P. G. GRANT'S

MAGNETIC

Belts, Lung Invigorators, Chest Protectors, Spine Bands, Knee Caps, Anklets, Wristlets Pads, Nerve Invigorators, Soles, &c.,

Which have now become so famous for the Cure and Releif of ASTHMA, BRONCHITIS, and many other Affections of the CHEST and THROAT, INDIGESTION, LIVER COMPLAINTS, CONSTIPATION, RHEUMATISM, LUMBAGO, SCIATICA, NEURALGIA, SPINAL DISEASE, NERVOUS or GENERAL DEBILITY, &c., &c.,

THESE HIGHLY IMPROVED

MAGNETIC CURATIVE APPLIANCES,

Offer the most convenient and effectual method by which Magnetism can be applied for curative purposes. They are worn on various parts of the body with as much comfort as any ordinary garment. They generate electricity without the aid of acids, chain bands, or Voltaic batteries, thus avoiding all possibility of sores or ulcers to the wearer. They need no attention whatever, and are so simple in their adoption that a child may use them with perfect safety. The most nervous invalid need not fear to wear them, for they occasion no shocks or other unpleasant phenomena, the genial glow of health alone testifying that their influence is at work.

GRANT'S Improved Appliances contain the highest possible Electro-Magnetic Power, combining the greatest Curative properties with durability and excellence of workmanship are now **one half cheaper than when first introduced.**

Thousands of cures have been effected by these appliances during the past few years, and fresh Testimonials are being daily received, from which the following are a selection.

Testimony of Dr. H. J. Gordon,

Late Surgeon to Anchor Line s.s. Ethiopia,

August 1st, 1883.

This is to certify that I have examined the Magnetic Appliances of Mr. Grant, of Carlisle. They are far superior to any I have yet seen, and I have seen better results from them.

H. J. GORDON,
L.R.C.S., L.R.C.P., Edinburgh.

Testimony of Dr. Milne.

Edinburgh, August 2nd, 1883.

Sir,—I have found that YOUR Curative Magnetic Appliances are the most useful of many similar appliances in Chronic Rheumatism and all diseases of joints.

JAMES MILNE, M.B., C.M., Edinburgh.
Mr. P. G. Grant, Carlisle.

Paralysis.

Carlisle Collegiate School,

37 Castle Street, March 26th, 1884.

Dear Sir,—I shall be glad if you will repair the Magnetic Appliances which you supplied for my little daughter about eighteen months ago. I am happy to say that after she had worn them twelve months she was able to raise her arm and open her hand, both of which before were quite paralysed, and had been so for nearly three years.—Yours truly,

JOHN N. BISSELL, Head Master,
Carlisle Collegiate School.

Asthma of Thirty Years' Standing.

Testimony from James Bone, Yeoman.

Cargo, near Carlisle, February 24th, 1883.

Mr. Grant—Dear Sir,—In October last I purchased one of your Magnetic Lung Invigators. For thirty years before I had suffered with Athsma, and my breathing was so short that I could hardly get upstairs, and for many months prior to my wearing the Appliance I had a troublesome cough, causing great debility and depression. Finding that Medicine did me no good I determined to try your Magnetic Appliances. I shall never regret the day I made the purchase, for with thankfulness I say that I had not worn it many days before I found relief, and at present the cough has all but left me, I am now able to get a good night's rest, my spirits are better, and in fact I feel better in every respect. I can, therefore, recommend your Appliances, and shall always endeavour to persuade others similarly affected to wear them. When I first saw you I told you that I had no faith in your Appliances; now I believe and know that health is restored and maintained by Magnetism. I am glad to know that you are so successful in the sale of your Appliances. You are at liberty to publish this if you please.

Indigestion.

15 Corporation Road, Carlisle, May 10, 1893.

Dear Sir,—I have for some time past suffered with Indigestion and Nervousness. I procured your Magnetic Appliances, and by their application find my system generally benefitted. The digestive organs are regulated, and I am no longer troubled with nervousness. I shall feel it a pleasure to speak in your favour to any inquirer.—Yours truly,

GEORGE STORY.

