To effect this object, Missionaries of approved character and qualifications, giving themselves entirely to the work, are employed and paid by the Institution. Their duty is to visit from house to house within their respective districts, read the Scriptures, engage in religious conversation, and urge those who are living in the neglect of religion to observe the Lord's Day and to attend public worship. They make it their business to see that all persons possess the Scriptures, to distribute religious tracts, aid in obtaining Scriptural education for the children of the poor, hold meetings for reading and expounding the Scriptures, and prayer, and adopt such other means as the Committee may think necessary for the accomplishment of the object of the Mission.

The object of this Association is, through house-to-house visitation, to carry home to the residents in the poorer streets of the town the pure message of the Gospel of Christ. It unites the contributions of individuals and congregational collections into a general fund, and therewith endeavours to carry out the work of a Home Mission, on an organised plan under the approval and authority of the bishop of the diocese. All the Readers are under the immediate direction and supervision of the ministers of their several districts; and thus they are the means, not only of strengthening the hands and extending the ministrations of the Clergy, but also of bringing to their knowledge many real cases of bodily as well as spiritual destitution, which otherwise they might not hear of.

The Association has now been in operation ten years. The Committee, whilst acknowledging with thankfulness the blessings which (by God's help) it appears to have conferred, are conscious that its usefulness might, and indeed ought to be, considerably extended.

Additional and increased Subscriptions are therefore most earnestly solicited. They may be paid either to the Treasurer, 52, Montpellier road, or to Messrs. Hall, Lloyd, Bevan, and West, Brighton Union Bank.

The means which it adopts are, the publication of books and tracts in foreign languages, and the employment of resident agents, travelling agents, booksellers, and depôt keepers, to disseminate books and information. The countries in which its operations are at present chiefly carried on are Italy, Scandinavia, and France. In Italy it maintains six agents. Its income in the year 1865 was £833. This College provides a sound liberal and religious education, so modified as to meet the demands for practical knowledge of the present age.

It recognises the general principle that the *basis* for a good Education must be the same, whether to prepare for the Universities,

for the Learned or Military Professions, or for the higher class of Mercantile or Manufacturing Employments. At the same time it also affords a special training for particular pursuits.

The principle adopted in the discipline is to give such liberty as may form manliness of character and habits of self-control, without exposing boys prematurely or unnecessarily to evil.

In addition to the healthiness of its situation, the College affords to boys of delicate health an opportunity of pursuing a more practical and varied course of instruction than that pursued by the rest of the Students.

The College is divided into two Departments,—the Senior and the Junior. The pupils in the Senior Department are required to wear an academical dress. Students are admitted into the two Departments after ten and fifteen years of age respectively.

A Preparatory Class is also open for boys without limitation as to age.

Occasional Students are admitted to Classes in all the branches of study.

The control of the Instruction and Discipline rests entirely with the Principal.

The Staff of Masters at present contains Four Wranglers and Four First-class Men on the Classical Tripos.

Course of Instruction.

The ordinary course comprises Religious Instruction, Classics, Mathematics, English, French (or German), History, Geography, Arithmetic, and Writing.

The Religious Instruction is conducted either by the Principal himself or under his direction. The Ordinances of the Church are administered in the College Chapel.

The Classical Studies are under the special charge of the Classical Lecturer. Extra Instruction is given by him to such Students as require special preparation for either Oxford or Cambridge.

Those Students who are not going to the Universities may be exempted, at the request of their Parents, from learning Greek, and from such Latin compositions as in the judgment of the Principal appear unnecessary. The time so gained will be devoted to additional instruction in Mathematics and Arith-

metic, to Modern Languages, English Reading, and Composition, or other subjects suited to their future professions, under the immediate superintendence of the Vice-Principal. These Students can learn both French and German at the same time, without any additional charge.

The Students are divided into Mathematical Classes not necessarily coinciding with the Classical. Students, therefore, may have the same advantages as regards Mathematical Instruction, whatever their position in classics may be.

Arithmetic is taught throughout the College, so that all the Students may acquire readiness and accuracy in its operations, and a thorough knowledge of its principles.

Twelve Experimental Lectures in Chemistry and other branches of Science for a time are given every half-year to those students for whom it is desired.

Complete Practical Instruction in Chemistry and Chemical Manipulation may usually be obtained on payment of the fee specified below. It is intended that three Half-yearly Courses should comprehend all the Practical and Theoretical Instruction in this Science necessary for those who will not require it for their future professions.

Students are prepared for the Military Academies and the Army by a Course of study approved by Military Authority, and suited to the Military Examinations.

