CHARING CROSS HOSPITAL,
KING WILLIAM STREET.

Patrons,
THE ROYAL FAMILY.

The GOVERNORS of this Hospital beg to solicit the assistance of the benevolent in its behalf, and to state that the Plan and Objects of the Charity comprise the two-fold intention of a DISPENSARY for the relief of the Sick Poor at their own homes, and of an HOSPITAL for the reception of the more helpless and destitute; to afford immediate assistance in cases of accident, and gratuitous attendance and medicines to all needy afflicted persons, soldiers, sailors, and distressed foreigners, (who, far from their native homes, and the solace of their friends, and possessing no parochial aid, have powerful claims to commiseration ;) to supply, under certain regulations, Trusses to those who require them, and suitable Instruments to cases of Lameness and Deformity ; to provide the attendance of experienced Midwives, and the use of Child-bed Linen to poor Lying-in Women at their own abodes.

Since the first establisment of this Institution, it has afforded relief to upwards of 50,000 poor sick and suffering objects, the greater portion of whom have been restored to the blessings of health, and to their occupations for the support of their families.

The COMMITTEE in requesting the assistance of the affluent, either by benefaction or annual subscription, deem it proper to observe that the population of the metropolis and environs has been more than DOUBLED since the last hospital was established, and that an increase of these institutions is much required for the increased number of applicants for relief.

*** Forty guineas donation constitutes a Life Governor; Twenty Guineas donation, together with a yearly subscription of Four Guineas, constitute an annual Governor ; and One Hundred Guineas constitute a Life Benefactor.

*** Life donations or annual subscriptions are received by the Treasurer, G.H. Bowers, B.D. 7, Henrietta st. Covent Garden, Messrs. Drummonds, Messrs, Coutts, Messrs. Hoare, Messrs. Herries, Messrs. Biddulph, Messrs. Call, Messrs. Hammersley, and the neighbouring bankers ; by the Committee, and by J. Robertson, Esq., Secretary, at the Hospital, King William Street, where plans and lists of the Governors may be readily obtained.

The Hospital and its various departments are at all times open to inspection.

ALBION
INSURANCE COMPANY,
NEW BRIDGE STREET, BLACKFRIARS,
INSTITUTED IN 1805.

Capital—One Million.

DIRECTORS.

Matthew Harrison, Esq., Chairman.

John Hampden Gledstanes, Esq., Deputy-Chairman.

T. Starling Benson, Esq.	John Hicks, Esq.
Fred. Burmester, Esq.	Ambrose Humphrys, Esq.
J. Calvert Clarke, Esq.	Charles Russell, Esq.
F. Dawes Danvers, Esq.	Kennard Smith, Esq.
S. H. T. Hecker, Esq.	D. R. Warington, Esq.

Insurances are undertaken by the Albion Company at reduced Rates. The annual Payment charged at the age of 25, for an insurance of £1,000, by Companies holding out the prospect of a bonus derivable from Profits, would insure £1,200 with the Albion Company, free from the risk of partnership, and payable whenever the death might happen.

For securing prospective bonuses from the "Equitable," or other Companies, and in all cases requiring insurance for limited periods only, the Rates of the Albion Company will be found to be peculiarly advantageous.

Persons whose Lives are insured with the Albion Company, not being engaged in any Military, Naval, or Maritime Service, may, during Peace, proceed to, and reside in, any part of Europe, without extra charge, and without licence from the Company.

Policies granted by the Albion Company to Persons on their own Lives, and legally assigned to other Persons for valuable considerations, will not, so far as the *bona fide* interest of the Assignees may extend, be invalidated, if the Persons whose Lives are insured should die by suicide, by duelling, or by the hands of justice.

Claims are paid in 30 days after sufficient proof of death.

EDWIN CHARLTON, Secretary.

Messrs. PRESCOTT, GROTE, AMES, & CO., Bankers, Threadneedle-street, have been appointed the Agents of the Company.

The Company receives Deposits, irredeemable for a term of years, and bearing an interest of Five per Cent. per annum, payable half-yearly, at the Agency Office in London, where the Principal also, when due, will be paid. The Amicable Society is the oldest Institution in existence for granting Assurances on Lives. The principle on which it was originally formed, and has always been conducted, is that of Mutual Assurance, without Individual Liability. Its legal privileges as a Body Corporate exclude all individual responsibility or risk. There is no distinct Proprietary Body; every person on whose Life an assurance is effected for one or more Shares becomes a Member of the Corporation, and participates in the whole of the Profits of the Society.

A Bonus of £50 a Share, or 25 per Cent. on the Sum assured, is guaranteed by the Charter to every claim that arises by the death of a Member during the five years commencing with the 5th of April, 1836.

Parties may arrange to pay their Premiums either by a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

Persons assured with this Society may travel to or from, or reside in, any part of Europe, without paying any additional Premium.

Assurances for Terms of Years, or on Joint Lives or Survivorships, may be effected with the Society, either for Specified Sums without participation in the Annual Profits, or for Shares with participation, at the option of the Parties.

FOREIGN AND DOMESTIC LIFE OFFICE.

TO THE HOLDERS OF EQUITABLE POLICIES,

Comprehended in the favoured Five Thousand.

In the year 1829, I called attention to the necessity of your securing the advantages presented by your peculiar situation.—Numbers availed themselves of the suggestion, and had good reason to be satisfied with the result. The frightful epidemic of 1837 has induced many to look with anxiety to the realization of the prospective bonus of 1840. I shall be happy to give personal attention and explanations to any of the present Holders who may favour me with a call, or to transmit written elucidations by post to those who may furnish me with the date and amount of Policy and the age of the life assured.

This Company was established at Edinburgh in 1823, and has since been constituted by Act of Parliament.

The peculiar Advantages offered by the Company arise from the combination of the benefits of mutual assurance with the security of a subscribed capital, guaranteed by a large and influential body of proprietors, who must themselves assure with the Company.

1. ON THEIR PROPRIETARY SYSTEM.

Those who wish to assure a precise sum at the lowest rate (such as for securing loans or other money provisions) may do so at reduced and very moderate rates, without participating in the profits.

2. ON THEIR MUTUAL ASSURANCE PLAN.

The assured have the privilege of participating septennially to the extent of four-fifths in the whole profits of the Company, while at the same time they enjoy the most ample security without the liability of partnership or mutual guarantee.

It forms a distinguishing feature in the constitution of the Company, that assurers on the participation plan share in the profits arising from the non-participation plan, as well as in all the other profits of the Company's business.

At the first investigation (August, 1835) a Bonus was declared, varying from 20 to 38 per cent. on the premiums paid.

The assured may pass and repass in time of peace from any part of Europe to another, without payment of extra premium.

No extra or other charge beyond the policy stamp.

The premiums are on the most moderate scale, consistent with security, as may be seen from the annexed specimen.

Assurances may also be effected on an ascending or descending scale, or on joint lives or survivorships, or in any other way that parties may require.

Prospectuses with every information may be had at the Office, 81, Lombard Street.

The object of this Society is to enable parties to provide for their families at less expense than by ordinary Life Assurance, and without requiring the previous death of the parent.

By the payment of an annual premium for a limited number of years, parents may provide for all their future children (or for boys only, or girls only), any sum from £25 to £2,000, receivable on attaining any age from Fourteen upwards. As the Society takes upon itself the risk of there being few or many children, the Premium is not affected by the number.

Tables are prepared for every age from 14 to 21, inclusive; and the whole have been constructed from calculations which have been examined and approved by an eminent Mathematician.

