Respectfully invite the attention of their distinguished patrons to an inspection of their Patent Waterproof Over-shoe, so generally approved and recommended by the most eminent physicians for its preservation of health, and patronised by her Majesty and the Royal Families of England and Belgium.

OPINIONS OF THE PRESS.

"This comfortable and distingué ladies' over-shoe, now so much in vogue with the élite, surpasses all other goloshes yet invented for durability, lightness, and flexibility."—*Blackwood's Magazine.*

"The patent consists of a sock or slipper, which, being waterproof and extremely light, does not disfigure the foot, which is a great desideratum both for comfort and appearance. We feel certain they only require to be worn once to meet with due appreciation."—*Observer.*

J. SCHWEPPE AND CO.'S

SODA, POTASS, & MAGNESIA WATERS,

AND

ÆRATED LEMONADE.

Principal Manufactory, Berners-street, London.—Branch Manufactories: London-road, Liverpool; Friar-gate, Derby; and at
65, Castle-street, Bristol.

SCHWEPPE and Co., the original Inventors, and still, by far, the largest manufacturers in the world of these invaluable preparations, respectfully caution the Public against the Spurious Articles sold under their names, containing not a particle of Alkali, and but an imperfect impregnation of Carbonic Acid. The temptation to the inferior Water is its low cost to the retailer, although, in many cases, the consumer is charged the same. To preserve the latter from this imposition, Schweppe's Waters are all distinguished by a label with their name, bearing the Royal Appointment. Their lettered bottle alone is no criterion, as many unprincipled makers fill these bottles with their own manufacture, and pass it off as SCHWEPPE'S. It is requisite, therefore, to see the label, and that it represent the name of SCHWEPPE only.

SCHWEPPE'S LEMONADE

Is an agreeable refreshing beverage, and, as a relief in cases of FEVER and other inflammatory complaints, is universally recommended by the faculty; and they also strongly recommend their

LIQUID MAGNESIA,

An elegant preparation, which their long experience in the manufacture of Alkaline Waters enables them to produce in a state of the greatest purity and strength. This valuable Anti-acid is a certain remedy in cases of Gout, Heartburn, Acidity of the Stomach, and is particularly useful for children during the period of dentition.

In bottles, at 1s., 2s. 6d., and 4s. 6d. each.

It is with much pride J. S. and Co. refer to the fact, that they continue regularly to supply the Royal Palaces at Windsor and London with the above Waters; a distinction which they have enjoyed through many successive reigns, and that no other manufacture of the kind is so decidedly prefered by the Aristocracy, and the Public generally, of the United Kingdom.

HUBBUCK'S

PATENT

WHITE ZINC PAINT,

THE "PERMANENT WHITE" OF THE ANCIENT ARTIST

Combines Health, Economy, and Durability,

THE WHITEST OF ALL PAINTS.

It is permanent for ages;

Unaffected by Vapour from Cesspools, or the most noxious Gases;

Ceilings of Chemical Lecture Rooms and Laboratories are not changed by Ammonia and Sulphurous Gases and Exhalations;

Equal to the finest Coach Panelling;

Favourable to the Health of the Painter, and to the occupants of apartments newly painted with it;

Covers so much work that it becomes cheaper than the Poisonous Paints hitherto used.

*** *Each Cask is stamped*—"HUBBUCK, *London, Patent.*"

"For public schools, and all rooms occupied by children, there will now be no excuse for using poisonous paints. Parents have remarked that their children, on returning from the country to newly painted houses, have suffered in health. The reason is evident: the breath extracts the poison from paint even after several months' drying, and the lungs draw in the deadly vapour."

"Amongst other tests to which it has been subjected, has been that of painting the hold of a sugar vessel, which, after a voyage to St. Kitt's and back, is found as white as the first day the paint was applied." —*John Bull, September* 14*th*, 1850.

"We trust that it will not be long ere the Royal Navy discards the injurious white lead paint for Hubbuck's healthy and otherwise valuable substitute."—*United Service Gazette, August* 17*th*, 1850.

A CIRCULAR, with full particulars, may be had of

Opposite the London Docks.

THE **CHEAPEST STOVE**

IN **THE MARKET.**

CUNDY'S PATENT IMPROVED OPEN FIRE-PLACE,
WARM AIR VENTILATING STOVE,
Is admirably adapted to

Warm & Ventilate Churches, Chapels,

And other Public Places, Shops & Warehouses, Halls, Dining-rooms, Libraries, Club-rooms, &c. &c.

THE ADVANTAGES OF WHICH ARE—

1. That it combines the cheerfulness of an open fire, with the comfort of a constant supply of Fresh Atmospheric Air, of a genial temperature.
2. That it consumes the impure air of a room and replaces it by the admission of pure air from without.
3. That it preserves the balance between the consumption of the impure and the admission of pure air so accurately that it effectually prevents blasts of cold air through crevices in doors and windows.
4. That it never raises the temperature of the air—which is warmed by passing through the stove—so high as to burn it, or impart to it any unpleasant smell or injurious properties.
5. That it imparts so large a proportion of its heat to the air in its passage into the room, through it, that the smoke flue can never get so heated as to endanger the building, or to add to the risk in insuring.
6. That as nearly all the heat produced by the fire passes with the air into the room, and very little up the flue, it obviously economises the fuel.

The advantages of CUNDY'S PATENT STOVES, therefore, are Cheerfulness and Comfort, Purity and Warmth of the Air, the absence of any noxious properties, freedom from danger, and Economy of Fuel.

Testimonial from Messrs. Hitchcock & Rogers, St. Paul's Churchyard.

St. Paul's Churchyard, March 7, 1850.

Dear Sir,—We have never had occasion to regret the substitution of your excellent Stoves for the hot-water apparatus with which our establishment was previously heated; all our customers seem delighted with the change.

The improved ventilation produced by them—the entire freedom from that smell of iron so common to most other stoves, and the agreeable sight of the fire—render them most desirable for such establishments as ours.—We are, dear Sir, yours truly,

GEORGE HITCHCOCK & Co.

The STOVES may be obtained of the Sole Manufacturer, J. E. DOWSON, 123, Oxford-street (FiveDoors West of Regent Circus), where a Stove is in constant operation. They may also be seen at Messrs. Hitchcock & Rogers, St. Paul's-churchyard, and in the Model Room of the Society of Arts, Adelphi, in place of Mr. Pierce's Reflected Stove; from which Society Mr. Cundy, on the 22nd July, received their Large Silver Medal for the invention. A Prospectus forwarded on application.

CAUTION AGAINST IMPOSTORS.

Persons, pretending to be employed by the Proprietors of this Work, having been to several Gentlemen's houses demanding money for the insertion of names in the Court Guide, the Nobility and Gentry are respectfully requested to take notice, that no money is or ever has been charged for such insertions. *A Reward of Five Pounds will be given to any servant, or other person, through whose means the impostors shall be brought to conviction.*

NOTICE.

As many Families of Distinction take Houses in town for the whole, or part of the Fashionable Season, it has been found necessary to insert them, as well as the Owners of the Houses; the Nobility and Gentry, therefore, are respectfully requested to observe that, generally, where two names are inserted in the same Number, the first name is that of the Family to whom the House belongs, (who when in Town reside there,) and the second that of the temporary resident.

THE LONDON

General Mourning Warehouse.

W. C. JAY,

NOS. 247, 249, AND 251, REGENT-STREET,

TWO DOORS FROM OXFORD-STREET.

