The object of the Society is to extend the knowledge of the Gospel among the inhabitants of Brighton (especially the poor), without any reference to denominational distinctions, or the peculiarities of Church Government. To effect this object, Missionaries of approved character and qualifications, giving themselves entirely to the work, are employed and paid by the Institution. Their duty is to visit from house to house within their respective districts, read the Scriptures, engage in reli-

gious conversation, and urge those who are living in the neglect of religion to observe the Lord's Day and to attend public worship. They make it their business to see that all persons possess the Scriptures, to distribute religious tracts, aid in obtaining Scriptural education for the children of the poor, hold meetings for reading and expounding the Scriptures, and prayer, and adopt such other means as the Committee may think necessary for the accomplishment of the object of the Mission.

Its object is to provide the benefit of increased house to house visitation in the poorer and more neglected streets, by bringing home to the inhabitants of the most destitute portions of the town the pure message of the Gospel of Christ. The hands of an over-worked Clergy will thus be strengthened, and their ministrations extended; cases of bodily as well as spiritual destitution will be brought to light; the small contributions of our poorer congregations will be turned to advantage by directing them into a general fund. God's abundant grace and mercy in Christ Jesus, so freely offered to the weary and heavy-laden, will be more widely proclaimed.

This College provides a sound liberal and religious education, so modified as to meet the demands for practical knowledge of the present age.

It recognises the general principle that the *basis* for a good Education must be the same, whether to prepare for the Universities, for the Learned or Military Professions, or for the higher class of Mercantile or Manufacturing Employments. At the same time it also affords a special training for particular pursuits.

The principle adopted in the discipline is to give such liberty as may form manliness of character and habits of self-control, without exposing boys prematurely or unnecessarily to evil.

In addition to the healthiness of its situation, the College affords to boys of delicate health an opportunity of pursuing a more practical and varied course of Instruction than that pursued by the rest of the Students.

The College is divided into two Departments — the Senior and the Junior. The pupils in the Senior Department are required

to wear an academical dress. Students are admitted into the two Departments after nine and fifteen years of age respectively.

A Preparatory Class is also open for boys without limitation as to age.

Occasional Students are admitted to Classes in all the branches of study.

The control of the Instruction and Discipline rests entirely with the Principal.

Course of Instruction.

The ordinary course comprises Religious Instruction, Classics, Mathematics, English, French (or German), History, Geography, Arithmetic and Writing.

The Religious Instruction is conducted either by the Principal himself or under his direction. The Ordinances of the Church are administered in the College Chapel.

The Classical Studies are under the special charge of the Classical Lecturer. Extra Instruction is given by him to such Students as require special preparation for either Oxford or Cambridge.

Those Students who are not going to the Universities, may be exempted at the request of their parents from learning Greek, and from such Latin compositions as in the judgement of the Principal appear unnecessary. The time so gained will be devoted to additional instruction in Mathematics and Arithmetic, to Modern Languages, English Reading and Composition, or other subjects suited to their future professions, under the immediate superintendence of the Vice-Principal. These Students can learn both French and German at the same time without any additional charge.

The Students are divided into Mathematical Classes not necessarily coinciding with the Classical. Students therefore may have the same advantages as regards Mathematical Instruction, whatever their position in Classics may be.

Arithmetic is taught throughout the College, so that all the Students may acquire readiness and accuracy in its operations, and a thorough knowledge of its principles.

Twelve Experimental Lectures in Chemistry and other branches of Science are given every half year to those Students for whom it is desired.

Complete Practical Instruction in Chemistry and Chemical Manipulation, on the system followed in the Royal College of Chemistry, may be obtained on payment of the fee specified below. It is intended that three Half-yearly Courses should comprehend all the Practical and Theoretical Instruction in this Science necessary for those who will not require it for their future professions.

Students are prepared for the Military Academies and the Army by a course of study approved by Military Authority, and suited to the Military Examinations.

Instruction in Military Drawing, and in Surveying, may be obtained. (See Table of Fees.)

Every Student not especially exempted, is required to learn either French or German.

