M. F. DENT,
Watch, Clock, and Chronometer Maker,
BY SPECIAL APPOINTMENT,
TO HER MAJESTY,
33 & 34, COCKSPUR-STREET, CHARING-CROSS,
(CORNER OF SPRING-GARDENS), LONDON.

DENT'S CHRONOMETERS have long held pre-eminent rank, as may be seen from the following Reports:—

SIR WILLIAM ARMSTRONG, Inventor of the Armstrong Gun, says:—

“ 9, Hyde-park-street, W.—14th November, 1861.

“ The Chronometer Watch you made for me in December, 1859, has never been affected by travelling or riding; **its variation at the end of a year was only 45 seconds.** It has proved in every respect a most satisfactory watch.

“ W. G. ARMSTRONG.

“ Mr. M. F. Dent, 33, Cockspur-street, Charing-cross.”

THE ASTRONOMER ROYAL, Greenwich Observatory: reporting in 1829 on the celebrated trial, when nearly 500 Chronometers were tested, says:—

“ Your Chronometer, No. 114, is entitled to the First Premium. Actual variation in the year 0.54 hundredths of a second. This is superior to any other yet tried.

J. POND, Astronomer Royal.

“ Mr. Dent.”

PROFESSOR AIRY, in testimony of the excellence of DENT's Turret Clocks, says:—

“ Royal Observatory, Greenwich, 22nd July, 1845.

“ I believe the Clock which you have constructed for the Royal Exchange to be **the best in the World** as regards accuracy of going and of striking.

“ G. B. AIRY.

“ Mr. DENT,

“ 33, Cockspur-street, Charing-cross.”

TWINBERROW'S

DANDELION, CAMOMILE, & RHUBARB PILLS.

An effectual cure for Indigestion, all Stomach Complaints, and Liver Affections. In cases of Constipation, these Pills never fail in producing a healthy and permanent action of the bowels, so that in a short time aperients will not be required, and, being quite as innocent as castor oil, may be given to children.

From Scott, Thomson, & Co., Chemists, Calcutta.

"We have lately received several communications from our friends in this country favourable to the reputation of your Dandelion, Camomile, and Rhubarb Pills, and as we think they would find a ready sale, send to us twenty-four dozen boxes to begin with."

TWINBERROW'S PREPARATION OF MYRRH.

Having been used extensively for more than twenty years with most satisfactory results, he conceives it unnecessary to say more than that it is an effectual remedy—first, in all diseases of the Gums, particularly Scurvy, those which recede from the Teeth, and are tender; second, for the preservation of the Teeth; third, for preventing Teeth which are decayed from becoming worse; fourth, for the prevention of Tooth-ache; fifth, for purifying the Breath, which may be affected by the state of the Stomach, or any other cause, imparting, at the same time, a most agreeable and refreshing effect.

TWINBERROW'S CAMPHORATED AROMATIC SPIRIT OF SAL VOLATILE.

In all cases where Sal Volatile is given, it is universally acknowledged by the Medical Profession, that its effect is greatly increased if taken in Camphor Julep. The great advantage of this unique preparation is that, by adding it to water, Camphor Julep is simultaneously formed with the Sal Volatile in solution.

ORANGE AND LEMON PEEL FLAVOURED CASTOR OIL.

In recommending this tasteless preparation, W. T. begs to state that it has many advantages over the common Castor-oil, and that, in the process of preparing it, its virtues are not in the least diminished. It is so agreeable to the palate that the most fastidious can take it, without the least apprehension of its having a nauseating effect on the stomach. On the contrary, it will be found most grateful. For children it is an invaluable preparation, the flavour of the oil being so exceedingly pleasant that they take it without the least reluctance.

May be obtained through all the respectable Chemists in the United Kingdom.

CHARING-CROSS HOSPITAL, WEST STRAND, W.C.

The financial position of this Hospital being so unsatisfactory as to cause serious anxiety to the Governors and Subscribers, whilst the demands on its resources are continually increasing, an **EARNEST APPEAL** is made to the Public to enable this most necessary Institution (placed in the midst of a very populous and poor neighbourhood) to be maintained in its present state of efficiency.