Every Student, not especially exempted, is required to learn either French or German.

The Course of instruction in the Preparatory Class includes all the elements of a good English Education, French, and the Latin Grammar.

All the boys in the lower form are taught Choral Singing, at a charge of five shillings for the half-year.

Discipline.

All the Students who Board in connection with the College are under the charge of the Principal, and are subject to regulations as to bounds, &c., according to their standing in the College. No student is allowed to be out after dusk, or to go into the town at any time, except when visiting his friends, or by the special leave of the Principal.

The Principal can only be responsible for Day Scholars during that

part of the day when they attend the College; but he will make such arrangements with their parents, if they should request it, as may best secure regularity and good conduct in passing to and from the College.

A Monthly Report is sent of the conduct and diligence of each Student. At the end of the Half-year a full Report is also given of his progress in all his studies.

Hours of Study, Vacations, &c.

The Hours of Study in this College are from 9 to 12, and 2 to 5; except in November and December, when the Students leave the College at 4. Half Holidays on Wednesdays and Saturdays.

It is the duty of every Day Scholar to take home with him a paper specifying his evening's work.

The Holidays are seven weeks at Midsummer and five at Christmas; at Easter, from the Thursday before to the Saturday after Easter Day, but Boys from a distance are allowed to remain during this vacation.

will be appointed who is not, in the judgment of the Examiners, deserving of the distinction.

Thomas Attree, esq., of the Park, Brighton, in his lifetime gave a house to the College to endow a Scholarship, to be called 'The Wakeford Attree Scholarship,' in memory of his son, the late William Wakeford Attree, esq., Recorder of Hastings, and one of the Members of the Council of this College. Its value is £60 a-year, and it is tenable for two years, at the University of Cambridge.

A Library of reference is being gradually formed, chiefly by gifts from the Friends of the Institution.

*** Further information on all subjects connected with the College may be obtained on application to the Principal or Secretary.

AN INSTITUTION FOR EDUCATING THE DAUGHTERS OF POOR CLERGYMEN.

Treasurer—STEPHEN ALERS HANKEY, esq.

Secretary—Rev. JOHN BABINGTON.

The children of all poor Clergymen of the Established Church in the United Kingdom, or serving abroad, are eligible, with or without a nomination; the income of the clergyman, the subscription of the person recommending, and the destination of the child to be a governess, being always the points chiefly regarded. Orphans, *cæteris paribus*, are preferred.

Each child pays £21 per annum, which sum includes washing, and the more expensive part of the dress after the first year, and medicine if requisite. She is also taught the usual branches of English and French education: the latter by French ladies resident in the Institution. Music is an extra of £5 per annum; Drawing, £4; German, £4; and Latin, £4. Exercises for deportment are included in the £21; but the Trustees reserve to themselves the decision whether, after due trial, there is a prospect of success sufficient to justify the prosecution of any of these accomplishments. The object of this Institution is to promote a feeling of laudable independence among the working classes, that they may help themselves, and so be prevented from seeking charitable assistance from others; to encourage habits of provident frugality; and to enable those to obtain immediate relief who are not able

to pay for it in the usual way, but are not in circumstances so indigent as to justify an application to the gratuitous Dispensary.

The funds of the Institution are derived from the Donations and Subscriptions of the Honorary Members, and the payments of the Members.

Members consist of the labouring classes, whether male or female, and their children, not receiving parish relief, and others who are unable to pay for medical advice in the usual manner.

Every Member above twelve years of age must pay One Penny, and under that age One Halfpenny a week, excepting in a family consisting of more than two children, when One Penny a week shall be considered sufficient for the whole number under twelve years of age. Domestic servants who may be considered eligible by the Committee, shall pay Five Shillings a year, and in not less than half-yearly payments.

The children of Members may be vaccinated on application to the Surgeon of their district.

During a series of years this Institution has been silently and unostentatiously effecting a large amount of real good. The poor of this Town and of the adjacent Counties have been recipients of its benefits to an extent which can scarcely be credited. The Town of Brighton and County of Sussex have appreciated its general usefulness, and lent their willing aid in carrying out its benevolent design.

The object of the Institution is to afford Medicine, Leeches, and Advice gratuitously to the indigent poor labouring under diseases of the eye, upon the recommendation of a Governor or

Subscriber. Those who are too ill to attend at the Infirmary, and are unwilling or unable to come into the house, are visited at their own homes by one of the Medical Officers. In order the better to ensure this accommodation to the patients, the town has been divided into two districts, each one under the care of one of the Surgeons.