The Proprietor of the above Establishment begs leave to call the attention of the Nobility and Ladies to its great utility. It was formerly a source of inconvenience and regret on occasions when Mourning Attire was required, that its purchasers were at such a time compelled to the painful necessity of proceeding from shop to shop in search of each distinct article of dress. This may be completely obviated by a visit to the London General Mourning Warehouse, where every description of Paramatta, Alapine, Bombasin, Merino, and Crape, for Mourning Dresses, Gloves, Hosiery, and Haberdashery, can be bought on the most reasonable terms, and where every thing necessary for a complete Outfit of Mourning may be had, and made up, if required, by experienced Artists, with the strictest attention to taste, elegance, and economy. Widows' and Family Mourning is always kept made up, so that Ladies may, by a Note, descriptive of Mourning required (either for themselves or household), have it forwarded to them in Town or Country immediately. Silks for slight or complimentary Mourning, Printed Muslin Dresses, Mousseline de Laines, Bareges, & Evening Dresses in the greatest variety.

The Millinery Rooms contain a beautiful assortment of Millinery, Head Dresses, Flowers, Crape and Muslin Collars, Berthes, &c., with every description of Jewellery for Mourning.

CHARING-CROSS HOSPITAL,

West Strand, near Charing-cross.

SPECIAL APPEAL.

THE GOVERNORS of this Hospital, in soliciting the assistance of the affluent, beg to state that its Objects comprise the two-fold intention of a Dispensary for the relief of the Sick Poor at their own homes, and of an Hospital for the reception of the more helpless and destitute; and to afford immediate assistance in cases of accident, and gratuitous attendance and medicine to all needy afflicted persons.

Between 18,000 and 20,000 Patients are annually relieved, and since the establishment of the Institution, it has relieved upwards of One Hundred and Eighty Thousand Sick and disabled Poor, the greater part of whom have been restored to the blessings of health.

ADMITTED FROM THE OPENING OF THE HOSPITAL.

To 31st Dec. in each Year.	From 1834	In-Patients	Out-Patients	Total.	Acci-dents.	Cost.
	to 1846	12,643	72,594	85,237	13,520	29,013 4 0
	to 1847	1,155	10,937	12,092	1,516	2,292 4 11
	to 1848	1,153	14,347	15,500	1,918	2,506 17 7½
	to 1849	1,116	17,384	18,500	2,373	2,458 3 6
	Total.	16,067	115,262	131,329	19,327	£36,270 10 0½

Great as is the good thus constantly effected, the applications for assistance are inadequately met by the present accommodations of the Hospital, which are quite insufficient for its full operations.

A portion of the Building hitherto unoccupied for want of funds, would, if furnished and fitted up, supply in great part this deficiency, and admit of Fifty more Beds being added to those at present contained in the Hospital, and thus afford the means of receiving 500 or 600 more In-Patients annually. The Governors, in respectfully calling the attention of the benevolent to these facts, feel it their duty to make this SPECIAL APPEAL for Funds to complete the building, and they trust that its importance to the poorer classes will be deemed a sufficient reason for their earnestly soliciting assistance.

Lectures and Practical Instruction in the various branches of Medical Science are given by the Officers and other Professors.

A donation of Forty Guineas constitutes a Life Governor; Twenty Guineas, together with a yearly Subscription of Four Guineas, an Annual Governor; and One Hundred Guineas a Life Benefactor.

*** Subscriptions are thankfully received by the Treasurer, the Very Rev. the Dean of Manchester; by Messrs. Drummonds, 49, Charing-cross; Messrs. Coutts, Messrs. Hoare, Messrs. Herries, Messrs. Biddulph, and the neighbouring Bankers; by the Rev. H. Mackenzie, Vicarage, St. Martin's; the Rev. H. Hutton, Rectory, Covent-garden; by the Committee, by J. Robertson, Esq., Sub-Treasurer and Honorary Secretary; and by the Clerk at the Hospital, which, with its various departments, is at all times open to inspection.

Rates of Postage.—From and to all partes of the United Kingdom, the Channel Islands, and the Isle of Man, if pre-paid, and not exceeding—

Half an Ounce . . One Penny Two Ounces . . . Fourpence.
One Ounce . . Twopence Three Ounces . . Sixpence.

And so on, adding Twopence for each Ounce.

By an Act passed during the last Session of Parliament, the weight of Letters and Parcels passing through the Post-Office, is no longer limited to 16 oz.; it being in the discretion of the Postmaster-General to regulate the same from time to time, as may be required for the convenience of the public and the advantage of the postal revenue.

A most important regulation has also been made by the 10th and 11th Vic. c. 85, by which letters transmitted through the Post-office to Bankrupts are henceforth to be delivered by the Post-office authorities to the Assigness, for the period of three months after the issuing of the fiat.

From returns recently issued, it appears that the number of chargeable letters which have passed through the London General Post, have increased nearly tenfold since the reduction in the postage. In 1839 the number of letters per lunar month was 1,622,147. In the first four weeks after the Penny Postage commenced, namely, from the 1st to the 29th February, 1840, the number was 3,338,074, and from this point the increase goes gradually on, until it reaches 9,268,457, which is the number of letters which passed through the London General Post during the lunar month ending February 29th, 1849; and although the expenses occasioned by this vast increase have necessarily been nearly doubled, yet the net revenue had not been diminished in like proportion, for we find that the net revenue in 1839 was 1,652,424*l.*, and in 1848-9, 740,429*l.*, and when all the suggested improvements on the present system have been carried out, it will doubtless become a greater source of revenue than it ever was.

Money-Order Office.—The Money-Order Office is in Aldersgate-street, nearly opposite the General Post-office, where Orders are granted and payable from 10 to 4.

One of the great benefits conferred upon the public by the Penny Post, is the facility it has created for the transmission of money by means of money-orders. Under the old system, when a commission of sixpence was charged on 2*l.* and under, and one shilling for over that sum up to 5*l.*, besides the heavy rate of postage, which frequently exceeded the charge for the order, the business done at the Post-office in this was trifling when compared with the new system; in the three months ending July, 1839, the number of money-orders issued in England was 54,623, for sums amounting in all to 92,734*l.*, and in the three months ending April, 1849, the number of orders issued was 1,775,783, for sums amounting in all to 3,544,250*l.* an increase nearly forty-fold.

Money-orders for sums under Five Pounds are granted by every post-town upon every other post-town in the United Kingdom, on application at the various offices; and also by and upon certain offices in the metropolis, of which the postmasters are furnished with a list. Orders for sums under Two Pounds are charged Threepence; not exceeding Five Pounds, Sixpence; and above that sum no order is granted.

Money-orders are paid only to the person for whom they are obtained; but he may depute another person to receive the money by signing the order, and giving his deputy the Christian and surname, the address and occupation of the person who originally obtained the order; and, by a late regulation, where parties have several Christian names, one of such Christian names only is required.

The new Act of Parliament for further regulating the money-order department recently came into operation, by which it is provided that no money-orders shall continue in force longer than twelve months after the date thereof, and that the liability of the Postmaster-General to pay such orders shall cease after that period; but power is given to the Treasury to alter the period fixed for the payment of money-orders, such alteration to be published in the *London Gazette*.

All unpaid letters are charged double; and an order will shortly come into operation, by which it will be imperative to prepay all letters, by affixing stamps thereon.

Parcels sent by post are not restricted as to weight; but the charge is twopence per ounce, which must be prepaid by money or stamps; and the parcel must not exceed two feet in length.

Letters to persons who cannot be found are returned to the Dead Letter-office, and opened by the proper officer, and returned to the writer; and all dead letters bearing on the seal the name and address of the sender will be returned unopened.

Letters directed to the Post-office to be left until called for are sent to the Paid-Letter Window in St. Martin's-le-Grand, and may be had upon application between 10 and 4; if not applied for within a reasonable time, they are sent to the Dead Letter office, and are then opened and returned to the writer.