The Course of instruction in the Preparatory Class includes all the Elements of a good English Education, French (when desired), and the Latin Grammar.

All the Boys in the lower forms are taught Choral Singing at a charge of five shillings for the half year.

Discipline.

All the Students who Board in connection with the College are under the charge of the Principal, and are subject to regulations as to bounds, &c., according to their standing in the College. No Student is allowed to be out after dusk, or to go into the town at any time, except when visiting his friends, or by the special leave of the Principal.

The Principal can only be responsible for Day Scholars during that part of the day when they attend the College; but he will make such arrangements with their parents, if they should request it, as may best secure regularity and good conduct in passing to and from the College.

A Monthly Report is sent of the conduct and diligence of each Student. At the end of the half year a full Report is also given of his progress in all his studies.

Hours of Study, Vacations &c.

The Hours of Study in this College are from 9 to 12, and 2 to 5; except in November and December, when the Students leave the College at 4. Half Holidays on Wednesdays and Saturdays.

It is the duty of every Day Scholar to take home with him a paper specifying his evening's work.

The Holidays are seven weeks at Midsummer and five at Christmas; at Easter, from the Thursday before to the Saturday after Easter Day; but Boys from a distance are allowed to remain during this Vacation.

But no one will be appointed who is not, in the judgement of the Examiners, deserving of the distinction.

A Library of reference is being gradually formed, chiefly by gifts from Friends of the Institution.

*** Further information on all subjects connected with the College may be obtained on application to the Principal or to the Secretary.

ST. MARY'S HALL, KEMP TOWN.

AN INSTITUTION FOR EDUCATING THE DAUGHTERS OF POOR CLERGYMEN.

Secretary and Treasurer—Rev. H. V. ELLIOTT.

The children of all poor Clergymen of the Established Church in the United Kingdom, or serving abroad, are eligible, with or

without a nomination; the income of the clergyman, the subscription of the person recommending, and the destination of the child to be a governess, being always the points chiefly regarded. Orphans, *cæteris paribus*, are preferred.

Each child pays £20 per annum, which sum includes washing and the more expensive part of the dress after the first year, and medicine if requisite. She is also taught the usual branches of English and French education: the latter by French ladies resident in the Institution. Music is an extra of £5 per annum; Drawing, £4; German, £4; and Latin, £4. Exercises for deportment, £4 4*s*.; but the Trustees reserve to themselves, in the case of each pupil, the decision whether, after due trial, there is a prospect of success sufficient to justify the prosecution of any of these accomplishments. Nor can any alteration be made in the system of education to suit any particular parent's wishes. The external dress is uniform, towards which £3 is paid on admission; but it is afterwards provided without charge. Washing is included in the £20.

The age for admission must be between eight and fourteen, and the children must be able to read and spell with ease.

Donors and Annual Subscribers, in company, if they please, with their friends, and all clergymen of the Church of England, although not subscribers, are entitled to see the Institution on the first Monday in every month, between 2 and 4 o'clock.

Subscriptions received at the Union Bank, and by the Treasurer.

During a series of years this Institution has been silently and unostentatiously effecting a large amount of real good. The poor of this Town and of the adjacent Counties have been recipients of its benefits to an extent which can scarcely be credited. The Town of Brighton and County of Sussex have appreciated its general usefulness, and lent their willing aid in carrying out its benevolent design.

The object of the Institution is to afford Medicine, Leeches, and Advice gratuitously to the indigent poor labouring under diseases of the eye, upon the recommendation of a Governor or Subscriber. Those who are too ill to attend at the Infirmary, and are unwilling or unable to come into the house, are visited at their own homes by one of the Medical Officers. In order the better to ensure this accommodation to the patients, the town has been divided into two districts, each one under the care of one of the Surgeons.

All Subscribers have the privilege of recommending patients in proportion to their respective Subscriptions or Donations.

The Infirmary is open for the reception of patients every morning (Sunday excepted) at 11 o'clock.

No patients received into the house without a letter of recommendation from a Governor or Subscriber, except from Accidents, which are admitted at all hours, subject, however, to regulations.