All Subscribers have the privilege of recommending patients in proportion to their respective Subscriptions or Donations.

The Infirmary is open for the reception of patients every morning (Sunday excepted) at 11 o'clock.

No patients received into the house without a letter of recommendation from a Governor or Subscriber, except from Accidents, which are admitted at all hours, subject, however, to regulations.

Donations and Subscriptions received at the Brighton Banks, and by the Hon. Secretary.

The objects of the Charity are poor Female Children deprived of both their parents, who are maintained, instructed, and supplied with clothing by the Institution; and every endeavour is made to impress upon their minds the purest principles of religion in conformity with the doctrines of the Established Church.

It is an acknowledged fact, that by far the greater part of the debility, disease, and premature mortality in this country is the result of preventible causes; but it is an equally evident fact that very few preventive measures bearing upon the personal habits of the people have yet been adopted.

The promoters of this Association believe that, in a majority of cases, the principal cause of a low physical condition is ignorance of the laws of health; and they have therefore combined to propagate this important branch of knowledge.

Subscriptions, Donations, Books for the Library, &c., will be gratefully received by Mrs. NOURSE; the Ladies of the Committee; and at the Union Bank.

LIST OF BOOKS

MACMILLAN & CO., LONDON.

Books by Professor Fawcett, M.P. for Brighton.

I. MANUAL OF POLITICAL ECONOMY.

By HENRY FAWCETT, M.A., Professor of Political Economy in the University of Cambridge. Second Edition, crown 8vo. cloth, 12s.

'. . . . It is for the good and kindly spirit in which it undertakes to correct the errors that have arisen on this score, and to reduce our plain duty in dealing with others to a system which is thoroughly generous and philanthropic, that Mr. Fawcett's book is specially entitled to consideration. . . . The book is written throughout with admirable force, clearness, and brevity, every important part of the subject being duly considered.' EXAMINER.

GENERAL VIEW OF THE CRIMINAL LAW OF ENGLAND.

By J. FITZJAMES STEPHEN, Barrister-at-Law, Recorder of Newark-on-Trent. 8vo. cloth, 18s.

'It is only by a very happy and a very rare accident that such a book as Mr. Stephen's on the Criminal Law of England can be produced. Mr. Stephen treats it so as to awaken in a high degree that peculiar interest which attaches to all descriptions of trials for great crimes; but he also examines with boldness and originality the grounds upon which the system of English law is based, and takes the trouble not only to show how we come to have what we have, but how very considerable improvements might be introduced. There is no part of Criminal Law which he does not present to us as viewed by a mind capable of thinking for itself, and none which he does not illustrate by all the resources of a practical and vigorous style. At the same time, readers feel in the book the confidence which attaches to the writing of a man who has great practical acquaintance with the matter of which he writes, and lawyers will agree that it fully satisfies the standard of professional accuracy.' SATURDAY REVIEW.

THE GARDEN AND THE COUNTRY.

OUR GARDEN FRIENDS and FOES. By the Rev. J. G. WOOD, M.A. Crown 8vo. cloth gilt, 7s. 6d.

At this time of year the gardens are overrun with insects—snails, worms, grubs, and other destroyers of the autumnal crops of fruits—while the young birds of the season have all gained their wings. In this work all possessors of a garden, a field, a greenhouse, or even of a few plants in a window, will learn to distinguish between the noxious creatures and those which ought to be welcome; and croquet players, who value the smoothness and regularity of their lawns, will find this work invaluable.

MEN of the TIME: a Biographical Dictionary of Eminent Living Characters of both Sexes. A New Edition, thoroughly Revised, and brought down to the Present Time. In crown 8vo. strongly bound, 12s. 6d.

The present edition of 'Men of the Time' will, it is hoped, be regarded as an earnest of the desire of the Publishers to respond adequately to the favour with which its predecessors were received, in spite of the omissions and imperfections inseparable from the first appearance of so comprehensive a work. Some hundreds of additional memoirs have been prepared expressly for its pages; while of those which were included in former editions almost all have been more or less revised. Those articles which now appear for the first time are marked with an asterisk (*); some few of these, prepared too late for insertion in their proper places in the body of the work, will be found in the Supplement.

In order to give increased facility for reference, a carefully-prepared classified Index has been added to the present Edition.

F. FARMER'S

PATENT SELF-REGULATING

SCREW TRUSS.

