CORDING'S WADING BOOTS

Are superior to anything hitherto made for the comfort of

ANGLERS AND SNIPE SHOOTERS.

They are light, pliable, and never crack; impervious to water for any length of time; require no dressing to keep them in condition; and are pronounced by gentlemen who have tried them to be the only article fit for the purpose.

Cording's Driving Aprons

Are warm and pliable; may be folded any way without cracking; are much cheaper and far more durable than leather ones.

LIFE BELTS,

The best and most portable at CORDING'S—Post free for 10s.

AIR BEDS for Sea or Land Travelling; CUSHIONS for Railways and Invalids. COMPRESSIBLE SPONGING BATHS; Portable INDIA RUBBER BOATS, for One, Two, or Six Persons.

CORDING'S WATERPROOFS

Have been tested for several years; their general use by the Nobility and Gentry of the United Kingdom, and the Officers of the Army and Navy in all parts of the world, is a guarantee of their service and durability. They are made of various fabrics, suitable for Ladies' and Gentlemen's Wear, and are acknowledged by those who have used them to be the best and only ones TO BE RELIED ON IN ALL CLIMATES.

CORDING'S

GOSSAMER WATERPROOF COAT

FOR THE POCKET,

WEIGHT, ONLY 12 OUNCES.

Yachting Jackets and Trousers. Leggings and Southwesters. Travelling Knee Wrappers. Driving and Travelling Gloves.

A large Stock of Waterproofs on hand; and any Article made to order.

CAUTION—All Genuine Goods are stamped with the name of

J. C. CORDING, 231, STRAND.

FIVE DOORS WEST OF TEMPLE BAR.

PREFACE.

The present edition of the CAMBRIDGE DIRECTORY has been canvassed from house-to-house as before, and revised carefully and corrected to the end of April. In the present edition, a method has been adopted in the Street Index of printing those places which form portions of other streets or places in italic, thus, *Pemberton-villas*, Trumpington-road, shows that Pemberton-villas is not an independent street, but forms a portion of Trumpington-road, under which heading it will be found.

The divisions of the book remain as heretofore, a plan which has elicited universal approbation. No pains has been spared to ensure accuracy, and the proprietors trust that notice of inaccuracies will be forwarded to the publishers for future corrections, and, whilst trusting to the public for a continuance of the patronage which was so liberally bestowed upon the first issue, beg leave to say that it will be their endeavour in every future issue to extend the usefulness and value of the work.

A BOON TO LADIES IN THE COUNTRY.

All Country Orders sent Carriage paid or post free.

These unique inventions combine FIRMNESS with ELASTICITY; they fasten easily in front, fit closely, retain their original symmetry, and are adapted for every age, figure, and habitude.

FROM ABBEY, AND CASTLE, AND TOWER,

from RECTORY, PRIORY, VICARAGE, and PARSONAGE—from MANSE and GRANGE—from PALACES and PARKS, and COTTAGES and HALLS, and Homes of every class, throughout the length and breadth of the land, the Patentees are day by day receiving from Ladies NOTES OF APPROVAL, expressing admiration of the style, quality, accuracy of fit, and comfort of these elegant articles of attire; fuller acknowledgments of satisfaction they could not desire, higher or more valuable testimony they could not offer or receive. These notes of approval, collected in volumes, are their own evidence of veracity, and open to the inspection of any lady visitors.

COMFORT-LOVING ENGLAND.

"—— Your Corsaletto fits beautifully, and is a perfect treasure for comfort, fully deserving all the high eulogiums which it has gained."

"—— has great pleasure in adding her testimony to the comfort of the Corsaletto. She cannot give it greater praise than by saying it fully answers the expectations entertained on reading the prospectus."

"—— have tried several styles of Corsets, but have found none to answer so well as yours; they are, indeed, all they profess to be."

