CAUTION AGAINST IMPOSTORS.

Persons, pretending to be employed by the Proprietors of this Work, having been to several Gentlemen's houses demanding money for the insertion of names in the Court Guide, the Nobility and Gentry, are respectfully requested to take notice, that no money is, or ever has been charged for such insertions, and the men employed are forbidden, under pain of prosecution, to make any charge. A Reward of Five Pounds will be given to any servant, or other person, through whose means the impostor shall be brought to conviction.

As many Families of Distinction take Houses in town for the whole, or part of the Fashionable Season, it has been found necessary to insert them, as well as the Owners of the Houses; the Nobility and Gentry, therefore, are respectfully requested to observe that, generally, where two names are inserted in the same Number, the first name is that of the Family to whom the House belongs, (who when in Town reside there) and the second that of the temporary resident.

Since the first establishment of this Institution, it has afforded relief to upwards of EIGHTY THOUSAND SICK POOR, the greater part of whom have been restored to the blessings of health.

Perpetual Assurance Office,

Rich. Holmes Coote, Esq.	Theo. Thompson, M.D.

The CORPORATION of the AMICABLE SOCIETY is the oldest institution in existence for granting Assurances on Lives.

Every Person on whose Life an Assurance is effected for one or more SHARES becomes a Member of the Corporation, and entitled, immediately upon his admission, to unreserved participation in the whole of the advantages arising from the long standing and accumulated Capital of the Society.

The distinctive feature of the plan adopted by the Society is the EQUAL DISTRIBUTION, Share for Share, of the whole of the Profits among the Representatives or Nominees of the deceased Members, without reference to the length of time during which the Policy may have been in force.

No Commission is allowed to Agents, and the affairs of the Corporation are managed at the least possible expense; the Profits are therefore the utmost the Premiums taken admit of.

Persons whose Lives are assured with this Corporation may travel to or from, or reside in any part of Europe without paying any additional Premium.

Assurances for Terms of Years, or on Joint Lives or Survivorships, may be effected with the Society, either for Specified Sums without participation in the Annual Profits, or for Shares with participation, at the option of the Parties.

The assured may arrange to pay their Premiums either by a Single Payment, by Annual Payments during the whole continuance of the Assurance, or by Annual Payments during a limited number of Years only.

RETURNS.—The Directors have the satisfaction of announcing to the Assured in this Office, that a Return of Premium at the rate of 20 per Cent. for the Five Years up to Christmas last, will be payable at the head Office, or through the Company's Agents in Great Britain, on all Policies for 300*l.* and upwards, which were in force and had been so for one entire year at Christmas.

RENT.—This Office (independent of the Returns and the late Reduction in the Rates of Premium) offers to Persons effecting Assurances, the further advantage of an Allowance for the loss of Rent on Buildings rendered untenable by Fire.

Life Department.

The attention of the Public has, in the Advertisements and Proposals of this Company of late years, been called to a Table of Additions applicable to and expectant on Policies of particular dates and ages; the Directors now beg to refer to a Statement (which may be obtained on application at the Office in Cheapside, or to any of the Agents in the Country) of Sums *actually paid*, shewing the Sums respectively assured and the Bonuses thereon.

Persons assured for the whole term of Life in *Great Britain* or *Ireland* respectively, will have an ADDITION made to their Policies every Seventh Year, or an equivalent REDUCTION will be made in the future Payments of Premium, at the option of the Assured.

THE FOURTH SEPTENNIAL VALUATION will be made up to Christmas, 1844.

ASSURANCES FOR SHORT PERIODS may now be effected in this Office at considerably reduced Rates of Premium.

The Company's Rates and Proposals may be had at the Office in London, or of any of the Agents in the Country, who are authorized to Report on the appearance of Lives proposed for Assurance.

Persons suffering from Chronic Disease or irregularity of form, in pregnancy, or old age, are insured at proportionate rates, the ASYLUM being the Company which originally extended the benefits of life insurance to such cases.

New System of Renewable Term Insurances.