Registration of Letters.—Letters may be registered between the hours of 10 and 4, on payment of a fee of Sixpence, which, with the post, must be paid in advance.

Overcharged Letters.—Overcharges are returned between the hours of 10 and 5, on application at the window of the hall in St. Martin's-le-Grand; the letter or envelope marked with the overcharge must be produced. The letter may be sent to the office by the district letter-carrier, and the overcharge will be returned in the course of two days. Overcharges may likewise be obtained at the Branch Office in Lombard-street.

All letters containing improper enclosures, such as razors, scissors, knives, forks, &c., or anything by which pressure might prove injurious, will be detained at the office where posted, and the party by whom sent must apply there for it.

Any kind of books can now be sent by post at sixpence per pound; but they must be sent in single volumes, and the sides open. The name and address of the sender may be written on or in such book in addition to the name of the party to whom sent. The postage must in all cases be paid in advance, by stamps.

Should anything in addition to the name and address of the party sending, and the name and address of the party to whom sent, be written in any part of such book, it will then be liable to postage at the rate of twopence per ounce, *excepting newspapers*, which, by having a penny stamp affixed, may be written upon as a letter, without being liable to be charged by weight.

The Capital of the Bank is £5,000,000 sterling, in 50,000 Shares of £100 each. The sum of £20 has been paid on each Share, so that the paid up Capital is £1,000,000 sterling.

Parties who are desirous of having Current Accounts without being under the necessity of keeping a balance are charged a small commission, proportionate to the amount of their transactions. This extends the advantage of a Banking Account to parties having moderate incomes, or who in the course of their business find ample employment for their capital.

Sums from £10 to £1000 are received on Deposit, at a rate of interest to be fixed at the time, and they are repayable upon demand, without notice. For these sums Receipts are granted called Deposit Receipts. By allowing interest for small sums, the benefit of the Deposit system, as practised in Scotland, is extended to all classes of the community.

Sums of £1000 and upwards are also received on Deposit Receipts, upon such terms as may be agreed upon, with regard to the rate of interest, and the time of repayment. Trustees and others who have money which they cannot immediately employ, may thus obtain an interest for it, until an opportunity occurs for its permanent investment. Parties may lodge money upon an Interest Account who have no Current Account, and those who have Current Accounts may transfer any portion of their balance to an Interest Account.

The London and Westminster Bank issues CIRCULAR NOTES for the use of travellers and residents on the Continent. These Notes are payable at every important place in Europe, and thus enables a traveller to vary his route without inconvenience: no expense whatever is incurred, and when cashed no charge is made for commission. They may be obtained at the City Office in Lothbury, or at any of the branches.

This Office unites the benefit of a Mutual Association with the security of a Proprietary Company, and offers to the assured, amongst others, the following advantages:

1. Credit until death, with privilege of payment at any time previously, for one-half of the premiums for the first five years, upon Assurances for the whole of life; a plan peculiarly advantageous for securing loans.
2. In loan transactions, the lender secured against the risk of the borrower going out of Europe.
3. Sums assured to become payable at given ages, or death, if previous.
4. Policies indefeasible; fraud alone, not error, vitiating them; and in case the Renewal Premium remain unpaid, the Assurance may be revived at any time within six months, upon satisfactory proof of death, and payment of a trifling fine.
5. No extra premium is charged for persons in the Army or Navy, unless in active service.
6. Persons assured in this Office are allowed to reside in any place distant more than 33° from the Equator, and to voyage as passengers within the same limits, without payment of any additional premium.
7. Immediate Survivorship and Deferred Annuities granted, and Endowments for Children, and every other mode of provision for families arranged.

All the rates will be found to have been computed as low as is consistent with security.

BONUS, OR PROFIT BRANCH.

Persons assuring on the Bonus system will be annually entitled to 80 per cent. of the profits on this branch (after payment of five yearly premiums); and the profits assigned to each policy may be either added to the sum assured, or applied in reduction of the annual premium.

NON-BONUS, OR LOW PREMIUM BRANCH.

The tables on the non-participating principle afford peculiar advantages to the assured, not offered by any other office; for where the object is the least possible outlay, the payment of a certain sum is secured to the policy-holder, on the death of the assured, at a reduced rate of premium.

N.B.—The patronage of the Nobility, Clergy, Military and Naval Officers, Gentry, and the Public in general, having proved so extensive, a Sixth Edition of near 900,000 is found to be necessary. Persons seeking the change of air for the restoration of their health and strength should peruse this Pamphlet, as it would not only prove valuable to themselves, but impart a mode of real charity by which the distressed could be relieved.

The testimony of the Rev. W. S. Lendon, of Weymington, Bedfordshire, will be seen as effectually relieving himself of the Lumbago, and Rheumatic Pains from which he had suffered many years, also with many others. The testimony of the Rev. C. W. Cockburn, of Pembroke, whose daughter was relieved from a severe affliction, which had resisted all medical aid; and, from the extent of good done by the Rev. Gentleman in his parish and neighbourhood, strongly recommends it to his brother Clergy as a cheap, safe, yet efficacious remedy for general suffering.

Policies do not become forfeited by persons whose lives are assured going to tropical climates without the consent of the Directors, provided that the parties interested pay the extra-premium as soon as the fact of such departure comes to their knowledge.

At the last division of profits the bonus allotted to policies effected at ages exceeding 49 years, amounted to two per cent. per annum on the sum assured, together with an equal rate of prospective bonus, payable, if death ensue before the end of the year 1851—the time appointed for the next quinquennial division of profits.

The average rate of reduction during the last ten years has exceeded 65 per cent., and for the year 1850, the reduction was 68 per cent., leaving less than one-third of the original premium to be paid.

The Society also undertakes other descriptions of Assurance, in which the assured do not become members; and, having ceased to allow commission to Agents, the Society has been enabled to reduce the Premiums for this class of Assurances to the following very low rates:—

RUPTURES.

Mr. WHITE begs to invite the attention of those affected with HERNIA to an improvement lately effected in the MOC-MAIN PATENT LEVER TRUSS. The character of this Truss is extremly simple; it consists of a small, light, and elastic pad, to which is attached a lever, and a soft bandage to circumscribe the body, in lieu of the usual steel spring, the whole fitting so closely as to escape observation, while the resisting power is stronger than in the ordinary trusses. It is easily adjusted, and may be worn during sleep. Upwards of 200 professional gentlemen in London have testified to its excellence. By sending the circumference of the body two inches below the hips, the Truss, which cannot fail to fit, can be transmitted by Post.—A Descriptive Circular may be had.

President.—His Grace the Duke of Sutherland, K.G.
Chairman.—Sir Peter Laurie, Alderman.
Deputy-Chairman.—Francis Warden, Esq.
Physician.—John Webster, M.D., F.R.S.

The benefits of life assurance are afforded by this Company to their utmost extent, combined with perfect security in a fully subscribed Capital of £1,000,000, besides an accumulating premium fund, exceeding £524,000, and a revenue from life premiums alone of more than £105,000, which is annually increasing. Four-fifths of the profits are septennially divided among the insurers on the participation scale of premiums. On insurances for the whole life half the premiums may remain on credit for the first five years.

Tables of increasing rates have been computed on a plan peculiar to this Company, whereby assurances may be effected for the whole term of life at the least possible immediate expense.

The following Table exhibits the Bonus additions to a Policy for £5,000, at the termination of the septennial periods, 1837 and 1844:

Policy opened in the year	Bonus added in 1837.	Bonus added in 1844.	Total Bonus in 1844.

