A SUMMARY OF THE PRINCIPAL ASTRONOMICAL AND METEOROLOGICAL OCCURRENCES FOR THE YEAR 1883.

By F. Abbott, F.R.A.S., etc.

Explanation.—*Sun's Rising and Setting.*—These numbers show the mean time when the Sun's centre, elevated by refraction, appears on the horizon, the eye being on a level with it.

Phases of the Moon.—The times are here given to the nearest second when the Moon is respectively 0deg., 90deg., 180deg., and 270deg. of longitude from the Sun. *Apogee* is the time of her greatest distance from the earth; *Perigee* the time of her nearest approach to it.

Geographical Positions.—The position arrived at for the Magnetic Observatory in 1852 by Commander Kay gave to Fort Mulgrave, east longitude 9h. 49m. 29·6s. Captain Denham, of H.M.S. *Herald*, with 32 chronometers 1856 to 1858, gave 9h. 49m. 28·8s., giving a mean longitude of 9h. 49m. 29·2s. The private Observatory lies on a direct line North and South with Fort Mulgrave, and taken in connection with observations made on the transit of Mercury over the Sun's disc November 5th, 1868, gives a very close result to 9h. 49m. 29·2s., which has been here adopted.

ECLIPSES IN THE YEAR 1883.

In the year 1883 there will be four Eclipses; two of the Sun, one being partially visible in Tasmania, and two of the Moon, one of which will be visible.

First.—A very small Eclipse of the Moon, on the evening of April 22nd. It begins at 52min. past 8, its middle will be at 29min. after 9, and it ends at 3min. after 10. At the middle of the Eclipse, only about one-twelfth part of the Moon's diameter will be covered by the Earth's shadow.

Second.—A total Eclipse of the Sun, visible as a partial one, near the time of sunrise on May 7th, in the Eastern parts of Australia and in Tasmania. The line of totality commences in the Pacific Ocean, about 200 miles to the East of Sydney, passes between New Zealand and New Caledonia, and ends at a point on the South American coast. At Hobart neither the beginning nor middle of the Eclipse will be visible, the end only seen at 10min. 58sec. after 7.

Third.—A partial Eclipse of the Moon, on the afternoon of October 16th. Invisible in Tasmania.

Fourth.—An Annular Eclipse of the Sun, on October 31st. Not visible in Tasmania. It will be seen from the North Pacific Ocean, partially from the Eastern coast of North Asia and Western coast of North America.

AUSTRALIAN SEASONS.

Autumn begins March 20d. 11h. 46min. p.m., when the Sun enters Aries.

Winter begins June 21d. 8h. 25m. p.m. (the shortest day), when the Sun enters Cancer.

Spring begins September 23d. 10h. 40m. a.m., when the Sun enters Libra.

Summer begins December 22d. 4h. 29m. a.m. (the longest day), when the Sun enters Capricornus.

From an average of observations over many years the *hottest* period is from January, 21st to 25th, and the *coldest* from July, 20th to 24th; which periods form respectively *Mid-Summer* and *Mid-Winter*.

This table exhibits half the time that a celestial object continues above the horizon when the declination and latitude are of the same name, or below when they are of contrary names; whence, by adding or subtracting from its meridian-passage, the apparent time of its rising and setting for this latitude may be computed.

None of the Planets are visible till the Sun is a certain number of degrees below the horizon, viz.:

Mercury	10°	Jupiter	8° 00′
Venus	5°	Saturn	10° 00′
Mars	11° 30′	Herschell	17° 30′

WEATHER TABLE.

The following table, constructed by the ingenious Dr. Kirwan, upon philosophical considerations of the attraction of the sun and moon in their several positions respecting the earth, is submitted to notice, under the recommendation of actual observation in this colony, further confirmed by several years' experience in the Northern Hemisphere. It is not pretended to be infallible; but it comes so near the truth that in very few instances indeed will it be found to fail of furnishing the observer with the knowledge of what kind of weather there is the greatest probability of succeeding in any given quarter of the moon.

Quarter of the Moon.	*Summer.*	*Winter.*
If the Moon enters either of her quarters at 12 noon ...	The weather will be Very rainy	The weather will be Snow and rain
If between the hours of		
12 and 2 p.m.	Changeable	Changeable
2 ,, 4 ,, ...	Ditto	Fair and mild
4 ,, 6 ,, ...	Fair	Fair
6 ,, 8 ,, ...	Fair if wind N.N.W. or N.E., rainy if wind W., S.W., or S.	Fair if wind N.N.W. or N.E. rainy if wind W., S.W., or S.
8 ,, 10 ,, ...	Ditto	Ditto
10 ,, 12 night	Fair	Fair
12 ,, 2 a.m.	Ditto	Fair and frosty
2 ,, 4 ,, ...	Cold and showery	Rain
4 ,, 6 ,, ...	Rain	Ditto
6 ,, 8 ,, ...	Squally	Stormy weather
8 ,, 10 ,, ...	Changeable	Changeable
10 ,, 12 noon	Showery and windy	Cold and rain.

MOONLIGHT NIGHTS.

Moon's Age.	Winter.	Summer.
1st to 3rd day	From dark until 7 p.m....	Almost invisible
3rd to 8th day	From dark until 12 night	From dark until 12 night
8th to 12th day.....	From dark until 4 a.m....	From dark until daylight
12th to 16th day.....	From 7 p.m. till daylight	From 7 p.m. till daylight
16th to 23rd day.....	From 9 p.m. till daylight	From 9 p.m. till daylight
23rd to 29th day.....	From 1 a.m. till daylight	From 1 a.m. till daylight

In connection with the above Table, it should be remembered that the new moon passes the meridian and rises and sets nearly at the same time as the sun; and as she advances in her orbit eastward about 12½ degrees daily, so she rises and sets about 49 minutes daily later than the sun. At new moon, therefore, she rises and sets with the sun; 7½ days after, when she is 90 degrees in advance of the sun, her time of rising will be about noon; at full moon, when she has advanced 180 degrees, she will rise at about six; and at waning, she will rise in her last quarter at about 12.

GARDENERS' CALENDAR.—*Fruit Garden.*—Where budding is required it may still be performed, choosing, if possible, showery weather. Cut off all surplus shoots from young trees, if they are not required for scions in the Spring. Continue to pinch off all lateral shoots from vines. *Flower Garden.*—Choice carnations may be increased by cuttings and layers with shade and moisture. Choice flowers should be marked for seed. Annuals that have done flowering should be removed, or some will become troublesome weeds. *Kitchen Garden.*—Plant celery in trenches, and a succession of French beans; sow turnips when the weather is moist; take up early potatoes that are ripe; gather all kinds of seeds as they ripen; cut from strawberries all runners that are not wanted for plants, to give strength to the roots. *Greenhouse.*—Calceolarias, cinerarias, etc., may still be sown. Geraniums that have done flowering should be cut down; re-pot as soon as they begin to make fresh shoots. Cuttings struck now will make good plants next year, with care. Continue to shade and water as directed last month.

JANUARY 6.—Called *Twelfth Day*, as being that number after Christmas, and *Epiphany* from a Greek word signifying "appearance." It is a festival of the church in commemoration of the manifestation of Christ to the Gentiles,—more expressly to the three magi or wise men of the East who came, led by a star, to worship him immediately after his birth. The Queen, through the Lord Chamberlain, annually on this day presents gold, frankincense, and myrrh at the Chapel Royal.

GARDENERS' CALENDAR.—*Fruit Garden.*—Little is required this month besides attending to the buds. Strawberry runners should be kept moist to form robust plants in time for transplanting in the first Autumn rains. *Flower Garden.*—Cut off all flower stalks as soon as done flowering, except those required for seed. The flowering season is prolonged by cutting off surplus seed as soon as formed. Verbenas, pentstemons, petunias, and other herbaceous perennial plants may now be propagated by cuttings. Encourage asters, chrysanthemums, dahlias, etc., by frequent watering. Use the rake to preserve a neat appearance. *Kitchen Garden.*—In showery weather vegetables may be sown to come in during the Winter. Mark out plants of the cabbage tribe to run to seed. Earth up peas and potatoes; hoe and stir the surface among all descriptions of crops. *Greenhouse.*—As the principal displays of this season are over, turn your attention to preparation for the next by propagating by seed and cuttings, and preserving such old plants as are desirable for another year. This is the time for forming plants of the early flowers, too frequently neglected by amateurs until the flowering season. Sow mignonette for Winter flowering.

SHROVETIDE (Feb. 6) derives its title from the practice of being *shriven* or *shrove*—that is, confessing and receiving absolution—before the Lenten fast.

ASH WEDNESDAY (Feb. 7). — So called on account of penitents wearing sackcloth next their skin and sprinkling ashes on their heads.

GARDENERS' CALENDAR.—*Fruit Garden.*—Prepare borders for forming new beds of strawberries on the first approach of rain. The ground intended to be planted with fruit trees should now be well worked. Collect the leaves as they fall and convert them into manure. *Flower Garden.*—Continue the general directions given for last month, and sow seed of perennial and annual flowers for Spring flowering as they ripen. *Kitchen Garden.*—Sow cabbage, cauliflowers, lettuce, spinach, and onions for early use. Sow turnips, thin out those sown last month. Earth up celery, take up potatoes, and house onions when well dried. *Greenhouse.*—Continue the general directions given for last month.

ST. PATRICK (Mar. 17).—The shamrock is said to be worn by the Irish upon the anniversary of this their tutelar saint for the following reason :—When he preached the Gospel to the pagan Irish, he illustrated the doctrine of the Trinity by showing them a trefoil, or three-leaved grass, with one stalk ; which operating to their conviction, the shamrock, which is a bundle of this grass, was ever afterwards worn upon this saint's anniversary, to commemorate the event.

PALM SUNDAY (March 18) was so called to commemorate the triumphal entry of our Saviour into Jerusalem, when the multitude strewed palm-branches in the way.

GARDENERS' CALENDAR.—*Fruit Garden.*—Planting of vines and fruit trees may be commenced towards the end of the month; in the meantime keep the ground well worked in dry weather, and dig between the old trees as soon as the leaves have fallen. Keep the surface of the ground loose between the rows of newly planted strawberries, and dig between the rows of the old ones. *Flower Garden.*—Plant bulbs of nearly all the hardy species in dry weather; dig and manure borders between shrubs and herbaceous plants, and form new ones where required, leaving the ground rough. Carnations, etc., that have been propagated during the Summer may now be formed into beds; and shrubs, roses, etc., may be planted towards the end of the month. Examine the haunts of slugs, as every one destroyed now will save considerable trouble and annoyance in the Spring. *Kitchen Garden.*—Continue to sow and plant a succession of vegetables, salading, etc.; dig and manure all spare ground in dry weather. Dress asparagus beds for the Winter. *Greenhouse.*—Cuttings of geraniums that have struck root should be potted into small pots, to be shifted into larger as they advance in growth. The same rule applies to cinerarias, calceolarias, etc.; give air freely during fine weather, and water moderately during damp or wet weather. Gloxinias, achimenes, and other bulbous plants that have done flowering, should be allowed to dry off; primulas and cyclamens that are coming into bloom should be kept near the glass and watered freely.

GARDENERS' CALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be proceeded with in dry weather, taking care to leave the surface of the ground loose after the operation. The general pruning of fruit trees, vines, etc., may be commenced towards the end of the month, especially of such as are in a weak state of growth. Root-prune where necessary. All the ground should now be dug up roughly, burying the leaves and what manure can be afforded. *Flower Garden.*—Now is the time for putting in order all flower borders, shrubberies, etc., by pruning the shrubs and roses, trimming the edges, dividing and regulating the herbaceous plants, digging the borders and thereby creating a neat appearance during the Winter months, and obviating the necessity for digging amongst the roots of plants in the Spring; it likewise breaks into the favourite haunts of the slugs, whereby they are more easily found and destroyed; where new borders are to be formed and planted, it should now be done. *Kitchen Garden.*—Plant out cabbage, cauliflower, and lettuce. Sow peas, broad beans, and carrots for early use. Sow spinach and onions. Make plantations of rhubarb and asparagus. *Greenhouse.*—Little can be done in the greenhouse beyond giving plenty of air on all favourable occasions, guarding against night frost, watering when the earth becomes dry, and keeping the plants free from vermin and dead leaves. Keep all growing plants as near the glass as possible.

GARDENERS' CALENDAR.—*Fruit Garden.*—The planting of vines and fruit trees should be completed this month; should it not be convenient to do so, the trees intended to be planted next month, or later, should now be lifted and laid in by the heels, which will keep them back, always choosing dry weather for the operation; stir the ground around those planted previous to heavy rains as soon as it is dry enough for the purpose. All pruning should be finished this month. *Flower Garden.*—Continue the general directions for last month, and complete the planting of deciduous trees and shrubs. Keep the ground between bulbs free from weeds. *Kitchen Garden.*—Plant early potatoes, etc., in a warm dry border. Early peas and beans may be sown once a fortnight or three weeks from this time. Sow the main crops of onions and carrots, also some radishes, lettuces, spinach, and early cabbage. Propagate plants which are increased by rooted off-sets. Transplant for seed, if not done in Autumn, carrots, turnips, beet, celery, parsnips, etc. *Greenhouse.*—Continue the general directions for last month. Fuchsias that have shed their leaves should now be prepared for the following season by cutting back and re-potting them. Geraniums that are growing tall and thin should have the ends of the shoots pinched off, which will make them more bushy and compact. Re-pot cinerarias and calceolarias as soon as the present pots are filled with roots. This rule applies to growing plants generally.

