Of Marriages.—Notice of marriage in any of the Dissenting Chapels or at the Register Office, should be given to the Superintendent Registrar, of whom licenses for marriage may be obtained.

Of Deaths.—Information of a death should (as soon after its occurrence as practicable) be given to the Registrar of the sub-district in which the death took place, by some person present thereat or in attendance; such person at the same time producing a certificate of the cause of death, signed by the medical attendant of deceased. Meetings are held Weekly at 31 Western Road.

The object of the Society is to extend the knowledge of the Gospel among the inhabitants of Brighton (especially the poor), without any reference to denominational distinctions or the peculiarities of Church government. To effect this object, Missionaries of approved character and qualifications, giving themselves entirely to the work, are employed and paid by the Institution. Their duty is to visit from house to house within their respective districts, read the Scriptures, engage in religious

conversation, and urge those who are living in the neglect of religion to observe the Lord's Day and to attend public worship. They make it their business to see that all persons possess the Scriptures, to distribute religious tracts, aid in obtaining Scriptural education for the children of the poor, hold meetings for reading and expounding the Scriptures, and prayer, and adopt such other means as the Committee may think necessary for the accomplishment of the object of the Mission.

The object of this Association is, through house-to-house visitation, to carry home to the residents in the poorer streets of the town the pure message of the Gospel of Christ. It unites the contributions of individuals and congregational collections into a

general fund, and therewith endeavours to carry out the work of a Home Mission, on an organised plan under the approval and authority of the bishop of the diocese. All the Readers are under the immediate direction and supervision of the ministers of their several districts; and thus they are the means, not only of strengthening the hands and extending the ministrations of the Clergy, but also of bringing to their knowledge many real cases of bodily as well as spiritual destitution, which otherwise they might not hear of.

The Association has now been in operation thirteen years. The Committee, whilst acknowledging with thankfulness the blessings which (by God's help) it appears to have conferred, are conscious that its usefulness might, and indeed ought to be, considerably extended.

Additional and increased Subscriptions are therefore most earnestly solicited. They may be paid either to the Treasurer, 52 Montpellier road, or to Messrs. Hall, Lloyd, Bevan, and West, Brighton Union Bank.

The means which it adopts are, the publication of books and tracts in foreign languages, and the employment of resident agents, travelling agents, booksellers, and depôt keepers, to disseminate books and information. The countries in which its operations

are at present chiefly carried on are Italy, Scandinavia, France and Spain. Subscriptions received by Messrs. Hall, Lloyd, Bevan, and West, Union Bank, Brighton, or by the Local Secretary and Treasurer.

This College provides a sound liberal and religious education, so modified as to meet the demands for practical knowledge of the present age.

It recognises the general principle that the *basis* for a good Education must be the same, whether to prepare for the Universities, for the Learned or Military Professions, or for the higher class of Mercantile or Manufacturing Employments. At the same time it also affords a special training for particular pursuits.

The principle adopted in the discipline is to give such liberty as may form manliness of character and habits of self-control, without exposing boys prematurely or unnecessarily to evil.

In addition to the healthiness of its situation, the College affords to boys of delicate health an opportunity of pursuing a more practical and varied course of instruction than that pursued by the rest of the Students.

The College is divided into two Departments—the Senior and the Junior. The pupils in the Senior Department are required to wear an academical dress. Students are admitted into the two Departments after ten and fifteen years of age respectively.

A Preparatory Class is also open for boys without limitation as to age.

Occasional Students are admitted to Classes in all the branches of study.

The control of the Instruction and Discipline rests entirely with the Principal.

Course of Instruction.

The ordinary course comprises Religious Instruction, Classics, Mathematics, English, French (or German), History, Geography, Arithmetic, and Writing.

The Religious Instruction is conducted either by the Principal himself or under his direction. The Ordinances of the Church are administered in the College Chapel.

The Classical Studies are under the special charge of the Classical Lecturer. Extra Instruction is given by him to such Students as require special preparation for either Oxford or Cambridge.

Those Students who are not going to the Universities may be exempted, at the request of their Parents, from learning Greek, and from such Latin compositions as in the judgment of the Principal appear unnecessary. The time so gained will be devoted to additional instruction in Mathematics and Arithmetic, to Modern Languages, English Reading, and Composition, or other subjects suited to their future professions, under the immediate superintendence of the Vice-Principal. These Students can learn both French and German at the same time, without any additional charge.

