# HEBREW FASTS AND FESTIVALS.

## תרל-לא A.M. 5630--5631. C.Æ. 1870.

תענית אסתר Fast of Esther, Wednesday, March 16th.

פורים Feast of Purim, fall of Haman, Thursday, March 17th.

פסח Passover begins Saturday* and Sunday,* April 16th and 17th, and ends Friday* and Saturday,* April 22nd and 23rd.

שבועות Feast of Pentecost, Decalogue given, Sunday* and Monday,* June 5th and 6th.

שבעה עשר בתמוז Fast of Tamuz, Jerusalem besieged, Sunday, July 17th.

תשעה באב Fast of Ab, total destruction of 1st and 2nd Temples and dispersion of the Jews, Sunday, August 7th.

ראש השנה - תרלא New Year, A.M. 5631, solemn festival, Monday* and Tuesday,* September 26th and 27th.

צום גדליה Fast for the Murder of Guedaliah, Governor of Judea, Wednesday, September 28th.

יום כפור Day of Atonement, solemn fast, Wednesday,* October 5th.

סכות Feast of Tabernacles, Monday* and Tuesday,* October 10th and 11th.

הושענא רבה Feast of Branches, Sunday, October 16th. Prayers are offered that the following year may not be one of drought.

שמיני עצרת Eighth-day Festival, Monday,*October 17th.

שמחת תורה Rejoicing of the Law, Pentateuch ended and re-commenced, Tuesday,* October 18th.

חנוכה Feast of Dedication, Cleansing of Temple by Judas Maccabeus after its pollution by Antiochus, begins on Monday, December 19th, and continues for eight days.

Those marked thus * are kept strictly, and no business transacted.

N.B.—All Jewish Festivals, Fasts, and Sabbaths commence on the evening previous.

# A SUMMARY OF THE PRINCIPAL ASTRONOMICAL AND METEOROLOGICAL OCCURRENCES FOR THE YEAR 1870.

By F. Abbott, F.R.A.S., &c.

Explanation.—*Sun's Rising and Setting*—These numbers show the mean time when the sun's centre, elevated by refraction, appears on the horizon, the eye being on a level with it.

*Phases of the Moon.*—The times are here given to the nearest minute when the moon is respectively 0deg., 90deg., 180deg., and 270deg. of longitude from the sun.

## AUSTRALIAN SEASONS.

Autumn begins March 20d. 11h. 46m. p.m., when the Sun enters Aries.

Winter begins June 21d. 8h. 25m. p.m. (the shortest day), when the Sun enters Cancer.

Spring begins September 23d. 10h. 40m. a.m., when the Sun enters Libra.

Summer begins December 22d. 4h. 29m. a.m. (the longest day), when the Sun enters Capricornus.

## ECLIPSES, 1870.

In the year 1870 there will be four eclipses of the sun and two of the moon.

1. A total eclipse of the moon, visible in Tasmania.

| | *Mean Time at Hobart Town.* h. m. |
|---|---|
| First contact with the penumbra, January 17th... ... ... | 9 45·3 |
| First contact with the shadow, ,, ,, ... ... ... | 10 46·5 |

| Last contact with the shadow, ,, ,, ... ... ... | 2 25·3 |
| Last contact with the penumbra, ,, ,, ... ... ... | 3 26·5 |

Magnitude of the eclipse (moon's diameter=1), 1·653

First contact with the shadow occurs at 90° from the northernmost point of the moon's limb towards the east. The last contact at 79° towards the west; in each case for direct image.

2. A partial eclipse of the sun, January 31, 1870, invisible in Tasmania.

3. A partial eclipse of the sun, June 29th, 1870, visible in Tasmania. Begins on the earth generally June 29th, 7h. 42·5min., Hobart Town time, in longitude 149° 58′ E. and latitude 47° 13′ S. Greatest eclipse June 29th, 9h. 35·9min. Mag. (sun's diameter=1), 0·635, in longitude 169° 39′ W. and latitude 66° 44′ S. Ends on the earth generally June 29th, 11h. 29·2min in longitude 137° 39′ W. and latitude 42° 59′ S.

4. A total eclipse of the moon July 13th, 1870, partly visible in Tasmania.

| | *Mean Time at Hobart Town.* h. m. |

| Last contact with the penumbra, ,, ,, ... ... ... | 11 11·9 |

Magnitude of the eclipse (moon's diameter=1), 1·675

The first contact with the shadow occurs at 81° from the northernmost point of the moon's limb towards the east. The last contact at 87° towards the west. In each case for direct image.

5. A partial eclipse of the sun, July 28th, 1870. This eclipse is not of sufficient interest or importance to require the usual particulars.

6. A total eclipse of the sun, December 22nd, 1870. Invisible in Tasmania.

## PROGRESS OF ASTRONOMY.

New Minor Planet.—Professor C. H. F. Peters, of Hamilton College, Clinton, New York, discovered No. 102 of the group between Mars and Jupiter on the 22nd of August, 1868.

Professor Watson, of Ane Arbor, Michigan, discovered three more of the minor planets in September, 1868. No. 103 on the seventh; No. 104

on the thirteenth, and 105 on the sixteenth. No. 100 has received the name of Hecate, and 101 of Helena. The same astronomer also discovered another of this large group on the 10th of October, No. 106 ; and on the 17th of November Mr. Pogson, at Madras, discovered another, making 107, which makes the number discovered in 1868, 12.

Another new planet, No. 108, has been discovered by Dr. Luther, of Bilk, near Dusseldorff ; this makes the eighteenth which has been detected by Dr. Luther.

In cometary astronomy something has been added to our knowledge. The periodical comets of Encke and Brosen have returned according to prediction, and been well observed. Winnecke's Comet was re-discovered by Dr. Winnecke himself at Carlsruhe, on the night of the 9th of April; it was very faint, but large and diffused, the diameter being as much as 6′ or 8′.

The new powerful agent in astronomy, spectrum analysis, has been applied to comets with success. Mr. Huggins examined the spectrum of Winnecke's periodical comet, and found a close agreement between it and the spectrum of carbon.

In August, 1868, upon the occasion of the great eclipse, renewed attention was directed to the solar prominences ; and not only was their chemical and physical constitution ascertained during the totality, but one of the observers, Mr. Janssen, on the next day found that their spectra were equally visible without an eclipse ; the same discovery was made about the same time, and quite independently, by Mr. Lockyer. The means, therefore, is given of seeing not merely the bright lines of the spectra of the red protuberances whenever the sun shines, but their actual shape is made known as well as during the time of an eclipse. This is one of those many instances of duality in discovery, which the history of science affords so many examples. Mr. Lockyer has observed prominences of the sun, without an eclipse, from which he got the positions of three lines, one corresponding to C, absolutely, one to F, very nearly, and one eight or nine degrees of Kerchhoff's scale more refrangible than the most refrangible D line. Mr. Janssen, in observing the total eclipse on the 18th of August in a spectroscope, arrived at nearly the same result from an immense column of incandescent gas, principally composed of *hydrogen* and *sodium*.

The Transit of Venus in 1874.—It is with much satisfaction we learn that the English Government is not unmindful of the importance of upholding England's scientific reputation on the occasion of the coming transits. All the great nations of Europe and America will, in all probability, be represented by expeditions for observing these rare phenomena. On one of the last nights of the session, Mr. Childers, First Lord of the Admiralty, acting no doubt upon information from and in accordance with the views of the Astronomer Royal, moved in the House of Commons for a vote of £10,500, to defray the expense of the necessary instruments and observations. He explained that this transit will afford an opportunity of solving one of the most interesting problems in astronomy, as it supplies the best possible means for measuring the exact distance of the sun from the earth, this being the unit of most other celestial measures. The Admiralty has ascertained, as nearly as possible, the expense that will be incurred, which is set down at £10,500, and will be spread over the next five years. The resolution for an address to Her Majesty, and undertaking to defray the charge to the amount named, was cordially received and carried unanimously.

Transit of Venus for December the 8th, 9th, 1874—Astronomical time. The following calculation has been derived from M. Le Verrier's tables

of the sun and planet and reduced for the longitude of Hobart Town:—

*Ingress.*

| | h. | m. | s. |
|---|---|---|---|
| External contact, December 8th | 23 | 36 | 11·6 |
| Internal contact, December 9th | 00 | 04 | 59·6 |

*Egress.*

| | h. | m. | s. |
|---|---|---|---|
| Internal contact, December 9th | 3 | 46 | 37·6 |
| External contact, December 9th | 4 | 15 | 35·6 |

Retarded Ingress.—Sun's elevation, 67·0deg.—Acceleration, 2·8 min.
Accelerated Egress.—Sun's elevation, 40·0deg.—Acceleration, 7·6min.

If the adopted longitude for Hobart Town is correct, which from recent and independent observations agree to (0·8sec.) eight-tenths of a second, the trifling difference for such a phenomenon is insignificant. The possible errors of any predictions of the times of contact, from any inaccuracy of the planetary tables, &c., may be very much larger.

| Washington | 38 57 N | 56.89 | 37.76 | 76.74 | 38.98 |

It is clear from the foregoing table that Hobart Town has the most equable climate in the list. This arises from its insular position. Heat absorbed by a fluid increases the rate of its evaporation, and the evaporating process reduces the sensible amount of latent heat which the body has acquired. Every accession of temperature brings with it its own remedy; for at night the process is reversed, radiation takes place more slowly, from which, together with minor causes, in connection with that of sea breezes, the temperature at the surface remains comparatively unaltered and renders our beautiful island the Queen of the South.

The mean in all cases is taken from the sums of the three daily registers, and not from the maximum and minimum.

The direction of the wind is registered from currents moving at a height of 192 feet, and the force according to Lind's Wind Guage. The supposition, however, of a uniform velocity during the month is a very arbitrary one, and the results can be considered only approximately correct.

The relations of the quantities of rain which fell under the different winds are registered each evening at sundown.

The twenty-five years' standard tables are used for obtaining the difference from the average.

GARDENERS' CALENDAR.—*Fruit Garden.*—Where budding is required it may still be performed, choosing, if possible, showery weather. Cut off all surplus shoots from young trees, if they are not required for scions in the Spring. Continue to pinch off all lateral shoots from vines. *Flower Garden.*—Choice carnations may be increased by cuttings and layers with shade and moisture. Choice flowers should be marked for seed. Annuals that have done flowering should be removed, or some will become troublesome weeds. *Kitchen Garden.*—Plant celery in trenches and a succession of French beans; sow turnips when the weather is moist; take up early potatoes that are ripe; gather all kinds of seed as they ripen; cut from strawberries all runners that are not wanted for plants, to give strength to the roots. *Greenhouse.*—Calceolarias, cinerarias, &c., may still be sown. Geraniums that have done flowering should be cut down; re-pot as soon as they begin to make fresh shoots. Cuttings struck now will make good plants next year, with care. Continue to shade and water as directed last month.

JANUARY 6.—Called *Twelfth Day*, as being that number after Christmas, and *Epiphany* from a Greek word signifying "appearance." It is a festival of the Church in commemoration of the manifestation of Christ to the Gentiles,—more expressly to the three magi or wise men of the East who came, led by a star, to worship him immediately after his birth.