The APPLIANCES are forwarded POST FREE to any Address in the United Kingdom. A Phamphlet, containing Testimonals, Price List, and general information regarding the Magnetic Appliances, may be had Gratis on applcation or will be forwarded Post Free.

No charge for consultation, either personally or by letter.

PUBLISHER'S PREFACE.

The Publisher has much pleasure in submitting a Second Edition of his Directory of Carlisle, which he trusts will meet with as successful a sale as the first one. No labour or expense has been spared to make the work as complete as possible, and to ensure accuracy in the smallest particulars. As the work has been three months in preparation, some changes have taken place since the first sheets of the Alphabetical Street List were prepared. These have been corrected in the Alphabetical Name List. The Trades' Directory has been extended, and the thanks of the Publisher are hereby given to those gentlemen who have so kindly revised the list of their respective trades.

With few exceptions, information has been freely given for all parts of the work, which the Publisher gratefully acknowledges.

CITY OF CARLISLE

CARLISLE, called also "Merrie Carlisle" and "The Border City," is a place of great antiquity. Its fine situation has made it a dwelling place of man for centuries. It was probably a place of importance before the Roman invasion, and its British name has fortunately been saved to us in spite of its change of owners; according to FREEMAN Carlisle is the only city retaining its British name. As a Border City it was of considerable importance to the Romans, and in after years the possession of Carlisle seemed a point worthy of the expenditure of both blood and treasure to the English and Scottish monarchs. Its position made it the key of Cumberland, and it is still the key of the roads on the west coast between England and Scotland. Who was the founder of Carlisle will never be known—but its name Caer Luel proves it to have been the stronghold of a British prince of that name. During the time of the Romans it was known as *Luguvallium*, the great wall passing just north of it at Stanwix. The Romans probably fortified the mound now occupied by the castle, and we have constant proof of their occupancy of much of the ground covered by the city proper. At the Saxon invasion Carlisle formed part of the British kingdom of Strathclyde, and was never conquered by the invaders. It is said, however, to have been eventually laid waste by Danes or Northmen, and to have been all but deserted until the Norman Conquest, when Rufus, seeing its naturally strong position, at once seized it, and ordered the erection of the castle and walls. The Norman

keep of the Castle dates from this time, and the curtain wall of the inner bailey and the commencement of the city wall are doubtless his. The work was proceeded with as rapidly as possible, and Carlisle soon became a place of much importance. It was then looked upon as a Royal City, the property of the Crown, and is nominally so still, but was granted to the Corporation on fee-farm for ever at a rental of £80 per annum, by a charter of by Henry II. This rental was afterwards reduced to £40 per annum, which amount is still paid. Carlisle is situated 301 miles N.N.W. of London; 119 miles N.W. of York; 66 miles N. of Lancaster; 99 miles S. of Glasgow; and 98 miles S.W. of Edinburgh. It stands in latitude 54° 52″ north and longitude 2° 58″ west of Greenwich. It is a Royal Borough, the capital of Cumberland, and gives its name to the See of Carlisle. It stands on a gentle eminence on the River Eden, near the confluence of the smaller rivers Caldew and Petteril. It is much sheltered on the north and east by high fells; and the mountains of the Lake district on the south tend to relieve the city of the otherwise heavy rainfall of the N.W. English district—the average for Carlisle being only 32 inches. For the same reasons thunderstorms of exceptional severity and heavy falls of snow are very rare.

The population of Carlisle at the last census was 35,884, which was an increase of 4,835 on the census of 1871. The subjoined table will show the increase of population since 1763 :—

TABLE SHOWING INCREASE OF POPULATION.

YEAR.	POPULATION.	YEAR.	POPULATION.
1763	4,158	1831	19,069
1780	6,299	1841	21,964
1796	8,716	1851	26,598
1801	9,555	1861	29,417
1811	11,554	1871	31,074
1821	14,531	1881	35,884

Dr. Todd, who was living in 1687, estimated the population for that year at 2,000.

The total population of the County of Cumberland is 258,647. (1881)

Carlisle returns two members to Parliament, a privilege it has enjoyed since the reign of Edward I. The following are the names and addresses of the present Members :—

ROBERT FERGUSON, Esq., J.P., Morton, Carlisle.
SIR WILFRID LAWSON, BART., J.P., Brayton, Carlisle.