The Students are divided into Mathematical Classes not necessarily coinciding with the Classical. Students, therefore, may have the same advantages as regards Mathematical Instruction, whatever their position in classics may be.

Arithmetic is taught throughout the College, so that all the Students may acquire readiness and accuracy in its operations, and a thorough knowledge of its principles.

Experimental Lectures in Chemistry and other branches of Science are given to all the students.

Complete Practical Instruction in Chemistry and Chemical Manipulation may usually be obtained on payment of the fee specified below. It is intended that three Half-yearly Courses should comprehend all the Practical and Theoretical Instruction in this Science necessary for those who will not require it for their future professions.

Students are prepared for the Military Academies and the Army by a Course of study approved by Military Authority, and suited to the Military Examinations.

Every Student, not especially exempted, is required to learn either French or German.

The Course of instruction in the Preparatory Class includes all the elements of a good English Education, French, and the Latin Grammar.

All the boys in the lower form are taught Choral Singing, at a charge of five shillings for the half-year.

Discipline.

All the Students who Board in connection with the College are under the charge of the Principal, and are subject to regulations as to bounds, &c., according to their standing in the College. No student is allowed to be out after dusk, or to go into the town at any time, except when visiting his friends, or by the special leave of the Principal.

The Principal can only be responsible for Day Scholars during that part of the day when they attend the College; but he will make such arrangements with their parents, if they should request it, as may best secure regularity and good conduct in passing to and from the College.

A Report is sent of the conduct and diligence of each Student in the middle of the term. At the end a full Report is also given of his progress in all his studies.

Hours of Study, Vacations, &c.

The Hours of Study are on Monday, Wednesday, and Friday, from 9 to 12, and from 2 to 5; on Tuesday and Thursday from 9 to 1 only; and on Saturday from 9 to 12.

The year is divided into Three Terms by Vacations of four or five weeks at Christmas, seven weeks in August and September, and two or three weeks half way between the two longer Vacations.

It is the duty of every Day Scholar to take home with him a paper specifying his evening's work.

Fees.

Every Boy should be nominated by a Proprietor.

The *inclusive* charges for Pupils, payable in advance, are—

£7 10*s.* per Term for Boys under 10 years of age.
£9 for Boys between 10 and 15.
£10 10*s.* for those above 15 years of age.

The *only* extra charges (and these are *optional*) are —

Drawing .....£4 4*s.* per Annum.
Practical Instruction in Chemistry...£3 3*s.* per Term.

The Council will nominate, if desired, at an increased charge of £10 per Annum.

Any Pupil may board at home or elsewhere, on the responsibility of his parents or guardians.

Those who board in connection with the College are received at the following houses, at the specified terms, for Board:—

The Principal at £60 per annum, if a separate room is not required.
The Vice-Principal, £50 per annum.
The Rev. J. B. Slight, at £50 per annum.
The Rev. G. Cotterill, at £60 per annum.
The Misses Evans, 7 Portland Place, £45 per annum.
The last is a Licensed Boarding House, under the control of the Principal, and under the direction of a resident Master.

Before removal, a full Term's notice, or the payment of a Term's fee, is required in all cases, both for Tuition and for Boarding.

Provision is made for Dinner on four days in the week, £3 per term.

The charges to *occasional* Students for attending the Chemical Lectures or Classes in the College may be learnt on application to the Principal.

Examinations and Rewards.

There are Examinations twice every Term. Prizes are distributed twice in the year, viz. after the Midsummer and Christmas Examinations.

An Exhibition of the value of £90 is open for competition every year to Candidates proceeding to Oxford or Cambridge, who have been Students for three years in the College; but no one will be appointed who is not, in the judgment of the Examiners, deserving of the distinction.

Thomas Attree, esq., of the Park, Brighton, in his lifetime gave a house to the College to endow a Scholarship, to be called 'The Wakeford Attree Scholarship,' in memory of his son, the late William Wakeford Attree, esq., Recorder of Hastings, and one of the Members of the Council of this College. Its value is £60 a-year, and it is tenable for two years, at the University of Cambridge.

A Library of reference is being gradually formed, chiefly by gifts from the Friends of the Institution.

* Further information on all subjects connected with the College may be obtained on application to the Principal or Secretary.

IMPORTANT TO LAW AND MEDICAL STUDENTS.

No person is now admitted into any department of the Public Service, civil or military, without passing an Educational Examination; and similar regulations have been established with regard to admission into the Legal and Medical Professions.

