will be found peculiarly favorable to young assurers.

The wnole of the profits are divided amongst the participating assurers, less a charge of 10 per cent. on premiums for expenses of management. All the advantages of a Mutual Association are thus combined with the security of a Proprietary Company. One-third of the annual premiums under Table I, may remain on credit to be deducted from the sum assured when the policy becomes a claim, or be previously paid off at convenience, interest being charged thereon at the rate of six per cent. per annum.

Or one-half of the first five annual premiums may remain on credit in like manner till the policy becomes a claim.

ENDOWMENT FOR CHILDREN.

In addition to the ordinary Life Business, the Northern Assurance Company extend to their clients the advantage of effecting endowments on the lives of their children; thus securing a certain sum to be appropriated either in completing the education of a child, in paying the preliminary expenses of a professional occupation, embarking in mercantile pursuits, or, in the case of a daughter, as a marriage portion.

Prospectuses, Proposal Forms, Tables of Rates for Fire and Life Assurance and Endowments on Children, with every other information can be obtained upon application at the office of the undersigned.

MINERAL TEETH, which never decay, nor change color, and so closely resemble natural teeth as to defy detection, fitted to the mouth without extracting stumps, or causing pain,—mounted on Pure Gold Plate, or VULCANITE, this material ensures an accuracy of fit, hitherto unattainable, and restores the impaired functions of articulation and mastication.

MR. SHARP wishes to urge upon parents the necessity of having their children's teeth attended to, as in many cases of deformity or over-crowding a little timely precaution prevents much misery.

Teeth STOPPED with pure Gold or White Enamel Cement.

Teeth extracted WITHOUT PAIN under the influence of Chloroform or Ether Spray.

Mr. S. supplies a TOOTH POWDER for removing the brown discoloration of the front teeth; also SHARP'S SPECIFIC for Toothache.

JOHN ELLIS.

To Parties Intending to Build.

The Undersigned begs to notify that his offices are in St. John-street, above the Cornwall Insurance Office, where he is prepared to execute designs for every class of building.

He would take this opportunity of referring to an experience of ten years in Launceston, during which period he has designed and supervised the erection of numerous buildings, comprising some of the best erections in town and its vicinity.

Parties desirous of building can inspect at his office *(gratis)* plans of buildings of every description to assist them in making selections of designs required, and will be furnished with all necessary information. P. MILLS can refer with confidence to the various works executed here as confirmation of his ability as a practical constructive architect, the result of much experience in all the details of modern building science, evidencing his skill as a designer, and thorough knowledge of materials.

Digestive Elixir of Pepsine,

GRIMAULT & CO., CHEMISTS, PARIS.

PEPSINE, the latest scientific discovery of Dr. Condsart, Physician to H. M. the Emperor of the French, is the gastric juice itself, or rather the digestive principle purified, which digests food in the stomach. The ELIXIR OF PEPSINE, which is sanctioned by the approbation of the Paris Academy of Medicine, speedily cures all such diseases, and prevents vomiting during pregnancy.

DISEASES OF THE CHEST!—SYRUP OF HYPOPHOSPHITE OF LIME.—GRIMAULT & CO., Chemists, Paris—Each tablespoonful of syrup contains four grains of perfectly pure Hypophosphite of Lime: and as compounded by M. M. Grimault & Co., of Paris, this syrup is the only preparation which guarantees to the medical profession all the properties required in this valuable medicine.

DR. LERAS'S PHOSPHATE OF IRON.—This new ferruginous medicine contains the elements of the bones and blood and iron in a liquid state It is different from all hitherto offered to the public, is liquid, colourless, and tasteless; it speedily cures chlorosis, pains in the stomach, difficult digestion, dysmenorrhœa, anœmia, and advantageously supersedes carbonate of iron, iron reduced by hydrogen, lactate of iron, the pills of potassiotartrate of iron, and iodide of iron.