It was first represented in Parliament 23 Edward I. by Robert de Greensdale and Andrew de Seller. The annexed table shows the names of the Members for the present century, with their political opinions and, in contested elections, the number of votes by which they were returned :--

There are no separate City Assizes—the prisoners being tried at the Assizes, which serve for both City and County.

The City of Carlisle is a Corporation by prescription. As far back as any records go, the citizens enjoyed certain rights and liberties. The first Charter, however, of which we have any knowledge, was granted by Henry II. This was destroyed by fire, as was its immediate successor, granted by Henry III., but the Charter of Edward I. is still in existence. Edward II., in a confirming Charter, gives leave to the citizens to tax and govern themselves and here is probably the official origin of the Corporation. The subjoined list gives the names of the Mayor and Corporation for 1884 :—

FRANCIS PETER DIXON, MAYOR.

RICHARD S. FERGUSON, EX-MAYOR, M.A., F.S.A.

The City is divided into five Wards, each Ward returning eight members, two of whom are Aldermen and six Councillors. The Councillors are elected for three years and two for each Ward go out of office on the 1st of November each year. The Aldermen are elected by the Council for a period of six years, half of the number retiring every three years.

THE GAS AND WATER WORKS

Are both the property of the Corporation and are under the care of the Gas and Water and Baths Committee, named on page 9. The Corporation bought up the original Gas Works in 1846–47 (being one of the first Corporations to do so) and now own as complete works as can be found in the North of England. They are a source of great profit to the City, large sums having been handed over to the city fund. The last amount set aside being £6000, which has been expended in building the

Ecclesiastical.

DIOCESE OF CARLISLE.

Tradition asserts that a Church has existed on the site of the present Cathedral from time immemorial. We know, however, that in 685 the King granted to St. Cuthbert the city of *Leul* or *Caerleul* as part of his Ecclesiastical possessions, and that a church was then standing. The present Cathedral was commenced about 1092—but Carlisle was not raised to the dignity of a See till 1133—being formed from parts of the Sees of York and Durham. The following is a list of the clergymen and others connected with the Diocese.

Lord Bishop—Right Reverend Harvey Goodwin, *D.D.*, Rose Castle, Carlisle, and 18 Harley street, London, W.

Chaplains to the Bishop—Ven. Archdeacon Prescott, *D.D.* (*examining*); Rev. Canon Chalker, *B.D.*, Rev. Canon Ware, *M.A.*, Rev. Canon Richmond, *M.A.*, Rev. L. E. Goodwin

Secretaries to the Bishop—Messrs Mounsey, Castle street

Archdeacons—Venerable J. E. Prescott *D.D.*, *Carlisle*; Venerable J. Cooper *M.A.*, *Westmorland*; Venerable A. B. Crosse, *M.A.*, *Furness*.

Chancellor, Vice-General, and Official Principal of Consistory Court—Rev. C. J. Burton, *M.A.*

Registrar of the Diocese—J. G. Mounsey, 3 Castle street

For a full list of the Clergy of the Diocese see page 253.

DIRECTORY

OF

STANWIX, RICKERBY, EDENTOWN, ETTERBY, AND STAINTON.

STANWIX is the northern suburb of Carlisle, seperated from the city by the river Eden, and connected by a handsome stone bridge. This bridge forms an important link in the great north road between England and Scotland; and at its erection, in 1812, the sum of £10,000 was voted by Government towards the expense. This bridge was to replace two stone bridges erected in 1600, which crossed the two streams of the Eden, one of which streams called Prestbeck, flowed over the Sands and under the Castle walls. A still earlier bridge (or bridges) stood on the same site, built of wood. The present bridge is still known as Eden Bridges.

STANWIX is usually considered to have been the Roman Station of *Axelodunum*, and the Wall passed through the site of the present village. Traces of the vallum are still to be seen, and stones from the wall are yet dug up in the fields adjoining.

The Parish Church of St. Michael is a handsome stone building, on a most commanding site, forming a feature in the landscape, and visible for many miles. It has been suggested that the original Church was built on the site of a Roman Mile Castle, and the supposed line of the vallum passes through the Church-yard. The benefice is a Vicarage in the patronage of the Bishop of Carlisle. The Rev. J. R. Wood, M.A., is the present incumbent.

