## F. Farmer's Patent Self-Regulating Screw Truss.

All persons anxious to be cured of Hernia are respectfully requested to try this instrument so confidently offered to the Public as the result of a careful study. It is a most complete remedy, not only for the support, but also the cure, suitable to all the various forms of the complaint, and calculated to ensure perfect security against further suffering or inconvenience. The construction is remarkably light, very strongly made, and so simple and exact that the wearer can turn the pad of the Truss in any direction, in fact, place it precisely over the part from which the rupture protrudes. By sending the circumference of the body one inch below the hip, stating whether left or right side, all applications will receive immediate attention. References can be given to the most eminent Surgeons, Public Institutions, and to persons following the most laborious and trying occupations.

## Umbilical Trusses on the same principle.

Special attention is invited to the following articles, manufactured on the premises, under the direct superintendence of the Proprietor, warranted of superior quality and workmanship, and at moderate prices: Elastic Abdominal Supporting Belts, for both sexes; those for ladies' use before and after accouchement, are admirably adapted for giving adequate support, with extreme lightness—a point little attended to in the comparatively clumsy contrivances and fabrics hitherto employed. Knee Caps and Stockings, Ankle Pieces to draw on or lace, Riding Belts, Spinal Supports, Invisible Crutches, Arm Slings, Splints, Crutches, Artificial Limbs, Leg Instruments, by which the deformed child may become straight, Roller Bandages, Air and Water Cushions, Beds, Pillows. Waterproof Hospital Sheetings, 2s. per yard, best quality.

**The** principle of this Society is the same as that of the London City Mission, its object being to extend the knowledge of the Gospel among the inhabitants of Brighton (especially the poor), without any reference to denominational distinctions or the peculiarities of Church government. To effect this object, Missionaries of approved character and qualifications, giving themselves entirely to the work, are employed and paid by the Institution. Their duty is to visit from house to house within their respective districts, read the Scriptures, engage in religious conversation, pay particular attention to the sick and afflicted, and urge those who are living in the neglect of

religion to observe the Lord's Day and to attend public worship. They make it their business to see that all persons possess the Scriptures, to distribute approved religious tracts, aid in obtaining Scriptural education for the children of the poor, hold meetings for reading and expounding the Scriptures, and prayer, and adopt such other means as the Committee may think necessary for the accomplishment of the object of the Mission, and is supported by voluntary contributions.

#### **IMPORTANT TO STUDENTS.**

Senior Candidates at the Oxford Local Examination, who intend proceeding to the University, and 'who show sufficient merit in

translation from Latin and Greek Authors, in Grammar, in Latin prose composition, and in mathematics, to be excused from Responsions, may receive a certificate from the delegates to that effect.'

A Senior passing in English and Latin (with either Greek, French, German, or Italian) and mathematics, is allowed to become a candidate for the degree of Bachelor of Music. The same privilege is granted, without limit of age, to any person studying for this degree, but he will not be reckoned a Local Examination candidate.

Senior students who have been placed in the First Division in the General List of the Oxford or Cambridge Local Examination are now admitted into Keble College without a Matriculation Examination.

Senior candidates at the Cambridge Local Examination (also candidates at the Higher Local), who intend proceeding to the University, will be excused the 'Previous Examination' for Undergraduates in their first year, if they attain 'a standard intermediate between the ordinary pass standard and that of distinction,' in Religious Knowledge, Classics, and Mathematics.

A Senior passing the Cambridge Examination in Preliminary, in English, and either in Latin, in Greek, in French, or in German, and in Euclid and Algebra, is enabled to become a Candidate for the degree of Bachelor of Music.

Senior Candidates who have passed the Oxford or Cambridge Local Examination are excused the Preliminary Examination for Barristers.

Every person proposing to enter articles of clerkship as Attorney or Solicitor *must* pass a special preliminary examination in Arithmetic, Geography, History, English, and elementary Latin; and is required also to offer himself for examination either in Latin, Greek, French, German, Spanish, or Italian; but if he has passed the Oxford or Cambridge Local Examination as a Senior or Junior in Latin and Mathematics, and *one* of the following:—Greek, French, German, Natural Philosophy (including the Elements of Statics and Hydrostatics), these special examinations are dispensed with.

Council of the Royal College of Surgeons, and the 'Examination of Arts' required by the Society of Apothecaries, provided they have passed in Latin and Mathematics, and *also* in either Greek, or French, or German.