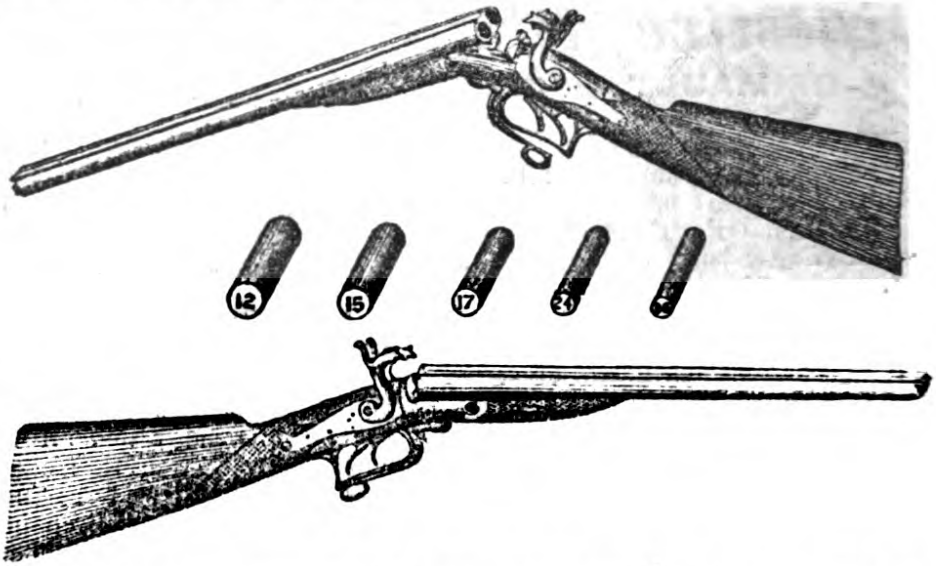

NO MORE COPAIBA and CUBEBS.—GRIMAULT'S CAPSULES and LIQUID EXTRACT OF MATICO VEGETALIS.—Where all other medicines have failed these preparations will always effect a cure. These ensure rapid and extraordinary cure of severe recent and chronic cases of gonorrhœa. The injection is used in recent and capsules in the more chronic cases.

NEW AND MOST VALUABLE MEDICINES OF GRIMAULT AND CO., Chemists to H. I. H. Prince Napoleon in Paris for hitherto intractable and incurable diseases. No more Cod Liver Oil. GRIMAULT'S SYRUP OF IODIZED HORSE RADISH, prepared by GRIMAULT & CO., Chemists, Paris. according to the Certificates of the Physicians of the Paris Hospitals detailed in the printed directions, and with the approbation of several academies, this syrup is employed with the greatest success in place of cod liver oil, to which it is infinitely superior. It never fatigues the stomach and bowels like iodide of iron, and is administered with the greatest efficacy to young children subject to humours or obstruction of the glands.

DR. BURIN DU BUISSON'S DIGESTIVE LOZENGES AND POWDERS OF THE ALKALINE LACTATES.—The Alkaline Lactates exercise the most beneficial influence over the derangements of digestion, either by their peculiar action on the mucous membrane of the Stomach, or by affording to the latter through their combination with the saliva to the gastric juice a supply of lactic acid, which all English, French, and other physiologists admit to be an essential principle of digestion. Headache, pain in the forehead, hemicrania, gastritis, gastralgia, heartburn, wind in the stomach and bowels loss of appetite, emaciation, &c. All these soon disappear under the action of the Alkaline Lactates, which may be always had in lozenges or powder.

General Depôt—In Paris, at Grimault & Co.'s, Chemists to H. I. H. Prince Napoleon. In London, at Maw & Son's, 11, Aldersgate-street.

Sole Agent for Tasmania—F. G. SPICER, Launceston. Hobart Town—Hinsby & Calvert. Evandale—James Davis. Longford—Hatton & Laws. Westbury and Deloraine—H, Gamble. Torquay—J. M'All. River Forth—J. Wragg.

BREECH-LOADING RIFLES,

Equally available as a MUZZLE-LOADER, with Government ammunition. This Rifle has been pronounced by eminent critics—both Military and Sporting—as the most perfect and simple extant. The prizes given by the *Saturday Review* at Wimbledon, 1865, were all won by Rifles on this principle against Mont Storms, Henry, and others. Price from 5 Guineas and upwards. Volunteer Corps supplied on liberal terms with this admirable weapon.

REVOLVERS to load with Capsules, containing the entire charge or otherwise, from 65s. and upwards. AIR CANES and APPARATUS, from 75s. NEEDLE and OTHER PEA RIFLES, for Rook, Rabbit, and Sea-Fowl Shooting, from 90s. SINGLE and DOUBLE WILD FOWL GUNS, large bores, from 5 Guineas. CIDER.

DIRECT ACTION MACHINES.

Full Directions for Preparing *all* the above Drinks are sent with each Machine.

A List, containing the directions of upwards of 200 Machines now in use in the United Kingdom, forwarded on application.