GARDENERS' CALENDAR.—*Fruit Garden.*—Vine cuttings may be planted. Prepare for grafting: the proper time is as soon as the stocks are well started. Raspberry and strawberry borders may still be prepared, and new ones formed. Look carefully over apple trees, and dress the parts affected by *aphis* or American blight. Manure freely vines and fruit trees that are weakly. *Flower Garden.*—Flower beds should be manured and dug; edgings formed, trimmed, and repaired; herbaceous plants divided; biennials planted. Roses may be pruned, and most sorts increased by cuttings. Seeds of hardy annuals may be sown in the borders; tender ones on a moderate heat for transplanting. Choice dahlias should be placed in a gentle heat, for the purpose of propagating by cuttings. Verbenas, shrubby calceolarias, pentstemons, etc., may be increased by the same means. *Kitchen Garden.*—Earth up, plant, and sow asparagus; transplant, hoe, and sow cabbage; sow and plant as directed last month, and at end of month sow French beans in a warm border and vegetable marrows in sheltered places; plant out and sow lettuces for succession; sow and earth up peas. *Greenhouse.*—Admit air freely in fine weather; re-pot geraniums, cinerarias, calceolarias, etc., as the roots advance to the sides of the pot. Fuchsias that have been dormant should have their roots reduced and be re-potted in fresh soil. Cacti and other plants may be watered more freely than in the depth of Winter. Sow seeds of balsams, cockscombs, egg plants, etc., on a gentle heat; keep all plants clear of *aphis*, scale, etc.

GARDENERS' CALENDAR.—*Fruit Garden.*—The principal work this month is grafting, the chief aim being to bring the bark of the stock and the scion to fit closely; loosen the ground with a hoe after the operation; the same between vines and fruit trees in general; in dry weather mulch raspberries. *Flower Garden.*—Seeds of annuals, biennials, perennials, and shrubs should now be sown; tender ones raised in heat may be transplanted towards the end of the month. Dahlia roots may be planted: propagate choice varieties as recommended last month; take the cuttings out of heat as soon as they have struck root, and protect them from the frost till it is safe to plant them. Lay shrubs that are difficult of propagation by other means. Keep the hoe at work in dry weather, but do not use the rake, except for covering small seeds. *Kitchen Garden.*—Asparagus beds, keep free from weeds. Transplant cabbage, onions, and lettuce. Sow carrots, red beet, celery, turnips, French beans, spinach, radishes, vegetable marrow, scarlet runners. Plant potatoes, sow peas, and earth up those that are ready. Cucumbers may be sown in ridges. Keep the hoe among the crops, it will assist them in their growth. *Greenhouse.*—Follow the directions for last month. The plants in flower will require watering copiously and shading from the mid-day sun.

GARDENERS' CALENDAR.—*Fruit Garden.*—Look over the vines and rub off all superfluous buds. Disbud wall trees. Destroy caterpillars on fruit trees. Keep the surface of the ground loose with the hoe at all convenient seasons, whether there are weeds or not. Place a layer of fresh stable manure between the rows of strawberries : it will increase the size of the fruit and render it free from grit or sand. *Flower Garden.*—Seeds of annuals may still be sown. Tender species raised under shelter may be transplanted into the borders, choosing showery weather for the operation. Dahlias from seed and cuttings, and other tender plants, may be planted about the middle of the month. Mark the flowers of choice bulbs, etc., with the view of collecting their seed. Stake and tie the shoots of herbaceous and other plants as they advance. Where quality rather than quantity is the object, the number of flowering shoots should be reduced. Destroy slugs, *aphis*, scale, bugs, etc. *Kitchen Garden.*—Continue to sow and plant successional crops. Earth up potatoes and peas, sow all kinds of brocoli, Scotch kale, savoys, cauliflowers, tomatoes, and capsicums. Thin early sown carrots, turnips, and spinach, and keep them free from weeds. *Greenhouse.*—Azaleas, camellias, ericas, etc., that have done flowering should be taken out of the house and placed in a shady situation towards the end of the month. Water sparingly the bulbs of achimenes, gloxinia, gesnera, etc., until they appear above the ground. Re-pot all fast-growing plants as often as the pots fill with roots. Use the syringe in evening during sunny weather.

GARDENERS' CALENDAR.—*Fruit Garden.*—Stop all shoots of vines, except the leaders, at one joint beyond the fruit, and lay them to their trellis or supports; pinch off all unnecessary shoots in young fruit trees. Vines, newly planted fruit trees, etc., will be much benefited by a mulching of half-decomposed stable manure. Rub off the shoots from stocks that have been grafted, and remove the clay and binding as soon as they have joined, which may be known by their shooting vigorously; lay as many strawberry runners as may be required for new plantations, and remove all others. *Flower Garden.*—The planting of dahlias and trimming of all annuals, if not done, should be immediately; support all tall growing flowers as they advance; keep the surface of the ground loose with the hoe; clip and trim all edgings except roses; mark choice flowers for seed. *Kitchen Garden.*—Thin and hoe red beet, carrots, and all other Spring crops. Plant out capsicums and tomatoes. Prick out celery in small beds from the seed beds. Earth up peas, French beans, and potatoes. A succession of peas and French beans may be sown. *Greenhouse.*—Sow seeds of primula, cineraria, calceolaria, camellia, geranium, etc. Give plenty of air and water and shade during sunny weather.

GARDENERS' CALENDAR.—*Fruit Garden.*—Vines not yet attended to should be done immediately, and as the lateral shoots appear they should be taken off to within one joint of the main shoots. Young apple or plum trees infested with red spider should be frequently syringed with tobacco water or soft soap well diluted. Brush off American blight as it appears on the young shoots of apple trees. Peaches, etc., on walls will now require frequent attention. Budding may be performed towards the end of the month. *Flower Garden.*—Dahlias, hollyhocks, etc., require frequent attention. Where fine show dahlias are required, one stem alone should be allowed to grow, and the lower lateral shoots removed from that, and the number of flower buds reduced; a liberal mulching will greatly promote their growth during the approaching hot weather. Bulbs of choice hyacinths, tulips, ranunculuses, anemones, etc., should be taken up and stored as they become dormant. Neatness is now the order. *Kitchen Garden.*—Earth up French beans, peas, and scarlet runners; a succession may be planted; prepare trenches and plant celery; transplant all kinds of brocoli, cauliflowers, savoys, and cabbage for winter use; tomatoes and capsicums, if not put out, should now be done; vegetable marrows may yet be sown; sow turnips this month, and earth up late potatoes. *Greenhouse.*—Cinerarias, calceolarias, etc., that are intended to be kept for another season, should be removed into a shady situation as soon as they have done flowering. Fuchsias, geraniums, etc., that are flowering may be watered occasionally with liquid manure. Shade and water freely during hot weather.

The Queen reigns in her own right, holding the crown both by inheritance and election. Her legal title rests on the statute of 12 and 13 Will. III. c. 3, by which the succession to the crown of Great Britain and Ire-

land was settled, on the death of King William and Queen Anne without issue, on the Princess Sophia of Hanover and the "heirs of her body, being Protestants." The inheritance thus limited descended to George I., son and heir of Princess Sophia, she having died before Queen Anne; and it has ever since continued in a regular course of descent.

COURTS OF REQUESTS.

For the recovery of small debts and demands are held under 31 Vict., No. 15, at certain places before Commissioners; where there is no Commissioner the Courts of General Sessions of the Peace are appointed Courts for the like purpose.

Jurisdiction.

1. All personal actions where the debt or damage claimed is not more than the amount to which the jurisdiction of the Court in which the action is brought is limited, excepting actions of ejectment or replevin, or in which the title to any corporeal or incorporeal hereditament, or to any toll, fair, market, or franchise is in question; or in which the validity of any devise or bequest or limitation under any will or settlement may be disputed, or for the infringement of letters patent or copyright, or for the recovery of any money or thing won or alleged to have been won at or by means of a race, match, wager, or any kind of play, or from any arrest or false imprisonment or malicious prosecution, or for any libel or slander, or for criminal conversation, or for seduction, or breach of promise of marriage, or upon any charter-party of affreightment of policy of assurance.

2. Plaints for the recovery of the possession of small tenements.

3. Every Court has jurisdiction throughout the Colony, but the plaintiff must file his plaint in the Court having jurisdiction to the amount claimed nearest to the place where the defendant or one of the defendants dwelt or carried on business at any time within six calendar months next before the day on which the plaint shall be filed, or in the Court having jurisdiction to the amount claimed nearest to the place where the cause of action, either wholly or in part, arose. Where the plaintiff sues for the value of any work or labour performed or services rendered, he may file his plaint either in the Court having jurisdiction to the amount claimed nearest to the place where the work or labour was performed or the services rendered, or in the Court having jurisdiction to the amount claimed nearest to the place where the agreement for the performance of such work or labour or services as aforesaid was made.

Where amount claimed exceeds £10 the action is to be tried by a jury of three, unless the Commissioner by consent of parties tries the action.

Where there is no Commissioner the justices in General Sessions are judges of law and fact.

For every levy	One shilling where the amount claimed does not exceed ten pounds Two shillings where such amount exceeds ten pounds and does not exceed twenty pounds Three shillings where such amount exceeds twenty pounds

Poundage, except where otherwise specified in this schedule, shall be estimated on the amount of the claim.

All fractions of a pound, for the purpose of calculating poundage shall be treated as an entire pound.

Where the plaintiff recovers less than the amount of his claim so as to reduce the scale of costs, he shall pay the difference, unless the reduction is caused by a set off.

In cases of execution of writs of *fieri facias*, the actual expenses necessarily incurred by the bailiff in respect of such execution shall be allowed by the Court as costs in the cause.

In cases of interpleader, the summons to the bailiff shall be issued gratis in the first instance ; the poundage for hearing be estimated on the value of the goods claimed, which in case of dispute shall be assessed by the Court ; and the costs of the summons, estimated on the above-mentioned value, and actual expenses incurred by the bailiff in keeping possession of the goods, be included in the general costs which may be awarded by the Court at the hearing.

No increase of fees shall be made by reason of there being more than one plaintiff or defendant.

JURORS AND JURIES.

The following persons are exempt from serving upon juries :—Judges and Ministerial Officers of the Supreme Court ; Commissioners and Ministerial Officers of the Courts of Requests or Bankruptcy ; Recorders

Ditto, travelling, for personal expenses, per diem, not exceeding	0	5	0
No allowance will be made to any person for loss of time except to professional men, and labourers, etc., in the receipt of daily wages, whose attendance at Court will cause the loss of wages.			
Coach hire in addition to the above in each case when incurred. Outside or inside fare will be allowed, according to the station in life of the witness.			
Horse hire, per diem, not exceeding...	0	10	0
Forage, per diem, not exceeding	0	6	0
Horse hire is only to be allowed when a public conveyance is not available.			
When any witness is in the receipt of forage allowance, or allowance in lieu of forage from public moneys, a proportionate deduction is to be made from each day's allowance for forage as above.			

The above rates are not to be considered as fixed allowances, but as merely indicating the maximum charges to be admitted ; and no more will in any case be allowed than has been actually and necessarily expended.

No expenses will be allowed unless applied for to the Judge immediately after the trial, or before the rising of the Court on the day of trial.

* Similar allowances are made to Witnesses before Select Committees of Parliament.

No expenses will be allowed for attending before the examining Magistrate unless the magistrate's certificate allowing such expenses is produced to the court at the time the witness applies for his expenses. No expenses will be allowed unless the witness appears in the court immediately upon his name being called.

No expenses will be allowed if any excessive or improper charge is attempted to be made.

LICENSING MEETINGS OF JUSTICES.

Quarterly meetings of justices of the peace for granting public-house and packet licenses and transfers of same are held in all police districts and municipalities on the first Monday in the months of February, May, August, and November in every year. The annual licensing meeting is always held on the 1st December. Applications for each must be sent to the local Clerk of Petty Sessions fourteen clear days previously.

Any person desiring to appeal against a decision of any Licensing Meeting must make such appeal to the Court of General Sessions of the district in which the meeting took place, and must also give to the Clerk or Deputy Clerk of the Peace for the district notice in writing of his intention and the grounds of appeal at least *seven clear days* before the time of holding the Court.

COURTS OF GENERAL AND QUARTER SESSIONS OF THE PEACE.

PRIVATE PURCHASE OF CROWN LANDS.—The Waste Lands Act (34 Vict., No. 10) provides that any person may select and purchase one lot of land of not more than 320 acres at £1 per acre. No one to hold more than one lot, unless obtained by descent, devise, or marriage. Selectors on credit under section 24 to pay cash at purchase amounting to one-thirtieth of the upset price, in addition to the survey fee; and a credit premium of one-third of the whole to be added to the purchase money. Payment of balance to extend over fourteen years; but it may be paid off at any time during that period, a discount at the rate of five per cent. per annum being in that case allowed off. Selector must occupy either personally or by tenant or representative, within a year after selection, and continue in occupation until the purchase money is paid off. Example of mode of payment where credit is taken for 100 acres, the sale price being £100; credit premium of one-third, £33 6s. 8d.; total price, £133 6s. 8d. exclusive of survey and grant deed fees :—

British-Australian Telegraph.—Communications with England by submarine cables and a land line across Australia was opened on Oct. 21, 1872.

MESSAGES.

Messages are forwarded from any of the stations on the main line of road to the surrounding districts at a moderate charge for porterage.

Messages will be transmitted in the order of their reception ; no precedence allowed, except for special despatches on Government service, the arrest of criminals, and cases of pressing emergency.

Messages must be written with ink clearly and legibly, bearing the proper date and address, and the genuine signature of the sender. The full and correct address to be given. Figures not to be used.

Messages will be delivered free of charge within one mile of the office; over that distance cab or omnibus fare will be charged when incurred. When messages are delivered to ships away from the wharf, boat hire will be charged extra.