This Society has now been established upwards of forty-one years, its governing principles being those of Mutual Assurance, and it has paid to the representatives of four thousand deceased members upwards of £3,000,000 sterling; in addition to which nearly £1,000,000 has been assigned by way of bonuses. The Capital of this Society for meeting existing engagements exceeds £2,000,000 sterling, and is almost wholly invested in real and government securities. There is no proprietary to divide with the assured the profits of the Institution, which are, therefore, periodically assigned in additions made to the sums assured on all Policies for the whole duration of life, in proportion to the amount of premium paid. One-half the First Five Annual Premiums may remain as a Permanent Charge upon the Policy, thus affording the means of making a temporary insurance at a rate far below that ordinarily charged, with the additional advantage of being able to continue the Policy. The Premiums under the age of 45 years are ten per cent. below the usual rates, thus giving an immediate bonus of £100 upon every £1,000 insured, in addition to future bonuses.

For Prospectuses apply at the Society's Offices, 6, Crescent, New Bridge-street, Blackfriars.

Insurance from loss or Damage by Fire has been found a measure of great importance to the security of Property and to the happiness of Families. This precaution is seldom neglected by Merchants and Tradesmen, and is equally necessary to Gentlemen, Farmers, and Manufacturers of every kind. The Phœnix Office was established by a numerous Proprietary in January 1782, upon principles of public utility. The promptitude and cheerfulness with which the most important losses have been made good by the Company are well known; a large Capital in Government Securities is at all times held in readiness for that purpose.

N.B.—The private fortune of every individual Shareholder in theCompany is responsible for its engagements; and no person insured in this Office is liable for the losses of others, as is the case in Contribution Societies.

The Scottish Equitable being a Mutual Assurance Society, their Profits are not, as in Proprietary Companies, divided between the Partners of the Company and the Assured. The WHOLE PROFITS BELONG TO THE POLICY-HOLDERS, among whom they are allocated every THREE YEARS. In illustration of the eminent success which has attended the Society, it may be stated, that the *additions* made to policies have been at the rate of 2 *per cent. per annum on the sum assured* and on the VESTED BONUS. It is, therefore, impossible for any Assurance Office to give greater advantages to Assurers than are given by this Society.

The Profits or Bonuses may, in the option of the Assured, be applied thus:—

1st. They may be added to the sum Assured, payable at death; or,

2nd. They may be commuted into a present payment to the Policy-holders; or,

3rd. They may be applied in Reduction of the future Annual Premiums.

On Policies taken out for the whole term of life, one-third of the Annual Premiums may remain unpaid until death; thus parties are enabled to effect an assurance, say for £1,200, by the payment of Premium on £800 only,

The half-credit system for 5 years is also adopted.

Four-fifths, or 80 per cent. of the entire profits are appropriated to assurers entitled to share therein.

The Bonus at the last division averaged 23 per cent. on the amount of premiums paid.

PRINCIPLES ON WHICH THIS CHARITY IS REGULATED.

In-Door Patients.—Foreigners, strangers, and others, in sickness or disease, having neither friends nor homes, are admitted into the wards of this hospital, on their own application, so far as the means of the charity will admit.

Out-Door Patients.—All sick and diseased persons, having no other means of obtaining relief, may attend at this hospital any day at one o'clock, when they will receive medical and surgical advice, and medicine free.

The number of persons who have participated in the benefits of this Charity since its foundation in February, 1828, is upwards of 310,000.

Previously to its foundation, there was no Medical Establishment in this Metropolis into which the Destitute Stranger, when overtaken by sickness or disease, could find instant admission, without letter of recommendation.

It is wholly supported by voluntary subscription, has no funded property, nor any other income than that which is contributed by the philanthropic portion of the community.

Contributions will be kindly received by the Treasurer, John Masterman, Esq., M.P., Nicholas-lane; by Messrs. Coutts and Co.; Drummonds and Co.; Herries and Co.; Smith, Payne, and Smiths; Glyn and Co.; Masterman; Jones Lloyd and Co.; Barclay, Bevan, and Co.; Denison and Co.; Williams, Deacon, and Co.; Prescott and Co.; Ransom and Co.; Overend, Gurney, and Co.; Nisbet and Co., Berners-street; and at the Hospital.

PEARS'S

Genuine Transparent Soap,

Recommended by the Faculty as the most perfect Cleanser and Emollient for the Skin.

ESTABLISHED HALF A CENTURY.

Under the distinguished patronage of the Royal Family and the Nobility.

The surface of the Skin of persons of delicate constitutions being the most subject to injury from intense heat, severe cold, inclement winds, and other vicissitudes of the weather, it is with unaffected satisfaction that the Proprietors assure them that this preparation is quite free from irritable or acrimonious particles, and therefore may be applied to the most tender skin with the happiest success; indeed, infants of the weakest frame and earliest age may receive the application with the greatest benefit; in which cases, most of the leading medical men have recommended it.

The great excellence of this Soap likewise is, that it may be used with equal pleasure in hard or soft water,—a circumstance which renders it extremely agreeable to gentlemen of the Navy, or families travelling. In a word, it is calculated for the ease, comfort, and satisfaction of every description of persons, change of air nor climate never in the least diminishing the invaluable properties it possesses.

Sold in Square Cakes, price 1s. and 1s. 6d.; and large Squares, perfumed with Otto of Roses, price 2s. 6d. each; also Wash Balls, price 2s. 6d.; and non-angular Tablets, price 2s. 6d.

FOR SHAVING.

Sold in Round Cakes, suitable for the shaving dish, price 1s., 1s. 6d., and 2s. 6d. each. This is a most desirable article for Naval or Military Gentleman, as it can be used equally well with cold or hot water.

PEARS'S SHAVING STICK

Is invaluable to Travellers and all whose time is precious. It produces with hot or cold water, an instaneous unctuous and consistent lather, which softens the beard, and thereby renders the process of shaving rapid, easy, and cleanly. Pear's Shaving Stick is formed from his Transparent Soap; its firm consistence makes it more durable than any other. Prices of Shaving Sticks, in cases, 1s. and 1s. 6d. each; by post, 4d. extra.

As a caution to the public, Mr. Pears intimates, that wheresoever or by whomsoever sold, it can never be genuine without the inventor's signature.

COLES'S
PATENT MEDICATED BAND
FOR CURING RHEUMATISM, &c. &c.

Muswell-hill and the Foundling, August 1, 1834.

Sir,—It having been suggested to me, whilst suffering under the most acute pain in my limbs from rheumatism, that you had discovered a remedy for that malady, I availed myself of it, and I have the happiness to assure you it has completely subdued the disease which had afflicted me for many years, notwithstanding I had tried every means in my power to obtain relief, with a perseverance proportionate to my misery.

I am, Sir, your obedient servant,
MORRIS LIEVESLEY.

Hatchett's Hotel, Piccadilly, and Cwmdu Crickhowel, South Wales, July 2, 1836.

Dr. Robert Nettles Croker, from motives of gratitude to Mr. Coles, for relief from severe pain, sends him this paper. Early in this month, and as far back as the 20th of May, he had suffered extreme torture from a fall from his horse; the muscular fibres of the coraco brachialis, and the deltoid muscles of the humerus were sadly strained, the weight of the horse and rider pointing to the top of the humerus. Mr. Robert Keate, his friend, attended—advised rest—to use a sling, and prescribed the constant application of leeches, with evaporating lotions, and remaining in bed; but his habits and engagements entirely forbade the completion of the latter part of this prescription. With extreme and almost intolerable torture, the complaint continued, he being but little affected by the leeches and local means employed. Dr. Croker then applied Coles's Patent Rheumatic Band, in which, however, he had but little faith, especially as his pains had not their origin in cold or rheumatism. As the surface of the body became warm with exercise, the remission of pain became instantly manifest, and in twenty-four hours Dr. Croker had scarcely any pain, and makes this singular avowal without attempting to explain the phenomenon, how a local external application of a mineral in a state of powder, can act in alleviating deep-seated muscular pain; the fact is most anomalous, and demands the attention of all practitioners. The bands should be worn many days after the pain has ceased.