Many of these Machines have been in constant use for 25 years without requiring any repairs.

S. BARNETT, by confining his manufactory to only two branches, namely, SODA WATER MACHINES and DIVING APPARATUS, and his whole attention being given to these branches, it must be obvious that every part has been the subject of his most careful study, so that any derangement of parts can hardly occur. All the Machines made by S. BARNETT are constructed under his own superintendence, and proved to four times the pressure they are ever required to be worked at. S. B. being so well aware of all the requirements of persons using Machinery where *mechanical assistance cannot be obtained*, has paid full attention to this point, as the great number of testimonials in his possession will prove.

The number of dozen per day that it is stated each machine will make, means hand labor, but if steam or other power is used, the product is greatly increased.

No. 1	Machine,	300	dozen	per	day	£65	Prize Medal Bottling Apparatus..	£9 0
No. 2	,,	200	,,	,,		60	Wiring Stand	4 10

No. 5	,,	60	,,	,,		45	and 2 revolving Brushes complete	6 10

These "Improved" Soda Water Machines are warranted superior to any hitherto manufactured for solidity of construction, power, and simplicity. They are also admirably calculated for exportation as they are packed in one case, without taking them to pieces, and can be set to work, and Soda Water or Lemonade made from them in half-an-hour after arrival. These machines are also used to manufacture Ginger Beer, Orangeade, Nectar, Seidlitz, Carrara, &c.

KEATING'S COUGH LOZENGES.

TRADE MARK.

A SAFE and CERTAIN REMEDY for COUGHS, COLDS, HOARSENESS, and other Affections of the Throat and Chest. In INCIPIENT CONSUMPTION, ASTHMA, and WINTER COUGH they are unfailing. Being free from every hurtful ingredient, they may be taken *by the most delicate female or the youngest child;* while the PUBLIC SPEAKER and PROFESSIONAL SINGER will find them invaluable in allaying the hoarseness and irritation incidental to vocal exertion, and also a powerful auxiliary in the production of MELODIOUS ENUNCIATION.

Saffron Walden, July 11th, 1844.

I have used KEATING'S COUGH LOZENGES these last 20 years, and have always derived benefit from them. About twenty-two years ago I was exceedingly ill with a COUGH, and could get no relief from any medicine I tried; a gentleman recommended me to try these LOZENGES, which I did, and found *immediate relief*, and I think *two boxes* effected a COMPLETE CURE. I had already had the advice of an eminent physician and two surgeons, but nothing they ordered for me did me any good.

I remain, dear Sir, yours truly,

To MR. KEATING. J. MILLER.

P.S.—I shall always feel the greatest confidence and pleasure in recommending them.

Prepared and Sold in Boxes, Tins and Bottles of various sizes, by THOMAS KEATING, Chemist, &c., 79, St. Paul's Churchyard, London. Sold Retail by all Druggists and Patent Medicine Vendors in the World.

CHILDREN'S WORM TABLETS

(KEATING'S.)

THE great remedy for these disorders in Children can now be administered IN THE FORM OF A PURELY VEGETABLE SWEETMEAT, at once agreeable and effective.

Prepared and Sold in Tins of Various Sizes, by THOMAS KEATING, Chemist, &c., 79, St. Paul's Churchyard, London, E.C., and retail by all Druggists and Patent Medicine Vendors in the World.

KEATING'S PERSIAN INSECT DESTROYING POWDER.

THIS Powder is quite *harmless to animal life*, but is unrivalled in destroying Fleas, Bugs, Flies, Cockroaches, Beetles, Gnats, Mosquitos, Moths in Furs, and every other species of Insect. SPORTSMEN will find this an invaluable remedy for destroying FLEAS IN THEIR DOGS, as also LADIES FOR THEIR PET DOGS. Being the Original Importer of this now invaluable article, which has found so great a sale that it has tempted others to vend a so-called article, the Public are therefore cautioned to observe that the Packets of the Genuine Powder bear the autograph of THOMAS KEATING.

Sold in Packets, Tins, and Bottles, of various sizes, by THOMAS KEATING, Chemist, 97, ST. PAUL'S CHURCHYARD, LONDON, E.C.

CHOLERA, DYSENTERY, &c.

EARL RUSSELL has graciously favored J. T. DAVENPORT with the following :—Extract of a despatch from Mr. WEBB, H.B M.'s Consul at Manilla, dated September 17th, 1864.—"The remedy most efficacious in its effect (in Epidemic Cholera) has been found to be Chlorodyne, and with a small quantity given to me by Dr. Burke I have saved several lives"

CAUTION—CHLORODYNE.