"—— is much pleased with the Resilient Bodice, which came safely by post. She never wore anything so comfortable, and considers it a great advantage that ladies residing at a distance can obtain so superior an article with so little trouble."

"——, sending measures for a young friend, is glad of the present opportunity of expressing her unqualified satisfaction with the Corsalettos. She never knew real comfort in dress till she wore them."

All Country Orders sent Carriage Paid or Post Free.

It is by this liberal regulation, placing them within reach of every lady in the land, that they have become to thousands upon thousands not only a luxury but a necessity, alike in regard to health, elegance, and convenience.

Fine Light Qualities made up for India, with Incorrodible Busks.

The Enlarged Prospectus, with Tinted Illustrations, Prices, Directions and Papers for Self-Measurement, &c., sent post free.

"Nothing can be more easy than to build them—nothing more simple than to remove them."—*Daily News*, May 22nd, 1862.

"We have seen them in operation, and taken note of every detail of thier construction; and we say without hesitation that for simplicity, portability and efficiency, for the practical pursuit and enjoyment of horticulture, they are of unquestionable excellency; and they place the horticultural public in a position of obligation to Sir Joseph Paxton, as having wrought into practice an original and ingenious idea."—*The Floral World*, Oct., 1860.

"Hitherto a greenhouse has been considered a luxury, only to be indulged in by the wealthy; but when it is found that Messrs. Hereman & Morton are still determined to carry out the principles so much insisted upon by Sir Joseph, of simplicity, durability, and excellence, together with the one important additional feature of cheapness, it must be acknowledged that they are worthy of praise for exertions which contribute so much to the comforts and elegancies of the many."—*Morning Post*, Feb. 24, 1866.

Illustrated Price Lists will be sent on prepaid Application.

Estimates given for Ornamental Conservatories, &c., to special sizes and designs; also for Heating Apparatus, fixed complete, on receipt of full particulars as to size and site.

GEOLOGICAL AND MINERALOGICAL MUSEUMS

Are open every day (except Sundays) between the hours of Eleven and Four o'clock.

THE UNIVERSITY PRESS.

Strangers and persons *in statu pupillari* are admitted to this establishment on Tuesdays, Thursdays, and Saturdays, from 12 to 1 o'clock, if accompanied by a Master of Arts.

THE BOTANIC GARDEN

Is open daily to all Graduates of the University (all Undergraduates giving their names and colleges, if required,) and all respectably dressed strangers on condition of their giving their names and addresses, if required. The hothouses may be visited from 1 o'clock till 4, by persons accompanied by the Curator.

THE FITZWILLIAM AND MESMAN MUSEUMS

Are open every day (except Sundays, Christmas Day, Epiphany, Purification, Ash Wednesday, Good Friday, Ascension Day, November 5th, and the first Wednesday of every month,) to Graduates of the University from 10 to 4, and to Undergraduates from 12 to 4. Tuesdays, Thursdays, and Saturdays are Public days, upon which all persons respectably dressed are admitted upon giving their names and addresses, if required.

THE ANATOMICAL MUSEUM

Is open to the Regius Professor of Physic at all times; to other Professors of Medicine or Natural Science, to Doctors and Bachelors of Physic, and to all Students attending the Lectures of the Regius Professor of Anatomy, or of any of the above Professors, from 11 to 12 every day, excepting Sundays, Christmas Day, and Good Friday. It is also open to Graduates and visitors introduced by a Member of the Senate, from 2 to 3 on Tuesdays, Thursdays, and Saturdays.

THE UNIVERSITY LIBRARY.

