MEETINGS ARE HELD WEEKLY AT 31 WESTERN ROAD.

Hon. Secretaries—T. B. CHAMBERLIN, esq. and THOS. WARNER, esq.

Assistant Secretary—Mr. H. T. JOHNSON, 31 Western road.

The object of the Society is to extend the knowledge of the Gospel among the inhabitants of Brighton (especially the poor), without any reference to denominational distinctions or the peculiarities of Church government. To effect this object, Missionaries of approved character and qualifications, giving themselves entirely to the work, are employed and paid by the Institution. Their duty is to visit from house to house within their respective districts, read the Scriptures, engage in religious conversation, and urge those who are living in the neglect of religion to observe the Lord's Day and to attend public worship. They make it their business to see that all persons possess the Scriptures, to distribute religious tracts, aid in obtaining Scriptural education for the children of the poor, hold meetings for reading and expounding the Scriptures, and prayer, and adopt such other means as the Committee may think necessary for the accomplishment of the object of the Mission.

The object of this Association is, through house-to-house visitation, to carry home to the residents in the poorer streets of the town the pure message of the Gospel of Christ. It unites the contributions of individuals and congregational collections into a general fund, and therewith endeavours to carry out the work of a Home Mission, on an organised plan under the approval and authority of the bishop of the diocese. All the Readers are under the immediate direction and supervision of the ministers of their several districts; and thus they are the means, not only of strengthening the hands and extending the ministrations of the Clergy, but also of bringing to their knowledge many real cases of bodily as well as spiritual destitution, which otherwise they might not hear of.

The Association has now been in operation eleven years. The Committee, whilst acknowledging with thankfulness the blessings which (by God's help) it appears to have conferred, are conscious that its usefulness might, and indeed ought to be, considerably extended.

Additional and increased Subscriptions are therefore most earnestly solicited. They may be paid either to the Treasurer, 52, Montpellier road, or to Messrs. Hall, Lloyd, Bevan, and West, Brighton Union Bank.

Local Secretary and Treasurer—The Rev. Spencer R. Drummond, Brighton.

London Depôt—Messrs. Rivington, 3, Waterloo place.

The object of the Society is—1, to make known abroad the principles and character of the Church of England; 2, to assist foreign churches and communities to reform themselves after the example of the Church of England; 3, to exhibit to foreigners already driven into infidelity a Christianity which they may still embrace.

The means which it adopts are, the publication of books and tracts in foreign languages, and the employment of resident agents, travelling agents, booksellers, and depôt keepers, to disseminate books and information. The countries in which its operations are at present chiefly carried on are Italy, Scandinavia, and France. In Italy it maintains six agents. Its total receipts in the year 1866 were £1,295 8*s*. 3*d*., and total payments £1,014 19*s*. 9*d*. Subscriptions received by Messrs. Hall, Lloyd, Bevan, and West, Union Bank, Brighton, or by the Local Secretary and Treasurer.

Treasurer and Member of Council—R. A. BEVAN, esq.

Bankers—Messrs. HALL, LLOYD, BEVAN & WEST.

Secretary—MICHAEL TURNER, esq.

This College provides a sound liberal and religious education, so modified as to meet the demands for practical knowledge of the present age.

It recognises the general principle that the *basis* for a good Education must be the same, whether to prepare for the Universities,

for the Learned or Military Professions, or for the higher class of Mercantile or Manufacturing Employments. At the same time it also affords a special training for particular pursuits.

The principle adopted in the discipline is to give such liberty as may form manliness of character and habits of self-control, without exposing boys prematurely or unnecessarily to evil.

In addition to the healthiness of its situation, the College affords to boys of delicate health an opportunity of pursuing a more practical and varied course of instruction than that pursued by the rest of the Students.

The College is divided into two Departments,—the Senior and the Junior. The pupils in the Senior Department are required to wear an academical dress. Students are admitted into the two Departments after ten and fifteen years of age respectively.

A Preparatory Class is also open for boys without limitation as to age.

Occasional Students are admitted to Classes in all the branches of study.

The control of the Instruction and Discipline rests entirely with the Principal.

The Staff of Masters at present contains Four Wranglers and Four First-class Men on the Classical Tripos.

Course of Instruction.

The ordinary course comprises Religious Instruction, Classics, Mathematics, English, French (or German), History, Geography, Arithmetic, and Writing.

The Religious Instruction is conducted either by the Principal himself or under his direction. The Ordinances of the Church are administered in the College Chapel.

The Classical Studies are under the special charge of the Classical Lecturer. Extra Instruction is given by him to such Students as require special preparation for either Oxford or Cambridge.

