DIRECTIONS

**DIRECTIONS for Travellers, &c. when to pass
the SEVERN between ENGLAND and WALES.**

At Aust (or the Old Passage) it is about two miles over to Beachley, in the parish of Tidenham, Gloucestershire. This is the direct way to Newent, Newnham, and all the Forest of Dean, Herefordshire, Worcestershire, and the upper part of Monmouthshire.

At the New Passage, it is about three miles over at high water to Port Skewith, near St. Pierre, in Monmouthshire. This is the direct way to Cardiff, Caerleon, Pontypool, and most parts of South Wales.

As the crossing at either of the above Passages depends on the winds, it is necessary to observe, that they distinguish but two winds for passing, viz. winds below, and winds above.

Winds below, are when it blows up the river Southerly or Westerly. With these you may pass during the ebb or going out of the tide, which is 7 hours.

Winds above, are when it blows down the river Northerly or Easterly: with these there is 5 hours passing, on the flood or coming in of the tide. When the wind is S. E. or N. W. it is directly across the river, therefore you must be at the Passage where you intend to cross, an hour before high water.

The difference of passing at Aust and the New Passage, varies about an hour; tide coming in, wind above, New Passage is an hour sooner than Aust; tide going out, wind below, Aust is an hour sooner than New,

Prices of Passage.

A four wheel carriage 10s. Two wheel ditto 5s. Man and Horse 1s. Horse alone 8d. Foot passenger 6d. Cattle per head 6d. Sheep or pigs per score 2s. 6d.

N. B. A small boat hired on purpose to cross over is 5s. exclusive of passage.