In the course of the past year alone, 16,797 indigent sick persons were admitted on the books for relief, at a cost of £3,722 10s. 9½d.; of these 950 were In-patients, and 15,847 were Out-patients, many of whom were visited at their own homes. Of these 16,797 patients no fewer than 14,226 were without any letters of recommendation, so that, in fact, this Hospital may almost be designated a Free Hospital.

The cases of accident, all without letters, admitted in the last year, amounted to the large number of 3,303, being an increase of nearly one thousand over those admitted from this cause in 1860, and which must in a great measure be attributed to the extensive public works now in progress in the immediate neighbourhood of the Hospital.

From the funds at present invested for the general support of the Hospital an income is derivable of about £800 per annum, which, with about £1,000 regular annual subscriptions, constitutes the present reliable, though altogether inadequate, means for the support of the Hospital, the expenditure of which during the last three years has exceeded £3,000 per annum. The deficiency has, for the most part, been made up by appeals for additional benefactions, the produce of sermons, and contributions through precarious sources.

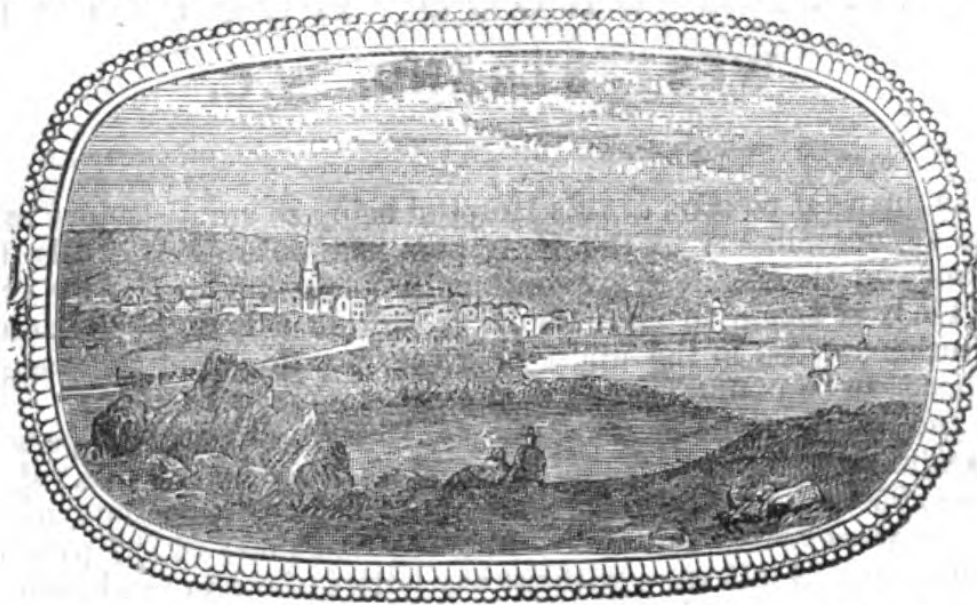

The opening, moreover, of the Children's Wards, so much needed, and, indeed, found almost indispensable, has further entailed an increased outlay, whilst the more expensive medicines now used in the treatment of disease, together with the steady increase in the number of accidents, constitute charges which it is impossible to control without frustrating the objects for which a public hospital is established.

Under these circumstances, the Council have ventured to come before the public with this plain statement of the difficulties which now beset them in the discharge of their duties, and they earnestly, but most confidently, appeal to that beneficence which is never withheld by the generous public from objects of recognised utility, and they entreat that so valuable an institution as that for which they now plead may not, from want of the necessary funds, be compelled to diminish its sphere of usefulness, the more especially when the incalculable benefits which its existence renders to a vast number of the suffering poor of London, who would otherwise be without medical assistance, is taken into consideration.

HENRY WOOLCOTT, *Secretary.*

Subscriptions are thankfully received at the Hospital; and by Messrs. Coutts and Co., 59, Strand; Messrs. Drummond, 49, Charing-cross; Messrs. Hoare, 37, Fleet-street; and through all the principal Bankers.

A. & F. PEAR'S
GENUINE
TRANSPARENT SOAP,

Which gained the Prize Medal at the Great Exhibitions of
1851 and 1862.