GARDENERS' CALENDAR—*Fruit Garden.*—Little is required this month besides attending to the buds. Strawberry runners should be kept moist to form robust plants in time for transplanting in the first Autumn rains. *Flower Garden.*—Cut off all flower stalks as soon as done flowering, except those required for seed. The flowering season is prolonged by cutting off surplus seed as soon as formed. Verbenas, pentstemons, petunias, and other herbaceous perennial plants may now be propagated by cuttings. Encourage asters, chrysanthemums, dahlias, &c., by frequent watering. Use the rake to preserve a neat appearance. *Kitchen Garden.*—In showery weather vegetables may be sown to come in during the Winter. Mark out plants of the cabbage tribe to run to seed. Earth up peas and potatoes; hoe and stir the surface among all descriptions of crops. *Greenhouse.*—As the principal displays of this season are over, turn your attention to preparation for the next by propagating by seed and cuttings and preserving such old plants as are desirable for another year. This is the time for forming plants of the early flowers, too frequently neglected by amateurs until the flowering season. Sow mignonette for Winter flowering.

SEPTUAGESIMA and the next two Sundays are preparatory to the Lenten fast, which begins about forty days before Easter and hence is called Quadragesima. Their names are significant of their situation, thus:—Septuagesima (seventy days), Sexagesima (sixty days), and Quinquagesima (fifty days), before Easter.

GARDENERS' CALENDAR.—*Fruit Garden.*—Prepare borders for forming new beds of strawberries on the first approach of rain. The ground intended to be planted with fruit trees should now be well worked. Collect the leaves as they fall and convert them into manure. *Flower Garden.*—Continue the general directions given for last month, and sow seed of perennial and annual flowers for Spring flowering as they ripen. *Kitchen Garden.*—Sow cabbage, cauliflowers, lettuce, spinach, and onions for early use. Sow turnips, thin out those sown last month. Earth up celery, take up potatoes, and house onions when well dried. *Greenhouse.*—Continue the general directions given for last month.

SHROVETIDE derives its title from the practice of being *shriven* or *shrove*—that is, confessing and receiving absolution—before the Lenten fast.

ASH WEDNESDAY.—So called on account of penitents wearing sackcloth next their skin and sprinkling ashes on their heads.

ST. PATRICK.—The shamrock is said to be worn by the Irish upon the anniversary of this their tutelar saint for the following reason:—When he preached the gospel to the pagan Irish, he illustrated the doctrine of the Trinity by showing them a trefoil, or three-leaved grass, with one stalk; which operating to their conviction, the shamrock, which is a bundle of this grass, was ever afterwards worn upon this saint's anniversary, to commemorate the event.

GARDENERS' CALENDAR.—*Fruit Garden.*—Continue to prepare the ground intended for planting with strawberries and fruit trees; secure the leaves as directed last month. *Flower Garden.*—Plant jonquils, snowdrops, crocuses, ranunculuses, anemones, and other early flowering bulbs; sow seeds of stocks, wall-flowers, sweet-williams, and other biennials, for transplanting in the Spring, if you have not sufficient Spring-sown ones. Verbenas, petunias, pentstemons, &c., may still be propagated by cuttings. Dahlias should be taken up and stored in a dry airy place soon after the frost has killed the stems. Plant deciduous trees. *Kitchen Garden.*—Sow cauliflowers, cabbages, and lettuce; plant out those sown last month; sow spinach and turnips; sow onions for planting out; earth up celery. Carrots may be sown for early use. *Greenhouse.*—Remove all tender plants into the house, encourage the growth of geraniums, calceolarias, cinerarias, &c., by repotting as soon as the present pots are filled with roots, and keep them free from *aphis* by washing, fumigation, &c. Fuchsias that have done flowering should be kept moderately dry during the dormant state; give plenty of air during fine weather.

PALM SUNDAY was so called to commemorate the triumphal entry of our Saviour into Jerusalem, when the multitude strewed palm-branches in the way.

GARDENERS' CALENDAR.—*Fruit Garden.*—Planting of vines and fruit trees may be commenced towards the end of the month; in the meantime keep the ground well worked in dry weather, and dig between the old trees as soon as the leaves have fallen. Keep the surface of the ground loose between the rows of newly planted strawberries, and dig between the rows of the old ones. *Flower Garden.*—Plant bulbs of nearly all the hardy species in dry weather; dig and manure borders between shrubs and herbaceous plants, and form new ones where required, leaving the ground rough. Carnations, &c., that have been propagated during the Summer may now be formed into beds, and shrubs, roses, &c., may be planted towards the end of the month; examine the haunts of slugs, as every one destroyed now will save considerable trouble and annoyance in the Spring. *Kitchen Garden.*—Continue to sow and plant a succession of vegetables, salading, &c.; dig and manure all spare ground in dry weather. Dress asparagus beds for the Winter. *Greenhouse.*—Cuttings of geraniums that have struck root should be potted into small pots, to be shifted into larger as they advance in growth. The same rule applies to cinerarias, calceolarias, &c.; give air freely during fine weather, and water moderately during damp or wet weather. Gloxinias, achimenes, and other bulbous plants that have done flowering, should be allowed to dry off: primulas and cyclamens that are coming into bloom should be kept near the glass and watered freely.

ROGATION.—From the Latin *rogare*, to beseech. Special prayers are appointed as a preparation for the observance of the Ascension.

GARDENERS' CALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be proceeded with in dry weather, taking care to leave the surface of the ground loose after the operation. The general pruning of fruit trees, vines, &c., may be commenced towards the end of the month, especially of such as are in a weak state of growth. Root-prune where necessary. All the ground should now be dug up roughly, burying the leaves and what manure can be afforded. *Flower Garden.*—Now is the time for putting in order all flower borders, shrubberies, &c., by pruning the shrubs and roses, trimming the edges, dividing and regulating the herbaceous plants, digging the borders and thereby creating a neat appearance during the Winter months and obviating the necessity of digging amongst the roots of plants in the Spring; it likewise breaks into the favourite haunts of the slugs, whereby they are more easily found and destroyed; where new borders are to be formed and planted, it should now be done. *Kitchen Garden.*—Plant out cabbage, cauliflower, and lettuce. Sow peas, broad beans, and carrots for early use. Sow spinach and onions. Make plantations of rhubarb and asparagus. *Greenhouse.*—Little can be done in the greenhouse beyond giving plenty of air on all favourable occasions, guarding against night frost, watering when the earth becomes dry, and keeping the plants free from vermin and dead leaves. Keep all growing plants as near the glass as possible.

WHITSUNTIDE.—A pentecostal festival, so called, it is said, because in the Primitive Church the newly-baptised appeared at worship between Easter and Pentecost in white garments.

GARDENERS' CALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be completed this month; should it not be convenient to do so, the trees intended to be planted next month, or later, should now be lifted and laid in by the heels, which will keep them back, always choosing dry weather for the operation; stir the ground around those planted previous to heavy rains as soon as it is dry enough for the purpose. All pruning should be finished this month. *Flower Garden.*—Continue the general directions for last month, and complete the planting of deciduous trees and shrubs. Keep the ground between bulbs free from weeds. *Kitchen Garden.*—Plant early potatoes, &c., in a warm dry border. Early peas and beans may be sown once a fortnight or three weeks from this time. Sow the main crops of onions and carrots, also some radishes, lettuces, spinach, and early cabbage. Propagate plants which are increased by rooted off-sets. Transplant for seed, if not done in Autumn, carrots, turnips, beet, celery, parsnips, &c. *Greenhouse.*—Continue the general directions for last month. Fuchsias that have shed their leaves should now be prepared for the following season by cutting back and re-potting them. Geraniums that are growing tall and thin should have the ends of the shoots pinched off, which will make them more bushy and compact. Re-pot cinerarias and calceolarias as soon as the present pots are filled with roots. This rule applies to growing plants generally.

GARDENERS' CALENDAR.—*Fruit Garden.*—Vine cuttings may be planted. Prepare for grafting, the proper time is as soon as the stocks are well started. Raspberry and strawberry borders may still be prepared and new ones formed. Look carefully over apple trees, and dress the parts affected by *aphis* or American blight. Manure freely vines and fruit trees that are weakly. *Flower Garden.*—Flower beds should be manured and dug; edgings formed, trimmed, and repaired; herbaceous plants divided; biennials planted. Roses may be pruned, and most sorts increased by cuttings. Seeds of hardy annuals may be sown in the borders; tender ones on a moderate heat for transplanting. Choice dahlias should be placed in a gentle heat, for the purpose of propagating by cuttings. Verbenas, shrubby calceolarias, pentstemons, &c., may be increased by the same means. *Kitchen Garden.*—Earth up, plant, and sow asparagus: transplant, hoe, and sow cabbage: sow and plant as directed last month, and at end of month sow French beans in a warm border and vegetable marrows in sheltered places: plant out and sow lettuces for succession: sow and earth up peas. *Greenhouse.*—Admit air freely in fine weather; re-pot geraniums, cinerarias, calceolarias, &c., as the roots advance to the sides of the pot. Fuchsias that have been dormant should have their roots reduced and be re-potted in fresh soil. Cacti and other plants may be watered more freely than in the depth of Winter. Sow seeds of balsams, cockscombs, egg plants, &c., on a gentle heat; keep all plants clear of *aphis*, scale, &c.

GARDENERS' CALENDAR.—*Fruit Garden.*—The principal work this month is grafting, the chief aim being to bring the bark of the stock and the scion to fit closely; loosen the ground with a hoe after the operation; the same between vines and fruit trees in general; in dry weather mulch raspberries. *Flower Garden.*—Seeds of annuals, biennials, perennials, and shrubs should now be sown: tender ones raised in heat may be transplanted towards the end of the month. Dahlia roots may be planted; propagate choice varieties as recommended last month; take the cuttings out of heat as soon as they have struck root, and protect them from the frost till it is safe to plant them. Lay shrubs that are difficult of propagation by other means. Keep the hoe at work in dry weather, but do not use the rake, except for covering small seeds. *Kitchen Garden.*—Asparagus beds, keep free from weeds. Transplant cabbage, onions, and lettuce. Sow carrots, red beet, celery, turnips, French beans, spinach, radishes, vegetable marrow, scarlet runner. Plant potatoes, sow peas, and earth up those that are ready. Cucumbers may be sown in ridges. Keep the hoe among the crops, it will assist them in their growth. *Greenhouse.*—Follow the directions for last month. The plants in flower will require watering copiously and shading from the mid-day sun.

LAMMAS DAY, August 1.—This is one of the most ancient quarter-days. It has been conjectured that Lammass or Lambmass originated from St. Peter being the supposed patron of lambs; the mass being therefore instituted in his honour, that lambs might escape the danger arising from cold after being shorn at that season.