Is open to Graduates every day except Sundays, Christmas Day, St. Stephen's Day, the Circumcision. Epiphany, Purification, Ash Wednesday, Good Friday, Easter Monday and Tuesday, Ascension Day, Whit Monday and Tuesday, the Queen's Accession (June 20), All Saints' Day, November 5th, twelve days (including Sundays) immediately following Midsummer Day, and two days (exclusive of Sundays) next after each of the three other Quarter Days. On Saturdays it is open from 10 till 1, and on other days from 10 till 4. Undergraduates in their academical dress are admitted during the last two hours every day, excepting those above mentioned, and the first day the Library is open in every quarter. Persons who are not members of the University, wishing to consult the Library for the purpose of study or research, may do so upon obtaining permission from the Syndicate; and such persons shall be furnished with tickets, signed by the Vice-Chancellor or his deputy, specifying the time for which it is given.

Dear Sir,—I am glad to be enabled to bear my testimony to the value of the Patent Chimney Tops supplied to Lord Rivers, Rushmore Lodge. I have had upwards of fifty fixed, and I have not heard of a single complaint since of either down draught or smoke, although both were very frequent before I had your Tops fixed.

I am, Sir, yours truly,

LIEBIG'S EXTRACT OF MEAT

(EXTRACTUM CARNIS LIEBIG),

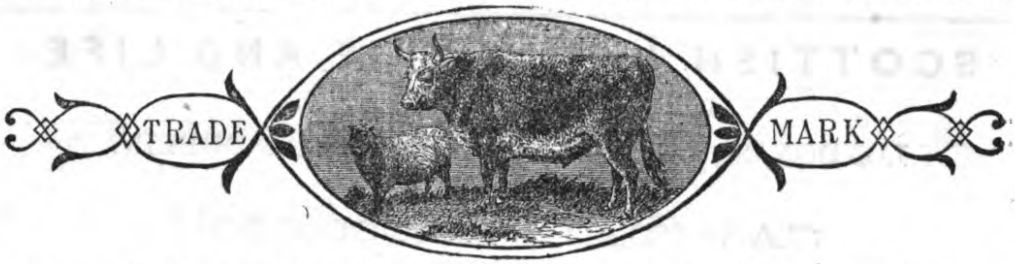

MANUFACTURED BY

Liebig's Extract of Meat Company Limited,

43, MARK LANE, LONDON,

AT THEIR MANUFACTORIES IN SOUTH AMERICA.

Analysed and certified Genuine by BARON LIEBIG, the Inventor.

One pound of this Extract contains the soluble parts of 34 lbs. of fine meat, either beef or mutton, free from fat and gelatine, corresponding with about 45 lbs. of English butcher's meat, inclusive of the usual quantity of fat and bones. It is used not only for medical, but much more extensively for household purposes, and when its real value is understood, the apparently high price will be found really moderate.

Persons suffering from weak digestion, invalids requiring strengthening diet, aged persons, children (particularly those of weak constitution, or suffering from scrofula), infants after beiug weaned, and ladies after confinement, will find this Extract, properly prepared in various very palatable forms, extremely useful. Taken with Rice, Arrowroot, Sago, &c., the Extract will be found to be an agreeable substitute for Cod Liver Oil, and equally efficient. At sea it is invaluable, being an excellent anti-scorbutic; also in travelling. It has proved of great value in hot climates, where it is almost impossible, on account of the nature of the meat, to obtain good beef tea. It keeps unaltered for years, and in any climate.

FULL DIRECTIONS WITH EACH PACKAGE.

NOTICE.—This is the only Extract of Meat analysed and warranted genuine by Baron Liebig, the Inventor, and authorised by him to be called *Liebig's Extract of Meat, or Extractum Carnis Liebig*. Every jar of the Company's Extract bears Baron Liebig's Certificate. Several imitations have appeared in the market, some of them very deficient in quality.

Cheap Reading for the Million.

It was reserved for this Company, by means of its Branch Agencies, to offer to the Reading Public a real boon in Literature, which, whenever it comes to be thoroughly understood, cannot but be fully appreciated.

The accumulated Stock of upwards of ONE HUNDRED YEARS—the largest of its kind in the World, composed of *separate Works*, not of the surplus copies of modern books alone—is thrown open to the lovers of literature at a cheaper rate than at any other Library.