ROBERT NETTLES CROKER, M.D.

4, Craven-street, Strand, London, April 22, 1837.

Lieutenant-Colonel Stisted, of the 3rd Regiment of Light Dragoons, informs those who have rheumatism, that he has worn Coles's Medicated Bands four months; that they have relieved him from a state of suffering scarcely to be described. The Colonel, to evince his gratitude to Mr. Coles, has authorised him to make use of his name in any way he thinks proper.

Reading, October 13, 1843.

Major-General Welch, of the Hon. East India Company's service, having been recommended by his physician to try Mr. Cole's Medicated Bands for the relief of Lumbago and Sciatica, begs to say, although he had been a great sufferer, they relieved him in three days.

N.B.—A Letter on Rheumatism may be had, price Two-pence, at the MANUFACTORY, No. 3, Charing-cross.

A NEW DISCOVERY IN TEETH.

Mr. HOWARD,

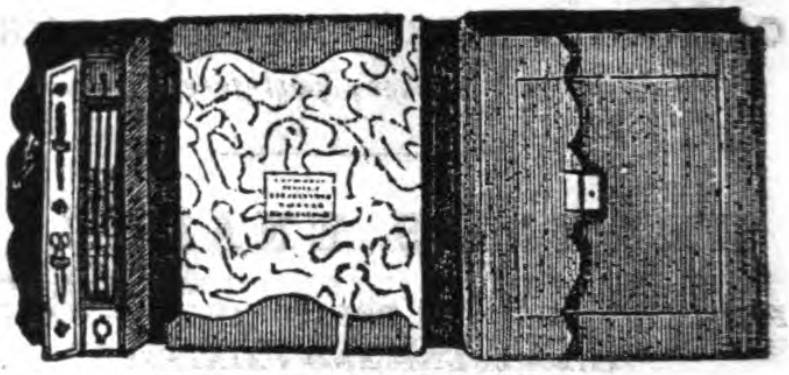

Surgeon Dentist,

No. 52, FLEET-STREET,

Has introduced an Entirely New Description of Artificial Teeth, fixed without springs, wires, or ligatures. This method does not require the extraction of roots, or any painful operation, will support and preserve teeth that are loose, and is guaranteed to restore articulation and mastication—and that Mr. HOWARD'S improvement may be within the reach of the most economical, he has fixed his charges at the lowest possible scale. BRANDE'S ENAMEL,

FOR FILLING DECAYED TEETH, AND RENDERING THEM SOUND AND PAINLESS,

Has, from its unquestionable excellence, obtained great popularity at home and abroad. Its curative agency is based upon a true theory of the cause of Tooth-ache, and hence its great success. By most other Remedies it is sought to *kill the nerve*, and so stop the pain. But to destroy the nerve is itself a very painful operation, and often leads to very sad consequences, for the tooth then becomes a dead substance in a living jaw, and produces the same amount of inflammation and pain as would result from any other foreign body embedded in a living organ. BRANDE'S ENAMEL does not *destroy the nerve*, but by restoring the shell of the tooth, completely protects the nerve from cold, heat, or chemical or other agency by which pain is caused. By following the directions, instant ease is obtained, and a lasting cure follows. Full instructions accompany every packet.

BRONCHIAL SEDATIVE:

A Specific for Coughs, Colds, Influenza, Bronchitis, Asthma, Pulmonary Phthisis, Derangement of the Voice, and all affections of the Chest and Lungs, compounded under the direction of a Professional Gentleman, who for many years has made the Anatomy and Pathology of the Chest and Lungs his particular study.

Since the introduction of this medicine, it has been rapidly supplanting all other preparations administered for pulmonary disorders.

Sold by all Chemists and Patent Medicine Vendors, at 1s. 1½d. per packet, and 2s. 9d. tins; Post-Free, 1s. 3d., and 3s. 5d.

The influence of BRANDE'S BRONCHIAL SEDATIVE pursues the exact tract of the inflammatory action causing cough. First soothing the glottis and epiglottis (the organs of voice), its sedative influence passes along the mucous lining of the windpipe into the bronchii, and allaying pulmonary irritation, giving ease and comfort to the chest—restoring the voice to its accustomed clearness and power.

Sold by Chemists everywhere. Wholesale by all the London Medicine Houses. Should there be the least difficulty in obtaining the above preparations, enclose postage stamps to J. WILLIS, 24, East Temple Chambers, Whitefriars, Fleet-street, London, and you will be sure of the genuine article by return of post.

SASSAFRAS CHOCOLATE.

DR. DE LA MOTTE'S

Nutritive, Health-restoring

AROMATIC CHOCOLATE,

Prepared from the Nuts of the Sassafras Tree.

This Chocolate contains the peculiar virtues of the sassafras root, which has been long held in great estimation for its purifying and alterative properties. The aromatic quality (which is very grateful to the stomach) most invalids require for breakfast and evening repast, to promote digestion; and to a deficiency of this property in the customary breakfast and supper may in a great measure be attributed the frequency of cases of indigestion generally termed bilious. It has been found highly beneficial in correcting the state of the digestive organs, &c., from whence arise many diseases, such as eruptions of the skin, gout, rheumatism, and scrofula. In cases of debility of the stomach and a sluggish state of the liver and intestines, occasioning flatulence, costiveness, &c., and in spasmodic asthma it is much recommended.

Sold in pound packets, price 4s., by the Patentee, 12, Southampton-street, Strand, London; also by appointed agents, chemists, and others throughout the kingdom.

CAUTION.—Numerous attempts being made by using Struve & Co.'s bottles, imitating their labels and stamps, and the adoption of the general appellation of "Brighton Seltner" "Brighton Fachingen" &c., to impose upon the public Spurious Waters, a careful analysis of some of which has shown the total absense of Iron in the professed Chalybeates, and a general disregard to their true chemical composition, Struve and Co. beg to state that they have not the remotest connection with these parties, and that every bottle of Struve's Mineral Waters has a red ink stamp over the cork, having the words "Royal German Spa, Brighton," beneath the Royal Arms, and on each side the signatures of "Struve and Co."

MEDICAL, INVALID, & GENERAL
LIFE ASSURANCE SOCIETY.

Offices—London, 25, *Pall-mall*; *Dublin*, 22 *Nassau-street*; *Frankfort, Grosse Eschenheimer Gasse*; *Hamburg, Neuer-wall*; *Stockholm, Lilla Nygatan.*

At the ANNUAL GENERAL MEETING of this Society, held on Thursday, the 28th day of November, 1850,

BENJAMIN PHILLIPS, Esq., F.R.S., in the chair,

The accounts of the ninth year of the Society's business ending the 30th September, 1850, and the Report of the Auditors thereon, having been read and duly received, the following Report of the Directors was also read:—

REPORT.

"The Directors are happy to have it in their power to inform the Shareholders, that the financial year ending the 30th September, 1850, has furnished the most satisfactory results which they have yet had to lay before the Shareholders, whether as regards the amount of new business done, or the extent of losses incurred.

"During the year ending the 30th September, 1850, there have been issued no fewer than 569 policies for assurances, amounting to £213,469 16s. 11d., and yielding an annual revenue, on the new policies thus effected, of £9,163 13s. 7d.

"This exceeds the amount of business transacted by this Office in any former year, not only in the number of policies, and the sums assured by those policies, but also in the yearly premiums payable upon them.