Example.—A person aged 31, whose wife is 25 years old, by paying £122. 18*s.*, or by an annual premium of £10 for 22 years only (but to cease if the Husband should not live so long), or by an annual Premium of £8. 3*s.* 7*d.* for 22 years *certain*, may secure to each of his future children £100 on its attaining the age of 21, and in like proportion for any other sum.

By paying a higher rate of Premium, the Society will engage to return the Premiums they may have received, should no Child be born, or live to the given age.

Four-fifths of the profits will be divided among those who endow their future Children.

The Society also endow existing Children on a returnable or non-returnable scale.

FAMILY ENDOWMENT SOCIETY—continued.

LIFE ASSURANCE BRANCH.

Includes Assurances for the whole term of Life, for short Terms, for joint Lives, for Survivorships, and also on an ascending or descending Scale.

Two sets of Tables have been constructed, admitting the Parties to participate in the profits (*four-fifths*) or not, at their option.

Assurers with this Company are allowed to participate in the profits without incurring any of the liabilities attaching to societies founded upon the principle of Mutual Insurance. The distinguishing characteristics of the Establishment, and the advantages it offers, are enumerated below.

1st. A bonus of two-thirds of the Profits of Life Assurance will be divided septennially for the whole period of life, in proportion to the amount of their policy, and the term of its existence.

2nd. The bonus is either added to the policy, to be paid when it has become a claim, or it will be applied to the reduction of future premiums.

3rd. Persons assuring who are desirous of paying the annual premiums on their policy for a limited number of years only, rather than during the whole continuance of life, may be so accommodated, the Directors having caused tables to be made for the purpose.

4th. Persons whose lives are assured by this Company are permitted to pass by sea from one part of the United Kingdom to another, in decked vessels or steam-boats; and are also allowed, during peace, to pass from a British to any Foreign port between the Texel and Brest, both inclusive, in vessels as before described, without any additional charge.

5th. A guarantee capital of One Million sterling having been subscribed, Assurers with this Company enjoy a participation in profit without liability of loss.

6th. Disputed Claims may be referred to arbitration.

7th. No Entrance Money, Admission Fee, or other Official Charge exacted.

Persons who now effect Insurances with this Company for the whole Term of Life, will participate in the Profits, after having paid FIVE ANNUAL PREMIUMS, without incurring the responsibility attached to Societies for mutual Insurance.

The BONUS of £1. 10s. per Cent. per Annum, declared on Policies in the year 1831, was added to the sums insured, and the present value of such Bonus may either be received by the parties, or applied in reduction of their future Premiums.

The BONUS on Policies now in force, including the Prospective Addition recently declared, amounts in many cases to more than TWENTY PER CENT. ON THE SUMS INSURED, and will increase Annually, until the next general appropriation of Profits in the year 1841.

Every description of Insurance may be effected with this Company at REDUCED PREMIUMS, when persons do not participate in Profits.

When persons wish to discontinue their Insurances from any cause, the Company will purchase their Policies upon equitable terms.

Prospectuses containing Tables of Premiums, and examples of the different modes in which the Profits can be applied, may be had at either of the Company's Offices, or of any of the Agents in the principal towns throughout the kingdom.

FOUR-FIFTHS of the Profits made by this Society will be appropriated to the persons assured for the whole term of Life.

On the 31st day of December, 1840, and at the end of every Seven Years from that period, the profits divisible amongst the Assured will be apportioned amongst such of the Assured for the whole term of life as shall have been so assured for the space of three years or upwards, previously to those periods respectively, subject only to the reservation of such a sum of money as the Directors shall deem necessary to be carried forward to the period of the next septennial division.

for the benefit of the Assured. For the amounts which shall be so apportioned, equivalent reversionary sums will be added to the Policies respectively of those entitled.

The subjoined is a SPECIMEN TABLE of Bonuses in even pounds, added to Policies of £1000 each, which had been in force during the first ten years of the existence of the Society, and declared up to 31st Dec. 1833, compared with the amounts of Premiums that had been received and improved at interest.

Note.—Due allowance must be made for extreme and intermediate ages, and the difference of years during which the Assurances have been in force; but the general distribution has been made on the principle and according to the scale above given.

If any person should wish to discontinue the payment of his annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new Policy, without any further annual Premium, for a sum to be agreed upon, payable at the decease of the Life assured. And the person to whom such new Policy is granted will be entitled, in respect thereof, to participate in the periodical divisions of the Profits.

Persons who shall have been assured for the space of two years, in £1000, or upwards, for the whole continuance of Life, have the power of electing, either from among the Proprietors, or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their Premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

No entrance money is required, nor any extra Premium on persons in the Army or Navy, unless in actual service.

Assurances may be effected upon the Lives of Persons residing at a distance from London, by their appearing before a Solicitor in the Country; and the payment of fine for non-appearance at this Office is then dispensed with.

The Assured are allowed to pass by Sea from one part of the United Kingdom to another, and to and from the Islands of Guernsey, Jersey, Alderney, Sark, and Man; and also, in time of peace, in King's ships, and packet or passage vessels, to and from British and Foreign ports in the English Channel, between the Texel and Brest, both inclusive, without any special leave or licence from the Directors.

The sums due on the Policies will be paid within three months after proof of the requisite facts.

Assurances may be effected through any respectable Attorney or Solicitor in England, of whom Prospectuses may be had. A party may himself effect an insurance by writing to the Actuary, or attending personally at the Society's Office in Lincoln's Inn Fields.

The Assured are requested to take notice, that no renewal premiums are ever received by themselves or their Agents, without printed receipts, signed by two Directors and the Actuary, being issued from this Office.

Attendance is given daily, from Nine o'clock in the morning till Four in the afternoon, at the Office, where the Terms of Assurance may be had, Proposals for effecting Assurances received, and every information respecting the Society obtained.

The progress of the Society having been uniformly successful, its present state is such as to invite the most minute inquiry; to encourage the most flattering anticipations of its founders; and to justify the Directors in pressing the Society on the notice of the Public.

THE ADVANTAGES ARE:—

No Proprietary or borrowed Capital, but a Fund, accumulated from the Premiums received, sufficiently ample to guarantee the due payment of all claims, without calling upon any individual Insurer.—No paid Agents, thereby ensuring a full share of the *entire* profits (ascertained annually), and which is added to every Policy as it becomes a claim.

The Board of Directors meet every Wednesday at the Society's Office, where attendance is given daily from Ten till Four, for the general transaction of business, and where every information respecting the Society may be obtained.

The Capital of this Society is £500,000, in 50,000 Shares of £10 each, deposit £2 5*s.* per Share, Interest payable on deposit half-yearly, January and July, after the rate of 5 per cent. per annum. Applications for Shares before closing the lists, are received at the Office of the Society, 69, Cornhill, London; by the Bankers or Solicitors; or any of the Agents at the Branches.

Under the following five heads, viz., OBJECTS—USES—LOAN FUND—BONUS—and SPECIALTY—are briefly enumerated the leading principles of this Society: it will be found the utmost care has been taken to give efficiency to them, holding one great object in view, viz., to divest the great bulk of Society—*those possessed of no certain Income*—of the repugnance they have hitherto had to enter upon Life Assurance as a provision for a family, by converting it also into a means of personal independence and support, and to *expound* to that great class—who, for want of better, have hitherto availed themselves of those useful Institutions, the Savings' Banks—that, combined with a Life Assurance, the advantage of a Savings' Bank and of a Benefit Society is secured to them from the same source—viz., their earnings—by the Plan of this Society.

