This College provides a sound liberal and religious Education, so modified as to meet the demands for practical knowledge of the present age.

It recognises the general principle that the *basis* for a good Education must be the same, whether to prepare for the Universities, for the Learned or Military Professions, or for the higher class of Mercantile or Manufacturing Employment. At the same time it also affords a special training for particular pursuits.

The College is divided into two Departments,—the Senior and the Junior. The Pupils in the Senior Department are required to wear an academical dress. Students are admitted into two Departments after nine and fifteen years of age respectively.

A Preparatory Class is also open for boys without limitation as to age.

Occasional Students are admitted to Classes in all the branches of study.

The control of the Instruction and Discipline rests entirely with the Principal.

COURSE OF INSTRUCTION.

The ordinary course comprises Religious Instruction, Classics, Mathematics, English, French (or German), History, Geography, Arithmetic, and Writing.

The Religious Instruction is conducted either by the Principal himself or under his immediate direction. The Ordinances of the Church are administered in the College Chapel.

Those Students who are not going to the Universities, may be exempted at the request of their Parents from learning Greek, and from such Latin Compositions as in the judgment of the

Principal appears unnecessary. The time so gained will be devoted to additional instruction in Mathematics and Arithmetic, to Modern Languages, English, Reading and Composition, or other subjects, suited to their future professions. These Students can learn both French and German at the same time without any additional charge.

The Upper Department is divided into Mathematical Classes not coinciding with the Classical. Every student therefore in that Department has the same advantage as regards Mathematical Instruction, whatever his position in Classics may be.

Experimental Lectures in Chemistry and other branches of Physical Science are given every fortnight to those for whom it is desired.

Complete Practical Instruction in Chemistry, and Chemical Manipulation, on the system followed in the Royal College of Chemistry, may be obtained on payment of the fees specified below. It is intended that three Half-yearly Courses should comprehend all the Practical and Theoretical Instruction in this Science necessary for those who will not require it for their future professions.

Students are prepared for the Military Academies and the Army by a Course of study approved by Military Authority, and suited to the proposed changes in the Military Examinations.

The Course of Instruction in the Preparatory Class includes all the elements of a good English Education, French, (when desired,) and the Latin Grammar.

All the Boarders, and those of the Day Scholars who desire it, are taught Choral Singing at a charge of five shillings for the half-year.

DISCIPLINE.

All the Students who Board in connection with the College are under the charge of the Principal, and are subject to regulations as to bounds, &c. according to their standing in the College. No Student is allowed to be out after dusk, or to go into the town at any time, except when visiting his friends, or by the special leave of the Principal.

The Principal can only be responsible for Day Scholars during that part of the day when they attend the College; but he will make such arrangements with their parents, if they should request it, as may best secure regularity and good conduct in passing to and from College.

A Monthly Report is sent of the conduct and diligence of each Student. At the end of the Half-Year a full Report is also given of his progress in all his studies.

HOURS OF STUDY, VACATIONS, &c.

The Hours of Study in this College are from 9 to 12, and 2 to 5; except in November and December, when the Students leave the College at 4. Half Holidays on Wednesdays and Saturdays.

The Holidays are seven weeks at Midsummer and five at Christmas: at Easter, from the Thursday before to the Saturday after Easter Day; but boys from a distance are allowed to remain during this vacation.

AN INSTITUTION FOR EDUCATING THE DAUGHTERS OF POOR
CLERGYMEN.

Secretary and Treasurer.—Rev. H. V. ELLIOTT.

The children of all poor Clergymen of the Established Church in the United Kingdom, or serving abroad, are eligible, with or without a nomination; the income of the clergyman, the subscription of the person recommending, and the destination of the child to be a governess, being always the points chiefly regarded. Orphans, *cæteris paribus*, are preferred.