VICE-CHANCELLOR SIR W. P. WOOD stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of Chlorodyne; that the statements of the defendant Freeman were deliberately untrue, and he regretted to say they had been sworn to. Eminent Hospital Physicians of London stated Dr. COLLIS BROWNE was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. BROWNE'S.—See *Times*, July 13th, 1864. Subsequently confirmed by the trade at large. See the *Lancet*, April 8th, 1865. The public, therefore, are cautioned against using any other than

DR. J. COLLIS BROWNE'S CHLORODYNE.

THIS INVALUABLE REMEDY produces quiet refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times, when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively, using it in great quantities in the following diseases:—

Consumption, Asthma, Bronchitis, Whooping-Cough, Neuralgia, Diarrhœa, Rheumatism, Spasms, &c.

Important Testimonials from numerous Medical Men accompany each Bottle.

SERIOUS RESULTS HAVE ARISEN FROM THE USE OF SPURIOUS CHLORODYNE.

CAUTION.—Always ask for "Dr. J. COLLIS BROWNE'S CHLORODYNE," and see that his name is on the Government Stamp.

The immense demand enables the Proprietors to Reduce the Price. It is now sold in Bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s., double quantity hitherto.

IMPORTANT CAUTION!

GROSS FRAUDS are now being practised by obscure Manufacturers, more particularly in France and Germany—who imitate the labels of A. ROWLAND & SONS' Perfumery. To prevent the substitution of counterfeits for the *genuine* articles, it is requested to purchase only of respectable dealers, and to observe the annexed small copies of A.R. and S.'s labels as they appear round the articles.

ROWLAND'S MACASSAR OIL, for promoting the growth, restoring, improving, and beautifying the human hair. Each bottle has a *Glass Stopper*, instead of the cork, as formerly—all with the *cork* are counterfeits.

ROWLAND'S KALYDOR realises a healthy purity of complexion, and a softness and delicacy of skin, eradicates freckles, tan, pimples, spots, and discolorations. Each bottle has a *Glass Stopper*.

ROWLAND'S ODONTO, or PEARL DENTIFRICE, imparts a pearl-like whiteness to the teeth, eradicates tartar, strengthens the gums, and renders the breath pure and fragrant.

ANTIBILIOUS PILLS,

AS PREPARED BY

WEAVER & CO.

CHEMISTS.

These Pills, being prepared from purely *Vegetable Extracts*, are free from the objections usually advanced against Proprietary Medicines (on account of their containing *mineral preparations)*. These Pills act as a mild Laxative, regulate the Secretions, produce a healthy action of the Liver, promote Digestion, and do not produce Constipation after their immediate action has ceased.

TESTIMONIALS.

Hobart Town, 30th January, 1864.

Dear Sirs,—I cannot leave the colony without acquainting you that I have for many years derived great benefit from your Antibilious Pills, insomuch that, under Providence, I ascribe the vigorous health and green old age enjoyed by me, at over eighty years of age, to a free use of that Invaluable Medicine. Indeed, the best proof of the estimation in which your Antibilious Pills are held by me, is that I have taken Forty Dozen of them to England; and I have no hesitation in pronouncing them one of the *best and safest medicines in the world.*

Jas. Duff Mackay.

45, Euston-square, London, September 26, 1865.

Dear Sirs,—Many thanks for your prompt attention to my commission,—the Pills came to hand in fine condition. I now request that you will have the goodness *to send me another box containing twenty dozen of the same Antibilious Pills*, per first mail, to my address as above.

WEAVER'S
RE-CARBONATED
FLUID MAGNESIA.

THE high estimation in which FLUID MAGNESIA has been held for many years has induced the Proprietors to manufacture the above preparation in a state of great purity, and of uniform strength—thus affording the *Medical Practitioner* an opportunity of administering *this safe and effectual Medicine* with confidence, and giving to the public generally a remedy which can at all times be used with safety and success, either alone or in combination with the ACIDULATED RASPBERRY SYRUP. As most of the FLUID MAGNESIA commonly sold is of uncertain strength, and seldom contains the quantity represented, MESSRS. WEAVER & CO. have imported apparatus at a great expense, for the purpose of manufacturing FLUID MAGNESIA on a large scale, and with which they can produce a solution of great purity and uniform strength.