GARDENERS' CALENDAR.—*Fruit Garden.*—Look over the vines and rub off all superfluous buds. Disbud wall trees. Destroy caterpillars on fruit trees. Keep the surface of the ground loose with the hoe at all convenient seasons, whether there are weeds or not. Place a layer of fresh stable manure between the rows of strawberries; it will increase the size of the fruit and render it free from grit or sand. *Flower Garden.*—Seeds of annuals may still be sown. Tender species raised under shelter may be transplanted into the borders, choosing showery weather for the operation. Dahlias from seed and cuttings, and other tender plants, may be planted about the middle of the month. Mark the flowers of choice bulbs, etc., with the view of collecting their seed. Stake and tie the shoots of herbaceous and other plants as they advance. Where quality rather than quantity is the object, the number of flowering shoots should be reduced. Destroy slugs, *aphis*, scale, bugs, etc. *Kitchen Garden.*—Continue to sow and plant successional crops. Earth up potatoes and peas, sow all kinds of brocoli, Scotch kale, savoys, cauliflowers, tomatoes, and capsicums. Thin early-sown carrots, turnips, and spinach, and keep them free from weeds. *Greenhouse.*—Azaleas, camellias, ericas, etc., that have done flowering should be taken out of the house and placed in a shady situation towards the end of the month. Water sparingly the bulbs of achimenes, gloxinia, gesnera, etc., until they appear above the ground. Re-pot all fast-growing plants as often as the pots fill with roots. Use the syringe in the evening during sunny weather; guano or manure-water occasionally will assist flowering plants whose pots are full of roots. Wage continual war against insects.

GARDENERS' CALENDAR.—*Fruit Garden.*—Stop all shoots of vines, except the leaders at one joint beyond the fruit, and lay them to their trellis or supports; pinch off all unnecessary shoots in young fruit trees. Vines, newly-planted fruit trees, &c., will be much benefited by a mulching of half decomposed stable manure. Rub off the shoots from stocks that have been grafted, and remove the clay and binding as soon as they have joined, which may be known by their shooting vigourously; lay as many strawberry runners as may be required for new plantations, and remove all others. *Flower Garden.*—The planting of dahlias and tender annuals, if not done, should be immediately; support all tall growing flowers as they advance; keep the surface of the ground loose with the hoe; clip and trim all edgings except roses; mark choice flowers for seed. *Kitchen Garden.*—Thin and hoe red beet, carrots, and all other Spring crops. Plant out capsicums and tomatoes. Prick out celery in small beds from the seed beds. Earth up peas, French beans, and potatoes. A succession of peas and French beans may be sown. *Greenhouse.*—Sow seeds of primula, cineraria, calceolaria, camellia, geranium, &c. Give plenty of air and water and shade during sunny weather.

GARDENERS' CALENDAR.—*Fruit Garden.*—Vines not yet attended to should be done immediately, and as the lateral shoots appear they should be taken off to within one joint of the main shoots. Young apple or plum trees infested with red spider should be frequently syringed with tobacco water or soft soap well diluted. Brush off American blight as it appears on the young shoots of apple trees. Peaches, &c., on walls will now require frequent attention. Budding may be performed towards the end of the month. *Flower Garden.*—Dahlias, hollyhocks, &c., require frequent attention. Where fine show dahlias are required, one stem alone should be allowed to grow, and the lower lateral shoots removed from that and the number of flower buds reduced; a liberal mulching will greatly promote their growth during the approaching hot weather. Bulbs of choice hyacinths, tulips, ranunculuses, anemones, &c., should be taken up and stored as they become dormant. Neatness is now the order. *Kitchen Garden.*—Earth up French beans, peas, and scarlet runners; a succession may be planted; prepare trenches and plant celery; transplant all kind of brocoli, cauliflowers, savoys, and cabbage for winter use; tomatoes and capsicums, if not put out, should now be done; vegetable marrows may yet be sown; sow turnips this month, and earth up late potatoes. *Greenhouse.*—Cinerarias, calceolarias, etc., that are intended to be kept for another season should be removed into a shady situation as soon as they have done flowering. Fuchsias, geraniums, &c., that are flowering may be watered occasionally with liquid manure. Shade and water freely during hot weather.

# GREAT BRITAIN AND IRELAND.

## REIGNING SOVEREIGN AND FAMILY.

VICTORIA I., Queen of Great Britain and Ireland, born at Kensington Palace, London, May 24, 1819; the daughter of Edward, Duke of Kent, fourth son of King George III., and of Victoria of Saxe-Saalfeld-Coburg, widow of Prince Emich of Leiningen. Ascended the throne at the death of her uncle, King William IV., June 20, 1837; crowned at Westminster Abbey, June 28, 1838; married Feb. 10, 1840, to Prince Albert of Saxe-Coburg-Gotha; widow, Dec. 14, 1861. Issue:—

1. *Victoria Adelaide Mary Louisa*, born November 21, 1840; married January 25, 1858, to Frederick William, eldest son of King William I. of Prussia. Issue:—Frederick William, born January 27, 1859; Charlotte, b. July 24, 1860; Henry, b. August 14, 1862; Francis, b. September 15, 1864 (died March 9, 1866); Frederica, b. April 12, 1866.

2. *Albert Edward*, Prince of Wales, Earl of Dublin, &c., heir-apparent, born November 9, 1841; married March 10, 1863, to Princess Alexandra (born December 1st, 1844), eldest daughter of the King of Denmark. Issue:—Albert Victor Christian Edward, born January 8, 1864; George Frederick Ernest Albert, b. June 3, 1865; Louisa Victoria Alexandra Dagmar, b. February 20, 1867; Victoria Alexandra Olga Mary, b. July 6, 1868.

3. *Alice Maud Mary*, b. April 25, 1843; married July 1, 1862, to Prince Louis, of Hesse-Darmstadt. Issue:—Victoria, b. April 5, 1863; Alice, b. Nov. 1, 1864; Irène Maria, born July 11, 1866.

4. *Alfred Ernest Albert*, Duke of Edinburgh, b. Aug. 6, 1844; entered the Royal Navy, Aug. 31, 1858; Captain of H.M.S. Galatea, Feb. 23, 1866.

5. *Helena Augusta Victoria*, b. May 25, 1846; married to Prince Christian of Augustenberg, July 5, 1866. Issue:—Christian, b. April 14, 1867; Albert, b. February 26, 1869.

6. *Louise Carolina Alberta*, born March 18, 1848.

7. *Arthur William Patrick Albert*, born May 1, 1850; Lieutenant, Royal Engineers, June 19, 1868.

8. *Leopold George Duncan Albert*, born April 7, 1853.

9. *Beatrice Mary Victoria Feodore*, born April 14, 1857.

*Aunt of the Queen.—Augusta*, b. at Cassel, July 25, 1797, the daughter of Landgrave Frederick of Hesse-Cassel; mar. May 7, 1818, to Duke Adolphus of Cambridge, youngest son of King George III.; widow, July 8, 1850.

*Cousins of the Queen.*—1. *George Frederic*, Duke of Cumberland, ex-King of Hanover, b. at London, May 27, 1819, the son of Duke Ernest Augustus of Cumberland, fifth son of King George III. 2. *George William*, Duke of Cambridge, b. at Hanover, March 26, 1819, the son of Duke Adolphus of Cambridge, sixth son of King George III. 3. *Augusta*, sister of the preceding, b. at Hanover, July 19, 1822; married June 28, 1843, to Grand-duke Frederick William of Mecklenburg-Strelitz. 4. *Mary*, sister of the preceding, b. at Hanover, November 27, 1833; married Prince Teck of Wurtemberg, June 12, 1866.

The Queen reigns in her own right, holding the crown both by inheritance and election. Her legal title rests on the statute of 12 and 13 Will. III. c. 3., by which the succession of the crown of Great Britain and Ireland was settled, on the death of King William and Queen Anne without issue, on the Princess Sophia of Hanover and the "heirs of her body, being Protestants." The inheritance thus limited descended to George I., son and heir of Princess Sophia, she having died before Queen Anne; and it has ever since continued in a regular course of descent.

Vice-Admiral: The Governor, *ex officio*, under 26 and 27 Vict. cap. 24, s. 3. Judge and Commissary: His Honour Sir Valentine Fleming, Knt. Registrar: H. J. Buckland. Marshal: George Browne.

## COURTS OF REQUESTS.

Held under 31 Vict. No. 15, at certain places before Commissioners; where there is no Commissioner, Courts of General Sessions of the Peace are appointed Courts for the recovery of debts and demands under the same Act.

*Jurisdiction.*

1. All personal actions where the debt or damage claimed is not more than the amount to which the jurisdiction of the Court in which the action is brought is limited, excepting actions of ejectment or replevin, or in which the title to any corporeal or incorporeal hereditaments or to any toll, fair, market, or franchise is in question, or in which the validity of any devise or bequest or limitation under any will or settlement may be disputed, or for the infringement of letters patent or copyright, or for the recovery of any money or thing won or alleged to have been won at or by means of a race, match, wager, or any kind of play, or for any arrest or false imprisonment or malicious prosecution, or for any libel or slander, or for criminal conversation, or for seduction or breach of promise of marriage, or upon any charter-party of affreightment or policy of assurance.

2. Plaints for the recovery of the possession of small tenements.

Actions to be brought in the Court having jurisdiction to the amount claimed nearest to the place of abode or business of the defendant or to the place where the cause of action arose.

Where amount claimed exceeds £10 the action is to be tried by a jury of three, unless the Commissioner by consent of parties tries the action. Where there is no Commissioner the Justices in General Sessions are judges of law and fact.

*Court Fees.*

| | |
|---|---|
| Entering plaint (including the issuing and serving of summons) | Sixpence in the pound |
| Hearing | Sixpence in the pound |
| Judgment by consent or in default. | Threepence in the pound |
| Adjournment of a cause | Threepence in the pound |
| Issuing *Fieri Facias* | Sixpence in the pound |
| Subpœna | One shilling in all cases |
| Special defence | One shilling and sixpence in all cases |
| Copy of particulars | One shilling where the amount claimed does not exceed ten pounds<br>Two shillings in all other cases |
| Taking recognizances, bond, or security for costs | Threepence in the pound |
| Enquiry into sufficiency of securities | Threepence in the pound |
| For every levy | One shilling where the amount claimed does not exceed ten pounds<br>Two shillings where such amount exceeds ten pounds and does not exceed twenty pounds<br>Three shillings where such amount exceeds twenty pounds |

Poundage, except where otherwise specified in this schedule, shall be estimated on the amount of the claim.

All fractions of a pound, for the purpose of calculating poundage, shall be treated as an entire pound.

Where the plaintiff recovers less than the amount of his claim so as to reduce the scale of costs, he shall pay the difference, unless the reduction is caused by a set-off.

In cases of execution of writs of *fieri facias*, the actual expenses necessarily incurred by the bailiff in respect of such execution shall be allowed by the Court as costs in the cause.

In cases of interpleader the summons to the bailiff shall be issued gratis

in the first instance,—the poundage for hearing be estimated on the value of the goods claimed, which, in case of dispute, shall be assessed by the Court,—and the cost of the summons, estimated on the above-mentioned value, and actual expenses incurred by the bailiff in keeping possession of the goods, be included in the general costs which may be awarded by the Court at the hearing.