All New Works besides, for which the first demand at the Chief Office has subsided, are placed at the service of THE SUBSCRIBERS TO ANY OF THE DEPOTS OF THE COMPANY, on the following most moderate scale of terms ever yet published:—

	Twelve Months.	Six Months.	Three Months.	Month.

HOPLEMUROMA.

By Appointment to Her Majesty and the Emperor Napoleon.

W. CLARK begs to call the attention of the Nobility and Gentry, also Trainers, Dealers, Brewers, Large Contractors, and all who have the care and management of Horses, to HOPLEMUROMA (Hoof Ointment) for the improvement of the growth of horses' feet.

HOPLEMUROMA (Hoof Ointment,)

TO cure and prevent brittle and shelly feet, sand cracks, seedy toes, diseased frogs, corns, navicular disease, jarring and tender feet. The use of this preparation does not stop horses from their usual work, and it encourages the horn to grow about half an inch per month, rendering it tough and elastic, preventing horses throwing their shoes.

Sold by all Saddlers, Chemists, and Bootmakers in the kingdom.

CLARK'S FAMILY OINTMENT.

This invaluable preparation, the wonderful properties of which have now for some time been well appreciated by a discerning public, is proved in a thousand instances to have alleviated the diseases and troubles of infancy and childhood. Chafings, rawness, boils, sores, and skin eruptions of every description, scald-head, ringworm, chilblains, cuts and bruises, croup and wheezing at the chest, have all in their turn yielded to its judicious and persistent application. Nor is it less efficacious in removing those distressing ailments which weary and dispirit persons of maturer years, whilst its healing, soothing, and palliative qualities recommend it, beyond all question, as the great panacea for those obstinate and irritating maladies so frequently attendant on an advanced period of life. Numerous well authenticated instances can be adduced of rapid cures, and permanent relief in severe cases of rheumatism, sprains, white swellings, sciatica, gout, boils, ulcers, bad breasts, whitlow, elephantiasis, sore throat, diptheria, &c.; rheumatics in the head, lumbago, corns, defective or in-grown nails, peeling off of the skin of the hands, chapped and cracked lips, wheezing in the throat or chest, scurvy, kicks, bruises, piles, fistula, &c. No person, whatever his or her station in life, should be without this Family Ointment, indispensable alike to the traveller, the sportsman, and the householder, to whom its virtues will prove a source of comfort and economy.

GAMGEE'S

Hoof Ointment.

This valuable preparation, adopted upwards of thirty years by Mr. JOSEPH GAMGEE, Sen., of the Albert Veterinary College, London, supersedes wet swabs, stoppings, and other dressings hitherto extensively used to the detriment of Horses' Feet. It improves the texture and condition of the hoof, and strengthens it.

Amongst the properties which commend this ointment to the notice of owners of horses and members of the veterinary profession, are its *lasting* good effects on the foot. One application weekly will suffice for horses in ordinary work and young stock, to keep their hoofs in a normal state; but for horses in hard work the dressing should be repeated every third day

In the case of Hunters, Race Horses, and all others used for fast work, the Hoof Ointment soothes the feet after exertion.

Sold in Canisters, for 1s. 6d., 2s. 6d., and 5s., and in Kegs of 10lbs., £1 each, by all respectable Chemists and Saddlers.

IMPORTANT TO ALL WHO USE MILK.

BARLAND AND CO.'S

PATENT COW MILKER,

Prize Medal awarded 1865.—Price 10s. the set of 4 complete.

The apparatus is simple. It consists of four electro-plated tubes one inch long; by grasping the teat as in ordinary milking, the mouth of the teat is opened, and into it, thus opened, the slanting end of the tubes are gently inserted with a rotary motion. *The cow milks herself in four minutes.* The apparatus is non-contagious, self-acting, time and labour-saving, and milk-preserving—cheap, simple, safe. These milkers are now largely used all over the world.