In considering the principles of this Society under the important heads of USES and LOAN FUND, it will be found in no case will the Assured become a loser: in the event of death, he has secured an independence to his family,—in the event of misfortune, his previous prudence has forestalled its worst effects—and should he require the use of *Capital*, he finds a fund at his command—and even is protected against his negligence, as, in the event of discontinuing his

payments, his representatives will, nevertheless, receive, after five payments, at his death *two-thirds* of what he has expended.

To the Widow and younger Children, when a Policy becomes a claim in their favour, a special additional bonus is given, because to them death is most frequent y the greatest misfortune: and to this class a stimulus is properly afforded, through the affections, in aid of a general spirit of prudence.

1. Objects of the Society—

First.—A Life Assurance may be effected either by one payment, or by an Annual Premium, which may be paid monthly if more convenient.

Secondly.—A Life Assurance may be secured by a limited number of payments on a gradually decreasing (or increasing) scale; or by Rates of Premium, varying each five or ten years, and terminable or not at the option of the Assured.

Thirdly.—A Life Assurance may be effected on the Life of another, on Joint Lives or Survivorships.

4thly.—Annuities immediate, deferred, or contingent, will be granted; also endowments for Children.

Fifthly.—Naval and Military Men not in active foreign service Assured without extra charge, and allowed to go abroad without forfeiture of Policy, on payment of an extra Premium according to Climate; Assurances also effected on the Lives of Residents in the East and West Indies, and all Foreign Climates.

Sixthly.—The Society will receive Money in one or more Payments for accumulation, adding the Interest at the rate of 3 per cent. per annum to the principal, and capable of being withdrawn on ten days' notice being given.

2. Uses—

The Assured will have the option of converting his Policy, at any time, into the following uses, viz.—

1*st.*-Into an immediate payment of its present value.

2*dly.*-Into a new Policy, to be received at his death, equal in value to his payment on his original Policy.

Thirdly.—Into an Annuity equivalent in value to his payment on his original Policy.

Fourthly.—Into a security on which he may borrow equal to two-thirds of his payment,

Fifthly.—In the event of negligence or inability to continue the annual premium, by which his Policy would become forfeited, his representatives will nevertheless receive at his death *two-thirds* of his payments after five years from the Society.

3. Loan Fund—

First.—The Assured may at any time act upon this Fund as a *Cash Credit*, upon notice to the Office or Agent at each Branch of the Society.

Secondly.—The sum borrowed may be for a permanent or temporary period; but irregularity in the payment of Interest subjects the Loan to be recalled.

4. Bonus—

First.—Two-thirds of the Profits, estimated annually after the first three or five years, will be divided

amongst those Assured for Life, on a participating scale of the Society, and the Profits of the Guarantee Fund, invested in Reversionary and other Interests, will be estimated in each division.

2dly.- Each Bonus, at the option of the Assured, will be paid in money, or applied to the reduction of the future premiums, or an equivalent added to the Policy.

Thirdly.—Each Branch will be entitled to a separate Bonus, founded upon a calculation of its success.

5. Specialty—

When a claim on the Society becomes vested in the Widow or younger Children of the Assured, a special Bonus will be added to the Policy on its payment.

The attention of the Directors is unremittingly given to the diffusion of the principles of this Society throughout each district of the United Kingdom, upon a new plan of local advantage to the Assured; several Branches are being established, and others are under consideration. Influential individuals desirous of instituting a Branch of this Society, or forming themselves into a Committee for that object, by addressing a letter to T. LAMIE MURRAY, Esq., at the Office of the Society, will meet immediate attention, or, if the prospects held out are sufficient, will receive a visit for that purpose.

Assurances may be effected at the Rates of Premium as below :—limits to travelling, the whole of Europe by land, and between the Elbe and Tagus by sea.—Policy not rendered void if the Assured die by duelling or the hands of Justice.—Commission of 5 per cent. on annual Premiums allowed to Solicitors and others recommending business to the Society.

Among the numerous advantages of this Company are:—

I. Participation septennially in *two-thirds* of the Profits of the Corporation to holders of Policies for the period of life.

II. Premiums nearly *five per cent. lower* than those generally required by Offices acting upon the system of participation.

III. Option of the Assured of allowing the profits to go either *in diminution* of the premium or *in addition* to the sum insured.

IV. For the convenience of persons not wishing to participate, *a reduced scale of Premiums, calculated* at the *lowest possible* rate that risks can be taken with security.

V. The greatest facility afforded to persons of limited means, to those of stated incomes, in the Church, Public Offices, &c., by receiving the Premiums *Quarterly, Half-Yearly, Annually*, or *in a Single payment*, as agreed upon at the time of effecting the Insurance. These, with numerous other advantages, are more fully detailed in the *table of rates*, which can be had on application at the Office of the Company from Ten till Four.

VI. *Persons resident in the country* can effect Insurances by corresponding with the Resident Members of the Board—Messrs. B. & M. Boyd.

EXAMPLE—A person, aged 30, may, by an Annual Payment of £2. 6*s*. 6*d*. (*being a little more than 10d. a week*) secure to his Wife and Family £100 whenever his death may occur; thus showing that, on the same principle, persons possessed of very moderate incomes may insure something; and those in the receipt of large present emoluments, may insure a considerable Property to their Widows and Children

The Capital of this Society is invested partly in the Public Funds, and partly on approved real security, every investment being made in trust for the Society, and the whole Capital being under the sole control of the Board of Directors.

This Society is founded on the equitable principle of mutual guarantee; its premiums (under 45 years of age) are nearly *Ten per Cent. below the usual rates;* and the whole of the surplus premium is added at stated periods to the Policies of the Members, in proportion to the sums they have respectively contributed.

By this plan, the Norwich Union Office affords a *certain and immediate advantage* in the reduction of the rates, besides the future benefits arising from the divisions of the surplus Capital.

The Members of the Society are those who insure for the whole of Life, and are exclusively entitled to the division of the surplus Capital.

Bonuses were declared at General Meetings held in the years 1816, 1823, and 1830, by which considerable additions have been made to the sums insured.

The objects of this Society are, to purchase Reversions, Life Interests, and Property in any way depending upon Life.

Similar Institutions have been in operation for some years, and have by their success proved the advantage of such undertakings; while the valuable information which has been lately collected upon this as well as all subjects relating to Life Interests, may be considered as having reduced to a certainty, that a Reversionary Interest Society, well conducted, must be successful.

The Society has peculiar recommendations to parties desirous of increasing their income, without incurring the risk usually consequent upon additional profits. Joint Stock Companies in general sink capital and incur debts, which involve the private property of the shareholders; but the principle of this Society, is never to part with one species of capital but for another of greater value, and never to incur debt. It in consequence becomes a safe channel of investment for Widows and Minors, as well as a secure provision for old age, and may be considered a sort of Savings' Bank for persons desirous of increasing their income without decreasing the principal money.

A large number of shares has been subscribed for, and many advantageous purchases have been already made. The present, however, is a highly favourable period for such investments; and the Directors are desirous of availing themselves of the opportunity of completing the undertaking, which has hitherto been almost private.

Applications for the remaining shares, and proposals for the sale of Reversionary Property, Life Interests, &c., may be addressed to R. J. Bunyon, Esq., at the Office No. 6, Crescent, New Bridge Street.

