## A D V E R T I S E M E N T .

---

THIS Edition of Hill's Arrangement brings down the appointments to the Conference of 1884. Great care has been taken in the preparation of the Lists, and it is hoped that the result will give satisfaction.

The Editor has been again instructed to prepare the Lists in accordance with the Stations as printed in the Minutes of Conference; and for this reason he has been unable to adopt some of the modifications which have been suggested.

Considerable difficulty has been experienced in respect of Probationers, who, having spent one year or more in Circuits, have been sent to the Institution, their names thereby disappearing from the Minutes for a time. In some instances they have not yet completed their Institution training, and these are consequently omitted from this Edition.

In the recent exigencies of the Connexion, a considerable number of Probationers, after leaving the Institution, have been placed for one or more years on the President's List of Reserve. The Editor has endeavoured to trace such cases by correspondence or otherwise; but it has not been found practicable to insert the names of the Circuits in which these Probationers have been employed, and the word "Supply" is inserted. Those who are now on the President's List are included.

If any omission or inaccuracy has occurred, the *Editor* will be glad to be informed, so that the error may be corrected or the omission supplied in a future Edition.

LONDON, *January*, 1885.