The utmost advantages are secured by the smallest necessary outlay, in the first instance,—the Policies being continued year by year for the whole of life, whatever the future health of the assured, at a stipulated slight increase of premium, little exceeding the price of an ordinary term insurance, up to the age of 70, when the rate remains stationary.

GEORGE FARREN, *Resident Director.*

Asylum Life Office—continued.]

To Bonus Policy Holders.

The Protective Re-assurance having been again desired by parties who availed themselves (during the currency of the two last Equitable decennial periods) of the simple system originated by the ASYLUM in 1828, the Directors, to avoid the future necessity for such repetitions, have constructed tables of renewable term insurances, continuous from division to division, according to the duration of the original policy, without having recourse to new Certificates of health, or further investigation of any kind, after one present satisfactory appearance before a Medical Officer of the Company, thus providing, as far as possible, a remedy for the defects of the Bonus system, rendered glaringly apparent by the existing expediency for such protective re-assurance. By the adoption of this easy plan, parties may not only secure Equitable and other Bonuses, but, at the same time, provide, by such extra insurance, for any additional object that may occur during the currency of the original Policy, whilst in the event of premature death, they will have paid no more than the price of a term, with the full advantage of a whole-life insurance, and realize all the expectant advantages of Survivorship.

Further particulars may be obtained by personal or written application, at the Company's House, 70, Cornhill.

The peculiar feature of the FAMILY ENDOWMENT SOCIETY (established under special Act of Parliament in 1835) consists in securing a provision at a given age, to each of *all* the *future* children born of the same parents. The consideration may be a single sum paid down, or an equivalent annual premium.

The Annual Premiums required to secure an Endowment of £100 to each future Child, on attaining the age of 21, are as follow:—

Age of the Wife last birthday.	Annual Pre- miums to cease in 22 Years.	Age of the Wife last birthday.	Annual Pre- miums to cease in 22 Years.

Endowments may be secured payable at any other age; and to Children of one sex only.

Endowments are likewise granted, the Annual Premiums for which may cease at the Parent's death, without affecting the future provision for the Children.

The Society also grants Endowments to an existing Child or Children singly. The contracts are always made payable to the Parent or Trustee, unless specially directed to be otherwise.

The Society also secures property to Heirs Presumptive, by assuring against the contingency of Children who might become Heirs.

The Society likewise assures Lives, and grants Annuities, and carries on all the business of an ordinary Life Assurance Company.

Four-fifths of the entire Profits of the Society are divided among those assured on the Participating Scale. The Profits respectively allotted may be received in present money, in reversionary sums, or by way of annuity, at the option of the parties assured.

In cases where Persons assured for two complete years in this Office die before the division of Profits is made, a due proportion will still be allotted to their Policies, and their representatives will be entitled to receive it when declared.

The Directors call the attention of the public and the profession to the Society's Table of Premiums on the Non-participating Scale, as peculiarly applicable to Assurances made for Loans and Securities for Money.

Assurances may be effected upon the Lives of Persons residing at a distance from London, by their appearing before any respectable Solicitor.

For the amounts which shall be so appointed, equivalent reversionary sums will be added to the Policies respectively of those entitled.

FOUR-FIFTHS OF THE PROFITS made by this Society will be appropriated to the persons assured for the whole term of life.

ON THE 31ST DAY OF DECEMBER, 1847, and at the end of every Seven Years from that period, the Profits divisible amongst the Assured will be apportioned amongst such of the Assured for the whole term of life, as shall have been so assured for the space of three years or upwards, previously to those periods respectively, subject only to the reservation of such a sum of money as the Directors shall deem necessary to be carried forward, to the period of the next septennial division for the benefit of the Assured. For the amounts which shall be so apportioned, equivalent reversionary sums will be added to the Policies respectively of those entitled.

The subjoined is a **SPECIMEN TABLE** of the **BONUSES**, in even pounds, added to Policies of 1000*l.* each, which have been in force seventeen years, ending 31st December, 1840, including the Bonuses added on the former division.