LIFE INSURANCES.—The recent extraordinary uprise of projects of this kind, must naturally induce all considerate Persons to inquire into, and reflect on the security and benefits to be expected from them; particularly as before the successive reductions of premiums, which have lately taken place, and while money improved at a high rate of interest, upwards of Thirty Life Insurance Offices broke up, some of them in total insolvency; and the expedients to which other of the minor Offices have resorted to avoid payment of heavy claims, render them no less disastrous to persons who have inconsiderately put their trust in them. Still Life Insurance continues a favourite subject with the projectors of Joint Stock Companies, because for the first few years deaths seldom happen, and all received appears on the side of profit. On this account also the New Fire Offices undertake Life Insurance to improve the aspect of their accounts, although for many reasons Life Insurance and Fire Insurance ought to be kept entirely separate concerns. Considering these things, and additionally that when a man Insures his Life he enters into a contract for life, and if he see reason cannot withdraw from it, and open a new Insurance in another Office, but under the material disadvantage of paying for an advanced age, he will pause before he resorts to untried adventures while Offices of approved stability and conduct are open to insure him.

THE PROVIDENT LIFE OFFICE will be found upon examination to have long realized every benefit and convenience to the public which is promised in the new projects. For the main purpose, provision for surviving objects of affection, the advantages of the Provident Office are second to none. All the profits, except about 5 per Cent. thereon allotted to the Original Members for their guarantee Capital of a quarter of a Million sterling, and their exoneration

of the insured from all responsibility, are septennially divided among all insured for Life, in proportion to their contributions, and *added to their policies*; or in their option applied to the *reduction of their future premiums*. These additions have amounted to 40 per Cent. on the premiums received, and in the whole to £313,662. Their effect may be judged of from a policy taken out by his late Majesty on his own life for £3,000, which additions increased to £3,963.

But if a man fall into the necessity of requiring that relief for himself, which he intended for a surviving family, or his object cease, or his means of continuing his payments fail, after he have made seven payments, the Provident will give him the value of his Policy, which if he sees fit he may apply to the purchase of an annuity for the remainder of his life; or he may obtain a loan from the Office on the security of such policy. Another benefit of very great practical importance is peculiar to the Provident Office. From various causes the exact time for paying renewals is frequently passed over, and some of the Offices avail themselves of the lapse of only a few days to refuse to renew, and to seize on all they have been receiving for years as a clear gain. In the Provident, *a whole year* is allowed for the revival of a policy, neglected to be renewed when due.

As some recent Offices have adopted the name Provident, it will be necessary to observe, that the *Provident Life Office*, founded in 1806 conjointly with the *Original Provident Institution* or *Bank for Savings*, is in Regent Street, Piccadilly, in the same Building with the COUNTY FIRE OFFICE.

ADDRESS.

The objects of this Society are to extend Life Assurance to Tropical Climates, on conditions infinitely more favourable than have hitherto been considered practicable—to enable Officers to change from one degree of Tropical risk to another, and from ordinary to Tropical, without subjecting themselves to the forfeiture of their Policies.

The Rates of Premium demanded for Tropical Assurances at this Office have been calculated with the greatest care from a most extensive series of facts collected for, and in the possession only of this Society.

The Tables of Premiums, therefore, for the Tropics, are based upon as solid a foundation as those for Home, enabling an Officer or other Person, who has insured at this Office, and who is liable at any moment to go into the Tropics, to continue his Assurance without the fear of having an arbitrary, and at the same time a ruinous advance of Premium imposed upon him.

In the Home Tables, the Rates of Premium for Females are calculated much lower than those for Males.

Four-fifths of the Profits will be divided, every Seven Years, among the Assured, who pay Premiums for participation, and who shall have been Assured at this Office for Three Years.

Board Days every Thursday, from One to Two o'Clock; but Proposals may be made, and Assurances effected, every day in the week, from Ten o'clock until Five, at the Office of the Society, 13, Waterloo Place, on application to the Secretary, by whom every information and assistance will be afforded to Persons wishing to Assure.

Agents will be established in every Town of importance in Great Britain and Ireland, as well as in the Colonies.

The Attendance at the Office of Ladies proposing to Assure, will be dispensed with.

Assurances effected upon the Lives of Persons in every Part of the World, and every Station in Life.

An ANNUAL DIVISION distributes the Profits with more regularity and justice than any other, and is particularly advantageous to persons of advanced years, who cannot expect to participate in many septennial or decennial divisions.

All Policies becoming claims, will be discharged within three months after proof of death.

The Society will purchase any policy on which not fewer than five annual payments have been made; and, if required, two-thirds of its calculated value will be advanced upon a Policy by way of loan.

Tables of Rates, which are very moderate, being calculated from the most recent and accurate observations of the duration of human life, may be obtained at the Office as above, with every other information respecting the Society.

This Company, from its various plans of accommodation, affords a greater facility to parties wishing to ensure than any establishment of the kind in London.

1. It allows the premiums to be paid quarterly, half-yearly, or annually, as may best suit the convenience of the assured.

2. It allows, when the insurance is for Life, half of the annual premium to remain unpaid for five years at interest, to be deducted eventually from the Policy, or paid off at convenience.

3. It adopts the principle of an ascending and descending scale of premiums, which is equally applicable to the opulent and those of limited income; and, from the moderate and judicious rate of its premiums, particularly on the younger ages, and for short periods, is well deserving the attention and patronage of the public.

4. Policies are granted on very moderate terms, payable on the death of two or three parties (as the case may be), so as to render leasehold property held upon lives nearly equal in value to lands held in perpetuity.

A full Prospectus and Tables of the Rates of Assurance, with every information, may be had at the Office, where attendance is given daily, from 10 till 4 o'clock, except on Saturdays, when the Office is closed at 3 o'clock.

Recent experiments have fully proved its utility, in giving a stimulus to weak or diseased hair, augmenting its growth, and effectually preventing any tendency to fall off, whether arising from a paucity of root, or a morbid state of the cuticle.

FOR TENDER FEET.

Leather Cloth Shoes,

AND

India Rubber Goloshes.

These two desirable articles for the feet will be found, in their present improved state, infinitely superior to anything of the kind ever offered. The PANNUS-CORIUM, or LEATHER CLOTH SHOE, combines, with the appearance of Leather, the greatest softness, ease, and elegance; is light, elastic, and durable, and will never draw the feet. The Patent India Rubber Golosh resembles the finest morocco, is lined with the softest materials, viz., velvet, kerseymere, or kid, and whilst thoroughly waterproof, is so light, that when worn over the Cloth Shoe no sensible addition is felt to the weight, both articles being as light as an ordinary leather shoe. The Patentees feel pleasure in stating, that they are enabled to offer both articles at about the same price that most houses are at present selling the latter alone.

"To all our readers who desire ease and comfort in walking, we most strongly recommend a trial of Messrs. Hall and Co.'s Pannus-Corium. Speaking from experience, we can say they are much softer and more elastic than any leather we have ever worn, and peculiarly adapted for the present season." —*Belle Assemblée.*

"HALL & Co.'s GOLOSHES
are indispensable for winter wear, to those who value the healthfulness of dry feet, and the comfort of genial warmth."—*Railway Gazette.*

Latillaian Fresco Painting,

FOR EXTERNAL AND INTERNAL DECORATION.

A discovery has recently been made by MR. EUGENIO LATILLA, of a composition producing the beautiful effects of the ancient Fresco, but possessing the advantage of being applicable to Wood, Paper, and Canvass, as well as Stucco: it admits of saponaceous washing, and exposure to the atmosphere, and is thus perfectly suited to the climate of Great Britain.

TROUSERS ON A NEW PRINCIPLE.