Prepaid telegrams, on being franked "On Public Service Only" by authorised officers of the Telegraph Department, and having the words "Telegraph Only" printed in red ink on the face of the envelope, are allowed to pass through the Post Office free of postage.

Post Cards having a penny stamp printed or impressed by the Postmaster-General will be transmitted between places in Tasmania, and if bearing an additional penny stamp, to the other Australasian Colonies, under the following conditions:—There must be nothing written, printed, or otherwise impressed on the front side thereof, except the address; on the reverse side any communication, whether of the nature of a letter or otherwise, must be written or printed; the card must not be folded, cut, or altered. Should a post card bear upon it anything of an obscene, libellous, or obviously objectionable nature, it will be detained and forwarded to the Secretary. When owing to a great and unusual influx of letters, etc., the transmission or delivery of letters would be

delayed if the whole mail were dealt with without distinction, post cards may be kept back until next despatch or delivery.

Soldiers' and Sailors' Letters.—Letters not exceeding half an ounce to and from non-commissioned officers, private soldiers, seamen, or marines in Her Majesty's service, one penny.

Registered Letters must bear stamps to the value of fourpence as the registration fee, in addition to the ordinary postage. Unregistered letters containing money or valuables are registered by the postmaster before transmission, the fee being charged upon delivery. The registering office is open from 10 a.m. till 4 p.m., except on English mail days at Hobart, when it is closed at 3 p.m.

Late Letters for inland and ship mails are charged a uniform fee of 2d. each. This regulation applies also to loose letters sent to and from Victoria or New South Wales in the ship's box or bag, the deficiency in default being charged at the destination of such letters. *Late Newspapers*, 1d. each. On English mail days at Hobart (when the ship reception boxes are closed at 5 p.m. sharp), letters for the United Kingdom and Victoria only may be posted until 6 p.m., at a fee of 6d. each.

Private Savings Bank or Building Society Packets.—Money or deposit books or documents referring thereto may be forwarded to or from Savings Banks and Building Societies in parcels not exceeding 4oz. in weight at a charge of one penny only for each packet, if bearing the endorsement "Savings Bank (or Building Society, as the case may be) Packet only" and the signature of the sender. Postmasters are bound to register these packets without fee.

Ship and Inland Packets must be in covers open at the ends or sides, and parcels of seed or samples of merchandise in bags or papers tied so as to be easily loosened and refastened. They must bear on the outside a statement of their contents and the name and address of the sender; and must not contain any letter or epistolary communication. Packets exceeding 16 ounces in weight or of inconvenient form or size may be refused; and the transmission of any exceeding eight ounces may be delayed for any time not longer than a week, unless for England. Packets are allowed to contain any of the following articles :—Affidavits, almanacs, accounts current connected with fire, life, and marine assurance, books printed or plain, catalogues, conveyances, deeds, engravings, friendly societies' reports, judgments, *bonâ fide* intended for registration according to law, letters of attorney, magazines, maps, music, music paper, notes, cheques, orders, or pass books sent by or to any bank or banker, paintings, pamphlets, patterns, or samples of merchandise, periodical publications, photographs, placards, plans, policies of assurance, proposals for assurance, prices current, printed circulars, printed papers of every description, proceedings of any court of justice, printers' proofs, reviews, seeds, share scrip, specifications, Tasmanian Government debentures, Tasmanian treasury bills, wills, writing paper, writs. NOTE.—Sample or pattern packets must not contain any article having a value apart from its use as such. Any article of dress is not deemed a sample.

Packets Containing Gold.—The postage on all packets containing gold only, received at any post office for delivery within this colony, exclusive of the Registration Fee of 4d., is as under :—

For any weight not exceeding one ounce . . .	2d.
For every additional ounce or portion thereof . .	2d.

All Postages must be prepaid in Tasmanian stamps. From 1st November, 1882, revenue stamps may be used for postal purposes, and *vice versa*. Inland unstamped letters and packets are sent on, and charged on delivery with double the amount due. Unstamped letters and packages for the United Kingdom, New South Wales, New Zealand,

Queensland, South Australia, Victoria, and Western Australia are sent on and charged on delivery with deficient postages and a fine. Stamps must be affixed above the address or the letter may be treated as unstamped.

Exemptions from Postage.—Letters and packets to or from members of Parliament during the session. Petitions and addresses to the Governor; demands, remittances (which also are registered free of charge), and receipts on account of rural police rates and road rates, and rates under Real Estates Duty Act; statistical information to the Government Statistician; maps or plans to or from the Surveyor-General; official letters to or from Inspectors under Scab Act; official returns of births, marriages, and deaths; depositions to or from the Crown Prosecutor; printed forms to or from the Government Printer; in each case the cover being duly endorsed and signed by the sender. Letters on public service only franked by the Governor or by a member of Parliament or Mayor or Warden of a municipality or by an officer of the Government authorised to frank official letters. Prepaid telegrams franked by an officer of the Telegraph Department. Letters enclosing Municipal and Road Trust Accounts addressed to Colonial Auditors. Depositors' Post Office Savings Bank Books.

Newspapers must not bear any mark or contain any writing beyond the address, under a penalty not exceeding £10.

Mails for Europe.—Mails are forwarded every two weeks by the overland route *via* Colombo and Suez, and every two weeks by the Orient line of steamers *via* Suez, Naples, and Plymouth. Mails are also made up and sent every four weeks to Sydney in time to catch the Californian mail steamer.

Intercolonial Mails.—Mails for the neighbouring colonies are made up and forwarded by every steam vessel leaving for Melbourne, Sydney, or New Zealand. Ship mails *via* Launceston and Melbourne (except on English mail days as above) close at Hobart at 5 p.m., and for Victoria only, at 6 p.m.

Private Boxes may be secured at an annual charge of 21s.; ship mail notices supplied for a yearly sum of 20s. Private mail bags, for country residents, 21s. each.

REGULATIONS FOR POST OFFICE SAVINGS BANK.

1. Every Money Order Office is also a Post Office Savings Bank and open daily for the receipt and payment of money during the hours appointed for the transaction of Money Order business. The Banks at Hobart and Launceston are closed at noon on Saturdays, but open again from 7 to 9 p.m. for receipt of deposits only.

2. Deposits of one shilling, or of any number of shillings, or of pounds and shillings, will be received from any depositor at the Post Office Savings Banks; but no interest will be allowed on any sum in excess of one hundred and fifty pounds.

All deposits must be made in cash, or in notes issued by Tasmanian Banks, or in coupons on Tasmanian Government Debentures.

3. Interest will be given on the money deposited in them at the rate of £3 10s. per cent. on sums not exceeding £150.

4. Depositors in these Banks have *Direct Government Security* for the prompt repayment of their deposits.

5. A depositor in any one of the Post Office Banks can continue his deposits at any other of such Banks, or he can withdraw his money at the Post Office Bank most convenient to him.

6. The strictest secrecy is observed with regard to the names of the depositors in the Post Office Savings Bank and the amount of their deposits.

7. Married women may deposit money in the Post Office Savings Bank, and money so deposited will be repaid to the depositor, unless hsr husband gives notice, in writing, of marriage, and claims payment of the deposits.

NOTE.—Nothing contained in the Savings Bank Regulations shall prejudice the rights of any woman who may have received a protection order under "The Matrimonial Causes Act, 24 Vict., No. 1," or any Act amending the same, or in force for like purposes, so long as such order shall remain in operation; but notice of the making of such order, and a copy thereof, shall be served upon the Postmaster-General.

8. Money may be deposited by or on behalf of *Minors*.

9. Friendly Societies, duly certified, may deposit their funds in the Post Office Savings Bank; but a copy of their rules must previously be sent to the Postmaster-General.

10. Charitable and Provident Societies may also deposit their funds, but a copy of their rules must be sent to the Postmaster-General.

11. Depositors' Bank Books are transmitted free of postage.

Withdrawals can be made by notice sent through the telegraph, and payment obtained on same day

MAIL SIGNALS.

At Hobart a red flag with white cross is hoisted at the Town Hall and at the mast-head, Albert Battery, when it is known that the English mail, *vid* Suez, is at King George's Sound; a blue and white chequered flag when it is off Cape Borda or at Adelaide; a red and yellow flag when it is off Cape Otway or at Melbourne; a white flag with blue cross when it is off Low Head or at Launceston; and a red flag when it arrives at Hobart. A blue pennant indicates that English and Intercolonial letters, by steamer arrived at Launceston, will be delivered the same evening at the window of the Hobart Post Office after the arrival of Express Train at 8·45 p.m. A red pennant with white ball indicates a delivery after arrival of Ordinary Train at 6·20 p.m.

At Launceston the arrival of the English mail, *vid* Suez, at King George's Sound is signalled by a white pennant with a red ball (C); off Cape Borda or at Adelaide by C over W; off Cape Otway or at Melbourne, C over V; off Low Head, C over B; and on arrival at Post Office a white flag with blue cross. See Signal Flags.

TASMANIAN COUNCIL OF EDUCATION.

Board Room, Public Buildings, Macquarie-street, Hobart. Meets on the third Wednesday in every month, at 3 p.m.

Members—Hon. H. Butler, M.H.A. (President); Rev. G. F. Archer, B.A.; Hon. T. D. Chapman, M.L.C.; Rev. George Clarke; Rev. J. C. Whall, M.A.; His Honor Mr. Justice Dobson; Hon. W. R. Giblin, M.H.A.; James Grant; Rev. R. D. Poulett-Harris, M.A.; S. P. H. Wright; William Tarleton; Thomas Stephens, M.A.; Russell Young.

Secretary—George Richardson.

The Council of Education is authorised by 22 Vict., No. 21, and 35 Vict., No. 16, to hold examinations in imitation of the Oxford and Cambridge annual local examinations, and to confer annually two Tasmanian scholarships and the degree of Associate of Arts.

Tasmanian Scholarships.—Eight scholarships, each of the value of £200 per annum, and tenable for four years at a British university, are founded; of which two are annually competed for by male Associates of Arts of above sixteen and under twenty years of age, and who have resided in the colony for at least the preceding five years.

A. A. Degree.—This degree is open to persons of any age and of either sex. Candidates above nineteen years of age who take honours are placed in separate class lists, and are not eligible for prizes. Tasmanian law students, who have the degree of A.A., are exempted from a literary examination prior to admission to the bar; and in England the General Council of Education, and the Royal College of Surgeons, accept the degree in lieu of the literary examination required from medical students, provided the Associate has passed in both Latin and Mathematics. Candidates passing in certain subjects, but not qualifying for the degree, are entitled to certificates.

Minor Scholarships for A.A.—Two scholarships of the annual value of £40 each, tenable for two years, are awarded to the Senior Associates of the year, who express their intention of studying and competing for the Tasmanian Scholarship.

Dry Scholarship.—A scholarship bearing this name is granted each year to the Senior Associate of the year, provided he declares his intention to proceed with his studies for the Tasmanian Scholarship. In the event of his declining to do so, the scholarship is awarded to the second student on the list of Associates of the year, and so on.

Exhibitions.—Five exhibitions of £20 each, tenable for four years at such schools as shall be named by the parents or guardians, and approved by the Council, are annually bestowed on boys or girls under fourteen years of age, who have not during the previous six months been pupils of a Government school, and who have been resident in the colony for two years immediately preceding the 1st June.

Gilchrist Scholarship.—A scholarship of £100 per annum, tenable for three years either at the University of Edinburgh, or at University College, London, is biennally awarded to the candidate who passes highest at the matriculation examination of the University of London carried on at Hobart. Candidates must either be natives of

Tasmania, or have been resident in the colony for five years or over, and be above 16 and below 22 years of age. The next examination will take place in or about August, 1883, under the supervision of the Council of Education; the papers being sent home for decision.

London University.—The sanction of the authorities of the London University has been obtained to the holding of Local Examinations in Hobart, under the supervision of the Council of Education, for Matriculation and for Degrees in the Faculty of Arts in connection with that University.

Matriculation at the Melbourne University.—Local examinations for matriculation at the Melbourne University are held in the July and October terms, under the superintendence of the Council, the papers being sent to Melbourne for decision. Candidates may also be examined at the February term, upon *payment* of additional *expense.*

Local Examinations in connection with the Sydney University are also held.

BOARD OF EDUCATION.

Board Room, Public Buildings. Meets at 3 p.m. on the 4th Wednesday in each month.

Members—Hon. Henry Butler, M.H.A. (Chairman), James Grant, H. Hunter, W. Tarleton, James B. Walker, and S. P. H. Wright. Chief Inspector of Schools, Thomas Stephens, M.A., Oxon. Inspectors of Schools, James Rule and Alfred Doran, B.A., LL.B.

Secretary, George Richardson. Clerks, Edward Rowland Roe, Henry Wedge Calder, Frank W. Butler, and Ronald D. Burgess.

The Board of Education is empowered to frame regulations for the distribution of all moneys granted by the Legislature for the purposes of education; to determine the *locale* of public schools; to regulate the course of instruction in the schools, the examination and classification of teachers, the issue of certificates of competency to teachers, the inspection of schools, and the functions and duties of local school boards, and to fix the maximum fees to be charged by teachers. All regulations must be approved of by the Governor-in-Council, and be published in the *Gazette* before they are of any force. The Public Schools Acts 32 Vict., No. 14, and 37 Vict., No. 11, provide for the appointment yearly of local school boards of not more than nine members, and direct that every child between seven and fourteen years of age, resident within two miles from any public school, must be sent to school, unless the parent or guardian holds a certificate of exemption from the local school board. In the absence of such certificate, any parent or guardian refusing or neglecting to send such child to school may be summoned before two justices, who may order the child to be sent, and may determine what charge, if any, shall be made for it. Any person refusing to obey such order, or ceasing after a time to obey it, is liable to a fine of £2.