The whole surface of the body requiring the frequent application of Soap, it is most important to secure that article free from deleterious matters; especially when required for the infant and the invalid. Soaps are generally selected on account of their odoriferous qualities, irrespective of their *purifying* and *soothing* properties, and consequently much mischief often arises without the real cause being suspected.

The surface of the Skin of persons of delicate constitutions, being the most subject to injury from intense heat, severe cold, inclement winds, and other vicissitudes of the weather, it is with unaffected satisfaction that the Proprietors assure them that this preparation is quite free from irritating or acrimonious particles, and may therefore be applied to the most tender skin with the happiest success; indeed, infants of the weakest frame and earliest age may receive the application with the greatest benefit; in which cases, most of the *leading medical men* of the age have recommended it.

The great excellence of this Soap likewise is, that it may be used with equal pleasure in hard or *soft water*, a circumstance which renders it extremely agreeable to gentlemen of the navy, or families travelling to other countries.

For washing it is sold in oval tablets and square cakes 1s., 1s. 6d., and 2s. 6d. each; wash balls, 2s. 6d. each.

FOR SHAVING.

PEARS'S TRANSPARENT SHAVING STICK will be found superior to any Soap ever used—they will last three times as long as any other Soap. Price 1s., 1s. 6d., and 2s. 6d. each.

To be had of most respectable Perfumers and Chemists in Town and Country, or of the Inventors,

This Society has been established 158 years, and is the oldest Life Assurance Institution in existence. Its principles are essentially those of mutual assurance, and the whole of the profits are divided among the members.

By a recent alteration of the Bye-Laws of the Society, Policies are now granted on the Bonus Plan, entitling the Assured to a Bonus at the expiration of every five years, instead of seven years, from the date of each Policy.

Assurances may be effected for any sum not exceeding £7,000 on one and the same life, either with or without participation in profits.

Policy, Stamps, and Fees of Medical Referees, are paid by the Society.

In the event of a life assured dying within three calendar months after the day stipulated for the payment of the annual premium, although such premium be unpaid at the time of the decease, the policy will continue in force, provided the premium be paid (pursuant to the Society's Bye-laws), before the expiration of three calendar months from the day on which it became due.

The rates of premium are moderate; the sums assured are guaranteed by a large accumulated capital invested in the Government funds, freehold estates, and other approved securities; and the expenses of management seldom exceed three per cent. on the annual income.

Loans are granted upon mortgage of freehold estates, life interests, &c.; and also upon the security of the Society's policies after three years' payments have been made.

Prospectuses and every information may be obtained at the office.

The EQUITABLE, established in 1762, was one of the earliest Offices on the Mutual principle.

The entire profits are divisible among its members, no portion of the same being diverted either for dividends on shares, as in "proprietary" offices, or for commission to agents.

During the century of its existence it has paid £16,460,000 in claims, and £15,260,000 for bonuses on the same.

The Invested Capital on the 31st December, 1862, exceeded £5,000,000 sterling.

The reserve at the last rest, in December 1859, exceeded £770,000 as a basis for future divisions.

Under the bye-law of the 19th of December, 1816, the eldest 5000 policies are admitted to participation in the bonuses.

New Assurers in the current year (1864) will be placed among that number after payment of their first premium, and will become entitled to a rateable share in the bonus to be made in December 1869, and in all future benefits of the Office.

SURRENDER OF POLICIES.—The full value is paid on surrender, without any deduction.

LOANS ON POLICIES.—The Directors will make advances on deposit of the Policies.

LIFE DEPARTMENT.

This Office offers a low scale of premium to non-members without participation in profits, or a member's scale of premiums with an annual participation in the **WHOLE** of the profits after five annual payments.

For the last 15 years, participation in profits has yielded an annual abatement of 52½ per cent. on the premiums of all policies of five years' standing.