EXTRACTS FROM A FEW OF A LARGE NUMBER OF LETTERS.

"I consider the Pocket Milking apparatus an excellent milking machine; it milks the cow perfectly dry in four minutes. In cases of sore teats it is invaluable, as it removes the milk without the slightest pain to the cow."—19th December, 1865.—CAPTAIN SMYTH, Fedemore, Limerick.——"I consider Barland's Milking Apparatus invaluable."—H. MURRY JUNUS, Justice of the Peace, Baillie-aux-Crampail, Limerick, 1865.——"This diminutive apparatus is one of the most valuable that can be brought under the notice of the agricultural and farming interests."—*Morning Advertiser.*——"We feel ourselves justified in calling the attention of our readers to this apparatus."—*Bell's Messenger.*——"Having given the Patent Pocket Milking Apparatus a fair trial, I am pleased to inform you that I deem it very useful. There is no difficulty in the use of it, in the hands of the most inexperienced."—G. TAYLOR, Land Steward to Baron De Rothschild, Mintmore Castle.——"I will try the Tubes every day wherever I go."—September 29th, 1865. "I have dissected the udder of a cow, with the view of enabling me to form a correct opinion of the merits of these tubes."—October 16th, 1865. "Without offering an opinion for the present, as to the chief merits claimed for the invention, I think that the advantages of these tubes in extracting milk from sore teats are so great that no dairy should be without them."—October 24th, 1865.—THOMAS BALDWIN, Albert Model Farm, Dublin.——"I shall highly recommend them professionally."—G. WARD, Veterinary Surgeon, Farnfield.——"Especially useful in the absence of milkmaids."—Shatton Farm, Warwick.——"All have expressed to us their full satisfaction of its efficiency."—HELMSING AND SON, Russian Vice-Consulate, Hull.——"One of my cows was literally milked dry in four minutes, the animal remaining all the time perfectly quiet. The apparatus gives entire satisfaction."—C. CHAMBERLAYNE, Lord of the Manor, Stow-on-the-Wold.

The Apparatus is sent post free to all parts upon receipt of postage stamps, or post office order, payable to BARLAND and Co., 32, Surrey Street, Strand.

TRADE MARK.

WARNER'S SILICATE OF IRON PAINT.

The peculiarities and advantages of this paint are, that

IT WILL STAND EXTREME HEAT AND DAMP,

AND IS NOT AFFECTED BY

Acid, Sea Water, Sulphuretted Hydrogen, or Ammonia.

It is equally well adapted for

IRON, WOOD, BRICK, OR CEMENT.

THE advantages of this paint are, that being a Silicate of Iron, it is indestructible, and adheres so tenaciously to all materials, that even sheet iron may be bent until it breaks, without the paint coming off. It also preserves all materials coming in contact with acids, and will effectually exclude all damp from walls, and, having no smell, it recommends itself for inside painting, also for its quickness in drying, without the use of ordinary driers or turpentine, and the entire absence of any deleterious effects in using the paint, is of great advantage to the workman.

STUCCO FRONTED HOUSES painted with the Bright Stone, have a beautiful smooth, hard surface, will wash like polished marble, and retain the SOFT DELICATE SHADE of colour.

This Paint is a better preservative than WHITE LEAD, and is FAR CHEAPER, the covering properties of each being as follows:—

28 lbs. of White Lead will cover 940 superficial feet.
28 lbs. of Stone „ „ 1300 „ „
Or, about 40 per cent. in favour of the Stone Colour.

EVERY SHADE OF COLOUR GROUND IN OIL TO ORDER,

And only requires thinning for use.

CONTRACTS ENTERED INTO FOR PAINTING.

The SILICATE OF IRON COMPOSITION prevents the adhesion of barnacles and seaweed to ships.