Each child pays 20*l.* per annum, which sum includes washing and the more expensive part of the dress after the first year, and medicine if requisite. She is also taught the usual branches of English and French education; the latter by French ladies, resident in the Institution. Music is an extra of 5*l.* per annum; Drawing, 4*l.*; German, 4*l.*; and Latin, 4*l.* Exercises for deportment, 4*l.* 4*s.*; but the Trustees reserve to themselves in the case of each pupil, the decision whether, after due trial, there is a prospect of success sufficient to justify the prosecution of any of these accomplishments. Nor can any alteration be made in the system of education to suit any particular parent's wishes. The external dress is uniform, towards which 3*l.* is paid on admission; but it is afterwards provided without charge. Washing is included in the 20*l.*

The age for admission must be between eight and fourteen, and the children must be able to read and spell with ease.

Donors and Annual Subscribers, in company, if they please, with their friends, and all clergymen of the Church of England, although not subscribers, are entitled to see the Institution on the first Monday in every month, between 2 and 4 o'clock.

Subscriptions received at the Union Bank, and by the Treasurer.

SCHOOLMISTRESSES.**

Top of Rose Hill.

Their previous acquirements are tested by an examination ; and none are admitted unless they can satisfy the Committee in respect to reading, writing, arithmetic, and a competent knowledge of the Holy Scriptures and the Prayer Book, especially the Church Catechism. Candidates for admission are likewise required to declare that their motive in entering the Training School is that they may afterwards devote themselves to the promotion of that object for which the Institution is established. None are admitted under 15 or above 22 years of age.

The payment made by the Pupils or their friends is at the rate of 18*l.* and 20*l.* for the year. This includes board, lodging, instruction, and every expense except clothing. During a series of years this Institution has been silently and unostentatiously effecting a large amount of real good. The poor of this Town and of the adjacent Counties have been recipients of its benefits to an extent which can scarcely be credited. The Town of Brighton and County of Sussex have appreciated its general usefulness, and lent their willing aid in carrying out its benevolent design.

The object of the Institution is to afford Medicine, Leeches, and Advice gratuitously to the indigent poor labouring under diseases of the eye, upon the recommendation of a Governor or Subscriber. Those who are too ill to attend at the Infirmary,

and are unwilling or unable to come into the house, are visited at their own homes by one of the Medical Officers. In order the better to insure this accommodation to the patients, the town has been divided into two districts, each one under the care of one of the Surgeons.

All Subscribers have the privilege of recommending patients in proportion to their respective Subscriptions or Donations.

The Infirmary is open for the reception of patients every morning (Sunday excepted) at 11 o'clock.

No patients received into the house without a letter of recommendation from a Governor or Subscriber, except from Accidents, which are admitted at all hours, subject, however, to regulations.

Donations and Subscriptions received at the Brighton Banks, and by the Treasurer and Hon. Secretary.

Eastern-road, near the County Hospital.

Instituted 1822; Building erected 1853.

Treasurer.—Rev. J. H. NORTH, 10, Eaton-place.

The design of this Institution is to save innocent and unprotected Female Orphans from the too frequent misery attendant on idleness and poverty; to instruct them in such branches of household employment and needlework as may qualify them

to become useful Servants, while care is taken that their instruction and employment shall be such as it is hoped, under Providence, may render them honest and industrious members of society.

The objects of the Charity are poor Female Children deprived of both their parents, who are maintained, instructed, and supplied with clothing by the Institution; and every endeavour made to impress upon their minds the purest principles of religion in conformity with the doctrines of the Established Church.

The Children are admissible into the School from six to ten years of age, and may remain in it until placed out in service, subject to the state of the funds of the Charity, and to the discretion of the Committee as to the conduct and health of the Children.

The object of the Society is to extend the knowledge of the Gospel among the inhabitants of Brighton (especially the poor), without any reference to denominational distinctions, or the peculiarities of Church Government. To effect this object, Missionaries of approved character and qualifications, giving themselves entirely to the work, are employed and paid by the Institution. Their duty is to visit from house to house within their respective districts, read the Scriptures, engage in religious conversation, and urge those who are living in the neglect of religion to observe the Lord's Day and to attend public worship. They make it their business to see that all persons possess the Scriptures, distribute religious tracts, aid in obtaining Scriptural education for the children of the poor, hold meetings for reading and expounding the Scriptures, and prayer, and adopt such other means as the Committee may think necessary for the accomplishment of the object of the Mission.