If any person should wish to discontinue the payments of his annual Premium, the Directors have power either to purchase his Policy for a sum of money payable immediately, or, in consideration of its surrender, to grant a new Policy, without any further annual Premium, for a sum to be agreed upon, payable at the decease of the Life assured. And the person to whom

such new Policy is granted will be entitled, in respect thereof, to participate in the periodical divisions of the Profits.

Persons who shall have been assured for the space of two years, in 1000*l.* or upwards, for the whole continuance of Life, have the power of electing, either from among the Proprietors, or from among themselves, two of the four Auditors of the Society.

Parties may arrange to pay their Premiums either in a single payment, by annual payments during the whole continuance of the Assurance, or by annual payments during a limited number of years only.

No entrance money is required, nor any extra Premium on Persons in the Army or Navy, unless in Actual service.

Assurances may be effected upon the Lives of Persons residing at a distance from London, by their appearing before a Solicitor in the country; and the payment of fine for non-appearance at this Office is then dispensed with.

The Assured are allowed to pass by Sea from one part of the United Kingdom to another, and to and from the Islands of Guernsey, Jersey, Alderney, Sark, and Man; and also, in time of peace, in King's ships, and packet or passage vessels, to and from British and Foreign ports in the English Channel, between the Texel and Brest, both inclusive, without any special leave or licence from the Directors.

The sums due on the Policies will be paid at the expiration of three months after proof of the requisite facts.

Assurances may be effected through any respectable Attorney or Solicitor in England, of whom Prospectuses may be had. A party may himself effect an assurance by writing to the Actuary, or attending personally at the Society's Office, in Fleet-street.

The Assured are requested to take notice, that no renewal premiums are ever received without printed receipts, signed by two Directors and the Actuary, being issued from this Office.

Life Assurances.

Persons effecting Life Assurances with this Corporation have the choice of two plans:

The one entitling them to an annual Abatement of Premium after five years' payment.

The other at a lower fixed rate without abatement.

The leading features which distinguish the first of these plans from those of other Life Assurance Offices are, that the business is carried on by the Corporation without any charge for management being deducted from the profits, and that the assured are exempt from all liability of partnership.

The Abatement of Premium for the year 1842 on Policies of five years' standing, under the first of the above plans, was £44 2s. 5d. per cent.

This Society is essentially one of Mutual Assurance, in which the Premiums of its Members are reduced, by an abatement after Seven Years, to the lowest amount consistent with safety. The abatement in 1837, 1838, 1839, 1840, was 60 per Cent.; in 1841, 62½; and in 1842, 65 per Cent.

But the Society also undertakes other descriptions of Assurance, in which the assured do not become members; and in order to confer on these a corresponding advantage of reduced Premiums, the Court of Directors, having ceased to allow any Agency Commission, have determined to effect this Class of Assurances in future at the following very low rates; and it has also been determined to reduce the Premiums charged upon existing Policies of the same Class to the same Scale.

This Company, established by Act of Parliament, affords the most perfect security in an ample paid-up Capital, and in the great success which has attended it since its commencement in 1834.

In 1841, the Company declared an addition to the Shareholders of one-half of their Stock, and also added £2 per cent. per Annum, from the date of the policies to those parties who had insured with Profits.

The Premiums, nevertheless, are on the most moderate scale, and only a moiety need be paid for the first five years, where the Insurance is for Life.

The amount of bonus added to policies since the commencement of the Company, in March, 1834, to the 31st Dec. 1840, is as follows:—

<i>Sum Assured.</i>	<i>Time Assured.</i>	<i>Sum added to Policy.</i>

The principle of this Company is to allow to each Assurer such reasonable advantages as may suit his particular views. Thus, parties assuring the Lives of others, may make their Policies secure, notwithstanding the Life Assured may go out of the limits of Europe, without the necessary permission of the Directors having been previously obtained. Credit of half the Premiums for the first Five years allowed on Policies effected for the whole term of Life. Parties who have been assured for Five years will be allowed to borrow on the security of their Policies, a sum equal to one-half the premiums paid, less that for the first year. Advances are made to Parties assured in the Office, on real or undoubted Personal Security, for Terms not exceeding Three years, repayable by Instalments. Premiums moderate. Participation in Profits. Detailed Prospectuses may be obtained on application at the Office, or by letter addressed to the Secretary.