Number of schools in operation during 1881, 175; number of distinct children on the rolls during the year, 13,644; average number on rolls, 9,258; average daily attendance, 6,701. Total expenditure, £18,191 7s. 7d.; average cost per head of scholars in daily attendance, £2 14s. 3½d.; average receipts from school fees per head, ditto, £1 0s. 11¾d. The average number of free scholars under instruction was 1249·75; amount paid by the Board for their instruction, £475 7s. 6d.

Exhibitions.—The Board awards annually twelve exhibitions of the value of £16 13s. 4d. each—six to boys and six to girls—tenable for four years from 1st July. Candidates must be between ten and twelve years of age, and have attended one of the public schools for at least twelve months prior to 1st June.

Night Schools.—A free grant of books and school requisites is made to night schools, if held in buildings under the control of the Board, and

established with its sanction. An average attendance of ten scholars above the age of twelve years is required, and provision is made for the remuneration of the teacher at a weekly rate founded upon the average attendance.

EXCISE.

Under the supervision of the Collector of Customs.

BEER DUTY.—Collectors: O. H. Hedberg, jun., Hobart; Jas. Barnard, jun., Launceston.

Under the provisions of Act of Parliament, 43 Vict., No. 10, a duty of threepence per gallon is levied upon all ale, porter, and all other malt liquor or fermented beverage made in imitation of beer or malt liquor, and brewed in whole or in part from any other substance than malt. Duty to be paid by stamps which are to be affixed upon spigot or tap-hole of cask, and the stamp to be cancelled by the brewer writing or imprinting thereon his name or initials and the date when cancelled, and the stamp to be destroyed by persons drawing from casks.

Established by Act of Parliament, December 22, 1857.

The Jurisdiction of the Board extends to all ports, harbours, and islands from Cape Portland round the eastern, southern, and western coasts to 42° south latitude, and one nautical league to the seaward from low water along the whole of that coast line.

Office, Franklin Wharf. Wardens—E. M. Fisher (Master Warden), C. Dowdell, James Bayley, W. Crosby, jun., A. G. Webster. The Board meets every Friday at 3·15 p.m. Secretary, Henry Smith. Harbour Master and Boarding Officer, James Riddle. Wharfinger, J. E. Howard. Pilots, G. W. Harrison and N. B. Cleary.

SIGNAL STATIONS.—Battery Point, Richard Shea ; Mount Nelson, John Duffy.

LIGHTHOUSES.—*Kent's Group, revolving ; superintendent, R. Jackson. *Swan Island, revolving flash ; superintendent, Charles Baudinet. *Goose Island, fixed ; acting superintendent, Alex. Gorrie. South Bruny revolving ; superintendent, W. Hawkins. Iron Pot, fixed ; superintendent, J. C. Parkinson. Low Head, revolving ; superintendent, A. Rockwell. *King's Island (Cape Wickham), fixed ; acting superintendent, R. W. Garraway. *Currie Harbour, west coast of King's Island, revolving—5 bright flashes every minute ; acting superintendent, E. W. Buckpitt. Leading Lights, Tamar Heads ; superintendent, E. Willson.

QUARANTINE GROUND.—Between Sandy Bay Point and the eastern side of the river Derwent ; Sandy Bay Point bearing north of west. The usual quarantine signals to be exhibited at the main-topmast head.

* The expense of these lights is shared between this colony, Victoria, and New South Wales.

HEALTH OFFICER.—G. W. Turnley.

WHARFAGE RATES.—See page 128. Porter's license, 5s. Boat license, 6s.

HARBOUR DUES.—One penny per ton inwards and outwards, and for each removal. N.B.—No vessel is charged for more than three removes during her stay in port.

PORT CHARGES.—*Lighthouse Rates.*—For steamers and coasting vessels, 4d. per ton. For other vessels, 6d. per ton.

PILOTAGE.—On sailing vessels, 9d. per ton ; on steam vessels, 6d. per ton. No charge for pilotage may exceed £30, or be less than £4 ; vessels under 50 tons are exempt, unless the master employs a pilot.

The remuneration to pilots detained on board vessels in quarantine or otherwise delayed is 15s. per day in addition to the usual pilotage.

The rate for pilotage is reduced one-half if no pilot offers himself until the vessel reaches a line drawn from the southern point of Half-Moon Bay to Pearson's Point.

The exemption flag is a full-sized red pennant over the allotted distinguishing flag of the vessel.

EXEMPTIONS FROM PORT CHARGES.—In order to encourage the resort to the ports of this island of vessels of all nations engaged in the whale fishery and vessels arriving under the circumstances hereinafter mentioned, all vessels of all nations outfitting for or refitting from the whale fisheries and all vessels arriving and sailing in ballast or which do not break bulk or only to such an extent as may be necessary to provide funds for the repairs, refitting, or refreshment of such vessels, and all vessels belonging to any foreign power with which a treaty of commerce declared by any royal order in council to be subsisting has been made, which arrive at any port for the purpose of landing oil or whalebone the produce of fish caught or taken by the crews of such vessels, and land such oil and whalebone at any wharf appointed by the Board for that special purpose, are exempted from the payment of all port charges, lighthouse dues, and port dues whatsoever, except those of pilotage in cases where the services of pilot have been actually required and received.

A pamphlet containing the "rules and regulations of the port of Hobart contained in the Marine Board Act, 21 Vict., No. 16, and in by-laws passed by the Marine Board, also the Quarantine Act, 5 Vict., No. 14, and the Admiralty regulations respecting lights and fog-signals to prevent collisions," is supplied to all vessels on arrival.

LAUNCESTON MARINE BOARD.

Established by Act of Parliament, December 22, 1857.

Office, Lower George-street, Wharf.

Wardens—Geo. Gilmore (Master Warden), E. L. Ditcham, W. R. Barwood, S. Tulloch, and H. Dowling.

Secretary, G. M. Eddie. Harbour Master, W. N. Ling.

Pilots residing at Low Head.—W. Croucher (in charge), C. Begent, J. J. Bradley.

Lighthouse, Low Head, A. Rockwell, Superintendent.

Leading-Light Towers, — Willson, Superintendent.

Harbour Master, George Town, R. J. Harris.

Paddle steam-tug, Tamar. Master (and Pilot) G. Smart ; Mate (and extra Pilot), Jas. Taylor ; Engineer, Joseph Lowes.

Shipping Master, Immigration Agent, and Marine Surveyor, G. Dryden.
Inspecting Engineer, Joseph Lowes.

No other steamer than the Tamar tug allowed to tow in the river except licensed (fee £25), under penalty. Cases of emergency exceptional. Steamers may tow coasting vessels under 40 tons, or river boats, on paying a license fee of £2.

The rules and regulations of the port as published by the Board, and sailing directions for entering Tamar Heads by night, are supplied to all vessels visiting the port.

Quarantine Ground.—Western side, Middle Island, in the River Tamar. Day signal, yellow flag, of six breadths of bunting, at maintopmast head; at night, a signal lantern shown from the same position.

Health Officer, George Town, James Richardson.

Boat license, 10s. Porter's licence, 5s.

PILOTAGE RATES.—Sailing vessels, 1s. per ton; steam vessel, 8d. per ton. Vessels that do not have a pilot until they pass Whirlpool Reach either way are charged only half pilotage. Other regulations as at Hobart.

HARBOUR AND LIGHT DUES, same as Hobart. (See page 137).

TOWAGE RATES.—To or from the Heads, for the first 100 tons, 2s. per ton; for every additional ton up to 300, 1s. 6d.; for every additional ton up to 500, 1s.; for every ton above 500, 6d. Steam will not be got up to tow a vessel down alone for less than £10; or two or more vessels together for less than £12 10s. The pilotage of vessels towed by the tug will be charged at two-thirds of the rate for sailing vessels. When two vessels are towed together a reduction of one-fifth of the usual charge to the smaller one will be made to each, subject to the above minimum.

SIGNAL FOR STEAM TUG.—The rendezvous or chequered flag, hoisted where best seen. When this signal is made by a vessel entering port, the tug, if in Launceston, will be telegraphed for on that vessel's account.

FREE PORT.—Vessels seeking freight or putting in from stress of weather, and not breaking bulk, are exempt from all port charges whatever, unless they employ a pilot; in which case, if they anchor below George Town, one-third pilotage only will be charged.

DIRECTIONS FOR ENTERING TAMAR HEADS BY NIGHT.

FROM THE EASTWARD AND NORTHWARD.—When within 3 miles of the Low Head, the same bearing about south, steer south-westerly, and when the leading-lights become visible, which will be on a S.E. ¼ E. bearing, a southerly course may be shaped, care being taken not to bring the Low Head Light to bear to the eastward of E. by S. until the leading-lights are in line S.E. by E. ½ E., when steer boldly in, passing the buoy on the Shear Rock close to.

FROM THE WESTWARD.—After sighting the Low Head Light, do not bring it to bear east of E. by S. until the leading-lights have been sighted and brought to bear S.E. by E. ½ E., when they will be in line, and may be run for as directed above.

PROCEEDING UP THE RIVER.—If proceeding up the river, after passing the Shear Buoy bring the leading-lights 1½ points on the port bow and look out for the white buoys and Simmons' Mistake beacon. The course from Simmons' Mistake to the Bombay Rock is S. by E., and so

long as the low leading-light is in sight the vessel is outside of the buoy on this shoal. Having passed the Bombay Rock, haul to the S.E., when the low leading-light will be lost sight of, and round Garden Island close to. Do not lose sight of the high leading-light, its loss being a sign that you are nearing the Garrow Rock off George Town.

PROCEEDING OUTWARDS.—Round Garden Island close to, and without losing sight of the high leading-light haul to the north-westward. When the low leading-light becomes visible on a N. ½ W. bearing steer for it, keeping a good look-out for the Bombay Rock buoy and Simmons Mistake beacon ; having passed the latter, steer for the Low Head Light, and when the leading-lights are in line S.E. by E. ½ E. keep them so until the entrance is passed, and shape course as required. If neither the black buoy on the Middle Bank nor the white buoy on the Yellow Rock is visible, the entrance may be known to be passed when the Low Head Light bears E. by N. ½ N. or is 4 points abaft the beam.

Vessels bringing up in Port Dalrymple must have both leading-lights in sight ; the loss of the low leading-light on a S.E. ¼ E. bearing will indicate proximity to the bank off Cordell Point. The anchorage ground is about one cable inside the line of the leading-lights in about 8 fathoms of water, the high light being open to eastward of the low one.

The best guide to the anchorage is the lead.

The leading line leads vessels close to the buoy off the Shear Reef in 24 feet at low water, and in the same depth at the tail of the reef off the Barrel Rock.

The old towers in Lagoon Bay have been blackened : the leading-light towers now answer the purpose of day marks.

SANDFLY, 1 gun, 120 tons. Re-commissioned at Sydney, July 1, 1880. Lieutenant-Commander, Walker S. King.

EXPLANATION OF HOBART SIGNALS.

When a sail is in sight from the south, No. 26 is hoisted at mast-head at the Albert Battery.

„ „ from the east, No. 27, ditto

„ „ in mid-channel, No. 28, ditto

When it is ascertained what the vessel is, the flag is hauled down from the mast-head, and a ball is hoisted at the yard.

No. 1 on the right, viewed from town, denotes a ship or barque

2 „ „ „ „ a brig

3 on the left „ „ „ a brigantine or schooner

4 „ „ „ „ a steamer

When it is discovered whence the vessel sailed, one of the following flags is hoisted in lieu of the ball :—

Union Jack—Ship of war	10 South Australia	20 T.S.N.Co.'s s.fr.Mel.
1 Government schooner	11 Victoria	21 T.S.N.Co.'s s. from Sydney.
2 London	12 Sydney	
3 United States	13 Newcastle, N.S.W.	22 Whaler (colonial)
4 South America	14 Queensland	23 Whaler (foreign)
5 California	15 N. Zealand (North I.)	24 Ves. returned to por'
6 Mauritius	16 N. Zealand (South I.)	25 Ves. with Emigrant
7 India	17 Launceston	26 W. Coast Tasma a
8 China	18 N. Coast of Tasmania	27 Foreign Man-of-War
9 Western Australia	19 E. Coast of Tasmania	

When two or more ships, brigs, or schooners are coming in from the same place, a white pennant pierced with red is hoisted under the flag.

When the mail steamer arrives at King George's Sound No. 9 will be hoisted at the mast-head; when off Cape Borda or at South Australia, No. 10 will be hoisted at the mast-head; when off Cape Otway, or at Melbourne, No. 11 will be hoisted at mast-head; when off Low Head, or at Launceston, No. 17 will be hoisted at mast-head; and when the mail arrives at Hobart, No. 15 will be hoisted at mast-head.

A blue pennart at mast-head signifies that the English and intercolonial mails, arrived at Launceston, will be delivered at the window of the Post Office, Hobart the same evening, after arrival of Express Train at 8·40 p.m. A red pennant with white ball indicates a delivery after arrival of Ordinary Train at 6·30 p.m.

When steamer from Melbourne is signalled off Low Head, a red pennant will be hoisted at the yard-arm on the left (as viewed from town) for two hours, a blue pennant if the steamer is from Sydney, and a pennant with red and white vertical stripes if from Adelaide.