No increase of fees shall be made by reason of there being more than one plaintiff or defendant.

## PRIVATE PURCHASE OF CROWN LAND.

There are three Waste Lands Acts in force under which lands may be secured without competition, namely:—The Waste Lands Act, 1863, 27 Vict. No. 22; the Waste Lands Act, No. 4, 31 Vict. No. 25; and the Waste Lands Act, No. 5, 32 Vict. No. 18. Lands reserved for sale, town lands, all lands under lease or that were under lease on 1st August, 1863, and lands advertised for sale by auction, are exempted from private selection. By a proclamation dated Nov. 22, 1869, all waste lands of the Crown in the counties of Dorset and Cornwall (except the agricultural area known as Gould's New Country or New England) are excepted from sale and reserved to Her Majesty.

The upset price of all good agricultural crown land in Tasmania is one pound per acre, exclusive of the cost of survey, which must be paid in advance in every case, and of the grant deed fee, which is invariably fifteen shillings and is the last payment that has to be made, except two small ones (about 10s.) to the Recorder of Titles.

Under the Acts already named there are three methods of proceeding. First—By the Waste Lands Act, 1863, any person may purchase, by private contract with the Commissioner of Crown Lands, at a fixed price of £1 per acre, 320 acres of land in one or more lots; if in more than one they must all adjoin; not more than one lot to be selected by any one at the same time. Credit purchasers are required to pay a "credit premium," which adds one-fifth to the purchase money. Selector must make written application to the Commissioner of Crown lands, and if the allotment is available is called upon to deposit the survey fee. The following is the scale of survey fees charged:—

| *Particulars.* | *Ordinary wooded land.* | | | *Heavily wooded land.* | | |
|---|---|---|---|---|---|---|
| | £ | s. | d. | £ | s. | d. |
| 50 acres and under | 4 | 0 | 0 | 5 | 0 | 0 |
| Above 50 and not exceeding 100 acres | 7 | 0 | 0 | 8 | 15 | 0 |
| „ 100 „ 150 „ | 8 | 0 | 0 | 10 | 0 | 0 |
| „ 150 „ 200 „ | 9 | 0 | 0 | 11 | 5 | 0 |
| „ 200 „ 250 „ | 10 | 0 | 0 | 12 | 10 | 0 |
| „ 250 „ 320 „ | 11 | 0 | 0 | 13 | 15 | 0 |

This scale applies to all surveys, no matter which Act the land is taken under.

On receipt of the District Surveyor's plan of the land, the selector is required to pay a deposit of one-fifth of the whole purchase-money, the balance being payable in instalments spread over a term of eight years. He may, however, at any time during that period pay up the balance, in which case all further payments required on account of the credit premium are cancelled.

No credit allowed where the cost of a piece of land is less than £15.

Example of mode of payment where credit is taken for 100 acres,

the sale price being £100; credit premium of one-fifth, £20; total price, £120.

Second—Under the Waste Lands Act, No. 5, 32 Vict. No. 18, any person may select and purchase one lot of land of not more than 100 acres at £1 per acre. No one to hold more than one lot, unless obtained by descent, devise, or marriage. Selector must occupy, either personally or by tenant or representative, within a year after selection, and continue in occupation until the purchase money is paid off. Selectors on credit to pay cash at purchase amounting to one-thirtieth of the upset price, in addition to the survey fee; and a credit premium of one-third of the whole to be added to the purchase money. Payment of balance to extend over fourteen years; but balance may be paid off at any time during that period, a discount at the rate of 4 per cent. per annum being allowed off such balance.

Example.—Sale price of 100 acres, £100; credit premium of one-third, £33 6s. 8d.; total price, £133 6s. 8d.

| | | | | 0 | 10 | 4 |
| Total payments ... ... ... ... | | | | £143 | 7 | 0 |

Third—By the Waste Lands Act, No. 4, a person can lease one lot of land of not more than 100 acres for twenty years on payment in advance of the survey fee, £8 15s., and one year's rent at 6d. an acre, £2 10s.; the payments thereafter being:—For two years, rent at 6d. an acre, £2 10s. each; two years, rent at 1s. an acre, £5 each; and for the remaining fifteen years, at 2s. an acre, £10 annually. Total payments, £176 5s. If the lessee then desire to purchase the lot, he must pay as in the first or second method, less the survey fee. But he may purchase at any time he likes during the twenty years.

# IMMIGRATION DEPARTMENT.

Commissioners.—The Colonial Secretary (president), the Colonial Treasurer, Henry Butler, and Askin Morrison. Secretary and Immigration Agent, Hobart Town, B. T. Solly. Immigration Agent, Launceston, W. G. Sams.

Offices.—Public Buildings, Hobart Town and Launceston.

Immigration Agent in Germany.—Frederick Bück, 25, Schauenburger, Strasse, Hamburg.

The following are the regulations for the guidance of persons desirous of introducing immigrants from the United Kingdom under the bounty system :—

Application, stating sex and class of immigrant, must be made on printed forms, which will be supplied by the Immigration Agents, the Wardens of Municipalities, or the Police Magistrates.

For a ticket for a single person above 60 years of age £16 must be paid, and in the case of families, if either of the parents is over 60 years of age, the applicant must deposit £20. Documentary evidence of the age of any immigrant must be produced upon his or her arrival if required by the Immigration Agent.

If any immigrant be found on arrival not to answer the description stated in the application, the applicant will be liable to be called upon for repayment of any money which may have been paid from the public funds on account of such immigrant.

The emigrant must sign an engagement (for self and family) agreeing not to leave the colony within four years after arrival without paying one of the Immigration Agents one-fourth of the passage money for every year short of the four years and a proportionate sum for every part of a year.

Persons introducing immigrants under these regulations must provide for their reception on arrival; or if received into a Government establishment a charge of two shillings a day or part of a day will be made against the introducer.

In the event of death on the voyage half passage money only will be paid.

*Payments required from Applicants.*

| Each child between 3 and 12 years of age | 8 |
| Ditto under 3 years | 4 |

## LAND ORDERS.

Under the Immigration Act, 1867, Immigration Agents may be appointed abroad, who shall issue to approved emigrants proceeding direct from Europe to Tasmania at their own expense land order

warrants entitling the holders, on arrival in the colony, to a land order in respect of each person named therein. Such land orders to be of the nominal value of £18 for each immigrant of and over fifteen years of age, and of £9 for each child between twelve months and fifteen years of age; and to be available to their full value in payment for land purchased under the Waste Lands Act, 1863.

The seventh and following sections provide that any cabin or intermediate passenger arriving from Europe or India with the intention of settling in the colony, and who has not received a land order under the previous sections, may at any time within twelve months after his arrival obtain from the Board of Immigration a certificate entitling him to select thirty acres of land; if married, he shall be entitled, within twelve months after the arrival of his family, to further certificates authorising the selection of twenty acres in respect of his wife and ten acres in respect of each child. Selection to be made within a year after the date of the certificates. These certificates to be received by the Commissioner of Crown Lands in payment for lands selected for purchase under the Waste Lands Act, 1863.

Persons purchasing or selecting land by virtue of these land orders or certificates must reside for five years in Tasmania before entitled to grants from the Crown of such land; but in the event of death before the expiration of five years, their heirs-at-law or devisees shall be forthwith entitled to grants.

---

The Act 31 Vict. No. 27, dated October 11, 1867, reserves for a period of three years an area of 50,000 acres at Castra, county of Devon, for the settlement, under the Waste Lands Act, 1863, of Europeans emigrating from India to Tasmania.

# MARINE BOARD, HOBART TOWN.

**Established by Act of Parliament, 22nd December, 1857.**

**The jurisdiction of the Hobart Town Marine Board under this Act extends to all ports, harbours, and islands between Cape Portland (near 148° east longitude) and 42° south latitude, round the eastern, southern, and western coasts, and one nautical league to the seaward from low water mark along the whole coast line between such localities.**

**Office, Franklin Wharf. Master Warden, H. B. Tonkin. Wardens—W. Crosby, C. M. Maxwell, and the Mayor and the Collector of Customs *ex officio*. The Board meets for transaction of business every Wednesday at 10 a.m. Secretary, H. S. Nelson. Harbour Master, J. A. Babington. Boarding Officer, H. B. Hurburgh. Boat's crew of four men. Pilots—John Bleach, James Hurburgh.**

**EMIGRATION OFFICER.—Captain Andrew Haig. For regulations as to passengers, see Act of Imperial Parliament 18 and 19 Vict. cap. CXIX. published in the *Gazette*, February 8, 1859, and amended Act 26 and 27 Vict. cap. LI. published in the *Gazette*, November 24, 1863.**

**SIGNAL STATIONS.—Battery Point, Richard Shea ; Mount Nelson, John Duffy ; Mount Lewis, James Hurburgh. *(For code of signals, see page* 86.*)***

**LIGHTHOUSES.—*Kent's Group, revolving ; Superintendent, Thomas Morgan, and three men. Swan Island, revolving flash ; Superintendent, Charles Baudinet, and three men. Goose Island, fixed ; Superintendent, T. Hawkins, and three men. South Bruni, revolving ; Superintendent, J. H. Scott, and three men. Iron Pot, fixed ; Superintendent, J. Oliver ; and two men. Low Head, revolving ; Superintendent, A. C. Rockwell, and two men. *King's Island, fixed ; Superintendent, E. N. Spong, and three men.**

QUARANTINE GROUND.—Between Sandy Bay Point and the eastern side of the River Derwent ; Sandy Bay Point bearing north of west. The usual quarantine signals to be exhibited at the main-top-mast-head.

HEALTH OFFICER.—Dr. Benson.

HARBOUR DUES.—The following services performed to any vessel by or under the direction of the Harbour Master to be severally paid for at the rate of one penny per ton :—Mooring or anchoring on arrival. Unmooring and moving to the wharf. Hauling off the wharf and re-mooring. Unmooring and moving to a fair way for sea. Any removal from one place of anchorage to another.

N.B.—No vessel is charged for more than three removes during her stay in port.

PORT CHARGES.—*Lighthouse Rates.*—For every steam vessel and for every vessel employed in the coasting trade, on entering inwards at the Customs of this colony, fourpence per ton. For every other vessel entering inwards at the Customs of this colony, sixpence per ton.

*Pilotage.*—On sailing vessels, ninepence per registered ton ; and on steam vessels, sixpence per registered ton : provided always that no charge for pilotage shall exceed thirty pounds nor be less than four pounds ; and that no vessel under fifty tons shall be subject to pilotage, unless the master of such vessel shall request the service of a Pilot and employ one.

The remuneration to pilots detained on board vessels in quarantine or otherwise delayed shall be fifteen shillings per diem in addition to the usual pilotage.

---

* The expense of these lights is divided between this colony, Victoria, and New South Wales.

The rate now payable for pilotage shall be reduced one-half whenever it shall be proved to the Marine Board that no Pilot offered himself to the vessel entering the port until such vessel had reached a line drawn from the southern point of Half-moon Bay to Pearson's Point.