It is an acknowledged fact, that by far the greater part of the debility, disease, and premature mortality in this country, is the result of preventible causes; but it is an equally evident fact that very few preventive measures bearing upon the personal habits of the people have yet been adopted.

The promoters of this Association believe, that in a majority of cases, the principal cause of a low physical condition is ignorance of the laws of health; and they have therefore combined to propagate this important branch of knowledge.

Subscriptions, Donations, Books for the Library, &c., will be gratefully received by Mrs. NOURSE, the Treasurer; the Ladies of the Committee; the Hon. Secretaries, Mrs. W. FISON, and Miss REES; and at the Union Bank.

F. GLADING,

WATCH AND CLOCK MAKER,

Silversmith, Jeweller, Engraver,

AND

IMPORTER OF FANCY GOODS,

46 & 47 KING'S ROAD, BRIGHTON.

[*ESTABLISHED* 1834.]

FOREIGN MONEY EXCHANGED.

F. G. begs to inform the Public that he has constantly on hand a new and select assortment of Clocks and Watches of superior workmanship, and can strongly recommend his Silver Watches at £2 2s. each, and Gold ditto at £5 5s., and will guarantee each Watch to go correctly. A large and fashionable assortment of Gold and Silver Chains, and all kinds of Jewellery, at moderate prices. New and Second-hand Plate constantly for sale. Plate and Plated Goods on hire. Repairs in Watches, Clocks, Musical Boxes, Plate, and Jewellery done on the premises by experienced workmen. The utmost value given in cash for Diamonds, Pearls, Watches, Clocks, Plate, Plated Goods, and all kinds of Jewellery.

Principal Advantages of the Patent 'Electro Plate.'

FIRST.—Every article is wrought, hammered, and made by Working Silversmiths, the same as silver, and afterwards coated or plated with Silver by the Electro process.

SECONDLY.—The base or solid metal is hard and white, possesses the same sound as Silver, is of great durability, and of the same colour as the exterior.

THIRDLY.—Electro-plated goods are all hard-soldered—that is, all joints are made with hard Silver solder, which is not affected by any heat, and produces a joint as strong as the Metal itself (Pewter or soft solder being used in all other kinds of plated ware).

FOURTHLY.—The union of the plating with the metal is a perfect one, forming one body, unaided by solder of any kind. Thus in Spoons and Forks more particularly, the advantage over the old method of Silvering by solder is obvious, and they are fully tested in manufacture by the varied processes of polishing, burnishing, and exposure to a red heat.

FIFTHLY.—Pure Silver alone must be employed by the Electro process; consequently, all goods thus plated are superior in colour to those plated with alloyed Silver, whilst by the influence of Electricity the Silver becomes hardened, and rendered more fit for constant wear.

SIXTHLY.—The Metal being white throughout, they can be engraved at pleasure, which cannot be accomplished where red copper forms the base.

SEVENTHLY.—The deposit of Silver on the more prominent parts (such as edges, feet, handles, and ornaments) is, from the nature of the process, stronger or thicker than on the plain surface or parts less exposed to wear, and worthily supersedes the farcical thin Silver edges used in the old method.

EIGHTHLY.—Every description of style, however elaborate, and whether embossed or engraved, can be plated and gilted with the same facility as a plain surface.

NINTHLY.—When worn or injured, all articles can by this process be replated and restored to their original beauty at a trifling cost, which by the old process could never be effected.

AN ALPHABETICAL ALLEGORY.