Subscriptions and Donations received at the Union Bank.

Honorary Secretary.—SIDNEY GURNEY, Esq.

Clerical Secretaries.—Rev. C. E. DOUGLASS, and Rev. J. VAUGHAN.

Its object is to provide the benefit of increased house to house visitation in the poorer and more neglected streets, by bringing home to the inhabitants of the most destitute portions of the town the pure message of the Gospel of Christ. The hands of an over-worked Clergy will thus be strengthened, and their ministrations extended; cases of bodily as well as spiritual destitution will be brought to light; the small contributions of our poorer congregations will be turned to advantage by directing them into a general fund. God's abundant grace and mercy in Christ Jesus, so freely offered to the weary and heavy-laden, will be more widely proclaimed.

Subscriptions received at the Union Bank, and by the Rev. C. E.
Douglass.

Mrs. CRAUFURD.		Miss BESSIE R. PARKES.
Miss CRAUFURD.		Miss PARRY.
Mrs. P. H. HOLLAND.		Mrs. ROTH.

THIS Association has been recently formed by a few Ladies who beg earnestly to recommend it to the attention of all who desire to elevate the physical condition of their neighbours.

It is an acknowledged fact, that by far the greater part of the debility, disease, and premature mortality in this country, is the result of preventible causes; but it is an equally evident fact, that very few preventive measures bearing upon the personal habits of the people have yet been adopted.

The originators of this Association believe, that in a majority of cases, the principal cause of a low physical condition is ignorance of the laws of health; and they have therefore combined to propagate this important branch of knowledge.

Subscriptions will be thankfully received by Mrs. ROTH, 21, Gloucester-place, Brighton.

 Dictionnaire universel des contemporains.
 By G. VAPEREAU.

In One large Volume, Imperial Octavo, pp. 1802. Price 25 francs.

The two-fold object in the publication of this work has been to produce, in the spirit of a large and eclectic truth, unbiassed by prejudice, unflattered by egotism, Biographies of those who by their prominence have acquired a legitimate present fame, for the guidance of the future historian and for the full instruction of to-day.

Every article in the volume has been elaborated with the greatest care, every fact attested with the strictest exactitude; and it is with confidence that the Publishers appeal to the public and scholars of every country in support of their work, as the most complete Biography of all who occupy a niche in contemporaneous history, and whose acts, works, or position attract the public eye or claim the public attention.

THE
BIBLIOTHÈQUE DES CHEMINS DE FER,
 OR
RAILWAY SERIES.

Published at One and Two Francs the Volume.

From the *Saturday Review*.

“An excellent Series of books which of late has received some very interesting additions.”

“The *Vierge du Liban* is a kind of Oriental Jeanne d'Arc which M. Enault's fertile imagination has pictured to us with great power.”

“The *Martyr de Chaumelles*, by M. Goudall, is a very touching picture of rustic life; not as seen from the idyllic point of view, but as shrouded in the ignorance and degradation we so often find among an agricultural population. It is very forcibly written, and the interest is well sustained.”

“M. Laboulaye has collected, under the head of *Souvenirs d'un Voyageur*, a series of exquisite tales, which originally appeared in the feuilletons of the *Journal des Débats*. We find it hard to persuade ourselves that the narratives, which the *Voyageur* has put together from souvenirs of Italy and Germany, are not literally true, instead of being mere *nouvelles*,—the creation of an elegant mind and kindly nature,—so simple and truthful is the calm pathos which warms up every page.”

“*Une Maitresse de Louis XIII.*, by the Veteran Saintine, the author of ‘*Picciola*,’ is a very amusing book; and, in spite of its title, is by no means unfit for that shrine of purity and tea-trays, the drawing-room table.”

“In *Christine*, by M. L. Enault, are some very beautiful creations of character. The scene opens in Stockholm, and closes in the cemetery of Gothersburg; for there rest the remains of the Swedish heroine, Christine, Countess de Rudden, who had bestowed her purest, deepest affection on M. de Simaine, a French attaché at Stockholm, and who dies broken-hearted when she finds herself abandoned by the weak rather than vicious lover, for a vain designing Russian coquette. We may mention, in particular, a certain baron, whose quiet unostentatious devotion to the countess—though he knows his love will never be returned—is portrayed with great power. Admirable, too, is the contrast between the coquetry of the Russian flirt and the true passion of the countess. The book makes us wish for more from the same pen.”