The exemption flag denoting the vessel to be exempt from the necessity of taking a Pilot shall be a full-sized red pennant over the alloted distinguishing flag of such vessel.

*Exemptions from Port Charges,*—In order to encourage the resort of vessels of all nations engaged in the whale fishery and vessels arriving under the circumstances hereinafter mentioned to the ports of this island, all vessels of all nations outfitting for or refitting from the whale fisheries, and all vessels arriving and sailing in ballast or which do not break bulk or only to such an extent as may be necessary to provide funds for the repairs, refittings, or refreshments of such vessels, and all vessels belonging to any foreign Power with which a treaty of commerce declared by any royal order in council to be subsisting has been made, which arrive at any port for the purpose of landing any oil or whalebone the produce of fish caught or taken by the crews of such vessels, and land such oil and whalebone at any wharf appointed by the Board for that special purpose, shall be and the same are wholly exempted from the payment of all port charges, lighthouse dues, and all port dues whatsoever, except only those of pilotage in cases where the services of a Pilot have been actually required and received.

Office, Lower George-street, Wharf. Wardens—Richard Green (master warden), M. Gaunt, C. J. Weedon, and the Mayor and Collector of Customs *ex officio*. Secretary, G. M. Eddie. Harbour Master, W. N. Ling. Pilots—G. Foster, D. Stewart, G. Smart, and C. Begent. Special

Pilot—J. Waterland. Boat's crew, Low Head, four men and a coxswain. Boat's crew, Launceston, two men and a coxswain.

Paddle steam-tug, *Tamar*. Master, G. Smart.

Shipping Master, Emigration Agent, and Marine Surveyor, Captain E. P. Tregurtha. *(For scale of charges see page 84.)*

Lighthouse, Low Head, A. C. Rockwell superintendent.

No steamer, other than the Tamar tug, allowed to tow on the river except licensed (fee £25), under penalty. Cases of emergency exceptional.

The rules and regulations pertaining to the port are published by the Board, and contain the pilotage rates, harbour dues, scale of towage, signals for steam tug, regulations respecting lights, wharfage rates, steam tug and boat licences, boatmen's fares, quarantine act, sailing directions, &c. This book is supplied to all vessels visiting the port.

Quarantine Ground—Western Side, Middle Island, in the river Tamar. Day signal, yellow flag, of six breadths of bunting, at main-topmast-head; at night, a signal lantern shown from the same position.

Health Officer, George Town, Dr. Richardson.

PILOTAGE RATES.—For every sailing vessel liable to pilotage, 1s. per ton inwards, and the same outwards.

For every steam vessel liable to pilotage, 8d. per ton inwards, and the same outwards.

For every day that a pilot is detained on board any vessel whilst under quarantine or by an act of the master, 15s. per day.

No charge for a single act of pilotage to exceed thirty pounds, or be less than four pounds. Vessels not exceeding fifty tons to be exempt, unless the master requires the services of the pilot and employs one, in which case the pilotage shall be four pounds. Vessels that do not have the services of a pilot until they pass Whirpool Reach either going up or down the river shall be charged only half pilotage.

FREE PORT.—Vessels seeking freight or putting in from stress of weather and not breaking bulk, are exempt from all port charges whatever, unless they require the services of a pilot and employ one; in which case, if they anchor below George Town, one-third pilotage only will be charged.

HARBOUR DUES.—One penny per ton inwards and the same outwards, and for each removal whilst in port one penny per ton.

LIGHT DUES.—For every steam vessel and every vessel employed in the coasting trade, on entering inwards at the Customs, fourpence per ton. For every other vessel entering inwards at the Customs, sixpence per ton.

TOWAGE RATES.—To or from the Heads, for the first 100 tons, 2s. per ton; for every additional ton up to 300, 1s. 6d, per ton; for every additional ton up to 500, 1s.; for every ton above 500, 6d.

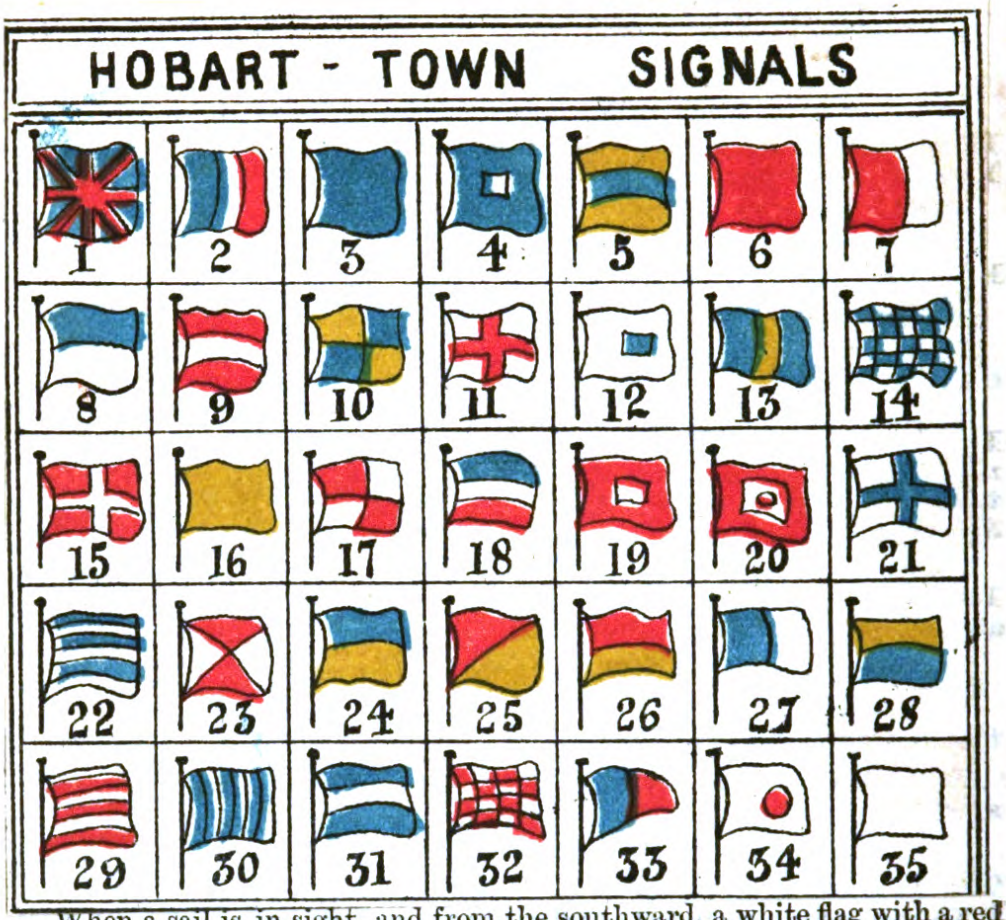

Steam will not be got up to tow a vessel down alone for a less sum than £10; nor two or more vessels together for less than £12 10s.

The pilotage of vessels towed by the tug will be charged at two-thirds of the rate for sailing vessels.

When two vessels are towed together a reduction of one-fifth of the usual charge to the smaller one will be made to each, subject to the above minimum.

*Signal for steam-tug.*—The rendezvous or chequered flag, hoisted where best seen. When this signal is made by a vessel entering the port the tug, if in Launceston, will be telegraphed for on that vessel's account.

# HOBART - TOWN SIGNALS

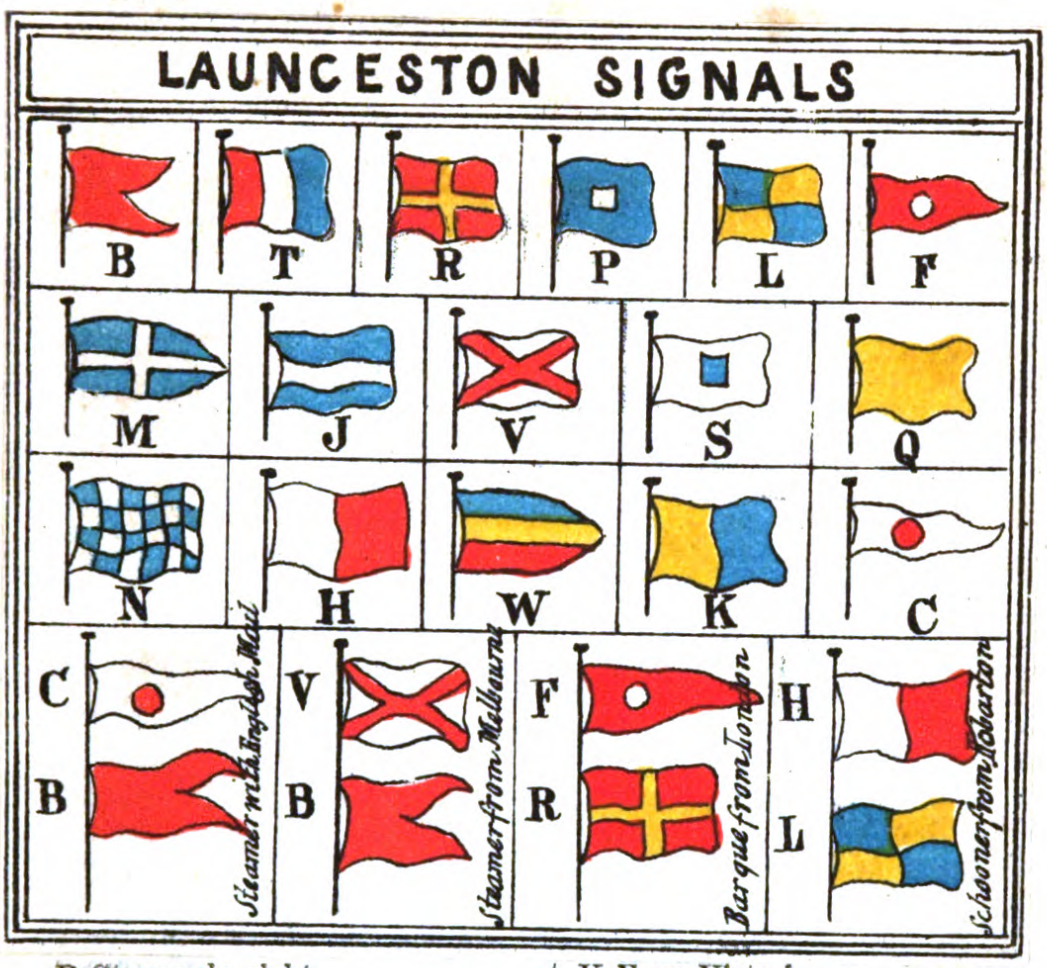

When a sail is in sight, and from the southward, a white flag with a red cross (No. 11) is hoisted at the top-mast-head at Prince Albert Battery; from the eastward, a blue and white flag (No. 8); if in mid-channel, a yellow, blue, and yellow flag (No. 5); when it is ascertained what the vessel is, the flag is hauled down from the top-mast and a ball is affixed to one of the numbers on the yard arm.