Cement prepared with Silicate of Iron Powder instead of sand, is imperishable, and hardens after setting, which is invaluable for works requiring immediate painting, and SAMPLE BLOCKS can be seen at the Rooms of the Architectural Association, No. 9, Conduit St., Regent St., of Portland Cement, and Silicate of Iron. This mixture becomes in a few hours as hard as iron, and is particularly valuable for repairs of compo and damp walls. The Old Jewry Chambers have been repaired with this, and painted with one coat of Bronze Black Silicate of Iron, and three coats of Stone Colour; Nos. 1 and 2, Adelaide-place, London Bridge, have had two coats of Stone Colour only; and references will be given to Architects who have had it used both indoors and out.

WARNER'S ANTITERMITE COMPOSITION

At 1s. per gallon, is a cheap preservative for iron external surfaces, and is specially prepared to preserve Wood in India from the ravages of the White Ant; it is equally useful for painting the blank side of Paper-hangings, as a preservative against damp walls. Samples can be seen in Conduit St., or at

FIFTH YEAR of JAMES SPRATT'S Dog Cakes. These Meat Biscuits contain 20 per cent. of pure fibrine, the dried unsalted gelatinous parts of prairie beef, wheat, oat, and malt meal. May be ordered ground, or spiced, famous for game, ducks, or poultry, and thick shell. Either 21s. per cwt., less by ton or 5 cwt. Prairie Meat Crissell takes the place of insect life. Handful a day every dozen hens (24s. per cwt.). Prairie Meat Muscle (28s. per cwt.) to boil up for dogs. For Holborn P.O. order sent carriage and bags free, 1 cwt. 100 miles; 2 cwt. to England, Ireland or Scotland. Address, 18 and 21, Middle-row, Holborn. "Samples free."

DOUGALL'S PATENT LOCKFAST,

By yearly increasing celebrity, justifies the award of the only medal granted for breech-loading mechanism at the 1862 Exhibition. Its peculiar solidity enables the barrels to be treated so as to prevent either undue scattering, or that "balling" of the shot notoriously the fault of many breech-loaders. In shooting powers this gun beats the best muzzle-loaders, and the Inventor is at all times prepared to prove this to gentlemen bringing crack guns to be shot against. The accuracy of LOCKFAST RIFLES is equal to, and the force much greater than, that of muzzle-loaders. The patronage of His Royal Highness the Prince of Wales, and of the most scientific and experienced sportsmen and deerstalkers, is a further proof of its superiority. In India it is unrivalled, with continually increasing demand. The heavy charges of gunpowder which this rifle alone can stand with perfect safety and ease to the shoulder, give sufficient velocity to destroy large and ferocious game with one bullet (see repeated letters from Lieut. Forsyth and others in *The Field*), and a nearly flat trajectory, so that only one sight requires to be used to all sporting ranges, an invaluable quality possessed by no other large bore rifle whatever. *This is the only central fire gun which cannot be discharged by closing the mechanism, a most valuable quality for the prevention of accidents.*

Prices and all particulars free on application to the INVENTOR and PATENTEE, 59, St. James's-street, London, and 23, Gordon-street, Glasgow, sole Breech-loading Medallist in 1862. Business established in 1760.

T. & H. SMITH'S

ESSENCE OF COFFEE,

In the proportion of a tea-spoonful to a cupful of boiling water or milk, instantaneously produces the most delicious Coffee, combining the richness and mellowed flavour of aged Mocha, with the strength and fulness of the finest Jamaica, without a particle of a sediment; and found to be a very great convenience to single gentlemen, professional gentlemen, travellers by land and by sea, ship officers, hotel-keepers, &c.

Independent of its advantages both in respect of quality and instantaneous supply, it will be found to be equally economical with Coffee prepared in the ordinary way, and is known by medical gentlemen who are acquainted with it to be *more wholesome*—and particularly suitable for those with weak digestive powers, and invalids—*than coffee prepared in the ordinary way*, in consequence of the absence of the strong acid from the woody portion of the bean.

