The Government Duty is now reduced to 1s. 6d. per Cent.

SEPTENNIAL INSURANCES.—Persons insuring for seven years, will be charged for six years only, both for premium and duty.

THOMAS POTTINGER,

AND

DARTFORD.

T. P. returns his respectful thanks for the various favours he has received during many years; and he takes this opportunity of stating that he does not undertake to manufacture clothes for less money than any other tradesman; but he makes every article of good quality and workmanship—charging the smallest remunerative profits for ready money.

The cheapness of an article of clothing depends, to a great extent, upon its durability; and good articles can always be had at a respectable house quite as reasonable as at a puffing advertising one, and without lowering the moral or physical energies of workmen, by paying them starvation prices.

The goods manufactured at the above house are as low in price as the best articles can be purchased at; the fashion the newest, and the workmen experienced. The steady progressive advancement in his trade is the best proof that this system of conducting it has been appreciated.

TO AGRICULTURALISTS & OTHERS.

T. POTTINGER manufactures every description of Clothing adapted for out-door pursuits. Farmers, Cricketers, Yachtsmen, Anglers, &c., supplied with good articles of the best material and soundest make.

ROSHERVILLE GARDENS,

PLACE TO SPEND A HAPPY DAY!

SEASON, 1869.

THE Proprietor of the ROSHERVILLE PIER and GARDEN ESTATE at length is in a position to congratulate the friends of this charming retreat of the Hotel being in the occupation of a Company, who have expended many thousands, in order that it shall not be second to any in the kingdom for comfort and general accommodation. The Company has purchased the right to supply the Gardens at a moderate poll tax; and have fitted up a spacious Coffee Room, and additional Cuisines attached, have been erected in order that Dinners may be served in the style of elegance and comfort as at the Hotel.

THE OBSERVATORY ENTRANCE,

on the London Road—comprising the great Clock Tower and Grand Conservatory (200ft. in length) will be opened shortly. The Clock will strike the hours and chime the Westminster quarters, and show the time upon Four Illuminated Dials, each 4ft. 6in. in diameter, and has a Denison's Improved Gravity Escapement, compensated Pendulum, and other recent improvements. Connected with the Clock is a Chiming Machine on an entirely new and patented system, constructed to play all kinds of tunes. One tune to be played every hour on the 12 bells placed in the Belfry above the Clock. A Manual or Key Board will also be attached to the Machine, so that any person can play the bells with the fingers as easily as a Pianoforte or Organ, which cannot be done by any other system.

THE UNRIVALLED GROUNDS OF ROSHERVILLE

so long the favourite Summer resort of the Inhabitants of the Metropolis so often receiving tributes of admiration from the most distinguished British and Continental visitors, and so well known throughout the Kingdom for their matchless Botanical and Zoological attractions, are now—by a series of extensive improvements progressively developed during the last few years—brought to a condition of unexampled completeness.

The lover of retirement, and student of nature will henceforth find additional inducements to partake of the privileges here offered. By a new arrangement the varied Amusements have been kept entirely distinct from the more highly cultivated portion of the Gardens, and whilst greater privacy has thus been secured, the floral beauty of the sequestered walks has been largely increased.

The NEW TROPICAL GARDEN or—"HAPPY VALLEY,"

which it has been appropriately termed, will afford much scientific research to the visitor.

Among the other numerous additions will be recognised spacious Greenhouses, a Fernery, fitted up with various devices,—an Apiary with twelve hives,—and an entirely new, elegant, and commodious Building, for those DRAWING ROOM ENTERTAINMENTS, which have afforded so much gratification to fashionable audiences. This apartment, for taste and exquisite design, surpasses in beauty any place of amusement in London.

COSMORAMAS, DISSOLVING, & TRANSPARENT VIEWS

on Aërial Cherubs, Ghost Illusions, and many other scientific amusements. Great Christmas Tree.