“That *Maurice de Treuil* should remind anyone of the *Newcomes* is in itself no small compliment to the author. Unlike Mr. Thackeray's novel, however, it deepens in pathos and interest to the end. It is thoroughly worth reading—French in all but vice. M. Achard has the talent of observing and noting down the little circumstances of daily life—the inexhaustible and terrible power of minute torture and constant irritation which congenial persons have the power of inflicting on each other in domestic life.”

FOREIGN MONEY EXCHANGED.

F. G. begs to inform the Public that he has just received a new and select assortment of Clocks and Watches of superior workmanship, and can strongly recommend his Silver Watches at £2. 12s. 6d. each, and Gold ditto at £5. 5s., and will guarantee each Watch to go correctly. A large and fashionable assortment of Gold and Silver Chains, and all kinds of Jewellery, at the lowest possible prices. New and Second-hand Plate constantly on sale. Plate and Plated Goods on hire. All repairs in Watches, Clocks, Musical Boxes, Plate, and Jewellery done on the premises by experienced workmen. The utmost value given in cash for Diamonds, Pearls, Watches, Clocks, Plate, Plated Goods, and all kinds of Jewellery.

Principal Advantages of the Patent "Electro Plate."

- FIRST.**—Every article is wrought, hammered, and made by Working Silversmiths, the same as Silver, and afterwards coated or plated with Silver by the Electro process.
- SECONDLY.**—The base or solid Metal is hard and white, possesses the same sound as Silver, is of great durability, and of the same colour as the exterior.
- THIRDLY.**—Electro-Plated Goods are all hard-soldered—that is, all joints are made with hard Silver solder, which is not affected by any heat, and produces a joint as strong as the Metal itself (Pewter or soft solder being used in all other kinds of plated ware.)
- FOURTHLY.**—The union of the plating with the metal is a perfect one, forming one body, unaided by Solder of any kind. Thus in Spoons and Forks more particularly, the advantage over the old method of Silvering by solder is obvious, and they are fully tested in manufacture by the varied processes of polishing, burnishing, and exposure to a red heat.
- FIFTHLY.**—Pure Silver alone must be employed by the Electro process; consequently, all goods thus plated are superior in colour to those plated with alloyed Silver, whilst by the influence of Electricity the Silver becomes hardened, and rendered more fit for constant wear.
- SIXTHLY.**—The Metal being white throughout, they can be engraved at pleasure, which cannot be accomplished where red copper forms the base.
- SEVENTHLY.**—The deposit of Silver on the more prominent parts (such as edges, feet, handles, and ornaments) is, from the nature of the process, stronger or thicker than on the plain surface or parts less exposed to wear, and worthily supersedes the farical thin Silver edges used in the old method.
- EIGHTHLY.**—Every description of style, however elaborate, and whether embossed or engraved, can be plated and gilt with the same facility as a plain surface.
- NINTHLY.**—When worn or injured, all articles can by this process be replated and restored to their original beauty, at a trifling cost, which by the old process could never be effected.

FIRE BRANCH.—THE FIRE DEPARTMENT has a clear available Capital of £80,000 *actually in hand and invested*. In addition to its large Annual Revenue of nearly £60,000, its resources are ample and abundant; its business has recently increased with considerable rapidity, and all *bonâ fide* claims upon it are settled, not only with promptness, but also with liberality. Fire Insurance is so cheap that none should run the risk of a calamity so disastrous when the cost of protection is so small.

LIFE BRANCH.—The advantages of Life Assurance are now so universally recognised, that comparatively little argument is necessary to convince the public that to insure their lives is both the highest wisdom and the truest economy. The principle now meets with general acquiescence that Life Assurance offers one of the easiest methods of providing for a family, of bequeathing a legacy, or of securing a debt, and that as human life frequently deteriorates in quality in proportion as it advances in years, *immediate* assurance is the only safe course. These ideas are so largely adopted that, ordinarily, people do not so much consider the abstract question of *Whether*, but the more practical one of *Where* they will insure.