Life Assurance.—The new and extensive tables of this Company have been framed to meet the circumstances of all who desire to provide for their support during old age, or for the support of those who may survive them. Parties intending to insure are invited to compare the Rates with those of other established Offices. Assurances may be effected on a Bonus or Participating Scale, or otherwise, at the option of the assured.

Deferred Annuities.—Annuities receivable upon a party attaining a given age, or on the death of the party in the event of another being then alive, may be secured by moderate annual payments. By the latter mode of Assurance, a party may often more satisfactorily provide for his widow, or others who by his death would be unprovided for, than by assuring the payment to them of a fixed sum in a single payment.

Fire Assurance.—Assurance against Fire on the usual moderate terms.

Prospectuses and full particulars may be had at the Offices; or of the Agents.

THE HANDBOOK OF GRAMMAR,
FOR ENGLISH, GERMAN, FRENCH, AND
ITALIAN: shewing at one view the construction pe-
culiar to each Language. Price 6s., neatly bound.

Every treatise, now-a-days, intended to convey knowledge on any branch of science or literature, is styled, *à la mode d'Allemagne*, a "Hand-book:" no matter what its size or pretensions may be. The volume under consideration merits a more ambitious title—it should be called "The Philosophy of Grammar," as it contains an able, complete, and satisfactory analysis of the four languages most in use. The peculiar construction of each language is seen at a glance, and being placed in relation to each of the other three, spares the student the toil of wading through four separate grammars. The advantages of such a plan are obvious.

SHREDS AND PATCHES OF HISTORY.

Two vols. 18mo, neatly bound in cloth and lettered, 7s. Vol. i. in the form of Riddles, and vol. ii. Explanation and Remarks.

The author in her preface says—"In a circle of intelligent young persons with whom I have lately associated, a fund of instructive and rational amusement was derived round the social winter hearth, from proposing and guessing historical questions; hence I conceived the notion of collecting a heap of "Shreds and Patches" from various countries and ages, whereon the juvenile public might exercise their memory, and, perhaps, occasionally add a trifle to their little store of knowledge. Most of the circumstances and anecdotes are taken from popular and well-known subjects; yet, in case they should not be recognised, I have, in the second volume, raised the veil of mystery, and have been at some pains to derive my elucidations and remarks from as near the original sources as was attainable. Truth has been my primary object."

**THE
LANGUAGE OF FLOWERS.**

**"By all those token-flowers that tell
What words can never speak so well."
BYRON.**

WHEN Nature laughs out in all the triumph of spring, it may be said, without a metaphor, that in her thousand varieties of flowers we see the sweetest of her smiles; and through them, we comprehend the exultation of her joys; and that by them she wafts her songs of thanksgiving to the heaven above her, which repays her tribute of gratitude with looks of love. Yes, flowers have their language. Theirs is an oratory that speaks in perfumed silence; and there is tenderness, and passion, and even the light-heartedness of mirth, in the variegated beauty of their vocabulary. To the poetical mind, they are not mute to each other; to the pious, they are not mute to the Creator; and ours shall be the office, in this little volume, to translate their pleasing language, and to shew that no spoken word can approach to the delicacy of sentiment to be inferred from a flower seasonably offered; that the softest impressions may be thus conveyed without offence, and even profound grief alleviated, at a moment when the most tuneful voice would grate harshly on the ear, and when the stricken soul can be soothed only by unbroken silence.

But little study will be requisite for the science which we teach, for Nature has been before us. We call upon Friendship and Love to unite their discoveries with ours; for it is in the power only of these sweetest sentiments of our nature to bring to perfection what they have so beautifully invented, the mystical, yet pleasing, links of intelligence, that bind soul to soul, in the tender and quiet harmony of the one, or in the more impassioned felicity of the other.—*Vide Preface.*

RHEUMATISM.