DIRECTIONS FOR TAKING "WEAVER'S FLUID MAGNESIA":

For *Indigestion, Heartburn, or Pain after Eating*—Half a wine glassful, and repeat if necessary. For *Urinary Pains, Gout, or Gravel*—Half a wine glassful three times a day. For *Sickness, Irritation of the Stomach, or Headache*—Half a wine glassful mixed with an equal quantity of water, and a dessert spoonful of the ACIDULATED RASPBERRY SYRUP *every three or four hours*, and drunk whilst effervescing. For *Costiveness*, either *habitual or occasional*, a wine glassful of WEAVER'S FLUID MAGNESIA taken early in the morning, and repeated if necessary, will prove a safe laxative, the strength being increased by an admixture of the proper proportion of ACIDULATED SYRUP. As a remedy for most of the ailments to which *Children* are liable, this preparation stands unrivalled, as it acts instantly as a corrective, neutralizing acidity, relieving flatulence, and allaying the pain consequent upon it, producing a gentle and healthy action of the bowels. During the oppressive heat of summer WEAVER'S RE-CARBONATED FLUID MAGNESIA mixed with the proper proportion of the ACIDULATED RASPBERRY SYRUP, instantly produces the most *Refreshing Beverage*, in which the flavor of the *Raspberry* is fully developed, and the degree of cold consequent on the formation of the CITRATE OF MAGNESIA, is nearly equal to an *Iced Beverage*.

CAUTION.—*The great strength of this FLUID MAGNESIA renders it necessary to cork the Bottles quickly and securely after opening, so as to prevent crystallization.*

TESTIMONIALS

In favor of WEAVER'S RE-CARBONATED FLUID MAGNESIA and ACIDULATED RASPBERRY SYRUP.

Messrs. Weaver & Co. Hobart Town, October 11th, 1866.

GENTLEMEN,—Having examined the FLUID MAGNESIA and RASPBERRY SYRUP manufactured by you, I have much pleasure in reporting that the former contains a larger proportion of the Alkaline Earth than any imported to the Colony; and that the latter contains the real juice of the RASPBERRY. The effervescing draught made by the mixture of the two, forms a most delicious and refreshing beverage, and is possessed of valuable therapeutic qualities.

I have the honor to be, Gentlemen, your obedient servant,
GEORGE TURNLEY, Resident Medical Officer, General Hospital.

I have carefully examined the RE-CARBONATED FLUID MAGNESIA prepared by MESSRS. WEAVER & CO., and testify that it is *decidedly superior to most of the preparations* of this medicine with which I am acquainted. *The quantity of Magnesia it contains is so large* that I do not think for medicinal use it can be surpassed.

Hobart Town, October 16th, 1866. J. W. AGNEW, M.D.

Hobart Town, October 16th, 1866.

I have examined a sample of the RE-CARBONATED FLUID MAGNESIA manufactured by MESSRS. WEAVER & CO., Chemists. I find it to be a very pure and strong solution, and believing it to be prepared only with the greatest care, and of the best materials, *I intend to prescribe it in preference to that of any other maker.* With the ACIDULATED RASPBERRY SYRUP in effervescence it is not only a *very safe and palatable laxative*, but *really a delicious drink for a hot summer's day*, with the genuine *Raspberry flavor*, and superior to anything of the kind which I have ever tasted. I can with confidence strongly recommend both preparations. R. S. BRIGHT, M.R.C.S., Eng., L.S.A.

Elizabeth-street, Hobart Town.

I have much pleasure in testifying to the very superior quality of FLUID MAGNESIA manufactured by MESSRS. WEAVER & CO., Chemists, of this City. It contains as large an amount of CARBONATE OF MAGNESIA as can properly be held in solution without deposit. In combination with their RASPBERRY SYRUP it forms a most *agreeable cooling drink*, possessing a flavor superior to anything yet produced. A further advantage to the purchaser is, that the bottles contain (in their relative sizes) considerably more in quantity than any other preparation of the kind hitherto sold. JOHN DOUGHTY, M.R.C.S.L.

Mr. Weaver, Macquarie-street, Hobart Town.

SIR,—The samples of GRANULATED IRON and QUININE, &c., and also the FLUID MAGNESIA, I have carefully examined, and with pleasure bear testimony to the *nicety of preparation and convenience of form* for administration. From their effervescing character, they will be much more agreeable than those in ordinary use.