Every person proposing to enter articles of clerkship as Attorney or Solicitor *must* pass a special preliminary examination in Arithmetic, Geography, History, English, and elementary Latin; and is required also to offer himself for examination either in Latin, Greek, French, German, Spanish, or Italian; but if he has passed the Oxford or Cambridge Local Examination and in Latin, these special examinations are dispensed with.

Medical Students who have passed the Oxford or Cambridge Senior Local Examination and in Latin, will be excused the 'Preliminary Examination' on General Education required by the Council of the Royal College of Surgeons, and the 'Examination in Arts' required by the Society of Apothecaries.

The Pharmaceutical Society of Great Britain also allow the Oxford and Cambridge Certificate to supersede their own Preliminary Examination for Students in Pharmacy, if a Candidate has passed in Latin and Chemistry.

Treasurer—STEPHEN ALERS HANKEY, esq.

Secretary—Rev. JOHN BABINGTON.

num; Drawing, £4; German, £4; and Latin, £4. Exercises for deportment are included in the £21; but the Trustees reserve to themselves the decision whether, after due trial, there is a prospect of success sufficient to justify the prosecution of any of these accomplishments. Nor can any alteration be made in the system of education to suit any particular parent's wishes. The external dress is uniform, towards which £3 is paid on admission; but it is afterwards provided without charge.

The age for admission must be between eight and fourteen, and the children must be able to read and spell with ease.

Hon. Treasurer—Mrs. Nourse.

It is well known that a great part of the debility, disease, and premature mortality in this country arises from causes which are preventible, and may be attributed in great measure to ignorance of the laws of health. This Association is therefore formed for the purpose of removing that ignorance, of bringing public opinion to bear on the subject, and of aiding all classes, more especially the poor, to improve their sanitary condition. The Association desires to accomplish these objects—

By the distribution of tracts and pamphlets on subjects relating to health; by arranging for the delivery of popular Lectures on the laws of health; by the employment of Female Visitors or Sanitary Missionaries among the poorer classes; by the distribution of small prizes to cleanly and well-kept houses; by bringing before the public and the local authorities the consideration of such legislative or executive measures as the sanitary condition of

the town may seem from time to time to render necessary; and by inviting the co-operation of the Clergy, Medical Men, and District Visitors, and others, in the collection of facts relating to the condition of those parts of the town which are inhabited by the humbler classes.

The Toilet.

A due attention to the Gifts and Graces of the Person, and a becoming preservation of the advantages of nature, are of more value and importance, with reference to our health and well-being, than many parties are inclined to suppose. Several of the most attractive portions of the human frame are delicate and fragile, in proportion as they are graceful and pleasing; and the due conservation of them is intimately associated with our health and comfort.

The Hair,

for example, from the delicacy of its growth and textnre, and its evident sympathy with the motions of the mind;

The Skin,

with its intimate relation to the most vital of our organs, as those of respiration, circulation, and digestion, together with the delicacy and susceptibility of its own texture; and

The Teeth,

also, from their peculiar structure, formed, as they are, of bone or dentine, and cased with a fibrous investment of enamel; these admirable and highly essential portions of our frames are all to be regarded, not merely as objects of external beauty and display, but as having an intimate relation to our health, and the due discharge of the vital functions. The care of them ought never to be entrusted to ignorant or unskilful hands; and it is highly satisfactory to point out as protectors of these vital portions of our frame the preparations which have emanated from the laboratories of the Messrs. Rowlands, their unrivalled Macassar for the Hair, their Kalydor for improving and beautifying the Complexion, and their Odonto for the Teeth and Gums.

GREAT CAUTION is necessary as to where proprietary articles are purchased, particularly those with reference to the toilet. Shopkeepers of small repute offer for sale their spurious and pernicious imitations of proprietary articles, under the lure of being cheap, regardless of the consequences. ROWLAND'S TOILET REQUISITES, their Macassar Oil, Kalydor, and Odonto, are peculiarly the subjects of these innovations.—*Morning Paper.*

PATENT SELF-REGULATING

SCREW TRUSS.