1, Cleveland Place, Bath, 3rd December, 1840.

Sir,—I have delayed writing to you upon the subject of your Medicated Bands until I had ascertained what effect they produced. I have the pleasure to say I have derived very considerable relief from them, and am enabled to walk with much less pain than before. I suppose I am right in sleeping in them. I have since recommended them to several of my friends.—I am, dear Sir, yours, &c.

P. D. FELLOWES.

*North Kent Railway Office, Lombard Street,
February 26th, 1841.*

Dear Sir,—With pleasure I inform you that I put on one of your Medicated Bands sent me by a friend last night, being then in great pain, which I had endured for several weeks. Extraordinary to say, it acted upon me like a charm. When I got up this morning I found that I could stand upright, and I walked about the room without pain, and since about the city on business, which I have been unable to do for the last month.—I am, dear sir, your's &c.

GEORGE WALTER.

Hampton Villa, New Parade Road, Jersey.

Dear Sir,—I feel great pleasure in recommending your Bands, having been almost a martyr to rheumatism for ten years, during which period I have consulted the first medical men, and taken various kinds of medicine; I have for six months together employed hot sea-water and vapour baths, and during the last year I have worn your Medicated Bands when in pain, and I can truly say they never failed to release me from pain; I therefore pronounce your remedy for rheumatism to be invaluable.—I am, dear Sir, your obedient servant,

WILLIAM TAYLOR,

Capt. R.M., and Major in the Army.

HERNIAS, for ages past, they say,
Have been destructive* in their way;
And on the human race entail'd
A grievance scarcely parallel'd!

They oft distort the human frame,
And leave the victims "but a name;"
For which malady "COLES'S TRUSS"
Is deem'd of most efficient use.

But how to form it with effect
Requir'd a strength of intellect;—
As cases vary, "so must skill,"
A Truss must be mechanical.

Did you but know how many *hands*
Producing trusses, also *bands*;—
Trusses of strangest fashions lay
Expos'd in windows for display.

Now if we were the truth to tell,
They'd fail to work, "but not to sell;"
They lack'd the end they were to meet,
Or, in a word, were incomplete.

Why do the surgeons like them best,
Unless to feather well their nest?
"John Bull likes *Coles's Truss*," they say;
But surgeons all will have their way!

Yet not in this bare instance "he"
Has serv'd mankind essentially;
Another most malignant foe
Has marr'd man's happiness below—

RHEUMATISM—which we most dread,
If in the knee, the hip, or head;
"This *monster*, too," 'tis understood,
"By outward means he has subdued!"

Some doctors did their "cures" disclose;
Their brothers then turn'd up their nose;—
"They won't believe they're cur'd," they say;
Physicians too must have their way!

His mind capacious next perceiv'd
The Locomotive pow'r bereaved,
By friction and its agency,
Of two-thirds its velocity.

He found, by fair experiment,
That anti-friction would augment,
On curve or plane "with his speed-wheel,"
The rotatory principle.

Then let them try a one ounce weight,
The carriage always runs so light;
"'Tis thirty-six to one," they say;
But engineers will have their way!

* A patient, who had recently been operated upon for strangulated hernia, says, in his certificate, that one of *Coles's Trusses* is worth a shipload of such trusses as he had been wearing, either before or after Mr. Liston performed the operation.

WEDGWOOD'S
HIGHLY IMPROVED
PATENT
MANIFOLD WRITERS,
 FOR
Copying Letters, Drawings, &c.

THIS invention will produce a Letter with its Copy at one operation, or, if required, a Letter and Two Facsimilies to send abroad, with a single Pen (Style), which is so durable that it will last for centuries without repair, and actually improves by use.

This extraordinary Apparatus, from its simplicity and portability, as well as secrecy and despatch in operation, is admirably adapted for Merchants, Agents of Estates, Solicitors, and all persons travelling or going abroad; they are also strongly recommended, with the recently-improved Carbonic and Copying-paper (which is quite free from smell, and will not soil the hands), to the Nobility, Clergy, Members of Parliament, Gentlemen holding official situations under Government, Bankers, and to all who have occasion to write much, and desire to retain Copies, or send Duplicates abroad, to whom it will prove a great saving of time, trouble, and expense. Price from One to Four Guineas.