The name Stanwix is probably a corruption of *Stanewegges* or *Stoneway*—that is a village on the stone wall or way.

There is a Branch Post Office and money order and telegraph office in Church Street.

RICKERBY or RICHARBY is a small hamlet east of Stanwix, and was formerly a manor of the barony of Linstock. It now belongs to Miles MacInnes, Esq. Rickerby Park, which skirts the north bank of the Eden, affords a pleasant walk for the Carlisle citizens.

ETTERBY and EDENTOWN are townships in the parish of Stanwix, and form the Western extension. They are situate on the high *Scaur* or bank of the Eden, and command a fine view of the city of Carlisle.

STAINTON is a small agricultural hamlet, two miles W.N.W. of Carlisle. It offers no attraction to the visitor.

"CASH ON DELIVERY"

Drapery Establishment

17 ENGLISH STREET.

While keeping a General Stock of all Drapery Goods, there are a few departments of which we make a speciality, in which both for value and variety we stand second to none in Carlisle

Umbrellas are a speciality with us. We keep an immense Stock at all prices.

Ribbons are a speciality with us. We have them at prices never before heard of in Carlisle.

Cashmeres are a speciality with us. In coloured we keep one quality only, viz.—2/- per yard, 46 inches wide. These are regularly sold elsewhere at 2/9. BLACK CASHMERES 1/3 to 4/.

Velveteens are a speciality with us. Black, 1/4 to 1/6; Coloured, 1/10 to 3/8. Fifty shades always in stock. Our Velveteens are all fast pile.

Laces are a speciality with us; so much so that our establishment is regularly known as the "Carlisle Lace Warehouse."

Our system is simple, viz.—BUYING AND SELLING ON NETT CASH TERMS. We never give Credit. We never give Discount. To take 5 or 10 per cent. off obviously necessitates putting the same percentage on before quoting. By our system all are well and honestly treated. Working the trade at the lowest possible remuneration, we can confidently ask those who have not done business with us to give us a trial order, compare with what they get elsewhere, and then for their own sakes deal where they get the best value; we leave the results with confidence to their judgment.

TESTIMONIALS.

LONSDALE STREET,
CARLISLE, July 10th, 1884.

DEAR SIRS,—I have much pleasure in stating that the Eighty Gallon AUTOMATIC FLUSHING TANK, which you erected for me in Portland Place, in this City, gives every satisfaction; and, fed only by rain water, efficiently flushes the sewers of fourteen small houses.

I desire also to add that I am very pleased with the alterations made by you to the W.C. at my own residence in Carlisle by introducing the Patent NATIONAL PAN, with Flushing and Ventilating Pipes, which are a very great improvement on the old system.

Yours faithfully,
F. P. DIXON, MAYOR OF CARLISLE.

GROSVENOR COLLEGE,
CARLISLE, July 12th, 1884.

DEAR SIRS,—The Patent FLUSHING TANK which you have erected at my residence (Grosvenor House) does its work admirably. I consider it an excellent system for flushing sewers; no house should be without it. It only requires to be known to be extensively used.

Yours faithfully,
R. J. BAILLIE, F.R.A.S.

PARK TERRACE,
SILLOTH, 10th July, 1884.

DEAR SIRS,—I have to express great satisfaction with the Patent Self-Acting AUTOMATIC FLUSHING TANK, and also with the VENTILATING PIPES for carrying off the Sewage Gases from the house drains, all of which you erecected at my house recently.

By the adoption of the above, the Sewage Pipes to my house are now thoroughly flushed and ventilated, and I think the sanitary arrangements of a house are not complete without such appliances.

Yours truly,
WILLIAM CRABB.

OAKBANK, SCOTBY,
CARLISLE, April, 1884.

It is with great pleasure I give Mr. BELL this testimonial concerning his Patent Self-Acting AUTOMATIC FLUSHING TANK. I have erected one of the smaller sizes at my house, and am well satisfied with it. Its action is marvellously simple and wonderfully efficient. It is fed with waste water, and not likely to get out of order.

Any information I shall be glad to give to any one who may write me.

W. CARRICK, JUN.