This Truss only wants a trial to convince any one afflicted with Hernia, be it ever so bad, that it is the Master Truss. F. FARMER particularly invites those who have not been successful in other trusses to give his a trial. It is so constructed as to enable the wearer to turn the pad of the Truss up or down, or, in fact, to place it exactly over the part from which the rupture protrudes. It is the most effectual Truss ever invented, not only for the best support of Hernia, but for the Actual Cure, if not neglected too long. It is not more than half the weight of ot' er Trusses, and very strongly made. Persons sending the circumference of their body one inch below the hip will be attended to without delay. Name for right or left side. This Truss is quite superior to any other for Riding or Walking, as no galling under-strap is required.

PUBLISHED EVERY MORNING AT SIX O'CLOCK

AND SOLD BY ALL NEWSAGENTS.

The *Brighton Daily News* is the only Daily Paper in the County of Sussex, and in consequence of its circulation and position as a high-class journal, being unapproached in Brighton and throughout the County, it affords the best means of giving the widest publicity to the announcements of tradesmen, the professional, commercial, and agricultural classes, and the public generally.

To the general reader it offers many advantages, since it contains the most accurate and extended reports of all Local Matters, combined with the latest Metropolitan, Foreign, and Home news, transmitted by Electric Telegraph until a late hour on the morning of publication.

The *Brighton Daily News* is also the leading fashionable journal, and circulates very extensively amongst the nobility and gentry residing in, and visiting Brighton, Eastbourne, Tunbridge Wells, Worthing, &c.

As arrangements are in operation by which the *Brighton Daily News* is forwarded to the various towns and villages throughout the County by the earliest trains, it commands a large and daily increasing circulation, constituting it a most valuable medium for every description of Advertisements.

STEVENSON & COMPANY'S

NEW

TEA, COFFEE, AND WINE

ESTABLISHMENT.

Nearly twenty-five years have elapsed since STEVENSON & Co. first solicited the trading suffrages of the inhabitants of Brighton.

Taking a retrospective view, it is highly satisfactory and encouraging to the proprietors to know that their past career has been marked by signal success far surpassing their highest expectations.

The past success which STEVENSON & Co. have experienced may, it is presumed, be fairly regarded as a favourable augury in connection with their New Establishment, 29 St. James's Street.

A first-class tea, coffee, and wine establishment, conducted on well-judged and publicly advantageous principles, cannot fail in eliciting ready support. STEVENSON & Co., besides having adequate capital at their command, have the requisite qualification of a long and extensive experience in the selection and buying of teas and coffees, and in general negotiations.

It is scarcely necessary to state that none but the very finest samples of tea, coffee, wines, &c. will be incorporated into the proprietors' stock; and be it observed that legitimate economy will regulate a fairly-balanced tariff of prices. STEVENSON & Co. hope by these means to create and sustain

A LARGE AND RESPECTABLE FAMILY TRADE.

ATTENDANCE DAILY, FROM NINE TILL FIVE.

TEETH EXTRACTED WITHOUT PAIN

BY THE AID OF

PROTOXIDE OF NITROGEN.

Mr. L. R. STYER, Dentist, 15 Cranbourn Street (leading from the top of West Street), Brighton, begs to draw attention to the introduction of Protoxide of Nitrogen as an anæsthetic in surgical operations.

It is especially adapted to the extraction of Teeth, as, with its aid, a tooth, however sensitive or firmly fixed in the jaw, may be removed without any pain whatever being experienced by the patient.

The advantages of this agent over chloroform, ether spray, &c., are numerous, but the following extract from the *British Medical Journal*, of April 4th, 1868, will be sufficient to convince the most sceptical of its value:—

'In a considerable number of cases unconsciousness was induced in less than three quarters of a minute; and what is most remarkable about the effects of this agent is, that the consciousness returns almost instantly after the extraction is performed; that there is no headache, sickness, prostration, or other of the considerable and serious drawbacks which make the administration of chloroform always a far more tedious and troublesome process than the extraction, and which frequently involves some distress to the patient for some hours, or perhaps days, after the inhalation. In many of these cases, the whole proceeding of inhalation, extraction, and recovery, occupied less than two minutes; and twelve or fifteen extractions were performed in succession within a very short time. Several very intelligent persons, members of the Dental and Medical professions, voluntarily submitted to the operation, "taking advantage of the opportunity." Within three minutes of the time that they were standing by the chair expressing that wish, they were again standing there detailing their sensations, having meantime been reduced to complete unconsciousness and the tooth having been extracted.'

Since the above was written, Mr. STYER can be testified by medical gentlemen operations and by persons resident in th rienced the benefits derived from this Mr. STYER permission to refer to them to do so.