Caution.—The Public will do well to guard against the spurious imitations of ignorant pretenders, which are found to become utterly useless by the papers drying up, particularly in hot climates, which the original Manufacturer, from thirty years' practical experience, is enabled effectually to prevent. Also,

WEDGWOOD'S
Improved Nocto-Graphs.

By this invention, persons who have had the misfortune to lose their sight, or whose sight is impaired, and others who are desirous of committing to paper their thoughts in the night, are enabled to write either single or duplicate, without the aid of any person to look over them. Price £2 2s., or with Spring Bars, £3 3s.

VIII.

Instructions for taking the measures as marked at numeral VIII.—viz., from heel to toe, as figure 1; across the joints as figure 2; across the instep, as figure 3; from heel to instep, as figure 4; across the calf, as figure 5; under knee, as figure 6; from knee to heel, as Figure 7; and across the thigh, as figures 8 and 9, according to the plain lines; and describe the patterns required by the number marked above each.

The dotted lines on the side (...) shew where the Antigropelos open to admit the boots; the caps are the parts which cover the knee, as shewn by Patterns 3, 4, 6, and 7, which, as well as the Spurs, are 3s. per pair extra.

The Patentee begs leave to solicit attention to his unrivalled Invention, by the use of which Noblemen and Gentlemen are enabled to Walk or Ride in the dirtiest weather, without Splashing their Boots or Trousers.

They are put on and taken off without trouble, or soiling the hands, worn without the slightest inconvenience, and cleaned in a minute with a wet sponge; while the elegance of their appearance renders them an ornamental appendage to the outdoor costume.

This admirable Invention is finished in a variety of ways, as exemplified in the above Engravings.

As attempts have been made to impose a spurious article on the Public, the Patentee thinks it necessary to caution Noblemen and Gentlemen, that none are the PATENT ANTIGROPELOS, unless stamped with his Name and the Royal Arms.

Any one infringing on the said Patent will be liable to an Action.

RUPTURE.

COLES'S PATENT TRUSSES

Are universally admitted to be the most complete and effective instruments now in use for the relief and cure of HERNIA. The pad moves imperceptibly with the body when stooping, and reverts to its original position when standing—no other truss ever possessed that quality. The following opinions are selected, from a list too numerous for insertion, in a single advertisement:—

"This is the only real improvement in the construction of a truss that ever came under my inspection."—George Birkbeck, M.D.

"The pressure upon the ring is not merely equalized, but adjusts itself, without inconvenience to the wearer, to the different attitudes in which the body may be placed."—William Thomas Brande, Royal Institution.

"They make a more uniform pressure on the ring than the ball-and-socket plan can effect."—Sir A. Cooper, Bart., F.R.S., in his Treatise on Hernia.

"The varied positions of the body in stooping and coughing do not alter the position of the pads, nor displace them."—Thomas Callaway, Guy's.

"It is my firm conviction that his trusses will be found more efficacious than any at present employed."—Henry Earle, F.R.S.

"I may add that this truly scientific discovery justly entitles the inventor of such an instrument to universal confidence."—John Borthwick Gilchrist.

"They are the best trusses that have ever yet been got up."—Aston Key, Guy's.

"I consider these trusses calculated, beyond every other truss I have seen, to cure this disease in its earliest and simplest form."—Gideon Mantell, F.R.S., Crescent, Clapham.

J. SPARKES HALL'S

PATENT ELASTIC ANKLE BOOTS

Require neither lacing, buttoning nor tying; they can be put on and off in a moment, without trouble and loss of time. The constant annoyance of laces breaking, buttons coming off, holes wearing out, and many other imperfections in the ordinary modes of fastening, suggested the Improvement which is now submitted to the Public.

No Boots ever afforded such variety of play and motion to the feet and ankles, or corresponded so exactly to their natural and anatomical form.