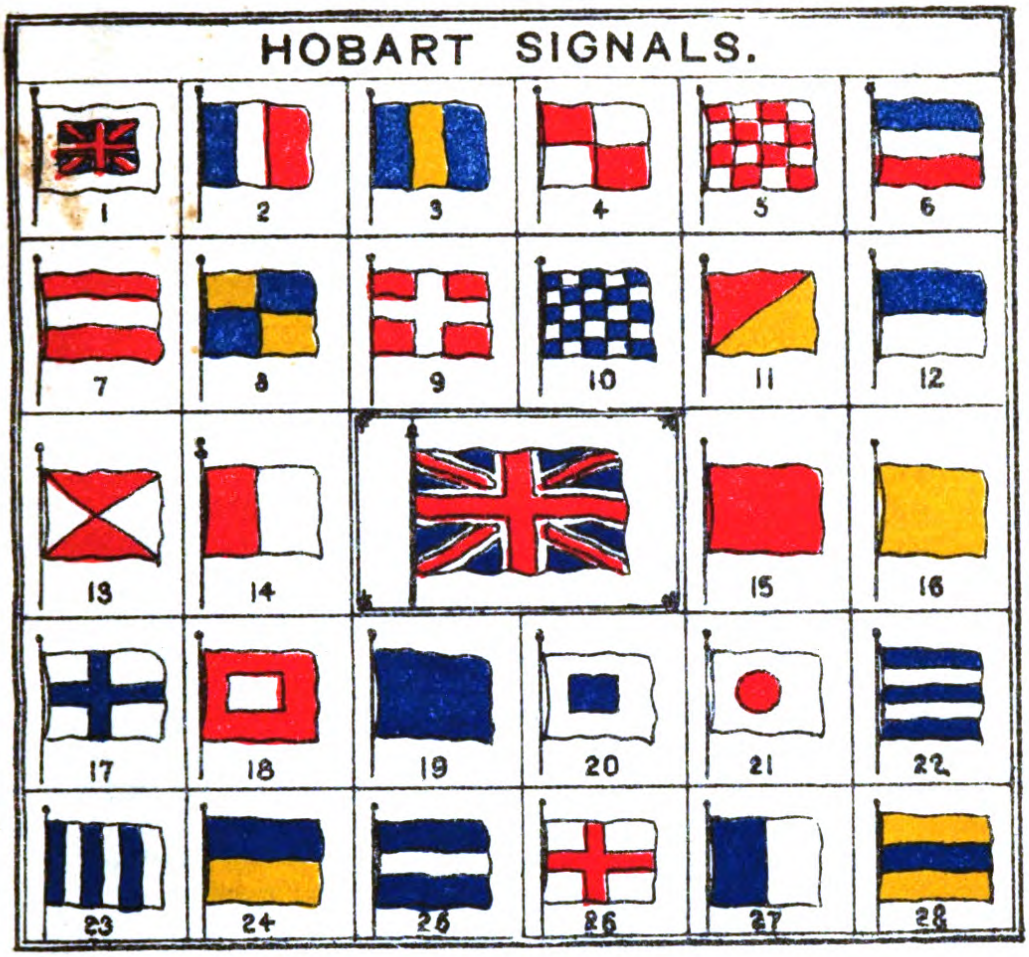

Time Signal.—Black ball drops daily at one o'clock p.m. from the gaff at the Albert Battery staff, a time gun being simultaneously fired from the Queen's Battery.

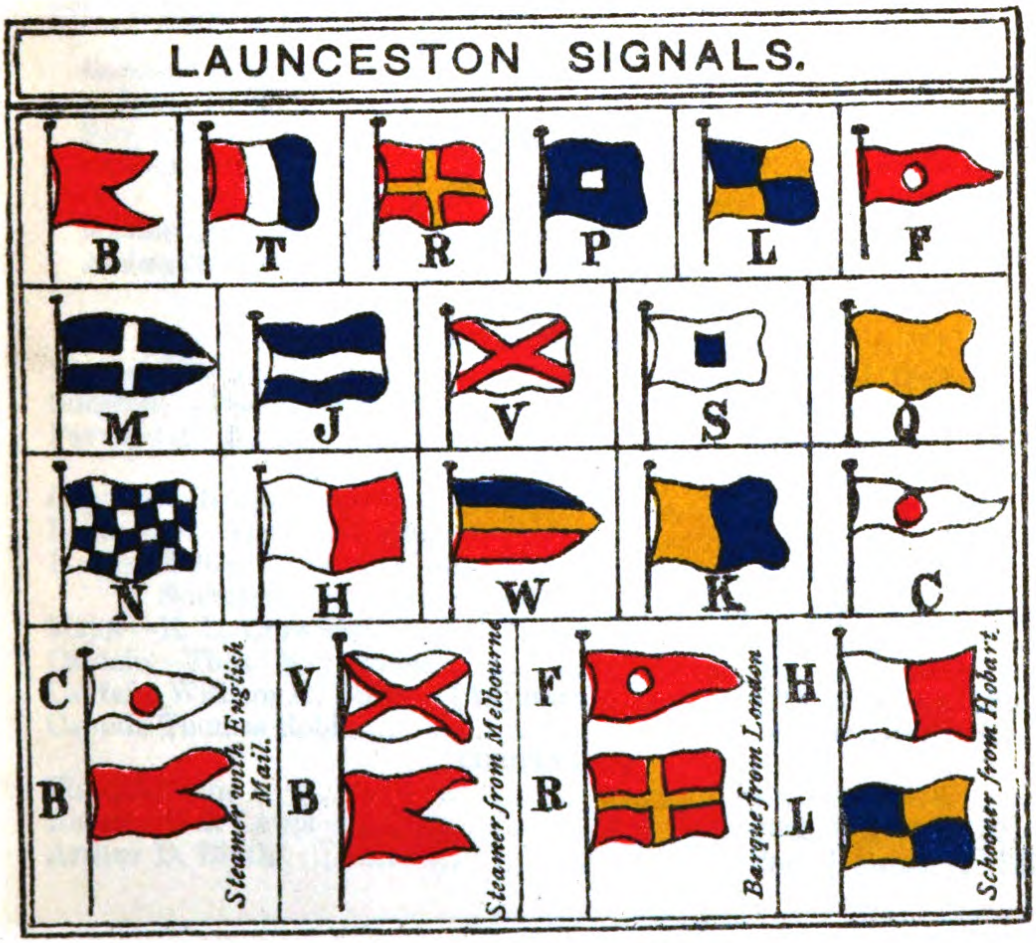

EXPLANATION OF LAUNCESTON SIGNALS.

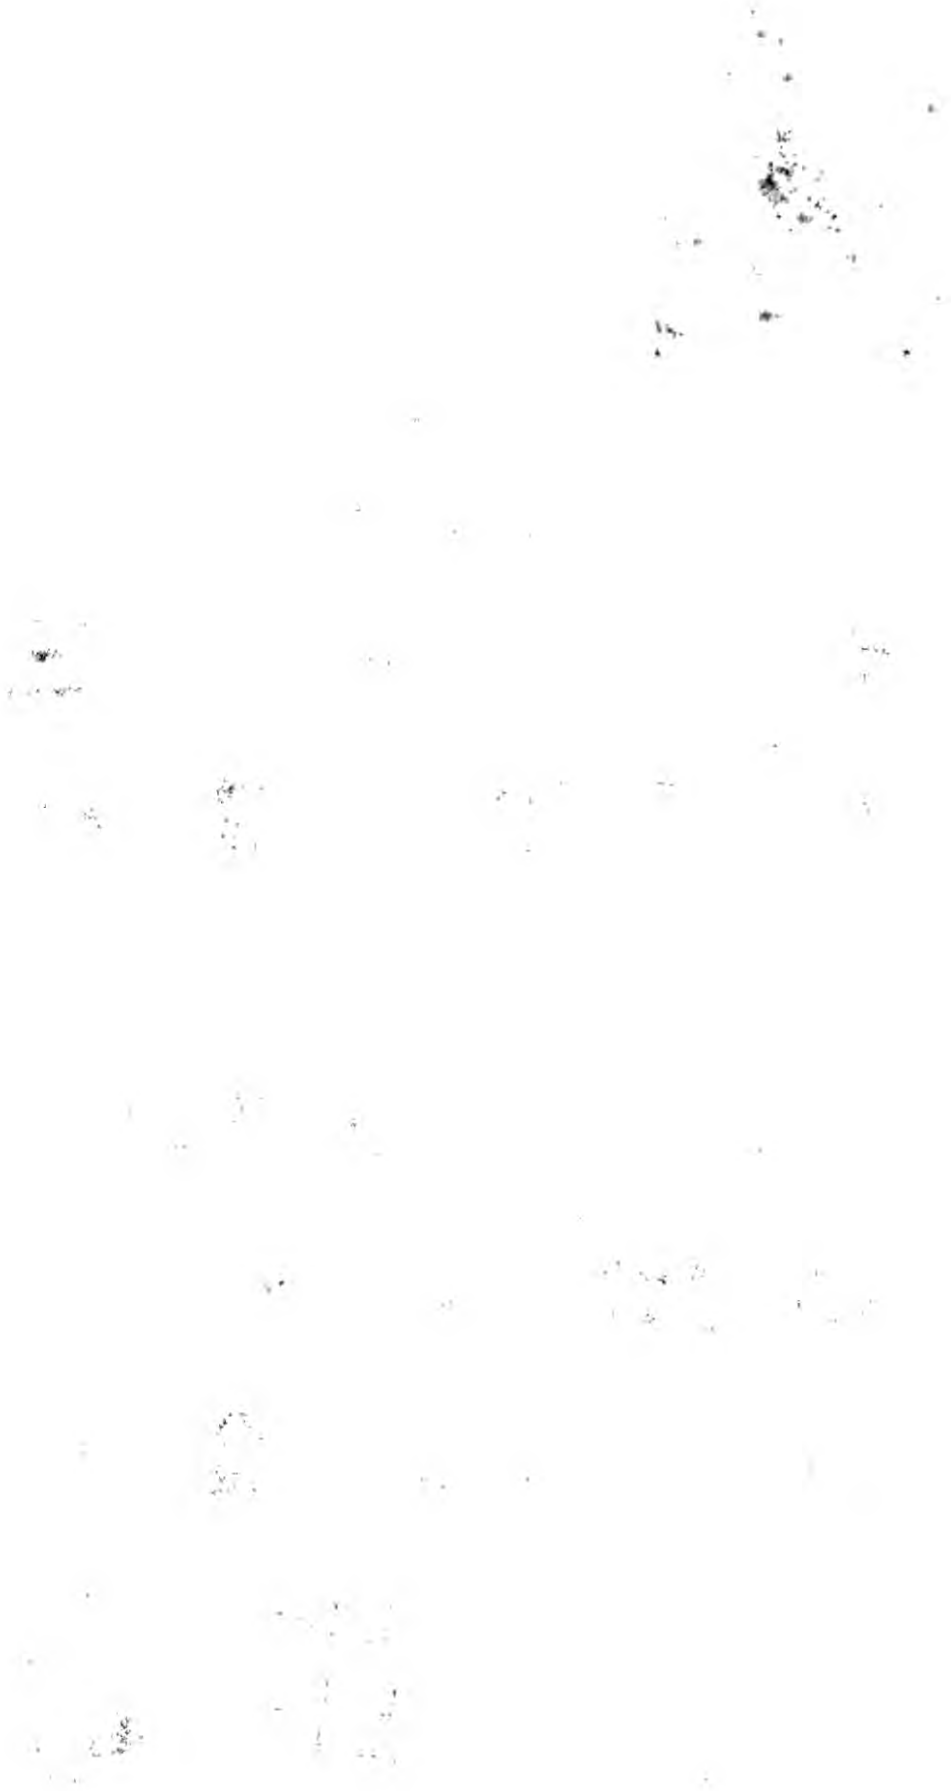

B Steamer in sight	V From Victoria

VACCINATION DEPARTMENT.

Superintendent of Vaccinators, G. W. Turnley; Vaccinator for Southern Division, ; Vaccinator for Northern Division,

During the last session of Parliament, an Amended Compulsory Vaccination Act was passed; and a sum was placed upon the Estimates for salaries and travelling expenses to enable the Government to carry out their intention of appointing two public vaccinators, one for the Northern and the other for the Southern districts of the Colony. The duties of these officers will be, to visit in systematic rotation every district in their respective divisions, and to vaccinate gratuitously all applicants. By this arrangement it is anticipated that the work of vaccinating the whole island will be more efficiently carried out than it has been under the system of appointing local vaccinators, who will, therefore, be done away with. The more important sections in the amended Act are the same as in the previous one, and are as follow:—

"Every person not successfully vaccinated before the commencement of this Act shall submit himself for vaccination two months after the passing hereof (unless he shall satisfy the vaccinator that he has had small-pox, or is insusceptible), under a penalty not exceeding Five Pounds for refusal or neglect."

"The parent of every child under fourteen years, not successfully vaccinated before the commencement of the Act, shall submit such child for vaccination (unless he shall satisfy the vaccinator as before mentioned), under a penalty not exceeding Five Pounds for refusal or neglect."

"The parent of every child born in Tasmania after the commencement of the Act, shall within six months after the birth of such child cause it to be vaccinated by a medical practitioner, and submit it for examination on the eighth day after the operation, under a penalty not exceeding Five Pounds for refusal or neglect."

"No child shall be deemed to be successfully vaccinated unless afterwards examined by a medical practitioner, and a certificate given."

"Any person who prevents any medical practitioner from taking lymph once from any child whom he has vaccinated, shall be liable to a penalty not exceeding Twenty shillings."

REGULATIONS.

Intermediate fares are charged 3d. per mile first class, 2d. per mile second class, but no fare is charged higher than the through rates. Return tickets are calculated as a fare and half.

Passengers by freight trains dine at Oatlands.

The through trains do not run on Sundays, except to complete their journey, or when desired by the Postmaster-General. The mail train does not run on Monday mornings.

Return tickets by ordinary trains for distances up to 25 miles, are available on the day following that of issue; for distances from 25 to under 50 miles, one clear day is allowed; and from 50 to 100 miles two clear days may be taken, and over 100 miles three clear days. All return tickets to Corners allowed five clear days; and all return tickets from Corners to Hobart allowed three clear days.

