Similar complaints were heard long ago upon the Continent ; hence the establishment of places like the public Trade School of Leipsic. Having witnessed the working of that Institution and kindred ones during a residence of several years abroad, I opened a Private School in 1852 at Peckham, near London, for "first-class business pursuits." Besides instruction in our mother tongue, in writing and accounts, and more than common attention to modern languages, object lessons are given here by Chemists, Geologists, Botanists, and others, on the nature and use of many raw materials ; historical lessons on the origin and progress of particular branches of national industry ; with special lessons on some of the applications of science, on remarkable inventions, on trade marts and trade routes,—on real knowledge, in short, of interest to the young, and valuable in a counting-house, though seldom obtained beforehand.*

Habits of order, punctuality, and dispatch are carefully encouraged, or, if necessary, enforced.

The School has been so far successful that for seven years past there have never been in it on an average fewer than 150 boys, day-pupils and boarders,—last year there were 200. Among them have been Dutch, French, German, Spanish, North and South American, East and West Indian, African, and Australian boys, and some from nearly all parts of the United Kingdom.

The pupils are classified, according to age and capacity, into three distinct departments : the preparatory, the middle, and the upper. Sons of the opulent, from this latter, have been sent by their relatives into large establishments, where they have uniformly given satisfaction ; but others, equally well educated, have had to wait for employment, through want of necessary introductions.

On behalf of such youths, and for the convenience of employers also, allow me to ask the favour of an inspection of the School. The visits of strangers, particularly of foreigners, are always welcome.

In May 1863, one certificate of honour and two of merit were given to my pupils at the Evening Classes, King's College, for a knowledge of the principles of commerce. The highest distinctions for Drawings and Models have been awarded to Students of Art whose training began here.

I have the honour to be,

Gentlemen, faithfully yours,

Peckham, London, S.E.

JOHN YEATS, LL.D.

THE DIRECTORY now before the Public has been carefully compiled by a personal canvass, and corrected to May. It is divided into four sections, so as to render it as useful and comprehensive as possible, whilst being thoroughly accurate and reliable. The information in the several localities has been also carefully revised by residents, to whom we now tender our acknowledgements, and we trust the work will prove a useful and substantial addition to the Local Press. As errors will necessarily occur in the production of a work of this nature, our friends will oblige by sending corrections of them to the various Publishers for insertion in future editions. We look with confidence for a large circulation, considering the lowness of price and the care bestowed upon every section of the Work. The 2nd annual issue will be published in May, 1867.

June, 1866.

EARLY IN JANUARY, 1867, WILL BE PUBLISHED
 THE
SECOND ANNUAL ISSUE
 OF THE
OXFORD DIRECTORY,
 PRICE ONE SHILLING.

The **SECOND ANNUAL ISSUE** of the above Directory will be carefully revised and several improvements added. It will be divided as heretofore, into four sections, viz., Street, Commercial, Trade and Court, so as to render it as useful and complete as possible.

COMFORT FOR INVALIDS.

BY HER MAJESTY'S ROYAL LETTERS PATENT

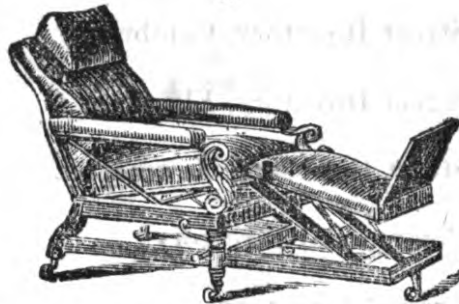

J. ALDERMAN

16, SOHO SQUARE, LONDON.
MANUFACTORY:—DENMARK STREET.

GENERAL GARIBALDI'S BED OR COUCH, SUPPLIED BY J. ALDERMAN.

No. 1. This Bed or Couch, which is a handsome piece of Furniture, is composed of six distinct inventions, which J. ALDERMAN has made from time to time, so that now the most perfect rest, free from all pressure, is given, in any conceivable position.

