THE EXTRAORDINARY SUCCESS OF MESSRS. GABRIELS' PRODUCTIONS—UNPARALLELED IN MECHANICAL DENTISTRY—the remarkable simplicity of arrangement, together with the wonderful amount of comfort enjoyed by the wearer, as well as the perfectly indestructible nature of the materials employed, which last a lifetime, have produced a host of imitations, and the usual results in such cases. Certain persons, unable to adopt MESSRS. GABRIELS' improvements, have imitated their advertisements, and adopted other methods, so as to lead the public to believe that they can supply Messrs. Gabriels' inventions. Messrs. Gabriel feel it a duty they owe to their patients, as well as to themselves, to state that their productions can only be obtained as now advertised. Addresses as under:

All goods manufactured by JOHN C. ONIONS are of the best make. Particular attention is called to the above-named articles, as certain disreputable makers have copied his pattern to a certain extent, and under the guise of supplying cheaper articles have succeeded in some few cases, causing serious annoyance and trouble, owing to their defective make.

Many Testimonials have been received from practical men; and the high estimation in which his Forges are held by the principal Engineers, Railway Companies, and others, on account of durability and power, is sufficiently demonstrated by the increased demand for them.

TO THEIR SUBSCRIBERS AND THE PUBLIC.

The Proprietors of this publication, in presenting themselves for the first time as Directory Compilers, think a few words of explanation necessary.

Ever since the retirement of Mr. Wrightson from among us, Birmingham has been without a genuine home-made Directory; certainly, our well-favoured old town has since then suffered the fate of ancient Britain over again—a periodical raid of "*foreigners*," who, making their incursions every four or five years, get up "*Directories*" so imperfect, as to be humiliating to ourselves and the wonder of our customers. In this wretched state of things, as BIRMINGHAM WITHOUT A BIRMINGHAM DIRECTORY, the question was continually asked—"Are not you Birmingham men able to produce a proper Directory of your own district?" The present volume is an attempt to answer this query in the affirmative.

Few persons, but those who have tried it, are aware of the heavy outlay of capital, the risks and incessant labour attending Directory compilation, and the accurate disposal of its 300,000 names, ever shifting and changing. Had any other of their fellow townsmen undertaken this indispensable work, the present compilers would gladly have felt relieved from the responsible task, but, as none did offer themselves, they have, and ask indulgence for the first of a series of Annual Directories *(each to be better than the last)*, and also ask for the support of their townsmen for this work now once started at a great expense and much anxious labour.

The Corporation Directory of Birmingham, &c., is the distinctive title chosen, from a peculiarity of arrangement and other reasons, and the proprietors return their best thanks to the Corporate Officers of the various boroughs for their kind assistance.

The Corporation Directory of Birmingham aims to be a genuine Birmingham book, to be a perpetual record of every name and occupation of its residents, and of every Institution and Society in it for the current year, as far as can be collected by experienced agents thoroughly acquainted with the hardware district and its inhabitants. The book has been elaborated and completed by Birmingham men, and from Birmingham men it hopes to derive its chief support; and, as there can be only one way of keeping pace with the incessant changes which daily take place, and all commercial men are agreed upon the necessity of an Annual Directory, the compilers also feeling convinced that the Public are disposed to support townsmen in preference to strangers in a work which only townsmen can do properly, they beg leave to announce that they have commenced preparations for the next year, and their agents will again make their canvass of the town and district as early as possible for the CORPORATION DIRECTORY OF 1862.

The public are, therefore, respectfully solicited to reserve their orders for the CORPORATION DIRECTORY OF BIRMINGHAM FOR 1862. An agent will wait upon each householder shortly. The public are also respectfully cautioned to beware of unprincipled persons who state they are agents of Cornish's Corporation Directory, when they are not: *a few questions will discover the deception.*