No. 1 on the right, viewed from town, denotes a ship or barque
2 " " " " " a brig
3 on the left " " a brigantine or schooner
4 " " " " " a steamer

Secretary.—George Richardson.

The Council of Education, established by 22nd Vict. No. 21, is authorised to hold examinations in imitation of the Oxford and Cambridge annual local examinations, and to confer the degree of Associate of Arts on successful competitors. The degree is open to persons of any age; but candidates above nineteen years of age who take honours are placed in separate class lists and are not eligible for prizes. Eight scholarships, each of the value of £200 per annum and tenable for four years at a British university, are also founded; of which two are annually competed for by Associates of Arts of above sixteen and under twenty years of age who have resided in the colony for at least the preceding five years. On only one occasion, however, have both scholarships been awarded. The Council has also the privilege of bestowing annually two exhibitions of £20 each, tenable for four years at a superior school, on boys under fourteen years of age who have not during the previous six months been at any of the Public Schools. The "superior schools" to which the choice of successful candidates is confined are Horton College, Ross; High School and Hutchins School, Hobart Town; and the Church Grammar School, Launceston.

## BOARD OF EDUCATION.

Board Room, Public Buildings, Hobart Town. Meets every Tuesday at 3 p.m.

Members—Hon. Henry Butler, M.H.A. (chairman), Hon. A. Kennerley, M.L.C., Hon. Sir Robert Officer, M.H.A., S. Sheehy, W. Tarleton, T. Westbrook.

Inspectors—South, Thomas Stephens, M.A. Oxon. North, Murray Burgess.

Secretary, George Richardson. Architect, Henry Hunter. Clerks, Frederick Seager and Henry E. Chalmers.

The Board of Education is empowered to frame regulations for the distribution of all moneys granted by the Legislature for the purposes of public education; to determine the locale of Public Schools; to regulate the course of instruction in the schools, the examination and classification of teachers, the issue of certificates of competency to teachers, the inspection of schools, and the functions and duties of Local School Boards; and to fix the maximum fees to be charged by teachers. All regulations must be approved of by the Governor-in-Council and be published in the *Gazette* before of any force. The Public Schools Act, 32 Victoria No. 14, provides for the appointment yearly of Local School Boards of not more than nine members, and directs that every child between seven and twelve years of age resident within one mile from one of the Public Schools in the subjoined list (except those marked with an asterisk) must be sent to school, unless the parent or guardian holds a certificate of exemption from the Local School Board, which may be obtained on any one of the following grounds, namely:—That (1) the child is being privately educated in reading and writing, (2) is sent to some other school, (3) is prevented by ill-health, (4) can read and write, (5) or cannot safely attend school, or (6) that the parents cannot do in whole or in part without the labour of such child. In the absence of such certificate, any parent or guardian refusing or neglecting to send such child to school may be summoned before any two justices, who may order the child to be sent and may determine what charge, if any, shall be made for such child. Any person refusing to obey such order, or ceasing after a time to obey it, shall be fined not more than forty shillings, to be enforced by distress only, not by imprisonment.

*Exhibitions.*—The Board awards annually six exhibitions to superior schools of the value of £16 13s. 4d. each and tenable for four years from 1st July. Candidates must be between ten and thirteen years of age and have been at one of the public schools for at least six months prior to 1st June.

## VAN DIEMEN'S LAND AGRICULTURAL COMPANY.

Established 1825 by Act of Parliament 6 Geo. IV. cap. 39 and incorporated by Royal Charter. Capital, £300,000 in shares of £30 each. Office, 31 Finsbury Circus, London, E.C. Agent in Tasmania—J. Norton Smith, Circular Head.

The territories of the company are situated at the following places in the north-west quarter of Tasmania:—100,000 acres at Woolnorth, 20,000 acres at Circular Head and the coast adjoining, 60,000 acres at Emu Bay and the Hampshire Hills, 10,000 acres at Middlesex Plains, 150,000 acres at the Surrey Hills, and 10,000 acres estimated good land at Trefoil, Walker's, and Robbin's Islands, containing about 26,970 acres, but which were estimated at 10,000 acres in the grants to the company, that being the supposed quantity of available land therein. The sub-port of Stanley, at Circular Head, is within the limits of the port of Launceston. Vessels can enter and clear with great facility, as it is easy of access and has good wharfage accommodation.

## LAUNCESTON AND WESTERN RAILWAY COMPANY (LIMITED).

Offices.—Brisbane-street, Launceston.

Chairman of Directors, W. S. Button. Commissioners, appointed under the Railway Act—S. V. Kemp, F. M. Innes, T. B. Bartley. Engineer-in-Chief, W. T. Doyne. Solicitor, G. T. Collins. Standing Counsel, the Attorney-General. Secretary, Henry Dowling. Accountant, R. W. Lord. Goods Manager, J. F. L. Jetter. Bankers, the Union Bank of Australia.

During the Parliamentary session of 1865 the promoters of this work obtained a bill (29 Vict. No. 24) to enable a company under the Limited Liability Act to make and maintain this railway, which is

intended to connect Deloraine, Westbury, Longford, Perth, and Evandale with the port of Launceston.

The capital of the company is £400,000, and the assistance offered by Parliament for the encouragement of the work was the provison that when £50,000 had been paid up the company might borrow £300,000 on bonds, the Government endorsing these for the due payment of interest thereon at not more than 6 per cent. By 31 Vict No. 43 the Government was authorised to receive the bonds of the company for the loan of £300,000 and issue debentures in exchange secured on the public revenues of the colony. These debentures were placed on the London Stock Exchange in April, 1867, and realised a premium of £2 9s. 4d. per cent. A joint committee of both Houses of Parliament was appointed on the 7th September, 1869, "to enquire into all the circumstances connected with the construction and management or otherwise of the Launceston and Western Railway." The committee reported on 13th October, appending and recommending the passing of a bill to enable the directors to complete the railway. The Launceston and Western Railway Act, No. 5 (33 Vict. No. 21), passed on the 22nd October, empowered the company to borrow an additional sum of £100,000, to be raised by debentures similarly to the £300,000 already borrowed, the interest secured upon the railway district. The Act defines how the moneys received from traffic returns are to be appropriated; provides for the publication in the *Gazette* of half-yearly accounts in detail of receipts and expenditure; authorises the Governor-in-Council to permit a second line of rails to be laid down for the working of the main line of railway or to connect the two railways; prevents the company from making appointments where the salary amounts to £200 or upwards, or increasing any salaries without the sanction of the Governor-in-Council; and finally gives power to the Governor to cause a re-valuation of the property within the railway district at any time when the rates are insufficient to meet the interest on the railway bonds, and if need be to increase the rates. The first turf of the works was turned by H.R.H. the Duke of Edinburgh on the 15th of January, 1868. Messrs. Overend and Robb, of Melbourne, are the contractors. A first trip took place on 19th August, 1869, and in accordance with the terms of their engagement the line is to be completed and handed over to the company in April, 1870.

## MERSEY & DELORAINE TRAMWAY CO., LIMITED.

Office, 113, Macquarie-street, Hobart Town. Capital, £50,000 in shares of £5 each. Managing Director, G. Whitcomb. Bankers, Bank of Van Diemen's Land. Solicitors—Allport, Roberts, and Allport, Hobart Town; B. W. Campion, Launceston. Counsel, Hon. W. L. Dobson, M.H.A., Attorney-General. Engineer, Stephen Grey.

This company is formed for the purpose of constructing an iron tramway or railroad, to be worked by horse or steam power, between Deloraine and the Mersey, with (if hereafter desired) branches to Cheshunt, Chudleigh, and Kentish Plains; the Mersey being the nearest port and natural outlet to these places and to the agricultural land in their vicinity and in other parts of Devon.

An Act of Parliament has been passed giving to this company the fullest power to carry out its designs. The Legislature has also

granted to it 1,280 acres of Crown land in respect of each mile in length of the tramway, making for 30 miles of tramway 38,400 acres. This land will be greatly enhanced in value by its proximity to the tramway.

The land required for the tramway has been obtained free of cost for two-thirds of its length. A considerable portion of the work has been done, and the company has given security to the Government to complete and open to public traffic by the first of September next the portion of the tramway extending from Gilbert-street, Latrobe, to three miles south of the company's bridge over the Mersey, near Kimberley's Ford, being a length of 16 miles, 55 chains; the company obtaining on their part immediate possession of 21,360 acres of the grant of Crown land above referred to.

Locomotive engines will be used upon the tramway.

## COUNTRY DISTRICTS.*

The colony of Tasmania is divided into nineteen rural municipalities and seven police districts. Seven councillors are, in the first instance, elected by the ratepayers of the respective municipalities. Two councillors retire annually for two successive years and every third year three retire ; in each case they are eligible for re-election. The councillors elect one of their number as Warden, whose term of office extends over one year. All powers by law vested in Police Magistrates are by Act of Parliament vested in the Warden while holding office ; and the Governor has the power of appointing the councillors to be justices of the peace within their respective municipalities during their term of office. Provision is thus made for the discharge of all legal business which formerly devolved on paid officers of the central government.

DEPUTY GOLD-FIELD COMMISSIONER AT LYNDHURST.—Bernard Shaw.

CUSTOMS.—Principal officer of Customs for Waterhouse, Bernard Shaw. Tide-waiters, Patrick Harrison and John Brown. Goods intended to be landed at Bridport or the Tomahawk River must first pay Customs duty at Launceston or some other port of entry; and all goods not the produce of Tasmania must pay wharfage in accordance with the rates in force at Launceston. Permission will be granted by the Collector of Customs at Launceston for landing steam engines, boilers, and other machinery for quartz crushing at either of the above-named places free of duty on satisfactory certificates of weight being produced so as to enable the officer in charge to collect wharfage.

CONVEYANCE.—Visitors may go to and from George Town and Launceston by the Melbourne steamers; the steam tug visits George Town every other Saturday during the summer, returning the following Monday; and the steamers *Percy* and *Annie* call *en route* to and from the North-west Coast weekly. The cutter *Edwin* sails for Launceston every Monday.

WATERHOUSE.—Gold-bearing reefs have been discovered at Waterhouse, and several companies have been formed for working them. Machinery will shortly be at work. There are upwards of 400 persons on the ground,

and a township has been laid out and named Lyndhurst. The licensed public-houses number four, namely—the Pioneer Hotel, Tankard's Hotel, the Ballarat Hotel, and the All Nations' Hotel. Several other business places have also been erected, and there is every prospect of the locality daily increasing in importance. There will doubtless be a change in the governmental arrangements respecting the George Town police district, in order to meet these altered circumstances.

## POLICE DISTRICT OF RUSSELL

### (KNOWN AS CIRCULAR HEAD).

The district of Russell is the largest in Tasmania, and embraces immense tracts of country entirely unknown. Its coast line extends from within a distance of ten miles of Table Cape round the north-west angle of the island nearly to Macquarie Harbour. The boundaries enclose parts of the counties of Wellington, Russell, and Montagu.