This Truss only wants a trial to convince any one afflicted with Hernia, be it ever so bad, that it is the Master Truss. F. FARMER particularly invites those who have not been successful in other Trusses to give his a trial. It is so constructed as to enable the wearer to turn the pad of the Truss up or down, or, in fact, to place it exactly over the part from which the rupture protrudes. It is the most effectual Truss ever invented, not only for the best support of Hernia, but for the Actual Cure, if not neglected too long. It is not more than half the weight of other Trusses, and very strongly made. Persons sending the circumference of their body one inch below the hip will be attended to without delay. Name for right or left side. This Truss is quite superior to any other for Riding or Walking, as no galling under strap is required.

Umbilical Trusses on the same Principle.

MANUFACTURED ONLY BY

F. FARMER,

TRUSS AND SURGICAL INSTRUMENT MAKER.

THE

SCOTTISH WIDOWS' FUND

IS THE LARGEST MUTUAL LIFE ASSURANCE OFFICE IN THE WORLD.

1. Increasing Financial Strength

Assurances and Bonuses in force	£13,000,000
The Funds have increased since 1859 from £3,518,230 to ..	4,150,000
The Annual Revenue has increased since 1859 from £412,767 to	515,000
The New Assurances of 1864 alone (£10,000 only reassured) amounted to	886,350

2. Security.

The Valuations are made by the Carlisle Tables of Mortality, upon the assumption that the Society's Funds will yield interest at £3 per cent. After setting aside Funds on the ample scale employed in such a Valuation, there remained a free balance of Profit for the Seven Years, from 1852 to 1859 alone, of no less than £724,117. *The Security afforded is therefore of the most undoubted description.*

3. Profits Realised.

Profit, 1815 to 1845 (Thirty-one years)	£708,968
Profit, 1846 to 1852 (Seven years)	591,158
Profit, 1853 to 1859 (Seven years)	724,117
Profit realised (1815 to 1859) ..	£2,024,243

The Whole Profit is Divided among the Members,

while in Proprietary Companies the Profit is divided in certain proportions between Shareholders and Policyholders. The above figures serve to indicate that **VERY LARGE SUMS** are necessarily paid to the Society's Policyholders which under the Proprietary System would be paid in Dividends to Shareholders. The following are Examples of additions made to Policies of £1,000.

Policy, dated	Bonus Additions to 1865	Premiums paid. Age at entry, 30	Portion of Premiums added as Bonuses
1815	£1,583 5 3	£1,319 12 6	120 per cent.
1825	1,034 5 10	1,060 17 6	97 ,,
1835	729 4 2	802 2 6	91 ,,
1845	417 15 10	543 7 6	77 ,,
1855	191 19 7	284 12 6	67 ,,

Bonuses equal to the greater part of the Premiums paid have thus been added to Policies of even recent issue, while in many instances the Bonuses equal or exceed the whole Premiums paid.

4. Division of Profits in 1866.

The whole Profits realised since 1859 *will be divided among the Policyholders* at 31st December 1866. Policies issued during 1865 will rank for Two Years' Bonuses; those during 1866 for One Year's Bonus. The increase which has taken place since 1859 in all the sources from which Profit is derived leads to the conclusion that the sum to be divided at the close of next year will be an unusually large one.

COMPOUND FLUID EXTRACT

OF

SARSAPARILLA

AND

TARAXACUM,

AN INVALUABLE COMBINATION

PARTICULARLY RECOMMENDED FOR THE BLOOD, AND AS A SPRING AND AUTUMN MEDICINE.

The Sarsaparilla is most carefully prepared from the *choicest fibrous Jamaica Root only*, the process adopted frees it from the *inert* matter usually contained in concentrated decoctions of Sarsaparilla, and at the same time secures the whole of its aromatic and volatile constituents.

The Taraxacum is obtained with equal care, when the Dandelion Juice is highly concentrated, and in its best condition, and retains unaltered its active principle, "*Taraxacine*,"—a most desirable acquisition, as upon this mainly, if not entirely, depends its medicinal virtue.

In Bottles, 4s., 7s. 6d., and 14s. each.

Prepared by means of powerful hydraulic pressure and steam apparatus, especially constructed for the purpose, at

THE ORIGINAL

BRIGHTON GLYCERINE CREAM

Introduced in 1849, as the result of a scientific conversation with a skilful medical authority upon the properties and uses of Glycerine.

This valuable preparation speedily removes the effects of dry winds or severe weather, and by assisting the natural functions of the pores, keeps the skin clear and white, producing that delicate softness and beauty which are unfailing indications of its healthy state; it is also a most successful application for Sunburns, Freckles, and Tan, and being warranted free from everything injurious, no lady should be without it.