"The following table shows the results of the business transacted in each year since the establishment of the Society:—

Year.	Number of New Policies issued in each Year.	Sums Assured by New Policies in each Year.	Annual Premiums payable on New Policies in each Year.
1842	130	£55,245 1 0	£1,882 13 7
1843	208	87,830 16 11	4,992 18 6
1844	197	80,415 8 6	4,120 4 3
1845	258	103,014 11 0	5,563 17 0
1846	199	83,700 14 5	4,985 8 5
1847	313	113,542 4 8	4,237 3 4
1848	412	124,458 17 9	4,980 2 8
1849	475	201,712 15 6	7,496 0 6
1850	569	213,469 16 11	9,163 13 7
Total. .	2761	£1,063,390 6 8	£47,422 1 6

"It is plain from this statement, that in the course of a very few years, the Society has acquired a very large amount of business, equalled by few of the Assurance Companies in the metropolis.

"The Directors wish to impress on the Shareholders the imporant fact that this rapid acquisition of business is not owing to any accidental cause, but has taken place uniformly throughout the whole field of the Society's operations, showing clearly the confidence reposed in the Society by the public.

"It is also most gratfying to be able to report that the losses by deaths during the past year have been less than in any preceding year since 1844; from which it appears that, with the exception of the three first years of the Society, when the number of policies in force was not one-fourth of the present number, the mortality has been less than in any other.

Prospectuses, containing very full tables of rates, forms of proposal, and every other information, will be forwarded, postage free, on application to any of the Society's Agents, or to the secretary, at the chief office, 25, Pall-mall.

The Imperial Coverlet.

499, *NEW OXFORD-STREET.*

W. H. BATSON AND Co.

Take the liberty of calling the attention of the public to their

"IMPERIAL COVERLETS,"

Which, notwithstanding the very limited space of time that has elapsed since their first introduction, have already received a distinguished and most extensive circulation, both in this and other countries. Numerous voluntary testimonials, both of a private and professional character, have been received, speaking in the highest terms of the many superior qualities they possess for general purposes, over Blankets and Counterpanes. Warmth is imparted to an extraordinary degree, and their extreme lightness greatly facilitates sleep; thus rendering them of essential service to invalids and aged persons. They allow the perspiration to escape freely from the body,—they repel damp from the atmosphere, and will not harbour insects of any kind.

For summer use they will be found equally advantageous. The number of folds of the Patent Cotton Wadding (of which material they are made,) can be diminished or added according to the requirements of the season; and, whilst affording the necessary warmth, the weight will be almost imperceptible.

Another decided advantage is, the very low price at which they can be obtained, and though so well adapted to meet the wants of the poor, they can be made up to suit the tastes and habits of the wealthier class, and have been patronized by many of the nobility and gentry, being made up in rich Silk, Satins, and Silk Velvets, beautifully quilted and embossed, with their own arms and other devices.

Sole manufacturers of the Patent Spring Pillow, which is so highly recommended by the medical profession as the most useful article ever invented for affording great ease and comfort to the invalid.

Spring Cushions made for Chairs and Carriages, to any shape and size.

HOWARD ON THE LOSS OF TEETH.

A NEW and important invention connected with Dental Surgery has been introduced by Mr. HOWARD, consisting of an entirely NEW DESCRIPTION OF ARTIFICIAL TEETH, fixed upon a new principle by SELF ADHESION, combining Capillary attraction, and Atmospheric Pressure, without springs, wires, or ligatures. They so perfectly resemble natural teeth, as not to be distinguished from the originals by the closest observer. They will never change colour or decay, and will be found very superior to any teeth ever before used. This method does not require the extraction of any Teeth or Roots, or any painful operation, and will support and preserve the teeth that are loose, and is guaranteed to restore articulation and mastication. The invention deserves the notice of the scientific, and is of importance to many persons, and those who are interested in it should read this Treatise.—London, Simpkin and Marshall, and all Booksellers, or sent free to any address if 60 Stamps are sent to the Author, 17, George-street, Hanover-square, London.

PROTECTOR INSTITUTION,

FOR

SUPPLYING THE NOBILITY AND GENTRY

WITH

Respectable and Efficient Servants,

No. 117, *GREAT RUSSELL-STREET*,

BLOOMSBURY-SQUARE.

ESTABLISHED 1828.

CONDUCTED BY MR. AND MRS. ADAMS.

The difficulty of obtaining good and efficient Servants is a subject of common and almost universal complaint with Families; in the mean while, the causes that conduce to that difficulty are too apparent to be misunderstood. Much of the evil proceeds from a loose and incautious mode of inquiring characters—much from a system of fraud, by which characters and recommendations are given in barter for anticipated rewards, and much from a disingenuous mode of giving characters under a false notion of humanity.

Independent of these considerations, the personal trouble to which Families are subject, by the application of a great number of persons wherever a vacancy is known to have taken place, and many of whom are wholly unfit for the places to which they offer themselves, is a reason for establishing a better mode of engaging Servants.

The objects of this Institution are—to over-rule these difficulties, and to supply the Nobility and Gentry with Servants of good Character, in the most prompt and convenient manner. With this view, it is not the practice of the Institution to have Servants in *daily waiting*, experience having shown that that practice induces idle gossiping, and tends to the formation of improper acquaintances; but the plan is, from day to day, to order the attendance of Servants to meet appointments (which subscribers may make either at the Institution or at their own houses): by these means selection is made from the books of Servants who accord with the instructions that are given, and the obtrusiveness of unsuitable persons is avoided.

IMPORTED AND SOLD BY

SAMUEL HICKSON and SON,

72, WELBECK STREET, LONDON.

SAMUEL HICKSON & SON have at all times an assortment of the choicest and newest patterns of these Lamps, of the best manufacture. The principle on which they act, consists in forcing the oil, by means of a powerful spring, into the burner, which is thus constantly supplied, giving a perfectly brilliant and continuous light through the longest evening. They may be had, elegantly designed, as simple columns or otherwise; they are perfectly shadowless, the reservoir being in the lowest part, and are consequently adapted equally for table, or with reflecting shades for reading lamps. The oil used is low in price, and the light of six candles is obtained at the expense of a pair.

Though superior both in taste and usefulness, the MODERATOR LAMPS may be had lower in price than any other description of table lamp.

French globes, chimneys, cottons, a superior description of vegetable oil (which *only* should be used), and every requisite. Moderator Lamps repaired, and cleaned at a moderate charge.

Nine-tenths of the Profits are appropriated to the Assured, either by a proportionate diminution of Premium, by an increase in the amount of the Policy, or by a present payment of the value in money, at the option of the party. It will thus be observed that this Society is based on a better principle than that of Mutual Assurance, as there is a guaranteed capital for the Assured without any liability on their part, besides a division of nearly all the profits.

A division of Profits is made every five years.

The society will be always ready to purchase from the party in possession any unexpired Policy, or the Additions thereon.

The Society will also advance on Loan, at Interest, to the extent of nine-tenths of the actual present value of Policies effected in their own Office, and on that of such other Policies as they may deem it expedient to accept as security.

It may be worthy of remark, that from the institution of this Society to the present time, a period of more than a quarter of a Century, no Claim has been disputed.

*** On the 26th June, 1850, the Fifth Quinquenial division of Profit was declared. The Addition made for the last 5 years was 7½ per cent. on the amount of the Policy, making, with former Additions, 47½ per cent. on all policies effected before June 1, 1826.

The present Reversionary Bonus amounts to £105,000, making, with former Reversionary Bonuses, a total of £450,000, granted out of the Profits of the Society, which Profits, on the four former Quinquennial Divisions, amounted together to £190,000, and on the present occasion to £67,000.