The fine collection of Spring Flowers, for which the Gardens of Rosherville have acquired such distinction, has been considerably increased. Thousands of Tulips, Roses, and Geraniums have been added to the spacious partérres. 150,000 ROSES.

Some of the Leading Magistrates of the City of London have at various times publicly recognised, in their official capacities, the valuable assistance rendered by STUBBS' MERCANTILE OFFICES to the trading community.

The "TIMES" and other LONDON PAPERS have also borne similar testimony.

Mr. ALDERMAN HALE stated, with reference to a case brought before him at GUILDHALL, that "if foreigners would only enquire at Stubbs', before taking bills payable in London in payment for goods, they would never sustain such heavy losses as had unfortunately fallen on the party then before him." He further observed that "in taking this matter in hand, and investigating it with the view of exposing the system through the assistance of the press, Stubbs' Society was doing a vast amount of service to the commercial world, and conferring great public benefit on the community at large. There seemed to be a system going on, and rapidly progressing since the late Treaty, in consequence of the increased amount of business between France and this country, which prevented foreigners taking the usual precautions to guard against the practices of parties dealing in such transactions as were now brought to light."

LIEBIG'S COMPANY'S EXTRACT OF MEAT,

Manufactured by Liebig's Extract of Meat Company,

(LIMITED),

43, MARK LANE, LONDON,

AT THEIR MANUFACTORIES IN SOUTH AMERICA.

Analysed and Certified Genuine by Baron Liebig, the Inventor.

The only Article in the Paris Exhibition to which two Gold Medals were awarded.

One pound of this Extract contains the soluble parts of 34 lbs. of fine meat, either beef or mutton, free from fat and gelatine, corresponding with about 45 lbs. of English butcher's meat, inclusive of the usual quantity of fat and bones. It is used not only for medical, but much more extensively for household purposes, and is the cheapest and purest "stock" that can be made. At the present retail price of 14s. per lb., a portion of excellent beef-tea costs about one penny.

Persons suffering from weak digestion, invalids requiring strengthening diet, aged persons, children (particularly those of weak constitution or suffering from scrofula), infants after being weaned, and ladies after confinement, will find this Extract, properly prepared in various very palatable forms, extremely useful. Taken with Rice, Arrowroot, Sago, &c., the Extract will be found to be an agreeable substitute for Cod Liver Oil, and equally efficient. At sea it is invaluable as food, and besides is an excellent antiscorbutic; the Admiralty have a contract with the Company for the supply of Her Majesty's Navy. It has proved of great value in hot climates, where it is almost impossible, on account of the nature of the meat, to obtain good beef-tea, and is largely exported to India, China, and the tropics. It keeps unaltered for years, and in any climate.

Directions supplied with every Jar.

Notice.—This is the only Extract of Meat analysed and warranted pure, genuine, and of perfect flavour by Baron Liebig, the Inventor, and manufactured after his specific and now much perfected process, never published, and the property of this Company. Every jar of the Company's Extract bears Baron Liebig's certificate and signature; also that of his delegate, Dr. Max von Pettenkofer.

Several imitations have appeared in the market, some of them very deficient in quality, and it is particularly recommended to ask for this Company's Extract.

London Retail Price—1 lb. 14s.; half lb. 7s. 6d.; quarter lb. 4s.; 2 ozs. 2s.

The Extract keeping good for any length of time, it is more advantageous to buy the 1 lb. size.

In every household in which the Extract has been fairly tried, its use has been permanently adopted.

Retail at all Italian Warehouses, Chemists, and Grocers. Wholesale of CROSSE AND BLACKWELL, all Wholesale Houses, and the Company.

FIRE DEPARTMENT.

The terms are in general the same as those of the principal Fire Insurance Offices. The advantages consist in the extent of the capital responsible for losses, namely, £750,000; *in the return of the discount allowed by Government on the duty;* and in the liberality and promptitude with which the business is conducted.

The Government Duty is now reduced to 1s. 6d. per Cent.