IT is recorded in the annals of fancy that the Letters of the Alphabet met together to pronounce an opinion on STEVENSON & COMPANY'S Tea. The opinions expressed were brief, but withal to the purpose. A considered it Admirable; B thought it Best; C esteemed it Capital; D said it was Dainty; E pronounced it Excellent; F insisted it was Fine; G knew it to be Good; H spoke of its Heart-cheering properties; I dwelt on its Inimitability; J hinted at its Just quality; K made reference to the water of the Kettle being improved by the decoction of STEVENSON'S Tea; L maintained it was Lovely; M proved it Matchless; N declared it was Nonsuch; O asserted an opinion that it was Odoriferous; P argued its Pleasantness of flavour; Q dilated on its general Quality; R asserted its Richness; S made allusion to its Savoury properties; T thought it Tasteful; V held it to be Valuable; U made account that the Tea of STEVENSON was Unequalled; W enlarged upon its Worth; X vowed it was 'Xceedingly good; Y said it Yielded well; and Z affirmed that STEVENSON & COMPANY had attained the Zenith of quality. Thus were the whole twenty-six letters agreed as to their opinion of STEVENSON'S Tea, and there is no doubt that a jury of the same number would come to the same conclusion.

The Teas of STEVENSON can challenge the closest scrutiny to which they may be subjected. All the most expressive terms in the English language would not be too strong to convey an idea of the intrinsic excellence of STEVENSON & Co.'s Teas and Coffees.

COCOATINA,

A Preparation of Pure Cocoa, from the Cacao Bean.

H. SCHWEITZER begs to announce that he prepares this article *free* of adulteration, such as Arrowroot, Sugar, and other admixtures, and particularly *free* of the FATTY MATTER known as *Cacao Butter*, so detrimental in cases of impaired Digestion.

COCOATINA, by reason of its *genuine purity*, is considered by Medical Men to be an important invention, and is highly recommended to Invalids and Children, more especially in cases of *Weakness of Digestion*, or *Weakness of Stomach*.

COCOATINA, too, as a wholesome, agreeable, and economical Beverage, is much to be preferred to Tea, Coffee, or Chocolate, and with the addition of a little Brandy or Wine, its flavour becomes exceedingly delicious.

Half a Teaspoonful of Cocoatina to a breakfast-cup is sufficient, with Water or Milk in a *perfectly boiling* state.

THE OLDEST LIFE OFFICE IN SCOTLAND

IS NOW, IN EXTENT OF BUSINESS AND ANNUAL REVENUE,

THE LARGEST MUTUAL LIFE OFFICE IN THE WORLD.

The Whole Profits

belong to the Members, and are divided among them alone, there being no Shareholders, as in Proprietary Companies, entitled to Dividends, or to participate in the Profits.

The Last Bonus

WAS ONE OF THE LARGEST BONUSES EVER DECLARED BY ANY INSURANCE COMPANY,

and yielded additions on the sum assured from £1 12s. 6d. per Cent. on the most recent Policies, to £3 6s. per Cent. per Annum on the older Policies, which was equal to an Average Bonus of from 50 to 107 per Cent. on the Premiums paid during the seven years preceding.

Cash Value of Policies Payable on Demand.

Many Offices decline giving any Surrender Value unless the Policy shall have been of a certain number of years' standing. *The practice of the Scottish Widows' Fund is, and always has been, to pay at any time from the day of the issue of a Policy its actual Office value, and even* WHEN THE POLICY LAPSES BY NON-PAYMENT OF THE PREMIUMS *during the thirteen months within which they may be received, an allowance equal to the Full Surrender Value is paid.*

Funds and Revenue.

THE ANNUAL REVENUE IS	£438,740

Loans granted on Security of Policies.

Advances of £50 and upwards, to any amount the value of a Policy will admit of, are granted free of expense and without any other Security. The present rate of interest is 4 per cent.

Indisputable Certificates,

constituting Policies unchallengeable Documents upon any ground whatever, are granted, upon application, to Members of five years' standing. The Laws empower the Directors to refuse or modify the terms of such Certificates, when the issue of the Certificate would, in their opinion, be inconsistent with the general interest.

Foreign Residence allowed without Extra Premiums.

Foreign Residence is allowed from the issue of a Policy in any part of Europe, in parts of North America, Australia, New Zealand, and other Colonies, in time of peace, *free of extra charge;* and the Indisputable Certificate granted after the first five years, as explained, cancels all restrictions in the Policy, *and no Licence or Extra Premium is thereafter required for Travel or Residence in any part of the World.*