Prepared and sold by T. and H. SMITH, 21, Duke-street, Edinburgh, and 69, Coleman-street, London, in Bottles, 1s. and 2s. each, and may be had of most respectable Grocers, Italian Warehousemen, and Druggists throughout the United Kingdom.

Extract of a Letter from the Rev. A. Taylor, Missionary S.P.G., dated Secundrabad, June 19, 1866.

"You will be surprised to hear from me, but I trust that the occasion which leads me to send you these few lines will prove gratifying to you. You remember, no doubt, my being in Vepery church compound as a catechist of the Society for the Propagation of the Gospel previous to my going to Mauritius; and I think you must also remember having recommended 'Morrison's Pills' to me (sixteen years ago) when Grace, my eldest child, was very unwell. Now, I have to say, that since then I have used this valuable medicine, and I have been instrumental in bringing it to the notice of many of my acquaintances, many of whom I believe, continue to use it both in Mauritius and in Southern India."

BLAIR'S GOUT AND RHEUMATIC PILLS. Price 1½d. and 2s. 9d. per box. This preparation is one of the benefits which the science of modern chemistry has conferred upon mankind; for during the first twenty years of the present century to speak of a cure for the Gout was considered a romance; but now the efficacy and safety of this medicine is so fully demonstrated, by unsolicited testimonials from persons in every rank of life, that public opinion proclaims this as one of the most important discoveries of the present age. These Pills require no restraint of diet or confinement during their use, and are certain to prevent the disease attacking any vital part. Sold by all Medicine Vendors, or obtained through any chemist.

FRAMPTON'S PILL OF HEALTH. This excellent Family Medicine is the most effective remedy for indigestion, bilious and liver complaints, sick headache, loss of appetite, drowsiness, giddiness, spasms, and all disorders of the stomach and bowels; and where an aperient is required, nothing can be better adapted. PERSONS OF A FULL HABIT, who are subject to headache, giddiness, drowsiness, and singing in the ears, arising from too great a flow of blood to the head, should never be without them, as many dangerous symptoms will be entirely carried off by their use. For FEMALES, these Pills are truly excellent, removing all obstructions, the distressing headache so very prevalent with the sex, depression of spirits, dulness of sight, nervous affections, blotches, pimples, and sallowness of the skin, and give a healthy, juvenile bloom to the complexion. Sold by all Medicine Vendors, at 1s. 1½d. and 2s. 9d. per box, or obtained through any Chemist.

HEATING BY HOT WATER.

It is now generally admitted that Buildings of any kind can be more effectually warmed by Hot Water than by any other means; but as so much depends on the way in which the Apparatus is fixed, it is of the greatest importance that it be done by experienced men.

J. JONES & SONS have every facility for executing work in the best manner at a moderate cost, and having the largest stock in the kingdom of Boilers, Pipes, &c., they can complete work without delay, their great experience in Hot Water Heating enables them in all cases to supply an Apparatus best suited to the purpose for which it is intended, and thev will be happy to send to any part of the Country at a moderate charge, to take particulars of work, and prepare plans, &c., or on receipt of particulars per post, they will forward estimates free of charge.

J. JONES & SONS having been so extensively patronised for many years by the nobility, clergy, gentry, and others, are enabled to give references to work done in nearly every part of the kingdom.

J. JONES & SONS are prepared to estimate for Warming, to any extent—

CHURCHES.	GREENHOUSES.	HALLS & PASSAGES.
CHAPELS.	CONSERVATORIES.	PICTURE GALLERIES.
SCHOOLS.	VINERIES.	MUSIC ROOMS.
LECTURE HALLS.	HOT HOUSES.	BILLIARD ROOMS.
BANKS.	FORCING PITS.	BATHS.
PUBLIC OFFICES.	PINE STOVES.	DRYING CLOSETS.
WAREHOUSES.	PEACH HOUSES.	COACH HOUSES.
FACTORIES.	ORCHARD HOUSES	HARNESS ROOMS.