No. 2 is J. A.'s Patent Graduating Elastic Self-adjusting Invalid Chair. This Chair, like the Couch, is made to follow nature in every respect, as the back, the arms, the seat, and the leg-rest, are made to work at the same time, so that not a muscle of the patient need be disturbed. The arms are also made to put on and off in an instant, so that the patient can get on and off from either side while the leg-rest is out.

The following gratifying Letter has been received by Mr. ALDERMAN from General GARIBALDI:—

“Caprera, August 20th, 1863,—Mr. ALDERMAN,—Some time ago I addressed to you a few words of thanks for your magnificent bed, which has been so great a comfort to me during my illness. Now I hear, with regret, that my letter has miscarried, and I willingly come forward again to express my gratitude to you. You have alleviated half my sufferings. My affectionate thankfulness will accompany you eternally. Accept a grasp of the hand from yours ever,
“G. GARIBALDI.” (Copy)

No. 3 is J. A.'s Patent Portable Equilibrium Carrying Chair, which enables an invalid, however weighty, to be carried up and down stairs with perfect ease and safety. The Chair, always adjusting itself, enables the two persons who carry to walk up and down stairs in the usual way, quite erect, with their arms straight down, which avoids any strain upon their muscles. It is also a perfect Easy Chair for the patient to sit in during the day, the carrying handles being made to hook on and off in an instant.

These Inventions are to be seen at
J. ALDERMAN'S SHOW ROOMS,
16, SOHO SQUARE, LONDON.

CHEAPNESS, ELEGANCE, AND DURABILITY.

FRANCIS LYNCH,

WHOLESALE AND RETAIL

Patent Pianoforte Manufacturer,

SHOW ROOMS—

**3, 5, & 6, STOCK ORCHARD TERRACE,
CALEDONIAN ROAD, LONDON, N.**

MANUFACTORY—STOCK ORCHARD CRESCENT.

F. LYNCH respectfully offers his acknowledgments to the Trade and Public generally for the liberal and increased support he has received.

Professionals and others, who have not yet given his Instruments a trial, are respectfully informed of the fact that, from his extensive practical experience, he is enabled to offer them every variety of Instrument, which, for an extraordinary quality of Tone, Touch, Durability, and Finish, cannot be excelled by any House in London.

All Pianofortes supplied by F. LYNCH are manufactured on the Premises, by the most experienced workmen, and under his own personal supervision. The increasing demand for them is a proof of the manner in which they are appreciated, having been sent to every district in England. New purchasers will be furnished with guarantees, and receive such attention as must elicit universal approbation.

THE NEW PIANETTE.

FRANCIS LYNCH particularly wishes to draw the attention of Professionals and Private Families to his New Pianette, with French Escapement Action. They are particularly worthy the attention of the Trade, being the best made, fullest tone, quickest action, and cheapest yet introduced. They are full compass Trichords, with the celeste pedal, which avoids the objectionable practice of shifting the action when tuning. They have light bracings, with extra screws on wrest plank and sound board, metallic plates throughout, the patent small work, and may be relied upon as perfectly sound Instruments, suitable for the Cottage or a Mansion.

These Instruments are so secured, that if sent to an extreme climate, they would never depart from their usefulness.

Merchants, Shippers, and the Trade liberally treated with.

EVERY INSTRUMENT WARRANTED.

Illustrated Book of Designs, with Price Lists, &c., &c., forwarded on application Free by Post.

CHOLERA.

Extract of a Despatch from Her Majesty's Consul at Manilla, transmitted to J. T. Davenport by Earl Russell:—

“The remedy most efficacious in its effects (in Epidemic Cholera) has been found to be CHLORODYNE, and with a small quantity given to me by Dr. Burke I have saved several lives.”

*** *Earl Russell communicated to the College of Physicians that he had received a Despatch from Her Majesty's Consul at Manilla, to the effect that Cholera had been raging fearfully, and that the only remedy of any service was Chlorodyne.—See LANCET, December 31st, 1864.*

CAUTION— CHLORODYNE IN CHANCERY.

Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne—that the statements of the Defendant Freeman were deliberately untrue, and he regretted to say they had been sworn to. Eminent Hospital Physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely; and mean no other than Dr. Browne's.—See *Times*, July 13, 1864. The following eminent Firms stated that Dr. J. Collis Browne was the discoverer of Chlorodyne, and that they always supplied his preparation as the Original Chlorodyne, or when Chlorodyne was asked for:

The Apothecaries' Hall, London.

Messrs. Allen and Hanbury	Messrs. Corbyn and Co.
„ John Bell and Co.	„ Morson and Son
„ Barron and Harvey	„ Savory and Moore
„ Burgoyne and Burbidge	„ Cox and Gould

The Public, therefore are cautioned against using any other than

Dr. J. COLLIS BROWNE'S CHLORODYNE.

This INVALUABLE REMEDY produces quiet, refreshing sleep—relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body—without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively, using it in great quantities in the following diseases:—

**Consumption, Asthma, Bronchitis, Whooping Cough,
Neuralgia, Diarrhoea, Rheumatism, Spasms, &c.**

Important Testimonials from numerous Medical Men accompany each Bottle.

CAUTION.—Always ask for “DR. J. COLLIS BROWNE'S CHLORODYNE,” and see that his name is on the Government Stamp.
Sold only in Bottles, at 2s. 9d. and 4s. 6d., by all Chemists.

Sole Manufacturer, J. T. DAVENPORT, 33, Great Russell St.,

THIS invaluable remedy always relieves in a short time the pain of these complaints, however acute it may be, and, if persevered in, will effect a cure when every other has failed. They are prepared from the original receipt, solely by Mr. G. LEA, Camberwell, Surrey, in Boxes at 1s. 1½d. and 2s. 9d., and may be ordered of any Medicine Vendor, or sent free by the Proprietor for 15, 36, or 60 postage stamps.

OPINIONS OF THE PRESS.

“A most valuable and important discovery.”—*Daily News*.

“The greatest wonder of modern medical science.”—*Sun*.

“The efficacy of LEA'S GOUT and RHEUMATIC PILLS is proverbial; it is therefore by no means surprising that the public demand for them should be so extensive.”—*Daily Telegraph*.

“LEA'S GOUT and RHEUMATIC PILLS are excellent. We do not hesitate to say that the Proprietor has conferred a great boon on the public, in introducing so valuable a remedy.”—*Morning Star*.

THE
OXFORD DIRECTORY
FOR 1866.

NOTICES OF THE PRESS.

"OXFORD DIRECTORY.—An Oxford Directory for the year 1866 has just been published. It consists of a list of the principal gentry of the city, and a street, trade, and commercial directory, the whole being arranged in excellent order, and as far as we can judge, with tolerable accuracy. Some miscellaneous information of a useful kind is appended, and the book, in its completed shape, supplies a want which has long been felt in Oxford."—*Oxford Chronicle*, March 3, 1866.

"THE OXFORD DIRECTORY FOR 1866.—A new Directory (Gentry, Street, Trade, and Commercial) for Oxford is just published. It is the first Directory that has appeared here embracing the above information, and is made up to the end of January, having been carefully revised by several gentlemen in Oxford, and especially by Mr. Alderman Spiers, who has done similar good service on previous occasions. The Directory is most complete and full of information relative to the University and City, their officers, institutions, post office regulations, cab fares, list of carriers, &c. The Directory is published at the low charge of one shilling, the compilers trusting to an immense sale, which it well deserves, to remunerate them for the vast amount of time, labour, and expense which they have bestowed upon it."—*Oxford Times*, March 3, 1866.

PREPARING FOR PUBLICATION,
THE
Brighton & Suburban
DIRECTORY,
AND
THE NORWICH DIRECTORY,
PRICE TWO SHILLINGS EACH.

All the above Directories are divided into four sections—viz., STREET, COMMERCIAL, TRADE, and COURT, besides containing a large mass of very valuable information.