G. WALKER,

33, ST. JAMES'S STREET,

Has discovered an entirely new principle of cutting Trousers, and offers to furnish the Nobility, Gentry, and the Public, for Ready Money, with this important article of dress, admirably adapted to the display of the figure, and at the same time affording such comfort in all exercises as to ensure the highest satisfaction to those who honour him with orders. If Art can give ornament to Nature—if anything can surpass her in the contour of a limb—it is when cloth is made elegantly to fit the same; then it may fairly be admitted that Art has added a charm to Nature.

G. W. begs to add, that he continues to supply Uniforms for Officers of the Army and Navy, also Deputy-Lieutenants' and Court Dresses, in the most tasteful style, and at moderate charges.

PEARS'S
TRANSPARENT SOAP.

Personal beauty depends so much on the appearance and texture of the skin, that whatever contributes to protect it from injury, or to improve it, must be considered an object of importance to all who are solicitous to possess the advantage which Lord Chesterfield denominates, "A letter of recommendation on all occasions;" and certainly the present and future ages must feel themselves indebted to the Inventor of the curious chymical process by which Soap is separated from all impure and noxious substances with which, in its crude state, it is invariably united; this refinement is manifested by its transparency and fragrance.

Prepared and sold by A. Pears, at his Manufactory, No. 55, Wells-street, Oxford-street, London, price 1s. and 1s. 6d. per square; and in large squares, which are perfumed with the Otto of Roses, 2s. 6d.—Also, Gentlemen's Shaving Cakes, at 1s., 1s. 6d., and 2s. 6d. But observe, that wheresoever or by whomsoever sold, it never can be genuine without the Inventor's signature, "A Pears," in his own hand-writing.

PEARS'S LIQUID BLOOM of ROSES, to remove the injuries sustained by the injudicious use of deleterious compositions, and to seat beauty on its native throne—the countenance. A. Pears has produced this invaluable extract from the flower whose name it bears, which is invariably admitted to be the best means of effecting this grand and laudable purpose. 3s. 6d. per Bottle.

PEARS'S WHITE IMPERIAL POWDER.—This simple but effective cosmetic gives a softness to the texture of the skin unparalleled in the annals of art, and consequently enhances the value of the rich donation of nature. Price 2s. 6d. and 5s. per Box.

A REAL BLESSING TO MOTHERS.

MRS. JOHNSON'S AMERICAN SOOTHING SYRUP for Children cutting their Teeth.—This infallible Remedy has preserved hundreds of Children, when thought past recovery from Convulsions arising from painful Dentition. As soon as the Syrup is rubbed on the Gums, the Child will be relieved, the Gums cooled, and the Inflammation reduced. It is as innocent as efficacious, tending to produce the Teeth with ease, and so pleasant, that no Child will refuse to let its Gums be rubbed with it. When Infants are at the age of four months, the Syrup should be rubbed on the Gums; and Parents should never be without the Syrup in the Nursery where there are young Children; for if a Child wakes in the night with pains in the Gums, the Syrup immediately gives ease, thereby preventing Convulsions, Fevers, &c.—The great success of this Medicine during the last 25 years, has induced unprincipled persons to imitate it under the Name of American Soothing Syrup, and copying parts of Mrs. Johnson's bills, &c. Parents will, therefore, be very particular to ask for JOHNSON'S AMERICAN SOOTHING SYRUP, and to notice that the names of BARCLAY and SONS, 95, Farringdon Street, London (to whom Mrs Johnson has sold the recipe), is on the Stamp affixed to each Bottle.

DR. GREEN'S

Practical Compendium of the Diseases of the Skin.

SECOND EDITION, with two illustrative Plates, price 12*s*.

By permission, dedicated to Sir HENRY HALFORD Bart., &c. &c.

WHITTAKER and Co., Ave-Maria Lane, Publishers; and to be had of all Booksellers.

Including a particular consideration of the more frequent and intractable forms of these affections. Illustrated by numerous Cases. By Jonathan Green, M.D., Member of the Royal College of Surgeons, London, Fellow of the Royal Medico-Chirurgical Society, and formerly Surgeon in the Royal Navy.

*** The Second Edition being called for within the year, tends to prove the utility of the Work, and that it has been the author's aim in this Compendium to condense within the smallest possible space, not merely the results of his own experience, but the whole amount of practical information extant upon this highly important class of diseases. His most particular attention is constantly given to the characters by which they may be distinguished one from another, and to the most approved and available means of treatment recommended for their cure.

"It is almost superfluous to say, that every professional reader who wishes to become successful in the management of cutaneous diseases, will find it his interest to study thoroughly the method of treatment recommended by Doctor Green."—EDINBURGH MEDICAL AND SURGICAL JOURNAL.

"The Practical Compendium of Dr. Green forms a popular and very useful introductory work to the larger one of Rayer. His observations on Impetigo and Porrigo are certainly the most judicious we have ever read: they are derived from sound pathological views. To the student of medicine we do not hesitate to recommend the Compendium of Dr. Green in preference to Bateman's Synopsis (no mean praise), as more simple in its descriptions, and more practically useful in its therapeutic instructions; it is unnecessary to say more of this book."—MEDICO-CHIRURGICAL REVIEW.

"Dr. Green's book will recommend itself. It is not a mere book of nomenclature system, but enters largely into therapeutic details, which are mostly satisfactory, laying down very precise rules for the management of herculean remedies in the treatment of maladies that have long been the opprobria medicorum." &c.—ATHENÆUM

THE

NEW TEA WAREHOUSE,

37 & 38,

GRACECHURCH STREET,

(NEAR LONDON BRIDGE),

Opened on the 2nd September, 1837.

We stated on opening this Establishment on the 2nd September, the peculiar existing circumstances of the Tea Market, and how, by a combination of unprecedented events, the Prices of TEA had been forced down so much below their value, that we were enabled to offer to the Public the better descriptions of TEA from **Sixpence** to a **Shilling** per lb. cheaper than an Importer could do, requiring only the cost of importation with a small profit thereon. It is gratifying to know that the statements made by us of the advantages we were able to offer to the Consumers of TEA, have been so duly appreciated and understood, as to have procured for us the patronage we solicited. In our last circular we stated our opinion, that an advance in the value of TEA would in all probability ensue, and the recent rise in the market has proved we were not incorrect. Having purchased freely when the market was at the lowest point of depression, we shall continue to vend our TEAS at the old prices, without an advance. We therefore, with a perfect confidence, solicit a trial from those who **have not** made the experiment, feeling assured from the commendations we have received from those **who have**, a trial is only necessary to obtain for us their confidence and support.

TEA having become so important an Article of Consumption in the economy of every family, it must be desirable they should be made acquainted with the best Market; and as the following Scale of Prices has been computed on the smallest profit, our busines will be conducted on the system of *ready money*, which is the only way these advantages to the Public can be secured.

WEDGWOOD'S

Highly Improved

PATENT

MANIFOLD-WRITERS,

FOR

COPYING LETTERS, DRAWINGS, &c.

THIS Invention will produce a Letter with its Copy at one operation, or, if required, a Letter and two Fac-similes to send abroad, with a single Pen (Style), which is so durable, that it will last for centuries without repair, and actually improves by use.

This extraordinary Apparatus, from its simplicity and portability, as well as secrecy and despatch in operation, is admirably adapted for Merchants, Agents of Estates, Solicitors, and all persons travelling or going abroad; they are also strongly recommended with the recently improved Carbonic and Copying Paper (which is quite free from smell, and will not soil the hands) to the Nobility, Clergy, Members of Parliament, Gentlemen holding official situations under Government, Bankers, and to all who have occasion to write much, and desire to retain Copies or send Duplicates abroad, to whom it will prove a great saving of time, trouble, and expense.—Price, from One to Four Guineas.