Those Students who are not going to the Universities may be exempted, at the request of their Parents, from learning Greek, and from such Latin compositions as in the judgment of the Principal appear unnecessary. The time so gained will be devoted to additional instruction in Mathematics and

Arithmetic, to Modern Languages, English Reading, and Composition, or other subjects suited to their future professions, under the immediate superintendence of the Vice-Principal. These Students can learn both French and German at the same time, without any additional charge.

The Students are divided into Mathematical Classes not necessarily coinciding with the Classical. Students, therefore, may have the same advantages as regards Mathematical Instruction, whatever their position in classics may be.

Arithmetic is taught throughout the College, so that all the Students may acquire readiness and accuracy in its operations, and a thorough knowledge of its principles.

Twelve Experimental Lectures in Chemistry and other branches of Science for a time are given every half-year to those students for whom it is desired.

Complete Practical Instruction in Chemistry and Chemical Manipulation may usually be obtained on payment of the fee specified below. It is intended that three Half-yearly Courses should comprehend all the Practical and Theoretical Instruction in this Science necessary for those who will not require it for their future professions.

Students are prepared for the Military Academies and the Army by a Course of study approved by Military Authority, and suited to the Military Examinations.

Every Student, not especially exempted, is required to learn either French or German.

The Course of instruction in the Preparatory Class includes all the elements of a good English Education, French, and the Latin Grammar.

All the boys in the lower form are taught Choral Singing, at a charge of five shillings for the half-year.

Discipline.

All the Students who Board in connection with the College are under the charge of the Principal, and are subject to regulations as to bounds, &c., according to their standing in the College. No student is allowed to be out after dusk, or to go into the town at any time, except when visiting his friends, or by the special leave of the Principal.

The Principal can only be responsible for Day Scholars during that

part of the day when they attend the College; but he will make such arrangements with their parents, if they should request it, as may best secure regularity and good conduct in passing to and from the College.

A Monthly Report is sent of the conduct and diligence of each Student. At the end of the Half-year a full Report is also given of his progress in all his studies.

Hours of Study, Vacations, &c.

The Hours of Study in this College are from 9 to 12, and 2 to 5; except in November and December, when the Students leave the College at 4. Half Holidays on Wednesdays and Saturdays.

It is the duty of every Day Scholar to take home with him a paper specifying his evening's work.

The Holidays are seven weeks at Midsummer and five at Christmas; at Easter, from the Thursday before to the Saturday after Easter Day, but Boys from a distance are allowed to remain during this vacation.

An Exhibition of the value of £90 is open for competition every year to Candidates proceeding to Oxford or Cambridge, who have been Students for three years in the College; but no one

will be appointed who is not, in the judgment of the Examiners, deserving of the distinction.

Thomas Attree, esq., of the Park, Brighton, in his lifetime gave a house to the College to endow a Scholarship, to be called 'The Wakeford Attree Scholarship,' in memory of his son, the late William Wakeford Attree, esq., Recorder of Hastings, and one of the Members of the Council of this College. Its value is £60 a-year, and it is tenable for two years, at the University of Cambridge.

A Library of reference is being gradually formed, chiefly by gifts from the Friends of the Institution.

*** Further information on all subjects connected with the College may be obtained on application to the Principal or Secretary.

The following letter is subjoined, as bearing testimony to the great value of the Institution, from the late SAMUEL K. SCOTT, Esq.:—

15 German place, Brighton.

Dear Sir,—I have heard that you wish for my opinion respecting the Home for Invalid Children at Brighton. I have looked after the children for three years as their Medical attendant, and so I have seen the working of the Institution. I have seen the children derive the greatest good from a residence there. I have seen many cases when all the skill of the most skilful Medical men in London had failed to restore health, and where the change to the sea-side has brought about a speedy recovery to health, often without the aid of any direct Medical treatment whatever. I have, I feel sure, seen very many who have been either restored to perfect health, or to such a degree of health as they would never have attained without the aid of this Home. I believe the Institution to be thoroughly well worked. The children are well looked after, well fed, and well cared for in every way. They always appear very happy, and it cheers me up to go amongst them. I think this is an Institution that is much needed, and if you can in any way help it forward, I am sure that you will be doing something towards lessening the amount of sorrow and suffering that there is in the world.—I am, dear Sir,

Very truly yours, S. K. SCOTT.

The object of this Institution is to promote a feeling of laudable independence among the working classes, that they may help themselves, and so be prevented from seeking charitable assistance from others; to encourage habits of provident frugality; and to enable those to obtain immediate relief who are not able to pay for it in the usual way, but are not in circumstances so indigent as to justify an application to the gratuitous Dispensary.

The funds of the Institution are derived from the Donations and Subscriptions of the Honorary Members, and the payments of the Members.