This Company not only possesses legitimate claims for support, but also offers great inducement to intending assurers. Its business is conducted upon the soundest principles and with strict regard to proper economy; in addition to its large annual revenue, it has a reserve of premiums accumulated, to the extent of £65,000—more than sufficient to meet its liabilities, while the number, wealth, and influence of its proprietary, constitutes such an additional and satisfactory guarantee for the discharge of all its engagements as very few offices possess. The first investigation of the profits of the Association, for the purpose of distribution, will shortly be made, and at present there is every prospect of a handsome Bonus being divided amongst the assured.

Assurances of every description of risk appertaining to human life at moderate rates of premium on healthy lives. In the event of a death happening within the days of grace, the Claim will be paid if the Premiums be tendered before they expire. Prompt payment of claims.

Detailed Prospectuses, with Forms for Proposals, and every information may be obtained on application to THOMAS GRAY, Manager and Secretary, Unity Buildings, Cannon Street, London, or to any of the undermentioned Agents of the Association:—EDWIN BOXALL, 63 Ship Street, Brighton; CHARLES BROOK, 109 Western Road, Brighton; HENRY CHATE, 11 Bedford Place, Brighton; JOHN DENNANT, 4 Duke Street, Brighton; H. J. MURIEL, 56 Marine Parade, Brighton; JOHN SMITH, 8 Pool Valley, Brighton; ARTHUR VESEY, 24 Burlington Street, Brighton; JOHN LEWIS, Jun., Surveyor. Hove; JOSEPH WARD, Builder, Worthing.

SECURITY.—The existing liabilities of the Company do not exceed £3,000,000. The Investments are nearly £1,000,000, in addition to upwards of £600,000 for which the shareholders are responsible, and the income is about £120,000 per annum.

PROFIT.—Four-fifths, or Eighty per cent. of the profits, are assigned to Policies every fifth year. The next appropriation will be made in 1861, and persons who now effect insurances will participate rateably.

BONUS.—The additions to Policies have been from £1. 10s. to £63. 16s. per cent. on the original sums insured.

CLAIMS.—Upwards of £1,250,000 has been paid to claimants under policies.

DIXEY,
Spectacle Maker and Optician,
21 KING'S ROAD, BRIGHTON.

DIXEY'S IMPROVED SPECTACLES, established upwards of 70 years, have gained the patronage of all the Nobility and Gentry, and strongly recommended by the most eminent Oculists and Gentlemen of the medical profession. The Lenses are carefully and scientifically ground, and mounted in Gold, Silver, or Tortoiseshell Frames, at the pleasure of the wearer. Being readily adapted to remedy any defect of vision, they may be worn with ease and comfort by either long or short-sighted persons.

PATENT PANTOSCOPIC SPECTACLES.

These Spectacles are particularly adapted for Clergymen and Public Lecturers, as there is free scope for the eye above the Glasses, at the same time they are always ready and in the best position for reading and such like occupations.

EYE-GLASSES

In every variety of Frames, the Lenses being ground with the same care and attention as those used for Spectacles. Every description of Eye-Glasses always in stock, or made to order. Glasses and Pebbles exchanged, and all repairs and alterations with punctuality and despatch.

EYE-PROTECTORS

For protecting the eye from the glare of light emanating from the reflected rays of the Sun. They are glazed with the best neutral tint; highly prized and recommended, as being the only glass which effectually destroys the rays of light, so pernicious to the sight, especially when the eyes are inflamed from cold or other causes. The Protectors are also much used by the unafflicted in walking, riding, or driving.

N.B.—There are a number of impostors, calling themselves Opticians, continually scouring the country, vending Glasses calculated to inflict severe injury on the wearers. These men are armed with certificates surreptitiously obtained from the medical profession, by which means unsuspecting persons easily become their dupes. It should be borne in mind that any great improvement in Spectacles are more likely to be met with at an established Optician's, than from persons who hawk them from house to house.