TOWNSHIPS.—STANLEY, about 157 miles from Launceston, with a population of about 500, is the largest township on the North Coast. It is a port of entry and clearance; rise and fall of tide, eight feet. *Smithton*, on the Duck River, 13 miles to the west of Stanley, is thinly inhabited, but it is a place from which considerable shipments are made.

MEMBERS OF PARLIAMENT.—*Legislative Council*, Hon. Alex. Clerke, elected May 21, 1869. Russell is included in the electoral district of Meander, the principal part of which is about Deloraine, a locality

between which and this district there is an almost impassable country and with which it has not any other connecting link. *House of Assembly*, John Davies, 26th October, 1866. For this House the district forms part of the electoral district of Devon, and numbers upwards of 160 electors.

Shipping &c.—The following is a table of the shipping at the subport of Stanley (inclusive of wind-bound vessels) during the twelve months ending 30th November, 1869 :—Arrivals from the other colonies, 88 vessels, 7,339 tons ; coasters, 65 vessels; total arrivals, 153 vessels. Departures to the other colonies, 78 vessels, 6,777 tons; coasters, 75 vessels ; total departures, 153 vessels. The imports, exports, and customs collections for the year ending 30th November, 1869, were as follow :—Imports, £4,995 9s. 3d. ; exports, £21,031 ; collections, £1,012 10s. The exports are exclusive of large quantities of produce shipped coastwise to Launceston, amongst which is nearly all the wool, which is transhipped thence to London. The imports form but a small proportion of the goods actually consumed, as, in the absence of a warehouse, nearly all the spirits, tobacco, and most expensive articles of consumption are obtained from Launceston.

Conveyance.—A small paddle-steamer is now a regular trader between Launceston and Stanley, making weekly trips.

## INSTRUCTIONS FOR SAVING DROWNING PERSONS BY SWIMMING TO THEIR RELIEF.

1. When you approach a person drowning in the water assure him with a loud and firm voice that he is safe.

2. Before jumping in to save him, divest yourself as far and as quickly as possible of all clothes; tear them off if necessary, but if there is not time, loose at all events the foot of your drawers if they are tied, as, if you do not do so, they will fill with water and drag you.

3. On swimming to a person in the sea, if he be struggling do not seize him then, but keep off for a few seconds till he gets quiet, for it is sheer madness to take hold of a man when he is struggling in the water.

4. Then get close to him and take fast hold of the hair of his head, turn him as quickly as possible on his back, give him a sudden pull, and this will cause him to float; then throw yourself on your back also and swim for the shore, both hands having hold of his hair, you on your back and he also on his, and of course his back to your stomach. In this way you will get sooner and safer ashore than by any other means, and you can easily thus swim with two or three persons; the writer has often, as an experiment, done it with four, and gone with them forty or fifty yards in the sea. One great advantage of this method is that it enables you to keep your head up, and also to hold the person's head up you are trying to save. It is of primary importance that you take fast hold of the hair, and throw both the person and yourself on your backs. You, can, in this manner, float nearly as long as you please, or until a boat or other help can be obtained.

5. There is no such thing as a death-*grasp*, at least it must be unusual, for we have seen many persons drowned and have never witnessed it. As soon as the drowning man begins to get feeble and to lose his recollection, he gradually slackens his hold until he quits it altogether. No apprehension need, therefore, be felt on that head.

6. After a person has sunk to the bottom, if the water be smooth, the exact position where the body lies may be known by the air bubbles which will occasionally rise to the surface, allowance being of course made for the motion of the water if in a tide-way or stream, which will have carried the bubbles out of a perpendicular course in rising to the surface. A body may often be regained from the bottom before too late for recovery by diving for it in the direction indicated by these bubbles.

7. On rescuing a person by diving to the bottom, the hair of the head should be seized by one hand only, and the other used in conjunction with the feet in raising yourself and the drowning person to the surface.

8. If in the sea, it may be a great error to try to get to land. If there be a strong "outsetting" tide and you are swimming, either by yourself or having hold of a person who cannot swim, then get on your back and float till help comes.

9. These instructions apply alike to all circumstances, whether in the roughest sea or smooth water.

## DIRECTIONS FOR RESTORING THE APPARENTLY DROWNED.

Send immediately for medical assistance, blankets, and dry clothing, but proceed to treat the patient instantly on the spot, in the open air.

The points to be aimed at are, first and immediately, the RESTORATION OF BREATHING and the PREVENTION of any further DIMINUTION of the WARMTH of the BODY; and, secondly, after breathing is restored, the PROMOTION of WARMTH and CIRCULATION.

The efforts to restore breathing and to prevent any further diminution of the warmth of the body must be commenced immediately and energetically, and must be persevered in for several hours, or until a medical

man has pronounced that life is extinct. Efforts to promote warmth and circulation must be deferred until natural breathing has been restored.

## TO RESTORE BREATHING.

### TO CLEAR THE THROAT.

1.—Place the patient on the floor or ground, with his face downwards, and one of his arms under the forehead, in which position all fluids will escape by the mouth, and the tongue itself will fall forward, leaving the entrance into the windpipe free. Assist this operation by wiping and cleansing the mouth.

2.—If satisfactory breathing commences, adopt the treatment described below to promote warmth and natural breathing. If there be only slight breathing, or no breathing, or if it fail, then—

### TO EXCITE BREATHING

3.—Turn the patient well and instantly on the side, and—

4.—Excite the nostrils with snuff, hartshorn, or smelling salts, or tickle the throat with a feather, &c., if they are at hand. Rub the chest and face warm, and dash cold water on it.

5.—If there be no success, lose not a moment, but instantly

### TO IMITATE BREATHING—

6.—Replace the patient on the face, raising and supporting the chest well on a folded coat or other article of dress.

7.—Turn the body very gently on the side and a little beyond, and then briskly on the face, back again; repeating these measures deliberately, efficiently, and perseveringly, about fifteen times in the minute, or once every four seconds, occasionally varying the side.

[By placing the patient on the chest, the weight of the body forces the air out; when turned on the side, this pressure is removed, and air enters the chest.]

8.—On each occasion that the body is replaced on the face, make uniform but efficient pressure, with brisk movement, on the back, between and below the shoulder-blades or bones on each side, removing the pressure immediately before turning the body on the side.

[The first measure increases the expiration, the second commences inspiration.]

*** The result is—respiration or natural breathing, and if not too late—LIFE.

### CAUTIONS.

1.—Be particularly careful to prevent persons crowding round the body.

2.—Avoid all rough usage and turning the body on the back.

3.—Under no circumstances hold the body up by the feet.

### TO PREVENT FURTHER DIMINUTION OF WARMTH.

N.B.—These efforts must be made very cautiously, and must not be such as to promote warmth and circulation rapidly; for if circulation is induced before breathing has been restored, the life of the patient will be endangered. No other effect therefore should be sought from them than the prevention of evaporation, and its result, the diminution of the warmth of the body.

1.—Expose the face, neck, and chest, except in severe weather.

2.—Dry the face, neck, and chest, as soon as possible, with anything at hand; and then dry the hands and feet.

3.—As soon as a blanket or other covering can be obtained, strip the body; but if no covering can be immediately procured, take dry clothing from the bystanders, dry, and re-clothe the body, taking care not to interfere with the efforts to restore breathing.

### CAUTIONS.

1. Do not roll the body on casks.

2. Do not rub the body with salt or spirits.

3. Do not inject tobacco-smoke or infusion of tobacco.

4. Do not place patient in warm bath.

N.B.—The directions are printed in parallel columns to avoid confusion, and to insure that the efforts to obtain both objects shall be carried on at the same time.

# ROYAL INSURANCE COMPANY.

## SECURITY

**Should be the first consideration in Insurance Transactions.**

---

The Directors of the Royal Insurance Company have the pleasure of supplying the following information to the public, as evidence of the ample security they afford to their assurers :—

The CAPITAL of the Company, available for the purpose of meeting any unusual calamity happening to the Assured, is TWO MILLIONS STERLING. The amount actually paid up is £288,495. This, with the Accumulated Funds in hand, makes the invested resources of the Company upwards of one million six hundred thousand pounds, which amount is invested as follows :—

INVESTED FUNDS OF THE ROYAL INSURANCE COMPANY,
*30th June*, 1869.

| | | | |
|---|---|---|---|
| Real Property owned by the Company | 219,571 | 11 | 3 |
| Mortgages on Freehold Property | 33,500 | 0 | 0 |
| £30,000 Reduced 3 per Cent. Consols | 28,085 | 1 | 3 |
| India Government 5 per Cent. Debentures | 100,000 | 0 | 0 |
| English Railway Debenture Bonds | 59,090 | 17 | 7 |
| First-class English Railway Preference and Guaranteed Stocks | 335,476 | 11 | 11 |
| Loans to Local Authorities of various towns in Great Britain, who have obtained the sanction of the Secretary of State to borrow the amounts | 145,560 | 12 | 6 |
| Bonds of the Mersey Docks and Harbour Board | 62,341 | 14 | 8 |
| Bonds of the British and Irish Magnetic Telegraph Co. | 10,000 | 0 | 0 |
| Bonds of the Liverpool Corporation | 5,160 | 0 | 0 |
| United States Government Stocks | 101,330 | 7 | 10 |
| Canada Bonds and Canada Dominion Stock | 31,106 | 11 | 6 |
| Short Loans on first-class English Dividend-paying Stocks with margins from 20 to 50 per Cent. on market values | 477,195 | 0 | 0 |
| Loans on Security of Life Policies | 63,938 | 8 | 5 |
| | £1,672,356 | 16 | 11 |

The above is a complete list of the Investments of the Company at the date specified, in addition to which the funds are still further increased by amounts constantly varying, at different periods, in the hands of the Bankers and the Company's Agents. At 31st Dec. 1868, these stood at ..... £168,089 2 0

For the satisfaction of the Public, the whole of the securities belonging to the Company are annually submitted to the careful scrutiny of two independent Auditors, and the following is an extract from their report to the last Annual Meeting :—

*Royal Insurance Company—Continued.*

"The whole of your books have been audited—every document, every account, every voucher, your bank-book, and every security—all have been most carefully kept, and there is not one doubtful security in the whole."

THE ACCUMULATIONS OF THE LIFE DEPARTMENT,

After payment of Losses, Annuities, and expenses of every description, have been as follows :—

| | | | |
|---|---|---|---|
| Funds in hand at the last Quinquennial Valuation, 31st Dec., 1864 ... ... ... ... ... ... ... | 621,434 | 15 | 5 |
| Added to 31st December, 1865 ... ... ... ... | 103,146 | 7 | 3 |
| " " " 1866 ... ... ... ... | 124,165 | 7 | 5 |
| " " " 1867 ... ... ... ... | 128,583 | 5 | 10 |
| " " " 1868 ... ... ... ... | 144,945 | 12 | 2 |
| Total Accumulation of the Life Department on 31st Dec., 1868, exclusive of Shareholders' Capital ... ... | £1,122,275 | 8 | 1 |

The Directors also think it desirable to state that the business of the Royal has never been amalgamated with that of any other Company, and that the Liability of its Shareholders is unlimited.