Through return tickets between Hobart and Launceston are available within seven days from the date of issue. Return tickets are not transferable, and if not used within the prescribed time, or it is attempted to transfer, will be absolutely forfeited, and no allowance made on account thereof.

Parcels and goods are not booked for places marked * in time table.

Adult passengers allowed 84lbs. of luggage each, 1st class, and 56lbs. second class, of wearing apparel only. Excess luggage, or luggage not for personal use, will be charged 1s. 9d. per 28lbs. weight for the through journey, and proportionally for lesser distances.

Children under four years of age free, and under 12 half-price.

Dogs will be carried in the luggage vans only, at a charge of one halfpenny per mile and not less than sixpence for any distance.

Pleasure or excursion parties, of not less than six first-class, or ten second-class passengers can on application to the General Manager, not less than three days previously to the time of the intended journey, be provided with return tickets, available to return the same day, at a fare and a quarter, but no ticket will be issued at a less charge than 9d., and for children 5d.

INDICATIONS OF WEATHER.

The most reliable symptoms of *fine weather* are a gradually rising barometer, a grey morning sky, a red sunset, a light blue mid-day sky, and dew at any time.

A steadily falling barometer, a red sunrise, a pale yellow sky, low soft-looking dingy clouds, unusual distinctness of the landscape, much twinkling of the stars, and low flight of birds, indicate *rain*.

Sudden changes of the barometer, a bright yellow sunset, with rosy tints in the East, rapidly driving scud, and a deep blue sky, foretell *wind* and *stormy* weather.

RULES FOR DISTINGUISHING THE SALMON.

The following summary drawn up by the late Mr. Morton Allport from a work by Dr. Günther, of the British Museum, will be of service to many fishermen in enabling them to test the species of any fish that may be captured by them during the salmon season :—To distinguish the salmon (*salmo salar*) from its congeners, trout (*salmo fario*) and salmon trout (*salmo trutta*) :—1. Colour alone is no test. 2. The presence of teeth on the vomer (that is, along a line in the middle of the roof of the mouth from the mouth backwards), after the fish had once been to sea, proves that it is no salmon. 3. The absence of such teeth does not always prove that it is a salmon, as undoubted trout from brackish water (especially the females) lose the vomerine teeth with age. 4. The number of scales between the back of the adipose fin (the small fleshy fin on the back nearest to the tail) and the lateral line, counting obliquely forwards, is in the salmon always less than 14 ; in salmon trout or trout 14, or more than 14. 5. The number of pyloric appendages (long fatty cœca attached to the alimentary canal) in trout ranges from 30 to 45, in salmon trout from 40 to 55 ; in salmon from 50 to 70.

The calculations in this table give the average time when high-water may be

expected at Launceston, but the tides are so influenced by winds and other causes that the actual times of high-water will sometimes differ from the calculated ones by an hour or two.

High-water at the various sub-ports on the North Coast may be averaged as an hour and a half earlier than at Launceston.

It is high-water new and full moon at Launceston at 1h. 30m. p.m., and at George Town 11h. 45m. a.m. The tide in the Tamar flows nearly six hours and ebbs nearly seven hours, and rises from ten to twelve feet in settled weather.

CONTRACTS, ETC. (NEW SOUTH WALES).

Every Contract or Agreement made out of New South Wales for any personal service to be rendered or performed within that Colony, for any period not exceeding two years, shall be as valid between the parties as if the Contract or Agreement had been made or entered into in the said Colony, provided that it is made in the presence of an officer duly authorised for that purpose, and that it is attested by such officer.

Officer for attestation of Contracts and Agreements in Tasmania, to have effect in New South Wales, L. R. Castray. Office, Byron-street.

COUNTRY DISTRICTS

The colony of Tasmania is divided into nineteen rural municipalities and twelve police districts. Seven councillors were, in the first instance, elected by the ratepayers of the respective municipalities. Two councillors retire annually on the second Friday in December for two successive years, and every third year three retire; in each case they are eligible for re-election. Elections are held on the Thursday preceding the second Friday in December. The councillors elect one of their number as Warden, whose term of office extends over one year. All powers by law vested in Police Magistrates are by Act of Parliament vested in the Warden while holding office, who is an *ex officio* Justice of the Peace for the Territory, while he holds the office of Warden; and the Governor has the power of appointing the councillors to be justices of the peace within their respective municipalities during the term of office. Provision is thus made for the discharge of all legal business which formerly devolved on paid officers of the central Government.

Every male of the age of 21 years, assessed as owning property of the annual value of £5, or occupying property of the annual value of £10, is entitled to a vote in the election of Councillors.

Scale of Votes.—£5 and under £40, in case of owner, 1 vote; £10 and under £40, in case of occupier, 1 vote; £40 to £80, 2 votes; £80 to £120, 3 votes; £120 to £160, 4 votes; £160 to £200; 5 votes; £200 to £240, 6 votes; £240 to £280, 7 votes; £280 to £320, 8 votes; £320 to £360, 9 votes; £360 and upwards, 10 votes.

WARATAH.

The Mount Bischoff tin mines are about 48 miles distant from Emu Bay, with which port they are connected by the V.D.L. Company's line of tramway, a dray road, and electric telegraph.

THE MOUNT BISCHOFF TIN MINING COMPANY.—H. W. F. Kayser, manager; is registered; capital £60,000, in 12,000 shares, paid up £7,600. Dividends paid to December, 1882, £348,000. A line of railway a mile in length connects the township with the Company's mine, over which the ore is conveyed by a locomotive. The ore dressing appliances of this mine are unrivalled in the Colonies, and compare most favourably with those of the Old World.

The other principal mines are West Bischoff, North Bischoff Valley, East Bischoff, Don, Silver-Lead, Waratah Alluvial, and Phœnix Alluvial, on all of which mining operations are being carried on. Lead, Silver, and Antimony are found in the neighbourhood, for the working of which Companies have been formed.

The township of Waratah contains a population of about 2,000. It has a large number of stores, several churches, public schools, provident hospital, Mechanics' Institute, with stage for theatrical performances, with which is connected a reading room and a museum of mineral collections. There are three hotels affording good accommodation, and two large Temperance hotels.

THE EMU BAY AND MOUNT BISCHOFF TRAMWAY.—Constructed by the Van Diemen's Land Company. Opened for traffic Feb. 1st, 1878. BEACONSFIELD.

Beaconsfield, the third town in importance in Tasmania, is situated on the West bank of the River Tamar, and two miles from the shipping place, which is at Bowen's Jetty. The distance from Launceston is about twenty-eight miles by road, and thirty miles by water. Distance from George Town ten miles, that is to say, two miles to the jetty, and

eight miles by water from the jetty to George Town. The town covers an area of about 400 acres, and is built upon mostly level ground—with a few undulations—and is at the foot of Cabbage Tree Hill; it consists of one main street, about one mile and a half in length, with several cross streets. There are upwards of 700 houses and tenements in the town. The population is estimated at 2,100, and is daily increasing. There are five commodious hotels, six private board and lodging houses, ten general stores, two drapery establishments, one confectioner, four butchers' shops, two bakeries, two greengrocers, four shoemakers' shops, seven smithies, two cab and car proprietors, four places of worship, viz., Church of England, Presbyterian Church, Wesleyan, and Primitive Methodist. There are four private schools, and a school under the Board of Education. Three commodious buildings are used for public meetings, entertainments, etc. Two Templar Lodges are established in the town. The "Sons and Daughters of Temperance" have also a lodge, and there are two Bands of Hope. The Bank of Tasmania has a branch at Beaconsfield, and there are three Life Assurance Agencies—the Australian Mutual Provident Life, the Mutual Life Association of Australasia, and the Colonial Mutual. There is now a daily mail to Beaconsfield. Travelling accommodation.—Steamers ply daily between Bowen's Jetty and Launceston; also a conveyance by road to Launceston.

THE GOLDFIELD.

The goldfield covers an area of about 600 acres, exclusive of the Blue Tier portion. About 600 miners are employed, the Tasmania Co. alone employing about 200. Eight quartz claims are in work and eight alluvial. The quartz claims give employment to one battery of fifty head of stampers, and the alluvial claims to six batteries of fifty-eight stampers in the aggregate. In all, there are eight batteries on the field, with a total of 108 head of stamps. Seven are driven by steam power, and one by water. The Blue Tier portion of the field is five miles from the town. Four quartz claims are in full work, and one alluvial.

LEFROY.

Lefroy is the fourth town in importance in Tasmania, and has a population of about 1,200. It is distant from Launceston by road 27 miles, from George Town by road 11 miles, with daily coaches to Launceston, and also to George Town to connect with the steamers which ply from that place to Launceston. There are four licensed hotels, one commodious temperance hotel, numerous general stores, butchers, etc.; a daily mail, and a telegraph office; two substantial places of worship, Church of England and Wesleyan, recently erected at an expense of about £650 each; a public school under the Board of Education, and several private schools; two Banks, the Commercial and the Bank of Van Diemen's Land; several friendly societies, a temperance lodge, Mechanics' Institute, etc.; and a Freemasons' Hall is about to be erected.

THE GOLDFIELD.

The principal claims are the New Native Youth, the New Chum, and the West Chum, each of which has a substantial battery. There are several other batteries in course of erection. The goldfield is scattered, and covers an area of about 1,000 acres.

PUBLIC CEMETERY (Bridport).—Chairman of Trustees, A. W. Brewer.

CONVEYANCE.—Beswick's mail coach runs daily to and fro between Tucker's Corner and Launceston, and between Tucker's Corner (Scottsdale) and Branxholm. Counsel's mail coach runs daily between Scottsdale and Branxholm.

The p.s. Avon runs weekly between Launceston and Ringarooma Port, and several small trading craft trade between Launceston and Bridport.

Gold-mining is almost at a standstill in the Ringarooma district, the Mount Cameron and Waterhouse fields being practically in a state of collapse. Gold has been discovered near Branxholm and in various other parts of the district, but has not yet attracted much attention, and little has been done in the way of development.

Tin-mining is the staple industry of the district, and a very large amount of tin is shipped to Launceston from Bridport and Ringarooma Port. The development of the tin lodes in the Ringarooma district will probably in a few years make the district one of the most flourishing and important in Tasmania. The present out-put of tin ore is from the alluvial deposits, of which the Brothers' Home, Arba, Native Youth, and Weld mines have been, and still are, prominent examples. Some extensive water schemes have been commenced in the vicinity of Mount Cameron for working the tin deposits there, but of the value of these deposits it is premature to speak at present. There is a large area of first-class land in the district, but the dearness of labour, the badness of the roads, the distance from markets, and the density of the timber and undergrowth, have, until lately, considerably retarded the advancement of Ringarooma. The roads are now being greatly improved, and the mines offer a local market for farm produce; but the expense of clearing new land, and the impossibility of procuring farm labour, will delay the rapid advance of the country from an agricultural point of view unless some relief is afforded by the introduction of suitable immigrants.

Serious crime is rare in Ringarooma, but the police force is not sufficient, and the distribution of constables and other police arrangements are far from satisfactory, and deserve the attention of the Government. The climate is temperate and very favourable to health, but accidents are not uncommon, and the distance and means of communication between Launceston and the remoter parts of the district are such as to make the want of a qualified medical practitioner very severely felt.

DISTANCES between Stanley and Deloraine.—Stanley to Wynyard Bridge, 38½ miles ; Cam Bridge, 45½ ; Emu Bridge, 50½ ; Blythe Bridge, 55¾ ; Penguin Bridge, 60 ; Leven Bridge, 67 ; Forth Bridge, 73¼ ; Don Bridge, 77 ; Latrobe Bridge, 84¼ ; Deloraine Bridge, 112¼.

A considerable portion of the forest lands of Circular Head and the whole of the Peninsula belongs to the V.D.L. Co.; the Peninsula, which formerly was devoted to growing grain and potatoes, has of late years been laid down with English grasses, and comprises some of the best fattening ground in the island. The last census returns show a decrease of 58 persons on the property on the Peninsula, whilst in the district of Circular Head generally there has been an increase of 129.

STANLEY,

The nearest Tasmanian port to Victoria, being only 20 hours' run from Melbourne, possesses an excellent harbour, and is visited by a considerable number of vessels, the s.s. Richmond making regular trips

from Melbourne, and the s.s. Devon from Launceston weekly; is in telegraphic communication with Victoria, has 3 inns, 4 churches, and a library and reading room open to visitors. The township is picturesquely situated at the base of the Bluff, a precipitous mass of greenstone about 500 feet high, from the summit of which a magnificent view of the North Coast is unfolded—eastward as far as the Tamar River, and westward to Cape Grim, including the adjacent islands. The climate of Stanley is peculiarly favourable, owing to its position on a peninsula jutting out into Bass' Strait, even in the warmest weather, which rarely exceeds 70 deg. Fahr.; cool breezes from the sea are continually felt. To the east and west of the township, as far as the eye can reach, stretch sandy beaches which are a famous resort of conchologists, many of the rarer Australian *Mollusca* being confined to this locality. Mineral springs occur in the immediate neighbourhood, the water of which has been analysed, and found to contain the ingredients of some of the German chalybeates. The splendid forests which specially distinguish the North Coast of Tasmania are everywhere within reach of a short ride. A fine series of Tasmanian plants may be collected, including some of the rarer *Cryptogams;* the *Cyathea affinis* and *Todea africana,* with the three beautiful *Hymenophyllums,* being particularly luxuriant. The accommodation at the hotels is good and the charges reasonable. Horses and vehicles can be had on hire for excursions, and boats for fishing in the bays.