Members consist of the labouring classes, whether male or female, and their children, not receiving parish relief, and others who are unable to pay for medical advice in the usual manner.

Every Member above twelve years of age must pay One Penny, and under that age One Halfpenny a week, excepting in a family consisting of more than two children, when One Penny a week shall be considered sufficient for the whole number under twelve years of age. Domestic servants who may be considered eligible by the Committee, shall pay Five Shillings a year, and in not less than half-yearly payments.

It is well known that a great part of the debility, disease, and premature mortality in this country arises from causes which are preventible, and may be attributed in great measure to ignorance of the laws of health. This Association is therefore formed for the purpose of removing that ignorance, of bringing public opinion to bear on the subject, and of aiding all classes, more especially the poor, to improve their sanitary condition. The Association desires to accomplish these objects—

By the distribution of tracts and pamphlets on subjects relating to health; by arranging for the delivery of popular Lectures on the laws of health; by the employment of Female Visitors or Sanitary

Missionaries among the poorer classes; by the distribution of small prizes to cleanly and well-kept houses; by bringing before the public and the local authorities the consideration of such legislative or executive measures as the sanitary condition of the town may seem from time to time to render necessary; and by inviting the co-operation of the Clergy, Medical Men, and District Visitors, and others, in the collection of facts relating to the condition of those parts of the town which are inhabited by the humbler classes.

F. FARMER'S

PATENT SELF-REGULATING

SCREW TRUSS.

This Truss only wants a trial to convince any one afflicted with Hernia, be it ever so bad, that it is the Master Truss. F. FARMER particularly invites those who have not been successful in other Trusses to give his a trial. It is so constructed as to enable the wearer to turn the pad of the Truss up or down, or, in fact, to place it exactly over the part from which the rupture protrudes. It is the most effectual Truss ever invented, not only for the best support of Hernia, but for the Actual Cure, if not neglected too long. It is not more than half the weight of other Trusses, and very strongly made. Persons sending the circumference of their body one inch below the hip will be attended to without delay. Name for right or left side. This Truss is quite superior to any other for Riding or Walking, as no galling under strap is required.

Umbilical Trusses on the same Principle.

JAMES HACK FAIRBANK,
Pharmaceutical Chemist,
95 ST. JAMES'S STREET,
BRIGHTON,

Having opened the above premises, begs to solicit the patronage of the Gentry and Inhabitants of Brighton.

J. H. F. from his long practice as a Dispenser in the house of ALLEN & HANBURYS, Plough Court, Lombard Street, and subsequent experience in business at Woolwich (respecting which see Testimonials), can undertake the preparation of Prescriptions with scrupulous accuracy, and the supply of Medicines generally of the utmost purity.

TESTIMONIALS.

OXFORD TERRACE, RED HILL:
26th June 1866.

I hereby certify that I have known Mr. J. H. FAIRBANK as a most respectable Dispensing Chemist for more than twenty years, during seven of which he made up and sent out all the Medicines prescribed by myself and my brother, while we were engaged in a large Medical practice at Woolwich. I also certify that Mr. FAIRBANK possesses an unusually exact and extensive acquaintance with Drugs; that he has always been accustomed to select and use those of the best quality, and that his attention, civility, carefulness, and punctuality in Dispensing, gave the most perfect satisfaction to myself and my brother while he acted as our Dispenser.

(Signed) F. BOSSEY, M.D.

WOOLWICH: June 12th, 1866.

I have had the pleasure of knowing Mr. J. H. FAIRBANK about twenty years, and during that time he has supplied me with Drugs and Chemicals, the quality of which gave me ample satisfaction. He also Dispensed the whole of my Prescriptions for a considerable period, and I was much pleased with his care and accuracy in that department of his business.

(Signed) AUG. PRATER, M.D.

THOMAS STREET, WOOLWICH:
28th June 1866.

I have much pleasure in stating that I consider Mr. FAIRBANK a very accurate and careful Dispenser, and a good Pharmaceutical Chemist, and this opinion I form from personal observation extending over a considerable time, during which he Dispensed all the Medicine for my practice, and to my entire satisfaction.

(Signed) R. MASON, F.R.C.S.E., L.S.A.

---

32 RECTORY PLACE, WOOLWICH:
June 26th, 1866.

For the last twenty-three years I have known Mr. FAIRBANK as a Dispensing Chemist. He has always maintained a most honourable position in this town: conducting his business so as to command the respect and patronage of the most respectable inhabitants.

Medical practitioners and others will, I am convinced, regret the absence of such an able Chemist and careful Dispenser as Mr. FAIRBANK, who not only invariably prepared prescriptions with the greatest accuracy, but was always most courteous and obliging.