Amount accumulated from premiums	£600,000
Annual income.....	70,000
Outstanding policies.....	1,500,000

*** Personal appearance at the Office is not required, except in particular cases.

Persons assured in this Office for the whole period of life may go by sea, during peace, without obtaining a Licence or paying an extra Premium, from any part of Europe to any other part of Europe.

Rather more than five-sixths of the Assured in this Office are Clergymen.

Proposals for Assurances to be addressed to the Secretary, or to John Wray, Esq., Chairman of the Committee, 24, Suffolk-street, Pall-mall East, London; or to the Corresponding Directors, Manuel John Johnson, Esq., M. COLES' PATENT TRUSSES

FOR THE CURE OF HERNIA.

Holkham, Norfold, Nov. 1, 1850.

To Mr. Coles.

Sir,—I have been a great sufferer, almost from my infancy, from a rupture, and have tried many trusses without any benefit: necessity, however, compelled me to look out for one that I could wear, and, fortunately for me, I obtained one from you in 1841, and after wearing it some time I was enabled to sleep in it, and, by keeping it on night and day (incredible as it might appear), the complaint became, in one year, completely eradicated, and it is eight years since I dispensed with its use.

I have ridden on horseback, lifted heavy weights, ran and jumped, without ever feeling the least need of it. Hoping this may meet the eye of some who have been doomed to the like suffering, from the same cause, and that by seeking relief at your hands it may lead to the same happy result, is the sincere wish of,

Sir, yours most respectfully,

W. D. HIRST.

Berkeley-street, Cheltenham, Sep. 26, 1835.

From the Earl of Fingall.

Mr. William Coles.—Sir,—I have great pleasure in giving my testimony of the superiority of your Trusses over others. They have afforded me much more ease and satisfaction than any truss I had previously employed. I hope this certificate will be of service to you.

I am, Sir, your humble servant,

FINGALL.

The Rev. Dr. Dowdeswell informs Mr. Coles, that for many years before he called at his Establishment, at Charing-cross, he had worn trusses got up as he supposed by the best London Makers; but he considers it due to Mr. Coles to acknowledge that his Patent Trusses, which he has also worn for many years, are as much superior to those which he has formerly used as words can possibly describe them.

Dr. D., in authorising Mr. Coles to give it publicity, feels assured that he is conferring a boon on society.

48, Upper Grosvenor-street, Grosvenor-square, May 15, 1848.

No. 36, Howland-street, Fitzroy-square, June 22, 1830.

Sir,—After six months wearing a Truss of your construction, I am perfectly cured of an inguinal hernia, which was in appearance the size of a watch, and which had existed six months. I am now happy to inform you that I have left off my truss a fortnight, and have not experienced any descent of the hernia. I therefore most heartily wish you that success which your ingenuity so amply deserves.

ROB. THORNTON, M.P.

British Museum, November 9, 1848.

Sir,—Having suffered much from the use of imperfect trusses, I had recourse to your Patent, two of which I wore for sixteen years, which cured me completely.

I have now the pleasure to say that for the last two years I have not had a truss on my person.

I am, Sir, yours, with gratitude,

WILLIAM LEACH.

ARE EFFECTUALLY CURED BY

KEATING'S

COUGH LOZENGES.

During a period of more than 40 years this valuable medicine has triumphantly borne the severest test of public opinion, and upon that sound basis alone, it has gradually but surely won its way to pre-eminence, until it is now universally acknowledged to be the most effectual, safe, and speedy remedy ever offered to the world for that large class of disease that affects the Pulmonary Organs.

Prepared, and sold in Bozes, 1s. 1½d., and Tins 2s. 9d., 4s. 6d., and 10s. 6d. each, by THOMAS KEATING, Chemist, &c., No. 79, St. Paul's Churchyard, London; and Retail by all Druggists and Patent Medicine Venders in the Kingdom.

IMPORTANT TESTIMONIALS.

Church-street, Folkestone, Nov. 22nd, 1848.

Sir,—Having been troubled with a very bad cough for the last eight months, I applied to Mr. Hammon, Chemist of this Town, for some relief; he recommended me your "Cough Lozenges," which I am happy to say cured me in a week. I beg most cordially to recommend them, and beg you will not hesitate to make this letter public; such a valuable remedy cannot be too highly recommended.

I have the honor to be, Sir, your obedient humble Servant,

To Mr. Keating. JOHN HILL, Bart.

St. Paul's Cathedral, 30th Nov., 1849.

Sir,—I have much pleasure in recommending your Lozenges to those who may be distressed with Hoarseness. They have afforded me relief on several occasions when scarcely able to sing from the effects of Catarrh. I think they would be very useful to Clergymen, Barristers, and Public Orators.

I am, Sir, yours faithfully,

To Mr. Keating. THOMAS FRANCIS, *Vicar Choral.*

HOSPITAL

FOR

Diseases of the Chest and Consumption,

BROMPTON.

INCORPORATED BY ACT OF PARLIAMENT.

Established for the reception of Patients from all parts of the Kingdom.

The Committee of Management have high satisfaction in announcing to the Friends and Patrons of this valuable Institution, that for the special purpose of completing the Building,

HER MAJESTY THE QUEEN, AND HIS ROYAL HIGHNESS THE PRINCE ALBERT,

HAVE MOST GRACIOUSLY CONSENTED TO PATRONISE

A GRAND BAZAAR,

TO BE HELD IN JUNE NEXT,

IN THE GARDENS OF THE ROYAL HOSPITAL, CHELSEA.

Donations of Work, Paintings, Drawings, Music, Autographs, Minerals, Botanical Specimens, and other Articles, or pecuniary aid, forwarded to the Secretary at the Brompton Hospital, will be gratefully acknowledged.

The committee of this Institution earnestly appeal to the sympathies of the public on behalf of a very numerous class of patients subject to one of the most painful and destructive maladies incident to our climate, and which, from its lingering and frequently incurable character, has been generally excluded from the practice of our Hospitals.

The medical Report issued in 1849, detailing statistically the successful results attained by professional treatment, from the foundation of the Institution in 1842 to the close of the year 1848, fairly entitles the Hospital for Consumption to a still more liberal share than it has yet enjoyed of public patronage, the number of patients who during that time have received relief altogether amounting to 10,939; about three-fourths of these cases occur among the working male population of the metropolis, whose callings confine them to unventilated work-rooms, ill-constructed dwellings, or to a vitiated atmosphere, consequent on hours of toil, and who, having families dependent on their restoration to health and strength, may honestly claim "a tithe" from the bounty of those whom Providence has blest.

Notwithstanding the support already given by a generous public, aided to the extent of £1776 by the munificence of Miss Jenny Lind, towards "the Special Building Extension Fund," (intended for the completion of the building,) to which a further sum of £1350 11s. has been *conditionally* suscribed by the public, there still remains £1387 to be collected even before the latter subscribtion can be made available; and the Committee respectfully but earnestly submit this brief but truthful appeal to the charitable consideration of a benevolent public, satisfied (as the medical reports show) that the evils consequent on Pulmonary Diseases have been proved, by the aid of medical science, and under God's blessing, capable of much alleviation, and, in many instances, of eventual cure.

A donation of £31 10s., or an Annual Subscription of £3 3s., entitles the donor to the privileges of a Life Governor.

Subscriptions and Donations will be thankfully received by the Treasurer, J. Labouchere, Esq., 20, Birchin-lane; by Messrs. Barclay and Co.; Cocks, Biddulph, and Co.; Coutts and Co.; Drummonds and Co.; Glyn, Hallifax, and Co.; Hankeys and Co.; Herries, Farquhar, and Co.; Ransom and Co.; Williams, Deacon, and Co.; Hatchards, Piccadilly; Nisbet and Co., Berners-street, Oxford-street; and by the Secretaries.