Stanley, from its nearness to the Continent of Australia, and from its remarkably equable climate, offers peculiar advantages as a watering place and summer residence where change and out-door recreation are desirable.

MINERAL RESOURCES.—Large deposits of rich iron ore exist at Ilfracombe, near the northern boundary of the municipality. Smelting works have been erected there by the Ilfracombe Iron Company, but are not at present in operation. Many parts of the district, notably the vicinity of Quamby Bluff in the west, and Black Sugar Loaf in the east, have every indication of being rich in minerals, but as yet nothing has been found in paying quantities.

AGRICULTURAL STATISTICS.—Wheat, 8,610 acres, 160,787 bushels; Oats, 3,740 acres, 92,446 bushels; Barley, 4,597 acres, 11,591 bushels; Peas, 607 acres, 11,399 bushels; Potatoes, 581 acres, 1,798 tons; Mangolds, 14 acres, 182 tons; Carrots, 2 acres, 12 tons; Hay, 2,458 acres, 2,971 tons; Hops, 12 acres, 4,420lbs. Total land in cultivation 43,441 acres.

Remarks.—This municipality is almost entirely an agricultural district, and comprises a large area of the best land in the colony. The system of farming has of late years vastly improved, and the sheep and cattle kept are of superior quality. The district is celebrated for its long-woolled sheep. Game, in the shape of hare, quail, snipe, with deer and kangaroo, is tolerably plentiful. The Meander River, which flows through the district, affords good trout fishing; and the sportsman will find comfortable quarters at any of the hotels in the district.

*In Leap Year, add one, when the last day of February is included in the calculation.

Example of use of Table.

To find the number of days from 16th August to 27th February :— Find August in the side column and February at the top ; the number at the intersection, viz., 184, is the number of days from 16th August to 16th February ; add 11, the difference between 16 and 27, and the sum 195 is the number required. Similarly, the number from 16th August to 5th February is 184 less 11, or 173.

THE SOLID CONTENTS OF SQUARE TIMBER

Are found by measuring the mean breadth by the mean thickness, and the product again by the length; or multiply the square of what is called the quarter girth in inches by the length in feet, and divide by 144, and you have the contents in feet.

Boughs, the quarter girth of which is less than 6 inches, and parts of the trunk less than 2 feet in circumference, are not reckoned as timber.

1½ inch in every foot of quarter girth, or one-eighth of the girth is allowed for bark, except of elm. One inch in circumference of the tree, or whole girth, or one-twelfth of the quarter girth is the general fair average allowance.

The quarter girth is half the sum of the breadth and depth in middle.

The nearest approach to truth in the measuring of timber is to multiply the square of one-fifth of the girth, or circumference, by double the length, and the product will be the contents.

RULE TO FIND WEIGHT OF CATTLE, ETC.

Take measurement of the girth where it is the smallest, round the body, close behind the shoulder; take the length from the front of the shoulder to the insertion of the tail. Multiply the square of the girth in feet and inches, with the length in feet and inches and the product by ·24, ·26, ·28, or ·30, according to the fatness of the animal; the result will be the weight of the carcass in imperial stones. The weight of the carcass is to the live weight of an animal as 1 to 2, or a little more in cattle; as about 4 to 7 in fat sheep; as 2 to 3 in fat pigs. These proportions will vary according to the condition and breed of the animal.

NEW METHOD OF PRESERVING FRUIT.

For which the Medal of the Royal Horticul. Socy. (Eng.), was awarded.

The Banksian Medal was awarded by the Council to Mr. Lovejoy, butler to J. Thorne, Esq., of Mowbray House, South Lambeth, for the following bottled fruits, preserved without sugar or vinegar, namely, damsons, greengages, plums, gooseberries, rhubarb, cherries, black and red currants, raspberries, and mulberries, which cannot fail of interesting the fair and thrifty wives of our readers. The means by which these important desiderata may be accomplished are as follows, in Mr. Lovejoy's own words:—"Pick the fruit from the stalks; put them into the bottles. Put one drachm of alum into four gallons of boiling water; let it stand till it is cold. Then fill the bottles and bung them tight; put them into a copper of cold water, and heat it to 176 degrees. Then tie them over with bladder, and seal them." The raspberries and mulberries preserved in this manner were as plump and transparent as when first gathered. The other fruit was equally fine.

LEGAL WEIGHTS FOR GRAIN, ETC.

Weights established by law for the sale of grain and flour.—Ton of flour, 20 00lb.; hundredweight ditto, 100lb.; quarter ditto, 25lb. Bushel of wheat, maize, beans, peas, tares, or rye, 60lb.; bushel of barley, 50lb.; bushel of oats, 40lb.; bushel of bran or grass seed, 20lb.

FORM OF AGREEMENT FOR SHEEP SHEARERS.

We hereby severally agree to shear for Mr. ——— the sheep now depasturing on the ——— station, or such portion as we may be directed to shear, at the rate of ——— shillings per 100 sheep, finding our own rations. We also hereby severally agree to shear the sheep in a proper and workmanlike manner, to the satisfaction of the said———, or whom he may appoint to superintend the said shearing, and to obey all lawful orders relating thereto. We also further agree that, in the event of being discharged through bad shearing, disobedience of orders, or other misconduct, before the said shearing is finished, to receive payment at the rate of ——— shillings per 100 sheep, for all sheep shorn up to the time of such discharge. Rations to be supplied at the following rates :—Sheep, —— each ; flour, —— per bag ; tea, —— per lb.; sugar, —— per lb.

TO FIND THE TONNAGE OF SHIPS.

Multiply the length of the keel, taken within the vessel, or as much as the ship treads upon the ground, by the length of the midship beam, taken also within, from plank to plank ; and that product by half the breadth, taken as the depth. Then divide the product by 94, and the quotient will give the tonnage.

In applying the table, when the exact amount is not given in the top line, select the columns necessary to make up the required sum and add them together. Thus when the bushel is 3s. 2d., add the amount given in the 3s. column to that in the 2d. column ; the total is the price per cental.

SUPERFICIAL FEET IN A BOARD OR PLANK

Is known by multiplying the length by the breadth. If the board be tapering, add the breadth of the two ends together, and take half their sum for the mean breadth and multiply the length by this mean breadth.

Emigration Agent in England.

 Fred'k Humphreys Esq. 220

ADDENDA.

BOARD OF IMMIGRATION.

(See also page 88.)

The following Regulations in connection with Assisted Immigration have been made by the Board under the provisions of the Act of Parliament 46 Vict., No. 40.

Forms of Application for "Passage Certificates" can be obtained upon application to the Immigration Agent in Hobart or Launceston, also from the Wardens of Rural Municipalities, and Police or Stipendiary Magistrates, and the Emigration Agent in London.

1. To meet the public convenience, persons resident in the Colony, who may desire to introduce Immigrants in accordance with these Regulations shall be entitled to nominate such Immigrants, and to deposit the necessary sum or sums in trust with the Agent for Immigration, at the Immigration Office, Hobart or Launceston, between the hours of 10 a.m. and 3 p.m., and, in the country districts, with the Wardens of Rural Municipalities, or Police or Stipendiary Magistrates, or other authorised person, as the case may be, during the usual office hours, provided that no person shall, without the consent of the Board, be entitled to nominate more Emigrants within any one year than shall be equivalent to twenty Statute Adults. All applications for Passage Certificates on account of such nominated Emigrants to be forthwith forwarded by the person receiving the same, in Launceston or any country district, to the Immigration Agent, Hobart. Such nominations will be subject, however, to the approval of the Emigration Agent in England, and the rules of selection prescribed by these Regulations as in cases where no such nominations have been made.

2. In the event of any person or persons nominated in the Colony for a passage declining to emigrate, or not being able to comply with the conditions required by these Regulations, or in case the amount deposited shall exceed that required for the number of Immigrants actually introduced, the amount deposited, or the amount in excess, as the case may be, will be returned to the depositor upon the receipt in the Colony of the Emigration Agent's report recommending its repayment. But if any attempt at fraud or concealment be made by the depositor, or by the nominee under the certificate, the deposit will be forfeited.

3. The selection of Emigrants shall be limited to such adult persons as can pay towards the cost of their passage to the Colony, or for whom has been paid in the Colony, the following sums respectively—

Adult males	£5 for each person.
Adult females	£3 for each person.
Married couples	£6.

Children, accompanied by their parents or parent, under 3 years of age, free.

Children between the ages of 3 and 12, half the amount payable by adults. Provided that the amount to be deposited on account of themselves and their children under 12 years of age shall not exceed £12.

All children above the age of 12 years at the time of embarkation to be deemed "Adults."

4. All Emigrants shall be selected by (or if nominated in this Colony, shall be subject to the approval of) the Emigration Agent, or by such persons as he may appoint for the purpose, under instructions from the Board of Immigration, provided such instructions shall not be contrary to these Regulations.

5. All Emigrants must be of sound mental and bodily health, and of good moral character, and shall consist either of married persons not exceeding 45 years of age (with or without children), or of unmarried men and women not exceeding 40 years of age, except under special circumstances approved by the Board; and shall be selected from the classes of agriculturists, mechanics, skilled and other labourers and domestic servants, with a special view to the industrial requirements of the Colony, and the fluctuations affecting those requirements as reported from the Colony from time to time. Should the age of any intending Emigrant exceed the limits herein prescribed, the sum payable on his or her account shall be £15.

6. The person introducing any nominated Immigrant under a Passage Certificate issued by the Board of Immigration who shall be found upon arrival not to be in accordance with the description given in the application, shall be liable to repay to the Immigration Agent, on demand, any money which may have been paid from Public Funds on account of such Immigrant.

7. The "Engagement" set out in the Passage Certificate must be signed by the Emigrant (for himself and family), agreeing not to leave Tasmania within four years after arrival without having previously paid to the Immigration Agent at Hobart or Launceston one-fourth of the whole cost of the Passage-money for every year wanting to complete four years' residence in the Colony, and a proportionate sum for every part of a year. And if any Emigrant attempts to leave Tasmania contrary to such "Engagement" he shall be liable to a penalty not exceeding £50, which may be recovered in a summary way in the mode prescribed by "The Magistrates Summary Procedure Act."

8. The proportion of unmarried men shall not exceed twenty-five per cent. of the whole number of adult Emigrants.

9. A proportion of the Emigrants, not exceeding fifteen per cent. of the whole, may be natives of European countries other than Great Britain and Ireland, who shall answer to the physical, moral, and industrial descriptions embodied in these Regulations.

10. The Emigrants must be brought out in ships chartered for that purpose by the Emigration Agent on behalf of Tasmania, or by such other means as may be approved of by him, and under such Regulations as he may make and prescribe for their moral and sanitary condition during the passage, subject to the approval of the Board of Immigration.

11. All deposits of money on account of the passages of Emigrants, except as provided for in Section fourteen, shall be paid to the Emigration Agent in London, and shall be accounted for by him on behalf of the Government of Tasmania.

12. No money paid by persons non-residents in Tasmania on account of any passage or passages will be returned should the person or

persons making such payment not avail himself or themselves of the passage or passages so provided; but the Emigration Agent, in cases where circumstances satisfactorily explained may prevent embarkation on the ship first arranged for, may authorise a passage or passages by a succeeding ship.

13. Immigrants by chartered ships shall be entitled to remain on board and will be provisioned at the ship's expense for seven clear days after the ship drops anchor in the port of arrival.

14. Every person authorised to receive deposits under these Regulations shall immediately on the receipt thereof remit the amount to the Agent for Immigration at Hobart, with a statement of the number and description of Immigrants whom the depositor wishes to introduce.

15. Forms of application, and all information for the guidance of depositors, can be obtained from the Wardens of Rural Municipalities or Police or Stipendiary Magistrates in the country districts, at the office of the Agent for Immigration in Hobart and Launceston, or in England from the Emigration Agent.

16. The passage certificate must be forwarded by the depositor to the nominee, who in every case must produce it within twelve months from the date thereof to the Emigration Agent in London.

17. A Quarterly Report shall be prepared under the instructions of the Board of Immigration, giving an account of the state of trade, of farming, mining, industrial operations, and domestic employment, including rates of wages, &c., and of the progress of the Colony generally; and copies of all such Reports shall be regularly transmitted to the Emigration Agent in London in January, April, July, and October of each year, for his information and guidance and for distribution amongst suitable districts in Great Britain.

18. Persons resident in the Colony who introduce Immigrants under these Regulations, otherwise than by chartered ships, must provide for their reception immediately on their arrival.

Should any such nominated Immigrants be received into an Immigration Depôt, a charge of Two Shillings a day, or part of a day, for each individual will be made against the introducer.

19. Pending the arrival of the Emigration Agent in England, the Emigrant and Colonists' Aid Corporation, 79½, Gracechurch-street, London, E.C., are empowered to act in all respects as the Agents of the Board as regards Emigrants nominated by persons in the Colony in accordance with the provisions of the foregoing Regulations.

20. These Regulations shall take effect on and after the 1st January, 1883.

LAND ORDERS.

Under the Immigration Acts, 1867 and 1874, immigration agents may be appointed abroad, who shall issue to approved emigrants proceeding to Tasmania at their own expense Land Order Warrants entitling the holders, on arrival in the colony, to a Land Order in respect of each person named therein. Such Land Orders to be of the nominal value of £18 for each immigrant of and over fifteen years of age, and £9 for each child under fifteen and over one year, and to be available to their full value in payment for land purchased under the Waste Lands Act.