# TURKISH BATH,

## HARRINGTON-STREET, HOBART TOWN.

## OPEN DAILY,

From NINE in the Morning till EIGHT in the Evening.

LADIES' DAYS: Tuesday and Friday. GENTLEMEN: Monday, Wednesday, Thursday, and Saturday.

### *TESTIMONIALS.*

"The Turkish Bath is an engine for the production and maintenance of health; and I would express my conviction that I consider it to be such and do not desire to limit it to the mere destiny of a medical instrument. It is for the benefit of all men; the sick, however, will have a large share of its blessings." DR. THUDICUM.

"In bronchial inflammation, the surface affected is instantaneously reached. A clergyman well known for his eloquence having quite lost his voice for some days accompanied me to a Turkish Bath, which he entered with a whispering hoarseness, but which he quitted with a restored voice, and continued well enough to preach on the following day."
SIR JOHN FIFE.

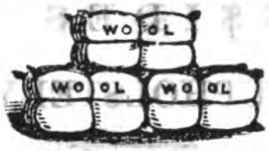

"While training for the race (the Champion Belt of England), he, William Lang, broke down, one of his legs giving way, and Mr. Martin, his backer, was at one time fearful he would not be able to come to the scratch to contend for the belt, which, having twice won, he had almost within his grasp. Acting upon advice, he had recourse to the Turkish Bath, and by local and almost daily application he was soon 'as sound as a roach,' and on Monday he appeared in splendid condition; indeed, so confident were his friends and the public generally of his success, that the odds of 2 to 1 and ultimately 3 to 1 were offered on him."—From the *Sporting Life*, December 2nd, 1863.

"The barbarian Turk has been the medium of keeping alive one of the most healthful practices of the ancients." ANDREW WYNTER, M.D.

# MR. J. SHARP,

## DENTIST,

MAY BE CONSULTED EVERY DAY AT

110 COLLINS-STREET, HOBART TOWN,

*Next Degraves's Brewery.*

MINERAL TEETH, which never decay nor change colour, and so closely resemble natural teeth as to defy detection, fitted to the mouth without extracting stumps or causing pain—mounted on Pure Gold Plate, or Vulcanite, this material ensures an accuracy of fit hitherto unattainable, and restores the impaired functions of articulation and mastication.

MR. SHARP wishes to urge upon parents the necessity of having their children's teeth attended to, as in many cases of deformity or over-crowding a little timely precaution prevents much misery.

Teeth STOPPED with pure Gold or White Enamel Cement.

Teeth extracted without pain under the influence of Chloroform or Ether Spray.

Mr. S. supplies a TOOTH POWDER for removing the brown discolouration of the front teeth; also SHARP'S SPECIFIC for Toothache.

# CHOLERA, DYSENTERY, ETC.

EARL RUSSELL has graciously favoured J. T. DAVENPORT with the following extract of a despatch from Mr. WEBB, H.B.M.'s Consul at Manilla, dated September 17th, 1864 :—"The remedy most efficacious in its effect (in Epidemic Cholera) has been found to be Chlorodyne, and with a small quantity given to me by Dr. Burke I have saved several lives."

# CAUTION—CHLORODYNE.

VICE-CHANCELLOR SIR W. P. WOOD stated that Dr. COLLIS BROWNE was undoubtedly the Inventor of Chlorodyne; that the statements of the defendant Freeman were deliberately untrue, and he regretted to say they had been sworn too Eminent Hospital Physicians of London stated DR. COLLIS BROWNE was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. BROWNE'S.—See *Times*, July 13th, 1864. Subsequently confirmed by the trade at large. See the *Lancet*, April 8th, 1865. The public, therefore, are cautioned against using any other than

## DR. J. COLLIS BROWNE'S CHLORODYNE.

THIS INVALUABLE REMEDY produces quiet refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young take it at all hours and times, when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues mose extensively, using it in great quantities in the following diseases :—

**Consumption, Asthma, Bronchitis, Whooping-Cough, Neuralgia, Diarrhœa, Rheumatism, Spasms, &c.**

Important Testimonials from numerous Medical Men accompany each Bottle.

SERIOUS RESULTS HAVE ARISEN FROM THE USE OF SPURIOUS CHLORODYNE.

**CAUTION.**—Always ask for "Dr. J. COLLIS BROWNE'S CHLORODYNE," and see that his name is on the Government stamp.

**The immense demand enables the Proprietor to Reduce the Price. It is now sold in Bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s, double quantity hitherto.**

SOLE MANUFACTURER:

**J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury Square, London.**

# LAMPLOUGH'S

## EFFERVESCING

# PYRETIC SALINE.

**Important to all, more especially those who have charge of others ; to Travellers, English Ministers, British Consuls, and Europeans seeking to reside in safety in Tropical and Foreign Climates.**

**Her Majesty's Representative, the Governor of Sierra Leone, in a letter of request for an additional supply of the PYRETIC SALINE, states :— "It is of GREAT VALUE, and I shall rejoice to hear it is in the hands of all Europeans visiting the Tropics."**

**The Public, and Invalids especially, are informed that the late distinguished and learned Dr. Prout characterised its discovery as unfolding germs of immense benefit to mankind. Thirty years' experience confirms his opinion. Numbers who have previously suffered from Climates unsuited to the Constitution, or the injurious use of Mercury, inducing disease in its Protean form, who have visited our native Bethesdian waters and ponds in vain, have by daily taking the PYRETIC SALINE, recovered their wonted health and vigour.**

**INVIGORATING and vitalising the blood, it alleviates thirst in a most agreeable manner, and furnishes the system with those saline principles that are essential to health.**

**SICKNESS, HEADACHE, and NAUSEA, are in most cases immediately relieved by taking a tea-spoonful in a tumbler of cold water. This can be repeated once or twice in two hours, if needful.**

**SEA VOYAGES.—It is a very valuable accompaniment, and should on no account be omitted. It instantly allays the sickness.**

**FOR BILIOUS CONSTITUTIONS, giving rise to vititated Secretion, Indigestion, and eruptions of the skin, a tea-spoonful should be taken daily with the dinner in a tumbler of water, and the same quantity on going to bed.**

**In cases of DIARRHŒA, put as much Magnesia as will lie on a Shilling into half a tumbler of water ; let this fall to the bottom of the glass, and then stir into it a tea-spoonful of the Saline, and drink during effervescing.**

**WILLIAM STEVENS, Esq., M.D., D.C.L., states in his work on Fevers that wherever the Saline treatment is adopted, these otherwise fatal maladies are deprived of their terrors. Out of 1,000 cases only 11 died, whilst fully one-half perished with any other mode of treatment.**

**N.B.—A SPURIOUS IMITATION having appeared, it is needful to observe that the PYRETIC SALINE HAS THE TRADE MARK ON THE TOP RIGHT AND LEFT CORNERS OF THE BUFF WRAPPER. Vice-Chancellor, Sir W. P. WOOD, states in his verdict THAT THE OTHER IS A MERE SUBTERFUGE, AND THAT HE WAS STRUCK WITH THE DEFENDANT'S DEMERITS.**

ARE EFFECTUALLY

CURED BY

KEATING'S COUGH LOZENGES.

Judged by the immense demand, this Universal Remedy now stands the first in public favour and confidence; this result has been acquired by the test of fifty years' experience. These Lozenges may be found on sale in every British Colony, and throughout India and China they have been highly esteemed wherever introduced. For Coughs, Asthma, and all affections of the Throat and Chest, they are the most agreeable and efficacious remedy.

TESTIMONIAL FROM COLONEL HEWETT, J.P. AND D.L.

Glamorgan, May, 1866.

Dear Sir,—I was attacked with a severe cough, which your Lozenges removed in a few days. My servants, also, by taking your Lozenges were soon cured. I feel it a duty (to the public) to offer my testimony to their efficacy, which you are at liberty to publish,—Yours truly,

W. HEWETT.

KEATING'S CHILDREN'S WORM TABLETS.

A purely vegetable Sweetmeat both in appearance and taste, furnishing a most agreeable method of administering a well-known remedy for Intestinal or Thread Worms. It is a perfectly safe and mild preparation, and is especially adapted for Children, being as harmless in its action as it is prompt and certain in its effects; and may be taken with impunity by the most delicate constitution.

TESTIMONIAL FROM THE REV. J. S. TOFT.

Frankton.

My Dear Sir,—I am happy to inform you that the Worm Tablets you kindly sent me have, with the blessing of God, perfectly cured my boy. I esteem it, therefore, an act of pure justice and candour that I should acquaint you with the happy result. You are at liberty to make this statement public for the benefit of others who may be similarly afflicted.

With feelings of gratitude, I remain, yours truly,

To Mr. Keating. JOHN S. TOFT.

Observe the words "Keating's Worm Tablets" are engraved on the Government stamp of each tin, without which none are genuine.

# KEATING'S PERSIAN INSECT DESTROYING POWDER.

**Fleas, Bugs, Cockroaches, Beetles, Ants, Mosquitoes, Moths, &c., are instantly destroyed by this powder, which is quite harmless to animal life.**

Dear Sir,—I gave a packet of your Insect Powder to a bed-ridden patient of mine, who was a martyr to the annoyance of fleas and other abominable insects, which completely destroyed them. The result was gratifying; and you are at liberty to publish this if you please.

Yours faithfully,

### TESTIMONIALS.

Hobart Town, 30th January, 1864.

DEAR SIRS,—I cannot leave the colony without acquainting you that I have for many years derived great benefit from your Antibilious Pills, insomuch that, under Providence, I ascribe the vigorous health and green old age enjoyed by me, at over eighty years of age, to a free use of that INVALUABLE MEDICINE. Indeed, the best proof of the estimation in which your ANTIBILIOUS PILLS are held by me is that I have taken FORTY DOZEN of them to England; and I have no hesitation in pronouncing them one of the *best and safest medicines in the world.*

# WEAVER'S
RE-CARBONATED
# FLUID MAGNESIA.

THE high estimation in which FLUID MAGNESIA has been held for many years has induced the Proprietors to manufacture the above preparation in a state of great purity and of uniform strength—thus affording the *Medical Practitioner* an opportunity of administering *this safe and effectual Medicine* with confidence, and giving to the public generally a remedy which can at all times be used with safety and success, either alone or in combination with the ACIDULATED RASPBERRY SYRUP. As most of the FLUID MAGNESIA commonly sold is of uncertain strength, and seldom contains the quantity represented, MESSRS. WEAVER & CO. have imported apparatus at a great expense for the purpose of manufacturing FLUID MAGNESIA on a large scale, and with which they can produce a solution of great purity and uniform strength.

During the oppressive heat of summer,

WEAVER'S RE-CARBONATED
## FLUID MAGNESIA,
Mixed with the proper proportion of the
## ACIDULATED RASPBERRY SYRUP,

Instantly produces the most *Refreshing Beverage*, in which the flavour of the *Raspberry* is fully developed, and the degree of cold consequent on the formation of the CITRATE OF MAGNESIA is nearly equal to an *Iced Beverage.*