J. JONES & SONS' Apparatus is simple in construction, moderate in cost and economical in working.

It is equally available for the Amateur's Green-house, or the longest range of Forcing Houses; for the smallest Chapel or the largest Church; for Private Offices or those of Public Companies.

It is admirably adapted for Dwelling Houses, as coils of pipes can be placed in any part, for warming the various rooms. One or more Baths may be heated from the same boiler, and a constant supply of hot water obtained in any part of the house.

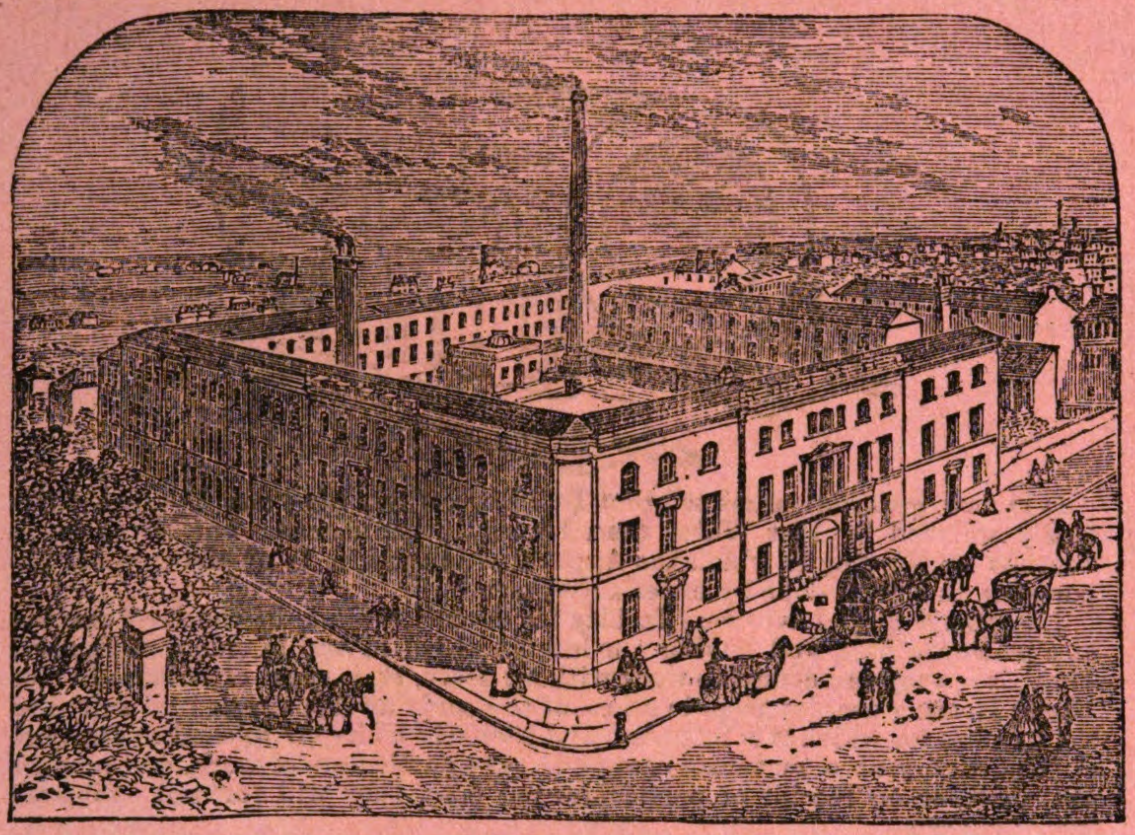

For Warehouses and Workshops this system of heating is unsurpassed, as, unlike stoves and hot air flues, the circulation of hot water in pipes is perfectly safe, and the management of Apparatus can be left to any ordinary workman.