The Effect of the Abatement is thus shown :—

Age when Insured.	Sum Insured.	Annual Premium for first five years.	Reduced Annual Premium.
	£	£ s. d.	£ s. d.
20	1,000	21 15 10	10 7 2
30	2,000	53 8 4	25 7 7
40	3,000	101 17 6	48 8 0
50	5,000	228 15 0	108 13 4

If instead of taking the benefit of a reduced payment, a member chooses to employ the amount of the abatement in a further assurance, he may, without increasing his outlay, take out an additional policy at the end of the first five years of, on an average, more than 45 per cent. on the sum originally insured, and at the end of the second five years of above 20 per cent. more, with further additions afterwards,

The following Table presents examples of the Amounts to be thus obtained at the existing rate of profits:—

Age when Assured.	Original Amount of Policy.	Amount, with additions, by reassuring at end of first five years.	Amount, with additions, by reassuring at end of second five years.
	£	£	£
20	1,000	1,475	1,700
30	2,000	2,937	3,370
40	3,000	4,372	4,985
50	5,000	7,131	8,023

As a third alternative, a member may have the amount of the abatement converted year by year into a proportionate bonus payable at death.

FIRE DEPARTMENT.—Insurances are effected at the usual rates.

LIFE DEPARTMENT.

This Corporation has granted **Assurances on Lives** for a period exceeding **One hundred and forty years**, having issued its First Policy on the 7th of June, 1721.

Two-thirds of the entire Profits, without any Deduction for Expenses of Management, are allotted to the Assured. This arrangement will be found to be more advantageous to the Policy holders, than an apparently larger proportion of the Profits, subject to the expenses of management.

Assurances may be effected without Participation in Profits, at low rates of Premium, or with Participation in Profits, upon either of the following plans, viz:

By an Annual Abatement of Premium on Policies of Five Years standing and upwards. Upon this plan the average abatement from the original Premium during the last Three Years, has exceeded 38 per cent.

By appropriating the Profits at the end of every Five Years, either in increase of the Sum Assured, or as an immediate Cash payment.

Examples of the Bonus additions to the Sum Assured on Policies of Fifteen Years standing, are subjoined.

During the last sixteen years the Company have transacted a larger average amount of business than any existing Life Assurance Institution, and that without the aid of personal loan business or foreign agencies, to which many offices have now recourse for the extension of their business. The average amount transacted in the period referred to is upwards of Half a Million Sterling of new business per annum, or in all upwards of £8,000,000 sterling.

The Directors specially invite attention to the benefits in the contract of Life Assurance afforded by the Standard Company, amongst which may be specified:—

The system of declaring all Policies unchallengeable after five years' existence. The system by which Policies of a certain standing cannot be forfeited until two annual premiums remain unpaid, the value even then being reserved for those interested for a period of years in a lapsed Policy account.

"Free Policies," which are free from all restrictive conditions as to residence, in the case of professional and settled persons, who have no intention of going abroad.

OLDRIDGE'S BALM OF COLUMBIA.

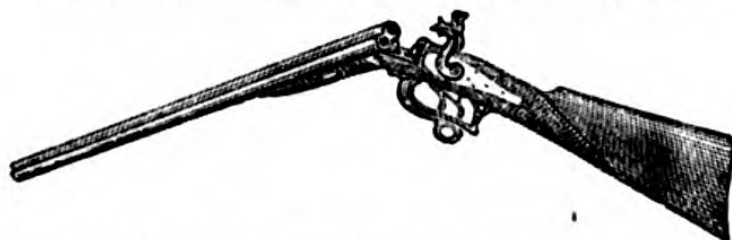

A COOL, REFRESHING, AND INVIGORATING BALM FOR THE HAIR.

Among the many preparations offered to the public for the possession of luxury and comfort, OLDRIDGE'S BALM of COLUMBIA stands pre-eminent. No toilette is complete without it, especially during the heat of summer. The increasing demand for this justly famed Balm proves how valuable it must be in replenishing, invigorating, and preserving the hair, either from falling off or turning grey, it having withstood all opposition and imitation for upwards of thirty years. The use of one bottle of the Balm of Columbia, price 3s. 6d., will prevent the hair from falling off in forty-eight hours after the first application; the middle-size bottle, price 6s., not only stops the hair from falling off, but likewise, in three weeks, causes a new growth to arise: and the largest at 11s., gives in general a good head of hair to every person. It also prevents the hair from turning grey, makes it look bright and glossy, and frees it from scurf. This Balm seldom fails to produce whiskers, moustache, or eye-brows, in eight weeks, though there were none on the face before, and has lately been found to excel every other article that has been sold as a curling fluid.