Any cabin or intermediate passenger (excepting persons who have been resident for one year or upwards in any Australian Colony or New Zealand) arriving with the intention of settling in the colony, and who has not received a Land Order under the previous section, may at any time within twelve months after his arrival obtain from the Board of Immigration a Certificate entitling him to select 30 acres of land ; if married he shall be entitled, within twelve months after the arrival of his family, to further Certificates authorising the selection of 20 acres in respect of his wife, and 10 acres in respect of each child. Selections to be made within a year after the date of the Certificates. These Certificates to be received by the Commissioner of Crown Lands in payment for lands selected for purchase under the Waste Lands Act. Persons purchasing or selecting land by virtue of these Land Orders or Certificates, or some of the members of their families, must reside for five years in Tasmania, counting from the date of such Land Order or Certificate, before becoming entitled to Grants from the Crown of such land ; but in the event of death before the expiration of that term, their heirs at law or devisees shall, after five years from the date of the Land Orders or Certificates, be entitled to grants, if, in the opinion of the Commissioner of Crown Lands, permanent improvements to the value of £1 per acre have been made on the land.

The Board of Immigration's agents in England are the Emigrant and Colonists' Aid Corporation, Limited; C. Dugald Buckler, Esq., secretary, 79½, Gracechurch-street, London, E.C., to whom all applications for Land Order Warrants, as well as general information about the colony, should be made.

HAY AND STRAW.

36 Pounds Straw 1 Truss	60 Pounds New Hay 1 Truss
56 ,, Old Hay 1 ,,	36 Trusses 1 Load

The load of old hay is 18 cwt.; of new, 19 cwt. 32lbs.; and of straw, 11 cwt. 64 lbs.

RULE TO FIND THE WEIGHT OF HAY.—Multiply the length by the breadth of the stack in feet; then take the height to the eaves, and add to it half the height from the eaves to the top of the taper. Multiply the other product by this and divide by 27, the number of cubic feet in a yard. The number of stones supposed to be in every cubic yard of new hay is 6 stones of 22 lbs. avoirdupois each; if the hay has stood some time, 8 stones; if old hay, 9 stones to the cubic yard.

From the Balance-sheet of this Company, for the year 1881, it will be seen that the Annual Revenue now Amounts to £1,114,000, a Sum which Exceeds by £60,000 the Aggregate Premium Revenue of the whole of the Australian and New Zealand Fire and Marine Insurance Companies.

The Increase of Revenue in 1881, as compared with 1880, Amounted to £120,000, a Sum which Exceeds by £22,000 the combined Increase of Revenue shown by the whole of the Australian and New Zealand Fire and Marine Insurance Companies, without taking into account the Decrease of Revenue shown by the Offices which have retrograded; Exceeds by £61,000 such combined Increase, if the Decrease shown by other Offices be deducted therefrom; and Exceeds by £26,000 the Entire Annual Revenue of any Australian Fire and Marine Insurance Company.

The Annual Revenue of the Australian Branch alone of the Commercial Union Assurance Company, which has been Only Three Years in existence, has grown so rapidly that it now exceeds that of any Australian Fire and Marine Office, with one exception.

The Undersigned are prepared to accept business on most favourable terms, which can be ascertained on application.

Season tickets are also issued between any intermediate stations on a scale of charges corresponding with those above stated, and on the same conditions, and can be obtained for the intermediate stations and sidings not mentioned in the above table, at Proportionate Rates.

Children under 12 years of age are charged half rates only, as also under 15 years of age when attending school.

Youths attending School, and Apprentices under 18 years of age, two thirds the adult rates. All persons claiming the benefit of these regulations may be required to produce evidence and to sign a declaration prepared by the Company.

A deposit of five shillings is required on each ticket, which will be returned to its holder if the ticket be delivered up immediately on its expiry to any Station Agent of the Company, who will thereupon refund this amount.

Annual tickets may be paid for in two half-yearly instalments, the rate for six months being paid on taking out the ticket, and the balance at the commencement of the second half-year.

No rebate or allowance can be made on Season Tickets under any circumstances.

WARDEN:

REV. J. C. WHALL, M.A.,

Late Scholar of Sidney Sussex Coll., Cambridge.

THIS College has been established with the object of promoting General Education, and also for the special training of Divinity Students.

Students will not be admitted under 16 years of age, except as the holders of Scholarships. Candidates for Scholarships must not be under 15 or over 17 years on the last day of the December immediately following their examination.

Entrance Examinations will be held early in March and September of each year, and at the September Examination such Scholarships will be awarded as are available for competition.

The Course will include English Language and Literature, History, Geography, the Latin, Greek, and French Languages, and Mathematics. Classes will be formed for instruction in other subjects as soon as circumstances allow.

Special arrangements have been made for the admission and training of Divinity Students, who will not be received as such before the age of 20.

Fees for the ordinary course £24 per annum, payable half-yearly in advance. An extra fee will be charged for German, Music, and Drawing.

Arrangements have been made for the reception of a limited number of Boarders.

Further information wlll be supplied on application to the Warden, No. 138, MACQUARIE-STREET.

HIGH SCHOOL, HOBART.

[ESTABLISHED OVER THIRTY YEARS,]

In returning thanks for the many years of public favour kindly accorded to the late firm of HINSBY & CALVERT, begs to notify that, consequent upon the lamented death of Mr. Calvert, the business has reverted to himself, and will be continued, he trusts, with the same care and attention in every department as heretofore.

The usual regular importations from the most reliable houses in Great Britain and on the Continent will be maintained, with a view to ensure continuance of the confidence already so conspicuously evinced—comprising Drugs, Chemicals, Druggists' Sundries, Patent Medicines, various forms of nutriment for infants and invalids, and articles of domestic requirement. Perfumery, Photographic Chemicals, Family and Ship's Medicine Chests, Horse and Cattle Medicines, &c., &c.

Sheep and Cattle Stations supplied with Carbolic Acid, the special Scab Preparation procured direct from Mr. F. C. Calvert, of Manchester, the original patentee.

Precise attention always given to the accurate preparation of medical prescriptions and family recipes, and the purest ingredients alone employed.

WADDELL'S ANODYNE

FOR

TOOTHACHE.

WADDELL'S ANODYNE FOR TOOTHACHE.

It gives almost instant relief in every case of common Toothache. When applied to the aching tooth two or three times, it completely repels the nerve, so that the tooth may be preserved and used with freedom from pain. It is also a valuable preventive where the teeth are much decayed or disposed to ache from exposure to cold, by constantly wearing a portion of wool or lint saturated with the preparation in the hollow of the affected tooth. Should the pain arise from Neuralgia, Waddell's Neuralgic Lotion will be found an effectual remedy.

If the pain arises from an Abscess, nothing but abstraction will relieve.

The above preparations were used and largely prescribed by the late Mr. WADDELL in his hospital and private practice, both in England and on the Continent, with great success, and are entirely free from all those injurious qualities which are often contained in all other alleged remedies.

Ærated Water AND Cordial Works,

GEORGE STREET, LAUNCESTON.

The undersigned begs to inform the public of Northern Tasmania that he has purchased from Mr. Peter Barrett, of George-street, Launceston, his old-established Ærated Water and Cordial business.

Mr. Goulding having successfully conducted Messrs. Weaver and Co.'s factory at Hobart for the last five years, and the liqueurs and cordials of his manufacture having obtained Five Prize Medals at the New South Wales Exhibition of 1880, will be a guarantee to the public of the quality of the goods manufactured by the new firm; he therefore hopes for an extension of that support so liberally accorded to his predecessor.

WEAVER'S

RE-CARBONATED

FLUID MAGNESIA.

The high estimation in which FLUID MAGNESIA has been held for many years has induced the Proprietors to manufacture the above preparation in a state of great purity and of uniform strength—thus affording the *Medical Practitioner* an opportunity of administering *this safe and effectual Medicine* with confidence, and giving to the public generally a remedy which can at all times be used with safety and success, either alone or in combination with the ACIDULATED RASPBERRY SYRUP. As most of the FLUID MAGNESIA commonly sold is of uncertain strength, and seldom contains the quantity represented, MESSRS. WEAVER & CO. have imported apparatus at a great expense for the purpose of manufacturing FLUID MAGNESIA on a large scale, and with which they can produce a solution of great purity and uniform strength. During the oppressive heat of summer

WEAVER'S RE-CARBONATED

FLUID MAGNESIA,

Mixed with the proper proportion of the

ACIDULATED RASPBERRY SYRUP,

Instantly produces the most *Refreshing Beverage*, in which the flavour of the *Raspberry* is fully developed, and the degree of cold consequent on the formation of the CITRATE OF MAGNESIA is nearly equal to an *Iced Beverage.*

CAUTION.—*The great strength of this FLUID MAGNESIA renders it necessary to cork the Bottles quickly and securely after opening, so as to prevent crystallisation.*

THE FAMILY APERIENT

ANTIBILIOUS PILLS,

AS PREPARED BY

WEAVER AND CO.,

CHEMISTS.

These Pills, being prepared from pure *Vegetable Extracts*, are free from the objections usually advanced against Proprietary Medicines (on account of their containing *mineral preparations).* These Pills act as a mild Laxative, regulate the secretions, produce a healthy action of the Liver, promote Digestion, and do not produce Constipation after their immediate action has ceased.

Prepared and sold wholesale and retail by

WEAVER AND CO., CHEMISTS,

WELLINGTON BRIDGE, HOBART.

TESTIMONIALS.

DEAR SIRS,—I cannot leave the colony without acquainting you that I have for many years derived great benefit from your Antibilious Pills, insomuch that, under Providence, I ascribe the vigorous health and green old age enjoyed by me, at over eighty years of age, to a free use of that INVALUABLE MEDICINE. Indeed the best proof of the estimation in which your ANTIBILIOUS PILLS are held by me is that I have taken FORTY DOZEN of them to England ; and I have no hesitation in pronouncing them one of the *best and safest medicines in the world.*

JAS. DUFF MACKAY.

45, Euston-square, London, September 26, 1865.

DEAR SIRS,—Many thanks for your prompt attention to my commission,—the pills come to hand in fine condition. I now request that you will have the goodness *to send me another box containing twenty dozen of the same Antibilious Pills*, per first mail, to my address as above.

JAS. DUFF MACKAY.

LAUNCESTON EQUITABLE BUILDING SOCIETY.

[ESTABLISHED JANUARY, 1870.]

INCORPORATED UNDER "THE BUILDING SOCIETIES ACT, 1876."

Shares, £50 each. Entrance Fee, 2s. 6d. per share. Monthly subscriptions, 3s., 5s. 6d., 9s., and 13s. 8d., on shares to realise in 15, 10, 7, and 5 years respectively, payable during office hours, or between the hours of 7·30 and 8·30 p.m. on the second Wednesday in each month.

THIS Society was formed to combine the advantages of the Terminating and Permanent Societies.

Borrowers' liability limited to amount, and for the term they have contracted to pay. Borrowers for the term of five years and upwards participate in Surplus Profits.

Surplus Profits are the profits in excess of the amount necessary to realise £50 per share in the periods specified; they are applied in bonuses to members and formation of Reserve Fund. On 1st January last aggregate bonuses declared amounted to £4,345, and Reserve Fund £1,324.

Loans advanced from 1 to 15 years. Monthly repayments per £100—If for 3 years, £3 4s.; 5 years, £2 1s. 4d.; 7 years, £1 12s.; 10 years, £1 4s. 6d.; 12 years, £1 2s. 4d.; 14 years, £1 0s. 6d.; 15 years, 19s. 6d. Quarterly repayments are three times the above. Special arrangements made with Country Members for *half-yearly or yearly repayments.*

Paid-up Shares are issued from 5 to 21 years. By a present payment, a Share is issued which secures to the member or his legal representatives £50, with bonus additions, at expiration of time for which taken. Thus a five-years' Share can be obtained for £36 8s. 6d.; an eleven-years' one for £25; and a twenty-one years' one for £13 6s. 6d.; and for the intermediate years in proportion. Endowments for Children can, by means of those Shares, be provided at less cost than through any Insurance office, and in case the Shares are withdrawn before the expiration of the period for which taken, the purchase money is returned with Compound Interest for the time expired, at the rate of 5 per cent. per annum to the end of third year, and 6 per cent. for each subsequent year.

Deposits received, and interest paid thereon half-yearly. If repayable at three months' notice, 5 per cent. per annum; one month's notice, 4 per cent. per annum.

The number of members, 1,025; number of shares held by them, 4,072; and the annual share income, £24,862.

Persons who borrow from this Society for any period from five years and upwards will, by reason of the bonus addition, pay a lower rate of interest than the money could elsewhere be procured for, besides having the advantage of repaying loan by periodical instalments.

The Society's Office adjoins the Savings Bank in Patterson-street, and is open daily from 9·30 to 4. There all further information required can be obtained on personal, or by written, application to

ROBT. SHAW, Secretary.

Testimonials of Brinsmead's Pianofortes.

From *Charles Gounod* :—"I have attentively examined the beautiful Pianos of JOHN BRINSMEAD & SONS that are exhibited at the Paris International Exhibition. I consider them to be exceptional in the ease with which graduation of sound can be produced from the softest to the most powerful tones. These excellent Pianos merit the approbation of all artists, as the tone is full as well as sustained; and the touch is of perfect evenness throughout its entire range, answering to every requirement of the pianist." —Paris, November 4th, 1878.

From *The Illustrated London News* :—"The French papers have been unanimous in their expressions of admiration of these splendid instruments. The Grands especially have enchanted the Parisian professors and amateurs of music by their noble sonorousness, their enormous power, and the sympathetically voice-like quality of tone. Their touch also is beautifully light, elastic, and certain, so that many pianists of every nation, from the Abbé Lizst downwards, who have tried these instruments, have highly complimented the enterprising manufacturers on their success."

From *Mr. Charles Packer*, Sydney :—"I have great pleasure in testifying to my extreme satisfaction with and approval of your Instruments, both of the Grand and Cottage kinds. They have great power and remarkable sweetness, while the touch is all that the most exigeant artists could wish."