CAUTION.—The public will do well to guard against the spurious imitations of ignorant pretenders, which are found to become utterly useless by the papers drying up, particularly in hot climates, which the original Manufacturer, from nearly thirty years' practical experience, is enabled effectually to prevent. A considerable reduction in price has very recently taken place, at the same time every article is warranted of the best Manufacture.

ALSO, WEDGWOOD'S IMPROVED NOCTO-GRAPHS. By this invention, persons who have had the misfortune to lose their sight, or whose sight is impaired, and others who are desirous of committing to paper their thoughts in the night, are enabled to write either single or duplicate, without the aid of any person to look over them.—Price from Two to Three Guineas.

To Mr. Decimus Woodhouse.

It is particularly recommended to all cold, phlegmatic, weak, and nervous constitutions. It is certain in affording instant relief in cholera-morbus, spasms, cramps, flatulence, languor, hysterics, heartburn, loss of appetite, sensation of fulness, pain and oppression after meals; also those pains of the stomach and bowels which arise from gouty flatulencies. Digestion, however much impaired, is restored to its pristine state by the use of this Essence for a short time. If taken in tea, coffee, ale, beer, porter, cider, or wine, it corrects their flatulent tendency. To say more on its virtues would be superfluous, when two hundred and eight of the most eminent of the Faculty have given certificates of its many virtues and superiority over all other preparations, in the cases for which it is recommended. All the Proprietor asks is a trial, when he has no doubt it will be appreciated.

The undersigned are some few of the Faculty that the Essence has been submitted to :—Drs. J. Johnson, Physician Extraordinary to his late Majesty; A. T. Holroyd; S. Ashwell, Physician Accoucher to Guy's Hospital; R. Rowley, A. Middleton, C. Loudon, Sir D. Davies, Surgeon to the Queen Dowager; J. Pereira, G. Pilcher, F. Salmon, F. Tyrrell, J. H. Curtis, Aurist to his late Majesty; C. Millard.

This ESSENCE is prepared only by DECIMUS WOODHOUSE, OPERATIVE CHYMIST EXTRAORDINARY TO HIS LATE MAJESTY, 43, *King William-street, New London Bridge*; and sold by him, wholesale and retail, in bottles, 2s. 6d., 4s. 6d., 10s. 6d., and 21s. each; and may be had of all Medicine Venders.

C. For whether in Rooms, Bedsteads, or Furniture, he can thoroughly eradicate them without any effluvia whatever; and, after the first entrance, will ensure to keep them free at a small annual charge.

All beds ought to be examined yearly, there being, IN LONDON ESPECIALLY, so many chances of introduction; this is the cheapest as well as surest method of obtaining undisturbed repose during the summer months.

IMMOVEABLE SOLID HEAD

D. F. TAYLER AND CO.

Feel great satisfaction in having introduced this beautiful article to the notice of the Public, after the numerous unsuccessful attempts made during more than half a century, by all the leading manufacturers, to accomplish the much-desired object. Protected as they are by

Her Majesty's Royal Letters Patent,

and supported by the exalted patronage, accompanied by exclusive warrants, appointing them

Solid-Headed Pin Manufacturers
TO HER MOST GRACIOUS MAJESTY,

HER ROYAL HIGHNESS THE DUCHESS OF KENT, AND ALL THE ROYAL PRINCESSES, their invention very naturally attracted considerable attention, and consequently encountered the most determined and violent opposition from parties interested in exciting prejudice against it; but their extensive and still rapidly-increasing sale sufficiently mark the estimation in which their Solid-headed Pins are held; and their present established reputation, while it sets the ill-judged opposition at defiance, determines the preference so generally given to them.

To those, however, who may not yet have seen these perfected Pins, it may be well to glance at the characteristic improvements which first distinguished and recommended them to notice, and have since established their superiority. The whole Pin is made of one piece of wire, the head not being separately spun and then put on, as in the old method, but compressed into a neat round shape, out of a part of the solid metal, of which the remainder of the Pin is made, so that it cannot slip or come off—the nuisance so often complained of in other Pins; it has a sharp, smooth, and finely-tapered point, which is only attainable by the superiority of their metal and method of perfecting the operation, and is of a silvery-brilliant colour—a discovery of their own, by which this beautiful tinge is acquired and permanently preserved.

Their improved SOLID-HEADED MOURNING-PINS, and their ENGLISH, FRENCH, and ITALIAN HAIR-PINS, are distinguished for their smoothness, elasticity, stiffness, and jetty appearance, qualities which will be sought for in vain from any other Manufacturer.

facturers, and are recommended with confidence, and warranted not to cut the thread. Notwithstanding the vast superiority of their Pins, and the enormous expense incurred in bringing them to perfection, they may be purchased of all the respectable Haberdashers in England, Scotland, and Ireland, at prices not exceeding those charged for the old Pins in ordinary use.

RHEUMATISM.

His Majesty's Royal Letters Patent have recently been granted to Mr. Coles for a Medicated Band, which positively cures Rheumatism, Lumbago, Cramp, &c. &c. The Band is worn near the part affected, and may be removed at pleasure. A great public functionary connected with one of our London Hospitals, whose case, to use his own expression, had baffled every medicine that was quack, and every medicine that was not quack, has sent Mr. Coles his written testimonial, which may be seen at 3, Charing Cross; wherein he admits that Mr. Coles's Rheumatic Bands have completely subdued his disease; and declared, at the same time, there was not a man upon the face of the earth who had more reason to be grateful to another than he had to Mr. Coles. Lord Skelmersdale had a coachman suffering a martyrdom to this complaint, who declared (when he paid Mr. Coles) ere he had worn the Rheumatic Bands five days, he was more free from pain than he had been during the preceding five years. The Duchess of Sutherland's gardener, Mr. John Soar, could not walk from West Hill, Surrey, to order the Rheumatic Bands, but he was able to walk that distance (twelve miles) to pay for them and back again, and he begged Mr. Coles would let the world know that.

"To Mr. Coles,

"Sir,—Having been afflicted with Rheumatism thirty years, and severely so for the last nineteen months, two of which I was in St. George's Hospital, and I have since been confined to my bed six weeks together under surgical treatment, during which time I was bled fourteen times, besides blistered and cupped, and employing other remedies said to be infallible for its cure; but all to no purpose, as I could scarcely rise from my chair, or walk the length of my room. Whilst in this state of suffering a friend procured your Patent Rheumatic Band, and I can truly say that it has afforded me a hundred times greater relief during the five weeks that I have worn it than all the other remedies put together, and I am now able to resume my business, to the great astonishment of all that know me.

"I am, Sir, your obedient servant,

"JOSEPH HOLDER FRESHWATER."

"Harrow-on-the-Hill, April 25th, 1835."

Mr. T. Frank, (Grazier,) of Kibworth, Leicestershire, in a letter dated 27th June, 1835, says, that he has been a great sufferer at times for many years past, and severely so about a month since, when a friend procured him Coles's Patent Band, which relieved his sufferings in two days, and in less than three weeks entirely removed the complaint.

Joseph Clay, Esq., of Arden Mills, Denton, near Manchester, in a letter dated 2nd July, says:—"I have received the Rheumatic Bands, the whole of which I have worn since May last, and I have the pleasure to state that they have relieved my sufferings in my shoulders, wrist, knees, and hip. I still feel weak in my ankles, but on the whole I think by persevering with them, they will make me young again."