Sold by all Perfumers and Chemists. at 3s. 6d., 6s., and 11s. only, also wholesale and retail by the proprietors, C. and A. Oldridge, 22, Wellington-street, North, seven doors from the Strand, London.

SCHWEPPE'S

MALVERN SELTZER WATER.

In order to manufacture an Artificial Water, which shall be a successful imitation of the natural Spring, a perfect solution of the Chemical Ingredients is essential, and this can alone be effected by the aid of Pure Water. It was the knowledge of this important fact that induced J. SCHWEPPE & Co. to establish their new
Manufacture of

ARTIFICIAL SELTZER WATER AT MALVERN,

Where they have leased the Spring of the Holy Well, so renowned for its sweetness and purity. From the remarkable efficiency of this Water as a solvent of the CHLORIDES & CARBONATES which form the ingredients of the natural Spring, at Nassau, J. SCHWEPPE & Co. are enabled to produce a SELTZER WATER possessing all those CHEMICAL and MEDICINAL properties which have rendered the original Spring so celebrated. It is prepared as an Aërated Water, and may be recommended to the public generally, as at all times a most refreshing and delightful beverage.

CAUTION.—The success obtained by Struve's Mineral Waters, owing to their perfect identity with those of the natural springs, has induced several parties to attempt imitations, sold under the general designation of "*Brighton Seltzer*," "*Brighton Vichy*," &c., an analysis of some of which has shown an utter disregard to their true chemical composition. To distinguish Struve's Waters from all others, every bottle has a label and red ink stamp, each bearing Struve and Co.'s name, without which name none is genuine, even though contained in Struve's old bottles.

“COLES’S PATENT TRUSS is best.”

This invention is confidently offered to the public as the most effectual remedy that has yet been devised for Hernia. It consists of a regulating medium introduced between the spring and the point of resistance, securing the advantage of uniform pressure upon the part affected. This invention effectually remedies the defects existing in all others, and it has been pronounced, by the best authorities, as a valuable improvement in an instrument known to be most defective, and the general use of these trusses in all parts of the world, may be adduced in proof of the utility of the invention, and the estimation in which it is held by the public.

“They make a more uniform pressure on the ring than the ball and socket pad can effect.”

Sir A. COOPER, Bart., F.R.S., in his “Treatise on Hernia.”

“The varied positions of the body in stooping and coughing do not alter the position of the pads nor displace them.”

THOMAS CALLAWAY, Esq., Guy’s.

“It is my firm conviction that this truss will be found more efficacious than any at present employed.”

HENRY EARL, Esq., F.R.S.

“They are the best trusses that have ever yet been got up.”

The late ASHTON KEY, Esq., Guy’s.

“I consider these trusses calculated beyond every other truss that I have seen to cure this disease in its earliest and simplest form.”

Dr. GIDEON MANTELL, F.R.S., Chester-square.

From the late Dr. Thornton, the eminent Botanist:—

“Sir,—After six months wearing a Truss of your construction, I am perfectly cured of an inguinal hernia, which was in appearance the size of a watch, and which had existed six months. I am now happy to inform you that I have left off my truss a fortnight, and have not experienced any descent in the hernia. I therefore most heartily wish you that success which your ingenuity so amply deserves.

“No. 36, Howland-street, Fitzroy-square, June 22, 1830.”

“26, Camden-grove, Kensington, April 17, 1852.

“Sir,—I cannot sufficiently express my approval of the Truss you made for me, nor my admiration of your skilfulness in adapting to a most difficult case of *direct Inguinal Hernia*, an Instrument which effectually accomplishes the object intended, at the same time affording greater comfort, with less inconvenience than I have experienced with any truss for the last 20 years. It has effectually arrested the progress of my complaint, which was rapidly assuming the form of *Scrotal Hernia*. I am happy in bearing this testimony to your ingenuity and judgment, as well as patience and perseverance. Wishing you all the success you deserve, I remain, yours truly,