MEDICAL TESTIMONIALS.

"The Messrs. S. and B. SOLOMONS' Newly-Invented Spectacle Lenses afford astonishing relief to extremely imperfect vision; we give them the decided preference to every other kind of lens; the clearness of the transparency brings every object very distinct, and enables individuals to view the most minute particle with perfect accuracy. They are particularly pleasant by candle-light, as they appear cooling to the sight, and soften bright and brilliant lights."—J. Blundell, Esq., M.D., 1, Great George-street, Westminster; T. J. Pettigrew, Esq., Surgeon, F.R.S., 8, Savile-row; A. White, Esq., Surgeon, 3, Parliament-street; G. Cursham, Esq., M.D., 5, Savile-row; W. Day, Esq., Surgeon, Isleworth; John Hooper, Esq., Surgeon, 29, Newington-place, Kennington; &c.

DEAFNESS.—NEW DISCOVERY.—The Organic Vibrator, an extraordinary powerful small newly-invented instrument, for deafness, entirely different from all others, to surpass anything of the kind that has been, or probably ever can be, produced: it is modelled to the ear, so that it rests within without projecting, and being of the same colour as the skin, is not perceptible. The powers of this valuable new invention are so great as to bring very defective hearing to its perfect and natural state, and to enable deaf persons to enjoy general conversation, to hear distinctly at church and at public assemblies: the unpleasant sensation of singing noises in the ears is entirely removed, and it affords all the assistance that could possibly be desired. Newly-invented Telescopes, the most powerful ever made. Opera and Race-course Glasses, with extraordinary great power. Also a very small powerful waistcoat pocket Glass, only the size of a walnut, to discern minute objects at the distance of from four to five miles.—39, Albemarle-street, Piccadilly, opposite the York Hotel.

CLARK'S LAMPS ARE THE BEST.

The Metropolitan Light Company have now all their Lamps perfected. Their immense business speaks volumes for the good quality of their goods. The Diamond Lamp is the most simple, the most economical, and the best of all Lamps. The Pearl Candle Lamp is worth a hundred other candle lamps to the customer. Any person's lamps can be altered to the diamond principle. Clark's Lamps are the best the world has yet produced. This is a bold assertion, but it cannot be contradicted; and all who want lamps should remember this. After this notice, the public will only have themselves to blame if they purchase the common solar or carcel lamps.—N.B. Please write down the address. This is a caution to the public to prevent persons

going to the wrong establishment, and thereby having lamps sold them that are bad in principle, and which are imposed on the public as the Diamond Lamp. You can only buy good lamps of the Metropolitan Light Company. Also Clark's Diamond Lamp Oil, 5s. per gallon, is unequalled.—Spermaceti, and other Candles.—Transparent Wax Candles, eighteen shillings per dozen lbs., thus given a specimen of the prices.—Clark's Royal Wax Candles, excelling all others. Prices sent per post, on application.—RICHARD CLARK, Resident Manager, 447, West Strand (next door to the Electric Telegraph Company, and exactly opposite Warren's Blacking Warehouse).—*November*, 1851.—N.B. The Company supply Gas Chandeliers, and Gas Fittings in general, and fix Gas Works at Wholesale charges.

Smart's Institution for Adult Tuition,

5, Piccadilly, between the Haymarket and Regent-circus.

Mr. SMART begs to inform his Friends and the Public, that he continues to give Lessons in those branches of useful knowledge, which his long practice and acknowledged proficiency render him eminently competent to teach. The many flattering compliments received from pupils he has had the pleasure of instructing, persuade him that he is not too sanguine in believing that a continuation of his exertions will meet with a corresponding extension of their support.

NEW SYSTEM OF WRITING.

Persons of any age, however bad their writing, may, at a trifling outlay, in from Eight to Twelve Easy Lessons, acquire permanently an elegant and flowing style of Penmanship, adapted either to Mercantile pursuits or Private Correspondence. The numerous testimonials received by Mr. Smart from his pupils during many years' experience, sufficiently prove his competency to impart a knowledge of the systems so speedily and so effectually as to defy all competition.

ARITHMETIC

Taught on a method requiring only one-third the time and mental labour usually requisite, the simplicity of which is suited to the meanest capacity.

BOOK-KEEPING BY DOUBLE ENTRY,

As at present practised in the Government, Banking, and leading Merchants' Offices, taught in a time incredibly short, by a method that avoids much of the labour requisite by the old artificial system, whilst from the clear and practical arrangement of the entries, it imparts to the pupil a certain proficiency.

"Amongst the branches to which our attention was more particularly directed, was Book-keeping; without a knowledge of which it would be dangerous for a capitalist to embark in business of any kind. At Mr. Smart's establishment he is not only taught the general principles of book-keeping in a short space of time, but he is made to comprehend a variety of systems from which to chose that best suited to the business in which he is about to embark. His mode of teaching is a vast improvement upon any former system which has come under our inspection."—*London Journal of Commerce.*

SHORT-HAND,

In a few interesting exercises, exactly as the Reporters write it, with all the most approved methods of abbreviation.

Pupils are received (privately), and taught at any time suiting their own convenience. Seperate rooms for Ladies, in which department (if preferred) Mrs. Smart will attend. Lessons, one hour each.

For terms, &c., apply to Mr. Smart, at the Institution, 5, Piccadilly, between the Haymarket and Regent-circus, between the hours of Ten in the morning and Nine at night.

MR. EISENBERG'S NEW WORK.

Just Published, in One Vol. Quarto, Price £1 1s.

THE DISEASES OF THE FEET,

Or, Practical Information on the Symptoms, Causes, and Treatment of CORNS, BUNIONS, and CALLOSITIES, and Instructions for the Management of the Hands and Nails, by JOHN EISENBERG, Author of "A Practical Exposition of the Human Foot," &c. &c.

Opinions of the Press.

"The book minutely describes a great evil in all its phases, and tells us how to avoid and get rid of it effectually; there can be no doubt as to Mr. EISENBERG'S skill."—*Morning Post*, Jan. 2, 1846.

"Who could have anticipated a most agreeable hour from a volume upon the diseases of the feet? It abounds with entertainment, anecdote, and illustration, and relates to the treatment of those maladies for which Mr. Eisenberg has justly acquired celebrity."—*Court Journal.*

"Mr. Eisenberg has displayed with much judgment the beauty and mechanism of the human foot. Some of his remarks upon the inattention to the comforts of the soldier, exhibited by allowing him to wear cramping shoes, are well worth perusal."—*Naval and Military Gazette.*

"Mr. Eisenberg has evidently had great advantages over those who are known in this country under the name of Chiropodists; he has received the elements of a good surgical education, and is thoroughly acquainted with those minute details which are taught in the best medical schools."—*English Gentleman.*

"Mr. Eisenberg's present work contains the result of considerable experience in the treatment of the diseases of the feet; we warmly recommend its perusal to our readers."—*British Friend of India Magazine.*

"Mr. Eisenberg has already acquired a European name as a most skilful operator. One would imagine that Mr. Eisenberg ought to be a little more selfish than to communicate the secrets of his *inimitable skill* to the world, but no such little jealousy and reserve are to be found in *his* character; superior to such mean consideration, and desirous, from a generous spirit of philanthropy, to benefit the world, in the excellent treatise which we have just before us, Mr. Eisenberg, with admirable simplicity, explains the wondrous mechanism of the hand and foot, details the various diseases to which they are subject, their causes, and the mode of prevention and cure."—*Dublin World.*

"Mr. Eisenberg has submitted the results of his studies to the world in this volume, showing the afflicted how they may heal themselves or be healed. It is a valuable contribution to surgical knowledge,"—*The Critic.*