The Rev. Mr. Wilder, of Carlton Rectory, near Newmarket, in a note dated 20th October, says, that he has suffered very severely from Sciatic for more than two years; and about three weeks since, he obtained one of Coles's Medicated Bands, and the pain has, during the short time he has worn it, nearly, if not entirely left him; he had tried many supposed remedies without receiving any benefit.—Read "Coles on Rheumatism," published at 3, Charing Cross, and sold by Sherwood and Co., and Wm. Strange, French and English, price One Penny.—It will also be found in the Scotch, Dublin, and London "Directories," and in "Boyle's Court Guide," page 808.

John Loftus, Esq., Chymist, of Hull, in his certificate relates the cure of a female whose case he declares would have been pronounced by any medical man to be hopeless.

Mr. Allen, of Highbury Terrace, Islington, Mr. R. S. Holditch, 30, Southampton-street, Pentonville, and Mr. Henry Pilcher, of Dover (Pilot), have all been great sufferers, and tried all sorts of remedies for Rheumatism. The first, in his certificate, declared, that whenever he applied Coles's Rheumatic Bands they relieved him; the second also declares that he was not only relieved from his suffering, but by constantly wearing the Bands they prevented its return; the last wore one six months constantly, and left it off twelve months ago, and has had no return of his complaint.

Lieut.-Colonel Stisted, 3rd Regt. Light Dragoons, informs those who have Rheumatism, that he had worn Coles's Medicated Bands four months—that they have relieved him from a state of suffering scarcely to be described.

The Colonel, to evince his gratitude to Mr. Coles, has permitted him to make use of his name in any way he thinks proper.

April 29, 1837. No. 4, Craven-street, Strand,

To Mr. Coles, Truss and Bandage Maker, London.

Sir,—I am in justice bound to state, that in consequence of a virulent attack of yellow fever, I returned from the West Indies, with paralysis in my left hand, and a severe rheumatic affection in my right thigh.

That by the use of the waters of Weisbaden, I got rid of the paralysis, but the acute pain in my limbs still continuing, I applied and wore for a considerable time, with the most happy result, your Medicated Band, which afforded me immediate relief.

I am, Sir, your obliged servant,

Lieut.-Col. 36th Regt. A. M. MAXWELL.

Benjamin Cole, footman to Sir Robert Peel, in a note dated June, 1835, says, that he has suffered the most excruciating pain in his back and loins from Rheumatism for six weeks, and finding no relief from surgical treatment, had recourse to Coles's Rheumatic Band, which afforded him almost instantaneous relief, and in three weeks entirely removed the complaint.

To persons afflicted with that dangerous and painful disease, Hernia, the Trusses of Mr. Coles's invention are the best, 3, Charing Cross, Truss Maker to his Majesty's Forces. From the numerous testimonials borne to the excellence and simplicity of his Patent Truss by the first practitioners in Surgery, including many cases of actual cure published in "Coles's Gazette," it is gratifying to learn that the victims of this distressing malady are thus rescued from their sufferings.

*** Read the case of Wm. Cobbett, Esq , M.P.; "Boyle's Court Guide;" "Coles's Gazette," on Rupture ; published and sold by Sherwood and Co., and Wm. Strange, London. Each One Penny, or Sixpence per dozen ; published also in French, as above.

TO THE BRITISH PUBLIC.

THE VALUE OF BETTS'S

PATENT FRENCH DISTILLED BRANDY

Is but still partially known, and every Family in the kingdom, in which Brandy is consumed, have made trial of the PATENT BRANDY, and consequently relinquished the use of the foreign article. J. T. BETTS and Co. will feel it a duty they owe to the Public and themselves, earnestly to invite a comparison between the PATENT and the French Brandy. Their respective merits are fairly developed in the following Testimonials, to which they again beg to refer.

EXTRACTS FROM TESTIMONIALS.

"Your Brandy is free from uncombined acid and astringent matter, which exists, more or less, in most of the Brandies imported from France.

"JOHN THOMAS COOPER,

"To Mr. Betts." "Lecturer on Chemistry."

"I am bound to say, and do assert it with confidence, that, for purity of spirit, this cannot be surpassed; and that your Patent Brandy is also quite free from those acids which, though minute in quantity, always contaminate the Foreign Spirit.

"JOSEPH HUME,

"J. T. Betts, Esq." "Chemist to His Majesty."

"I do not hesitate to express my conviction, that your Patent Brandy is fully as free from every thing injurious to health, and contains as pure a spirit, as the best varieties of Foreign Brandy. E. TURNER,

"Professor of Chemistry in the

"John T. Betts, Esq." University of London."

Its being free from the above objectionable qualities, and its similarity in flavour to Cognac Brandy, constitutes the value of the PATENT BRANDY, not only as *the most wholsome* and delightful beverage, but as regards its use in fortifying Home-made Wines, and in the preparation of Confectionary or Preserves,

To prevent impositions, J. T. BETTS and CO. deem it expedient to observe, that their Brandy is the only one for which a Patent has been obtained—the only one recommended by the Faculty for Medical purposes—and the only one which has stood the test of Chemical analysis. The reports made upon productions which others have submitted to that test having invariably been such as they have not dared to make public, it is therefore requisite that purchasers should be satisfied with the *identity* of the article; and the Patentees beg expressly to inform them, that Brandy is the only Spirit which they sell, and that

COBBETT'S EULOGIUM ON COLES'S PATENT TRUSS.

USEFUL KNOWLEDGE.

From 'COBBETT'S REGISTER.'

What I am now going to communicate will do more good in one single day, than Lord Brougham and Vaux's books will ever do till the last moment that a sheet of them shall be kept out of the hands of the trunk-maker, or preserved by accident from still less honourable uses. To a very considerable part of grown-up-men, the complaint which is called RUPTURE, is but too well known, and the frequency of the exhibition of Trusses in the shop windows, proves to us not only the extent of the prevalence of the complaint, but also the importance attached to its cure. The complaint is purely mechanical: it consists of the dislocation, or displacing of a part of the human frame; and purely mechanical is the remedy. The remedy, and the sole remedy, consists of a Truss, as it is called, to keep constantly in its place the part displaced. There are a great variety of trusses, some better than others; that is, more effectual, and less inconvenient; and to great numbers of persons, it is of great importance to know which sort is the best; and I being in a situation to communicate that knowledge to my readers, know it to be my bounden duty to do it.

Twenty years ago, I being out a shooting, jumped from a bank, full ten feet high, into a field below, and thereby produced, by the violence of the shock, something that gave me very great pain, but of the nature of which I knew nothing. I came to London, and applied to the late Mr. Chevalier, the Surgeon, who directed me to get a truss, which I did. And here I gladly stop to acknowledge the only good I, and I believe, any other human creature ever received at the hands of old Daddy Burdett. Having told him what had brought me to town, "Well," said he, "when you have put a truss on, never leave it off on the belief that you no longer want it." A precept which he made effectual by relating to me the cause of the sudden and premature death of Francis Duke of Bedford, who thinking his rupture gone for ever, threw his truss aside, but, in playing at fives, a sudden twist of his body brought on the complaint again, and sending for a surgeon to London, instead of calling in him of the village, a mortification took place, and he slept with his fathers in a few hours. Many times, and especially in hot weather, I have by this advice, and especially by the illustration of Daddy Burdett, been prevented from risking the fate of the Duke of Bedford.