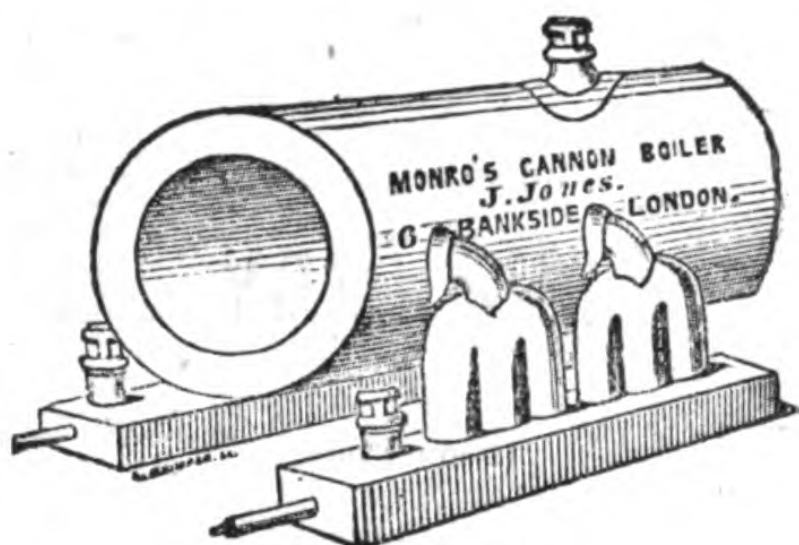

“T. W. WANSBROUGH, M.D., M.R.C.S., Eng.

“Mr. Coles.”

These trusses are prepared with the greatest care and regard to effect, and in the application of them the inventor has the advantage of many years’ experience in the treatment of this complaint. None are genuine which are not marked with the address, “3, Charing-cross,” as well as “Coles’s Patent.” A descriptive Letter, together with “Cobbett’s Legacy to Ruptured Persons,” may be had gratis.

J. ALDERMAN

Begs most respectfully to inform his Friends and the Medical Profession that, after many years' experience in the manufacture of all kinds of Chairs, Couches, Beds, and Carriages for Invalids, he has obtained HER MAJESTY'S LETTERS PATENT for his

Imperceptible, Graduating, Mechanical, and Elastic Adjustments,

Which he has invented for the comfort and convenience of Invalids.

J. ALDERMAN'S

PATENT PORTABLE EQUILIBRIUM CARRYING CHAIR,

For carrying Invalids up and down stairs, is one of the most perfect Chairs ever offered for the use of Invalids, inasmuch as an Invalid may be carried up and down stairs with perfect ease and safety, the Chair always adjusting itself imperceptibly, and enables the persons who carry to walk up and down stairs in the usual way, quite erect, with their arms straight down, so as to avoid any strain upon the muscles. This Chair has a shifting stand, mounted upon large easy castors, so that the Invalid can be run from room to room with the greatest ease; and being beautifully stuffed and covered, renders it, in addition to a carrying Chair, a most comfortable easy Chair; and the carrying handles being made to hook on and off in an instant, so that the invalid need not be removed from the Chair during the day. The arms of the Chair are also made to turn back on either side, or take off, so that the invalid may get on and off from either side. The Chair is also made to fold up, so as to go into a small box, for the convenience of travelling.

J. Alderman's Patent Graduating Elastic Couch

Is also rendered so simple and perfect as to enable the nurse or attendant to place an Invalid in any conceivable position, without being touched, neither can the Patient feel any pressure, that being avoided by J. A.'s Patent Elastic Adjusting Foundation and Elastic Mattress, so that a Patient cannot possibly become bed-sore by constant confinement. The Couch has also self-adjusting moveable arms, which are always at a proper height for rest, being made to adjust with the action of the back. These arms are also made to turn back on either side, or to take off, so that an Invalid who wishes to get on and off may do so without any inconvenience. These Couches may be had any size, so as to suit a child five years of age, or the heaviest adult patient. They are also fitted up suitable for the bedroom or drawing room. In all cases where perfect rest is required, these Couches will be found invaluable, such as spinal cases, hip complaints, paralysis, fractures. Ladies, who require complete rest before and after their confinement, will find this couch a great luxury.

J. A. also begs to say that every other article required for the use of Invalids may be obtained from him. Chairs of every description, both for in-door and out-door use.