TABLE OF THE ORDINARY CLASSES OF INSURANCE.

FIRST CLASS—*Premium: 1s. 6d. per cent. per ann. (with certain exceptions).*
SECOND CLASS—*Premiums: 2s. 6d. per cent. per ann. (with certain exceptions),*

The Discount on the duty allowed by the Gouernment is returned to the Insured, the effect of which is to give them a return or bonus equal to 5 per cent. annually, on the premiums payable upon First-Class risks.

SEPTENNIAL INSURANCES.—Persons insuring for seven years, will be charged for 6 years only, both for premium and Duty.

LIFE DEPARTMENT.

CAPITAL, £250,000, in addition to the Reserve Fund. At the Division of Profits in 1864, the ReversionaryBonus amounted to from 15 to 50 per cent. per annum on the premiums paid, varying with the ages of the Insured.

A BONUS EVERY FIVE YEARS.

☞ 1869 is the Bonus Year of the Company, and all Policies effected on the "with Profit scale," before the 30th November, will participate.

THOMAS POTTINGER,

TAILOR & BREECHES MAKER,

No. 9, *EASTCHEAP, LONDON,*

17, HARMER ST., GRAVESEND,

AND

DARTFORD.

T. P. returns his respectful thanks for the various favours he has received during many years; and he takes this opportunity of stating that he does not undertake to manufacture clothes for less money than any other tradesman; but he makes every article of good quality and workmanship—charging the smallest remunerative profits for ready money.

The cheapness of an article of clothing depends, to a great extent, upon its durability; and good articles can always be had at a respectable house quite as reasonable as at a puffing advertising one, and without lowering the moral or physical energies of workmen, by paying them starvation prices.

The goods manufactured at the above house are as low in price as the best articles can be purchased at; the fashion the newest, and the workmen experienced. The steady progressive advancement in his trade is the best proof that this system of conducting it has been appreciated.

TO AGRICULTURALISTS & OTHERS.

T. POTTINGER manufactures every description of Clothing adapted for out-door pursuits. Farmers, Cricketers, Yachtsmen, Anglers, &c., supplied with good articles of the best material and soundest make.

THOMAS POTTINGER,

TAILOR & BREECHES MAKER,

No. 9, *EASTCHEAP, LONDON,*

17, HARMER ST., GRAVESEND,

AND

DARTFORD.

T. P. returns his respectful thanks for the various favours he has received during many years; and he takes this opportunity of stating that he does not undertake to manufacture clothes for less money than any other tradesman; but he makes every article of good quality and workmanship—charging the smallest remunerative profits for ready money.

The cheapness of an article of clothing depends, to a great extent, upon its durability; and good articles can always be had at a respectable house quite as reasonable as at a puffing advertising one, and without lowering the moral or physical energies of workmen, by paying them starvation prices.

The goods manufactured at the above house are as low in price as the best articles can be purchased at; the fashion the newest, and the workmen experienced. The steady progressive advancement in his trade is the best proof that this system of conducting it has been appreciated.

Some of the Leading Magistrates of the City of London have at various times publicly recognised, in their official capacities, the valuable assistance rendered by STUBBS' MERCANTILE OFFICES to the trading community.

The "TIMES" and other LONDON PAPERS have also borne similar testimony.

MR. ALDERMAN HALE stated, with reference to a case brought before him at GUILDHALL, that "if foreigners would only enquire at Stubbs', before taking bills payable in London in payment for goods, they would never sustain such heavy losses as had unfortunately fallen on the party then before him. He further observed that "in taking this matter in hand, and investigating it with the view of exposing the system through the assistance of the press, Stubbs' Society was doing a vast amount of service to the commercial world, and conferring great public benefit on the community at large. There seemed to be a system going on, and rapidly progressing since the late Treaty, in consequence of the increased amount of business between France and this country, which prevented foreigners taking the usual precautions to guard against the practices of parties dealing in such transactions as were now brought to light."