My complaint has been of very little consequence to me, except at particular times. I have ridden on horseback, and done everything that I should have done, if nothing at all had ailed me. But COUGHING is very untoward in such a case; and I have at times, especially in November and April, a constitutional and hereditary cough, which I have had in every year that

I can remember of my life, and which is always more violent and of longer duration in London than anywhere else. It is not a cough of the lungs, but merely of the throat; but it causes a violent shaking of the whole body, and at these times I have always, until May last, experienced considerable inconvenience, and occasionally a great deal of pain. I have found it painful (and it is a nasty gnawing villanous pain!) to stand for an hour or two at a time; and this sometimes annoyed me exceedingly during my lecturing expeditions. When I expected the Whig trial to come on, in May last (Oh, the manifold blessings of that trial!) the only thing that gave me uneasiness was the fear that I should not be able to stand for three or four hours, to lay the lash well upon Denman and his masters, I having at that time one of my periodical coughs. In order to get rid of this fear, which harassed me continually, I resolved to go to Bolt Court, and never to quit it again till I had found out some one to furnish me with a truss which should be efficient for its purpose, even in these seasons of coughing. As I was going, I amused myself in reading Mr. Carpenter's Political Letter; in this paper I read the advertisement of Mr. Coles, Truss Maker, Charing-Cross; and as I had tried seven or eight before, I at once sent for Mr. Coles; and the result has been, that my complaint is as completely removed as if I had never known anything of the kind; and could I have forgotten the precept of the venerable Daddy Burdett, and more especially the fate of the Duke of Bedford, I should have thrown away the truss months ago. Oh! how rejoiced was I when I felt that I should be able to stand at my ease for the hours that I destined for the belabouring of the Whigs! I could not (if I had had a cough) without the aid of Mr. Coles, have given them the four hours and a half, which were worth more to them (if they turn them to good account) than all the rest of their lives. I should have mentioned this matter before, but my April cough was nearly gone before Mr. Coles had done the truss, and I was not visited with another till late in September; and I wanted a fair trial, before I spoke of this matter. I have now had the trial, and it would be a very shameful neglect of my duty towards my neighbours for me not to tell the public that I find the remedy perfect, and that I can now scarcely perceive, whether with or without a cough, the smallest signs of my ever having had such a complaint. But I am not here, in doing bare justice to Mr. Coles, doing him an injury, by driving from his shop the tax and tithe-eaters, who will have a "prejudice" (that is a villany) against him for the good he has done to me! No; hang it! they like their worthless lives too well for that. However, my sensible readers, pay you (if you should need it) attention to what I have said; and let the tithe and tax-eaters creep along through life, with all the twitchings and achings of this harassing complaint, and under all the pains and penalties inflicted on them by the awkward, heavy, cumbrous, and still inefficient things which bungling mechanics put

round their bodies. One thing bear in mind, and that is that this is a matter with which surgeons and physician have nothing to do, any more than they have with providing us with suitable shoes or coats. As Mr. Chevalier told me, the complaint is truly mechanical; and the application of the remedy must depend on the mechanic solely, just as much as the fitting of a coat must depend on the tailor. Here, however, more cleverness is required; the mechanic must be able to judge well as to the degree of force required; and he must have great ability in causing the pressure to bear in a proper manner. The moment I heard Mr. Coles speak upon the subject, I was sure he was the man. His observations showed a knowledge of his business; and the result has most amply verified my opinion. I never saw Mr. Coles before, and I have never seen him since, except to call and thank him. What I have said here of him is but justice, which I do with very great pleasure, while, as to the rest, I am only discharging a duty to the public in general, and to my readers in particular. I add this piece of advice to people in London, not to write for a truss any sooner than for a coat or a pair of breeches; nor to plague a surgeon to order one; but to go to the mechanic in person, and let him fit the force and the form to the necessity of the case. WILLIAM COBBETT.

IMPORTANT NEW INVENTION!—THE

ANDROMETER!

Where is the Gentleman who has not experienced annoyance from the difficulty he has had in obtaining a perfect and comfortably-fitting Suit of Clothes?—The existence of such difficulty clearly demonstrates, that the universally-adopted Systems of Measuring and Cutting are founded on false principles. Convicted of this fact, GEORGE D. DOUDNEY, after a long and assiduous application, has succeeded in the construction of an Instrument for Measuring, and the adaptation thereto of a System of Cutting which, on principles mathematically certain, renders the attainment of AN INCOMPARABLE FIT no longer a matter of doubt, and combines an

EXTRAORDINARY IMPROVEMENT OF THE FIGURE!

The ANDROMETER simply taking for its standard the Figure it is applied to, ascertains the real proportions of it, and is enabled to make such additions as are necessary for improvement, without the danger of their becoming distortions. While the universally-adopted systems measure only the lengths and circumference of the body, without reference to its shapes or positions, then draw their proportions from an *ideal figure*, and therefore inevitably fail to fit all whose symmetry is not in accordance with that standard.——That which renders the ANDROMETER a still more important Invention in the Fashionable World, is its stand at the head of a

FIRST HOUSE IN ENGLAND FOR DRESS WAISTCOATS.

HOLLOWAY PRESS:] [D. A. DOUDNEY.

A Certain Cure for Corns and Bunions.

ALLINGHAM's

Rotterdam Corn and Bunion Solvent,

WHICH GIVES RELIEF UPON THE FIRST APPLICATION.

The CORN SOLVENT now submitted to the notice of the public, has been in general use for the last fifteen years, and has never been known to fail where the directions have been followed; and the Proprietor has been gratified by hearing from many quarters of the relief which it has afforded after all other remedies have been tried without success.

TESTIMONIALS.—The following are selected from numerous others equally satisfactory in the possession of the Proprietor; and a personal reference may be made to several gentlemen who have experienced the salutary properties of the solvent.

"Sir,—The surprising efficacy of your Corn Solvent to several persons to whom I have sold it, induces me to write for three dozen of the small size, for which I have enclosed the money. Mrs. Egar of this place purchased a bottle of me a few days ago; the pain she had previously experienced rendered her incapable of walking far, or sleeping at night. She affirms that after two applications the pain and inconvenience entirely left her, and further states, although she is but a poor woman, that she would give a sovereign per bottle for it, could it not be got for less. "Your's respectfully,

"Gainsborough, 23 Aug., 1836." "T. SPOUNCER."

"Dear Sir,—Will you send me twelve dozen of Solvent. I find my sale rapidly increasing. The superiority of the Rotterdam Solvent over all other preparations, for the entire removal of Corns and Bunions, is becoming generally known and appreciated here. Since I last wrote to you, I have heard of several remarkable instances of its efficacy; one I may give you, as I have the permission of the gentleman so to do. Mr. Whitham, a respectable manufacturer, residing in Bridge Street, Sheffield, has been a great sufferer from Corns for the last fifty years; hearing of the Rotterdam Solvent, he was induced to try it, and from the great benefit and relief experienced from its first application, he resolved to persevere in its use, and in a comparatively short time was completely cured, and continues so to this day. The gentleman will be happy to give any information to those who may personally apply. "I am, Sir, your's truly,

"Sheffield, 12th Oct., 1837." "T. LOFTHOUSE."

OF WELL STREET, OXFORD STREET,

It improves with use, and is warranted to stand the test of the strongest of acids, aqua-fortis. The following is a sample of the prices; but purchasers are recommended to apply, post paid, for a catalogue, which can be forwarded for a single postage :—

CAUTION.—The great demand John James Rippon has had for his British Plate has induced others to use the same name to an inferior compositon, and by charging a much higher price they endeavour to persuade the public it is equal to that made by him; purchasers are therefore cautioned against these attempts at imposition.
